$6 Dividend Series Preferred Stock

The initial quarterly cumulative dividend upon the $6 Dividend Series Preferred Stock has been declared, payable June 1, 1925 to holders of record at the close of business on May 11, 1925. Such holders may at their option receive payment either in cash or in Class A Stock at the rate of 3-50 share for each share of $6 Dividend Series Preferred Stock

On the basis of the present market value of Class A Stock, payment in stock is equivalent to about $1.70 per share or $6.80 per share annually. Certificates for Class A Stock and (or) scrip certificates for fractional shares thereof will be mailed to such holders as do not by written order, received by Seaboard National Bank, 115 Broadway, New York City, on or before May 25, 1925, request payment in cash.

Arrangements have been made for the sale of additional scrip certificates sufficient to make up full shares at the price of $1.00 per full share above, and the purchase of scrip certificates from stockholders desiring to sell the same at the price of $1.00 per full share below, the last sale price for Class A Stock on the day preceding which written request for such sale or purchase is received.

H. C. WICK, Secretary.

Financial

The things that are not seen

UNDER a single Broadway corner in New York are telephone cables holding 88,000 wires.

Of the Bell System's total of 40,000,000 miles of wire, 26,700,000 miles, part of an underground plant costing $465,000,000, are not visible to the subscribers and investors whose homes and offices they serve.

The Bell System wires form a nationwide network connecting 16,000,000 telephones—one to each seven of the country's inhabitants.

Plant and service as extensive as the nation itself underlie the securities of the Bell System.

The dividend rate of the stock of A. T. & T.—parent company of the Bell System—is 9%. This investment stock can be bought in the open market to yield a good return. Write for booklet, "Some Financial Facts."

NEW ISSUE

FREE OF PENNSYLVANIA STATE TAX

$1,200,000

SOUTHERN PENNSYLVANIA POWER COMPANY

First Mortgage & Collateral Trust 6% Bonds, Series "A"

Dated May 1, 1925 **Due May 1, 1955**

Interest payable May 1st and Nov. 1st at the office of the Trustee, Philadelphia, without deduction of 2% of normal Federal Income Tax. Coupon bonds in denominations of $1,000, $500 and $100 registerable as to principal only. Callable as a whole or in part at any interest date upon sixty days' notice at 103. Free of Pennsylvania Personal Property Tax not exceeding four mills. Maryland State Tax refunded to resident holders upon proper application.

The Pennsylvania Company for Insurances on Lives and Granting Annuities, Philadelphia, Trustee.

In a letter Mr. John H. Ware, President of the Company, summarizes as follows:

TERRITORY: The territory served is embraced within the triangle between Lancaster, Penna.; Wilmington, Del., and Baltimore, Md., containing about 1,000 square miles. The main lines of the Pennsylvania and the Baltimore & Ohio Railroad run through the heart of the property for the distance of over thirty miles. The southeast Pennsylvania territory and Cecil County, Maryland, is one of the richest agricultural sections of the United States. In this district are large industries and numerous small and diversified manufacturing plants. The population served is estimated to be in excess of 40,000.

SECURITY: In the opinion of counsel, these Series "A" bonds will be secured by an absolute first mortgage on all the property, transmission lines, etc., owned and operated in the State of Pennsylvania, and also a first mortgage, by deposit with the Trustee, of all of the Bonds and Common Stock, of The Northern Maryland Power Company, which owns and operates the properties in the State of Maryland.

VALUATION: The properties have been examined for us by Independent Engineers who value them in excess of $1,700,000, which includes $300,000 in cash set aside in the hands of the Trustee out of this financing for the completion of improvements.

PROPERTIES: The Southern Pennsylvania Power Company is incorporated in Pennsylvania. It supplies electric light and power in Oxford, Russellville, Cochranville, and Nottingham, Pennsylvania. The Northern Maryland Power Company supplies the cities and towns of Rising Sun, Port Deposit, Elkton, Chesapeake City, Northeast, Perryville, Havre de Grace, Aberdeen and others in the State of Maryland with electric light and power. These companies own and operate over sixty-five miles of main transmission lines of which about thirty miles are being reconstructed to provide additional capacity. A portion of these lines is of steel construction. The Company owns and operates a small hydro-electric plant and two auxiliary steam plants. In addition it has entered into a new contract to purchase power under most favorable terms from the Wilmington & Philadelphia Traction Company (a subsidiary of the American Gas & Electric Company). Power is also purchased from the Edison Electric Company of Lancaster, Pennsylvania.

FRANCHISES: The franchises of the Company, in the opinion of counsel, are perpetual and free from burdensome restrictions.

SINKING FUND: A minimum cash sinking fund operating semi-annually, beginning in 1928, will retire 1½% of the gross amount of Series "A" bonds outstanding for the first five years; 2% for the next five years and 2½% thereafter.

ADDITIONAL BONDS: Additional bonds may be issued from time to time for improvements, acquisitions and betterments to the Pennsylvania and Maryland properties, under carefully guarded restrictions in the mortgages of these companies.

EARNINGS: The earnings of the combined properties for the year ending March 31, 1925, are as follows:

Gross (including estimated earnings of Aberdeen property prior to February 1, 1925)	**$268,175.86**
Operating Expenses, Maintenance and Taxes	**157,502.27**
Net	**$110,673.59**

Our engineers state that due to the new advantageous long-term power contract, and the unusual opportunities for growth of the property, together with the improvements provided for by the $300,000 cash set aside out of this financing, the net earnings for the year ending March 31, 1926, should be in excess of two and one-half times bond interest. Without these the Company's earnings were over one and one-half times interest, had the bonds been outstanding.

These bonds are offered if, when and as received by us and subject to the required approval of any public authorities, as well as subject to the approval of legality for the Company by S. R. Zimmerman, Esq., Lancaster, Pa., and Messrs. Ballard, Spahr, Andrews & Madeira, of Philadelphia, for the bankers.
The accounts have been audited by Will-A. Clader, C. P. A.
We will be prepared to make immediate delivery of interim certificates of The Pennsylvania Company for Insurances on Lives and Granting Annuities, as Trustee.

Price 98 and accrued interest, to yield about 6.15%

New Offering

$2,952,000

Los Angeles Gas and Electric Corporation

General and Refunding Mortgage 5½% Gold Bonds, Series "I" Due 1949

Dated October 1, 1924. Due October 1, 1949. Redeemable on October 1st of any year at 105 and accrued interest until and including 1939, the premium thereafter decreasing ½ of 1% per annum. Interest payable April 1 and October 1 in New York, San Francisco and Los Angeles. Coupon bonds of $1,000 and $500 denomination with privilege of registration as to principal. Exempt from personal property tax in California. The Company agrees to pay interest without deduction for any Normal Federal Income Tax up to 4% which it may lawfully pay at the source. Under the present law the Company pays the 2% tax deductible at the source. Mercantile Trust Company of California, San Francisco, and Security Trust and Savings Bank, Los Angeles, Trustees.

Issuance Authorized by the Railroad Commission of the State of California

The following information is taken from official sources:

The Los Angeles Gas and Electric Corporation carries on a large and profitable gas and electric business in Los Angeles, California, and controls all of the gas business of Pasadena, South Pasadena, Monterey Park, Alhambra, San Gabriel, San Marino, Watts, Huntington Park and Hawthorne, together with a portion of the gas business of Inglewood, Vernon and other suburban districts, serving a total population estimated at about 1,400,000. The gas business of the Corporation or of its predecessors has been in continuous and successful operation for about fifty-seven years, and the electric business for about forty-two years. The properties of the Corporation have been under the same management for over 35 years, and a record of consecutive dividends for over 31 years has been maintained.

CAPITALIZATION

(Upon completion of present financing)

Capital Stock:	
Common	$12,500,000
Preferred 6% Cumulative	17,405,300*
Mortgage Bonds:	
General and Refunding Mortgage (including this issue)	$38,743,500
Underlying (secured by closed mortgages)	6,348,000

* Of the $20,000,000 authorized by the Railroad Commission of California for issuance $18,920,000 (par value) had been sold to May 1, 1925, of which $17,405,300 was fully paid for.

EARNINGS STATEMENT

Years ended April 30

	1925	1924
Gross Earnings	$16,961,055	$13,641,973
Operating Expenses, Maintenance and Taxes	9,691,715	8,372,950
Net Earnings available for Bond Interest, Depreciation, Dividends, etc.	$7,269,340	$5,269,023
Annual Interest Requirements on $45,091,500 Mortgage Bonds outstanding (including this issue)	$2,628,205	

Above Net Earnings Equal to 2.76 Times Bond Interest Requirements

The General and Refunding Mortgage, in the opinion of counsel, is a direct mortgage on all the property of the Corporation subject to the prior liens of underlying (closed) mortgages under which there are $6,348,000 bonds outstanding. This property, including additions provided for by the proceeds of this financing, is valued at an amount largely in excess of the total funded debt outstanding.

WE RECOMMEND THESE BONDS FOR INVESTMENT

$2,250,000

Madison Square Garden Corporation

First Mortgage 7% Sinking Fund Gold Loan

(CLOSED MORTGAGE)

Dated May 1, 1925 — Due May 1, 1945

Interest payable May 1 and Nov. 1 in New York without deduction of Normal Federal Income Tax up to 2%. Pennsylvania and Connecticut 4 mills taxes, Maryland 4½ mills tax, District of Columbia and Michigan 5 mills taxes and Massachusetts Income Tax up to 6% refunded on appropriate request. Participating certificates in denominations of $1,000, $500 and $100, with interest warrants attached, registerable as to principal. Redeemable in whole or in part on 30 days' notice at 105 and interest.

The New York Trust Company, Mortgagee

Sinking fund payments commencing on or before Nov. 1, 1926, are provided to retire entire issue by maturity.

Mr. George L. Rickard, President of the Madison Square Garden Corporation, summarizes his letter regarding this loan as follows:

This loan will be secured, in the opinion of counsel, by a closed first mortgage covering approximately 75,000 square feet of land extending from 49th to 50th Streets near Eighth Avenue, New York City, and a modern fireproof exhibition building being erected thereon. The building will provide a grand arena for exhibitions, athletic meets, circus, bicycle races, hockey matches, etc., and an exposition hall under the arena for industrial shows and similar exhibits. The arena will have a seating capacity of approximately 18,471 compared with only 13,676 for the old Madison Square Garden at 26th Street, which is now being demolished. It is believed that the new Garden will have the largest seating capacity of any covered building in the world.

The site of the new Madison Square Garden is one of the most advantageous and desirable locations in New York City for its purpose and has exceptional transportation facilities.

The Corporation is to furnish a bond of the National Surety Co. and a group of other surety companies in the sum of $2,000,000, guaranteeing the completion of the building, free and clear of all mechanics' liens. It is expected that the building will be completed early in December, 1925.

Appraisals have been furnished as follows:

Brown, Wheelock: Harris, Vought & Co., Inc.:	Land alone	$1,900,000
	Building upon completion	2,500,000
	Total	$4,400,000
Charles F. Noyes Company:	Land and building upon completion	$4,825,000

Based on the average of these appraisals, the loan will be outstanding at less than 50% of the value of the property and will, upon completion of the building, in the opinion of counsel, be a legal investment for trust funds in New York State. The estimated cost of the building alone will be in excess of $2,600,000.

Annual Gross Income has been estimated by the Corporation at $950,000; Operating Expenses at $325,000, leaving Net Earnings of $625,000. This is equivalent to almost 4 times the $157,500 maximum annual interest requirement on the loan. Estimated earnings do not include any revenue from professional boxing shows and are based on the use of the grand arena for only 54% of the year.

The need in New York City for an exhibition building of the type of the new Madison Square Garden is most urgent and the management believes that the past success of the Corporation will be materially augmented by the larger building and more accessible site.

The management will continue under the supervision of Mr. John Ringling and Mr. George L. Rickard.

We offer these certificates when, as, and if issued and received by us and subject to the approval of counsel, Messrs. Chadbourne, Stanchfield & Levy, New York City. Delivery will be made in the form of Temporary Certificates exchangeable for Definitive Certificates when ready.

Price 100 and interest, to yield 7%

158,000 Shares

Sun Oil Company

Common Stock (No Par Value)

CAPITALIZATION

(After giving effect to this financing and to the change of the present par value stock to no par value stock)

	Outstanding.
15 year 5½% Sinking Fund Debentures	$9,866,500
6% Equipment Trust Certificates	397,000
Common Stock no par value (Authorized Issue 1,250,000 shs.)	1,057,159 shs. (approx.)

In addition to the above there are 10,548 shares set aside and on deposit for distribution among certain employees of the Company from time to time pursuant to an established bonus system.
(There are also $36,613 bonds of the Peninsula State Oil Co., a subsidiary of the Company)

Business: Sun Oil Company was incorporated in New Jersey as the Sun Company to continue a business established in 1886. The Company is a complete unit in the petroleum industry combining production, transportation, refining and distribution, particularly of lubricating oils of which it is one of the largest distributors not only in this country but abroad.

Purpose of Issue: The proceeds from the sale of this stock will be used by the Company to retire $4,000,000 two year 6% notes due June 15, 1925 and to provide additional capital for other corporate purposes.

Earnings: For the 10 years ended December 31, 1924, net earnings after depreciation, depletion, bond interest and taxes have averaged over $3,327,761 or approximately $3.14 per share on the common stock to be outstanding after completion of this financing. Notwithstanding the bad conditions in the oil industry which prevailed in 1924, the net earnings of the Company in that year after depreciation, depletion, bond interest and taxes amounted to $2,106,625. For the first 4 months of 1925 such net earnings amounted to $1,512,569 which is at the annual rate of approximately $4.30 per share without giving effect to the retirement of the notes which will result in a saving in interest charges of $240,000 a year.

Assets: Total net assets after deducting all liabilities amounted, as of April 30th, 1925, to $38,715,634 or over $36.50 per share on the stock to be outstanding. As an indication of the value of the fixed assets of the Company, Messrs. Day & Zimmermann appraised the same in 1918 at an amount in excess of $60,000,000.

Production and Properties: The Company has a developed production of over 20,000 barrels a day. Of this between 10,000 and 12,000 barrels is well settled. It also leases over 800,000 acres of undeveloped lands in this country and has large interests in the Maracaibo basin in Venezuela.

The Company owns directly or through wholly owned subsidiaries three well equipped refineries with a daily capacity of over 25,000 barrels of crude oil. It also owns pipe lines, railroads and tank cars and operates ten tank steamers which it owns and three owned by a subsidiary. The Company has also an extensive distributing system in this country and does a large business in Canada and Europe through affiliated companies.

Dividends: It has been the policy of the Company to pay its dividends in cash and stock so that a holder of 150 shares in 1912 held in 1922 a total of 1152 shares of the same par value. It is the intention of the Company to continue this policy and as the earnings of the Company justify, to declare stock dividends from time to time and to inaugurate now on the new no par shares cash dividends at an annual rate of $1 per share payable quarterly commencing September 15, 1925.

Management: As a result of the sale of this stock no change in the control of the Company is effected nor is any change in the management contemplated.

Listing: It is expected that application will be made in due course to list these shares on the New York Stock Exchange.

We offer the above shares, when, as and if issued and received by us and subject to the approval of our counsel, Messrs. Kellogg, Emery, Inness-Brown & Cuthell

Pending the delivery to us of definitive certificates we may deliver temporary certificates or interim receipts.

Price $36.50 per share

New Issue

450,000 Shares

Louisville Gas and Electric Company

(DELAWARE)

Class "A" Common Stock

Dividends on the Class "A" Common Stock will be payable quarterly March, June, September and December 25th, to stockholders of record the last day of the preceding month, respectively. The first quarterly dividend period will begin June 1, 1925. The Class "A" Common Stock will be preferred as to each quarterly dividend at the annual rate of $1.50 per share over the Class "B" Common Stock, and after the Class "B" Common Stock has received the same dividend per share, the Class "A" and Class "B" Common Stocks shall participate equally and ratably share for share, up to an additional annual rate of 50 cents per share, and thereafter the Class "A" Common Stock will be entitled to dividends in the ratio of 25 cents per share for each $1.00 per share paid on the Class "B" Common Stock. The Class "A" Common Stock will be preferred to $25.00 per share in distribution of assets over the Class "B" Common Stock, and, after the Class "B" Common Stock has received the same amount per share, the Class "A" and Class "B" Common Stocks will participate equally and ratably, share for share in distribution of assets. The Class "A" Common Stock will be callable at $32.50 per share. Class "A" and Class "B" Common Stocks will be without par value.

Transfer Agent: AGENCY OF THE COMPANY, New York and Chicago.
Registrars: FIRST NATIONAL BANK OF NEW YORK, and CONTINENTAL AND COMMERCIAL TRUST AND SAVINGS BANK, Chicago.

Application will be made to list this Class "A" Common Stock on the New York and Chicago Stock Exchnages

The following information has been summarized from official sources:

Company The Louisville Gas and Electric Company system serves electric power and light and natural and manufactured gas in Louisville and neighboring communities, having a combined total population in excess of 325,000. The Company and its predecessors have been established for 87 years.

Louisville is an important railroad center, served by eight large systems, two of which, the Louisville and Nashville and the Illinois Central, have shops in the city. It is an important manufacturing and distributing center for a large section south of the Ohio River, and has long been a large and important market for tobacco, leather, lumber products, wagons, plows, cast-iron pipe, machinery, flour, and other mill products.

The system has present installed generating capacity of approximately 92,500 kilowatts, and over 700 miles of transmission and distribution lines. The gas plants have total installed daily manufacturing capacity of 22,000,000 cubic feet, and there are 834 miles of mains. The system serves 64,484 electric customers and 61,455 gas customers. Over 84 per cent of the net earnings of the system is derived from the sale of electric energy for power and light. The system has its own coal properties, completely equipped, insuring an adequate and convenient source of fuel supply.

Louisville Gas and Electric Company of Delaware owns 99.87 per cent of the common stocks of the companies comprising the Louisville Gas and Electric system.

Management The properties of the system are under the management of Byllesby Engineering and Management Corporation, the entire capital stock of which is owned by Standard Gas and Electric Company.

Capitalization The Company's capitalization, after giving effect to present financing, is as follows:

STOCKS:	Outstanding
Common Stock, Class "A," without par value, including this issue	526,280 Shares
Common Stock, Class "B," without par value	257,956 Shares

The operating companies of the system have outstanding with the public $23,000,000 Bonds, $5,907,000 Debentures and $10,834,500, par value, preferred and minority common stocks.

Earnings For the 12 months ended March 31, 1925, earnings of the Louisville Gas and Electric Company system were as follows:

Gross Earnings	$7,316,548
Operating Expenses, Maintenance and Taxes, excluding Depreciation	3,611,381
Net Earnings	$3,705,167
Interest Charges	1,214,405
Balance	$2,490,762
Dividends on Preferred and Minority Common Stocks	541,428
Balance	$1,949,334
Annual dividend at the rate of $1.75 per share on 526,280 shares of Class "A" Common Stock *	$920,990

* It is expected that dividends at this rate will be paid for the quarter beginning June 1, 1925.

For the ten-year period ended December 31, 1924, gross earnings of the system increased over 256% and net earnings increased over 243%.

Franchises The franchise situation is satisfactory. In the opinion of counsel, the Company's rights under its electric franchise in the City of Louisville are perpetual. The gas franchise runs to 1933 and permits the sale of natural, mixed and manufactured gas. There are no burdensome restrictions, and the relations of the Company are thoroughly satisfactory in the territory served.

We offer this stock when, as and if issued. Interim receipts of Continental and Commercial Trust & Savings Bank, Chicago, exchangeable for stock certificates, when, as and if issued, are expected to be available for delivery on or about June 5, 1925.

NEW ISSUE

$14,000,000

ASSOCIATED GAS and ELECTRIC COMPANY

SECURED GOLD BONDS

6% Series of 1925

Dated January 1, 1925 **Due January 1, 1955**

Interest payable January 1 and July 1 at New York, without deduction for any Normal Federal Income Tax not in excess of 2% which may lawfully be paid at the source. Redeemable as a whole or in part on the first day of any month upon thirty days' notice at 105% on or before December 1, 1935; at 104% thereafter and on or before December 1, 1940; at 103% thereafter and on or before December 1, 1945; at 102% thereafter and on or before December 1, 1950; at 101% thereafter and on or before June 1, 1954; at 100½% thereafter to maturity, plus accrued interest in each case. Coupon bonds in interchangeable denominations of $1,000, $500 and $100, registerable as to principal.

The Company agrees to refund, upon application within sixty days after payment, personal property tax paid by residents of Pennsylvania and Connecticut, not exceeding four mills, and of Maryland not exceeding four and one-half mills and of Kentucky not exceeding five mills, per dollar of taxable value per annum, and Massachusetts income tax not exceeding 6% per annum on income derived from these bonds.

THE CHASE NATIONAL BANK OF THE CITY OF NEW YORK, TRUSTEE.

For detailed information in regard to these bonds, attention is directed to a letter from Mr. J. I. Mange, President of the Company, dated May 20, 1925, which is available on request and which he has summarized substantially as follows:

BUSINESS AND PROPERTY

The Company and its subsidiary and affiliated companies own, control or operate public utility properties which have been in continuous successful operation for varying periods up to 73 years, supplying electricity and-or gas to over 138,000 consumers, serving a total population estimated at more than 600,000 in more than 400 communities in New York, Massachusetts, Connecticut, Vermont, Ohio, New Hampshire, Maine, Kentucky and Tennessee.

The properties include electric power stations with a generating capacity of 82,600 K.W.; 1,215 miles of high tension transmission lines with additional lines under construction; gas plants with a daily capacity of 4,435,000 cubic feet and 241 miles of gas mains.

CONSOLIDATED EARNINGS

For the 12 months ended March 31, 1925, gross earnings of subsidiary and affiliated properties now operated and including other income, totaled $10,094,013. Net earnings after expenses, maintenance, taxes (except Federal Income) and after deduction of income applicable to minority common stocks held by the public, was $3,927,355, equal to over twice the total of fixed charges of subsidiary and affiliated companies and annual interest requirements on funded debt of the Company, including this issue.

The above earnings reflect only annual dividends receivable from The Manila Electric Corporation and other minority investments and not total earnings applicable to the Company's holdings.

Of the net earnings, approximately 85% was derived from electric light and power operations; 6% from gas and 9% from miscellaneous sources.

SECURITY

The Secured Gold Bonds (including this issue and the $2,800,000 of the series due 1954 now outstanding), constituting the senior funded debt of the Company, are its direct obligation and are secured by pledge with the Trustee of substantially all of the stocks and notes of important subsidiary companies directly owned by the Company, together with a majority of the stock of its most important affiliated company. The appraised value of the properties of subsidiary and affiliated companies, as determined by Edward J. Cheney, Engineer, plus net additions at cost and net current assets, after deducting all underlying liabilities and equity for minority interests, is over $35,000,000 or over $2,000 for each $1,000 bond.

SINKING FUND

The Indenture provides for a sinking fund for the bonds of this series, payable semi-annually beginning January 1, 1926, equivalent to 2% annually of the principal amount of such bonds at the time outstanding, to be applied by the Trustee to the purchase of bonds of this series, so far as obtainable at not exceeding 101 and accrued interest within 50 days. Bonds so purchased or redeemed are to be cancelled.

FRANCHISES AND MANAGEMENT

Franchises and rights appurtenant to the various properties are without burdensome restrictions and afford ample protection to the Company. The properties are under the supervision of The J. G. White Management Corporation, insuring efficient and economical management.

Legal details in connection with the issuance of these bonds are being passed upon by Rushmore, Bisbee & Stern for the Bankers, and Roberts & Montgomery and Travis, Spence & Hopkins for the Company. Engineers: Edward J. Cheney, Esq., and Day & Zimmermann, Inc.

We offer these bonds when, as and if issued and received by us and subject to the approval of counsel.

Price 95½ and interest, to yield 6.34%

$10,000,000

Pacific Gas and Electric Company

First and Refunding Mortgage Gold Bonds
Series D, 5%, due 1955

Dated June 1, 1925 — Due June 1, 1955

Issuance authorized by the Railroad Commission of the State of California

All First and Refunding Mortgage Gold Bonds heretofore issued are legal investments for Savings Banks in Californis, and application will be made to the Superintendent of Banks to so certify these additional Bonds. Legal investment for Savings Banks in Maine, New Hampshire and Vermont.

The Pacific Gas and Electric Company is one of the foremost public service corporations in The United States. Its properties extend into thirty-eight counties of central and northern California, with an estimated population of more than 2,200,000.

First and Refunding Mortgage Bonds ($85,720,000 outstanding, including this issue) are secured by a direct first mortgage on important hydro-electric properties; by a direct mortgage on all other properties of the Pacific Gas and Electric Company, subject to the prior liens of underlying mortgages; and by approximately $59,600,000 General and Refunding Mortgage Bonds pledged with the Trustees.

EARNINGS.

Calendar Years	Gross Earnings	Net Earnings	Interest Charged to Operation
1917	$20,118,990	$8,514,239	$3,898,168
1918	22,870,194	9,839,864	3,881,542
1919	26,309,671	10,060,544	4,012,240
1920	34,985,791	11,528,151	4,511,251
1921	37,509,707	13,230,623	4,797,782
1922	39,204,605	15,787,730	5,148,614
1923	39,971,743	16,478,332	6,165,817
1924	44,935,419	16,732,323	6,262,264
1925 (12 mos. to March 31)	46,055,825	17,308,429	6,481,273

Net earnings as shown in the foregoing statement have been in each year substantially in excess of twice interest charges. Annual interest charges on the $162,952,300 bonds to be outstanding, including the present issue, amount to $8,782,469.

On the basis of present market quotations, the equity above the funded debt of the Company, represented by the outstanding Common and Preferred Stocks, is about $100,000,000.

Bonds are offered if, as and when issued and received by us, subject to the approval of our counsel.

Price 95¼ and interest, Yielding over 5.30%

$10,491,000

Southern Pacific Company

4½% Equipment Trust Certificates, Series "H"

Maturing in equal amounts in annual instalments from June 1, 1928, to June 1, 1940, both inclusive.

Bearer certificates for $1,000 each with privilege of registration as to principal. Warrants for the semi-annual dividends at the rate of 4½% per annum payable June 1 and December 1.

The issuance and sale of these certificates are subject to the approval of the Interstate Commerce Commission.

Henry W. de Forest, Esq., Vice-President of the Southern Pacific Company, in a letter dated May 25, 1925, copies of which may be obtained from the undersigned, writes in part as follows:

"These certificates are to be issued by the Bank of North America and Trust Company, of Philadelphia, as Trustee under an equipment trust agreement in form to be approved by you. There will be vested in the Trustee title to new equipment costing not less than $15,000,000, including the following:

15	Three-cylinder locomotives 4-10-2 type	200	Steel oil tank cars
18	Mountain type locomotives 4-8-2 type	400	Steel Hart selective ballast cars
10	Switching locomotives 0-6-0 type	70	Caboose cars, steel underframe
2,796	Box cars, steel underframe	6	Steel baggage-postal cars
200	Automobile cars, steel underframe	6	Steel baggage-horse cars
1,000	Steel drop-bottom gondola cars	6	Steel suburban electric motor coaches

Pending the delivery of the equipment cash equal to the principal amount of the certificates is to be deposited under the Equipment Trust Agreement, to be withdrawn from time to time as equipment is delivered to the extent of 70% of the cost thereof. All said equipment is to be leased by the Trustee to the Southern Pacific Company at a rental sufficient to pay the certificates and dividend warrants as they mature. The principal of the TrustCertificates and dividends thereon will be unconditionally guaranteed by endorsement thereon by the Southern Pacific Company."

THE UNDERSIGNED OFFER THE ABOVE CERTIFICATES, IN EQUAL AMOUNTS OF ALL MATURITIES, SUBJECT TO PRIOR SALE, AT AN AVERAGE PRICE OF 98.66% AND ACCRUED DIVIDENDS TO DATE OF DELIVERY, AN AVERAGE YIELD OF 4.69%.

The above certificates are offered if, when and as issued and received by the undersigned and subject to the approval of any public authorities that may be necessary of the issuance of the certificates and their sale to the undersigned and to the approval by their counsel of all legal proceedings in connection therewith. Temporary certificates will be delivered against payment in New York funds for certificates allotted, which temporary certificates will be exchangeable for permanent certificates when ready for delivery.

New York, May 26, 1925.

KUHN, LOEB & CO.

All of the above certificates having been sold, this advertisement appears as a matter of record only.

All of these bonds have been sold. This advertisement appears as a matter of record.

New Issue May 25, 1925.

$1,800,000

Fox Building

(FOX PHILADELPHIA BUILDING, INC.)

16th and Market Streets, Philadelphia

First Mortgage Leasehold 6½% Serial Gold Bonds

Due $90,000 each June 1, 1926 to 1945 inclusive.

Dated June 1, 1925. Interest payable June 1 and December 1. Coupon bonds in denominations of $1,000 with provision for registration of principal. Redeemable as a whole or in multiples of $90,000 face amount on any interest date on 30 days' notice at 102½ and interest. In case the bonds are redeemed in part, they shall be redeemed in inverse order of their maturities, the latest maturities being redeemed first. Interest payable in New York City, at the office of Dillon, Read & Co. or at the holder's option in Philadelphia at the office of the Trustee without deduction for Federal Normal Income Tax up to 2% per annum. Present Pennsylvania Four-Mill Tax refunded to residents of Pennsylvania.

Fidelity Trust Company, Philadelphia, Trustee.

Fox Film Corporation will lease the entire property for a net rental sufficient to pay principal and interest on this issue, and will guarantee these bonds as to principal and interest by endorsement.

The following information is furnished to us by Mr. William Fox, President of Fox Philadelphia Building, Inc., and Fox Film Corporation:

SECURITY

These First Mortgage Leasehold Serial Gold Bonds of Fox Philadelphia Building, Inc., are secured by a closed first mortgage lien on the leasehold property of Fox Philadelphia Building, Inc., consisting of a 50-year lease from June 30, 1921, on 22,704 square feet of land at the southwest corner of 16th and Market Streets, Philadelphia, and the modern, fireproof 16-story office building and motion picture theatre erected thereon. This location is considered one of the most valuable in the business section of Philadelphia, being one block west of the Broad Street Station of the Pennsylvania Railroad Company, and within a few blocks of the City Hall, the Packard Building, the Girard Trust Co., the Commercial Trust Co. Building, and other important buildings. The office building was completed and has been in operation since September 26, 1924; the theatre was completed and has been in operation since November 26, 1923. The office building contains 74,877 square feet of net rentable office space of which 82% was occupied on April 1, 1925, and 2,551 square feet of space for stores on the ground floor, entirely occupied on that date. The office building and theatre entrance front on Market Street, with the theatre in the rear, so that light on three sides is assured. The theatre has a seating capacity of approximately 2,500 and is of the most modern fireproof construction throughout.

The ground has been leased from the Estate of Israel Morris free and clear of any mortgage and any mortgage placed on the land or building by the lessor must be made subject and subordinate to the lease. Under the terms of the lease the annual ground rent is fixed for the first twenty-five years, the average payment being about $80,000 a year during this period, which extends beyond the maturity of the last series of the bonds. The ground rent payable after June 30, 1946, is to be based upon an appraisal of the land at that time.

VALUATION

The leasehold, including the office building and theatre, has been appraised by Edgar G. Cross, Esq., of Philadelphia, at $2,500,000.

SUBLEASE AND GUARANTEE

Fox Philadelphia Building, Inc., a wholly owned subsidiary of Fox Film Corporation, will lease the entire building to Fox Film Corporation for a period extending beyond the maturity of the bonds for an annual net rental equal to the annual charges for principal and interest on these bonds, and all other charges of the company, and Fox Film Corporation will guarantee these bonds as to principal and interest by endorsement.

FOX FILM CORPORATION

Fox Film Corporation, which will lease the property of Fox Philadelphia Building, Inc., and guarantee the bonds, is, with its subsidiaries, one of the largest companies in the world engaged in the production, distribution and exhibition of motion pictures, and showed by its consolidated balance sheet as of December 27, 1924, certified by Messrs. Price, Waterhouse & Co., a net worth in excess of $11,000,000. **In each of the six fiscal years ended December 27, 1924, the consolidated net income of Fox Film Corporation available for Federal taxes and dividends, certified by Messrs. Price, Waterhouse & Co., has exceeded $1,900,000.** This sum is more than 9 times the amount required to pay maximum annual charges for principal and interest on these bonds.

We offer these bonds for delivery when, as and if issued and received by us, subject to the approval of legal matters by our counsel. It is expected that delivery in the form of Temporary Bonds of the Company or Interim Receipts of Dillon, Read & Co. will be made on or about June 3, 1925.

MATURITIES AND PRICES

Maturity	Price
June 1, 1926	100½ and interest, to yield 5.97%
June 1, 1927	100½ and interest, to yield 6.23%
June 1, 1928	100¼ and interest, to yield 6.40%
June 1, 1929-1945 incl.	100 and interest, to yield 6.50%

Further information is contained in a circular which may be had on request.

Mobilizing the Army of Investors in Chicago

For the peace, prosperity and safety of the nation, no army is so dependable as an army of investors in the nation's industrial securities.

Realizing this the great American corporations are distributing their securities widely among permanent investors.

In Chicago the great majority of financially competent citizens are among the approximately 1,200,000 daily readers represented in The Daily News 400,000 daily average circulation—and that these readers respond to advertising is proved by the fact that The Daily News leads all other Chicago daily newspapers in the volume of display advertising published*.

Moreover, The Daily News publishes every day in its "Final Edition," the complete market and financial reports of that day, **12 hours earlier** than they are available in any morning paper. For this reason people interested in investments read The Daily News market and financial pages with keen interest in the leisure evening hours, and financial advertising in these pages shares in this reader interest.

The Financial Situation.

Bond prices have continued to advance, money has remained easy, new high prices of individual stocks have been reached day by day, and stock market averages are on high ground. There is no doubt much unreasoning excitement in the market and some advances may be largely unwarranted. Yet one cannot dismiss the subject with these observations and conclude either that because money is easy the market is safe, or because prices are high and debit balances of speculators probably large, it is unsafe. As is always the case, snap judgments are worthless, and even the best reasoned judgments are apt to be of little value. But it is always wise to consider pretty fully the facts.

One of the big items in the present stock market is the rise of electric power shares. This is considered by many to have gone to such length as to threaten the general structure of the market, and by others to be not much more than the beginning of the growth of a great industry. The matter of concern is how far growth in values has accompanied growth in stock market prices, and what is likely to be the future growth of real values. For, after all, there is no danger in a high price if it is based on value, nor is there great danger in a debit balance if it is well secured by a recognized and real value, and if the general banking situation is sound. The electrical development now going on is one deserving study.

The Boston News Bureau under the head of "Skyrocketing Utilities" refers to the advance in market value of ten prominent companies, namely the American Gas & Electric Co., the American Power & Light Co., the North American Co., the Utah Securities Co., the Middle West Utilities Co. and five others, which taken together at the lowest prices of 1924 had a value of $154,000,000, and after adding $64,000,000 through acquisitions of new properties and new cash, making the starting value $218,000,000, have advanced in the market enough to add $282,000,000 and bring present market value up to $500,000,000. Of course, this sounds sensational, and the word "skyrocketing" appears justified, but the movement is not, therefore, necessarily unjustified or dangerous. The movement is by no means isolated. There have been many of the same kind both in volume and speed. The real question is, have these advances discounted developments likely to materialize or not, and how far are these developments assured. The general electrical situation, and the positions of individual companies and their managements are the points of interest.

There can be little question that a major business development is under way in the electrical industry in the United States and one founded on the soundest basic factors.

It is figured that one mechanical horse power is the equivalent of eight laborers in physical power. We have in this country about 9,000,000 factory workers and in the factories some 30,000,000 developed horse power. This places behind each human unit a mechanical power 25 times his own, thus multiplying the production of goods manyfold. The amount of power behind each worker in the United States is thought to be more than twice that in Great Britain and more than four times that in Japan. Real wages in the United States are more than twice those in Great Britain and about four times those in Japan. The connection is a very vital one. By and large mechanical power development increases the product of industry and the well-being of a people. Multiplication of power is a most constructive process.

The concentration of power development into central stations is of very great comunity value because by and large it reduces the cost of production of each unit of power by one half, and doubles the efficiency, thus making a fourfold gain. The spreading availability of electricity enhances the value still more by making power available where needed in making possible unit machine drive. It also revolutionizes life conditions in factories in making possible better light and ventilation, through the removal of shafting, belting, noise, grease, etc. There can be but little question that the great power development in the United States, and especially the electrification of industry through central stations is at the bottom of much of the industrial strength that makes this country tower as a giant among nations.

Water power development is a big factor in all this. The water powers in the United States are estimated at between fifty and sixty million horse power. Of this only about 20% has been developed. The harnessing of water power to supplement and relieve human labor is recognized throughout the world as perhaps the most important industrial process in increasing human well-being.

Electrical engineers have made far-seeing plans for the development of the power resources of the United States. These contemplate the expenditure of many billions of dollars per year during coming years, and the ultimate linking up into a single system of all the water powers, great and small, supplemented by great coal burning plants, these plants all feeding into a great network of high tension lines covering the United States like a web; and every community, both urban and rural, supplied with adequate and reliable power service.

The plans contemplate the electrification of the main traffic routes of railways as well as suburban services and terminal areas. New York City electrification and that of the Rocky Mountain division of the Chicago Milwaukee & St. Paul are likely to be only forerunners of what will be general if the plans of these forward-looking engineers are realized.

This development is not a hope, it is under way, and promises to continue with acceleration. There may be delay in the electrification of railway trunk lines pending the perfection of a new type of Diesel engine, and it may be some years before the matter of electrifying farms has been worked out. But the matter of electrifying mines, quarries, mills and homes is under full cry. The present investment is being increased very rapidly, and may be doubled within the next few years. This naturally means a great deal to the companies which are strongly entrenched at present. The electric light and power companies of the great cities comprising great units of power generation and distribution are recognized as prime bases for investment. The hydro-electric companies, controlling the major water powers, are in a correspondingly favorable class. The securities of such companies have reflected growth of business and improvement in conditions, but it has been in the stocks of holding companies that the "skyrocketing" has been seen. These companies have been through a long period of desolate years, with the worst conditions in 1918, 1919 and 1920, but with conditions far from good until quite recently. The fundamental trouble has been reluctance on the part of public utility commissions and the public to grant adequate rates. This was augmented by the rising costs brought about by the war. The public mind, however, has been somewhat changed in this respect, and recent court decisions have provided that rates shall be sufficient to produce adequate return upon investment.

Recently it has been evident that the men connected with the electrical industry have been concerned with much new construction and many consolidations in the general process of increasing the electrical facilities in the United States and connecting them into large groups with the possibility of a final connection of the groups into one great system. Certain companies have been selected for grouping and expansion purposes. These are by no means under one management. The process is at work all over the country, and with several different engineering groups. The public imagination has been fired in connection with the very stocks which were weakest five or six years ago. These are the stocks which are preceded by great masses of senior securities with fixed rates of interest and dividends. Under the conditions of 1918 these appeared to be worthless, but under conditions existing to-day it is seen that very reasonable earnings on large quantities of properties may make tremendous share earnings for these comparatively small issues of common stock representing the final equities. It is true that it is difficult to find figures to justify the present market prices of some of the stocks. Certainly, the dividends do not justify current prices, but it does not require a great deal of imagination or use of a lead pencil to figure that probable values for the years that lie immediately ahead may more than justify current prices.

With a situation such as this, one cannot deal in generalities, nor reach a wise conclusion in respect to a particular stock through any reasoning based upon the situation as a whole. Each stock should be examined as to all the facts in respect to earning power, assets and management, in so far as these can be discovered. It is probably true that some prices are very much too high, and have been bid up by utterly unintelligent buying. It is, however, probably also true that some prices have been bid up by the best informed buying, and in all probability time will show that many of the high prices of to-day are low as compared to what they will be, and others are ridiculously high. It is a case where the highest degree of discrimination rather than blind speculation is more than ordinarily essential.

According to the latest cable advices from Europe, apparently not very much progress has been made with respect to plans for the adjustment of foreign debts growing out of the Great War. More prominence was given in the dispatches from the leading European capitals and from Washington to statements of policy and position than to attempts to formulate plans. It was indicated that our Government is disposed to take a firm stand in the affirmative on the general question of the duty of the European nations to pay the United States for money borrowed both during and after the war. On May 23 the Washington representative of the New York "Times" said that "a note of greater firmness was sounded in Governmental circles to-day in comment concerning Allied war-time and post-war indebtedness to the United States. The flat statement was made informally, but nevertheless authoritatively, that with the possible exception of Jugoslavia, all the nations which borrowed money from the United States Treasury for post-war purposes, chiefly reconstruction, had violated an obligation to this Government to treat it on a parity with all their Governmental creditors in liquidating these obligations. In the face of that understanding, these post-war borrowers, it was asserted, had been making payments to other creditors when they were as greatly obligated to pay the United States." He added that "the plain speaking which came to-day was the obvious outcome of comment by prominent Americans in this country and Europe in the interest of having the United States cancel its war claims against borrowing Allies or, at least, suspend for the present its policy of pressing its Allied debtors for

settlement. The unofficial attitude of debtor nations, and especially the reports that France claimed that there was a distinction between political debts and commercial debts, with the construction placed upon this contention that the United States should cancel the political debts, or those contracted by the Allies for prosecuting the war, is supposed to have added to the spirit of resentment that flared up in official quarters to-day. This resentment was more obvious than it was last week when it came to the surface in a way showing unmistakably the temper of the Administration."

Continuing, the correspondent said: "It was further declared that as far as war debts were concerned there was absolutely no distinction ever recognized by this Government in the obligation of these nations to repay the United States. All the war-debtor nations, it was said, are governed by the same American law as far as collections are concerned, this law being the Debt Funding Act, which provided for the creation of the Debt Funding Commission, the body which arranged with the British and other debtor Governments to liquidate war-time obligations to this nation. The obligations, according to the statement made, were just as absolute in the case of one nation as in the case of another. With that statement as prefatory, it was pointed out that there was a distinction between war debts and post-war debts of Allied nations to the United States in that in making advances to Allied countries for post-war reconstruction and relief measures the United States obtained a stipulation from each debtor nation that there should be no discrimination against the United States in favor of other Governments advancing money for similar purpses. Such advances were made, in addition to the United States, by Great Britain and other Governments. In spite of the guarantee obtained by the United States, however, it was asserted, some of these post-war debtors were paying interest to Government creditors but not paying a cent to this Government. In that course, according to what was said, these nations have discriminated against the United States and thereby violated their obligation to this Government."

Evidently the British Government is of the opinion that if France and other debtors find a way to pay the United States they should do the same by her. Under date of May 25 the Associated Press representative in London cabled that "the question of Great Britain's foreign debts was discussed in the House of Commons this afternoon when questions were asked regarding the notification sent by the United States to Continental countries on the funding debts due America. Inquiries were made regarding what success the British Government had had with any of the Continental Governments in regard to their debts to Great Britain. Walter Guinness, Financial Secretary of the Treasury, replied that he was aware of the notification sent by the United States to European debtor countries, but he had no further information than had appeared in the press. No further developments had taken place in negotiations regarding debts due Great Britain, he explained. The British Government's spokesman then made it clear that his Government considers that any steps taken by the debtor Powers of the Continent to fund or liquidate their obligations to the United States should be accompanied by similar steps regarding their obligations to Great Britain."

The same day, according to a dispatch to the New York "Times" from its Washington correspondent, "another chapter was added to-day to the lengthening narrative of American effort to arrange with its European debtors for the payment of their war-time and post-war obligations when it was made known that Italy and Belgium had taken the position that they should not be called upon to conclude debt settlement agreements until France had made definite arrangements to pay." It was added that "another important development was that some of those in informed quarters feel that they have reason to believe that Great Britain would offer no objection if arrangements for refunding the French debt contained terms of settlement easier than those under which the British Government is paying its obligations. Nothing official has come from the British Government with respect to a willingness to have the United States conclude a debt adjustment agreement with France on easier terms than Great Britain consented to, but it is gathered that the impression has been given that Great Britain is not disposed to make difficulties should France seek more favorable conditions."

The correspondent further stated that "what became known to-day in connection with the war debt exchanges was disclosed as a direct outcome of a dispatch from the Paris correspondent of the New York 'Times' printed in Sunday's issue. This dispatch contained the information that the Belgian Government would shortly send a note to the United States in which the contention would be made that the Paris agreement of last January concerning the distribution of German reparations annuities among the Allies, with the United States Government participating in the arrangement, made provision that Belgium's indebtedness to this Government is to be paid from the amounts received by the Belgian Government from Germany. While it was made clear that officials did not desire to discuss this subject and it was conceded that the 'Times' correspondent was merely reporting information given to him of Belgium's contentions, there was sharp denial that Belgium had any justification for a claim that January's Paris agreement provided that Belgium must first get reparations payments from Germany before she undertook to refund the amounts that had been borrowed from the United States."

Naturally, there was a general disposition on the part of other debtor Powers in Europe to await still more definite statements of France's position. Frequently officials of the French Government have been quoted as saying that France would pay the United States in full, if only reasonable time were given. Not much has been heard as to the attitude of the French people on this question. According to a special dispatch to the New York "Times" from its Paris representative on May 25, "a significant change is taking place in French public opinion in regard to France's debt to America. Members of the Government are receiving hundreds of letters from all parts of the country, even from the peasants, urging at all costs that American claims be satisfied. Some writers suggest the Government open public subscription to obtain funds toward paying America, as France raised 5,000,000,000 francs which

she paid Germany after the end of the war of 1871." He added that "what the French now desire is negotiations on a base recognizing their debt in full and American co-operation in studying the issue of what France can pay. Her fiscal position is shaky, and too large foreign engagements could be very harmful. They feel their position is not generally understood by the United States, and that is why they would prefer to have the American commission come to France to conduct the debt negotiations. In any case, there is an insistent French demand that their country be rid of the odium of the charge of being a bad debtor, and, in prospect, an early settlement appears the best chance of scattering the cloud of anti-American feeling now growing on the horizon."

The very next day Foreign Minister Briand made a speech in the Senate, setting forth what he claimed was the attitude of both the French Government and people toward the payment of external war debts. In part he was quoted as follows: "I cannot think that so great, generous-hearted and loyal a country as America ever would do us the affront to believe we seek to escape payment of our debts. On our side certainly we never entertained such an idea of our own people. To those nations, great and small, which fought beside us, whose blood was spilled with ours on the battlefield, we have said: 'We have been ravaged, torn to pieces. Our former enemies have not repaid in any measure the damage they wrought. We are all suffering from financial difficulties which prevent us making immediate payment. Let us bind up our wounds first and settle afterward.' But never have we said and never has America come to think that we have refused to recognize our debt.

"'In an expression of the common will of the French people that a settlement should be made as quickly as possible, the Government to which I have the honor to belong has charged two of its members to study the whole question and bring about a settlement as quickly as possible. That step is in direct line with the attitude which every successive Government of France has taken since the war, for I defy any one to show that at any moment any authorized person in France has made a single gesture or said a single word which could be interpreted as a denial of the debt we owe. If in this country, where public opinion is so sensitive, it were suggested that France should seek liberation in a subaltern spirit, I know how resentful that opinion would be. In history France has always sought to hold a proud position. Sometimes she has preferred her record to her interests, and on this occasion, as others, she will never accept appearance as a bad debtor. We will settle our debts. If we seek to do so under reasonable conditions, it is only good busness and the necessity and justice of our case. Such reasonable condition I am certain we will obtain.'"

The Paris correspondent of the New York "Times" cabled that "M. Briand's statements several times were received with applause, especially when he depicted the country as proud in fulfillment of its obligations, and each time he repeated that the obligation never had been denied. This was regarded as significant.

In his outline of the speech the Paris representative of the New York "Herald Tribune" said: "'Serious conversations' have been opened with the United States in regard to payment by France of her $4,000,000,000 war debt, Foreign Minister Briand announced to-night in a Senate debate on the foreign affairs items in the budget bill." The correspondent added: "Although it was not believed he was referring to any negotiations other than those already reported between Finance Minster Caillaux for France and Ambassador Herrick and Garrard B. Winston, an assistant to Secretary of the Treasury Mellon, Briand's declaration represented the first official French utterance that the Government definitely was arranging to negotiate toward a settlement." He likewise explained that "Briand's statement was made in answer to a demand by General Taufflieb, of Alsace, that debt settlement be sought at once. The General pointed to Italy as an example of a country whose apparent repudiation was costing her loss in credit."

Announcement was made in an Associated Press dispatch from Washington, also on May 25, that "the question of Italy's debt to the United States was brought to the forefront to-day by a visit to the Treasury of Baron G. de Martino, the Italian Ambassador, who talked over the whole subject of the Italian obligation of $2,138,543,000." The correspondent added that, "while the conference was devoid of concrete results, it marked the first step by Italy with respect to her debt and initiated conversations which Treasury officials hope will proceed into actual negotiations of funding terms. The Ambassador conferred an hour and a half with Secretary Mellon and Under-Secretary Winston, Chairman and Secretary, respectively, of the American Debt Commission. Baron de Martino's mission was understood to have been largely for the purpose of ascertaining Mr. Mellon's views, and there was a frank discussion of the problems faced by Italy and the law which defines for the American Administration the terms which it can accept from its foreign debtors. The Ambassador was said to have eliminated at the outset any thought that may have rested in the minds of officials that Italy's moves hinged on action by France."

In a special Washington message to the New York "Herald Tribune," under date of May 28, it was stated that "Secretary Mellon is satisfied that this country may expect an early settlement of the Italian war debt, it was stated authoritatively to-day at the Treasury Department. He is confident that his conversation two days ago with Ambassador de Martino opens preliminary negotiations which soon may bring a definite funding offer from Rome." It was further stated that "the interview between the Secretary and the Italian Ambassador, it was announced, was primarily to set up a basis for discussion. No definite terms were talked of, but a second conference was agreed on. It will follow receipt by the Ambassador of further instructions. According to the Treasury's understanding of the situation, Italy has communicated a definite desire to conclude a funding agreement, and discussions toward this end are to be conducted by Ambassador de Martino until the point is reached where actual terms may be laid before the United States Foreign Debt Funding Commission. At this stage Mr. Mellon expects the Italian Government will send a commission, similar to that which concluded the British settlement, empowered to sign an agreement. The Ambassador asked Mr. Mellon to give consideration to Italy's entire financial condition. From this and other prelimi-

nary deductions the American Government, it was learned, anticipates that a definite period of delay will be asked before payments upon principal of more than $2,000,000,000 will begin. It is not believed, however, that postponement of interest payments will be sought."

Joseph Caillaux, Finance Minister of France, has been fully occupied with plans for balancing the budget. He has been quoted several times as stressing the point that this must be done before serious consideration can be given by the French Government to the settlement of exterior war debts. Announcement was made in Paris on May 22 that "Finance Minister Caillaux's plan to raise the first additional 1,500,000,000 francs to meet the 1925 budget deficit were approved this morning by a council of Ministers and they will be presented in the form of a bill to the Chambers on Monday, when the sessions are resumed."

Cabling on the evening of May 25, the Paris representative of the New York "Times" said that, "with his monocle fixed firmly in his right eye, Finance Minister Caillaux this afternoon in a speech of two sentences introduced into the Chamber his bill for supplementing the budget and increasing the country's revenue." The correspondent explained that "the bill which the Finance Minister introduced asks for an increase in taxation of 3,500,000,000 francs. In the preamble, which is clear, decisive and vigorous, M. Caillaux sets forth that 'no sane finance is possible in a country which is burdened by a debt if its representatives do not see to it that all public expenditures, without exception, are included in a single budget and entirely covered by revenue.'" He likewise observed that, "as already nearly half the financial year has run, M. Caillaux finds himself forced to be content with 1,600,000,000 francs new revenue for the purpose of balancing his 1925 expenditure, but to-day he gave formal notification that the whole 3,500,000,000 francs will be collected next year. He does not propose to increase the income tax for the good reasons that the income tax has not yet been established on a just and extensive basis. His system is a general increase by varying percentages of existing taxes on property, death duties and investments. Postal and telegraph rates are increased and certain additional benefits accrue to the State from excess profits on gasoline and crude oil imports." Outlining the bill still further, the "Times" representative said: "A reform which while unlikely to yield much this year, may be fruitful in the future, is contained in a scheme for modification of taxable profits on agriculture. This proposal for revision of taxation of the agricultural community and other parts of the plan may meet a certain opposition, but in the present disposition of the Chamber and in the present situation of this country there is no doubt increased taxation will as a whole be voted."

The Finance Minister was quoted as follows regarding the financial position of the French Government: "Once the budgetary problem has been settled, once the country is cleared of the burden of reconstructing liberated regions, once the question of inter-Allied debts has been settled, that is to say, when we get rid of all uncertain obligations, we will find ourselves in the presence of the problem of crushing internal debt: 150,000,000,000 francs consolidated and 130,000,000,000 in short term and very short term engagements. With that problem we can do nothing until the franc is stabilized. Everything can be done when it is stabilized. But stability of the franc will never be achieved so long as the great preliminary operations which I have outlined have not been accomplished." As to other features of the financial situation, the "Times" correspondent said: "About the immediate problem of repayment of bonds falling due this year Caillaux is not altogether pessimistic. In one of the few passages in which he allowed himself the pleasure of criticising his former antagonists, the National Bloc, he condemned bitterly the policy which permitted the accumulation of these short term engagements without precautions against reimbursement. He said nothing had been done to provide a sinking fund and announced that the Government would shortly ask passage of a bill which would place at the disposal of the Treasury the sums necessary to meet any temporary shortage caused by reimbursement of the bonds. This measure would be surrounded by every precaution so that neither Parliament nor the country need have any fear of abuse. He declared at the same time his confidence that holders of the bonds would not seek repayment to any such extent as to cause more than a light and temporary embarrassment."

Ever since the stabilization of French finances has been under active discussion it has been rumored that the plan finally adopted would provide for revalorizing the franc on a 25% basis. Thursday evening the Paris correspondent of the New York "Times" cabled that "there is a persistent report in French financial circles that Finance Minister Caillaux will propose to stabilize the franc on a gold basis at 25 centimes, that is, one-fourth its former value. Under his plans this would amount to a revalorization of the franc." Continuing, he said: "If the suggested figure of 25 centimes is taken the franc would be worth 100 to the pound sterling and slightly over 20.50 to the dollar. As reported here, when M. Caillaux in his financial project the other day spoke of putting all of France's obligations on a gold basis he was referring to a plan for revalorization, since it is understood that the Finance Minister believes the franc could be maintained at the proposed figure. M. Caillaux attaches the greatest importance to the stabilization of the franc, having said in his report: 'We can do nothing until the franc is stabilized. Once it is stabilized, we can do everything.'"

Discussing the probability of opposition from bondholders, he said: "There have been frequent discussions of the revalorization of the franc, but generally the figure mentioned has been higher than 25 centimes gold. Usually 35 centimes has been proposed. Up to the present, suggestions for the revalorization of the franc have brought floods of protests and presented a difficult political problem. In the minds of a great many of the 2,000,000 holders of French Government securities there has remained a hope that some of these days the franc would be worth gold again, and, therefore, there existed strong sentimental reasons for not surrendering that hope. Apparently M. Caillaux thinks the French rentiers can be persuaded that 25 centimes gold is surely worth more than an uncertainty. As M. Caillaux made plain in his report, his plans for getting back to a gold basis form the second part of his general scheme, the first part of which consists of balancing the budget and taking care of the large maturities in

Government securities this year. That would indicate that his gold plans would not be reached before the end of the year. This brings from the opponents of the revalorization plan the sarcastic remark that M. Caillaux won't be in office next year to try to carry out his plan."

While the Moroccan situation continues troublesome, and even serious, for the French, and the campaign apparently is being vigorously conducted by both sides, the French Government has not encountered as much opposition in Parliament as had been expected. According to the original program, the Moroccan affair was to have come up in the Chamber of Deputies on May 25, when its sessions were resumed after a month's recess. An agreement was reached, however, whereby the Socialist and Communist interpellations were postponed until the 27th. The Paris representative of the New York "Herald Tribune" cabled on May 25 that "the new factor which has entered into the situation was the return of Deputy Malvy from Madrid, where he has been holding important conversations with the King and with Premier Primo de Rivera. It is understood that Spain showed willingness to enter into an agreement with France which would allow the two countries to work out the whole Moroccan problem, coming to terms with Abd-el-Krim on a basis of recognition of his right to the Riffian territory actually under his control." He added that "no recognition of the Riffian republic would be envisaged, Abd-el-Krim's territory remaining under the sovereignty of the Sultan of Morocco, but free from either Spanish or French protection. As the whole question of the boundaries of the Spanish and French zones would have to be gone over, it is expected that, if Malvy's report on the Spanish attitude is found acceptable at a special Cabinet meeting to be held tomorrow, Spain will be invited to send an envoy plenipotentiary to negotiate in Paris. The willingness which France seems to be showing to negotiate with the Riffian leader is based on the desire to avoid a long and costly war, but definitely on a promise by Abd-el-Krim to accept peaceful retirement to his own country and to renounce completely the idea of establishing a Moslem Power in Northern Africa."

That steps were being taken to bring about a settlement seemed to be indicated also in an Associated Press dispatch from Tetuan, Spanish Morocco, on May 26, in which it was stated that "reliable advices here report the presence at Tangier of the Colonel in Chief of the French Information Service to negotiate with Abd-el-Krim for ending the Riffian offensive." It was added that, "according to the same sources, this action of France is in line with the French policy, namely that the Moroccan problem is of a political character; that France has the role of a colonizing nation, and that the employment of arms should be resorted to only in extreme cases."

Nothing serious for the French Government happened at Wednesday's session of the Chamber of Deputies, when the Moroccan situation was discussed. The time was "occupied with criticism by Pierre Renaudel, the Socialist leader, and the Communist Doriot." The Paris representative of the New York "Times" explained that, "for the Government there is no danger in the debate. During the past two days a truce has been arranged between the two wings of the majority and an agreement has been reached on the motion of confidence, which is phrased in such a way as to represent the war as purely defensive and 'opposed to all idea of conquest.' The Socialists will vote for this motion, as will probably all the rest of the House, and in that knowledge the Deputies and the Government listened with comparative tranquillity to Renaudel's criticism of what was left undone in preventing the outburst of war with the Riffians. His attack was directed against Marshal Lyautey and the generals whose occupancy of the rich valley of Ouergha, on which the Riffs depended for food, he said, forced the invasion."

These expectations were in doubt, according to Paris cable dispatches yesterday morning. The New York "Times" representative said that "the Left majority parties which have governed France for the last year came near to a split late this evening when the Socialist Party by 21 to 20 decided to abstain from taking part in the vote of confidence on the Moroccan issue. Faced with this decision the Government which earlier in the evening had wanted the debate finished to-night decided to postpone the conclusion until to-morrow." He observed that "the Socialists' action came as a surprise, as the Government spent the first two days of the week patching up matters to meet their view. The incidents in yesterday's and to-day's debate, in which the Government seemed to rely for support as much on the Nationalists as on the Left, have tried the Socialists' patience." The New York "Herald Tribune" correspondent declared, however, that, "regardless of the attitude the Socialists take, the Government is assured of a majority when the test comes, but, from a political point of view, the Socialists' abstention would be extremely dangerous to the Cabinet, which cannot count on support from the Right wing of the Chamber except on the Moroccan question. Every effort will be made to-morrow to patch up the differences, which, according to all indications, had been smoothed over completely." At yesterday's session of the Chamber the Painleve Cabinet received a vote of 537 to 29 on its Moroccan policy.

The visit of Premier Mussolini of Italy to Gabriele d'Annunzio at the latter's villa at Gardone, on Lake Garda, has attracted wide attention in Italy, Europe in general, and even in the United States. The purpose of the trip, which was begun on May 24, has not been made public officially. It was rumored that it was for the purpose of bringing about a "reconciliation" between the two equally spectacular leaders, and also because recently d'Annunzio "presented to the Government his villa at Gardone, known as Il Vittoriale, for use as a national monument." It was added in a Rome dispatch that "it contains many valuable works of art and many mementoes of the poet's active life." The Associated Press correspondent in Rome said that "at the time of the presentation the Government offered d'Annunzio the historic villa Falconieri, in the neighborhood of Rome, but he declined it. He will remain at Gardone until his death." Evidently the property is not to pass to the Government until after the poet-soldier's death.

Commenting on the Premier's visit, the Rome representative of the New York "Evening Post" cabled that, "although the Fascist newspapers were particu-

larly anxious to minimize the Premier's sudden and mysterious departure for Gardone, it is now a subject for open discussion, the conclusions being these two favorites will bury the hatchet and appear before the King and the country in a splendid union of political faith, which must have a salutary effect on the Fascist regime." He declared also that "the visit, which was providing Italy with one of her national theatrical events, will have its denouement on June 7, when the 25th anniversary of King Victor Emmanuel's reign is to be celebrated." The visit ended on the evening of May 27.

Evidently the Soviet Government of Russia has been rather apprehensive over giving Leon Trotzky, since his return from virtual exile, a position of special importance and authority. On May 27, however, he was "appointed a member of the Presidium of the Supreme Economic Council and Chairman of the Concessions Committee. This decision was made last night at a meeting of the Council of Commissars after a long hesitation as to which post Trotzky should be assigned." It was explained by the New York "Times" representative in Moscow that, "prior to his return from the Caucasus it was planned to give him a post as a member of the Government, but the situation changed after the Communist Party conference, and at the Federal Congress the Council of Commissars was re-elected without changes, thus leaving no vacancy for Trotzky. His appointment to an administrative post means that Trotzky will not engage immediately in active political or party work—at any rate not until after the party congress, which will be held in November." Continuing to outline the situation further, he said: "The Supreme Economic Council, which is under Dzerjinsky, has charge of all Soviet industry, managing the nationalized works, factories, mines, commercial navigation, etc. Its Presidium consists of twelve members, among whom the work of the various departments is divided. Trotzky will have charge of the electro-technical branch and will direct the carrying out of Lenin's plans for the electrification of the country, to which the dead leader attached the greatest importance, proclaiming the slogan, 'Socialism plus electrification means Communism.' Trotzky will also manage the scientific and technical branch of the Supreme Council, but most important of all, perhaps, is his appointment to the chairmanship of the Concessions Committee, where he replaces his closest friend and truest adherent, Piatakoff, who, it is rumored, will get a diplomatic assignment."

The National Bank of Hungary yesterday reduced its rate of discount from 11% to 9%. Except for this, there has been no change during the week in official discount rates at leading European centres, which remain at 9% in Berlin; 7% in Paris and Denmark; 6% in Italy and Norway; 5½% in Belgium and Sweden; 5% in London and Madrid, and 4% in Holland and Switzerland. The open market rates in London were a trifle easier and finished at 4⅜@ 4 7-16 for short and three months' bills, as against 4 9-16 and 4⅝%, respectively, last week. Money on call advanced to 4¾%, but closed at 3⅛%, as compared with 3¾% a week ago. In Paris and Switzerland open market discounts declined to 6 and 2¼%, respectively, against 6⅛% and 2⅜% for the preceding week.

Another substantial addition to gold holdings was shown in the Bank of England's statement for the week ending May 27, amounting to £782,068, although as note circulation expanded £941,000 there was a reduction in reserve of £159,000, while the proportion of reserve to liabilities dropped to 23.07%, from 24.08 last week. This and other striking changes in the report were apparently due to the strain of preparations for meeting the month-end disbursements. At this time a year ago, however, the reserve ratio stood at 18½% and a year earlier at 19%. The deposit accounts were increased. Public deposits gained £31,000 and "other" deposits £4,484,000. Loans on Government securities expanded £1,685,000 and loans on other securities £3,015,000. The Bank's stock of gold now aggregates £156,690,279, which compares with £128,184,802 last year (before the transfer to the Bank of England of the £27,000,000 gold held by the Redemption Account of the currency note issue), and £127,524,330 in 1923. Reserve totals £28,255,000. This contrasts with £22,202,887 in 1924 and £22,723,835 a year earlier. Note circulation amounts to £148,182,000, against £125,731,915 and £124,550,495 one and two years ago, respectively. The loan total aggregates £75,040,000. In the corresponding week of 1924 it was £73,302,269 and in 1923 £71,255,827. The official discount rate remains at 5%. Clearings through the London banks for the week were £725,710,000, against £699,888,000 a week ago and £752,382,000 last year. We append herewith comparisons of the several items of the Bank of England return for a series of years:

BANK OF ENGLAND'S COMPARATIVE STATEMENT.

	1925. *May 27.*	1924. *May 28.*	1923. *May 30.*	1922. *May 31.*	1921. *June 1.*
	£	£	£	£	£
Circulation, b	148,182,000	125,731,915	124,550,495	122,715,860	129,095,280
Public deposits	15,777,000	15,490,091	20,753,609	28,740,945	16,596,446
Other deposits	106,717,000	104,551,347	98,429,126	101,480,533	133,169,634

a Includes, beginning with April 29 1925, £27,000,000 gold coin and bullion previously held as security for currency note issues and which was transferred to the Bank of England on the British Government's decision to return to gold standard.

b Beginning with the statement for April 29 1925, includes £27,000,000 of Bank of England notes issued in return for the same amount of gold coin and bullion held up to that time in redemption account of currency note issue.

The Bank of France in its weekly statement reports a further small gain of 42,215 francs in the gold item this week. The Bank's gold holdings, therefore, now aggregate 5,546,562,700 francs, comparing with 5,542,870,337 francs at this time last year and with 5,537,397,232 francs the year previous; of the foregoing amounts 1,864,320,907 francs were held abroad in both 1925 and 1924 and 1,864,344,927 francs in 1923. During the week bills discounted increased 322,867,000 francs, Treasury deposits rose 46,729,000 francs and general deposits were augmented by 201,324,000 francs. Advances, on the other hand, were reduced 74,632,000 francs, while silver fell off 2,994,000 francs. A further contraction of 47,258,000 francs occurred in note circulation, bringing the total outstanding down to 42,702,589,000 francs. This contrasts with 39,556,279,150 francs at the corresponding date last year and with 36,740,980,215 francs in 1924. Comparisons of the various items in this week's return with the statement of last week and corresponding dates in both 1924 and 1923 are as follows:

BANK OF FRANCE'S COMPARATIVE STATEMENT.

	Changes for Week.	Status as of		
Gold Holdings—		May 28 1925.	May 30 1924.	May 31 1923.

General deposits	Inc. 201,324,000	2,124,075,000	2,209,793,310	2,131,142,281

The weekly report of the Imperial Bank of Germany, issued as of May 23, was noteworthy chiefly by reason of continued contraction in outstanding obligations. Note circulation fell 66,713,000 marks. In other maturing obligations there was an increase of 48,942,000 marks, but loans from the Rentenbank declined 3,486,000 marks and other liabilities 24,007,000 marks. On the assets side, bills of exchange and checks declined 65,619,000 marks. Advances increased slightly, viz. 331,000 marks. Deposits held abroad, however, showed a shrinkage of 20,941,000 marks. There was a small increase in reserve in foreign currencies of 179,000 marks and an increase in silver and other coins of 730,000 marks. Notes on other banks increased 6,564,000 marks, investments 42,000 marks, and other assets 11,971,000 marks. Gold and bullion holdings gained 538,000 marks to 1,015,292,000 marks. Note circulation now stands at 2,202,812,000 marks.

The weekly statements of the Federal Reserve banks issued as usual late Thursday afternoon, reflected preparations for the June 1 payments by the member banks in the form of considerable additions to total of bills discounted. Gold holdings continue to expand and for the System as a whole there was a gain of $3,400,000, while the New York bank added another $24,000,000 to its stock. The combined report showed that the banks as a group increased their rediscounts of Government secured paper $55,200,000 and "other" bills $20,400,000, so that total bill holdings expanded $75,600,000. Holdings of bills bought in the open market were also larger, increasing $2,300,000. Total earning assets increased $68,800,000, while deposits increased $25,400,000. The amount of Federal Reserve notes in actual circulation increased $14,200,000 and member bank reserve accounts $20,000,000. At New York, rediscounting of all classes of paper expanded $50,600,000, thus bringing the total of bills discounted up to $110,446,000, as against $59,862,000 last year. Open market purchases, however, were smaller, declining $8,400,000. Earning assets and deposits showed additions of $23,800,000 and $26,800,000, respectively. Federal Reserve notes in actual circulation at the local bank remained about stationary, but member bank reserve accounts rose $26,600,000. Very little change was shown in reserve ratios, as the changes in liabilities and in gold holdings largely offset each other. The ratio of reserve for the combined banks declined 0.8%, to 77%, and that at New York 0.1%, to 82.6%.

The weekly report of actual condition of the New York Clearing House banks and trust companies, issued last Saturday, revealed further curtailment in loans as well as deposits, although as member banks drew down their reserves at the Reserve bank, surplus was likewise reduced, more than $24,000,000. In detail the figures show that the loan item declined $19,034,000, while net demand deposits showed a shrinkage of $37,048,000, to $4,389,695,000, which is exclusive of Government deposits to the amount of $21,473,000. Time deposits increased $207,000, to $625,971,000, as also did cash in own vaults of members of the Federal Reserve Bank, this latter item rising $1,394,000, to $45,414,000, which, however, is not counted as reserve. Vault reserves of State banks and trust companies expanded $672,000 and reserves kept in other depositories $579,000. As already intimated, there was a reduction in the reserves of member banks at the Reserve bank of $30,261,000. Consequently, notwithstanding the shrinkage in deposits, surplus reserves decreased $24,237,360; thus bringing excess reserves now held down to $41,439,280, in comparison with $65,676,640 a week earlier. The above figures for surplus are based on legal reserves of 13% for member banks of the Federal Reserve System, but not including cash in vault to the amount of $45,414,000 held by these member banks on Saturday last.

On account of the holiday to-day (Memorial Day) the statement of the Clearing House member banks for the current week was issued after the close of business yesterday. It showed an increase in excess reserve of $7,965,040 and in loans, discounts, etc., of $50,668,000. Demand deposits expanded to the extent of $68,965,000.

Call money was a little firmer, reaching 4%, and holding there for several days. Yesterday afternoon it declined to 3¾%. Time money was unchanged. That, in a word, characterizes the local money market this week. The slight trend upward in demand loans naturally was associated with the decrease of over $24,000,000 in excess reserve of the Clearing House banks, as shown in the actual statement a week ago to-day, and with the preparation that was in progress throughout the week for the June 1 disbursements. The continued activity of the stock market could be suggested as another logical reason for the fractional advance in loaning rates. While the loadings of 984,916 cars of revenue freight for the week ended May 16 set a new record for the current year up to that time, it is doubtful if the demand for funds from industrial and mercantile sources has increased greatly within the week. The offerings of new domestic issues continues on a moderately large scale, and more definite and persistent reports of additional financing for European countries in the near future has been in circulation. In one or more instances negotiations are said to have been closed within the last two or three days. France is struggling with plans for increasing revenues and balancing the budget. Political and financial news from both England and Germany has been meagre.

Dealing with specific rates for money, loans on call this week covered a range of 3¾@4½%, which compares with 3¾@4% last week. Monday 4½% was the high, the low 3¾% and 3¾% the ruling rate. On the three days following, Tuesday, Wednesday and Thursday, a flat rate of 4% was quoted, this being the high, the low, and also the basis for renewals on each of these days. Call funds again renewed at 4% on Friday, the maximum figure, but before the close there was a decline to 3¾%. In time money the situation remains unchanged. Fixed date funds were in fair supply, but the inquiry was

light and the market inactive and lifeless. No change was made in rates from 3½@3¾% for sixty days, 3¾% for ninety days and four months, and 3¾@4% for five and six months.

Commercial paper was in quite active demand from both out of town and local buyers, and a fairly large volume of business was transacted. Four to six months' names of choice character continue to be quoted at 3¾@4% and names less well known at 4@4¼%, unchanged.

Banks' and bankers' acceptances ruled at the levels established last week. A moderate degree of activity was noted. City and country institutions, also individual investors, figured in the dealings, and the aggregate turnover attained larger proportions than usual, although light offerings restricted business to some extent. For call loans against bankers' acceptances the posted rate of the American Acceptance Council is now 3½%, against 3¼% a week ago. The Acceptance Council makes the discount rate on prime bankers' acceptances eligible for purchase by the Federal Reserve banks 3¼% bid and 3⅛% asked for bills running 30 and 90 days, 3⅜% bid and 3¼% asked for bills running 60 and 90 days, 3½% bid and 3⅜% asked for bills running 120 days, and 3⅝% bid and 3½% asked for bills running 150 and 180 days. Open market quotations were as follows:

SPOT DELIVERY.

	90 *Days.*	60 *Days.*	30 *Days.*
Prime eligible bills	3⅜@3¼	3⅜@3¼	3¼@3⅛

FOR DELIVERY WITHIN THIRTY DAYS.

Eligible member banks	3⅛ bid
Eligible non-member banks	3⅜ bid

There have been no changes this week in Federal Reserve Bank rates. The following is the schedule of rates now in effect for the various classes of paper at the different Reserve banks:

DISCOUNT RATES OF FEDERAL RESERVE BANKS IN EFFECT MAY 29 1925.

* Including bankers' acceptances drawn for an agricultural purpose and secured by warehouse receipts, &c.

In the sterling exchange market probably the most noteworthy feature of a dull and uneventful week was the marked stability in prices in the face of disturbing developments in European affairs. Notwithstanding a further sharp decline in francs, sterling values were not only firmly held, but climbed still higher, until demand bills touched 4 86⅛—or still closer to actual parity. As was the case last week, the general trend was upward and after an initial quotation of 4 85¾ there was a gradual rise until the 4 86 mark had again been crossed. Trading was lifeless, however, both from the standpoint of speculative effort and legitimate business. The almost complete absence of rate variation that has apparently been brought about renders the making of profits through quick turns practically impossible, so that speculators have for the time being abandoned the attempt to operate in sterling and are turning their attention elsewhere.

Among the factors that have served to sustain sterling rates this week were strength in the London money market, which is having the effect of drawing capital away from New York and creating an inquiry for sterling, also the ever-increasing volume of buying to meet tourists' needs. This, it is estimated, as much as anything else, has been instrumental in keeping prices up to their present high levels, and according to present prospects no letup in the inquiry from this source need be looked for, at least for a couple of months or more. Toward the latter part of the week approach of the Memorial Day holiday intensified the dulness and the market came to a virtual standstill; hence prices sagged slightly and the final range was under the best for the week.

Referring to the day-to-day rates, sterling exchange on Saturday last was firm but virtually unchanged, at 4 85¾@4 85⅞ for demand, 4 86@4 86⅛ for cable transfers and 4 83¼@4 83⅜ for sixty days; trading was dull. On Monday sterling was still inactive, but well maintained; demand ranged between 4 85¾@4 86, cable transfers at 4 86@4 86¼ and sixty days at 4 83¼@4 83½. Increased strength developed on Tuesday and there was a further fractional advance to 4 86@4 86⅛ for demand, 4 86¼@4 86⅜ for cable transfers and 4 83½@4 83⅝ for sixty days. Wednesday's market was quiet and prices for demand continued to range between 4 86 and 4 86⅛, with cable transfers 4 86¼@4 86⅜ and sixty days 4 83½@4 83⅝. Reaction set in on Thursday, owing to a lessening in the already limited inquiry and quotations declined to 4 85⅞@4 86 1-16 for demand, to 4 86⅛@4 86 5-16 for cable transfers and to 4 83⅜@4 83 9-16 for sixty days. On Friday pre-holiday dulness prevailed and the market came to a practical standstill; rates, which were little more than nominal, remained at 4 85⅞@4 86 for demand, 4 86⅛@4 86¼ for cable transfers and 4 83⅜@4 83½ for sixty days. Closing quotations were 4 83⅜ for sixty days, 4 85⅞ for demand and 4 86⅛ for cable transfers. Commercial sight bills finished at 4 85¾, sixty days at 4 81⅝, ninety days at 4 81⅛, documents for payment (sixty days) at 4 81⅞, and seven-day grain bills at 4 85¼. Cotton and grain for payment closed at 4 85¾.

No gold engagements were reported this week. It is asserted that the recent shipment of $1,250,000 gold made by the Federal Reserve Bank to the German Reichsbank completed the movement which began at the beginning of March. A total of $36,250,000 in all was shipped to that institution. On May 15 the Bank of England received a shipment of £1,610,000 gold from Rothschilds, which was reputed to be part of the German Bank's reserve held abroad. During the week just past gold valued at £2,000,000, some of it in bars, is said to have arrived in London from Russia, consigned by the Soviet State Bank to the Bank of England. Great secrecy was observed in making this delivery, and no official announcement of the transaction has as yet been made.

Irregular weakness pervaded trading in Continental exchange and French and Italian currencies were again subjected to pressure which caused further sharp losses in values of francs and lire and resulted

in considerable nervousness and hesitancy. The underlying factors governing market movements were essentially the same as those of a week ago, i.e., anxiety over financial difficulties and political instability. Francs led in the decline and the quotation, under persistent selling, crashed once more through the 5.00 mark, and breaking to 4.98½, a loss for the week of 13 points and about 23 points under the level prevailing a short time ago. This is the lowest figure since last July. The request of the United States Government that the nations indebted to this country make some serious attempt at adjustment, apparently continues to be an unsettling element, besides which the inability to arrive at a security pact satisfactory to both the Allies and Germany was not liked, while the Moroccan campaign is meeting with determined political opposition by those opposed to the political party in power. It is recognized that French finances are wholly inadequate to meet the strain of prolonged military activities. For the first time in many weeks speculative selling of franc futures developed, which was taken to indicate the strongly pessimistic sentiment existing in France. The discount on future franc bills is about 3 points per month below the cable rate and approximately 8½ points for three months. Latterly, the discount for three months has been as high as 13 points. Locally, traders showed no great disposition to plunge deeply in franc operations, notwithstanding the apparent likelihood of further declines. The reason for this is fear of intervention by the Bank of France. As to lire, there was a decline of about 5 points, to 3.95½, as a result of foreign selling on a liberal scale. Speculation was said to have played a prominent part in depressing the rate. Late in the week Belgian francs also turned weak and declined to 4.88¼ on advices from Washington that the Government was considering the advisability of disapproving the granting of loans to nations who have as yet made no overtures toward debt negotiations. Should this prove true, it was regarded as likely to establish a precedent which would be observed in dealing with other of the debtor nations. In all three of these currencies it was said that a good deal of the selling on the London and Paris markets at times came from disgruntled longs who had bought heavily in the belief that the Continental currencies would shortly follow the course taken by sterling. Occasional attempts at profit taking brought about a few feeble rallies, but the trend in the main was downward. There has been a resumption during the week of exports of capital from France and Italy, which added to the general confusion and uneasiness. German and Austrian exchange remained unchanged. Greek exchange was quiet but fairly steady.

The London check rate on Paris finished at 97.07, as compared with 94.75 a week ago. In New York sight bills on the French centre closed at 5.01¼, against 5.10¼; cable transfers at 5.02¼, against 5.11¼; commercial sight bills at 5.00¼, against 5.09¼ and commercial sixty days at 4.95, against 5.04 last week. Closing rates on Antwerp francs were 4.89 for checks and 4.90 for cable transfers, in comparison with 4.99 and 5.00 the preceding week. Reichsmarks finished at 23.81 for both checks and cable transfers, the same as heretofore. Austrian kronen continue to be quoted at 0.0014⅛, unchanged. Lire closed the week at 3.98 for bankers' sight bills and at 3.99 for cable remittances, as against 4.05 and 4.05¼ a week earlier. Exchange on Czechoslovakia finished at 2.96½, against 2.96¼; on Bucharest at 0.47¼, against 0.47½; on Poland at 19.21, against 19.20, and on Finland at 2.53, (unchanged). Greek drachmae closed at 1.70¼ for checks and at 1.70¾ for cable transfers. Last week the close was 1.71½ and 1.72.

Movements in the neutral exchanges, formerly so-called, were lacking in special significance. In the main, the tendency was toward lower levels in sympathy with the major Continental currencies, but losses continue to be confined to a few points. Spain lost ground on rumors that the Spanish Government had decided to support France in her Moroccan campaign. Of the Scandinavian exchanges, Norwegian came in for the most attention, having gained more than 10 points as a result of rumors that Norway was soon to secure a large new loan.

Bankers' sight on Amsterdam finished at 40.14½, against 40.19; cable transfers at 40.16½, against 40.21; commercial sight bills at 40.06½, against 40.11, and commercial sixty days at 39.70½, against 39.75 a week ago. Swiss francs closed at 19.34½ for bankers' sight bills, against 19.33½, and cable transfers at 19.35½, against 19.34½ the week previous. Copenhagen checks finished at 18.79, against 18.76, and cable transfers at 18.83, against 18.80; checks on Sweden closed at 26.73½ and cable transfers at 26.77½, against 26.72½ and 26.76½, while checks on Norway finished at 16.79½ and cable transfers at 16.83½, against 16.78½ and 16.82½ last week. Final quotations on Spanish pesetas were 14.52 for checks and at 14.54 for cable transfers, in comparison with 14.57 and 14.61 the preceding week.

FOREIGN EXCHANGE RATES CERTIFIED BY FEDERAL RESERVE BANKS TO TREASURY UNDER TARIFF ACT OF 1922.

* One schilling is equivalent to 10,000 paper crowns.

As to South American quotations, these were strong and high for both Argentina and Brazil. Argentine paper pesos sold up to 40.74 and cable transfers up to 40.79, against 40.40 and 40.45. This is still in anticipation of the partial removal of the gold embargo on June 10. Brazilian milreis finished at 10.71 for checks and at 10.76 for cable transfers. A week

ago the close was 10.50 for checks and 10.60 for cable transfers. Chilean exchange was lower and closed at 11.33, against 11.49, but Peru was not changed from 4.12.

The Far Eastern exchanges were higher, chiefly in sympathy with the movement of silver. The Chinese and Indian currencies all closed at small net gains. Hong Kong finished at 55¼, against 54.95; Shanghai at 74¾@75¾, against 73¾@74¾; Yokohama at 42@42¼, against 42@42¼; Manila at 49¾@50 (unchanged); Singapore at 57@57¼, (unchanged); Bombay at 36½@36¾, against 36.55@36.75, and Calcutta at 36¾@37, against 36½@36¾.

The New York Clearing House banks, in their operations with interior banking institutions, have gained $3,368,308 net in cash as a result of the currency movements for the week ended May 28. Their receipts from the interior have aggregated $4,463,788, while the shipments have reached $1,095,480, as per the following table:

CURRENCY RECEIPTS AND SHIPMENTS BY NEW YORK BANKING INSTITUTIONS.

Week Ended May 28.	*Into Banks.*	*Out of Banks.*	*Gain or Loss to Banks.*
Banks' interior movement	$4,463,788	$1,095,480	Gain $3,368,308

As the Sub-Treasury was taken over by the Federal Reserve Bank on Dec. 6 1920, it is no longer possible to show the effect of Government operations on the Clearing House institutions. The Federal Reserve Bank of New York was creditor at the Clearing House each day as follows:

DAILY CREDIT BALANCES OF NEW YORK FEDERAL RESERVE BANK AT CLEARING HOUSE.

Saturday, May 23.	*Monday, May 25.*	*Tuesday, May 26.*	*Wednesd'y, May 27.*	*Thursday, May 28.*	*Friday, May 29.*	*Aggregate for Week.*
$	$	$	$	$	$	$
75,000,000	84,000,000	66,000,000	91,000,000	73,000,000	86,000,000	*Cr.*475,000,000

Note.—The foregoing heavy credits reflect the huge mass of checks which come to the New York Reserve Bank from all parts of the country in the operation of the Federal Reserve System's par collection scheme. These large credit balances, however, reflect only a part of the Reserve Bank's operations with the Clearing House institutions, as only the items payable in New York City are represented in the daily balances. The large volume of checks on institutions located outside of New York are not accounted for in arriving at these balances, as such checks do not pass through the Clearing House but are deposited with the Federal Reserve Bank for collection for the account of the local Clearing House banks.

The following table indicates the amount of bullion in the principal European banks:

Banks of	*May 28 1925.*			*May 30 1924.*

Publicity of Income Tax Returns—The Supreme Court and the Constitution.

In comenting in our issue of Dec. 27 last upon the suits which had been instituted against certain newspapers because of the publication of income tax returns, we expressed the hope that the Government "will be successful in its efforts to have every phase of the income tax publicity provision of the Revenue Act of 1924 presented for consideration of the United States Supreme Court in the various test suits" that had been brought. The main issue, as we then pointed out, was not that of freedom of the press as guaranteed by the First Amendment, although that issue was involved, but rather "the right of the people to be secure in their persons, houses, papers and effects against unreasonable searches and seizures," which the Fourth Amendment declares "shall not be violated"; and we felt constrained to say that "a decision based on mere technicalities, leaving the main issue undetermined, would be an outcome in every way deplorable."

The unanimous decision of the Supreme Court in the cases of the Kansas City "Journal-Post" and the Baltimore "Post," handed down on Monday in an opinion read by Associate Justice Sutherland, is a technical decision such as we feared. No one, we think, can read it with attention without feeling that the Court based its decision upon the narrowest ground upon which a ruling could rest, and that neither the constitutional guarantee of a free press nor that of personal privacy has been particularly elucidated or materially strengthened by what the Court has affirmed. In its apparent search for a narrow rather than a broad foundation for its conclusion, indeed, the Court appears to have gone farther than the Government, which on its part could hardly have been expected to raise any issues that could be avoided; for, while Mr. Beck, the Solicitor General, in his brief for the Government, paid some attention to the bearing of the First Amendment upon the issue, and the same point was raised by the defendant newspapers, the opinion of the Court seems to hold that the constitutional question of the freedom of the press did not need to be examined because "no constitutional right or privilege of the taxpayer is invaded." "For the purposes of the inquiry," the Court declares, "we assume the power of Congress to forbid or to allow such publication as in the judgment of that body the public interest may require."

Accordingly, having found that the Commissioner of Internal Revenue is directed by the Revenue Law of 1924 "to make the lists of taxpayers and taxes available for public inspection in the office of the Collector and elsewhere as he may determine," and that "his discretion in that respect is limited only by his own sense of what is wise and expedient," the Court holds that only "a very dry and literal reading of the statute, quite inconsistent with its legislative history and the known and declared objects of its framers," would penalize "the effective form of secondary publicity" which appears in the publication of the income tax returns by the press. "Information which everybody is at liberty to acquire, and the acquisition of which Congress seemed especially desirous of facilitating, in the absence of some clear and positive provision to the contrary cannot be regarded otherwise than as public property, to be passed on to others as freely as the possessors of it may choose." Congress, in other words, wished the income tax returns to be news, the Court assumes without argument that what Congress wished it had a right to wish and to enact, and hence the press is guilty of no crime in spreading broadcast what Congress hands out.

The Supreme Court has spoken, and its word is law. Until Congress acts to change the statute, newspaper publication of whatever income tax returns may be opened to public inspection in the offices of Collectors of Internal Revenue will be entirely lawful, and hence presumably, in the legal

sense, entirely proper. With all respect, however, for the learning and ability of the Court and the binding force of its decisions, we nevertheless are compelled to think that the language of Mr. Associate Justice Sutherland's opinion, at one very important point, shows a confusion of thought which materially weakens the force of his argument. The passage is one from which we have already quoted the concluding sentence, and part of another. "Something is said in the briefs," the learned Justice declares, "and was said at the bar, as to the wisdom, on the one hand, of secrecy, and, on the other, of publiciity, in respect to tax returns. But that is a matter addressed to the discretion of the lawmaking department, with which the courts are not concerned so long as no constitutional right or privilege of the txapayer is invaded; and there is no contention that there is any such invasion here, whichever view may be adopted. The problem, therefore, is primarily one of statutory construction, the disposition of which will determine whether the constitutional question as to the freedom of the press needs to be considered. For the purpose of the inquiry, we assume the power of Congress to forbid or to allow such publication as in the judgment of that body the public interest may require." No subsequent reference to the constitutional aspects of the case is found in the decision.

It is a settled principle of our constitutional law that the discretion of the legislature, in the determination of public policy, is not a subject for judicial inquiry as long as the limitations imposed by the Constitution are not overstepped. Whether or not the constitutional limitations have been passed, on the other hand, is not only distinctly a judicial question, but it is also one which the courts are in duty bound to keep always in view. Nothing which the Constitution forbids may lawfully be done by Congress under cover of legislative discretion; and if, by inadvertence or design, something which is forbidden is nevertheless attempted, it is the business of the courts to interpose and set it aside as void. It is, of course, true, as Mr. Associate Justice Sutherland says, that the taxpayers whose names and tax returns were published by newspapers in Kansas City and Baltimore were not themselves parties to the test suits which the Government instituted. They were the victims of publicity, but they did not come before the Court seeking redress. But what about their constitutional right to privacy which the Fourth Amendment declares "shall not be violated"? Granting as beyond dispute, the right of Congress to provide for such inquiries into personal affairs as the collection of an income tax necessarily involves, had Congress the right to direct the publication of the returns, either by opening them to public inspection in revenue offices or in any other way? Does the Sixteenth Amendment, which authorizes the levying of an income tax, operate to break down or limit the right to personal privacy which the Fourth Amendment guarantees? If it does not, then the primary question before the Supreme Court was not merely that of statutory construction, nor yet that of freedom of the press, but rather the much more important question of the right of Congress to trench upon the constitutional guarantee of personal privacy by directing publicity for income tax returns in any form, together with the right to make such publicity retroactive, as appears plainly to have been done in the publicity directed under the Revenue Act of 1924.

We cannot but regret that the Supreme Court, whose rare unanimity of opinion will doubtless give additional popular weight to its decision, should have left this aspect of the case unnoticed, and should have "assumed" the existence of a right in Congress to allow or forbid publicity in its discretion. With the utmost deference to the wisdom of the Court, we think that the assumption, which was made without argument, is not warranted by the Constitution, and that "statutory construction" leaves the main issue still open. We can only say again, as we said in discussing the matter on Dec. 27, that "it is no concern of the public, and no concern of the press, what the income of an individual may be, or how it may be derived, so long as acquisition has been by honest and lawful means and has involved no violation of the rights of others. The right of the individual in that respect is distinct from the right of free speech and the freedom of the press, and there is no need of confusing the two." The Solicitor-General is not to be blamed for not raising the point, since he could not be expected to argue against the Government case. It was not a point to be raised by the defendant newspapers, because if the section of the Revenue Act that directed the opening of the returns to the public were unconstitutional, they themselves would be shorn of their defense. But we think that the question of personal right to privacy was implicit in the case presented to the Court, and that the welfare of the nation would have been served by considering and, as far as possible, settling it. The prodigious invasion of private rights which has come about in this country during the past few years is an evil to be resisted, and there could be no stouter form of resistance than for the Supreme Court to draw the line where the Constitution intended that the line should be drawn. It is sincerely to be regretted that the Court did not avail itself of the opportunity, which apparently was presented to it in the income tax publicity case, of upholding personal rights by a constitutional decision wholly free from doubt.

"Things of the Spirit" in Advertising.

At the meeting of the Associated Advertising Clubs of the World, held in Houston, Texas, May 11, Representative C. A. Eaton, of New Jersey, struck, the dispatches tell us, a "keynote" when he said: "While we are selling things of a material kind, we must also sell the imperishable things of the spirit. Thus only can the art of advertising continue to be the handmaiden of human progress, leading the weary feet of all nations forward along convergent paths until by and by we shall reach the sunlit land of human understanding, complete co-operation, friendship and peace, which will mean the dawning of the Kingdom of God upon earth." Mr. Hoover, in his address, adds an explanatory note to this statement in the following way: "There is still another phase of advertising that has always interested me, and that is the impulse advertising has given to the distribution of news, information, good cheer and educational material to our people. . . . Obviously, were it not for the vast extension of national advertising, we should never have had the fine development of our periodical magazines, and were it not for the growth of local newspaper advertising, our publishers would not be able to produce the great journals which are of such incalculable value."

Perhaps we are not doing justice to either address in linking together these two brief extracts, but it

serves to bring out one connection between the material and spiritual. And how far away this is from the foolish charge made in some quarters that advertising controls the policy of a paper or periodical. The vast body of educational news and comment would sink to insignificant proportions if "controlled" by the preponderant advertising. "Things of the spirit" would find little place. It is natural that in so wide a field as publishing affords advertisers should seek specialized journals for the dissemination of information as to their own products. But since they thus sustain the journal, it is the more free to widen its influence in public affairs that have only a lateral connection with its main purpose. And such is the skill in presenting advertising to readers that there is contained in the mere routine a fund of information in itself indispensable. This, however, has its limits, and if we are not mistaken, these lie in the single motto of "truth" now universally accepted as a primal law. Facts before argument. Truth is its own mentor. Truth is its own advocate. There are lines of advertising where truth need go no further than the mere statement, where "wish," "want" and "desire" are based upon a set of conditions the advertiser seeks first to reach.

If this be true the art or science is reduced to presenting truth in a plain way in the proper place. Advertising, like salesmanship, is sometimes wasted effort. We find a slowing down of the claims formerly made. Sometimes schools undertake to teach the "art" of selling anything to anybody. Advertising writers have sometimes claimed to have an insight into psychology almost mystic. They have claimed that expression is the soul of advertising. And while this may not be denied, it cannot create a want or desire where there is no basis in good or for good-will. Often placement is more than preachment. And it simplifies the whole consideration to say that putting the plain facts where they will meet already interested eyes is the first step. Constant reappearance of the fact will have its way. We do not doubt the value of repetition, but this repetition is fact, not argument. And one of the most significant features of all advertising is its interdependence—the preparation of mind to see the facts when properly displayed.

If we may be permitted to carry this phase of the matter a little further, arguments of savings banks that are spread lavishly before the whole people lead to ability to invest in permanent securities, and when this poi[illegible]ished the truth concerning a stock or bond finds its place in the popular journal that has been the medium of the advocacy of thrift. But if advertising stopped here it would fail to reach a clientele already prepared to buy in large quantities, and one no longer interested in the arguments for saving because impelled to investments where the detailed facts are alone important, one that depends primarily on the specialized journal. Advertising here that is argumentative or fulsomely persuasive loses its force. The buyer has often a wider range of knowledge than the seller, for he scrutinizes the whole investment field. He needs nothing more than the facts. He canot often be persuaded against his own judgment. And on this he is risking the investment of large capital.

While this is true this same investor reads the specialized medium he consults. And it is here that the principles of correct and safe investment are linked to the news and comment of the day. It is here that the "things of the spirit" may be revealed to minds busied with direct affairs of life. At this point the specialized journal becomes the university to the common school of the popular press. It selects and classifies the events and comment from a wide and important field, and performs a work not permitted in the nature of things to individual or people or to journals of more comprehensive scope. It must appear that in the doing of this nothing but a complete independence of the "spirit" will suffice to reveal the fundamentals of "things as they are." And in proportion as this selection of news is wise and liberal in that proportion comment thereon will be judicious, instructive and helpful.

The "things of the spirit" forbid that overreaching in advertising which describes an article or an opportunity as the "best in the world." For while this may and is in some instances literal truth, in the very nature of progress it is not an abiding "truth." Though improvement keeps an article abreast of all new things—at the very time "best" is written there may be something else better that is making preparation for entrance into the field of competition. And it is here, perhaps, that publishing may influence advertising. Selection in terms and measurement has already eliminated the flamboyance of the get-rich-quick scheme and the insinuating appeal of quackery, but it is due other patron advertisers that the description of goods and investments allow for the presentation of all on an equal plane of merit revealed alone by the "truth." And what a wonderful thing this mere "truth" is becoming! Long ago it was recognized that it is a duty to read the advertising pages. Now it is an imperative duty. And what a magnificent array is presented to the eye and mind! In the mere pictorial representations of commercial art are to be found productions that vie in beauty and far surpass in utility the articles and ornaments dug from the ruins of ancient cities, now so highly priced by a class of rich collectors.

Complaint is sometimes made that so much space in the modern journal is devoted to advertising. But what would you? Even as it is, production outstrips presentation. And unless there are the specialized requirements we have mentioned the mutual support of an intricate trade demands room for all. It is generally recognized that no other medium equals the "newspaper." It is more and more becoming admitted that selective advertising comprises the utilization of specialized journals where every reader is a possible patron or buyer. It *is* true that the fascination of the news columns takes away from the more general reading of the advertisements. The increase in advertising, therefore, demands increasing discrimination in the publication of news. Sensational "scoops" that occupy the first page from day to day in a way may increase the circulation, but not among analytical readers. And in proportion to the intelligence and poise of readers is the opportunity of the advertiser in many if not in most of our modern business lines.

And the "heavy" advertiser has an opportunity for public service, like in character, though lessened in degree, to the publisher himself. Decorum, poise, toleration, mutual support among advertisers to each other, serves to eliminate all *but* the truth. Educative power is linked to moderation. The "truth" is that competitors not only be accorded an equal field, but a fair field. And here is proof positive that no one firm, no one business or industry

sense, entirely proper. With all respect, however, for the learning and ability of the Court and the binding force of its decisions, we nevertheless are compelled to think that the language of Mr. Associate Justice Sutherland's opinion, at one very important point, shows a confusion of thought which materially weakens the force of his argument. The passage is one from which we have already quoted the concluding sentence, and part of another. "Something is said in the briefs," the learned Justice declares, "and was said at the bar, as to the wisdom, on the one hand, of secrecy, and, on the other, of publiciity, in respect to tax returns. But that is a matter addressed to the discretion of the lawmaking department, with which the courts are not concerned so long as no constitutional right or privilege of the txapayer is invaded; and there is no contention that there is any such invasion here, whichever view may be adopted. The problem, therefore, is primarily one of statutory construction, the disposition of which will determine whether the constitutional question as to the freedom of the press needs to be considered. For the purpose of the inquiry, we assume the power of Congress to forbid or to allow such publication as in the judgment of that body the public interest may require." No subsequent reference to the constitutional aspects of the case is found in the decision.

It is a settled principle of our constitutional law that the discretion of the legislature, in the determination of public policy, is not a subject for judicial inquiry as long as the limitations imposed by the Constitution are not overstepped. Whether or not the constitutional limitations have been passed, on the other hand, is not only distinctly a judicial question, but it is also one which the courts are in duty bound to keep always in view. It is generally recognized that no other medium equals the "newspaper." It is more and more becoming admitted that selective advertising comprises the utilization of specialized journals where every reader is a possible patron or buyer. It *is* true that the fascination of the news columns takes away from the more general reading of the advertisements. The increase in advertising, therefore, demands increasing discrimination in the publication of news. Sensational "scoops" that occupy the first page from day to day in a way may increase the circulation, but not among analytical readers. And in proportion to the intelligence and poise of readers is the opportunity of the advertiser in many if not in most of our modern business lines.

And the "heavy" advertiser has an opportunity for public service, like in character, though lessened in degree, to the publisher himself. Decorum, poise, toleration, mutual support among advertisers to each other, serves to eliminate all *but* the truth. Educative power is linked to moderation. The "truth" is that competitors not only be accorded an equal field, but a fair field. And here is proof positive that no one firm, no one business or industry

does, or can ever be permitted to, control the policies of a publication. To allow this state of things to come about would be to commit slow suicide. Publishing is just as free to all as is advertising. And, for an example, to permit department stores to dictate the policies of a paper, would immediately cut it off from other equally lucrative fields. It is this freedom of publisher and patron that must be preserved from cost-discriminations that may be inflicted by onerous postage regulations by Governments. Advertising clubs are doing good work by discussing the ethics of advertising; but as readers grow in the habit of reading the advertising pages for knowledge, "things of the spirit" will more and more come into control.

Foreign Business—Its Challenge to America.

In our recent articles on the existing situation in various foreign countries we have given attention to their economic no less than their political condition. The country's altogether exceptional circumstances make it inevitable that American finance and American business should reach out for opportunity abroad. Americans are not in the habit of waiting where there is prospect of gain. These are times when the opportunity becomes a challenge.

The devastation wrought by the war has made economic need well-nigh universal. Of this all are aware; but only with care can we discern the special character of that need in different lands, or appreciate the particular terms under which even local needs can be adequately met. They may be purely conventional and even arbitrary, and to us unreasonable. They often appear unnecessary and obstructive. But they exist and must be regarded if we would succeed.

For example, Bulgaria occupies the centre of the stage to-day for the violence of its political distress, which, of course, means delayed recovery and increased economic loss. The Balkan situation as a whole is commercially important; and what are the facts? Very recent news is that after the war Americans rushed in with many business adventures; the doors were open, and the needs were great; American interest and sympathies had long been turned to them. There was opportunity for immediate service with quick profit at large percentage. We have had to learn that under existing conditions such terms were not possible, and we are withdrawing. German and English business came on far better terms and with longer credits, with the result that the Americans are largely superseded before they had really found a footing.

Only the other day Asia Minor appealed to the world. Americans were already on the ground seeking concessions, and others were coming with offerings of all sorts. As the Turks proceeded to establish their autocracy the Americans paused. Interest shifted to Greece as presenting the greater need; and it appeared that even the German representatives were distributed throughout the Turkish Asiatic territory quietly and successfully establishing business connections, as we have recently described, in ways so intelligent and effective that there is small chance of displacing them in the future.

Turning to France, Caillaux's sudden restoration to power as Minister of Finance can only be explained by the pressure of the economic situation. The French are shrewd business people. They are not long in seeing through political sophistries when their pockets are affected. They have no illusions about capital levy as bringing prosperity, and they have already ceased to count upon reparations payments to balance their budget. Caillaux's policy was, and is now, to establish commercial relations with Germany as the one condition of permanent security and prosperity. Whether the Painleve Ministry stands or falls its present acceptance is sufficient evidence of the purpose of the French people to "get down to brass tacks," as the saying is with us. They want trade with their proverbially best customer, the nation which both buys and sells in their markets the things in which French industry and business are most concerned and in which both they and the Germans have long enjoyed established ways. They are both economical producers and consumers, and therefore, when business is once reopened its permanence is not likely to be easily upset. The election of Hindenburg, whatever its political significance may be, does not change the economic situation. In view of the immense majority with which he was elected, his advanced age and his conservative temperament, it is highly probable that in spite of his loyalty to the monarchy, he will have the support of the people if he returns to the policy of Bismarck, his personal counterpart, and seeks to lead Germany back into the earlier ways of acquiring influence among the nations by her economic and commercial development.

Germany is to-day in the strongest industrial position in Europe. Through the entire decade she has pushed the machinery of her economic life to its highest possible development. Her factories are in perfect repair; her means of transportation, her canals, railways and rivers, are in all directions in the best possible condition and in abundant use. She has practically no unemployment. Her mercantile marine is rapidly rebuilding and with better vessels than those surrendered. Hamburg is the most impressive commercial sight in Europe, with her miles of immense dockage, her great waterway and her vast fleet of commercial vessels; while the city itself is thronged with busy people and built up with imposing edifices.

Czechoslovakia is striving hard for prosperity in similar lines and with similar methods, and Austria, far the neediest of the former greater States, is struggling to be freed from tariff barriers while pinning her faith on the possibility of a place in a future combination established if not "in a political at least in an economic sense to constitute a United States of Europe"; and this quite independently of whether Germany shall absorb it or not.

Similar conditions in matters of foreign trade will be found in South America. Hereditary connections there are of course with Europe. Social and intellectual intercourse has long been intimate, especially with France and Spain, and economic relations have in recent years developed with both Germany and Italy. Our business with these republics is growing in the face of difficulty. General Pershing returns from his recent visit to them impressed with our need of a subsidized merchant marine to meet the general foreign situation—a questionable method of relief.

According to Secretary Hoover and the Department of Commerce, American investments abroad which before the war were not over $2,000,000,000, now amount to $10,000,000,000, not including the

Government's war loans. $5,500,000,000 of the present sum represent American owned and controlled projects, as oil, copper, etc.; the remainder is largely in private loans to foreign Governments and municipalities and holdings in foreign industries. The question before business men, however, is not so much as to existing investments, impressive as these are, but rather as to how foreign business in its new aspects is to be initiated and undertaken. "Investments," whether public or private, do not meet the situation. They are limited in the main to guaranteed or amply secured loans. The widely varied legitimate "give and take" business of the world is the only economic foundation, and that rests on certain unchanging conditions.

The first of these is ample knowledge. This need hardly be argued. But it is not always evident, as when long ago warming pans were sent to Cuba, and wheelbarrows for use by labor in Central America. The former only found a market when they could be used as ladles in boiling sugar; and the latter, when offered to men accustomed to carry loads on their backs, were thrown into the ditch. Knowledge must extend to both methods and speech. Intercourse through interpreters is restricted and embarrassing. Men need to look one another in the face and to use speech for more than "to conceal thought." Many a contract has been lost because the bid was not in the currency of the country, as many a desirable new method and new machine created only confusion because amid long established habits it was new and not easily intelligible. Our great locomotive and electrical companies send experts abroad as a matter of course with their machinery to set it up and teach its use. But that was not done when American machinery of kinds altogether new began to be introduced in foreign countries and some of the best had a long struggle to obtain acceptance. There is no reason why merchants and bankers should not recognize similar obligation to employ, and if need be train experts of like or even greater competence, because their task has many complexities.

The "long look" as over against the short and easy method is quite as important. That means contentment with fair returns, patience unlimited, persistent effort to win and to deserve confidence, respect for other people, even of other color and another speech, co-operation with one's colleagues and with natives which shall allow fair competition as a requisite in all growing enterprises, and a sincere desire to make the business a benefit to the community which supports it. These are certainly some of the fundamentals of modern as well as of all successful human intercourse.

Never did a country have the opportunity and the call to put them in practice to the benefit of itself and to the world we have to-day.

The recent issue of the Journal of the Canadian Bankers Association in announcing the purchase of the interests of the United States in the Bank of Central and South America by the Royal Bank of Canada, which already has established branches in Central and South America and the Caribbean and has also taken over the Bank of Cost Rica, makes this comment:

"This transfer marks another stage in the contraction of the American foreign banking enterprises which expanded so phenomenally at the end of the war. There is a marked tendency for foreign banking to revert to those institutions which had built up experienced staffs and responsible clienteles before the period of abnormal expansion."

The unfortunate experience to which this quotation refers ought not to divert attention from the closing statement and its permanent significance.

Annual Report of New York Central Railroad.

The annual report of the New York Central Railroad for the calendar year 1924 has been issued this week. It is hardly less noteworthy than that for the calendar year preceding. This preceding year was perhaps the most strikingly favorable period in the company's history. The system serves the great manufacturing districts of the Middle States and the Middle West and also has an enormous coal tonnage. In 1923 these sections of the country enjoyed wonderful prosperity, industrial activity being at its height, with the result of bringing to the Central lines a great increase in traffic and of course also in revenues. On the other hand, during 1924 almost precisely opposite conditions prevailed. Instead of industrial activity there was industrial depression—and of a very pronounced type.

After the first two months of 1924 business steadily declined and in mid-summer there developed a positive slump in trade. Recovery did not come until towards the close of the year. As a consequence both traffic and revenues on this great railroad system suffered a severe shrinkage in contrast with the marvelous results of 1923. In the number of tons of freight carried there was a decrease compared with 1923 of no less than 27,224,344 tons. Freight revenues fell off $46,295,971 and total railway operating revenues $51,427,853.

But this prodigious shrinkage in income was offset by a reduction in railway operating expenses in amount of $45,947,078, leaving the net loss only $5,480,775. The company was able to cut down its maintenance outlays because of its unusually comprehensive maintenance program in 1923; and the reduction in the volume of traffic handled operated of course to the same end. Besides this, study of the traffic statistics reveals operating efficiency in every direction. The report also tells us that fuel for locomotives, which accounts for 55% of the total decrease in the transportation group, reflects not only a decreased consumption but also a lower average price per ton.

Taxes keep steadily rising and the augmentation in this item served further to swell the loss in net income. Nevertheless the final result is satisfactory in the highest degree. After paying 7% in dividends, calling for $20,728,835, there is left a surplus on the year's operations in the handsome sum of $18,399,461. In other words, besides paying 7% in dividends there was left surplus income equivalent to 6% more. And this without taking into consideration the undistributed earnings of the controlled properties which are operated separately. Obviously a railroad corporation which has to its credit a record of this kind after having sustained a loss of over $51,000,000 in gross income in a single year must be regarded as holding a position of unusual strength.

It should be noted, also, that the company held an unusually strong cash position at the end of 1924. The total of the current assets was not greatly changed from what it was at the end of the previous year, being $99,510,240, against $100,403,801, but of actual cash the amount Dec. 31 1924 was $31,183,947, against $12,158,062. On the other hand, the total of the current liabilities on Dec. 31 1924 was only $52,161,111, as against $75,595,258.

Indications of Business Activity

THE STATE OF TRADE—COMMERCIAL EPITOME.

Friday Night, May 29 1925.

Extraordinary weather in the shape of freezes in the month of May in the West and Northwest, following what is termed a polar wave, which naturally struck Canada as well as this country, has had a detrimental effect on business. That was a foregone conclusion. And it has been too cold in the East, following an extraordinary, though brief, hot wave last Saturday. Warmer weather is needed for trade and the crops. Corn and fruit crops have been injured by freezes. At the same time there have been complaints of drought over the West. To-day, however, there were rains in the Central West, which caused some decline in the grain markets. There were floods in the upper Rio Grande Valley, and the Rio Grande River was steadily rising. Texas had some rain and needs more for its cotton crop. But on the whole the South has made the best showing in trade, though it has been too cool there also, especially at night, when the temperatures have fallen to the 40's and even now and then into the 30's. To-day, however, in southwestern Texas it was as high as 112 degrees, and the other day it reached 115. In other words, the weather over the great floor of the Continent has been erratic and generally to the detriment of business, crops, and no doubt the public health. Wholesale and jobbing business as well as retail has suffered. Yet these conditions are no doubt transient. They must be, in the nature of the case. For we have now arrived at the month of June. Meanwhile car loadings in the third week of May reached a high total for the year. It looks as though the May total would be nearly 10% above that of the same month last year. It will be recalled that the April loadings showed an increase of 6%. Under the circumstances it is not surprising to notice that the mail ordr and chain store sales show an increase over those of last year.

Somehow the people keep on buying; only there is this fact that stands out very clearly, namely, that the hand-to-mouth policy of buying in jobbing and wholesale business is still rigidly adhered to. Meanwhile, as might have been expected, owing to the bad weather, the grain markets are higher for the week on the active deliveries by 3 to 8 cents, the latter on July wheat. September rye, indeed, was at one time 13 cents higher than last Friday, owing to damage to the crop. There is no doubt that some injury has been done to wheat, corn, rye and oats. There will have to be a good deal of replanting of corn. Cotton prices have risen somewhat because of drought in central and southern Texas, and the fact that to all appearances the market had become oversold. The average estimate of the condition of the crop is about 75%, as against 65.6 in the Government report for June 2 last year and a ten-year average for that date of 72. Parts of Texas having had beneficial rains, however, there are hopes that the total yield will be somewhere between 14,000,000 and 15,000,000 bales, as against 13,600,000 this season and 10,140,000 two years ago. Wool has been quiet and to all appearances still more or less depressed, and there is now some talk of a further postponement of the Australian sales. This means that the manufactured product does not find a ready market. For that matter cotton manufactures are still for the most part quiet, though the fine goods mills of New Bedford are said to be running at 90 to 100%. Coffee with a diminishing supply and an oversold market, and latterly rising prices in Brazil, has moved up here some 1¼ to 1¾c. The fact may be significant that much of this advance was due to active buying here at New York rather than to manipulation from Brazil. Raw sugar has advanced slightly and in the fore part of the week was quite active, the transactions involving something like a half million bags. And the centrals or mills for grinding the cane in Cuba are rapidly closing, generally after having exceeded the estimates of the output for the several mills. Heavy rains prevail in Cuba. The leather trade is still quiet in the East, though somewhat more active at the West. Building operations are on a liberal scale, and this is reflected in a better demand in some directions for structural steel. But consumers on the whole seem to be well supplied for the time being and prices are not over-steady. In the Mid-Continent region premiums for petroleum have advanced. Gasoline is generally higher. In the Central West recent sales of pig iron have been large, but only because of the inducement of lower prices. Scrap steel, however, has been tending upward. Copper has been steady and zinc and lead have advanced. There is the seasonal lull in the furniture manufacturing business. In general the big industries are slow. This means iron, steel and textiles. Indeed, in the Northern mills, notably in New England, there is enough unemployment to have an unfavorable effect on retail trade. Worst of all, there is talk of further curtailment among the cotton and woolen mills.

Silk business is an exception to the depression in textiles. It is active. The jewelry trade is still very dull. In the big cities there is more or less unemployment, for there need be no attempt to disguise the fact that business thus far this year has been disappointing. Meanwhile the stock market has for the most part been active and firm. Money on call has been firmer at 4%. Bonds have been in good demand. The substructure of American business is evidently sound. Collections are reported better in the Chicago district. But, as already intimated, the buying keeps within very conservative bounds. Of course, it is regrettable to notice that French, Belgium and Italian rates of exchange have declined. France has a Moroccan war on its hands and Italy has troubles peculiar to itself. The Belgium rate fell to-day to 4.89c., a new low for the year. French francs, however, after a big decline, were steady, and sterling was firm at 4.86 for demand bills. In other words, sterling has got back practically to par. To-day London was cheered by reports that very satisfactory progress was being made in negotiations looking to a pact of the western nations of Europe. The trend of the times is towards a harmonizing of interests, as most nations of the globe realize more and more clearly the folly of war.

At Fall River prices as a whole are now as low, if not lower, on print cloths than at any time during the past three years. Curtailment has latterly increased. Production is now less than 50% of normal. The sales for the week to date are estimated at less than 25,000 pieces. At New Bedford, Mass., fine goods mills are running at 90 to 100%, but there is an increasing tendency to curtail there in the yarn mills. At Thorndike and Bondsville, Mass., cotton mills shut down for 10 days ending June 2. The Boston Duck Co. has shut down and will not reopen until June 2. At East Warren, R. I., the Parker mills are curtailing in most departments to four days a week. At Pawtucket, R. I., most mills are running all machinery five days a week. Some plants are operating night shifts. Silk mills are exceptionally busy, all running day and night. Manchester, N. H., wired denying a report that the Amoskeag mills may be shut down for three months. But they closed down on May 28 until June 1. At Somersworth, N. H., curtailment has been announced at the Great Falls Bleachery & Dye Works owing to dulness of trade. At Amsterdam, N. Y., the weavers of the carpet and rug mills of S. Sanford & Sons, who had been on strike for two months returned to work on May 25. At Passaic, N. J., the Botany worsted mills, with 900 workers, closed its weaving department on May 25 until June 1, owing to dulness of trade. At Paterson, N. J., the output of silks in five months is over 50% larger than in the first five months of 1924.

Charlotte, No. Caro., reported a strong prospect of a co-operative curtailment of Southern mill production until trade conditions improve. Mills are being urged to curtail normal operations to the extent of one week between June 1 and Aug. 15, applying to 10,000,000 spindles. Curtailment among fine combed yarn mills in Gaston County is expected to start within a short time. At Rockingham, No. Caro., the Great Falls Mills, making ducks and yarns, will henceforth operate three days a week, as compared with five days recently. At Laurenburg, No. Caro., the Dixon Prince Scotland and Waverly cotton mills have begun curtailment and for the present will operate only three days per week. The mills have a total of 67,000 spindles making hosiery yarns.

At Rockhill, S. C. the Industrial Cotton Mills, manufacturers of denims will begin a 4 day a week schedule on Monday next and will close for the full week of June 29. Griffin, Ga., wired that mills considered goods prices below replacement costs with goods selling at the basis of 21 to 22c. for cotton, and that beginning this week large mills are curtailing, said to be 1 to 2 days weekly. London cabled

that replies received by the Master Cotton Spinners' Federation to a short time circular appeal do not warrant them in continuing 13 hours weekly stoppage. A recommendation that the stopping time be only 8¾ hours per week instead of 13 hours will be put to a vote and the result should be known in a week. Some do not want a 35 hour weekly schedule. They want 39½ hours. In the weekly average of the 25 active southern textile stocks there was a decline of 8 points in the bid price last week, the average being 115.44 against 115.52 in the previous week.

Chain store sales increased in April. The Federal Reserve "Review" puts the total for the month at 18% higher than in 1924. Wholesale trade fell off. But department stores in the New York district averaged 3% above last year. Sales of 200 leading dealers in 15 lines of wholesale trade in the New York district were seasonally smaller in April than in March and 2% smaller than in April of last year, the same decrease as was shown for the first quarter of the year. Comparison by individual lines revealed the chief decreases from last year to have been in women's coats and suits, jewelry, groceries, shoes, drugs and hardware. Trade in silk goods, on the other hand, continued unusually active and substantial increases occurred also in sales of diamonds and machine tools. The Firestone Tire & Rubber Co. has advanced all tires 5 to 10%, effective June 1. At Yokohama silk advanced on Wednesday 20 to 25 yen and New York prices were firm. A curious fact elicited by the Department of Agriculture is that 7,860 New York push cart peddlers do an annual business of $35,000,000, supplying 1,500,000 persons with fruits, vegetables, nuts and cheese.

On Saturday, May 23, the temperature at New York suddenly rose to 92 degrees, the hottest for that date on record. The brief heat wave was abrputly broken in the city at about 7 p. m. by a gale of 64 miles an hour, causing a fall in the temperature in a few minutes to 71, with some rain, and on Sunday to 44. On the same day the Central West suffered from very high temperatures, and it was 100 degrees, while it was freezing in Minnesota and Northern Michigan. A cold wave had started from Alaska last week and was making its way southeastward. Chicago reported light snow and frost. On the 24th inst. (Sunday) it was cold and rainy. On the 25th inst. it was unseasonably cold, with some rain. In the Middle West, which late last week had temperatures of from 90 to 100 on the night of the 23d inst., shivered in the grip of a chilly northeast cold wave. In Chicago yesterday the mercury climbed from 50 to 94 degrees in fifteen hours. On Saturday last it dropped 23 degrees in one hour. On May 25 it was down to 40 degrees here, said to have been the lowest temperature on that date on record. And from the Canadian line to Northern Kansas and Oklahoma, Iowa, Illinois and Indiana there was killing frost. Ice formed, it was said, in Iowa and Illinois. The recent cold wave is said to have done much damage to crops in Michigan, Illinois, Ohio, Indiana, Iowa, Wisconsin, Minnesota and North Dakota. Latterly it has been warmer in the East.

Federal Reserve Board's Summary of Business Conditions in the United States—Production in Basic Industries in April at Approximately Same Level as in March.

"Production in basic industries and factory employment continued at approximately the same level during April as in March," says the Federal Reserve Board in its summary of business conditions in the United States, made public May 27. While "factory payrolls were smaller, and wholesale prices declined sharply," the Board states that "distribution of commodities was maintained at higher levels than a year ago." Continuing it says:

Production.

The output in basic industries declined less than 1% in April. Decreased production of iron and steel, flour and copper was largely offset in the Federal Reserve Board's production index by increases in mill consumption of cotton and in the production of newsprint and petroleum. The output of automobiles, which is not included in the index, has increased rapidly since December, and in April was the largest ever recorded. Automobile tire production was maintained at the high level reached in March. Number of men employed at industrial establishments remained practically the same in April as in March, but owing to less full time operation, particularly in the textile, leather and food industries, total factory payrolls decreased about 2%. Building contracts awarded during April were the largest on record both in value and in square feet.

Estimates by the Department of Agriculture on May 1 indicated a reduction of 6% from the April forecast in the yields of winter wheat and rye. The winter wheat crop is expected to be 25% smaller than last year and the indicated yield of rye is 9% less.

Trade.

Wholesale trade was smaller in all lines except hardware during April than in March. Compared with a year ago sales of groceries and shoes were less, but sales of meats, dry goods and drugs were larger. Sales at department stores and by mail order houses showed more than the usual seasonal increase in April and were larger than during April, 1924. Wholesale stocks of groceries, shoes and hardware were smaller at the end of April than a month earlier, while dry goods were larger. Merchandise stocks at department stores showed less than the usual seasonal increase in April, but were in about the same volume as a year ago. Freight car loadings of merchandise were greater than in March and larger than in any previous April.

Prices.

Wholesale prices, according to the index of the Bureau of Labor Statistics, declined 3% in April, following an almost uninterrupted rise since the middle of 1924. All groups of commodities shared in the decline of prices except house furnishings and the miscellaneous group. The largest declines were in farm products and foods, which had shown the most rapid increases. During the first three weeks in May prices of grains, beef, hogs, flour and rubber advanced, while declines occurred in cotton, wool, lumber and iron prices.

Bank Credit.

At the middle of May total loans and investments of member banks in leading cities were near the level which has prevailed, with only minor fluctuations, since the first of the year. Loans chiefly for commercial purposes declined slightly between the middle of April and the middle of May, while loans on securities rose to a high point at the end of April and decreased somewhat during the first two weeks of May. Total investment holdings, which increased considerably during the first half of March, have declined somewhat since that time. Net demand deposits increased considerably from the low point at the end of March, but were still $500,000,000 less than at the middle of January.

At the reserve banks there was a marked decline in the volume of member bank borrowing after the first week in May and total earning assets of the reserve banks on May 20 were less than $1,000,000,000 for the first time since January. Acceptances and holdings of United States securities on that date were in about the same volume as a month earlier.

Money conditions continued relatively easy during the latter part of April and the first part of May. At 3½ to 4% the open market rate for prime commercial paper was slightly below the level for the preceding month.

Decrease in Wholesale Trade in Federal Reserve District of New York in April.

According to the June 1 "Monthly Review of Credit and Business Conditions" by the Federal Reserve Agent at New York, sales of 200 leading dealers in 15 lines of wholesale trade in this district was seasonably smaller in April than in March and 2% smaller than in April last year, the same decrease as was shown for the first quarter of the year. The "Review" continues:

Comparison by individual lines revealed the chief decreases from last year to have been in women's coats and suits, jewelry, groceries, shoes, drugs, and hardware. Trade in silk goods, on the other hand, continued unusually active, and substantial increases occurred also in sales of diamonds and machine tools.

Reports on wholesale stocks showed in April, as in previous months, substantial decreases from a year ago in stocks of cotton goods, silks, and hardware, but increases in stocks of groceries, and jewelry and diamonds.

	Net Sales Percentage Change		*Stock at End of Month Percentage Change*

Increase in Department Store Sales in New York Federal Reserve District in April This Year as Compared With Year Ago.

Regarding retail trade in this district, the June 1 "Monthly Review of Credit and Business Conditions" by the Federal Reserve Agent at New York says:

April department store sales in this district averaged nearly 3% larger than a year ago, a slightly smaller increase than occurred in the first quarter of the year, and somewhat less than the usual year to year increase. Apparel store sales were about equal to those of a year ago, following a large gain in March, when sales were increased by early Easter buying.

Department store stocks at the end of April showed an increase of 2.3% over a year ago, a slightly smaller increase than sales. The ratio of sales, however, to average stocks during the month, at selling prices, was 31.9%, compared with 32.1% a year ago. The average amount of individual sales transactions was $3 03, compared with $2 94 in April 1924.

	Net Sales P.C.Change Apr. 1924 to Apr. 1925.	*Stock on Hand P.C.Change Apr.30 '24 to Apr.30 '25.*

Miscellaneous	+6.7	+1.8

A comparison of department store sales by Federal Reserve districts in the first four months of this year with the corresponding period of last year, indicates that except in this district, sales in the industrial northeastern section of the country have been generally smaller than last year, while sales in some of the agricultural districts of the South and West have shown substantial increases.

Increase in Chain Store Sales in Federal Reserve District of New York in April.

"April sales by reporting chain store systems were 18% larger than a year previous, due chiefly to increases shown by grocery, variety, 10-cent, and drug chains," says the New York Federal Reserve Bank in the June 1 issue of its "Monthly Review of Credit and Business Conditions." Continuing the Bank says:

Grocery and variety chains, as in recent months, showed particularly large increases both in the number of stores and in total sales. In the case of drug chains, on the other hand, the increase was almost wholly in sales per store, as the number of stores was only slightly more than last year.

Shoe chains failed to increase their volume, despite an 18% increase in the number of stores, and both candy and tobacco chains reported smaller increases in sales than in the number of stores. The following table gives detailed comparisons on chain store sales in April:

	P. C. Change April 1924 to April 1925		
Type of Store	No. of Stores.	Total Sales.	Sales Per Store.
Grocery	+19.7	+25.4	+4.8
Ten cent	+6.5	+9.7	+3.0
Drug	+0.7	+9.1	+8.4

Candy	+6.0	+0.6	—5.1
Total	+16.6	+17.7	+0.9

Further Contraction in Volume of Business in Federal Reserve District of Philadelphia.

"Taken as a whole the volume of business in the Philadelphia Federal Reserve District has undergone a further contraction during the past month" says the June 1 Business Review of the Federal Reserve Bank of Philadelphia. The Review adds:

Factory employment and payrolls were smaller in April than in March and according to preliminary reports, working forces were further reduced in May. Distribution and consumption of goods have also been in smaller volume. Although railroad freight shipments have maintained a fairly high level, both wholesale and retail sales have been in smaller amount than in the same period of last year. Prices, too, experienced sharp downward reactions in April; the general level of wholesale quotations declined more than 3%. Fundamental conditions, however, are quite satisfactory, and the recent declines in activity have, in the main been slight as compared with the substantial advances which have been made since last summer. The current slackening has not been experienced universally and many lines of trade have expanded materially in recent months.

Building activity continued in April at the same high level as in March and the number of permits issued in this district during these two months was larger than in any previous corresponding period. Notwithstanding the continued large volume of new building, the real estate market appears to be easier and some classes of dwellings and apartments are reported in oversupply at existing renting level. In spite of active construction programs building materials seem to be in only fair demand. Indeed in some cases, notably brick, lumber and plumbing supplies, prices are reported as weak or yielding.

Demand for iron and steel products has receded still further and this has been accompanied by lower prices and additional reduction in output both in this district and in the United States as a whole. The coke market has been adversely affected by this slackening, but the coal trades, both bituminous and anthracite, have been more active, with prices slightly higher.

Conditions among the textile products continue mixed. The wool markets are distinctly unsatisfactory. Demand has slackened further and raw wool, yarn and goods are all lower in price. Cotton goods are also in poor request, with the exception of knitting yarns, and prices of most products are lower. The silk industry, on the other hand, has continued to enjoy active business with firm or strengthening prices and a factory output larger than that of last year. Hosiery mills also are receiving large orders especially for full fashioned grades. The carpet and rug season has opened with prices about the same as last year's but retailers have purchased but little so far.

The leather industries are quiet; demand is weak for both hides and skins and leather, and there has been some weakening of prices. Business in shoes has also fallen off. Activity in the rubber industry has increased; good demand and higher prices for tires and tubes have accompanied a sharp advance in crude rubber quotations. Demand for paper is fair though smaller than last month, but paper boxes have been in slight request at lower prices.

Agricultural conditions in the district are fairly satisfactory although cool weather has retarded growth somewhat. Planting is nearly completed. Forage and cereal crops are in good condition and livestock markets are more satisfactory. The condition of the fruit crops, however, is somewhat less favorable than it was last year.

Employment and Wages.

Factory employment and wage payments in the states of the Third Federal Reserve District declined during April. The majority of the 48 industries reported losses and only one of the groups—building materials—showed a gain over the previous month. A net decline of 1% in employment and 3% in wages was reported by 1,003 plants employing nearly 380,000 workers. The largest losses were reported by the food and tobacco group with declines of 5.5% and 8.6%, respectively, in employment and wages. Most of the textile industries curtailed operations in April, as reflected by large reductions in wage payments, notably in clothing factories, woolen and worsted mills and establishments making felt hats. Metal fabricating establishments and chemical manufactures also showed losses, although generally smaller than in the textile and food product groups. Many of the miscellaneous group, notably the furniture, musical instrument, shoe, and leather tanning industries experienced reductions in both working forces and operating schedules. Among the most notable exceptions to the general downward trend were the automobile, cement, and explosive manufacturing industries.

Course of Wholesale and Department Store Trade in Chicago Federal Reserve District.

With regard to merchandising conditions in the Federal Reserve district of Chicago, the monthly business conditions report of the Federal Reserve Bank of Chicago of June 1 (made public May 28), said:

Wholesale Trade.

Nearly two-thirds of the wholesale dealers reporting April sales to this bank showed a smaller volume of business on a dollar amount basis this year than last. By commodity groups declines were most frequent among the grocery dealers, with hardware second, dry goods and shoes being about evenly divided between increases and decreases, and drug firms constituting the one group in which gains predominated.

Sales comparisons with March varied as in 1924: Hardware dealers registered definite expansion, repeating the 1924 trend when April was the peak sales month of the year; most of the shoe dealers also reported better business than in March; in groceries, however, twice as many declines as increases contrast with a majority of gains in April last year; and in drugs and dry goods declines by about half the firms offset gains by the others.

In collections some improvement was evident during April, all dry goods, hardware, drug, and shoe firms with one exception in each group reporting larger amounts received than in March; most of the grocery dealers showed declines from both the preceding month and a year ago. Accounts outstanding at the end of the month in general were smaller than on April 30 1924; for 44 firms out of 76, however, the ratio of sales during the month either equalled or exceeded last year's, drugs and shoes being the only groups in which a majority showed a lower proportion this year.

With four exceptions grocery inventories were lower at the end of April than on March 31, after net increases since the beginning of the year; hardware stocks likewise were reduced during April, reversing the upward trend apparent for four months. In comparison with a year ago, all the shoe firms and the large majority of dry goods and hardware dealers showed declines. Average stocks during the four months this year have been kept nearer to sales needs than last year for half the drug and shoe firms and for over half the hardware and dry goods firms; in groceries 16 out of 22 dealers report a higher proportion of stocks to sales.

Department Store Trade.

With a few exceptions reporting department stores in this district sold a larger volume of goods during April than in March, the aggregate gain of 15.7% for 89 firms being especially significant in view of the fact that much of the Easter trade was included in the earlier month's sales. In comparison with a year ago, the net increase of 2% is less than that noted for March, and reflects individual gains by only 40% of the stores. Aggregate sales during the first four months of 1925 are 1.1% in excess of last year.

April collections, for most stores heavier than in the preceding month or a year ago, nevertheless were not sufficient to offset the increase in accounts outstanding which on April 30 for 62 stores were 5% more than on March 31. For 42 firms, the ratio of collections during April to accounts receivable at the beginning of the month amounted to 44.2%, as compared with 45, the corresponding 1924 comparison.

Aggregate inventories on April 30 were 1.5% below the March 31 level, although individually over half the stores made net increases to their stocks; in comparison with a year ago, the decrease of 3.8% reflects declines by two-thirds of the firms.

Gasoline Prices Rise in Certain Sections of the Country—Crude Oil Shows Little Change.

Minor changes occurred in the price of crude oil throughout the week just closed, the most notable being the announcement that the Texas Co. had on May 25 followed the advance of 10 cents a barrel to 80 cents in Smackover heavy crude oil below 24 gravity by Standard Oil Co. of Louisiana, mentioned in our issue of last week, page 2628. An advance in the premium paid for Oklahoma crude was reported on May 27 from Tulsa. The statement said: "The Sinclair Oil & Gas Co. has advanced the premium paid for the high gravity oil obtained from the deep sand in the Garber Field 10 cents a barrel, and is now paying $2 60 for the oil. For oil obtained from shallow sand, the premium was advanced 15 cents a barrel and price is now $2 85 a barrel. Posted prices for both grades of oil, however, remain unchanged at $2 35 a barrel."

The wholesale price of gasoline is higher than for many weeks, a report from Tulsa on May 25 stating that this fuel was established on a 12-cent basis on May 22 for the first time in 3 months. Three days later, on the 27th, reports from Houston declared that North Texas tank car gasoline

was quoted at 12½ cents a gallon, compared with 12 cents May 26.

Advances of from 1 to 2 cents per gallon in tank wagon prices by eastern and southern companies were announced during the week. Consumption is reported at a high level, and stocks are being drawn upon, this being the situation in practically all parts of the country. The Tide Water Oil Co. on May 25 raised tank wagon price of gasoline 2 cents a gallon to 20 cents in New York. The Standard Oil Co. of New York immediately announced an advance of 2 cents a gallon in Greater New York, making the tank-wagon price 20 cents, followed by the Gulf Refining Co. The Texas Co. on May 26 followed the advance of 2 cents in gasoline in Greater New York. Also on May 26 the Standard Oil of New Jersey advanced the price of gasoline 1 cent a gallon tank wagon throughout its territory. This makes price in New Jersey 19 cents. The company also advanced all grades of export gasoline ½ cent gallon. The Texas Co. also followed the Standard of N. J.'s price advance.

A second advance in tank wagon prices was announced on May 26 by the Standard Oil of New York when it raised the price of gasoline 1 cent a gallon throughout its territory in New York and New England. This makes tank wagon price 21 cents in Greater New York.

The Sinclair Refining Co. followed the advance of 1 cent a gallon in gasoline to 21 cents in Greater New York and of 1 cent a gallon in gasoline in New Jersey. The Pure Oil Co. advanced its tank wagon price of gasoline 2 cents a gallon to 20 cents in Greater New York in agreement with the earlier advance of Standard Oil Co. of New York.

On May 26 reports from Shreveport stated that the Standard Oil Co. of Louisiana advanced tank wagon gasoline 1 cent a gallon throughout its territory, making price 20½ cents. The advance restores prices in Louisiana's territory to level obtaining Mar. 11.

The following day, on May 27, numerous companies declared advances in price among them being the Atlantic Refining, Gulf Refining and Sun Oil Cos. The new price is 23 cents a gallon, exclusive of the Pennsylvania State tax of 2 cents a gallon. Effective May 28 the Gulf Refining Co. and Jenney Manufacturing Co. increased gasoline prices 1 cent a gallon to 22 cents wholesale and 26 cents retail following action taken by Standard Oil Co. of New York. The Gulf Oil Corp. on May 27 followed the advance of 1 cent a gallon in tank wagon price of gasoline to 21 cents in Greater New York and 1 cent a gallon advance in New York State and New England to 22 cents made by the Standard Oil Co. of New York. The Texas Co. on May 28 also followed the advance of 1 cent a gallon on gasoline in New York and New England made by the Standard Oil of New York Wednesday.

An advance in the price of Canadian gasoline was reported on May 28 when the Imperial Oil, Ltd. advanced the price in Canada 1 cent a gallon to 28 cents.

Further Increase Reported in Production of Crude Oil.

The weekly estimates of the daily average crude oil production, made by the American Petroleum Institute, indicate that the current output in the Smackover heavy oil field was 389,300 barrels, a decrease of 17,250 barrels during the week of May 23. The daily average production in the United States for the week ended May 23 was 2,314,750 barrels, as compared with 2,305,950 barrels for the preceding week, an increase of 8,800 barrels. The daily average production in the United States, excluding Smackover heavy, increased 26,050 barrels. The daily average production east of California was 1,699,250 barrels, compared with 1,703,450 barrels, a decrease of 4,200 barrels.

California production was 615,500 barrels, as compared with 602,500 barrels for the preceding week, an increase of 13,000 barrels; Santa Fe Springs is reported at 52,000 barrels, no change; Long Beach, 112,000 barrels, no change; Huntington Beach, 43,000 barrels, no change; Torrance, 36,000 barrels, no change; Dominguez, 37,000 barrels, against 39,500 barrels; Rosecrans, 24,000 barrels, against 19,000 barrels, and Inglewood, 23,500 barrels, against 13,000 barrels.

The estimated daily average gross production of the Mid-Continent field, including Oklahoma, Kansas, north Texas, central Texas, north Louisiana, and Arkansas, for the week ended May 23 was 1,341,200 barrels, as compared with 1,351,400 barrels for the preceding week, a decrease of 10,200 barrels. The Mid-Continent production, excluding Smackover, Ark., heavy oil was 951,900 barrels, against 944,850 barrels, an increase of 7,050 barrels. The following are estimates of daily average gross production for the weeks ended May 23, May 16, May 9 1925, and May 24 1924.

DAILY AVERAGE PRODUCTION.

Petroleum Exports in April Smaller—Exports of Petroleum.

The Department of Commerce at Washington has issued its monthly report showing the exports of petroleum in April and the ten months ended with April for the years 1925 and 1924. The exports of crude petroleum are behind those of last year, both for the month of April and for the ten months' period ended with April; 33,220,039 gallons having been exported in April 1925, as compared with 63,838,001 gallons in April 1924, while for the ten months ended with April this year 514,006,696 gallons were exported, as against 647,434,450 gallons in the corresponding period last year. The exports of refined petroleum show only a slight decline from last year for the month of April, 337,235,633 gallons having been exported in April this year, against 341,377,092 gallons in April last year, while on the other hand, the exports of refined petroleum for the ten months ending with April show a substantial increase over the corresponding period last year, 3,259,785,483 gallons being exported in the period this year, as against 2,941,347,382 gallons for the corresponding period last year. The detailed report as furnished by the Department is as follows:

DOMESTIC EXPORTS OF COAL AND PETROLEUM.

	Month of April.		*Ten Months Ended April.*

Increase in Employment and Earnings in Selected Industries in United States During March.

In increase of 1% in employment in manufacturing industries in the United States in March as compared with February, an increase of 1.8% in the aggregate earnings of employees and of 0.9% in per capita earnings is reported by the United States Department of Labor through the Bureau of Labor Statistics, which says:

These unweighted figures are based on reports from 8,972 establishments in 52 industries, covering 2,808,019 employees whose total earnings during one week in March were $75,422,103. The same establishments in February reported 2,780,606 employees and total payrolls of $74,059,653.

Five of the nine geographic divisions show increases in employment in March and eight show increases in payroll totals. The increases in employment were from 2.5% in the East North Central States to 0.3% in the New England States. The decreases in employment were from 1.2% each in the West South Central States and in the Pacific States to 0.2% in the East South Central States. The increases in payroll totals ranged from 3% in the South Atlantic States to less than one-tenth of 1% in the East South Central States, and the one decrease, which occurred in the West North Central States, was 0.1% only.

Comparison of Employment in February and March 1925.

There were gains in employment in March in nine of the 12 groups of industries, 4 of the 9 groups showing gains of 4% or over. These 4 groups, made up largely of industries having pronounced seasonal proclivities, were chemicals; stone, clay, and glass products; metal products, other than iron and steel; and vehicles for land transportation. The food group lost over 3% of its employees, while the lumber and leather groups show losses of much less than 1% each.

The food group alone of the 12 groups of industries failed to show a gain in the aggregate earnings of employees, the decrease being over 2%. The 4 groups showing the largest gains in employees, as a whole, show even larger gains in payroll totals.

Thirty-two of the 52 separate industries show gains in employment in March, the greatest, for the most part, being purely seasonal ones, such as 40% in the fertilizer industry, in which the high point of the shipping

season is regularly reached in March; 9% in the brick, tile, and terra cotta industry, which in March begins its upward movement after the inactive winter season; and 7.2% each in the automobile and the carriage industries. Other gains of considerable size were 7.2% in cane-sugar refining; 4.5% in stamped ware; 4% in cement, and 3.5% each in agricultural implements and in ice cream.

One-half of the 20 losses in employment in individual industries in March were decidedly less than 1%. The industries showing more marked decreases in employment were chewing and smoking tobacco, 6.2%; slaughtering and meat packing, 5.6%; flour, 5.3%; confectionery, woolen goods, and rubber boots and shoes, from 2.7% to 2%; and men's clothing, baking, paper boxes, and sawmills, from 1.8 to 1.3%.

Forty-one of the 52 industries show increased payroll totals in March, fertilizers leading with an increase of over 38%. Nine industries show gains in employees' earnings of from 10.7% to 4.8%. These industries are sugar, carriages, brick, automobiles, stamped ware, ice cream, millinery, cement, and agricultural implements.

Of the 11 industries showing decreased payroll totals, only 5 show decreases of over 1.1%, and these 5 naturally are the industries showing the largest decreases in employment.

For convenient reference the latest figures available relating to all employees, excluding executives and officials, on Class I railroads, drawn from Inter-State Commerce Commission reports, are given at the foot of the first and second tables.

COMPARISON OF EMPLOYMENT IN IDENTICAL ESTABLISHMENTS DURING ONE WEEK EACH IN FEBRUARY AND MARCH 1925.

Industry.	Establishment.	No. on Pay Roll. February 1925.	No. on Pay Roll. March 1925.	Per Cent of Change	Amount of Pay Roll. February 1925.	Amount of Pay Roll. March 1925.	Per Cent of Change

Employment on Class I Railroads.

Dec. 15 1924	----	1,720,356	-- --		b$233,204,494	-- --	
Jan. 15 1925	----	1,711,902	—0.5		b 236,154,031		+1.3

a Less than one-tenth of 1%. b Amount of pay-roll for one month.

Comparison of Employment in March 1925 and March 1924.

Reports from 7,506 establishments are available for a compariso nof employment and employees' earnings between March 1925 and March 1924. These reports, from identical establishments in the two years, show a decrease of 4% in employment, a decrease of 3.1% in the aggregate earnings of employees, and an increase of 1% in per capital earnings.

Two of the nine geographic divisions show increases both in employment and in payroll totals in the 12-month period. These are the South Atlantic States and the West South Central States. In each case the increase in payroll totals is considerably greater than the increase in employment. The East South Central States show an increase in payroll totals, but they also show a decrease in employment. The remaining six divisions show decreases in both items. The Pacific States show a decrease of 7.7% in employment and of 7.2% in payroll totals, and the East North Central States show decreases of 6.2% and 5.6 in the two items. The decreases in the four remaining divisions were considerably smaller.

As in February, each of the 12 groups of industries, except the paper and printing group, reported fewer employees in March 1925 than in March 1924. The greatest decreases in employment were 7.8% in the vehicles group of industries and 5.8% in both the food and iron and steel groups, while the smallest decrease was 0.9% in the tobacco group. The paper and printing group of industries shows a gain in March 1925 over March 1924 of 1.1% in employment, which is slightly more than the gain reported last month.

COMPARISON OF EMPLOYMENT IN IDENTICAL ESTABLISHMENTS DURING ONE WEEK EACH IN MARCH 1924 AND MARCH 1925.

Industry.	Establishment.	No. on Pay Roll. March 1924.	No. on Pay Roll. March 1925.	Per Cent of Change	Amount of Pay Roll. March 1924.	Amount of Pay Roll. March 1925.	Per Cent of Change

Employment on Class I Railroads.

Jan. 15 1924	-- --	1,733,639	-- --		$232,497,637	-- --	
Jan. 15 1925	-- --	1,711,902	—1.3		236,154,031		+1.6

The paper and printing group, as in the last report, shows also a gain in employees' earnings in the 12-month period, while the textile group also shows increased payroll totals in March 1925, instead of a decrease as in February. The remaining 10 groups all continue to show smaller payroll totals.

Twelve of the 52 separate industries gained in employment in March 1925, as compared with the same month in 1924, while 18 industries gained in the aggregate earnings of employees. Automobile tires gained 15.4% in employment and 16.2% in payroll totals; dyeing and finishing textiles, 8.6% and 18.3%, respectively, in the two items; and silk goods, 6% and 12.3%, respectively, in the two items. Rubber boots and shoes, steam railroad car building and repairing, furniture, the printing industries, and confectionery also show both improved employment and earnings, although in a lesser degree.

The carriage and wagon industry, chewing and smoking tobacco and snuff, automobiles, machine tools, and electrical machinery show the largest declines in this comparison over a 12-month period, the losses in employment being from 11% to over 14% and the losses in aggregate earnings being from 8.1% to 15.9%. Eighteen other industries show decreased employment of over 4%, and 13 other industries show decreased payroll totals of over 4%. Twelve of the 18 industries and 12 of the 13 industries indicated above are identical.

Time and Capacity Operation.

Reports in percentage terms from 6,722 establishments in March show no changes in the average per cent of full-time operation and the average per cent of full-capacity operation as compared with February. The establishments in operation were employing an average of 83% of a full normal force of employees and these employees were working an average of 93% of full time.

One per cent of the reporting establishments were idle, 69% were operating on a full-time schedule and 30% on a part-time schedule, while 42% of the establishments had a full normal force of employees and 57% were operating with a reduced force.

Over 2,100,000 employees are represented in the following tables, and of these nearly 1,500,000 were working on a full-time schedule and nearly 625,000 on a part-time schedule.

Wage Changes.

Wage changes reported for the month ending March 15 are again without general significance, being of importance to individual establishments rather than to any industry as a whole.

Wage-rate increases were reported by 41 establishments in 21 industries and wage-rate decreases by 27 establishments in 9 industries.

The increases averaged 7.9% and affected 3,184 employees, or 21% of the employees in the establishments concerned.

The decreases averaged 6.9% and affected 6,913 employees, or 41% of the employees in the establishments concerned.

WAGE ADJUSTMENT OCCURRING BETWEEN FEB. 15 AND MARCH 15 1925.

a Less than one-half of 1%. *b* 16.6-25.8.

Per Capita Earnings.

Per capita earnings increased in March 1925 as compared with February in 36 of the 52 separate industries here considered and decreased in the remaining 16 industries.

The increases and the decreases in this monthly comparison were all much smaller than frequently is the case. The greatest increases were in the millinery and lace goods, petroleum refining, sawmill, and cane sugar refining industries and ranged from 3.8% to 3.3%. The greatest decrease in per capita earnings was 2.5% in the woolen and worsted goods industry.

Comparing per capita earnings in March 1925, with such earnings in March 1924, increases are shown in 34 industries and decreases in 17 industries, while the per capita earnings in the slaughtering and meat-packing industry were unchanged.

The dyeing and finishing textiles industry shows an increase of 9.1% in per capita earnings in the 12-month period, followed by carriages with an increase of 6.9%, women's clothing with an increase of 6.4%, hosiery and knit goods with an increase of 6.2%, silk goods with an increase of 5.9%, petroleum refining with an increase of 5.1%, and men's clothing with an increase of 5%. The carpet industry shows a loss of 6.6% in per capita earnings in March 1925 as compared with the same month in 1924, the cigar industry a loss of 6.2%, and the stove industry a loss of 4.3%.

a Less than one-tenth of 1%. *b* No change.

Comparing per capita earnings in the nine geographic divisions for March 1925 with those for February 1925, and also with those for March 1924, only one decrease is found, that being a very small one (0.2%) in the comparison with February 1925 for the New England States. The increases in the monthly comparison for the remaining eight divisions ranged from 3.1% in the West South Central States to 0.2% in the East South Central States.

The increases in the comparison between March 1925 and the same month of 1924 ranged from 5.3% in the South Atlantic States to 0.4% in the Mountain States.

The total increases for all divisions combined in both the monthly and yearly comparisons were nearly the same, being 0.9% in the monthly comparison and 1% in the comparison over a year's interval.

Indexes of Employment and Pay-Roll Totals in Manufacturing Industries.

Index numbers of employment and of pay-roll totals for March 1925 for each of the 52 industries surveyed by the Bureau of Labor Statistics, together with general indexes for the combined 12 groups of industries, appear in the following table in comparison with index numbers for February 1925 and for March 1924.

The general index of employment for March 1925 is 92.3 and the general index of pay-roll totals is 96.6.

INDEX OF EMPLOYMENT AND OF PAY-ROLL TOTALS IN MANUFACTURING INDUSTRIES, MARCH 1925, AS COMPARED WITH FEBRUARY 1925 AND MARCH 1924.

Lumber Industry In Continued Activity.

Lumber orders for the week ending May 23 were nearly 25% greater than for the corresponding week last year, according to telegraphic reports to the National Lumber Manufacturers Association from 376 of the leading commercial softwood lumber mills of the country. Shipments increased about 1 % and the increase in produ tion was about 2%. Compared with the preceding week there was apparently little change—shipments being larger and new business slightly less than for the preceding week—in the lumber movement. Cumulative orders for the year so far exceed 1924's record at this date by more than 103,000,000.

The unfilled orders of 254 Southern Pine and West Coast mills at the end of last week amounted to 634,497,119 feet, as against 627,933,581 feet for 250 mills the previous week. The 135 identical Southern Pine mills in this group showed unfilled orders of 226,355,340 feet last week as against 233,076,660 feet for the week before. For 119 West Coast mills the unfilled orders were 408,141,779 feet, as against 394,856,921 feet for 115 mills a week earlier.

Al ogether the 376 comparably reporting mills had shipment 102% and orders 98% of actual production. For the Southern Pine mills these percentages were respectively 118 and 109; and for the West Coast mills 101 and 105.

Of the comparably reporting mills 351 (having a normal production for the week of 217,758,427 feet) reported production 106% of normal, shipments 109%, and orders 106% thereof.

The following table compares the national lumber movement as reflected by the reporting mills of seven regional associations for the three week indicated:

	Past Week.	Corresponding Week 1924.	Preceding Week 1925 (Revised).
Mills	376	379	380
Production	248,928,966	244,316,595	248,955,920
Shipments	253,240,808	228,860,530	242,460,125
Orders (new bus.)	243,129,190	185,242,303	249,460,359

The following revised figures compare the lumber movement for the first twenty-one weeks of 1925 with the same period of 1924:

	Production.	Shipments.	Orders.
1925	5,037,813,766	4,972,096,784	4,845,465,633
1924	5,037,075,301	5,025,951,329	4,742,313,603
1925 increase	738,465	----	103,152,030
1925 decrease	----	53,854,545	----

The mills of the California White & Sugar Pine Manufacturers Association make weekly reports, but for a considerable period they have not been comparable in respect to orders with those of other mills. Consequently, the former are not represented in any of the foregoing figures. Nine of these mills reported a cut of 11,169,000 feet; shipments 11,240,000, and orders 7,656,000 feet. The reported cut represents 30% of the total of the California Pine region. As compared with the preceding week, there was a decrease of 2,224,000 feet in production; 141,000 feet in shipments, and 7,813,000 feet in new business.

Weekly Lumber Review of West Coast Lumbermen's Association.

One hundred and fifteen mills reporting to West Coast Lumbermen's Association for the week ending May 16 manufactured 100,155,591 feet of lumber; sold 115,997,543 feet and shipped 105,522,952 feet. New business was 16% above production. Shipments were 9% below l w business.

Forty-three per cent of all new business taken during the week was for future water delivery. This amounted to 49,326,780 feet, of which 34,741,007 feet was for domestic cargo delivery and 14,585,773 feet export. New business by rail amounted to 2,035 cars.

Thirty-nine per cent of the lumber shipments moved by water. This amounted to 41,012,189 feet, of which 27,616,622 feet moved coastwise and intercoastal and 13,395,567 feet export. Rail shipments totaled 1,963 cars.

Local auto and team deliveries totaled 5,620,763 feet.

Unfilled domestic cargo orders totaled 157,845,614 feet. Unfilled export orders 80,981,307 feet. Unfilled rail trade orders 5,201 cars.

In the first 20 weeks of the year production reported to West Coast Lumbermen's Association has been 1,991,402,867 feet; new business 2,020,290,487 feet, and shipments 2,043,494,003 feet.

Development of Trade Association Credit Information Service.

A significant development in the realm of credit information service is the entrance of trade associations as credit clearing agencies, according to the report of the National Industrial Conference Board, 247 Park Avenue, New York, on its study of the trade association movement. Under date of May 24 the Board says:

Trade association credit information service is an important factor in stabilizing business. Associated members, because of their intimate knowledge of the trade and those engaged in it, are in excellent position to help eliminate the extension of unsound credit. But it is the joint organization and operation of the indispensable machinery for the interchange of credit data, which makes credit service as an association function economically significant. For such interchange of information under joint auspices, in the view of the Board, helps to prevent "the competitive scramble on the part of individual firms to keep better informed of the credit status of customers than do rival concerns." Both the trade and ultimately the public, the Board believes, benefit from this "more intelligent" business policy, and no public interest is thought jeopardized thereby if proper methods are pursued.

Legal Limitations.

As long as trade association credit service consists of facilities for the interchange of ledger data and other relevant information with regard to the credit standing of its trade customers, there appears to be no legal obstacle to such association activity, according to the Board's report. The credit information is made available to members only upon special request, with respect to specific applicants for credit, and each association member is left free to formulate his credit policy independently of the group. The legal validity of association credit service does not come into question unless it goes beyond this line of procedure. But the prescription of a "dead line" of credit eligibility, for instance, or the announcing in advance of names of concerns or persons not eligible to credit, according to the report, might come under the scrutiny of the courts. An agreement on uniform credit terms also may encounter legal objection as tending to restrain trade, although none of these issues has as yet been fully clarified by litigation or definitively adjudicated. As in other trade association activities, from the legal viewpoint, free competition must be reasonably safeguarded.

Proving Its Value.

Credit information service has become an increasingly common feature in the program of trade association activity in recent years, and is daily demonstrating the advantages of such co-operation. Until very recently, when there still was little specialization in retail trade in many sections of the country, co-operative credit service was conducted along geographical lines, locality rather than trade being the basis of co-operation. But with increasing specialization and progressive expansion of market areas, these earlier methods of credit information broke down, and the trade association found in this field a distinct opportunity for helpful service. To-day, credit information is the most important single line of activity in the program of many associations.

Price Changes and New Models of Automobiles.

A reduction in price was announced on May 26 by the Hupp Motor Car Co. on all its eight-cylinder models, the amount of the reduction being $180 on each model. An official statement says:

"The extra large number of sales of Hupp eights, now the largest selling eight in that line of cars in the world, makes this reduction possible."

No change in the price of the four-cylinder line is contemplated.

The Reo Motor Car Co. has added to its line a new two-passenger coupe similar to the model "G" sedan and listed at the same price, $1,645.

A new brougham (five-passenger, four-door model) has just been announced by the Paige-Detroit Motor Car Co. to sell for $2,195.

More Stable Conditions Said to Be Evident in Some Branches of Steel Market.

The final week in May has added to the indications in the previous fortnight of a nearly completed adjustment of finished steel production to demand, and of a more stable situation in prices of the three leading products—plates, shapes and bars. In both these respects May has been a better month than April, at the same time showing improvement, even though slight, in the amount of new business booked, according to the "Iron Age," which reported the following this week:

While there is no change in the short delivery policy of buyers, evidence appears of a firmer attitude of producers, as their unit cost has risen with reduction of output. More cases are reported of the refusal of orders to which buyers have attached prices $1 to $2 a ton below those for which the larger companies have been standing for two or three weeks.

With production continuing at close to 70% of capacity, the market is expected to give early evidence of the extent to which needs that have been deferred to get the lowest price have become urgent. The week has developed some cases of this sort. Orders for quick shipment are more numerous.

In the Chicago district, which for months has maintained the highest rate of output, the largest producer has now come to an 87% operation. Pittsburgh and Youngstown steel companies show practically no change.

While automobile manufacturers continue to run up to capacity, farm equipment works are not so busy as in early spring. Their summer schedules, however, will be fuller than for several years.

The St. Paul road, which placed 5,500 cars two weeks ago, is about to buy 1,000 more, besides giving orders for repairs on 2,000 stock cars. Western plate mills also have before them 7,500 tons of oil storage tank work, of which 4,000 tons is for the Humble Oil Co. in Louisiana. A plate order for Vancouver, B. C., water lines, 5,500 tons, was taken by the Steel Corporation at a price below the 2.38c. c.i.f. bid of an English mill.

Orders for 32 barges calling for 5,700 tons of steel have been taken by a Pittsburgh fabricator, and Lake shipyards are figuring on two freighters in addition to those recently reported.

Sheet manufacturers, whose scramble for business has caused a steady decline in prices, are more generally holding at 3.20c. as minimum. In the tin plate market a concession of $3 a ton, or to $5 35 per box, has appeared. [redacted]

The week's total of structural steel awards, upward of 35,000 tons, has been exceeded only a few times during the year. Reports to steel companies preliminary to inquiries for steel indicate that a large amount of building work is in prospect, particularly in New York. [redacted]

In pig iron the largest buying has been in Central Western districts, Cleveland sales running up to 105,000 tons, with a total there for the month of about 285,000 tons. At Chicago, as buyers showed more interest, prices wavered and some sales were at a decline of 50c. from the level of the previous week.

A number of large foundry interests are sounding the market for the low point in the decline, and a good deal of buying without a general call for bids is reported. Thus far the movement is not comparable with that of last fall, but there are signs of its broadening.

Detroit, which secured the lowest prices on both foreign and domestic cast-iron pipe at last month's lettings, is again in the market for 14,000 tons.

In heavy melting steel scrap the recent advance of $1 in the Middle West has been without effect on the general situation. Thus far the activity in old material has been largely confined to dealers, and consumers have not been willing to pay the prices asked.

Iron and steel exports in April, 155,426 gross tons, maintained the March rate, which was 50% above February. Of the April total, 132,636 tons was rolled and finished steel, or nearly six times the 22,286 tons of imports of that description, in which is included in fact an unknown quantity of cast-iron pipe.

The "Iron Age" composite price for pig iron has fallen to $19 42 from $19 63 last week, the tenth successive weekly decline. It now is $3 08 below the high point of the year reached in mid-January.

The finished steel composite price is unchanged and has stood at 2.460c. per lb. for four weeks. This is $2 per ton below the level of early January and is back to the pre-election level, the low point of 1924.

The usual composite price table is as follows:

May 26 1925, *Finished Steel*, 2.460c. *per Lb.*

Based on prices of steel bars, beams, tank plates, plain wire, open-hearth rails, black pipe and black sheets, constituting 88% of the United States output.	May 19 1925	2.460c
	April 28 1925	2.474c
	May 27 1924	2.624c
	10-year pre-war average	1.689c

May 26 1925, *Pig Iron*, $19 42 *per Gross Ton.*

Based on average of basic and foundry irons, the basic being Valley quotation, the foundry an average of Chicago, Philadelphia and Birmingham.	May 19 1925	$19 63
	April 28 1925	20 71
	May 27 1924	20 98
	10-year pre-war average	15 72

Finished Steel.—High: 1925, 2.560c., Jan. 6; 1924, 2.789c., Jan. 15; 1923, 2.824c., April 24. Low: 1925, 2.460c., May 5; 1924, 2.460c., Oct. 14; 1923, 2.446c., Jan. 3.

Pig Iron.—High: 1925, $22 50, Jan. 13; 1924, $22 88, Feb. 26; $30 86, March 20. Low: 1925, $19 42, May 26; 1924, $19 21, Nov. 3; $20 77, Nov. 20.

Incoming steel business in May has run ahead of April with some tendency to keep on increasing but the tonnage is not yet up to the level of shipments observes the "Iron Trade Review" in its weekly summary of trade conditions. Unfilled orders, consequently, are undergoing continuing shrinkage and production is subject to some further dipping and readjustments. The better side of this situation comes from the fact that new buying again is becoming more diversified and frequent. While still essentially of a hand-to-mouth character, it is spread over many sources in which fresh demands seem to be originating with well-sustained regularity, adds the "Review", giving further details as follows:

The industry appears to be having difficulty in keeping itself above the 70% mark in operations. The Steel Corp. is on this basis so far as ingot operations, but its finishing mills are 80% engaged. Chicago has dropped several points to 87% of ingot capacity. Pittsburgh is down to 65% average. The Youngstown district continues at 70%.

A possible anthracite coal strike is being seized upon by coke makers to induce buyers to cover their requirements for third and fourth quarters. Few are taking action, however, and the market dragging with $2.90 quoted on spot coke.

The buying movement in pig iron still is under way and has attained impressive proportions. Since May 1, sales easily have run above 500,000 tons. Cleveland furnace interests alone have sold 275,000 tons in that period and Chicago about 150,000 tons. The past week has brought out many inquiries and at least 150,000 tons of new sales. Pittsburgh sees 60,000 tons in sight including 25,000 to 30,000 tons for a leading sanitary ware manufacturer. The General Electric Co. has bought liberally. The American Radiator Co. is in the market but appears not to have closed a heavy tonnage as reported. At St. Louis, 15,000 tons of basic has been booked. Prices are still soft though showing more firmness in some quarters. At Chicago $21 has been shaded.

Sheet bars have dropped again in price to $35 Pittsburgh and Youngstown, with the report that lower might be done. Users lately have been withholding specifications to force concessions claimed to be necessary because of the ragged sheet market. The latter shows a narrowed range of price cutting. Plates went in the East this week at 1.80 cents, Pittsburgh, but this is exceptional. Shading in wire products goes on.

Dealer buying, with that of some consumers added, has kept the scrap market in better tone. Quotations are 50 cents to $1 higher in nearly all districts.

The Ougree-Marihaye works in Belgium has sold 5,000 tons of special shapes to New York but foreign selling to American buyers has been less in evidence. The Standard Oil Co. of New Jersey has denied it has placed 1,000,000 boxes of tin plate with Welsh makers though the latter have taken an order for 500,000 boxes of oil plate, according to "Iron Trade Review" weekly market cable. Japanese inquiries for tin plate total 60,000 boxes. British mills will supply 6,000 tons of plates for a pipe line in Vancouver.

Oil trade demands for steel for tanks, refineries and barges have come into greater prominence. The Standard Oil Co. of Louisiana placed 4,000 tons for barges, the Humble Oil Co. 6,000 tons for stills and tanks, while 7,500 tons for tanks is up at Chicago. Another important barge awarded by a West Virginia coal company accounts for 4,800 tons.

Iron and steel imports in April fell off 20,861 tons from March to 71,249 tons. The loss in pig iron was 17,504 tons. Exports were 154,426 tons against 155,386 tons in March.

Formation of a European steel alliance to include makers in France, Germany and also Great Britain again is being agitated abroad. Paris reports

active negotiations are under way. British steelmakers who recently abandoned their price agreement are reported to be considering new pooling arrangements among themselves.

Some weakness in pig iron and semifinished material has forced "Iron Trade Review" weekly composite of 14 leading iron and steel products to $38.04 for the fourteenth straight decline.

Advance Report by Federal Reserve Bank of Philadelphia on Steel and Iron Foundry Operations in April.

The Department of Statistics and Research of the Federal Reserve Bank of Philadelphia presented as follows, May 26, its advance report for April on steel and iron foundry operations in the Federal Reserve District of Philadelphia.

The data given in the table below were compiled from the reports of 5 identical steel foundries in this district whose combined steel making capacity totals 6,050 tons per month. Production and unfilled orders, both in value and tonnage, were greater in April than in March. Shipments of castings, however, declined. The greatest gain occurred in supplies of coke.

Steel Foundry Operations, Third Federal Reserve District.

	April 1925.	March 1925.	Per Cent change.
Capacity of furnaces	6,050 tons	6,050 tons	0
Production	4,613 tons	4,377 tons	+5.4%
Shipments	2,941 tons	3,310 tons	—11.1%
Value of shipments	$520,563	$535,678	—2.8%
Unfilled orders	4,915 tons	4,491 tons	+9.4%
Value of unfilled orders	$1,478,103	$1,307,782	+13.0%
Raw stock:			
Pig iron	2,721 tons	2,448 tons	+11.2%
Scrap	7,487 tons	8,000 tons	—6.4%
Coke	785 tons	481 tons	+63.2%

Since monthly records of iron foundry activities have been kept for a full year it is now possible for the first time to contrast the main operating features during April with those for the corresponding month of 1924. This has been done in the table below and the totals and percentages given therein are based on the reports of 30 identical plants located in this district.

Iron Foundry Operations, Third Federal Reserve District.

	April 1925.	March 1925.	% ch'nge mo. ago.	April 1924.	% ch'nge year ago.
Capacity tons	13,844	13,844	0	13,844	0

Leaf Tobacco Held by Manufacturers and Dealers April 1 1925 and 1924, Jan. 1 1925 and Oct. 1 1924.

The Department of Commerce, Bureau of the Census, has made public the following statement. These statistics represent the quantity of leaf tobacco reported as held (1) by manufacturers who, according to the returns of the Commissioner of Internal Revenue, manufactured during the preceding calendar year more than 50,000 pounds of tobacco, 250,000 cigars or 1,000,000 cigarettes; (2) by all registered dealers in leaf tobacco; and (3) all imported leaf tobacco in United States bonded warehouses and bonded manufacturing warehouses.

*Leaf tobacco on hand April 1 1925 includes 1,677,592,871 pounds, for which the "marked weight" was reported (i. e., weight at time it was packed or baled), and 358,084,992 pounds for which the "actual weight" was reported. The corresponding amounts included for 1924 were 1,585,005,556 and 391,563,433 pounds, respectively; for Jan. 1 1925 1,373,368,826 and 340,301,069 pounds, respectively and for Oct. 1 1924 1,351,191,430 and 373,575,988 pounds, respectively. Allowance should be made for shrinkage on the amounts for which "marked weight" was reported, in order to ascertain the actual weight. The total for April 1 1925 includes 1,885,700,284 pounds of unstemmed and 149,977,579 pounds for stemmed leaf tobacco.

Domestic Exports of Meats and Fats.

Exports of meats and meat products for the ten months ending April 1925 were aproximatpely 34% less than for the same period ending April 1924, according to a report of the Department of Commerce issued on May 22. This decline was due largely to decreased shipments of hams and shoulders, but principally of bacon, which declined during the period from 391,912,677 pounds (including Cumberlands) in 1924, to 209,832,080 pounds in 1925—a decrease of 47%. Declines, however, were also noted in fresh pork and pickled pork. Increasing European production, the disparity btween home and world markets, and the increasing use of chilled and frozen meats in Europe have been the limiting factors in our export trade over the past ten months.

The same may also be said of animals oils and fats, exports of which for the ten months period ending April 1925 declined 20% from the recorded total of 1,121,552,323 pounds for the same period ending April 1924. The decline in fats is almost entirely attributable to decreased exports of lard since oleo shipments rose. Cottonseed oil exports also increased from 35,588,103 pounds to 45,305,933 pounds.

Exports of Grains, Grain Products, Feeds and Hops.

The Department of Commerce at Washington on May 25 1925 issued its report on the exports of grains, grain products, &c. The following is the report:

Nearly $473,000,000 worth of grain and grain products have been shipped out of the country during the ten months July to April. This amount is a gain of $257,000,000 when compared to the exports for the same period of the previous year. The chief items which have contributed to this increase and the gains for each commodity are as follows: Wheat, $198,000,000; rye, $44,000,000; barley, $16,000,000; wheat flour, $9,000,000; oats, $3,000,000; malt, $2,000,000. The exports of corn represent a value of $8,536,000, or only about half of that of the exports for the same period last year; the value of the rice exports was $3,904,000, or a loss of $4,066,000 when compared to last year's shipments; the loss in the exports of rye flour was over a million dollars and that of oatmeal nearly three-fourths of a million.

The value of the exports of feeds during the ten months of this fiscal year was $33,281,000, or over $18,000,000 more than for the same ten months of last year. Oil cake and oil cake meal account for practically all of this increase. The exports of hops show a loss in value amounting to $2,731,000.

The principal gains in amounts exported during the past ten months as compared with the same ten months of the previous year are as follows: Wheat, 107,543,000; rye, 30,460,000; barley, 11,130,000; oats, 4,418,000; malt, 1,790,000. Considerable losses, however, have been sustained, especially in the following commodities: Corn, 11,785,000 bushels; rice, 113,486,000 pounds; oatmeal, 44,514,000; corn starch, 21,280,000; hominy and grits, 13,206,000; wheat flour, 2,716,000 barrels; rye flour, 301,000; corn flour, 124,000. There was a decrease in the exports of hops to the extent of over 3,000,000 pounds.

When April of 1925 is compared with April of 1924, the outstanding features are the gains in the exports of the following: Wheat, 4,677,000 bushels; rye, 8,644,000; oats, 399,000; oatmeal, 6,404,000 pounds; rice flour, 2,360,000. On the other hand, there are losses to the following extent: Rice, 7,679,000 pounds; hominy and grits, 1,699,000; corn starch, 16,581,000; hops, 2,912,000; flour, 83,000 barrels; corn, 1,088,000 bushels.

Appreciable gains have been made in the exports of some of the commodities of minor importance, e. g., rice flour and broken rice, 2,360,000 pounds; macaroni, 318,000; biscuits and crackers, 158,000.

The unit value of exports of most of the commodities shipped during April 1925 was larger than that for April 1924, the relative figures being as follows, respectively: Wheat, $1 80 and $1 075 per bushel; rye, $1 315 and $0.82; barley, $1 05 and $0.903; malt, $1 25 and $1 015; corn, $1 32 and $0.917; wheat flour, $8 23 and $5 14 per barrel; biscuits and crackers, $0.143 and $0.141 per pound; macaroni, $0.084 and $0.075; corn starch, $0.038 and $0.032 per pound. In the case of the following products the unit value in April 1925 was less than in 1924: Oats, $0.548 and $0.666

per bushel; oatmeal, $0.042 and $0.052 per pound. The unit price of rice was unchanged, viz., $0.051 per pound.

The price per ton of cottonseed cake and of linseed cake was $1 and $1 40, respectively, less in April 1925 than in April 1924. Cottonseed meal, however, had an export value of $41 70 per ton in April 1925 and only $39 20 in April 1924. The export value of screenings fell from $68 70 per ton in April 1924 to $47 40 in April this year; that of prepared feed increased for the same periods from $40 to $49 20 per ton. The export value of hops was $0.207 per pound last month as against $0.31 for April 1924.

Demand for Anthracite Shows Falling Off—Bituminous Trade Remains Dull.

It looks as though the first big rush of householders to stock their bins with anthracite is about over, though retailers in the metropolitan section have had a good run of business and can keep their equipment going for a long time on their orders in hand, states the May 27 issue of the "Coal Trade Journal." Independent prices have softened somewhat as some certain sizes are rather hard to move. Production is large at the company mines and dealers are able to get just about as much coal as they want in the opinion of the "Journal," which continues:

The tidewater bituminous trade in New England is very light except with those houses holding railroad and public utility contracts, and prices are weak in consequence. The volume of all-rail business from Pennsylvania is light but, due to absence of excess coal on hand, prices are holding up well. The New England Coal & Coke Co. have opened their books for the last half of the year and their orders are substantial in volume. Some business has also been done in Connellsville foundry coke. The movement of anthracite is normal for this season, but householders in general are backward in starting their storage of winter coal. Anthracite prices are unchanged. At New York, the bituminous situation is unchanged and the demand for anthracite seems to have fallen off somewhat. Independent prices have softened in certain sizes. At Philadelphia the situation is somewhat similar, the demand being spotty Egg and stove are at the head of the list with nut at the bottom and rice and barley moving slowly. The bituminous market shows little activity and very little contracting is being done. The soft coal market is quite flat at Baltimore and prices are still down. There has been no export shipment since May 16. Anthracite buying is not very active in spite of the threats of strikes and rises in price.

There is more inquiry in the market and prices are unchanged in the Pittsburgh territory. Practically no contracts are being made with industrials but demand and movement are broader on spot tonnage. More co-operative mining is starting up. Connellsville production turned last week and gained a little, prices holding steady. In the central Pennsylvania district increased production and inquiry indicate that the market is in a better condition, though prices are unchanged.

In northern West Virginia prices have weakened slightly but the non-union production is still on the increase. The railroads are buying some spot coal but contracts are scarce. In southern West Virginia production has increased to such an extent that some of the mines are short of labor. Increased shipments of prepared smokeless have softened the price of slack; other prices are unchanged. This is also true of the high volatile coals. General market conditions are hurting the production in the Upper Potomac and western Maryland fields that some of the miners are moving to other localities and others are going into other lines of work. However, some railroad tonnage is moving and prices are unchanged. In the Virginia fields, orders are increasing although prices have not changed.

As far as general conditions are concerned, any change for the better in the bituminous coal market seems to be as far off as ever, declares the "Coal Age" on May 28. There has been little or no change in the situation at any point. Despite the general belief that prices are as low as they are likely to go—as low as they possibly can go, in the opinion of many—industrial consumers continue to resort to stock piles or buy from hand to mouth, holding off on the chance that quotations will sag still further. Perhaps the brightest spot is in Cincinnati, where heavy lake cargo buying has brought about a brighter aspect, without, however, any immediate far-reaching benefit, says the weekly review, adding, in part, as follows:

Midwestern markets are woefully flat. Illinois coals probably will face less keen competion from Indiana steam fuels since Lewis's victory over the co-operatives. Several mines in Kentucky have increased their operating time and some that had been closed since April 1 are working again. Receipts of coal at the head of the lakes were heavier last week, but orders were slow. A number of municipal contracts are in sight, however. Working time is very low in the West and Southwest, where the open market has practically disappeared, operations being almost entirely confined to filling contracts.

A better feeling is developing in southern Ohio, particularly in the steam trade. Buying on the open market is the rule, though some inquiries on contracts are afloat. The dullness in eastern Ohio, however, is unrelieved Little change is discernible in the slow gait of business at Pittsburgh New England and other Eastern markets also fail to show any perceptible variations from recent conditions.

The anthracite market has lost some of its recent briskness. Outputis heavy and there is no dearth of tonnage. Both domestic and steam sizes are easier, independents being unable to get more than company circular for their product. Stove is strong, egg and pea in good demand and chestnut easy. Steam coals are quiet.

Dumpings at Lake Erie ports during the week ended May 24, according to the Ore & Coal Exchange, were: Cargo, 687,973 net tons; steamship fuel, 46,128 tons, a total of 734,101 tons, compared with 715,352 tons in the previous week. Hampton Roads dumpings in the week ended May 21 totaled 451,537 net tons, compared with 404,320 tons in the preceding week.

Output of Bituminous Coal Gains as Anthracite and Coke Falls.

The weekly report on the production of bituminous and anthracite coal and beehive coke, issued by the Geological Survey on May 23 1925, shows a small gain in the production of the first but decreases in the output of the latter two fuels. The weekly estimates given by the Survey, together with additional details, follow:

Production of soft coal continues to increase slowly. The total output in the week ended May 16, including lignite and coal coked at the mines, is estimated at 8,375,000 net tons, an increase over the week preceding of 98,000 tons, or 1.2%. Though far below the corresponding week of 1923, the current output is above the rate in 1921 and 1924 at this season. In comparison with 1924, for example, the week of May 16 shows an increase of 1,112,000 tons.

Preliminary telegraphic reports of loadings on Monday and Tuesday of the present week (May 18-23) indicate little change over the corresponding days of the week of May 16.

Estimated United States Production of Bituminous Coal (Net Tons), Including Coal Coked.

a Original estimates corrected for usual error, which in past has averaged 2%. b Minus two days' production first week in January to equalize number of days in the two years. c Revised since last report. d Subject to revision.

The total output for the calendar year 1925 to date is 181,151,000 tons. Corresponding figures for recent years are given below:

Years of Activity.		Years of Depression.	
1918	206,737,000 net tons	1919	162,490,000 net tons
1920	196,867,000 " "	1921	148,463,000 " "
1923	210,436,000 " "	1924	185,421,000 " "

ANTHRACITE.

The estimated production of anthracite during the week ended May 16, based on loadings furnished by the nine principal carriers, is 1,998,000 net

tons, a decrease of 1.9% compared with the week of May 2. Compared with the corresponding week of 1924, however, the output of the past week shows an increase of about 5%. The cumulative total since Jan. 1 of the present year amounts to 33,786,000 tons, a decrease of 2.3% in comparison with the same period in 1924.

Estimated United States Production of Anthracite (Net Tons).

	1925		1924	
Week Ended—	*Week.*	*Calendar Year to Date.*	*Week.*	*Calendar Yr. to Date.* a

May 16	1,998,000	33,786,000	1,898,000	34,591,000

a Less two days' production in January to equalize number of days in the two years.

BEEHIVE COKE.

From reports received from the principal coke carriers, the production of beehive coke during the week ended May 16, is estimated at 136,000 net tons, a decrease of 5% as compared with the revised figure for the preceding week. The bulk of the decrease occurred in Pennsylvania and West Virginia, the Southern and Western States showing but little change.

According to the Connellsville "Courier," the production in that region amounted to 80,040 tons, with 91 additional ovens out of blast.

Estimated Production of Beehive Coke (Net Tons).

a Adjusted to make comparable the number of days covered in both years. b Subject to revision. c Revised since last report.

Cumulative production of beehive coke during 1925 to May 16 stands at 4,429,000 net tons. Figures for corresponding periods in earlier years are are as follows:

1921	3,118,000 net tons	1923	8,073,000 net tons
1922	2,712,000 " "	1924	5,176,000 " "

Production for 1925 thus stands 14% behind 1924, 45% behind 1923, 63% ahead of 1922, and 42% ahead of 1921.

Analysis of Imports and Exports of the United States for April.

The Department of Commerce at Washington on May 28 issued its analysis of the foreign trade of the United States for the month of April and the ten months ending with April. This statement enables one to see how much of the merchandise imports and exports for 1925 and 1924 consisted of crude materials, and how much of manufactures, and in what state, and how much of foodstuffs and whether crude or partly or wholly manufactured. The following is the report in full:

ANALYSIS OF IMPORTS AND EXPORTS FROM THE UNITED STATES FOR THE MONTH OF APRIL 1925.
(Values in 1,000 Dollars.)

Groups.	*Month of April.*				*Ten Months Ended April.*			
	1924.		1925.		1924.		1925.	
	Value.	*P. C.*	*Value.*	*P. C.*	*Value.*	*P. C.*	*Value.*	*P. C.*
Imports—

Current Events and Discussions

The Week With the Federal Reserve Banks.

The consolidated statement of condition of the Federal Reserve banks on May 27, made public by the Federal Reserve Board, and which deals with the results for the twelve Federal Reserve banks combined, shows increases of $75,600,000 in holdings of discounted bills and of $2,400,000 in acceptances purchased in open market and a decrease of $9,200,000 in Government securities, with the result that total earning assets went up $68,000,800 to $1,054,400,000. Federal Reserve note circulation increased $14,200,000 and cash reserves $1,200,000, while non-reserve cash declined $4,200,000. After noting these facts, the Federal Reserve Board proceeds as follows:

Discounted bills held by the Federal Reserve Bank of New York increased $50,700,000 during the week, as compared with an aggregate decline of $70,000,000 reported during the preceding two weeks. The Cleveland bank shows an increase of $11,100,000 in holdings of discounted bills, Philadelphia of $6,900,000 and Boston of $4,000,000, while the Atlanta bank reports a decline of $4,400,000 in discount holdings.

Holdings of purchased bills by the Federal Reserve Bank of Boston were $9,400,000 larger than a week ago, and by the San Francisco bank $4,200,000 larger, while the holdings of the New York and Philadelphia Reserve banks were smaller by $8,400,000 and $3,100,000, respectively. The System's holdings of Treasury notes went down $9,200,000 and of U. S. bonds $500,000, while holdings of Treasury certificates of indebtedness went up $500,000.

The principal changes in Federal Reserve note circulation during the week comprise a reduction of $1,800,000 reported by the Atlanta bank, and the following increases: Cleveland, $8,800,000; Philadelphia, $6,900,000 Boston, $1,700,000, and San Francisco, $1,400,000.

The statement in full, in comparison with the preceding week and with the corresponding date last year, will be found on subsequent pages—namely, pages 2784 and 2785. A summary of changes in the principal assets and liabilities of the Reserve banks during the week and the year ending May 27 1925 follows:

	Increase (+) or Decrease (—) During	
	Week.	*Year.*
Total reserves	+$1,200,000	—$232,400,000
Gold reserves	+3,400,000	—279,800,000
Total earning assets	+68,800,000	+204,200,000
Bills discounted, total	+75,600,000	—15,600,000
Secured by U. S. Govt. obligations	+55,200,000	+51,400,000
Other bills discounted	+20,400,000	—67,000,000
Bills bought in open market	+2,400,000	+191,700,000
U. S. Govt. securities, total	—9,200,000	+15,900,000
Bonds	—500,000	+67,600,000
Treasury notes	—9,200,000	—3,800,000
Certificates of indebtedness	+500,000	—47,900,000
Federal Reserve notes in circulation	+14,200,000	—220,500,000
Total deposits	+25,500,000	+204,400,000
Members' reserve deposits	+20,000,000	+202,100,000
Government deposits	+5,900,000	—1,800,000
Other deposits	—400,000	+4,100,000

The Week With the Member Banks of the Federa Reserve System.

The Federal Reserve Board's weekly statement of condition of 736 reporting member banks in leading cities as of May 20 shows a decrease during the week of $70,000,000 in loans and discounts and an increase of $39,000,000 in investments. These changes were accompanied by a drop of $122,000,000 in net demand deposits, and of $47,000,000 in Government deposits, and by an increase of $24,000,000 in time deposits. The New York City member banks reported reductions of $62,000,000 in loans and discounts and of $84,000,000 in net demand deposits. It should be noted that the figures for these *member banks* are always a week behind those of the Reserve banks themselves.

Loans on stocks and bonds went up $19,000,000, principally in the New York, Chicago and Cleveland districts, while loans on United States securities fell off $8,000,000 and "all other," largely commercial loans and discounts, $81,000,000, of which $55,000,000 was at banks in the New York district. Further comments regarding the changes shown by these *member banks* is as follows:

Investments in United States securities increased $34,000,000 during the week, largely at reporting banks in the New York and St. Louis districts. Holdings of other bonds, stocks and securities changed but slightly for most districts, while increases of $7,000,000 and $6,000,000 in the St. Louis and Cleveland districts, respectively, were partly offset by a decline of $9,000,000 in the New York district.

Net demand deposits were lower at reporting banks in nine of the districts than a week ago, the aggregate net decline of $122,000,000 being due largely to a drop of $81,000,000 in the New York district, of $11,000,000 in the Boston district, and of $10,000,000 each in the St. Louis and San Francisco districts. Small increases were reported by the Philadelphia, Cleveland and Kansas City districts.

On a subsequent page—that is, on page 2784—we give the figures in full contained in this latest weekly return of the *member banks* of the Reserve System. In the following is furnished a summary of the changes in the principal items as compared with a week ago and with last year:

	Increase (+) or Decrease (—) During	
	Week.	*Year.*
Loans and discounts, total	—$70,000,000	+$1,117,000,000
Secured by U. S. Govt. obligations	—8,000,000	—48,000,000
Secured by stocks and bonds	+19,000,000	+970,000,000
All other	—81,000,000	+195,000,000
Investments, total	+39,000,000	+865,000,000
U. S. bonds	+18,000,000	+567,000,000
U. S. Treasury notes	+18,000,000	—244,000,000
U. S. Treasury certificates	—2,000,000	+18,000,000
Other bonds, stocks and securities	+5,000,000	+524,000,000
Reserve balances with F. R. banks	—25,000,000	+138,000,000
Cash in vault	—10,000,000	—2,000,000
Net demand deposits	—122,000,000	+1,291,000,000
Time deposits	+24,000,000	+843,000,000
Government deposits	—47,000,000	+20,000,000
Total accommodation at F. R. banks	—7,000,000	—21,000,000

Syndicate Headed by Blair & Co. Inc. Purchases $33 000,000 Kingdom of Norway Bonds.

An interesting piece of international financing was announced on May 27 in the purchase of about $33,000,000 Kingdom of Norway 40-Yr. 5½% bonds by a syndicate composed of Blair & Co. Inc., the Chase Securities Corporation; Brown Brothers & Co.; White, Weld & Co. and Blyth, Witter & Co. It is stated that there was very active bidding for this issue, the successful group being the one that has been identified with a number of Scandinavian issues for some time past. The formal signing of the contract was announced yesterday, May 29. All of the Kingdom of Norway bonds previously issued here have been brought out by a group headed by the National City Company and J. P. Morgan & Co. The former issues of Norwegian bonds have been the 8s of 1940, which are expected to be 7 called on Oct. 1 at 110 from the proceeds of the new issue. Subsequent issues were $18,000,000 6s of 1952, offered in October 1922; $20,000,000 6s of 1943, offered in August 1923, and $25,000,000 6s of 1944 brought out last August. Norway has improved her credit so much and the demand for foreign bonds has broadened so rapidly that she has been able to borrow at a progressively lower rate of interest in the market as from 8% to the present issue at 5½%. Public offering of the bonds is expected to be made next week.

J. P. Morgan & Co. and National City Company to Float $45,000,000 Argentine Government Bonds.

The signing of a decree by President De Alvear accepting the offer of an American syndicate, composed of J. P. Morgan & Co. and the National City Company, of New York, for funding the loan of $45,000,000 to the Argentine Government was announced in Associated Press cablegrams from Buenos Aires May 22. It was stated therein that:

According to the terms of the deal the American Bankers will buy Argentine Government and foreign bonds to that amount at 92% bearing 6% int. and 1% annual cumulative amortization due in 33 years. The syndicate has also offered to take up the $10,000,000 loan maturing on June 16.

The proceeds of the new loan will be used to pay off short-term paper, including the $20,000,000 loan with Blair & Co., which is due in August.

With regard to the arrangements the New York "Times" of May 26 had the following to say:

The unusual situation of a Government paying almost half a million dollars for the privilege of doing business with a particular banking group was revealed yesterday when it was learned in Wall Street that the $45,000,000 Argentine loan soon to be offered by J. P. Morgan & Co. and the National City Company, was obtained on a bid that was 1 point lower than a proposal submitted to Argentina by a competing New York syndicate. This means the Argentine Government will receive $450,000 less for the issue from the bankers.

At the offices of J. P. Morgan & Co. and the National City Co. no comment was forthcoming on the loan agreement with the Argentine Government, beyond confirmation of a Buenos Aires cablegram reporting the decree in which acceptance of the Morgan-National City offer was annouced. It is expected that public offering of the new Argentine issue will be made early next week.

The probability of a new Argentine issue has been discussed in the financial district for the last month or so because of the maturity, on June 16, of a $10,000,000 Argentine issue which was sold in New York.

The new Argentine financing, which is expected to include some refunding operations, will be in the form of long-term issues, which bankers declare will do much to stabilize the Argentine situation. There have been considerable short term borrowings by that country of late, which, the opposition in the Buenos Aires Government has declared, have kept conditions unsettled and have not been in the interests of national economy. The funding of a number of Argentine obligations through the new issue is expected to remedy this situation.

J. P. Morgan & Co. handled considerable financing for Argentina in the pre-war periods. Its recapture of the business now, when Argentina is virtually back on a gold basis, with its exchange firm and some exports of gold already having been permitted, is attracting considerable interest in Wall Street. In connection with the general improvement in Argentine finances, it was noted that old issues of that Government have advanced a point or more in price in the New York market since announcement of the refunding operations was made late last week.

Argentina Issues Decree Removing Embargo on Gold.

The Associated Press reported the following advices from Buenos Aires on May 12:

The Argentine Government today issued a decree permitting the exportation of gold. The decree is effective June 10. The exportation of gold had been prohibited since 1914.

The decree, however, does not apply to more than $450,000,000 of Government gold held against currency in the Caja de Conversion, which will continue closed for the present. It is estimated that about $22,000,000 held by banks and exchange houses will be released.

Reference to the intention of the Argentine Government to permit the exports of gold was made in these columns May 16, page 2494.

Sir Esme Howard on Great Britain's Unfavorable Trade Balance with United States—Debt Payment Endangered in Continuance.

Calling attention to the depressing outlook in Great Britain owing to the lack of markets in which to sell its products, Sir Esme Howard, British Ambassador to the United States, in a speech on May 22 pointed out that "the main and greatest factor on which we have to rely is the re-establishment of permanent peace in Europe and the increase of purchasing power in foreign markets." He observed that—

Now, if Great Britain cannot sell her products abroad she cannot of course, continue to buy raw materials and manufactured goods in the United States in the same heavy quantities as has been her custom. It is, I am sure, fully realized that Great Britain could scarcely carry on an unfavorable trade balance with the United States forever and yet pay the thirty-two odd million pounds per annum required to meet her indebtedness to the United States Government.

We intend to meet our just debts but there may come a time when, unless the world situation changes for the better, unless we can return to something like pre-war conditions of credit and trade, it would be impossible both to make heavy purchases of raw materials from the United States and to pay the interest on our debt. It does not require a high-class mathematician to see that. The purchases would obviously have to be cut down.

But this is only a small issue in comparison with the great world issues involved in the general settlement of world questions by which alone we can hope to achieve a return to that state of normality which President Harding rightly declared was the object we should all aim at.

Sir Esme's remarks, which were made at the annual banquet in New York of the American Iron and Steel Institute, were devoted to a portrayal of the trade position in Great Britain as compared with the United States, and the shrinkage in the invisible trade exports of the former, and in urging that the principle of "goods across the sea" be observed, he said:

We in Great Britain need a return to real peace in the world perhaps more than any other nation and I cannot repeat too often that our interests in this matter are so clear, so obvious that they can no longer be the object of the slightest doubt except perhaps to those who, as Mrs. Gamp said, have to look through a brick to see what's writ on the wall beyond. For this reason British policy at least—whatever Government is in power—should be as regards its search for peace above suspicion. But I am not speaking now only for the United Kingdom nor for the British Empire but for the world at large in declaring that as I see things unless we can shortly restore a firm basis of confidence and credit throughout Europe and turn to the natural flow of trade, unless we can work on the principle of goods across the sea, we are heading for a worse cataclysm than that produced by the actual state of war. We must not consider our own particular selfish interests as individuals in all this complex business but learn to understand that our prosperity depends not on making others less prosperous, but more prosperity. If people would only begin to think in terms of real economics instead of politics there would soon be an end of suspicion and fear and desire for revenge because it would be understood that the ruin of one's neighbor inevitably harms oneself. Thus, strangely enough, it seems that the Christian doctrine of the Golden Rule is, when you come down to it, the only true "real politik" in the philosophy of life and that it is an unquestionable truth that he who seeks to save his life by purely selfish means must end by losing it.

Now, gentlemen, you will perhaps ask how all this tirade is to apply to you and, above all, to apply to America? Please do not go away with the idea that I think you ought to interfere as a State directly with European concerns. You are right when you say, as Mr. Hughes said the other day, that Europe must work out her own salvation. No—all I ask is that there should be in this country a sympathetic understanding towards those who are endeavoring to bring together the jarring and conflicting elements in Europe and endeavoring to see if they cannot work together, for economic if not for any higher reasons, for the good of all. If they can do that it will be greatly to the interest of this country and will promote prosperity in this country for we are all more or less interconnected and related. If they cannot, the result will not be so fatal to this country as to others, but it will be, to say the least of it, unpleasant.

As Mr. Houghton said well in his speech the other night to the Pilgrims in London, "Peace is an adventure in faith" to which I would add that it is also an adventure in hope and charity and the greatest of these is charity. . . .

We have with your help, official or unofficial it matters little, already achieved much. The settlement of the reparations question by the Dawes Plan was a great step forward. The return of Great Britain and other countries to the gold standard is another great step forward toward the re-establishment of confidence and credit. But we have come, I now verily believe, to the real parting of the ways. Everything now depends on whether we can establish a sense of security in Europe in the future. If by means of the Five Power Pact between France, Great Britain, Italy, Germany and Belgium, now under discussion, we can secure peace for a generation, I believe there is good hope that we may secure peace in Europe for all time.

Gold to Germany—Federal Reserve Bank Shipped $36,250,000 to Reichsbank, Concluding Movement of German Credits Accumulations.

The following is from the "Wall Street Journal" of May 26:

Recent shipment of $1,250,000 gold by the New York Federal Reserve Bank to the Reichsbank concluded the movement, which began early in March, of $36,250,000 to that institution.

This gold represented an accumulation of German commercial credits here which the Reichsbank had acquired, and importation was to strengthen the Reichsbank's home reserves under its reconstruction organization in accordance with the Dawes plan. The metal was earmarked for the Reichsbank, consequently it was not included in the reserves of the Federal Reserve Bank and withdrawals had no effect upon reserves at the local institution.

England Gets Reichsbank Gold.

London advices to the "Wall Street Journal" published in its issue of May 25, stated:

Gold to the amount of £1,610,000 acquired by the Bank of England May 15 from Rothschilds was part of the German Reichsbank's reserve held abroad. The Reichsbank's return on May 15 showed a decline in gold reserve abroad of 31,412,000 marks. Gold was probably deposited in the Bank of England on the basis of sterling credits.

Germany is seeking renewal of several six months' credits which are falling due, but British banks are reluctant to renew because German rates are no longer so attractive. Further German gold transfers are likely.

Bank in Germany Renamed German-American Bank.

Under date of May 15 the New York "Journal of Commerce" reported the following from Frankfort on the Main:

The Hallesche Effecten und Wechselbank has completed arrangements for increasing its capital to 4,200,000 reichsmarks and will change its name to the German-American Bank.

Its main office will be in Berlin. The chief business of the reorganized concern will be the negotiation of loans for German industrial enterprises.

London Gets Soviet Gold—Bars Valued at £2,000,000 Deposited in Bank of England.

The following Associated Press Cablegram from London May 23 appeared in the New York "Times:"

Gold valued at £2,000,000 sterling, some of it in bars said to bear the United States Government stamp, has just arrived in London from Leningrad, says the "Daily Mail."

The metal was consigned by the Soviet State Bank and deposited in the Bank of England to the credit of Areos, Ltd., the All-Russian Cooperative Society's trading organization.

Extreme precautions for secrecy were taken when the gold was unloaded from the Soviet Government steamer Geroen. The boxes were placed in a motor truck covered with posters advertising Danish bacon and taken to the bank vaults under heavy guard.

Italy Claims $3,280,000 From Brazil for Losses During Sao Paulo Rebellion.

Associated Press Cablegrams from Rome May 8 stated:

The Government has asked Brazil for indemnity of 80,000,000 lire (about $3,280,000 at the present exchange) for losses to Italian subjects during the recent Sao Paulo rebellion. A request has been made that the money be paid directly to the Italian Government, which will reimburse those who suffered.

Costa Rica to Pay French Debt of 1912.

The following Associated Press Cablegram from San Jose, Costa Rica, May 20 appeared in the New York "Journal of Commerce:"

The Minister of Finance today said Costa Rica intended to pay off the French debt of 1912, amounting to 32,672,500 francs, by means of an internal loan of $1,000,000. The Bank of Costa Rica, he added, already has pledged $250,000 toward meeting the debt. No difficulty is expected by the Government in selling the bond issue.

Japanese Government 5% Loan Subscribed by Bank of Japan.

Advices to the Japanese Financial Commission this week regarding the subscription by the Bank of Japan to a5%loan of the Japanese Government (Series No. 24) gives the following details as to the loan:

Purpose—Consolidation or redemption of some outstanding loans in accordance with the provision of Art. 5 of the special account for the National Debt Consolidation Fund Act.
Amount—34,400,000 yen.
Date of Issue—June 1 1925.
Date of Redemption—On or before Mar. 1 1936.
Issue Price—91½ yen.
Yield—6.30%.
Subscription—Totally subscribed by the Bank of Japan.

Japanese Earthquake.

The following advices have been received here from the Japanese Treasury Department regarding an earthquake in Japan on May 23:

At 11 a.m. May 23 1925 an earthquake occurred centering at the northern part of Hyogo Prefecture. The tremor was most severe in a region of about 30 miles between the two towns of Toyooka and Hamasaka. The greatest damage done was in the towns of Toyooka and Kinosaki. The fire that followed the earthquake swept about three-quarters of the former town which, according to the latest census, has a population of 9,118, consisting of 2,062 households, and totally destroyed the town of Kinosaki, with a population of 3,601, consisting of 721 households.

The casualties, including killed and injured, are reported to be about 100 in Toyooka but figures are not as yet obtainable regarding the casualties in Kinosaki. The devasted area, which is comparatively small, has no special industry.

There will be no serious disturbing economic effect as a result of the earthquake. The railroads suffered no damage and operations were immediately resumed.

The cities of Osaka and Kobe report no damages.

Associated Press advices from Tokio May 25 reported two additional earthquake shocks the previous night at Toyooka.

King Alfonso Compares Liberty In Spain With That of New York and London—Conditions Under Military Directory.

King Alfonso of Spain has been quoted by the French writers, Jerome and Jean Tharaud, brothers, as having declared to them in an interview that the tranquil conditions in Spain proved that his country was satisfied with the government of the military directory which, he asserted, only a handful of professional politicians opposed. Associated Press Cablegrams from Paris April 22 which were authority for this gave as follows the further observations of King Alfonso:

A question which he considered far more important than that of Parliamentary government in Spain was whether such parliamentary government would be capable of defending itself against that conception of life which the Soviet government was seeking to impose forcibly on the world.

"Have you, in your travels in Spain, noticed that we were living in a state of siege under military oppression?" he asked the writers. "The foreign papers I see declare our directory shoots and imprisions people and spreads a reign of terror everywhere. Have you received such an impression?

"Nothing has changed in our customary life, and for my part I know no country where the police are less interfering than here. You can stand in the middle of the road and talk with friends without a policeman telling you to move on. You can drink whatever you like in the cafes after midnight; which I defy you to do in New York or London—those cities of liberty. In Madrid you can sing your head off until 5 o'clock in the morning if that amuses you.

"There is only one thing changed since the Directory—you can walk about with money in your pocket without fear of being attacked. There are no more strikes; our factories are at work and our employers no longer see their workmen arrive mornings with revolver in hand to assassinate them or to impose their own will. You must admit that is something.

"Oh, yes," the King added ironically, "it has to be paid for. General Primo de Rivera (head of the military directory) has put us outside the constitution, and that is evidently grave."

The King remarked that there certainly were fewer Communists in Spain than in France, "but perhaps our climate makes ours more virulent."

The King then spoke of the Bolshevik danger, saying Italy had been the first country to grasp the fact that Parliamentarism was incapable of resisting the effort the Soviet government was making to impose its will on the world by force. Spain had followed suit.

"Who knows," he asked, "if other nations will not be obliged to abandon legality for a time? I see the outline of the sword forming almost everywhere."

Berlin Unsettled Over Valorization—Scope of Government's Plan Believed to Threaten Security Behind Existing Debts.

Under date of May 24 the New York "Times" reported the following copyright cablegram from Berlin:

The financial and business situation continues satisfactory, especially since the "constitutional question" has receded into the background, owing to the reserve manifested by Hindenburg and the somewhat ostentatious silence of his monarchist friends. Financial circles are, however, growing increasingly timid over the extraordinary confusion concerning the valorization of private debts and the complete legal insecurity which exists regarding the real estate and the new credits which are affected by the valorized loans.

Eminent jurists last week protested that the Government's plan to revive extinguished mortgages and to allow new buyers of real estate to demand compensation from the sellers for debts which were legally dead 3 years ago will be ruinous to credit. Some clauses of the pending bill appear to threaten the security of recent American loans to German industrial companies.

The ministry, however, seems to fall more and more into the hands of valorization fanatics, who have lately urged as an argument for their plans that the heaviest losses will fall on foreign investors and creditors, who are all indiscriminately classed as "speculators." The financial markets consider that the Cabinet's very Nationalistic policy in such matters was equally responsible for the drastic provisions of the new tariff bill.

The money market position was somewhat easier early last week, but owing to the chaos over valorization long-term loans have become absolutely impossible to obtain. This occurred notwithstanding the reduction of its rate from 8% to 7 by the Gold Discount Bank and the improvement in the Reichsbank's status. The reduction of 75,000,000 marks in the total discounts of the bank was supplemented by curtailment of 117,000,000 in note circulation, making reduction of 192,000,000 in the past fortnight.

The Budget Committee of the Reichstag has reduced the tax on small incomes and has raised the maximum rate from 33% to 40.

Protest of American Association of Holders of German Mark Securities Against Revaluation Bill.

The American Association of Holders of German Mark Securities, which was formed at a meeting in this city on May 14 with a view to protecting American holders of German mark bonds, forwarded this week to the German Minister of Finance, Herr von Schlieben, in Berlin, and to Graf Schwerin, Chairman of the Revaluation Committee of the Reichstag, a cablegram protesting against the "unjust and discriminatory provisions of the revaluation bill now pending." The protective association was brought into being at a meeting held at the offices of Meyerowitz, Wolf & Co., Inc., who in notifying American holders of German mark bonds of the proposed meeting stated:

The provisions of a revaluation bill, as introduced by the German Government in the German Reichstag, has evoked severe criticism, both in Germany and abroad.

By the provisions of this bill, American holders of German mark bonds, particularly those of 1914-1918, 1922, 1923, 1924, will be greatly damaged and partly wiped out.

Regarding this meeting and the remarks made thereat by Arthur M. Meyerowitz, we quote the following from the May 16 market letter of Meyerowitz, Wolf & Co., Inc.:

For the past two years the president of our corporation, Arthur M. Meyerowitz, was actively engaged in preparing American and German public opinion for a just and fair revaluation of German Government and Municipal bonds. However, up to May 14 1925, all efforts were unhappily frustrated by the great indifference on the part of dealers, as well as on the part of American investors in German securities. We frankly say, that the dealers are more to blame for the neglect than the public, which is rightly looking for protection and leadership from those who were willing and kind enough to enjoy their patronage.

To-day we record with pride the final success of our long and tiresome efforts in the formation of an "American Association of Holders of German Mark Securities" which took place at a public meeting organized by our President, Arthur M. Meyerowitz, on May 14 1925, at 20 Nassau St., New York City.

For the benefit of our friends and clients we hereby give an extract of Mr. Meyerowitz's opening speech before that meeting.

Ladies & Gentlemen:

A bill was introduced by the German Government and is under consideration in the Reichstag, which purports to discharge the total amount of Germany's internal indebtedness, pre-war and after-war loans, Federal, State and municipal.

By the provisions of this bill, all Germany's internal loans are to be consolidated and exchanged for a new bond which the German Government will issue after passage of this law. The exchange is to be effected on the basis of 5% in gold of the par value of the old bonds.

The total outstanding internal bonds of Germany are calculated to be about 70 billion marks. Of this amount 26% are pre-war obligations, 70% bonds issued during the war—consisting mostly of the 5% war loan —and 4% are post war debts. These obligations are to be replaced by new bonds of approximately 3,200,000 gold marks.

The proposed bill provides that interest at 5% per annum on the new bond issue, shall only be paid to such holders of the old bonds who can definitely prove that they were in possession of the bonds before July 1 1920.

The obligations thus assumed by the German Government will not be redeemed until Germany will have discharged all her reparations under the Dawes plan. An exception, however, is made for the class of bond holders who can prove that they were in possession of the bonds before July 1 1920. Of the holdings of this group about 30% of the total obligations—25 million gold marks of the converted loan, will be redeemed at par annually. Poverty stricken war loan subscribers will receive special consideration in the form of 2% interest per annum, but not exceeding the total amount of 600 gold marks, in each individual case.

The so-called K. Schaetze, or 8-15 German Government Treasury notes of 1923 and 1924 are to be redeemed upon an average gold basis of about 2 million marks to the dollar on the 1923 Treasury notes, and about 10 billion marks to the dollar on the 1924 Treasury notes.

Excepted from all revaluation plans is the so-called "Zwangsanleihe" or Forced Loan of 1922. Paragraph 7 of the revaluation bill provides that all claims resulting from this loan shall cease the moment the new bill goes into effect or September 30 1925 the latest.

The provisions oft his revaluation bill were severely criticised in Germany as well as abroad. The discrimination between old and new bond holders was declared by the German Bankers Association Convention to be against all international financial rules, unfair, and technically impossible to carry out. The actual repudiation of the 1922 German Government forced loan, and the practical repudiation of the 1923 and 1924 Treasury notes were also criticised as unjust.

A special meeting of prominent German bankers, government representatives and prominent lawyers took place in Berlin, on April 21, upon the initiative of the Frankfurt Stock Exchange. At this meeting the Government bill was severely criticised unanimously from the German point of view as well as from the point of view of foreign holders of German loans.

As far as American interests are concerned there are five points to which we have to take exception.

I. During the War, a considerable amount of the German War Loan was placed in the United States, almost at the full German Exchange rate. Those American subscribers to the German war loan, prior to the entry of the United States into the war, ought to be protected in full in the same manner, as the German-American mixed Claim Commission has considered other American losses of corporations and individuals caused by the war. As I understand, special considerations of that nature were or are to be granted by Germany to the Nationals of other countries in pending commercial treaties.

II. The discrimination between old and new bond holders is wholly absurd and against all financial usages. Not even Mexico has made such discriminations.

III. The complete repudiation of the German Government Loan of 1922 or Forced Loan, of which almost the entire issue was sold in the United States is not only unjust but will create a bitter feeling among thousands of American investors which will work as a boomerang to the future German credit and prestige in this country. I do not accuse the German Government for having purposely excluded this loan for that reason. The reason given by the German Government was, that this loan was only a supertax forced upon the people to subscribe. But, if this was the case, why were coupons attached to the bonds, and why has the German Government permitted these bonds to be introduced and traded in on all German Stock Exchanges? Many billions of these bonds were sold to American citizens and to Canada, at prices ranging from $5.00 to $107.00 per million and are still being traded in. If this proposed revaluation bill is to go into effect many millions of American dollars, invested in good faith into a German Government Bond, will be totally wiped out.

IV. The provisions regulating the revaluation of the 1923 and 1924 Treasury notes are almost equal to repudiation. Vast amounts of these Treasury notes were sold in the United States, and Canada, at prices ranging from 25c to $10.00 per. million.

V. The interference of the German Government with German Municipalities, preventing them from revaluing their municipal obligations at a higher rate was severely criticised at the Berlin meeting, by a representative of the Stuttgart Stock Exchange. It is noteworthy in this connection that the municipalities of the German southern states like Stuttgart, Munich and others have revalued their loans on a liberal basis.

There is a strong movement in Germany among bankers, politicians and the general public to replace the proposed bill by new and more liberal provisions. Our German friends have suggested that American holders of these classes of German bonds should organize a protective association. The moral effect which American public opinion will exercise upon the German Government would prevent this revaluation bill from becoming a law.

There are no other means left to American investors, except the moral force of American public opinion, which could be easily translated into a political and financial force, and the reflex which such public opinion will have upon Germany. Germany, for the near future, is dependent upon foreign loans and is successfully seeking a market for such loans in our country. It will be very difficult even for the best and most secured German loans to become popular unless some justice will be done to those classes of the small, and in many cases, ignorant American investors, who were ready to place their dollars upon the honesty and fair play of the German Government and the German people.

In presenting these facts to the knowledge of American Holders of German Mark Bonds, and to the general American public, I recommend that they unite with the dealers, importers and distributors of German securiites, and move that this meeting formally organize an American Association of Holders of German Mark Securities.

Similar organizations are functioning in Germany, Switzerland, Italy, England, Sweden, Spain and other countries.

This is short will explain to our friends the miserable so-called revaluation plan of the German Government. However, since the American public opinion has been aroused, and in common with strong German efforts, we hope that the present bill will not become a law, and that a better treatment will be accorded all classes of German securities by the German Government and German Reichstag. However, we must be frank, even at the cost of disappointing a great many holders of German mark securities. No matter how much the present bill might be improved upon or replaced by a more favorable bill, the chances for American investors, particularly those who have purchased German Government bonds of 1922, 1923, 1924 and also Municipal bonds issued after 1920, are very slim, that they will recover even a reasonable part of their investment.

We therefore strongly recommend to our friends who are holders of these bonds to sell immediately at present market prices. Their only chance to recover a part of their losses consist in the immediate purchase with the proceeds from the sale of the bonds first class German banking and industrial stocks. The stocks of leading German banks and Industries, such as Chemical, Electrical, Potash, Machinery, Paper, Textiles and Glass. These are selling far behind their intrinsic and market values, due primarily to the scarcity of money in Germany. The people in Germany not only cannot afford to buy securities, but have to sell them for commercial and in many instances for living purposes.

These securities are bound to go up, and surely will go up, with the slowly progressing recovery of Germany's trade and finances. It is much better to own five or ten shares of a standard German Bank or industrial corporation, than a carload of worthless afterwar German Government or Municipal bonds. Holders of German pre-war issues such as Government, Industrial and Municipal bonds, we advise to hold on to their securities, because we believe that a better revaluation will be accomplished for them in due time.

At a later meeting at the offices of Zimmermann & Forshay resolutions protesting against the revaluation bill were adopted, following which the cablegram embodying the protest was forwarded to Berlin. The cablegram signed by Leopold Zimmermann, Chairman of the association, reads:

The American Association of Holders of German Mark Securities, representing numerous dealers and holders of German mark securities, who constitute the greatest potential American market for future German public and private loans, vigorously protests against the unjust and discriminatory provisions of the revaluation bill now pending. Resolutions demanding the elimination of certain features and the modification of others were adopted and copies will be mailed.

The revaluation bill was referred to in our issue of April 4, page 1689.

Decrease in Postal Savings Deposits in April.

The monthly statement of postal savings deposits, issued by the Post Office Department shows a decrease of $703,000 in the amount on deposit April 30, the balance at that date, viz. $133,188,668, comparing with $133,891,668 on March 31. The statement follows:

STATEMENT OF POSTAL SAVINGS BUSINESS FOR THE MONTH OF APRIL 1925, AS COMPARED WITH THE MONTH OF MARCH 1925.

Balance on March 31	$133,891,668
Decrease during April	703,000
Balance on deposit April 30	$133,188,668

Offering of Bonds of Des Moines Joint Stock Land Bank.

At 101½ and interest, to yield 4.31% to the redeemable date and 4½% thereafter, Kidder, Peabody & Co. and Mitchell, Hutchins & Co., Inc., offered on May 15 an issue of $1,500,000 4½% Farm Loan bonds of the Des Moines Joint Stock Land Bank. They will be dated May 1 1925, will become due May 1 1965, and will be redeemable at the option of the bank at par and accrued interest on May 1 1935, or at any interest date thereafter. They are coupon bonds of $1,000 and $10,000 denominations, fully registerable and interchangeable. Principal and semi-annual interest, Nov. 1 and May 1, are payable at the bank of issue or at the offices of Kidder, Peabody & Co., New York or Boston, at the holder's option. The bonds are exempt from all Federal, State, municipal and local taxation except estate, inheritance and gift. The Des Moines Joint Stock Land Bank operates in Iowa and southern Minnesota. The balance sheet of the bank, as of May 12 1925 (after giving effect to the sale of the present block of bonds), follows:

Assets.		*Liabilities.*	
Mortgage loans (secured by Iowa and Southern Minnesota farm lands, total appraised valuation exceeding $38,000,000)	$15,724,344 47	Capital stock	$1,150,000 00
Accrued interest on mortgage loans	228,035 35	Reserves & undivid. profits	100,258 92
Farm loan bonds owned	25,000 00	Amortization payments applied on principal	433,874 34
U. S. Govt. bonds	700,000 00	Accrued interest on farm loan bonds outstanding	12,973 59
Accounts receivable and other assets	165,490 52	Due borrowers on uncompleted loans	14,770 88
Tax certificates	21,360 10	Coupons due not presented for payment	72,880 00
Furniture and fixtures	4,037 53	Amortization installment paid in advance	297 50
Cash and due from banks	206,787 26	Farm loan bonds outst'g	14,990,000 00
		Bills payable	300,000 00
Total	$17,075,055 23	Total	$17,075,055 23

We also give the following loan statistics as of May 12 1925:

Number of loans	1,239	Average loan per farm	$12,691 00
Number of acres	234,370	Average number of acres per loan	189
Appraisal for loaning purposes	$38,106,000	Average loan per acre	$67 09
Total amount of mortgage loans now held	$15,724,344 47	Percentage of loans to appraised value	41.26%
Average appraised value per farm	$30,755 00		

Offering of Bonds of St. Louis Joint Stock Land Bank.

An issue of $750,000 4½% bonds of the St. Louis Joint Stock Land Bank was offered on May 26 by William R. Compton Co. and Halsey, Stuart & Co., Inc., at 101.75 and interest, to yield about 4.28% to the optional date and 4.50% thereafter. Dated June 1 1925 and due June 1 1955, the bonds will be optional June 1 1935. They are coupon bonds, fully registerable in denominations of $1,000, $5,000 and $10,000. Interest will be payable semi-annually June 1 and Dec. 1, and principal and interest will be payable at the American Trust Co., St. Louis, or coupons may be presented for collection through any office of the offering houses. The bonds are acceptable as security for postal savings and other deposits of Government funds and are exempt from Federal, State, municipal and local taxation. The bank operates in the States of Arkansas and Missouri. William R. Compton, Chairman of the Board of the bank, is President of the American Trust Co. of St. Louis. The bank was chartered March 27 1922. Its statement, as officially reported April 30 1925, follows:

Acres of real estate security	326,666	Avg. appraised val. per acre	$78 95
Appraised value of real estate security	$25,789,620	Avg. amount loaned per acre	32 94
Total amount loaned	$10,758,960	Percentage of loans to appraised value	41%

The total bonds outstanding of the bank, including this issue, is $10,824,000.

Offering of Bonds of Maryland-Virginia Joint Stock Land Bank.

Brooke, Stokes & Co., of Philadelphia, Washington and Baltimore, and the Equitable Trust Co. of Baltimore, offered on May 21 $500,000 5% Farm Loan bonds of the Maryland-Virginia Joint Stock Land Bank at 103 and accrued interest to yield 4.62% to the optional date and 5% thereafter. The bonds are dated March 1 1925, will mature March 1 1955 and are not callable before March 1 1935. They are coupon bonds in denominations of $1,000 and $5,000 and are fully registerable. Interest is payable semi-annually, March 1 and Sept. 1, at the office of the bank, or at the Equitable Trust Co., Baltimore. Issued under the Federal Farm Loan Act, the bonds are exempt from Federal, State and local taxation. The bank was chartered April 7 1923 to operate in the States of Maryland and Virginia. The following is its statement of condition as of May 18 1925, after giving effect to the present issue of bonds:

Assets.		*Liabilities.*	
Mortgage loans	$1,001,837 07	Farm loan bonds outst'g	$1,000,000 00
Cash on hand and in banks	290,751 62	Accrued interest on farm loan bonds	1,249 92
Accrued interest on mortgage loans	12,115 86	Adv. amortization paym'ts	2,300 00
		Reserve for unpaid coupons	3,200 00
		Capital stock	250,000 00
		Surplus	25,000 00
		Legal reserve	3,200 00
		Undivided profits	19,754 63
	$1,304,704 55		$1,304,704 55

The bank's loan statistics as of May 18 1925 are set out as follows:

Total number of loans	165	Appraised value of land and improvements	$3,038,966
Acres of real estate security	24,942	Average apprais. val. per acre	122
Amount loaned in Maryland	$860,500	Average amt. loaned per acre	40 50
Amount loaned in Virginia	149,400	Average percentage of loans to appraised value	33.2%
Total amount loaned	1,009,900		
Appraised value of land	1,856,516		
Appraised value of improvem'ts	1,182,450		

Offering of Bonds of First Joint Stock Land Bank of Montgomery, Ala.

An offering of $750,000 5% Farm Loan bonds of the First Joint Stock Land Bank of Montgomery, Ala., was announced on May 25 by Barr Brothers & Co., Inc., of New York, the Central Trust Co. of Illinois, of Chicago, the National Shawmut Bank, of Boston, and the First National Bank, of Montgomery. The issue was offered at 103 and accrued interest, to yield about 4.62% to the optional date and 5% thereafter. The bonds will bear date May 1 1925, will become due May 1 1955 and will be callable at par on May 1 1935 or any interest date thereafter. They will be in coupon form in $1,000 denomination, fully registerable and interchangeable. Principal and semi-annual interest (May 1 and Nov. 1) will be payable at the First Joint Stock Land Bank of Montgomery, or the Chase National Bank, New York City. The bonds are exempt from Federal, State, municipal and local taxation, and are legal investment for all fiduciary and trust funds under the jurisdiction of the Federal Government. The officers and directors of the First National Bank of Montgomery, Ala., manage and control the operation of the First Joint Stock Land Bank of Montgomery. The latter was chartered on Aug. 21 1922. Its statement of condition as of May 1 1925 follows:

Resources.	
Mortgage loans	$3,226,800 00
Accrued interest on mortgage loans (not matured)	41,337 12
United States Government Bonds	600,437 51
Accrued interest on bonds owned	9,015 31
Cash on hand and in banks	50,524 66
Accounts receivable	150 00
Furniture and fixtures	2,131 02
Payments in process of collection	6,471 47
Other assets	9,955 34
Total	$3,946,822 43
Liabilities.	
Capital stock	$250,000 00
Surplus	20,000 00
Legal Reserve	3,000 00
Undivided profits	32,082 70
Farm Loan bonds authorized and issued	3,300,000 00
Accrued interest on Farm Loan bonds (not matured)	30,832 85
Matured interest on Farm Loan bonds (coupons not presented)	23,750 00
Notes payable	120,000 00
Loans due borrowers	119,101 00
Other accrued interest (not matured)	190 44
Amortization payments on principal	44,047 18
Other liabilities	3,818 26
Total	$3,946,822 43

According to W. A. Howell, Vice-President and Manager of the bank, $2,104,300, or 68% of the amount of loans in force on April 15 1925 were made to borrowers who themselves operate their farms. He also supplies the following information:

Gross loans closed to April 15 1925	$3,075,200 00
Applications received to April 15 1925	7,854,325 00

No loans in default and only four so reported since organization, none continuing more than fifteen days, two of which were technical defaults. The Farm Loan Board has approved all loans submitted them.

The bank operates in Georgia and Alabama.

Offering of Bonds of Pacific Coast Joint Stock Land Bank of Portland, Ore.

At 104 and interest, to yield approximately 4.50% to the redeemable date and 5% thereafter to maturity, White, Weld & Co. on May 14 offered $1,000,000 5% bonds of the Pacific Coast Joint Stock Land Bank of Portland, Ore. The bonds, which are issued under the Federal Farm Loan Act, will be dated May 1 1925, will become due May 1 1955, and will be redeemed at par and interest on any interest date on and after May 1 1935. In coupon form, fully registerable and interchangeable, the bonds will be in denomination of $1,000. Principal and semi-annual interest (May 1 and Nov. 1) are payable in New York or Portland. Definitive bonds were expected to be ready for delivery about May 25. The Pacific

Coast Joint Stock Land Bank of Portland operates in the States of Oregon and Washington. Its charter was issued on May 29 1922. The bank pays dividends at the rate of 7% per annum. The following is its statement of condition March 31 1925:

Installments matured (in process)	5,748.00
Other assets	59,863.87
Total	$3,485,659.22
Liabilities—	
Capital stock	$250,000.00
Surplus	20,000.00
Reserve from earnings	25,000.00
Farm loan bonds	2,982,000.00
Bills payable	120,000.00
Due borrowers	1,060.17
Installments paid in advance	550.00
Reserved for matured coupons	2,425.00
Accrued interest on farm loan bonds	69,755.00
Accounts payable	772.92
Undivided profits	14,096.13
Total	$3,485,659.22

The statement of the Mississippi Joint Stock Land Bank of Memphis, as of May 10 1925, follows:

Assets—	
Net mortgage loans	$3,848,256.29
Accrued interest on mortgage loans	61,674.32
Cash in banks	198,582.44
Accounts receivable	2,642.77
Installments matured (in process)	2,230.00
Other assets	81,476.11
Total	$4,194,861.93
Liabilities—	
Capital stock	$350,000.00
Reserve from earnings	35,000.00
Farm loan bonds	3,500,000.00
Bills payable	165,000.00
Due borrowers on uncompleted loans	6,340.00
Amortization installments paid in advance	1,491.33
Reserved for matured coupons	2,075.00
Accrued interest on farm loan bonds	86,500.00
Undivided profits	48,455.60
Total	$4,194,861.93

We also give the loan statistics of the two banks as of May 10 1925:

	Tennessee Joint Stock Land Bank	*Mississippi Joint Stock Land Bank*
Acres of real estate security	119,712	149,898
Appraised value of land and premanent improvements	$10,391,600.00	$12,425,967.00
Amount loaned	$3,434,800.00	$4,070,600.00
Average appraised value per acre	$86.90	$83.00
Average amount loaned per acre	$28.64	$27.16
Aver. percentage of loan to appraised value	33.1%	32.7%

Both Joint Stock Land Banks are owned and operated by the Bank of Commerce & Trust Company, Memphis.

Offering of Bonds of Fletcher Joint Stock Land Bank.

The Fletcher Savings and Trust Co. of Indianapolis is offering at 102, yielding 4.25%, $100,000 4½% farm loan bonds of the Fletcher Joint Stock Land Bank. The bonds are in denominations of $1,000, $500 and $100; they are dated May 1 1925, will become due May 1 1955, and will be callable May 1 1935 or at any interest date thereafter at par. Interest will be payable semi-annually May 1 and Nov. 1. The bonds are issued under the Federal Farm Loan Act. The following facts are taken from the April 30 1925 statement of condition of the Fletcher Joint Stock Land Bank:

Loans	$14,250,600
Federal appraisement	37,029,790
Our appraisement	35,918,578
Acres mortgaged	282,731
Percentage of loan to appraisement	38.48%
Average loan per acre	$50 40

Offering of Capital Stock of Southern Minnesota Joint Stock Land Bank.

Jackson & Curtis and the Guy Huston Company Inc., offered on May 28 11,000 shares of capital stock of the Southern Minnesota Joint Stock Land Bank of Redwood Falls, Minn. The stock is in shares of $100. Dividends are payable on the first day of January, April, July and October. The initial dividend was declared as of July 1 1922, at 8%. In January, 1923, the rate was increased to 9% and in May, 1925, the Board of Directors announced that the dividend rate on the capital stock had been increased from 9 to 10%, the increase to be effective July 1; the first quarterly dividend of $2.50 per share will be paid October 1 1925.

The new issue of stock, which it was announced on May 28 had been sold, was offered at $158.50 per share and accrued dividend; at the $10 per share annual rate beginning July 1 1925, the yield will be over 6.30%. The new stock is expected to be ready for delivery about June 3. The stock is exempt from Federal normal income taxes. All taxes being paid by the Bank, stock is therefore not taxable in the hands of the individual owner for state and local purposes, and need not be declared for taxation. The Southern Minnesota Joint Stock Land Bank is one of a group of which the Guy Huston Company are fiscal agents. This group includes the Chicago, Kansas City, Southern Minnesota, Dallas, Des Moines and New York banks. Their assets are in excess of $190,000,000—more than one-third of the assets of the total Joint Stock Land Bank System, and their gross earnings are now in excess of $2,000,000 per annum. The Southern Minnesota Joint Stock Land Bank, after giving effect to the new financing, becomes the fourth largest Joint Stock Land Bank in the Federal Farm Loan System. It was organized in June, 1919, by W. H. Gold and his associates, with an initial capital of $250,000. Its capital, including the present issue, will be $3,000,000, with Reserves, Surplus and Undivided Profits of $783,219.75. Its loans outstanding as of May 12 1925, were $28,362,800.96, on which amortization payments have been made to the amount of $833,616.24. These loans are secured by first mortgages on corn land farms in the Southern section of Minnesota and in the extreme Eastern section of South Dakota. These farms have been appraised for loan purposes at over $68,000,000. While the Bank's charter authorizes it to operate throughout the States of Minnesota and South Dakota, its policy has been to confine its investments in farm mortgages to 83 counties in Southern Minnesota and Eastern South Dakota, which are a part of the Corn Belt.

Federal Farm Loan Board Reduces Rate of Interest to Farmers in Omaha District from 5½% to 5¼%.

Effective June 1 the Federal Farm Loan Board announced on May 25 that the rate of interest charged to farmers by the Omaha Federal Land Bank had been reduced from 5½ to 5¼%. A statement indicating that similar changes in other districts were contemplated was issued as follows by Commissioner Cooper:

The Board is considering rate reductions in other districts and will doubtless reach a conclusion within a short time. It requires some time for a bank to make necessary adjustments before a change in its rate. The Omaha Land Bank, however, is in a position to make the reduced rate effective June 1.

The present favorable bond market, as well as the general improvement in agriculture, satisfies the Board that this lower interest rate can be maintained by the Omaha bank as well as other banks of the system which will be given authority later for interest rate reductions.

Associated Press advices from Washington May 25 stated:

Presidents of the Land banks, at a recent conference with the Board, considered the rate question throughout the country, but the discussion was informal and entirely for advice of the Board. Study of the facts present at that time, however, has convinced the Board that reductions in all districts are justified and should be made operative as soon as possible.

Reports Attributed to Otto H. Kahn on War Debt Issue Denied by Kuhn, Loeb & Co.—James W. Gerard and G. W. Wickersham Likewise Make Denials—Representative Fish Suggests Application of Logan Act to Unauthorized Speakers Abroad.

Denials of remarks attributed to Otto H. Kahn, of the banking firm of Kuhn, Loeb & Co., James W. Gerard, formerly United States Ambassador to Germany and former U. S. Attorney General George W. Wickersham, regarding the settlement of war debts, have been made this week. Messrs. Kahn and Gerard and Wickersham, in reports from abroad, were made to appear as having attempted to explain as a political move the action of the United States in seeking a settlement of the debts. On behalf of Mr. Kahn, his office on May 28 issued the following statement:

In response to inquiries at the office of Kuhn, Loeb & Co. regarding certain remarks, which Mr. Otto H. Kahn was reported to have made in a recent speech in Paris and to which wide publicity has been given, it was stated that they have been advised by Mr. Kahn that his remarks, which were made at a small private luncheon at which no representatives of the press were present, have not been accurately reported and had no reference to the debt settlement, which was fully understood by everyone present. Mr. Kahn's remarks were made in response to comment made by others at the luncheon as to certain published expressions in America which had reached France probably in somewhat garbled form, and in order to emphasize the importance of peoples understanding each other's points of view and avoiding discord creeping into their relationships through lack of full understanding.

Former Ambassador Gerard's denial was contained in a cablegram from Paris to President Coolidge on May 25, as follows:

The President, Washington —

Am now informed by cable from America that "Evening Post," New York, had dispatch from Paris, 20th, saying I was expressing critical views about debt note. Did not even know there was a debt note; have refused interviews and made no speeches. Am out of politics and only wish you could be here to enjoy riding in the park. Please inform spokesman.

JAMES W. GERARD.

Incidentally, it is noted, a copyright cablegram from Paris, May 27, carried information regarding the cancellation of a luncheon in London at which Mr. Gerard was to have spoken. We quote the cablegram herewith:

The Continental edition of the London "Daily Mail" says to-day:

"The luncheon arranged in London for to-day by the English-speaking Union in honor of James W. Gerard, United States Ambassador to Germany during the war, has been postponed."

With the return of Mr. Wickersham on the Cunard liner Mauretania yesterday (May 29) he was reported in the New York "Evening Post" as protesting that he had been misquoted and "taken seriously" in cabled reports of his speech before the American Club in Paris on the subject of debt payments. Yesterday's account in that paper says:

Mr. Wickersham said his remarks had been addressed to the club informally and with humorous intent.

"I said the time had come for one nation to pay back debts to another," he recalled, "and that every nation should recognize her incurred debts. I said the United States should recognize her debt to France. We owe that country our well-dressed women, our best cooking, the best of our art.

"I did not imagine my words would be taken seriously."

The same paper, in a copyright cablegram from Paris, May 20, in an account of the reported remarks of Messrs. Kahn, Gerard and Wickersham, had the following to say in part:

Otto H. Kahn, at a dinner at the Inter-Allied Club attended by Premier Painleve, said:

"When one loves a woman one always experiences pleasure in seeing others love her, too. I may say, loving France as I do, that America loves her deeply.

"If at times you hear words that offend you, always put it down to the fact that they do not come from the soul of the American people, but from her politicians, who do not represent the nation."

George Wickersham, former United States Attorney-General, and James W. Gerard, former American Ambassador to Berlin, both are here explaining the action of Washington and unofficially applying the soft pedal.

There are others of note in the French capital giving advice to French officials and otherwise engaged in drawing herrings across the debt trail.

Then there are the direct representatives of the American Government and a legion of writers who are apologizing for the United States for having made the war debt move, as they always cautiously add, "at this time."

The New York "Times" of May 29 presents a correct view of the sentiments in banking circles here when it says:

Officers of Kuhn, Loeb & Co. declined to amplify the statement, but in the banking world there exists considerable impatience with the idea that conversations abroad of well-informed Americans regarding international debts tends to impede rather than facilitate settlements. Bankers well acquainted with the subject declare that the big international financial houses would be the last ones to interfere with an operation tending to stabilize world affairs.

One development of the newspaper reports has been the action of Representative Hamilton Fish Jr., of New York, in proposing to President Coolidge that those essaying to present the stand of the United States with a view to influencing a foreign Government on any issue, without authority therefor, be prosecuted under the Logan Act. Representative Fish is quoted in the New York "Times" of May 28 as follows:

"Presidents of Chambers of Commerce, bankers, eminent lawyers, journalists, former diplomats and many of the officers, commanders and chevaliers of the Legion of Honor have rushed over to France to settle the war debts by an offer of cancellation or by other misrepresentations," Mr. Fish declared.

"Practically all these would-be negotiators hail from New York City, except a few from New England, and unless a stop is called to their un-American propaganda it will be useless to try to convince France and other European debtor nations that the United States Government means what it says.

Hits at "New Type" of Citizen.

"At the outset of the World War we were troubled by the presence of hyphenates, but now we are annoyed by a new type of American citizen, who applauds all things foreign, particularly French, and finds fault with all things American, particularly our Government.

"We must not forget that the American taxpayers are still paying $900,000,000 a year in interest on the war debts and that the taxpayers of Great Britain and several smaller nations have recognized the validity of their war obligations and are paying up, but that France, Belgium and Rumania, instead of funding their debts, have been either loaning money to other nations or making payments in spite of the prior claims of the United States.

"If the Administration fails to enforce the Criminal Code against unlawful interference with negotiations being conducted by the United States Government with foreign Powers, I will consider bringing the matter up in Congress when it convenes."

No comparison of the citizens who went abroad and spoke against the League of Nations proposal could be made with those who now favored cancellation of the French debt, Mr. Fish said. He argued that the League of Nations idea was merely a proposal in which this country did not agree, while the debt negotiations had been specifically authorized by Congress, which had gone on record as opposing a cancellation.

"I do not say that I would vote to put such a law as the Logan Act on the statute books, for I have strong ideas on the freedom of speech," Mr. Fish added; "but as it is on the books I want it enforced."

Indications of the Government's displeasure at the expression of views by American visitors abroad, were made known on May 21, at which time the Washington advices to one of the newspapers—the New York "Herald-Tribune"—said:

Private Americans in foreign capitals and in this country who suggest ways by which the debtor nations may settle their war obligations to the United States were vigorously scored today by one of President Coolidge's chief advisers. He suggested a policy of "hands off" and "mouths shut" for these "muddlers," whose remarks, he added, were unwise and not always understood in foreign capitals.

The government's efforts to bring about an early movement by the debtor nations toward funding arrangements are embarrassed by these unofficial spokesmen, who constantly are suggesting methods of payment that may be acceptable to the United States, it was indicated.

No direct reference to any individual who has spoken recently on the debt situation was made by the official spokesman today, but it is known that the recent speeches of Otto Kahn, the New York financier, are regarded as most displeasing to the Administration. The views of George W. Wickersham, given recently in Paris, also come under the group of utterances discouraged by the government, it is understood.

Resent Private Spokesmen.

Officials declared that headway in the debt situation can only be accomplished through authorized channels, and that no private citizen is empowered to suggest any mode of payment of the war debt to any of the debtor nations.

Adolph S. Ochs, of New York "Times," Says Negotiations on Debt Settlement Are Progressing to Satisfactory Conclusion—President Has Full Support and Confidence of People.

According to Associated Press accounts from Paris, May 28, the problem of the French debt to the United States is on its way to a satisfactory settlement, Adolph S. Ochs, publisher of The New York "Times," told the American Club of Paris that day. The accounts further say:

Recent reports of disagreeable or impolite messages exchanged between Washington and Paris were unfounded, said Mr. Ochs, declaring he spoke upon the highest authority.

"I have been particularly cautioned that there are some things I may not discuss," Mr. Ochs remarked, "and as I do not wish to have the experience of some of my friends I have taken the precaution to write down what I wanted to say. I want it understood that I am not even an unofficial observer. I am here on my own hook, but I must not disregard the caution that has gone out from Washington.

"I am observing and taking notes, but I think I may be permitted to say, and I have the highest authority on which to make the statement, that those reports are untrue and unfounded that say there have been disagreeable or impolite messages received with respect to the French debt to the United States. On the contrary, the messages that have been exchanged or the conversations that have taken place have had nothing of irritation in them.

"On the other hand, there have been initiated, and there are now in progress, very satisfactory negotiations with respect to arriving at a satisfactory understanding on the problem of the settlement of the French debt. And the greatest confidence and good-will is reposed in President Coolidge and in his ability to approach a settlement in the highest sense of justice, fairness and generosity.

"And, as I am somewhat employed in reflecting public opinion in the United States, I feel no hesitation in saying that in this attitude the President has the good-will, support and full confidence of the American people."

Mr. Ochs, discussing "the far too prevalent opinion that the world is in a bad condition," said he was an optimist and felt sure that the problems and perplexities would be solved. He cited the Associated Press as "a fine illustration that brothers can dwell together in unity.

"This organization of more than 1,200 newspapers, representing diverse and divergent interests and aspirations," he added, "works harmoniously and satisfactorily."

Webb-Phelps Amendments to Martin "Blue Sky" Act (New York) Effective June 1—Requirements Affecting Publication of Sale of Securities.

Calling attention to the fact that the amendments to the Martin so-called "Blue-Sky" law, passed at the recent session of the New York Legislature, will become effective June 1, New York State Attorney General Ottinger on May 24 issued a final warning to stock brokers, promoters and dealers in securities that the provisions of the law requiring publication of proposals to sell securities must be complied with. The Attorney General's warning said:

It is apparent, that there is not a full realization among stock brokers, dealers in investment securities and corporations selling their securities directly to the public of the requirements of the recent amendments to the Martin anti-stock frauds law.

All persons, firms and corporations dealing in securities, unless specially exempted by the law itself, are absolutely required to publish notices of sales of securities.

This publication must be made in the official security paper on June 1, otherwise none of the agencies which falls into the classification above mentioned can sell a dollar's worth of stock, bonds or other security within the State of New York without rendering themselves liable to severe penalties, both civil and criminal, imposed by the Martin act.

In spite of the fact that there are within the State of New York upward of 3,000 agencies of one kind or another that are subject to the regulations imposed by the act, I am advised by the official security paper, "The Times-Union," of Albany, that copy for the required notice has been received from not more than 200 dealers and issuers to date.

In an earlier notice regarding the new requirements the Attorney General was quoted in the New York "Herald Tribune" of May 4 as saying:

On and after May 31 all dealers in securities or commodities as defined by the terms of the act itself must cause to be published in the official securities paper at their own expense a notice giving certain information as to the business activities, and if the securities which they propose to sell are not covered by certain exemptions created by the terms of the law they must also publish a further notice descriptive of the securities they propose to offer.

The publisher of the paper must, immediately upon publishing any particular notice or notices, forthwith furnish the Attorney General with 5 copies thereof. In this way the Attorney General will receive advance notice of all offerings of securities intended to be made to the public and will be able, in a proper case, to do what, under the original Martin law, he found himself unable to do in many instances—lock the barn door before the horse is stolen.

Holds Act Reasonable.

Legitimate corporate enterprises have nothing to fear from the operation of this law as amended. The requirements as to the contents of the notice are neither burdensome or expensive from the standpoint of the dealer or offerer.

The penalties for violation of the provisions of the statute have been very materially increased.

The Attorney General's warning to investors on May 4 also said:

Under a plan we have worked out we will be able to check innumerable fradulent stock promotions before the promoters or their agents can move. If crooked dealers fail to comply with the publication provisions of the Martin law the State's agents co-operating with local chambers of commerce, boards of trade and such agencies as the Better Business Bureau, cannot fail to detect them. If they comply with the requirement the State will be able to investigate and determine the character of the securities they propose to sell.

We have spread the dragnet over all the sections of the State in an effort to bring to a halt the flagrant and widespread frauds which bring unscrupulous and villainous stock dealers and salesmen millions of dollars each year.

Our aim is to drive fakers from the State of New York and nothing will be left undone to accomplish this.

At this point, let me again warn the people against investing money in any securities that have not been approved by their bankers, lawyers or some authoritative agency. The public is in a position to help us by refraining from placing money in questionable enterprises and by notifying the Attorney General or any of his representatives of attempts to sell what appear to be fake securities.

A summary of the main provisions of the amendments is furnished in the following letter addressed to members by the Legislative Committee of the New York Group of the Investment Bankers' Association of New York:

New York, April 27 1925.

To the Members of the New York Group,
Investment Bankers Association of America.

Gentlemen:

I am enclosing herewith copy of Article 23a of the General Business Law of the State of New York as amended by the Webb-Phelps Bill of 1925, which is generally called the "Martin Fraud Law."

The main provisions added to the Martin Fraud Law by the Webb-Phelps Bill amendments are as follows:

(a) Fraudulent practices in respect to the advertisement, purchase or sale for future delivery of any commodity dealt in on any exchange are brought within the scope of the act. This gives the Attorney General authority to investigate and prosecute those guilty of questionable transactions in cotton, grain, etc.

(b) Negotiable documents of title, foreign currency orders and calls or options therefor are included within the term "security or securities."

(c) A dealer in securites who sells or offers any security for sale to the public without complying with the provisions requiring the publication of certain notices in the State paper at Albany is guilty of a fraudulent practice.

(d) In any action brought by the Attorney General under the act either the temporary injunction or the final decree may provide for the appointment of a receiver of the proceeds of the fraud from which two salutary results will accrue. The victim of a fraudulent practice may have some of his losses recovered for him. The outstanding advantage, however, will be to prevent immunity from arising to those examined by the Attorney General, through the use of a criminal proceeding of their books and records while the same are lawfully in the possession of a receiver.

(e) Upon a showing by the Attorney General that a defendant or an officer thereof has refused to be sworn, to answer a proper question or to produce a book or paper material to an inquiry duly conducted under the law, a preliminary injunction may forthwith issue from the Supreme Court.

(f) The language of the immunity provision of the original law is improved.

(g) After the 31st day of May 1925 every person, firm or corporation engaged in, or about to engage in the business of selling securities to the public is required to first cause to be published in the State Paper a notice giving the following information:

Name of dealer. Business or post office address. If a corporation, where incorporated. If a partnership, the names of the partners.

(h) After the 31st day of May 1925 a dealer offering a security for sale to the public which does not come within the exempt class as enumerated in section 359-f of the law, must before or at the time of such offering cause to be published in the State paper a further notice containing the information, other than the names of partners, required to be published in the notice mentioned above, and in addition thereto, the following:

Name of Security. Name of the issuer. Post office address of issuer and the state or country in which organized.

(i) Provision is made for a single publication of the second notice in case of group or syndicate offerings.

(j) The publisher of the State Paper is required, immediately upon the publication of the notices mentioned, to deliver to the Attorney General five copies of each issue or supplement containing the notices herein described.

Very truly yours,
R. H. FULLERTON, *Chairman,*
Legislative Committee.

The signing by Gov. Smith of the Webb-Phelps amendments to the Martin Act was noted in our issue of April 4, page 1692.

Bankers of State of New York Guests of Stock Exchange.

Approximately 400 bankers of the State of New York visited the New York Stock Exchange on Wednesday of this week, and, as guests of the Exchange, spent the day familiarizing themselves with its machinery and studying the operation of the market. The bankers were present in response to invitations issued by the Exchange, which had designated May 27 as Banker's Visiting Day. In making known its reason therefor the Exchange said:

During the past few years the Stock Exchange has held annual conferences of Partners, Branch Office Managers and Representatives of Stock Exchange Firms for the purpose of enabling the associates of Stock Exchange Members to become familiar with the workings of that institution. These meetings have given the personnel of the Stock Exchange organization throughout the country a first hand knowledge of the manner in which stocks and bonds are actually bought and sold and a better understanding of the problems of the Exchange. These conferences have been attended by hundreds of members and their associates from all over the country. In this way better co-operation between the Exchange and the men who come into contact with the investing public has been secured.

Inasmuch as a large volume of investment business reaches the Exchange through the banks, the Exchange felt that a similar opportunity to inspect the mechanism of the market place would be appreciated by the Officers of the National, State and Savings Banks and Trust Companies of the State of New York.

The program for Bankers' Visiting Day included visits to the Floor of the Exchange and to the Stock Clearing Corporation. An address was made by E. H. H. Simmons, President of the Exchange, who, in speaking of the practice which has grown up among American banks "of depending for the element of centralization upon the call or demand loans made in Wall St. on the collateral securities listed on the New York Stock Exchange" said we must "look upon the security loan market as a useful factor in modern banking, and upon the stock market as an institution closely allied with and related to other sections of the Nation's business." We annex President Simmons's remarks:

It is with very genuine pleasure that, on behalf of the Governors, Members and Officers of the New York Stock Exchange, I bid you welcome here today.

I need scarcely remind you of the many contracts which exist between American banks generally and this leading American market for capital. It is mainly through the banks that securities come to be issued and listed on the Exchange, and also that funds can be found to carry them in the floating supply until they can be distributed to the outright buyers and investors of the land. On the other hand, bankers look to the Stock Exchange for a variety of indispensable services in corporate financing—for the maintenance of a ready, free and open market, for reliable quotations, and for integrity of method in security dealings. It is therefore a fortunate occasion when we can take counsel together over our mutual problems arising from the financial business of the country, to avoid the possibility of any future misunderstandings or misapprehensions between us, and by

mutual co-operation to improve the financial facilities which we both maintain for the American public.

I realize that you have come here today to see the Exchange in actual operation, rather than to listen to speeches. I am accordingly going to make my remarks very brief, and to refer to only a single phase of the Exchange securities markets, out of the many which might be discussed.

One of the constantly recurring problems of American banking from the earliest times has been the establishment of some central institution or system which would serve as a bulwark to the money market in times of stress by centralizing banking reserves and enabling their flexible control in the common interest. To some extent, steps in this direction were taken very early in our history by the successive organization of the First and Second Banks of the United States. With the passing of the Second Bank in 1836, these hopeful and promising attempts to centralize and give poise and direction to American banking came to a halt, and until our own times, no very effectual steps in this direction were taken. The National Bank Act effected some salutary reforms in our currency and in other respects improved the existing situation, without however really providing a central liquid reservoir of funds to which in times of affluence the banks of this country could contribute, and from which in times of financial stress they could readily withdraw their funds again.

In consequence of this situation, the practise grew up among American banks of depending for the element of centralization upon the call or demand loans made in Wall Street on the collateral securities listed on the New York Stock Exchange. Many of you will recall the days when our call loan market was the regular repository of the secondary banking reserves from all parts of the country. It was not an ideal system, either to the lending banks and their depositors or to the borrowing stock brokers and their customers. Nor was the undue burden and responsibility thus placed upon the security call loan market anything of the Stock Exchange's seeking. The system grew up in lieu of a better one, and while its defects and shortcomings were now and then demonstrated during financial crises and panics, nevertheless it functioned after its own fashion steadily and continually in supplying the central reserve strength and flexibility otherwise lacking among the banks of the country.

After many years of this make-shift method, the Federal Reserve Act was at length adopted, and the central banking machinery therein provided was organized and set in operation. During the past decade the Federal Reserve system has functioned in times of war and of peace, in periods of inflation and liquidation, with remarkable success. The Reserve Banks have consistently shown a splendid flexibility and adaptability through these very trying times, and have completed with brilliant efficiency many indispensable financial tasks never contemplated originally by the framers of the Reserve Act. The nation as a whole owes them a deep debt of gratitude for their able handling of the difficult and tremendous financial problems of the United States during the war. Even those lines of business which by the terms of the Reserve Act are excluded from full and direct support from the Reserve Banks—and among these, investment banking and stock brokerage are conspicuous examples—have nevertheless benefitted greatly though indirectly from the operations of the Reserve system. Some of us may believe that in the minor questions of their technique and their scope, as established under the law, the system can still be improved. Yet without fear of contradiction, I will venture to assert that not a single member of this very representative group of bankers would seriously advocate a return to banking conditions as they were before the Reserve system was established. Now that the Reserve Banks must in a few years be rechartered, we and all other sensible and experienced financial men must rally to the support of the Reserve system in its basic policies and its fundamental powers and methods.

But it has not been my intention to enter into any detailed discussion of the Federal Reserve system at this time, since it is a subject with which this audience is probably better acquainted than I am myself. I have alluded to it in order that I may not be thought either forgetful or short-sighted in speaking to you upon the second and older source of centralized reserve power in the modern money market—namely, the market for call loans based on security collateral.

The advent of the Reserve system removed a great and undue weight previously imposed upon the security call loan market as a reservoir for bank reserves and as a centralizing factor in the money market. These functions have been so successfully assumed by the Reserve Banks, that the usefulness and services of the security call loan market has frequently been overlooked or forgotten ever since. Having for many years overstressed the importance of "street loans," so-called, American finance has recently tended to minimize their importance to the banking community at large.

Stocks and bonds, as well as the loans made upon them, are of necessity commodities which absorb only surplus funds. When the surplus funds of the country are large, normally security buying becomes active and the loans made upon the securities expand. On the other hand, when the nation's surplus funds become less abundant, the needs of commerce and industry cause a liquidation of securities and of the loans made upon them. Thus the markets for securities and security loans provide a profitable use ;for idle funds in times of slack trade, and a "shock absorber" to commercial and industrial credit when trade becomes active. This ebb and flow of funds into and out of security collateral loans also accounts, in large measure, for the ability of stock market prices to discount in advance the major trends in general business conditions.

This function of the security call loan market in stabilizing the conditions of commercial, agricultural and industrial credit, was very clearly revealed in the severe business depression of 1920-1921. By the middle of November 1919 the total loans and investments of American banks reporting to the Federal Reserve Banks had reached $16,000,000,000, and at the same time stock markets loans in New York had attained their peak at slightly over $1,500,000,000. But the existing money strain, while it did not immediately curtail general borrowings at the banks, caused in succeeding months a severe deflation of the loans made upon stock market collateral.

By mid-November of 1920—just a year later—stock market loans in consequence sunk well under $1,000,000,000, while aggregate loans and investments of all American banks reporting to the Reserve increased well over $17,000,000,000. Thus, in the year between November 1919 and November 1920, about half a billion dollars was squeezed out of stock market loans and, together with an additional half billion obtained mainly by expanding our total bank credit, was loaned out to merchants, farmers and manufacturers. In the light of these facts, it seems curious that at the time so much could have been made of the claim that "Wall Street" was deflating the farmer and the business man. Actually, as the figures very clearly indicate, it was the farmer and the business man who deflated the Wall Street stock market, as well as the market for loans on security collateral.

By July 1921 stock market loans had fallen still furtner to a total of only about $700,000,000—or about 46% of their previous peak of $1,500,000,000. But at this same date, total American bank loans and investments had fallen to about $15,000,000,000—or about 88% of their previous peak of $17,000,000,000. Thus the drastic 54% liquidation of stock market loans had been very largely instrumental in making possible the comparatively slight 12% liquidation of general bank loans and investments, and in consequence a very great alleviation of the acute general business conditions of these years.

There is a final aspect of this relation of the securities market to American business generally, to which I would call your further attention. At the end of the typical business cycle, there comes a time when inactivity and small profits in trade leave frozen commercial and industrial loans in the banks. These loans were originally intended to be for only short periods, yet the inability of the borrower to pay necessarily makes them long-term obligations in fact. In their liquidation, very frequently the creditor banks turn for assistance to the securities market, by funding their frozen short-term loans and selling them to the public as long-term bond issues.

Here again the security market performs a very great service to the larger and wider market for short-term commercial and industrial borrowings. For where such funding bond issues are put out, not all the bonds can as a rule be sold at once, and moreover many of them have to be taken up by speculative investors who use borrowed money. In consequence, such bond certificates soon find their way into the securities collateral loan envelopes of Wall Street, where they remain until enough outright buyers come forward to take them up.

We must, therefore, look upon the security loan market as a useful factor in modern banking, and upon the stock market as an institution closely allied with and related to other sections of the nation's business. In its own unique fashion, as a reservoir of surplus capital, it obeys logically and speedily the regular impulses and tendencies of the business cycle. We may sometimes misunderstand it, but we must continue to depend upon it. Although its terminology and its superficial characteristics may sometimes mislead us, its smooth and steady functioning is and will be a factor of major significance in the stimulation, the maintenance, and the stabilization of American business as a whole.

Pierre Jay's Address Before United States Chamber of Commerce Detailing Functions of Federal Reserve Banks—Clear 2,000,000 Checks Daily.

Pierre Jay, Chairman of the Board of the Federal Reserve Bank of New York in an address on May 20 before the Finance Group of the Chamber of Commerce of the United States, meeting in annual convention in Washington last week, detailed the functions of the Federal Reserve banks, which he said "are not Governmental bodies, but private corporations owned by the member banks who are their stockholders." An incidental reference to the action of the Reserve banks in placing $200,000,000 gold at the disposal of the Bank of England in furtherance of Great Britain's return to the gold standard was made by Mr. Jay toward the end of his address, our article last week on page 2595 having taken cognizance of his remarks on this point. Mr. Jay in his comments stated that "we welcomed an opportunity which combined assistance to the Bank of England, our agent and correspondent, with the discharge of our domestic responsibility to the general credit situation . . . and it is our belief that in no way could the System accommodate American commerce and business more thoroughly than by assisting such a general resumption." Pointing out that "the Reserve banks now collect practically all out-of-town checks, over 2,000,000 a day," Mr. Jay said "they have cut in half the time and expenses of collecting such checks, thereby greatly reducing any risks which business men run in accepting them in payment of invoices." He described "our rediscounting of business agricultural paper" as "the most important thing we do through our member banks, for business." He stated that "in the New York district the largest note we have rediscounted was $147,000,000 and the smallest $2 81." He added: "There are about 9,600 member banks. At the peak of the war borrowing some 7,500 of them borrowed. During the last three years, a period of greatly reduced borrowing, about 6,000 member banks borrowed each year, seasonally or occasionally, showing the extent to which member banks call upon their reserve banks for a few days, weeks or months for loans to maintain the reserves which the law requires them to keep." Discussing the mobilization of gold, Mr. Jay said:

> Our whole currency and bank credit system, of course, is based upon the pooling of the gold reserves of the country. Lack of this was formerly the greatest weakness in our banking structure. Our gold reserves were scattered in the vaults of 27,000 individual banks, and there was no way they could be brought together for the common use in times of need. . . .
>
> The creation of the Reserve System gave the opportunity for the first time for the development of an American banking policy. The gold reserves were diverted from the 27,000 individual banks, devoting their attention largely to profit making, into 12 new institutions, the Federal Reserve banks, created for the primary purpose of administering these reserves, not for profit, but in the public interest."

Mr. Jay stated that "transactions in bankers' acceptances and short Government securities in the open market are coordinated through a committee of Reserve bank officers appointed by the Federal Reserve Board and acting under the approval and authority of the directors of those Reserve banks which may from time to time participate in such transactions. His remarks in full follow:

> American institutions are judged not alone by their accomplishments, but also by the picture which people form of them in their minds. Few Americans have any picture of the Reserve banks because relatively few come in direct contact with them. To most people they are merely an idea because they do not deal directly with the public but deal only with the banks.

Because of this remoteness I want to try to give you a picture of what we are, how we are organized and controlled, and what we have been trying to do, through the banks, for the business men and farmers of the country.

Physical Organization.

In the first place, far from being a mere idea, we are a fairly robust physical organization. The System consists of 12 banks with 23 branches, or 35 offices in all, covering every section of the country. These banks are not Governmental bodies but private corporations owned by the member banks, who are stockholders. Most of the Reserve banks are housed in their own buildings, built with their own money, not that of the Government. They have an aggregate staff of 10,500 clerks and officers and 108 directors. To the latter should be added the 160 directors of branches. These directors, officers and clerks operate the banks and their branches under the Federal Reserve Act and subject to the general supervision of the Federal Reserve Board composed of eight members and its staff, sitting continuously in Washington.

What the Reserve Banks Do.

Most of you here, I imagine, have never been inside a Federal Reserve bank. Many of you, perhaps, have never met an officer of a Reserve bank. But every day, in ways of which you are probably unconscious, you have contact with the operations of the Reserve banks.

Currency.—Look over the paper money in your pocketbook and you will find that many of the bills it contains are Federal Reserve notes issued through Federal Reserve banks. Not only that, but probably every coin or bill that you carry has been handled by a Reserve bank. For the Reserve banks have taken over the functions of the old Sub-Treasuries and practically all the money used in the United States is furnished through them. Banks return their worn or surplus money to the Reserve banks, which in turn issue them clean money. There is a huge daily flow of currency into and out of the Reserve banks. During the year this aggregates over $10,000,000,000, or more than twice the amount of currency in circulation in the country. To handle so large a volume smoothly and to provide against emergencies, the Reserve banks carry a large reserve supply of currency in Washington and at their 35 offices. Practically no bank is distant more than 24 hours, and the vast majority of banks are distant only over night, from one of these currency depots. Thus currency shortages are provided against and currency panics, like that of 1907, are eliminated. But the Reserve banks do more than handle the mechanics of the flow of currency; their credit operations also give elasticity to its volume. The amount of money in circulation now increases at certain seasons and decreases at other seasons in accordance with business and agricultural requirements.

Check Collections.—The next time you receive your canceled checks back from your bank, if you will examine the endorsements you will find that a large part of all the checks you sent out of town carry the endorsement of one or more Reserve banks. Indeed, the Reserve banks now collect practically all out-of-town checks; over two million of them every day. They have cut in half the time and expenses of collecting such checks, thereby greatly reducing any risks which business men run in accepting them in payment of invoices. As a result the vast majority of country checks are now paid at par and are so generally acceptable that most business concerns receive them readily and no longer require payment of their invoices in New York or other city funds.

Transfer of Funds.—In the same way, the Reserve banks' system for transferring funds by telegraph and at par from any member bank to any other member bank in the country has eliminated the domestic exchange markets which formerly used to flourish, together with the premiums they used to charge for such transfers, which acted as barriers to the free flow of funds throughout the country. Last year about $98,000,000,000 were thus transferred over our wires. A number of the large business concerns are affecting great economies through using these facilities.

Discounting Paper.—Of course, our rediscounting of business and agricultural paper is the most important thing we do, through our member banks, for business. For thereby member banks may augment their own resources at times to extend credit to their customers or obtain currency for them. Some of you may have noticed, when you took up your notes at the bank, that they had at one time been indorsed over to a Federal Reserve bank. This means that your bank borrowed for a time at its Reserve bank on the security of your note, and during this time your note was part of the security behind Federal Reserve currency. In making these rediscounts the smallest bank in the district gets exactly the same rate as the largest bank and the same is true of the actual notes themselves. In the New York district, the largest note we have rediscounted was $147,000,000 and the smallest $2 81. There are about 9,600 member banks. At the peak of the war borrowing some 7,500 of them borrowed. During the last three years, a period of greatly reduced borrowing, about 6,000 member banks borrowed each year, seasonally or occasionally, showing the extent to which member banks call upon their Reserve banks for a few days, weeks or months for loans to maintain the reserves which the law requires them to keep. It is through such borrowing that the country bank now enjoys elastic credit conditions as well as an elastic currency.

Mobilization of Gold.—Our whole currency and bank credit system, of course, is based upon the pooling of the gold reserves of the country. Lack of this was formerly the great weakness in our banking structure. Our gold reserves were scattered in the vaults of 27,000 individual banks, and there was no way they could be brought together for the common use in times of need. Besides, their use as a basis for credit was largely influenced by competition and a desire for profits on the part of the 27,000 banks. No one was directly responsible for *general credit conditions.* When panics and emergencies arose, emergency leadership had to be developed. Other countries had their banks of issue which gave continuous leadership to banking policy, but it was only in the stress of a panic that banking leadership and unity of action could be achieved in the United States.

American Banking Policy.

The creation of the Reserve System gave the opportunity for the first time for the development of an American banking policy. The gold reserves were diverted from the 27,000 individual banks, devoting their attention largely to profit making, into 12 new institutions, the Federal Reserve banks, created for the primary purpose of administering these reserves, not for profit, but in the public interest. This was a great measure of centralization of responsibility. Yet compared to the centralized systems of other countries it seemed almost decentralization. It was an essentially American plan. Just before the Federal Reserve banks opened President Wilson said in a letter to Senator Underwood:

"No group of bankers anywhere can get control. . . . No one part of the country can concentrate the advantages and conveniences of the System upon itself for its own selfish advantage. . . . I think we are justified in speaking of this as a democracy of credit. Credit is at the disposal of every man who can show energy and assets. Each region of the country is set to study its own needs and opportunities and the whole country stands by to assist. It is self-government as well as democracy."

The principle of local self-government prevails throughout. While no bank or group or section can get control of the Reserve System, on the other hand, the Reserve System itself in no way attempts to control the individual banks which are its members. No Reserve bank says to any of its member banks what loans they shall or shall not make to their customers. Member banks are as free in all respects as they were before, but the System gives them improved facilities for transacting their customers' business, and adds a factor of safety to their operations which they never before enjoyed. In the same way each Reserve bank in dealing with its member banks is quite autonomous. No one from Washington or from any other district ever tells a Reserve bank how much or how little it shall lend to a member bank.

Yet there are certain countrywide functions of the Reserve banks in which uniformity is necessary, such as their system of collecting checks, of transferring funds by telegraph, and of affecting the daily settlement of balances between the twelve districts. A certain co-ordination, but not uniformity, of credit policy is also necessary. Therefore, the law provides that the Federal Reserve Board shall finally determine the discount rate initiated in each district, so that no Reserve bank may extend credit at a rate entirely out of line with general conditions. For the same reason co-ordination of policy is also necessary in dealing in acceptances and Government securities in the money markets. Much confusion would arise if each of the Reserve banks acted entirely independently.

These things, the discount rate, the rate for the purchase of bankers' acceptances, and the dealings in short United States Government securities, are the expressions of Federal Reserve credit policy. I shall not attempt to discuss the aim and application of this policy in recent years beyond saying that, as I have sensed it, it has been directed towards steadying general credit conditions in the face of the heaviest inflow of gold any country has ever experienced. But I think you might be interested in knowing who decide these things and the considerations by which their decisions are guided, particularly as you will find that business men and business welfare play a large part in these decisions.

The Personnel.

At each Federal Reserve bank the discount rate is initiated by its directors, in consultation with its officers. This rate, as I have said, is subject to the review and determination of the Federal Reserve Board. Let us take the personnel of the Board first. The Act provides that the Secretary of the Treasury and the Comptroller of the Currency shall be members ex-officio and that of its six appointed members not more than one shall come from any one Federal Reserve district. Also, that they must represent fairly the financial, agricultural, industrial and commercial interests of the country. The occupations of the present six appointees, before appointment, were banker, farmer, merchant, newspaper publisher, lawyer, economist—a widely diversified group.

Coming now to the nine directors which each Federal Reserve bank has, the member banks elect six of these, of which three *may* be bankers and three *must* be actively engaged in commerce, agriculture or industry in the district. The remaining three are appointed by the Federal Reserve Board. Of the 108 present directors of the 12 banks, 12 are the Chairmen of the Boards, men of banking experience devoting their entire time to the Reserve banks; 36 are active bankers, but many of them also engaged in business or agriculture, while the remaining 60, constituting the majority, at present have the following occupations: 19 manufacturers, 13 merchants, 4 farmers, 3 lumbermen, 3 insurance, 3 investment bankers, 3 retired business men, 2 publishers, 2 lawyers, 2 railroads, 1 contractor, 1 public utilities, 1 mining, 1 quarrying, 1 banker, 1 vacancy.

Here again the business directors of the banks are a widely diversified group, and comprise many of the leading men of the various districts. For example, the five business men on our Board in New York are:

William L. Saunders, Chairman Ingersoll-Rand Drill Co.
Clarence M. Woolley, Chairman American Radiator Co.
Samuel W. Reyburn, President Lord & Taylor.
Theodore F. Whitmarsh, President F. H. Leggett & Co., and
Owen D. Young, Chairman General Electric Co.

The same is true of the branch directors, whose jurisdiction in credit matters, however, is limited to passing on loans to member banks in the territories served by the branches.

In each of the twelve districts it is men of this type, the majority of them drawn from the district, familiar with its conditions and having its interests at heart, who are responsible for the management and control of the Reserve bank of the district and the loans it makes to the banks of the district.

Transactions in bankers' acceptances and short Government securities in the open market are co-ordinated through a committee of Reserve bank officers appointed by the Federal Reserve Board and acting under the approval and authority of the directors of those Reserve banks which may from time to time participate in such transactions.

The board of directors meets weekly, fortnightly or monthly, as the case may be, together with the Governor of the bank and some of its principal officers. In passing upon its lending and other relations with the member banks the philosophy of the Reserve bank is quite different from that of the commercial bank. There is no question of getting or retaining customers; there are no special arrangements for particular customers. The law specifically prohibits "discrimination in favor of or against any member bank." The smallest borrows at the same rate as the largest. In establishing the discount rate and making other decisions relating to credit, the directors have before them statistical information gathered by the Reserve Board and the Reserve banks which, when supplemented by their own active contacts, is perhaps as complete information about credit and business conditions as is anywhere available.

What Considerations Guide Policy?

What are the principles on the basis of which the directors approach decisions on Federal Reserve credit policy? The Federal Reserve Act says that discount rates shall be fixed "with the view of accommodating commerce and business." The Federal Reserve Board has laid down the principle "that the time, manner, character and volume of open market investments purchased by Federal Reserve banks be governed with primary regard to the accommodation of commerce and business and to the effect of such purchases or sales upon the general credit situation."

These are the considerations upon which in the light of the best available information credit policy is based. You will note that the earnings of the Reserve banks and the earnings of member banks are not among the considerations. The accommodation of business, using business in its largest sense, and the general credit situation, are the considerations.

The Gold Standard.

The past ten years, which measure the life of the Reserve banks, have been among the most abnormal, from a credit point of view, in the history of the world. Credit decisions have been most difficult to make. The first seven years were abnormal on account of the war and the readjustments which followed it. The last three years have been more normal, yet the constant inflow of gold has maintained an abnormal credit background. And through practically the entire ten years the free movement of gold has been suspended and the foreign exchanges have been unstable and depreciated. The absence of free international gold movements, which used to operate fairly automatically to balance credit disparities between the nations, has added greatly to the difficulties of the Reserve System in steadying credit conditions. Fluctuating and depressed exchanges have also added greatly to the difficulties of our commerce with other nations, increasing

the uncertainties and hazards, and decreasing the purchasing power of other countries, for our surplus foodstuffs and raw materials which they must buy and we must sell. Indeed, at no time since the armistice have our Governmental bodies, our bankers, our business men and our farmers ceased to urge the stabilization of the exchanges as an essential prerequisite to the development of our foreign trade.

Three weeks ago, however, the British Government took a step which goes a long way towards removing these difficulties and uncertainties. They announced on April 28 that a free gold market had been re-established in London.

The British Chancellor in the course of his announcement said:

"Our exchange with the United States for some time has been stable, and is at the moment buoyant. We have no immediate heavy commitments across the Atlantic. We have entered a period on both sides the Atlantic when political and economic stability seems to be more assured than it has been for some years. If this opportunity were missed it might not recur soon, and the whole finance of the country would be overloaded during that period by the important factor of uncertainty. Now is the appointed time."

This decision is momentous for them, for us and for the entire world. Momentous because it points clearly to the gradual resumption of the gold standard throughout the world. Equally momentous also because, as the Chancellor indicates, failure to take the decision would have pointed to a further unlimited period of unsettlement, uncertainty and impaired purchasing power abroad.

In connection with this decision, the Bank of England requested Federal Reserve co-operation in a material way. For the reasons I have just indicated, we welcomed an opportunity which combined assistance to the Bank of England, our agent and correspondent, with the discharge of our domestic responsibility to the general credit situation. We arranged, in conjunction with other Reserve banks, to place $200,000,000 gold at the disposal of the Bank of England for two years, if desired.

It is our hope that this may prove an effective aid towards general resumption of gold payments. And it is our belief that in no way could the System accommodate American commerce and business more thoroughly than by assisting such a general resumption.

Now, having quoted from a letter written by President Wilson just before the Reserve System was inaugurated, expressing his conception of what the System should be, may I close by quoting from a letter written by President Coolidge seven months ago, on the tenth anniversary of the System, and giving his view of the effect of the System's operations upon the monetary stability we have been discussing. The President said:

"That the business of the country has been able, after the disorganizing influences of war, to adjust itself so readily to the new conditions and prepare a sound basis for orderly development is due in no small measure to the stabilizing influence of the Federal Reserve System. While the credit and currency systems of many countries have remained since the war in a state of chaos and instability which is deadly to economic development, our own country has already made the necessary readjustments and reached a degree of strength and stability that insures healthful business expansion."

Dr. A. C. Miller of Federal Reserve Board Says United States, by Co-Operating with Great Britain's Efforts to Return to Gold Standard, Supplies "Constructive Factor of Greatest Consequence."

Discussing the return of Great Britain to the gold standard and the part played by the Federal Reserve bank in aiding in its maintenance through the $200,000,000 placed at the disposal of the Bank of England, Dr. A. C. Miller, of the Federal Reserve Board, says that "as the largest single holder of the world's stock of monetary gold we in the United States not only have an interest in the restoration of the gold standard, but a duty to assist in its restoration and maintenance wherever conditions give definite promise of success." He is further quoted as saying:

It is for this reason that our Federal Reserve banks have arranged to let the Bank of England have some of their gold, should it be needed by the Bank of England in the first stages of England's resumption of gold payments and the practices of a free gold market. It does not seem likely at this time that the Bank of England will have much or frequent occasion to draw on our gold supply, but past experience shows that difficulties may be encountered in the early stages of gold resumption, and that it is, therefore, inadvisable not to be prepared to meet them.

The Bank of England and the British Government have, therefore, acted wisely in arranging for American gold credits to be drawn upon in case of need. It was particularly thought advisable to have an American credit of impressive amount for the purpose of discouraging in advance and beating off and defeating any speculative drives that might be made by operators anywhere in the world against sterling exchange, if such drives should be attempted.

In addition to the foregoing, Dr. Miller's observations are given as follows in an Associated Press item in the Washington (D. C.) "Post" of May 24:

The part America and American financiers played in the restoration of the British gold standard and the placing of sterling exchange at virtually a gold par was described officially yesterday as being among the outstanding economic accomplishments of modern times, if not in all history.

By co-operating with Great Britain in her efforts to get back to a gold standard, the United States again supplied "a constructive factor of the greatest consequence in helping to place the economic and financial affairs of the world on a safe and solid basis," said Dr. A. C. Miller, Federal Reserve Board member and widely known economist.

Dr. Miller's views, with which Secretary Mellon is in entire accord, were contained in a statement in which he depicted at length the "heroic struggle" of nations throughout the world to get away from "managed currencies" and monetary disorganizations. In the case of England, he said, it has more than the mere technical significance of the approach of the pound sterling to a gold value of $4.866.

Most Important Step.

"It is one of the most important steps achieved since the armistice toward world economic restoration," he declared. "More even than that, it is an illuminating, gratifying sign of how far toward completion the whole process of post-war readjustment has run its course."

Since the armistice, Dr. Miller continued, agriculture, trade and industry in whatever country has been struggling against the handicap of disorganized currencies. He said the distraught mind of the people of the world was longing for a "normal" condition and to the Europeans that meant attainment of a gold-supported currency as the goal.

Attempts to take short cuts in violation of economic laws have been, as always, unsuccessful, he added. He praised those nations which hewed to the line and finally won a gold standard again for their money markets. England, Dr. Miller said, fought back from a low point of $3 19 as the value of its pound six years ago and by dogged persistence "sees her reward to-day in virtual achievement of par exchange."

Not Easily Exaggerated.

"The importance of this achievement," continued Dr. Miller, "whether it be looked at from the point of view of the world's interest or of our national American interest, cannot easily be exaggerated. The action recently taken by the British Parliament in ordering a restoration of the gold standard and the re-establishment of London as a free gold market was promptly followed by similar action in the self-governing Commonwealths of the British Empire and by countries in Europe that were awaiting England's decision.

"The result is that there are now only three of the larger nations—France, Italy and Russia—that have still to swing into line in making the gold standard practically universal and restoring it to the primary position it occupied before the war as an international regulator of money and exchange."

London was described by Dr. Miller as the most important of the world's free gold markets in pre-war days. Her position, he said, was unique and as a result the pound sterling attained a primary position as a monetary unit among trading nations.

"It is not too much to say," he added, "that the successful maintenance and the effective operation of the gold standard in pre-war days was due largely to the skill with which London conducted her banking and monetary affairs in maintaining a free gold market and thus buttressing the gold standard in other gold-using and gold-exchange-standard countries.

Aid to International Trade.

Dr. Miller is convinced that international trade and finance can be operated more safely as a result of the restored gold basis in so much of the world. He said that few things added more to the hazards of trade than a fluctuating exchange.

"The re-establishment of the pound sterling as a dependable monetary unit of international payment," he went on, "may, therefore, be expected to give substantial boost to international trade, from which we in the United States may expect to be great gainers.

"Every one in the United States, whether engaged in agriculture, commerce, industry or finance, will in time feel, though he may not be aware of it, the stimulation that will come with the restoration of the world's international machinery of exchange to the firm and secure basis of the gold standard.

Credit Will Be Loosened.

"It may also be expected that, with the removal of the dams which obstructed the natural flow of gold from country to country, credit will be loosened and afford stimulation in healthful and safe ways to trade among the nations and industry within them."

Dr. Miller feels that now is the time for America to establish a firm grip on her position as the world's greatest gold centre, yet, he explained that this country was unlikely to obtain the steadying influence of the gold standard on her affairs unless international gold flows resumed a normal course through the re-establishment of London as the next important free gold market.

With such an "undoubted and important interest at stake," Dr. Miller said, the United States "clearly has an interest in promoting and assisting in the re-establishment" of the gold standard in England.

Credit Here for England.

"And as the largest single holder of the world's stock of monetary gold," he continued, "we in the United States not only have an interest in the restoration of the gold standard, but a duty to assist in its restoration and maintenance wherever conditions give definite promise of success. It is for this reason that our Federal Reserve banks have arranged to let the Bank of England have some of their gold, should it be needed by the Bank of England in the first stages of England's resumption of gold payments and the practices of a free gold market."

Colonel Leonard P. Ayres, of Cleveland Trust Co., in Praise of the Federal Reserve System.

"Ten Years of the Federal Reserve System" was the title of an address delivered by Colonel Leonard P. Ayres, Vice-President of the Cleveland Trust Co., of Cleveland, O., before the Finance Group of the Chamber of Commerce of the United States in annual session in Washington last week. In referring to the Reserve System as having "substituted confidence for fear in the conduct of American business," Colonel Ayres said:

It has elimited financial panics. It has done away with the recurring need for syndicates of New York bankers to come to the rescue of the Federal treasury and the national credit as they used to do under the leadership of Mr. Morgan in times of panic. In mobilizing the credit of the country, and instituting a flexible currency the Federal Reserve system constitutes an instrumentality of National Defense more valuable in time of war emergency than a great and well trained standing army.

From "Finance and Industry" of Cleveland we take the following with reference to Colonel Ayres's address:

Illustrating his remarks by means of a series of charts showing business conditions over the past 35 years, Colonel Ayres described the sudden and disastrous results of the frequently recurring money stringencies that occurred in this country during the quarter century before the new system was inaugurated.

"In 1890" he said the failure of the Baring Brothers bank in England resulted in a panic and depression in this country because our financial system was then too rigid to withstand the unexpected strain, although in England where the direct results were far more serious, no panic occurred.

"Three years later, at the end of a period of great prosperity, the demands for credit suddenly became greater than the banks could meet, and the result was the panic of 1893 which caused the failure of hundreds of banks and businesses, and was said by Senator Aldrich to have cost the country more than the combined expense of all the wars this country had been engaged in up to that time.

"Two years after that the uneasiness occasioned by President Cleveland's Venezuela message caused interior banks to withdraw funds from New York

with the result that interest rates on call loans rose to 100%. Four years after that another period of prosperity resulted in greater temporary demands for credit than the inelastic financial system could extend, and interest rates suddenly rose to 186%, only to fall back to 2% on the following day.

"Four years later in 1903 came the socalled Rich Man's panic when the credit supply proved insufficient to meet the needs of prosperous and expanding business, and in that year a great and strong industrial corporation was forced to pay $1,000,000 to secure a credit of $6,000,000. Only 4 years later, in 1907, came the last of the great money panics. By that time this country had become so rich that we had more gold than any other country in the world, but because there existed no method for bringing it together in the form of centralized bank reserves there developed a great scarcity of currency, and millions of dollars of illegal substitute had to be issued.

"During these years the interest rates on the business man's money in the form of commercial paper averaged 30% higher if the credit was extended for 4 to 6 months than it did on 2 to 3 months paper, because the hazard of loaning as much as 6 months ahead was much greater than if the credit was for only 3 months. Every autumn interest rates rose sharply with the demand for funds to move the crops and to finance holiday trade, only to fall again in the winter, and to shoot up again in the spring as planting and new building got under way. Business men regularly planned for these sharp seasonal swings, but the farmers were usually powerless to protect themselves against them. Since the establishment of the Federal Reserve system these seasonal swings of interest rates have been almost eliminated."

Advisory Council to Federal Reserve Board Approves Revolving Credit of $200,000,000 Placed at Disposal of Bank of England by Reserve Banks—Return of Great Britain to Gold Standard.

Approval of the recent arrangement between the Federal Reserve banks and the Bank of England, whereby a revolving credit of $200,000,000 was placed at the disposal of the latter, was recorded by the Federal Advisory Council to the Federal Reserve Board at a meeting held in Washington on May 22, the Council declaring that in its view the arrangements "will benefit not only the two countries directly involved, but will inure to the advantage of the entire world." The Council expresses itself as "confident that in the annals of the Federal Reserve System these arrangements will be written down as one of its proudest and most constructive achievements." Stating that "we may now envisage with equanimity the possibility of an outgo of hundreds of millions of dollars of our surplus gold," the Council adds that "the same process that enabled us to deprive the inflow of gold of its potential ill effects places us now in a position to lose vast amounts of it without entailing the necessity of a marked contraction of circulation or of forced deflation." Both this credit and the $100,000,000 additional which the British Government arranged with J. P. Morgan & Co. at the same time were advanced with a view to aiding in the re-establishment of a free gold market in London; which the Council describes as an event which "marks an epoch in the financial history of the post-war period." The Council in picturing "what might have happened had England decided to continue the embargo on gold exports instead of restoring a free gold market," says:

It would not seem an overstatement to assume that in such a case the world might have suffered another exchange collapse with all the uncertainty to trade which that implies; that private and public credit in foreign lands would have been impaired and that instead of making efforts to balance budgets by taxation, the temptation for debasement of currencies in many countries would have continued indefinitely. In such circumstances true wages, and with that, living standards, in competing countries would have been further reduced. . . . And it is safe to conclude that we ourselves could not have escaped the effects of such a development which, among other things, would have involved a further great addition to our gold holdings.

The Council's statement was made public as follows on May 25:

A regular statutory meeting of the Advisory Council to the Federal Reserve Board was held in Washington on Friday, May 22, at which the various Federal Reserve districts were represented. General business and financial conditions throughout the country were discussed, as well as the recent arrangements between the Federal Reserve banks and the Bank of England regarding a revolving credit to the latter institution of $200,000,000. In this connection, the Council issued the following statement:

"Since the last meeting of the Advisory Council Great Britain has taken the long-expected step of removing the embargo on the exportation of gold, and by re-establishing a free gold market in London, has once more anchored herself unreservedly to the gold standard.

"This event marks an epoch in the financial history of the post-war period. It means that the time has definitely come to an end when the world seemed to waver between monetary systems frankly bottomed upon gold on the one hand and fluctuating exchanges and so-called "managed currencies" on the other. With the United States, England, the Dominions, Sweden, Holland, Germany, Austria, Hungary and other countries now returned to a gold basis, or to gold exchange bases, the sway of gold over the world's leading financial systems once more has become an unchallenged fact.

For the United States this development is of the vastest importance. First, because we own approximately one-half of the world's monetary gold; second, because in order to preserve for ourselves conditions of a well-balanced prosperity, foreign markets absorbing our surplus production are an imperative necessity, and it is idle to expect that without exchange stability the purchasing power of foreign countries may regain its full capacity; third, in present world conditions the sale of our vast excess production to foreign buyers can only be maintained on anything like the present scale as long as we continue freely to absorb foreign securities. Our ability to do so, however, will depend upon the degree of credit these foreign countries will command here. We have, therefore, a vital interest in seeing the credit of our customers placed on the strongest possible basis.

"While it would seem unnecessary to add to the weight of these three points, a true picture of the outlook is gained only if one considers what might have happened had England decided to continue the embargo on gold exports instead of restoring a free gold market. It would not seem an overstatement to assume that in such a case the world might have suffered another exchange collapse with all the uncertainty of trade which that implies; that private and public credit in foreign lands would have been impaired and that instead of making efforts to balance budgets by taxation, the temptation for debasement of currencies in many countries would have continued indefinitely. In such circumstances true wages, and with that, living standards, in competing countries would have been further reduced. We are familiar with the social consequences that would result from such conditions, and it is safe to conclude that we ourselves could not have escaped the effects of such a development which, amongst other things, would have involved a further great addition to our gold holdings.

"The Advisory Council, with these thoughts in mind, has over and over again expressed the view that America should take every opportunity that consistently and safely could be grasped to aid foreign countries in their struggles towards regaining exchange stability and that when the time came to do so with confidence and safety, the Federal Reserve System should do its part.

"It is with the deepest satisfaction, therefore, that the Council has noted the arrangements now made, with the approval of the Federal Reserve Board, between the Bank of England, on the one hand, and the several Federal Reserve banks under the auspices of the Federal Reserve Bank of New York, on the other.

"These arrangements in the view of the Council will benefit not only the two countries directly involved, but they will enure to the advantage of the entire world. The Council feels confident that in the annals of the Federal Reserve System these arrangements will be written down as one of its proudest and most constructive achievements.

"It is an impressive demonstration of the efficiency of the Federal Reserve Act, as at present constituted, that we are able to render assistance on a liberal scale without fear of adverse effect upon our own financial conditions.

"Concentration of reserves and an elastic note issue planned on broad lines enabled us during these last years to absorb a flood of gold in such a manner as to deprive it of the inflationary effects which some of our European friends had expected it inevitably would produce. Conversely, we may now envisage with equanimity the possibility of an outgo of hundreds of millions of dollars of our surplus gold. The same process that enabled us to deprive the inflow of gold of its potential ill effects places us now in a position to lose vast amounts of it without entailing the necessity of a marked contraction of circulation or of forced deflation."

Items regarding the credits appeared in these columns May 2, page 2217, and May 9, page 2356.

London Credit Is Called "Gold Sale"—Term "Credit" Misapplied, Reserve Board View—Transactions Under Credit to Appear in Weekly Statement of Reserve Board.

The New York "Journal of Commerce" on May 26 printed the following from its Washington bureau relative to the $200,000,000 placed at the disposal of the Bank of England by the Federal Reserve Bank of New York:

The Federal Reserve Board, it was learned to-day, is preparing to break its official silence with respect to the $200,000,000 gold credit arranged with the Bank of England by the Reserve banks and, following the example of the Federal Advisory Council, will issue a formal statement approving the extension of aid to Great Britain in that country's return to the gold standard.

The forthcoming issue of the "Federal Reserve Bulletin," due about June 1, is to contain a comprehensive discussion of the British gold credit from the standpoint of the Board.

This action by the Board is expected to dispel any confusion which may have arisen as to the policy of the Federal Reserve Board with respect to the steps taken by the Reserve Bank of New York to facilitate the resumption of gold payments by England and to clarify the public understandnig as to just how the arrangement will operate. Criticisms of the British credit from the viewpoint of the legal scope of Reserve bank activities will also be answered by the Board.

Silence maintained by the Federal Reserve Board thus far with respect to the British credit has been necessitated, it is contended, by the fact that until the actual return to a gold basis was accomplished by Great Britain the Board could not, with propriety, discuss the subject. Even the announcement by the British Chancellor was not considered sufficient, the Board feeling that it must wait for the change in the British law before it could authorize a statement.

All Reserve Banks to Aid.

Full discussion of the subject by the Board, however, is expected to dissipate rumors that have been in circulation that the Board itself was not working hand in hand with the Federal Reserve Bank of New York in making the arrangements for the credit.

The Board considers the British credit as an arrangement between all the Federal Reserve banks and the Bank of England and, in the event the latter institution takes advantage of the facilities offered, all of the Reserve banks will participate in the transactions under the uniform open market policy of the Federal Reserve System.

The Board's statement, moreover, is counted upon to disabuse the public mind of the idea that a credit has been arranged with England, that term being regarded as a misnomer, but used by the British Chancellor in announcing the arrangement for want of any other as descriptive.

The so-called British credit is viewed by the Board as an agreement on the part of the Reserve System to sell gold to the Bank of England up to a total of $200,000,000 any time within two years, payment to be made by the Bank of England at the expiration of two years, in gold. This removes the question of exchange fluctuations from consideration in the transaction.

Advances to Be Reported.

The revolving feature of the arrangement provides that the Bank of England may either call for the maintenance of Reserve bank balances in London, or it may tender 90-day sterling bills of exchange in return for gold. In the latter case the sterling bills, being two-name paper, are eligible for rediscount by the Reserve banks and can be replaced at maturity by new paper of similar character until the end of the two-year period.

Furthermore, it is the intention of the Reserve Board to report promptly all transactions between the Reserve banks and the Bank of England under the so-called credit. If Great Britain should find it necessary to actually make use of American aid the weekly statement issued by the Federal Reserve Board on conditions of the Reserve banks is to show either the increases

in balances held abroad or purchases of sterling bills. The Board, it is understood, is anxious to remove all mystery from the financial arrangement with the Bank of England.

Lynn P. Talley Elected President Federal Reserve Bank of Dailas, Succeeding B. A. McKinney, Resigned—Other Changes.

Lynn P. Talley has been elected to succeed B. A. McKinney, resigned, as Governor of the Federal Reserve Bank of Dallas. Mr. Talley, who prior to his present appointment, had been connected with the Reserve Bank of Dallas as Class C Director Federal Reserve Agent and Chairman of the Board, will assume his new duties June 1. The resignation of Mr. McKinney as Governor, to become Vice-President of the American Exchange Nat'l Bank of Dallas, was noted in our issue of May 9, page 2362. At the same time we reported the resignation of Val J. Grund as Deputy Governor.

R. B. Coleman, who had been cashier of the Reserve Bank, has been chosen to succeed Mr. Grund as Deputy Governor, and Fred Harris, Managing Director of the Houston branch of the Dallas Federal Reserve Bank, replaces Mr. Coleman as cashier. Dwight P. Reordan, Managing Director of the El Paso branch of the Bank, has been elected as managing director of the Houston branch. M. Crump, Cashier of the El Paso branch, becomes managing director of that branch and Allen Sales, Assistant Cashier at El Paso, succeeds Mr. Crump as Cashier.

New Treasury Issue Planned—Notice Issued by Federal Reserve Bank of New York.

A new Treasury offering to meet $400,000,000 Treasury Notes maturing June 15 is planned by the Treasury Department, and while no announcement as to the nature of the financing, or the amount of the offering has been made, the Federal Reserve Bank of New York, in anticipation of the new issue, in a preliminary notice to member banks under date of May 27, called attention to the methods of filing subscriptions, in which it said in part:

From advices received from the Treasury Department of the United States, we are enabled to transmit to you the following information:

1. That a Treasury offering may be expected shortly.

2. That the subscription books may be closed by the Treasury without advance notice, and therefore,

3. That each subscribing bank, upon receipt of information as to the terms of the Treasury offering (either in the press, through the mails or by telegram) should promptly file with the Federal Reserve Bank any subscriptions for itself and its customers. This is important, as no guarantee can be given as to the period the subscription books may remain open, and subscribing banks, even before receipt of official subscription blanks, may file their subscriptions by telegram or by mail with the Federal Reserve Bank. Any subscriptions so filed by telegram or mail in advance of receipt by subscribing bank of subscription blanks furnished for the particular issue should be confirmed immediately by mail, and on the blank provided, when such blank shall have been received.

4. That if the terms of the offering when announced provide for both cash subscriptions and subscriptions for which payment may be tendered in other securities, the subscribing bank should prepare its subscriptions in such manner as to indicate the method by which it proposes to make payment and the respective par amounts of securities, if any, to be tendered in payment.

Observance of Flag Day, June 14, Urged by C. A. Pugsley of American Flag Association.

At a luncheon of the officers of the American Flag Association at the New York Chamber of Commerce on May 8, Cornelius A. Pugsley, President of the American Flag Association, offered the following proclamation for the observance of Flag Day, June 14, which was approved and directed to be published and copies sent to Governors of the several States and Mayors of cities:

We celebrate this year the 150th anniversary of the beginning of the struggle which led to the birth of our nation and national flag. In that century and a half the Republic has grown from 13 struggling colonies on the Atlantic coast to a mighty nation of 48 States, reaching from ocean to ocean with island possessions in the Atlantic and Pacific.

With those against whom we battled in the past, we have marched shoulder to shoulder in a war for the preservation of that democracy for which our young republic first stood.

With pride in the past and in our present, and with hopes for greater achievements in the future for the betterment of all peoples, let our citizens unfurl on Flag Day, June 14, the Stars and Stripes that stand and will ever stand, we hope, for the high ideals which animated the founders of the republic.

The American Flag Association was established 27 years ago, and has accomplished much in the way of securing flag legislation for the protection and honoring of our flag. It has secured flag laws in 36 States of the Union and has corrected many abuses in the use of the flag commercially and otherwise. At the luncheon on May 8 the following were present: Col. Henry W. Sackett, Col. Louis Annin Ames, General Oliver B. Bridgeman, Cornelius A. Pugsley, Dr. Edward Hagaman Hall, Col. Henry L. Swords, Major W. I. L. Adams, Clarence E. Leonard, and Pitt P. Hand of New York.

United States Supreme Court Upholds Publication by Newspapers of Income Tax Returns.

The right of newspapers to publish income tax returns was upheld by the United States Supreme Court in a unanimous decision rendered May 25. The decision, handed down by Associate Justice Sutherland in the proceedings against the Kansas City "Journal-Post," held that "information which everybody is at liberty to acquire and the acquisition of which Congress seemed especially desirous of facilitating in the absence of some clear and positive provision to the contrary, cannot be regarded otherwise than as public property, to be passed on to others as freely as the possessors of it may choose. The contrary view requires a very dry and literal reading of the statute quite inconsistent with its legislative history and the known and declared objects of its framers." The Court also said:

Whatever one's opinion may be in respect of its wisdom, the policy of publicity having been adopted as an aid to the enforcement of the revenue laws or to the accomplishment of some other object deemed important, it is not easy to conclude that Congress nevertheless intended to exclude and severely to penalize the effective form of secondary publicity now under consideration.

The Court pointed out that "something is said in the briefs and was said at the bar, as to the wisdom, on the one hand, of secrecy, and, on the other hand, of publicity, in respect to tax returns." Continuing it said:

But that is a matter addressed to the discretion of the lawmaking department, with which the courts are not concerned, so long as no constitutional right or privilege of the taxpayer is invaded; and there is no contention that there is any such invasion here, whichever view may be adopted. The problem, therefore, is, primarily, one of statutory construction, the disposition of which will determine whether the constitutional question as to the freedom of the press needs to be considered. For the purposes of the inquiry, we assume the power of Congress to forbid or to allow such publication, as in the judgment of that body the public interest may require.

Reviewing the acts of Congress in the matter of inspection and publicity of returns, the Court referred to the gradual loosening up of the restrictions, and in its conclusions regarding the provisions carried in the Revenue Act of 1924 said:

The Congressional proceeding and debates and the reports of the conferees on the disagreeing votes of the two houses, which we have examined but think it unnecessary to review, strongly confirm our conclusion that Congress, understanding that the limitation would apply, intended to open the information contained in the lists to full publicity.

As a result, we hold that, to the extent provided by Section 257 (b), Congress meant to abandon the policy of secrecy altogether and to exclude from the operation of Section 3167 all forms of publicity, including that herein questioned.

The decision in full follows:

An indictment was returned in the court below charging defendants in error as owner-editor and managing editor of several newspapers published at Kansas City, Mo., with printing and publishing therein parts of certain designated Federal income tax returns, showing the names of the taxpayers and the amounts of their income taxes. Demurrers were interposed to the indictment upon the ground that the facts set forth were not sufficient in law to charge any crime against the defendants, because the information so published was open to public inspection, constituted a public record available to the general public, and, consequently, was proper matter for news publication, and that if any statute attempted to forbid or penalize such publication is contravened the First Amendment to the Federal Constitution, which prohibits Congress from making any law abridging the freedom of speech or of the press. The court below sustained the demurrers and dismissed the indictment. 3 Fed. Rep. (2D) 190.

The indictment is drawn under that part of Section 1010 of the Revenue Act of June 2 1924, C. 234, Stat. 253, 344-346, which re-enacts R. S. Sec. 3167, copied in the margin. Section 257 (b) of the same Act, 43 Stat. 293, provides:

"The Commissioner shall as soon as practicable in each year cause to be prepared and made available to public inspection in such manner as he may determine, in the office of the Collector in each internal revenue district and in such other places as he may determine, lists containing the name and postoffice address of each person making an income tax return in such district, together with the amount of the income tax paid by such person."

Prohibition Against Publication.

The prohibition against publication contained in Sec. 3167, it will be seen, is not absolute, but subject to possible qualification by other provisions of law. The language is that it shall be unlawful to print or publish in any manner "not provided by law" any income return or any part thereof, etc. On behalf of defendants in error, it is contended that Section 257 (b) affects such a qualification. To this the Government replies that the extent to which that provision goes is to authorize the Commissioner of Internal Revenue to make available for public inspection lists showing names of taxpayers and amounts of taxes paid by them, and that this falls short of authorizing the printing and publishing of the information contained in the lists.

Something is said in the briefs, and was said at the bar, as to the wisdom, on the one hand, of secrecy, and, on the other hand, of publicity, in respect to tax returns. But that is a matter addressed to the discretion of the lawmaking department, with which the courts are not concerned, so long as no constitutional right or privilege of the taxpayer is invaded; and there is no contention that there is any such invasion here, whichever view may be adopted. The problem, therefore, is, primarily, one of statutory construction, the disposition of which will determine whether the constitutional question as to the freedom of the press needs to be considered. For the purposes of the inquiry, we assume the power of Congress to forbid or to allow such publication, as in the judgment of that body the public interest may require.

The Commissioner is directed to make the lists of taxpayers and taxes paid available for public inspection in the office of the Collector and elsewhere as he may determine. His discretion in that respect is limited only by his own sense of what is wise and expedient. And the inquiry at once suggests itself: To what end is this discretion, so vested in him, to be exercised? The obvious answer is: To the end that the names and addresses

of the taxpayers and the amounts paid by them may be generally known. To the extent of the information authorized to be put into the lists, this is the manifest policy of the statute, with which the application of Section 3167 to the present case, it fairly may be argued, will be out of harmony.

Intent of Congress.

Whatever one's opinion may be in respect of its wisdom, the policy of publicity having been adopted as an aid to the enforcement of the revenue laws or to the accomplishment of some other object deemed important, it is not easy to conclude that Congress nevertheless intended to exclude and severely to penalize the effective form of secondary publicity now under consideration. Information which everybody is at liberty to acquire and the acquisition of which Congress seemed especially desirous of facilitating in the absence of some clear and positive provision to the contrary, cannot be regarded as otherwise than as public property, to be passed on to others as freely as the possessors of it may choose. The contrary view requires a very dry and literal reading of the statute quite inconsistent with its legislative history and the known and declared objects of its framers.

Prior to the adoption of the Sixteenth Amendment the policy in respect to tax publicity, as evidenced by Congressional legislation, had not been uniform. Generally, the earlier Acts had been liberal and later ones restrictive in character. Section 3167 RS first appeared in substantially its present form in the Act of Aug. 27 1894, Section 34, c. 349, 28 statutes, 509, 557. It was re-enacted by the Revenue Acts of 1913, 1916, 1919 and 1921, and by the existing Act of1924. The Act of 1913, c. 16, 38 statutes, 177, provided that tax returns should be open to inspection only upon order of the President, but allowed State officers under certain conditions to have access to the returns showing the names and incomes of corporations, etc.

The Act of 1919, Section 257, c. 18, 40 statutes, 1086, in addition to this, allowed stockholders of any corporation to examine its returns upon conditions therein stated. That Act further provided (p. 1087) that the Commissioner should cause to be prepared and made available to public inspection, etc., "lists containing the names and the postoffice addresses of all individuals making income tax returns in such district"; and this was expanded by the present law, Section 257 (b), Act of 1924, to include the amount of the income tax paid.

It is significant that, while these progressively liberal publicity amendments were being made, Section 3167—to the general rule of which they were in terms opposed—was carried along by re-enactment without change, plainly indicating that, in the opinion of Congress, by the application of the qualifying clause "not provided by law," the scope of the general rule against publication would become automatically narrowed to the extent of the liberalizing exceptions. The Congressional proceedings and debates and the reports of the conferees on the disagreeing votes of the two houses, which we have examined but think it unnecessary to review, strongly confirm our conclusion that Congress, understanding that the limitation would apply, intended to open the information contained in the lists to full publicity.

As a result, we hold that, to the extent provided by Section 257 (b), Congress meant to abandon the policy of secrecy altogether and to exclude from the operation of Section 3167 all forms of publicity, including that here inquestioned. Judgment affirmed.

As we have heretofore pointed out, indictments were found against the newspapers in test cases to determine the validity of the conflicting provisions of the income tax publicity clauses of the Revenue Act of 1924. In addition to the Kansas City "Journal-Post," these papers were the Baltimore "Daily Post" and the New York "Herald Tribune." The latter on May 26, referring to the conclusions of the Supreme Court in the case of the Kansas City "Journal-Post" says:

The court thus sustained the newspapers, including the New York "Herald Tribune," against which the Government proceeded for the publication of income tax payments listed in 1924.

The case of the Baltimore "Post" was decided favorably to the newspaper on the basis of the Kansas City "Journal-Post" decision.

The indictment against the Baltimore "Daily Post" was referred to in these columns Nov. 22 1924, page 2371, and in our reference to this and the other two cases Dec. 20 1924 (page 2831), we said in part:

On Nov. 25 the New York Tribune, Inc., owner of the New York "Herald Tribune," was indicted by the United States Grand Jury on three counts, charging the unlawful printing and publishing of three income tax returns. On the same date Walter S. Dickey, owner and publisher of the Kansas City "Journal-Post," and Ralph Ellis, Managing Editor, were indicted by a Federal Grand Jury at Kansas City for alleged unlawful publication of income tax returns. These last named proceedings have been taken to the United States Supreme Court on an appeal from the ruling on Dec. 2 of Federal Judge Albert L. Reeves at Kansas City, Mo., who held that the publication of the returns did not constitute a violation of the provision in the Act making it "unlawful for any person to print or publish in any manner whatever not provided by law any return or any part thereof, or source of income, profits, losses or expenditures appearing in any income return." The publication in question, he said, did not violate this provision, since the list from which publication was made was "separate and apart from the return and may have been different from the return or it may have checked against a single item not including the name of the taxpayer in the return." In the action against the Baltimore "Daily Post," Federal Judge Soper at Baltimore sustained on Dec. 16 the demurrer to the indictment. . . .

In the proceedings against the New York Tribune, Inc., a jury in the United States District Court on Dec. 9 returned a verdict of not guilty, the verdict being rendered at the direction of Judge John C. Knox, who, according to the "Herald Tribune" of the 10th inst., held that under a proper construction of the publicity provisions of the last Revenue Act of Congress it is not unlawful for newspapers to publish the figures opened to public inspection at the Collectors' offices in October.

On Dec. 10 a new indictment was returned by the Federal Grand Jury against the New York Tribune, Inc., charging unlawful publication of income tax returns. This was done with a view to getting a Supreme Court ruling on this and other test suits. . . .

The second indictment—that of the 10th—was quashed the following day (the 12th) by Judge Knox, who in his findings of that day said: "I am of the opinion that the defendant has not transgressed the law and that this indictment will not properly lie."

We learn from the attorneys representing the "Herald Tribune" that the Government took no appeal to the United States Supreme Court in their case.

In our issue of May 16 1925 (page 2504) we made mention of the decision on May 4 of the District of Columbia Court of Appeals in which it was held that Congress had the constitutional authority to enact the provision in the Revenue Act for the publicity of income tax returns.

While President Coolidge and Secretary of the Treasury Mellon were this week following the decision of the Supreme Court, reported as favoring repeal of the publicity provisions of the Revenue Act, certain Senators were quoted as indicating that the publicity features would be retained. From the New York "Evening Post" of May 26 we take the following from its Washington dispatch:

The question of publiciity of income tax payments has been thrown back on Congress by the decision of the Supreme Court upholding validity of the publicity provisions of the Revenue Act and legality of the action of two newspapers which printed names and amounts last year.

It was made clear the President and Secretary Mellon feel so strongly about the matter they would recommend repeal of the publicity clause in December and apply Administration pressure for support of their policy.

In the meantime, the Treasury Department will be guided in procedure entirely by the text of the decision, which was read by Associate Justice Sutherland.

In its Washington advices May 26 the New York "Times" said:

The decision of the Supreme Court, handed down yesterday, that newspapers have the right to publish the income tax lists apparently has strengthened the position of the Senators who favor such publicity, and those now in Washington declare that not only will the law not be repealed, but probably it will be made more sweeping.

"All this talk about repealing the publciity clause amounts to nothing," said Senator King, of Utah, a member of the Finance Committee. "The clause is not going to be repealed, but it probably will be clarified where necessary and even more publicity than is now the case authorized. The States have tax publicity, and it's silly to argue that the same thing should not apply to the Federal Government."

Senators Borah and Couzens also made it plain that they will oppose any effort to repeal or modify the present publicity clause. Senator Borah said he was certain any movement to repeal the clause would be futile, and if such a move was made he would fight it. This is also the attitude of Senator Couzens, who is Chairman of the committee investigating the tax units of the Treasury Department.

Senator Norris, of Nebraska, author of the publicity clause, is said to be highly gratified over the Supreme Court's decision and will fight any move to eliminate the publicity feature. It is said he may offer an amendment to the next tax bill to make the clause more far-reaching.

Senator King, discussing possible tax legislation in the next Congress, declared himself in favor of a reduction of income and corporation taxes and the surtax rates.

"I am working on a bill which I will offer as an amendment to the tax bill which comes from the House," said Senator King, "and in this bill I will urge a reduction of at least $500,000,000 in the national tax burden. I am in favor of a further reduction in the income tax rates, and also a reduction in the corporation rates, as well as a reduction of the surtaxes. Speaking for myself alone, I don't see why we can't make a cut of $750,000,000. The minimum, so far as I am concerned, is half a billion."

Senator King probably will go to Europe soon to study the tax systems in England and some of the Continental nations.

Associated Press advices from Washington, May 25, had the following to say:

Acting on the court finding the Bureau of Internal Revenue immediately began consideration of plans for a simultaneous release of the current records for public inspection throughout the country, but Commissioner Blair was of the opinion that they could not be made available until after July 1.

It was explained at the Bureau that the actual work of transcribing the accounts was far from complete in all Collectors' offices, and that the policy was to withhold them until headquarters officials had made their final check-up of the returns. Every effort will be made, officials asserted, to speed up completion of the official register which the public is permitted to see.

Former Secretary of State Hughes Urges World Peace Through Codification of International Law.

Former Secretary of State Hughes, addressing as President, the American Society of International Law, at Washington on April 23 urged the clarification and codification of international law with a view to effecting world peace. Mr. Hughes in advocating conferences of the civilized Nations "in which the sole purpose is to perfect the law and the institutions of the law" said:

To emphasize the importance of international conferences of this character is not to disparage others. Limited conferences may be not only of great value and necessary to the Powers concerned, but through their success in dealing with special problems may confer general benefits upon the world.

He added:

We fully recognize that important as is the development of what we call American international law—and this should be promoted without delay—helpful as our Pan-American Conferences may be, we cannot be content until appropriate plans are made to restate, amend and enlarge the universal law, and this, as I have said, should be accomplished through conferences, embracing all civilized nations treating international law as obligatory and meeting each other on an equal footing.

It may be added that the Government of the United States has always welcomed such conferences as our attitude toward the conferences at The Hague abundantly shows. It should be apparent that the controversy over the Covenant of the League of Nations involved no hostility to international conferences, or to their organization with machinery for continuity, with suitable inquiries and reports pending meetings, but to the assumption of certain obligations in the Covenant of the League to which preponderant opinion here was opposed.

Mr. Hughes stated that "the suggestion that an international court should await the development of international law is of that academic character which puts hurdles in the

way of progress. As we need various sorts of arrangements to promote peace, we require different kinds of instrumentalities to develop the law, and especially should we have the continuous functioning of the Permanent Court of International Justice." In part he also said:

We can be under no misapprehension as to the conditions in which this task is to be accomplished. The consent of nations must be had and this must be obtained from governments faced with political exigencies—more than ever, under democratic organization engaged in the primary and essential struggle for survival; Governments that are small and can attempt little; coalition governments that can promise little; small Powers that are ineffective; great Powers which find projects of interest all absorbing. Foreign Offices are overwhelmed with work and the responsible agencies of foreign intercourse have scant opportunity to consider anything but the insistent demands of each day, which consume all available time and exhaust the stores of nervous energy. For example, it is safe to say that in our own country the work of the Department of State is three times what it was in the halcyon days before the war.

The mere extent of the cares of foreign offices and the limits of human capacity account for much of the inability to get ahead with the solution of problems. When, as is usual, the approval of legislative assemblies must be had, the obstacles raised by the distribution of responsibility, the unavoidable differences in points of view, the precedence of measures dealing with domestic demands, the opportunities for obstruction, inevitably appear, and the wonder is not the poverty but the extent of achievement. The greatest difficulty exists when the driving power of aroused public sentiment is absent, and the general public, keen for national interests, are disposed to look at the international arena as the place where victories are to be won for themselves and are little disposed to be concerned with the unspectacular efforts of their representatives to buttress international justice. Still, the development of international law through codification cannot be had without the favorable action of foreign offices and national legislatures, and our problem is how to stimulate effective cooperative endeavor, how to assure both deliberation and purpose. And it must always be borne in mind by our lay friends, who are intent upon the immediate perfecting and declaring of international law, even in the most extreme applications which their paper programs demand, that it is agreement we are seeking on the part of States which according to our fundamental postulate we must recognize as independent and equal before the law; the general accord, if not absolute unanimity, which must characterize the recognition or assumption of international obligations.

United States Can Work With League.

In realtion to the legislative processes of conferences initiated by the League to devise rules on various subjects of general concern, there has been a disposition to find a way, conformable to American opinion and to our constitutional system, in which the United States could appropriately collaborate as an independent State in the promotion of humanitarian measures, the correction of evils which can be dealt with adequately only by community of action, and the development of new or improved rules upon particular matters to which we have direct relation.

When the nations are ready to take up the development of the universal law, it should not be difficult, with the experience of The Hague conferences, to devise methods facilitating and insuring the full participation on an equal basis of all States who welcome the reign of law. This would be essentially a separate undertaking from regional plans, from the limited conferences of particular Powers or groups of Powers, from the promotion of special agreements, such as the limitation of armament, however desirable these may be from the standpoint of particular interests or the general peace.

There is another way of developing international law in addition to the direct legislative processes, and that is through international judicial institutions. It is said frequently, and with cogency, that we need an improved body of law to be applied by an international court. There are too many gaps in the law, where decision must fail for want of principles and rules commanding the necessary acceptance, to permit the denial of the importance of direct legislative procedure.

Much that is said on this subject has immediate bearing on programs for obligatory arbitration. It may, indeed, be fanciful to suppose that independent States having the power and disposition to determine their own policies will bind themselves to submit generally questions which may arise outside the law and treaties, to the decision of others—where there is no recognized standard of law or justice, but simply a conflict of interests. It may not be too much to hope, however, that in the domain of law, and as to the interpretation of agreements, where there are accepted standards to be applied, nations will ultimately be willing to obligate themselves in advance to submit to a judicial settlement.

The reservations such as those made in our own arbitration treaties in relation to the submission of legal questions may be taken to show a fear as to the standards to be applied, and as to the impartiality of decision, rather than a reluctance to have an appropriate settlement, according to law. In practice, the United States does not refuse arbitration of justiciable questions, but when a treaty for obligatory arbitration is proposed, imagination has conjured up every possibility, and the fact that international law has not yet been formulated adequately has undoubtedly retarded and will continue to retard the movement for the obligatory arbitration of questions which in their nature are justiciable.

According to the New York "Times" the ex-Secretary of State referring to the Geneva protocol said:

No one would profess to favor aggressive and unjust war, but the difficulty has been to define aggression. Progress has been made by emphasizing the thought that war begun after refusal to submit a justiciable controversy to appropriate determination is an aggressive war. But what of controversies that are of a different sort; that lie beyond the range of the application of treaties and the accepted principles and rules of the law? It may be easy to say that in such matters aggression shall consist of defiance of the will or judgment of a group of other Powers. It might be difficult, however, to make such an arrangement work even if assent to it could initially be obtained. When the question in issue does not grow out of specific agreements or involve the breach of the accepted obligations of the law, when there is a conflict within the sphere of policy, the concert of Powers which makes possible the contemplated sanctions of force is not likely to be had.

Small Powers, if their cases present minor or isolate interests, may be disciplined But major problems and the interests which give rise to them divide not only the Powers immediately concerned, but other Powers according to their conceptions, not of law, but of national advantage, not of principle, but of expediency The notion that great Powers with conflicting interests may be disciplined in this way would seem to be a chimera. If any group of Powers may be privileged to decide as to such conflicts, understandings will inevitably be sought in order to afford protection against the day of decision, and we return to the old instinctive process of self-protection through balance of power.

Secretary of Commerce Hoover Warns of Rubber Shortage by 1928 or 1930 as Result of Falling Off in Planting—Abandonment of British Restrictions Urged—Extra Profits Sufficient to Cover Debt to United States.

Warning that a falling off in rubber plantation is likely to create a real rubber shortage is contained in a foreword by Secretary of Commerce Hoover to a report of an investigation into rubber production undertaken at the instance of Secretary Hoover, and made public May 25. The inquiry, it is stated, was conducted with a view to meeting the pressure for information from the rubber industry in view of recent sharp price increases. It is pointed out that crude rubber sold as low as 17c. a pound in 1924, reached 46c. last January, and is now fluctuating between 60 and 70 on nervous markets, while the world's visible stocks are disappearing and exchange prices of English plantation company shares are soaring. The United States, with three great industries concerned—petroleum, automobile and rubber goods manufacture—is particularly interested in the situation because its consumption is 70% of the world's total output. Secretary Hoover in his foreword to the report expresses no opinion as to whether the British Government's restriction on production in the English colonies was responsible for the great price advance. The Associated Press accounts of the report state:

One of the American objectives, he indicated, should be to "find means to stimulate competitive production" in other tropical areas of the world.

"The producing industries of the world would be much better off in the long run if combinations in restraint of international trade were abandoned on all sides," he said.

"In general, the effect is to hoist both the producing and the consuming industries upon artificial bases, ultimately resulting in economic difficulties to producers as well as to consumers. The stifling of consumption, stimulation of rival production, the use of substitutes and the paralyzing of industry generally are their ultimate results."

The Commerce Department's inquiry, it is said, indicates that the extra profits from only one of the sources of British wealth—the rubber plantations of the East Indies—will be sufficient to cover all of that nation's future repayment of its war debt to the United States. The Associated Press advices from Washington May 24 also give the following further account of the facts deduced from the inquiry:

American imports of raw rubber, which cost $185,000,000 during the calendar year 1924, probably will cost $400,000,000 for 1925, and at least a part of this prospective increase is unofficially attributed to the operation of a scheme for production restriction worked out by the plantation interests through the British Colonial Office.

The Government's special agents found that 69% of the rubber plantations were in English colonies, with 29% in Dutch possessions, where a good deal of English capital was invested.

The Stevenson Restriction act, which the English colonial authorities put into operation in 1922, was an outgrowth of conditions existing during post-war years, when rubber dropped to 11 cents a pound. The act cut down the export of rubber from British possessions according to a percentage scale based on the market price. When rubber is selling at 30 cents a pound the British plantations may market only 60% of their rated capacity production, the percentage increasing if the price advances and diminishing if the price decreases.

The restriction worked effectively in British possessions, reducing their exports from 271,000 tons in 1922 to 205,027 tons in 1924, the Commerce Department agents found, but the Dutch East Indies, which were left untrammeled, increased their production and exports from 102,171 tons in 1922 to 175,000 tons in 1924 and other producing areas also increased their activity.

The growth in the world's consumption, however, more than kept pace with the resulting increase and all plantations are now close to their maximum production basis.

The report estimated that a rubber plantation represented an investment of from $200 to $400 per acre. With 400 pounds of rubber an acre a good yearly production rate, and the production costs of sixty British Malaya companies averaging 15.1 cents a pound, it was found that a price of 16 or 17 cents a pound in New York was about the lowest at which the plantations could recover their operation expense.

An addition of 15 cents to this figure would give at least a 15% return on invested capital for even the higher cost plantations.

There is now $505,000,000 invested in British plantations, the report further estimated, and $876,000,000 in the general East Indian territory studied. In spite of the two or three bad years after the war, the report said, the annual profits of the British companies averaged 26% from 1909 until the restriction law was put into operation.

Since the British tropical gardeners successfully transplanted the Brazilian rubber trees in 1886, it was added, the ratio of production from the original forests has dwindled to 6% of the world's supply.

British Resent Hoover's Criticism—Rubber Producers Maintain Restriction of Output Is Not In Restraint Of Trade.

From the New York "Times" we take the following copyright cablegram from London May 27

A reply to Secretary Hoover's criticism of British restriction of rubber production was made at yesterday's meeting of the rubber plantation's investment trust by H. J. Welch, its Chairman.

"I agree entirely with Secretary Hoover's principles," said Mr. Welch, "and it is interesting to have them enumerated in a country like the United States, which imposes tariffs deliberately to restrain competition by imports with home industries. But the restriction scheme is not a breach of the principles, not a combination in restraint of international trade. It cannot have operated to restrain trade at all. It has reduced unwanted stocks and prevented supplies in excess of demand

"Mr. Hoover anticipated a world shortage of rubber in 1928 or 1930. If he is right, the shortage would have been much greater without restriction, for many rubber areas which were created during the overplanting period, and which have been preserved by the restriction scheme, would have been abandoned.

"Further, the rubber producers have spent large sums in propaganda to increase world trade, not to diminish it, and they will be relieved when the demand overtakes the potential supply and restriction of output is no longer necessary.

"It must not be assumed that need for the restriction scheme already has disappeared, nor that the rubber-producing industry yet has entirely escaped from the disastrous position created by overplanting many years ago. Restriction is medicine, not food. We do not wish to live on it permanently.

"When, because we have attained a reasonable equilibrium between demand and unrestricted supply, restrictive legislation can be safely abandoned, then, and only then, can the industry be considered to rest upon a sound and healthy economic basis."

The London Times declares in its financial columns that, like Secretary Hoover, it disapproved the British restriction scheme, but it counsels American manufacturers to blame their own rapid increase of consumption rather than the restriction scheme, which merely changed the source of supply from British to Dutch producers.

"Americans charge us as much as they can for goods they sell us, and we are entitled to do the same," declares The Times. "The higher the price we charge them for rubber, provided it does not check consumption, the better for this country. It would be of still greater advantage to us if more British rubber and less Dutch had been sold to them. American manufacturers had cheap rubber for years, and they cannot legitimately grumble at having to pay 2s. 6d. to 3s. per pound, simply because they have been demanding much larger quantities."

New Indictments Found Against A. B. Fall, E. L. Doheny and H. F. Sinclair in Government Oil Suits—Elk Hills and Hawaiian Leases Ordered Cancelled.

New indictments, growing out of the U. S. Government investigation of the naval oil leases between the Government and the Mammoth Oil Company and the Pan American Oil and Transport Company were found on May 27 by a District of Columbia grand jury against Albert B. Fall, Edward L. Doheny and Harry F. Sinclair. Indictments returned against them in July of last year had been quashed as defective on April 3 of the present year by the court, because Assistant Attorney General Pagan had been present in the grand jury room, though the Department of Justice and its officers had been explicitly debarred from the prosecution of the oil cases. Regarding the new indictments the Associated Press dispatches from Washington May 27 said:

As in the previous case, the indictments charged conspiracy in connection with the Teapot Dome and Elkhill oil leases. Edward L. Doheny, Jr., who previously had been indicted also, was not reindicted. Today's indictments omit any charge of bribery.

In the indictments dismissed last month Fall had been accused of accepting a bribe of $100,000 for using his official influence to secure the California lease for the Doheny interests, while Edward L. Doheny and Edward L. Doheny, Jr., were charged with having induced Fall "by unlawful and felonious" payment of $100,000 to commit an unlawful action.

There has been some speculation whether the bribery charges could be legally renewed because of the statute of limitations, but some of the Government counsel are said to take the view that time still remains to try for another indictment.

Not only was Edward L. Doheny, Jr., charged in the original indictments with implication in the attempt to "bribe" Fall through delivery to him of the celebrated $100,000 in a black satchel, but his name was likewise linked with that of his father and Fall in the conspiracy charge. Today's grand jury report, however, contains no charges against him on either score.

In some respects the new indictments are more comprehensive than the old. While the old indictments merely charged a conspiracy to obtain the leases to the lands included in the naval reserves, those returned today allege that the conspiracy embraced the sale of oil to the Government without competitive bidding, the purchase of storage facilities, the buying of kerosene, lubricating oil and petroleum and the adoption of a credit sale method of purchase by which no cash passed to the United States.

In the Doheny indictment the alleged payment of $100,000 to Fall is covered, while in the charges against Sinclair is the alleged passage of $230,500 in Liberty bonds for Sinclair to Fall. This count was not in the original indictment.

An effort was made by the government's special oil counsel in the Cheyenne, Wyo., civil proceedings for annulment of the Teapot Dome lease to bring out an alleged passage of bonds from Sinclair to Fall, with the now defunct Continental Trading Company, Limited, of Canada, as intermediary. The indictment returned today against Sinclair and Fall, however, did not attempt to specify how the alleged $230,500 transaction took place.

"The said Harry F. Sinclair," it said, "on or about the 8th day of May, 1922 delivered, or caused to be delivered, to the said Albert B. Fall, and the said Albert B. Fall received, or caused to be received from him, a large amount of bonds of the United States, known as First Liberty loan 3½% bonds, of the par value of $230,500."

Other new charges specify execution of the lease of April 7 1922, to Teapot Dome, and the execution of a construction contract dated Feb. 9 1923.

In a decision rendered in Los Angeles, Cal., on May 28, Judge Paul J. McCormick, of the U. S. District Court, ordered the Doheny oil interests to surrender for cancellation their leases in Naval Oil Reservation No. 1, Elk Hills, Calif., and contracts for construction of oil storage facilities at Pearl Harbor, Hawaii.

Associated Press advices from Los Angeles state:

The decision, covering 92 points of fact and 14 conclusions of law, declared the leases void for two reasons:

First, owing to the "fraud upon the United States" involved in E. L. Doheny's payment of $100,000 to Albert B. Fall, then Secretary of the Interior, and,

Second, because ex-President Harding's order transferring discretionary authority in the matter of oil leases from the Navy to the Interior Department was in excess of his power as President.

Judge McCormick ordered a settlement for all oil taken by the Doheny Companies from Elk Hills and acredit to them for storage facilities work done in Hawaii, and empowered a master in chancery, to be named later, to effect these settlements.

The written decision, canceling the two oil reserve leases involved and the two Pearl Harbor contracts, said in part:

"That the making of such payment constitutes a fraud upon the United States of America, and renders voidable all contracts and transactions made between Pan-American Petroleum & Transport Co. or its subsidiary, Pan-American Petroleum Company, and the United States of America subsequent thereto.

"That Edward L. Doheny and Albert B. Fall did conspire and confederate for the making of certain contracts and agreements of great benefit and advantage to the Pan-American Petroleum & Transport Company."

Judge Olin Wellborn, a member of the Doheny legal staff, who was present when the decision was filed, announced that immediate steps would be taken on an appeal to the United States Supreme Court.

According to Frank J. Hogan, of counsel for the Doheny oil interests, the defendant companies will appeal the decision to the United States Circuit Court of Appeals. Washington Associated Press accounts, in stating this, added:

Mr. Hogan described the equity proceedings in which the decision was rendered to-day as "preliminary," and "not at all final." It is to be expected, he said, that whichever side wins in the appeal, the case will be presented to the Supreme Court of the United States for review.

In its next stage, he explained, the case will be re-heard by three United States Judges constituting the Appellate Court at San Francisco next fall. As a proceeding in equity, he explained, the case will be re-heard in its entirety.

Mr. Hogan said the appeal probably would be filed at Los Angeles in about a week, formal entry of the judgment handed down to-day by Judge McCormick not being expected before that time.

In a statement at El Paso, Tex., on May 27 regarding the indictment returned in the Teapot Dome and Elk Hills oil leases, Mr. Fall said:

Under the peculiar tactics used by United States attorneys, nothing else could have been expected. These attorneys have only to present what they desire to the grand jury, although they have gone fully into two cases before and are thoroughly familiar with them. Everybody was expecting that Mr. Doheny, Mr. Sinclair and myself would be re-indicted, I guess.

Following the decision in Los Angeles, Secretary of the Navy Wilbur announced yesterday (May 29) that the Navy Department has already made plans to administer the naval oil reserves. He also said:

We are very much pleased with the decision of the Court. Rear Admiral Harry H. Rousseau, Civil Engineer Corps, attached to the Bureau of Navy Yards and Docks, will be placed in charge of the oil reserves, acting immediately under the direction of the Secretary of the Navy.

Hearing on Nickel Plate Merger—O. P. Van Sweringen, Chairman of New York, Chicago & St. Louis RR., Testifies Before Commission.

At a continuation of the hearings being held before the Interstate Commerce Commission, which were begun April 15, in connection with the proposal to unify the New York, Chicago & St. Louis RR., the Chesapeake & Ohio Ry., the Hocking Valley Ry., the Erie RR. and the Pere Marquette Ry., O. P. Van Sweringen appeared May 28 and submitted a lengthy statement in connection with the proposed merger plan. Mr. Van Sweringen told in detail how he entered the railroad field in 1916 and with the aid of his brother M. J. and a relatively meager amount of ready cash, built up plans for the so-called nickel plate billion dollar merger which the commission has been asked to approve. He had sought for constructive accomplishment, he said, and had added to this a tremendous persistence. The task was hard enough at the start, he added, but once under way and the first success achieved, vast credit facilities were opened up.

The statement of Mr. Van Sweringen, in connection with the acquisition of the New York, Chicago & St. Louis RR. from the New York Central in 1916, follows:

It was in 1916 that we made a contract with the New York Central RR. for the purchase from them of the majority of the stock of the then New York, Chicago & St. Louis RR. which they owned. For the purpose of this record we now state that our purchase comprised 25,032 shares of the then first preferred stock, 62,750 shares of the second preferred and 62,400 shares of the common. The purchase price was $8,500,000. The market price at that time was about the same amount. The book cost of this stock to the New York Central RR., we understand, was likewise about the same amount.

It has been the subject of some public comment that when buying the railroad we did not have $8,500,000 or anything like that amount, and therefore we must have represented some one else. The favorite suggestion was that the "some one else" was the New York Central RR., and that they had not really sold the property to us at all, but had turned it over to us, and that we were the "little brother," so to speak, of that railroad. The comment was that the New York Central was obliged to sell the property, and, fearing its competition if sold and developed, had adopted this subterfuge method of continuing in the control of the property.

That we did not have the $8,500,000 is all too true, but we did not require it all at one time. Six and a half million dollars of the purchase price was deferred over a period of years with the stock pledged as collateral for its payment. The $2,000,000 cash down payment, I assure you, was hard enough to raise. We had accumulated some property as a result of our real estate operations in and about Cleveland, but we had not reached the stage where we had $2,000,000 in the bank. We were busy enough raising the money within the limited time. Our method of providing it was the

organization of the then Nickel Plate Securities Corporation, with the creation of common stock and 7% cumulative preferred stock. We transferred to this Securities Corporation all our rights of purchase of the railroad and certain other real estate securities to suitably collateralize or further secure the investment risk of the stockholders that we proposed to interest in the purchase of this corporation's shares. We then set about to sell enough of the preferred stock at par to our friends and business associates in and about Cleveland who we felt had sufficient confidence in us to invest with us. We very frankly retained control of 75% or thereabouts of the common stock, contributing the rest with the preferred so that we might realize par for the latter.

There was no railroad interest or railroad officers' interest in these purchases.

The transaction leading up to the acquisition of the Clover Leaf and the Lake Erie & Western, are described as follows:

About this time the Toledo, St. Louis & Western RR. (the Clover Leaf), then in receivership, was heading out from its entangling undertaking with the Chicago & Alton stock purchase, and we concluded this was the railroad we should have for an entrance into St. Louis and Toledo, and through its ownership of one-half the stock of the Detroit & Toledo Shore Line thus put us into Detroit.

The Commission's suggestion in its tentative plan to segregate the Lake Erie & Western RR. from the New York Central and to group it with the Nickel Plate provided the basis for an argument with the Central people that they should also dispose of this property.

The dominating interest in the Clover Leaf owned 70,000 shares in one block, and the owners did not desire to have the money for its sale, but were willing to take a long time payment obligation upon the price fixed, approximately $2,750,000, provided our interests would acquire enough more of the stock to make a majority control and pledge these additional shares so purchased with those bought from them as collateral for the payment of the obligation.

Within a week's time, or thereabouts, we had the extra shares, and they cost us about $750,000. Our majority control thus cost us, in round numbers, $3,500,000, and consisted of 60,500 shares of Common and 39,890 shares of 4% Preferred stock, both having voting power.

Our trading having started on the Lake Erie & Western, we finally brought this to a head, and the New York Central sold us their majority shares of this company for $3,000,000. They required that we pay $500,000 in cash, and gave us 5 years within which to pay the remainder. They, in turn, took back the stock sold to us as collateral security for the payment. Of this purchase, 59,400 shares were common and 59,300 shares preferred, both voting.

It was not especially difficult at this state in our undertakings to provide $1,250,000, the necessary initial cash for both these railroads.

Within a short time we had convinced ourselves that an alliance of the Nickel Plate and these two railroads would be beneficial because of the reciprocal advantages and natural trends of traffic and the opportunities for further development. We concluded to unify these properties, and we completed, in 1923, the consolidation of the three railroads with two subsidiaries known as the Fort Wayne, Cincinnati & Louisville RR., belonging to the Lake Erie & Western, and the Chicago & State Line RR., the Western end of the Nickel Plate.

The result is the present New York, Chicago & St. Louis RR., one of the five railroads whose property is sought to be unified in this proceeding.

The acquisition of the Toledo St. Louis & Western was made by The Clover Leaf Co , organized for this purpose, the stock of which was all owned by The Vaness Co., the personal holding company for many of the assets of O. P. and M. J. Van Sweringen.

The acquisition of the Lake Erie & Western was made by The Western Co., organized for the purpose, and the stock of which was also owned by The Vaness Co. When the Nickel Plate and its subsidiary were consolidated with these roads and their subsidiaries, the control still remained with O. P. and M. J. Van Sweringen as the majority owners of the stock of the Nickel Plate Securities Corp. and The Vaness Co.

Since then the Nickel Plate Securities Corp. has been consolidated with The Vaness Co., and we continue to own considerably more than a majority of The Vaness Co. Common stock.

The New York, Chicago & St. Louis RR. had been put together with a reduction in aggregate outstanding capital stock in the hands of the public of over $13,000,000. Instead of various classes of Preferred stock to conform with the constituent companies' preferred shares, only one class of new preferred stock was issued. We exchanged the first and second preferred shares of the old company, par for par, in the new preferred.

When the exchange of shares into the new company was completed, The Vaness Co. and we, with shares accumulated from time to time, had, all told, 188,286 shares of preferred and 191,700 shares of common stock of the new company. Our "from time to time" purchases to which I refer had been 14,500 common shares of Clover Leaf and 33,700 preferred and 7,600 common shares of Lake Erie & Western, 27,125 shares of new Nickel Plate preferred and 2,100 shares of new Nickel Plate common at a cost nearing $6,000,000.

Then Mr. Van Sweringen discusses the prospective merger. He says that he had studied the tentative consolidation plans put out by the Inter-State Commerce Commission and did not feel that his plans violated them in whole. Next he turned to the relation of his proposal to mergers which other railroad interests may be contemplating, and said:

This Commission, I believe, is informed of the progress made in the Eastern Region toward a four system plan, and it seems proper to state here that the groupings of the railroads under our plan of August 20 1924, is in keeping with this four system plan. This four system gouping is generally known among railroad executives in the Eastern Region, and there is no present evidence of dissatisfaction by any of the trunk or stem lines in any of the proposed four system or five system groupings with the unification plan now particularly being considered in this hearing. The consolidation of the Lake Erie & Western, the Clover Leaf and the old Nickel Plate was as proposed by this Commission and by Dr. Ripley. It was also in keeping with the principles of Mr. Oldham's plan.

We cite this at this time only as tending to show that our plans do not ruthlessly destroy or disregard the many suggestions and tentative studies for grouping all the railroads into a limited number of competitive systems. The public interest has not been overlooked.

As to how they acquired control of the Chesapeake & Ohio, Mr. Van Sweringen says:

Evidence has been introduced in this hearing as to the number of shares owned by the present New York, Chicago & St. Louis RR., namely, 155,000 shares, the cost of acquisition of these shares, how the money was provided and our relation to its purchase. 70,000 of these shares were of the block purchased from the Huntington interests who were responsible for the building of part of the railroad and formerly for its management and operation.

O. P. and M. J. Van Sweringen's relation to the purchase of these 70,000 shares was limited to the payment by them of $20 per share to the Huntington family, thus making the cost to the Nickel Plate $80 per share. It should be remembered here that we owned the majority of the Nickel Plate.

We have not yet fully disclosed our ownership of Chesapeake & Ohio stock. Controlling the Nickel Plate as we do, we, through that medium, control the vote of the shares it owns. Outside of the Nickel Plate we have larger holdings in the aggregate than those of the Nickel Plate, in fact, with the Nickel Plate, a substantial control of the stock. With the exception of the 3,000 shares purchased from the Huntington family, we have bought our holdings in the open market, and they have cost us the prevailing market price at the time of purchase, averaging about $92.50 per share, not reckoning our loss of $1,400,000 on the Huntington shares that went direct to the Nickel Plate. We have assembled these over a considerable period of time, as we did also our holdings of Pere Marquette and Erie Railroad, which we acquired in the same manner, and which were financed principally by us on loans upon the stock purchased.

No explanation of how we have acquired the interest in Hocking, we take it, is necessary, because being owned by the Chesapeake & Ohio, it is controlled by our stock holdings in that railroad.

Our total holdings through the Vaness Co. amount to 174,800 shares of Chesapeake & Ohio Ry. common stock, costing about $16,180,000; 30,000 shares of Pere Marquette Ry. common stock, costing about $1,900,000, and 24,700 shares first preferred, 52,600 shares second rpeferred and 387,000 shares common stock of the Erie RR., costing about $11,200,000.

There is now in the record, testimony with regard to the amount and cost of the Nickel Plate's holdings of Pere Marquette and Chesapeake & Ohio shares. This cost, it will be observed, is several dollars less per share than the cost of those we purchased, since, owing to our fiduciary relation to the Nickel Plate, we gave it preference in the matter of purchase and at the lowest price of the shares purchased. The Huntington shares of the Chesapeake & Ohio were purchased some tme before most of our remaining shares, but the Erie and Pere Marquette purchases, as heretofore stated, were made in furtherance of the unification of these properties as proposed under the pending application.

Being convinced of the desirability of this proposed unification, we sought, by the most economical and practical means available to use, to assure the accomplishment of the undertaking, subject to the approval of this Commission.

It should be apparent, but if it is not I now make the statement that all sources of gain to us were by reason of the improvement of the shares purchased and not one dollar by promotion fees or charges, stock manipulation or watering processes—the same as the ratio of gain to all stockholders, and no more. What is more, if this plan is approved by this Commission, we will have reduced the aggregate outstanding capital stock by reason of this unification and the former Nickel Plate consolidation about $125,000,000.

Mr. Van Sweringen then goes exhaustively into the proposals which were made for the interchange of stock of the companies which it was now proposed to merge with the Nickel Plate for the securities of the new Nickel Plate. In this connection, he said, all factors had been taken into consideration and every effort made to be fair.

Provision was made, he added, so that holders of stock in the Chesapeake & Ohio, Erie, and Pere Marquette, who did not wish to exhxange their holdings for securities of the consolidated system, could obtain a fair market price either through the courts or other means of arbitration.

In completing the merger, Mr. Van Sweringen said, the unified company would issue its preferred and common as follows:

1. For all of the stock of the Chesapeake & Ohio	$132,936,430	or	40.41%
2. For all of the stock of the Erie	76,944,960	or	23.39%
3. For all of the stock of the Pere Marquette	60,675,200	or	18.44%
4. For all of the assets of the Nickel Plate proposed to be leased and subsequently conveyed	56,272,130	or	17.10%
5. For Hocking stock in the hands of the public	2,161,600	or	.66%
Total	$328,990,320	or	100.00%

In conclusion Mr. Van Sweringen says:

Approximately nine months have elapsed since our proposal was submitted to the thousands of stockholders of the several companies and to the public at large. Nothing has occurred during that time to change my opinion that the terms of the original proposal constitute a fair, just and equitable treatment of all parties in interest.

The proposal for the unified control of the above railroads was published in full in the Sept. 6 1924 issue of the "Chronicle," pages 1183-1185.

"Readjustments" of Rates and Wages Cost Railways $200,000,000 in 1924.

Both railway rates and wages were reduced on July 1 1922 to a basis on which they were supposed to be fair in relation to each other, but, according to the "Railway Age," there have since been made downward readjustments of rates and upward readjustments of wages which cost the roads $141,000,000 in net operating income in 1923 and $201,000,000 in net operating income in 1924. It concludes from a detailed statistical study made by it that the failure of the railways in both 1923 and 1924 to earn the "fair return" of 5¾% on their tentative valuation was due to these so-called "readjustments."

The Western roads have recently petitioned the Inter-State Commerce Commission for a general advance in rates. The "Railway Age" gives figures to show that in the year 1924 alone their net operating income was, by reductions of rates and increases of wages since 1922, made $100,000,000 less than it would have been on the basis of the rates and wages fixed in 1922.

"The net return earned is of vital importance not only to railway security owners but to the public," says the "Railway Age," "because upon it depends the development of the railways as an instrumentality for rendering

economical and adequate transportation service. In addition to general changes in rates and wages, there constantly go on readjustments of both which attract little attention but which in the aggregate are of great importance.

"The loss of total earnings suffered by the Class I railways in 1923 because of reductions of rates below the basis fixed in the latter half of 1922 was approximately $87,500,000. The loss of earnings suffered by them in 1924 owing to the same cause was about $97,000,000.

"Meantime, as previously has been pointed out in these columns, the wages of employees have been gradually advancing. In the last half of 1922 the wages of employees paid on a daily basis, averaged $7 53; in the year 1923, $7 75 and in 1924, $7 85. About 90% of all employees are paid on an hourly basis. Their average earnings per hour in the last six months of 1922 were 59.3 cents; in the year 1923, 60.3 cents; in 1924, 61.5 cents. The effect of these advances in daily and hourly rates of pay over those in effect in the last half of 1922, computations being based on days and hours for which employees were actually paid, was to increase the payroll of the railways $54,160,000 in 1923 and $104,130,000 in 1924.

"The total net operating income earned in 1923 was almost $984,000,000, or 5.2% on the tentative valuation. The reductions in rates and advances in daily and hourly wages in that year cost together more than $141,000,000. If this additional amount of net operating income had been earned the net return earned would have been $1,125,000,000, or 5.98% on the tentative valuation. The net operating income earned in 1924 was $987,000,000. The reductions in rates and advances in wages made, as compared with the bases established in the last half of 1922, amounted in 1924 to $201,000,000. If this amount had been added to the net operating income of 1924 it would have been $1,188,000,000, or about 6% on the tentative valuation.

"The Western roads having asked for a general advance in rates, it is pertinent to inquire what effect has been produced on their net operating income by reductions of rates and advances in wages since 1922. The loss of earnings sustained by them in 1923 due to reductions of rates below the basis established in the latter half of 1922 was $29,500,000. Their loss of earnings in 1924 due to the same cause was about $62,850,000. They pay about 37% of total railway wages, and it is therefore reasonable to assume that they have borne this proportion of the advance in wages. This would indicate that advances in wages cost them about $20,000,000 in 1923 and $39,000,000 in 1924.

"Their loss of net operating income in 1923 due to reductions of rates and advances in wages was therefore about $50,000,000. The net operating income earned by them was $374,556,000, or 4.66% on their tentative valuation. If they had received the additional amount withheld by reductions of rates and advances in wages, the percentage earned by them on their tentative valuation would have been 5.28%. Their net operating income in 1924 was $378,100,000, or 4.54% on their tentative valuation. The curtailment of their net operating income due to reduction of rates and advances in wages amounted to about $102,000,000. If their net operating income had been this much larger than it actually was in 1924 the return earned by them on their tentative valuation would have been 5.76%.

"And now the Inter-State Commerce Commission is making a general investigation looking to 'readjustments' of rates. A 'readjustment' of rates may as well be effected by advancing some as by reducing others, and as long as any group of railways continues to earn less than the so-called 'fair return' the Inter-State Commerce Commission will not perform its lawful duty unless it adopts the policy of readjusting upward instead of downward the rates of that group of railways."

Settlement of Accounts with Director-General of Railroads.

The following, showing the account of the Director-General of Railroads with the carriers as of May 1 1925, has been crowded out of our "Railway & Industrial" Compendium, issued of even date herewith, and is therefore given here. It will be observed that out of a total of $629,241,250 securities acquired by the United States Government for additions and improvements made during the period of Federal control of the railroads and for loans made to them, $471,892,250 have been sold or redeemed, leaving $157,349,000 on hand May 1 1925. Details of this latter amount appear in the article immediately following, entitled "Loans, &c., Made by Federal Authorities Under Control Act, Act of 1920, &c."

Definitive Railroad Securities Held by United States Railroad Administration—Director-General of Railroads—May 1 1925.

Definitive securities taken up to Nov. 1 1924	$626,902,550
Additional securities taken up to and including May 1 1925—	
Funding notes	2,338,700
Total	$629,241,250
Less—Equipment trust certifs. sold (incl. payment of notes at maturity), $341,244,750; bonds redeemed, $1,929,000; payments on, and sales of, funding notes, $128,718,500	471,892,250
Definitive securities on hand May 1 1925	$157,349,000

Claims of Carriers Settled to May 1 1925.

Total claims of carriers settled [out of an estimated $800,000,000]	$768,003,274
Net amount paid [by United States] in settlements [being 6.32% of aforesaid amount originally claimed]	$48,574,901
Mileage of roads settled [out of a total of 241,194]	240,939

The U. S. Treasury as of Jan. 1 1925 reported:

Total Payments by U. S. Under Sections 204, 209, 210 and 212 of Transportation Act of 1920, Aggregating $701,595,755 (After Repayments on Loans from Revolving Fund) to Dec. 31 1924.

(a) (Sec. 204, as amended by Sec. 212) For reimbursement of deficits during Federal control:	
(1) Final payments, incl. partial payments previously made	$9,091,662
(2) Partial payments to carriers as to which a certificate for final payment has not been received by the Treasury from the I.-S. C. Commission	328,859
(3) Payments due from carriers account of overcertification in I.-S. C. Commission certificates	52,457
(b) (Sec. 209, as amended by Sec. 212) For guaranty in respect to railway operating income for first six months after Federal control:	
(1) Final payments, including advances and partial payments previously made	x343,622,646
(2) Advances to carriers as to which a certificate for final payment has not been received by the Treasury from the I.-S. C. Commission	123,111,411
(3) Partial payments to carriers as to which a certificate for final payment has not been received, as stated above	41,378,139
(4) Payments due from carriers account of overcertification in I.-S. C. Commission certificates	386,855
(c) (Sec. 210) For loans from the revolving fund of $300,000,000 therein provided (after repayment of $166,976,940 on loans from Revolving Fund)	183,623,727

x The roads to which final payments have been made by the Treasury of the guaranty under Sec. 209 and the aggregate amounts severally paid to them on the guaranty including advances and partial payments previously made are as follows:

Nearly 30% of Income Producing Endowments of Colleges Invested in Railway Securities.

According to the Bureau of Railway Economics nearly 30% of all the income producing endowments of the principal colleges, universities and technical schools throughout the United States are invested in steam railway stocks, and colleges, universities and technical schools throughout the bonds. This, says the Bureau, is shown by a tabulation made of replies received from 65 of the foremost endowed colleges and other educational institutions of this country in response to a questionnaire recently sent to them by the Bureau. As to the results of the inquiry, the Bureau on April 11 said:

The total book value of the productive investments of those sixty-five institutions amounts to $531,696,687. Of that amount $148,270,933 is invested in steam railway securities or 27.9% of the total. Investments in steam railway bonds by those sixty-five colleges alone total $129,150,352 while investments in railway stocks amount to $19,120,581.

Leland Stanford University in California ranks first in the amount invested in railway securities. Of its total productive investment, $13,907,000 or 49.8% represents investments in railway securities. Harvard University with $13,681,396 or 31.8% ranks second and Yale, with $12,536,411 or 33.8% invested in steam railway securities, is third. Chicago University with $11,513,005 or 29.8% is fourth and Johns Hopkins University with $10,156,904 or 53.8% is fifth.

A number of smaller schools have still larger percentages of railway investments, notably, Connecticut College for Women with 90.8%, Catholic University of America with 89.3%, Barnard College with 81.9% and Bryn Mawr with 60.7%.

Of the $52,695,357 in productive investments that have been made by Columbia University, $8,966,550 or 17.0% is in railroad securities while Massachusetts Institute of Technology has $5,759,000 or 20.1% and the University of Pennsylvania has $5,374,013 or 37.9%. Princeton University has $7,437,040 or 51.3% invested in steam railway securities.

Loans, &c., Made by Federal Authorities Under Control Act, Act of 1920, &c.

During the Federal control period from Jan. 1 1918 to Feb. 29 1920, and the guaranty period of 8 months from March 1 to Aug. 31 1920, and as a result of the financial operations called for by the Control Act of 1918, the Transportation Act of 1920 and the Act incorporating the War Finance Corporation, advances to a large amount were made to the railroads by the U. S. Treasury, the Director-General and the War Finance Corporation on account of additions and improvements, the funding and refunding of loans and in the case of the Boston & Maine for reorganization purposes.

The securities acquired on account of such advances by the U. S. Treasury and still held by it on recent dates were:

(1) *Obligations of* $25,950,000 *Held by United States Feb.* 28 1925, *under Sec.* 7 *of Federal Control Act of* 1918.

Boston & Maine RR.	x$25,950,000

x This amount does not include securities purchased by the Director-General of Railroads under the provisions of Section 12 of the Federal Control Act, approved March 21 1918.

Note.—The above are securities issued during period of Federal control for the purpose of providing funds requisite for maturing obligations or for other legal and proper expenditures, or for reorganizing railroads in receiverships.

(2) *Indebtedness of Carriers* ($137,527,000) *to the United States Incurred for Additions and Betterments, &c., Made During Federal Control, Pursuant to Sec.* 207 *of Transportation Act of* 1920 *and Held Feb.* 28 1925.

The carriers which have paid into the Treasury excess earnings during the guaranty period, pursuant to the provisions of Section 209 (d) of the Transportation Act, 1920, as amended, and the amounts severally paid by them to the United States are as follows (to Dec. 31 1924):

Ahnapee & Western Railway Co.	$2,940 39
Barre & Chelsea Railroad Co.	25,391 33
Campbell's Creek Railroad Co.	3,560 52
Carolina Railroad Co.	910 78
East Tennessee & Western North Carolina Railroad Co.	10,473 42
Ironton Railroad Co.	1,932 77
Kewaunee Green Bay & Western Railroad Co.	260 50
Kishacoquillas Valley RR.	2,707 79
Lake Tahoe Railway & Transportation Co.	5,004 23
Louisiana Western Railroad Co.	168,397 58
Massena Terminal Railroad Co.	7,399 44
Missouri & Illinois Bridge & Belt RR.	20,395 56
Rosslyn Connecting RR.	5,677 03
South Manchester Railroad Co.	1,079 16
Total	$256,130 50

The aforesaid securities are in addition to securities received by the Director-General of Railroads as follows:

Definitive Securities of Carriers Held by Director-General May 1 1925 (Total $157,349,000).

(a) *Bonds*—$28,609,000—

Mortgage bonds of Boston & Maine (Series "C," "D" and "L")	$26,980,000
Kansas Oklahoma & Gulf Ry. (Series "A" and Govt. Lien)	1,629,000

(b) *Collateral Notes*—$123,428,000 (*Amount of Collateral Deposited*, $170,078,100)—

American Ry Express Co	$2,300,000	N Y Susq & Western RR	$100,000
Ann Arbor RR	525,000	Norfolk & Southern RR	200,000
Chicago & Eastern Illinois RR	3,425,000	Pennsylvania RR	15,753,000
Chicago Great Western RR	950,000	Seaboard Air Line Ry	2,000,000
Chicago Milw & St Paul Ry	20,000,000	Wash Brandyw & Pt L RR	50,000 00
Erie RR	8,725,000	Waterloo C F & No Ry	500,000 00
Maine Central RR	750,000	Western Maryland Ry	2,000,000
Minn & St Louis RR	1,250,000	Wheeling & Lake Erie Ry	900,000
N Y N H & Hartford RR	64,000,000		

(c) *Equipment Trust Obligations*—(of which $341,244,750 have been sold or paid at maturity) 5,312,000

The War Finance Corporation also aided in the financing during Federal control. All the loans made by the Corp. to railroads, originally in the total amount of $204,794,520, have now been repaid in full.

Railroad Loans Paid in Full Since Aug. 1 1921.—N. Y. Central RR., $20,500,000; Chic. Ind. & Louisville RR., $1,400,000; Southern Ry., $7,355,270; Ann Arbor RR., $50,000; Chicago Rock Island & Pacific Ry., $10,430,000; Erie RR., $12,768,420; total, $52,503,690.

Chairman Aitchison of Inter-State Commerce Commission Sees Rate Fixing Ineffective as Means of Insuring Good Transportation Service—Distribution and Utilization of Cars Necessary Factors.

Pointing out that "there is a difference between securing continuous good service and the fixation of a schedule of rates," Clyde B. Aitchison, Chairman of the Inter-State Commerce Commission, on April 9 observed:

When a schedule of rates is fixed, the act is done, and virtually enforces itself thereafter, so that even casual departure meets certain correction and redress.

But good service comes from a continuing infinitude of great and small acts, by human beings of varying degrees of capabilities and frailties. Therefore, the quasi-judicial procedure which is appropriate in the determination of rate controversies will be wholly ineffective as a means of insuring good service.

To effect the best possible distribution and utilization of cars, and to provide for the freest practicable movement of traffic is a task which requires persistent attention to the kaleidoscopic changes in production and demand, to the forces of nature, labor conditions and the financial situation of each and every section of the country.

Commissioner Aitchison's remarks were addressed to the members of the Advisory Board of the Atlantic States Shippers, meeting in Philadelphia, and in stating that the accomplishment in 1923 shows what can be done, he said:

Two factors then contributed to the ability of the carriers to transport promptly as offered an unusual volume of traffic; (1) Improvement of the railway facilities of the country, primarily to efficiency of the motive power; and (2) the even trend of loading throughout the year.

The effect of good service on the business of the country extends beyond the immediate benefits to the shipper who gets prompt transportation for his commodity. It reflects itself in the general prosperity of the community served, and ultimately, of the nation. There are other incidental effects which are important. If we may have a fairly balanced movement of traffic, we may expect the carriers currently to keep their equipment in condition necessary to care for that movement.

A policy of uniform maintenance of cars and locomotives, if attainable, by minimizing seasonal unemployment would have an effect upon labor which would be profound. Eventually such economies reflect themselves in transportation rates and in the flow of needed capital to the railroad business, and rebound to the benefit of the shipper, the railroad operator and investor, and the consumer.

A slightly higher level of industrial production in the Eastern Atlantic States and adequate transportation to handle it was forecast for the second quarter of 1925, as compared with the same period last year, in an analysis just completed by the Atlantic States Shippers' Advisory Board. The conclusion as to the trend of business was based on actual estimates of car requirements gathered by commodity committees from the various industries, and was reported to the Board at its Philadelphia meeting. Surveys were also made by the individual railroads to ascertain the present condition of equipment. The Board's territory covers New York, New Jersey, eastern Pennsylvania, Maryland, Delaware and part of Virginia. More than 600 shippers and railroad officials attended the conference, the largest in the history of the Atlantic States Board. Commissioner Aitchison and E. T. Stotesbury, Chairman Reading Company, made the principal addresses at the luncheon session. Mayor W. Freeland Kendrick of Philadelphia presided at this period; John L. Stewart, Public Service Commissioner of Pennsylvania; H. DeWitt Irwin, Vice-President Barnes & Irwin Co., and W. J. L. Banham, General Traffic Manager Otis Elevator Co., and General Chairman of the Atlantic States Board, also delivered addresses. "The individual railroad reports which the transportation officials read to the shippers," Mr. Banham explained, "reveal the status of rolling stock as of about the last month. This is the most recent picture of the present condition of the Eastern transportation machine." A summary of the reports follows:

C. S. Krick, Vice-President of the Pennsylvania, said his company had 46,439 serviceable cars stored as of March 24, and that 20,917 new cars have been received since Jan. 1 1924, leaving 1,083 box cars still due on the road's original order. These cars will be available within the next few weeks, he stated.

The New York Central reports as of the last week of March: 19,293 surplus cars; 12,894 new cars received since Jan. 1 1924; 9,865 cars retired since the same date; 900 cars on order; 4,704 bad order cars; 10% freight engines in need of heavy repairs and 14% in need of light repairs; 155, or 9.3% surplus freight engines; 50 new freight locomotives and 50 switch engines received since April 1 1924; 50 freight and 9 switch locomotives retired since Jan. 1 1924; cars loaded and received in February this year 309,636, as compared with 328,488 in February 1924.

Baltimore & Ohio: 10,139 surplus cars; 9,568 bad order freight cars; 704, or 27.7%, bad order locomotives; 62 surplus engines; 27 new engines received since Jan. 1 1924, and 2 retired.

Delaware Lackawanna & Western: 1,120 surplus cars as of March 7; 954 bad order cars as of March 1; 135, or 17.6%, bad order locomotives as of same date; 1 surplus engine; 25 new engines received since the first of last year; 12 retired and 2 on order.

Norfolk & Western as of March 1: 3,951 surplus freight cars; 1,027, or 2.5%, bad order; 1,525 new cars installed since Jan. 1 1925; 168 retired since same date; 3,475 on order; 79, or 7.5%, bad order engines; 59, or 5.7%, surplus locomotives; 6 retired and 1 freight electric locomotive on order.

Lehigh Valley as of March 15: 2,457 bad order cars; 149 retired since Jan. 1 1925; terminal situation, "excellent," 145, or 14.5%, bad order locomotives; 128 surplus engines and 5 new locomotives received since Jan. 1 1925.

Central Railroad of New Jersey as of Feb. 28: 5,673 surplus cars; 1,064 bad order cars; 1 new car received since the first of this year; 13 retired and 49 on order; 73 engines, or 12.3%, in bad order; 60 surplus engines; 5 retired since Jan. 1 1925 and 20 on order.

Reading Co. as of Feb. 28: 4,210 surplus cars; 830 bad order cars; 1,425 new cars received since Jan. 1 1925; 35 retired and 1,575 on order; 152, or 13.6%, engines in bad order; 96, or 8.6%, surplus engines; 1 retired since Jan. 1 1925 and 30 on order.

Delaware & Hudson: As of the last of February the company reported 52 surplus cars; 1,181 bad order cars and 34 cars retired during the month. Bad order engines number 26, or 5.6%, and surplus engines were 86.

The commodity reports indicate that conditions in some of the major industries in Atlantic States territory during the next three months, as compared with the corresponding period of 1924, when business was rather quiet, will be as follows: Machinery, no change; leaf tobacco, 5% decrease; roofing material, no change; rubber, no change; slate, 20% increase; leather, 15 to 20% increase; paint, no change; clay products, no change; mineral aggregate products, 20% increase; lumber, 15 to 20% decrease; copper, slight decrease; less than carload shipments (consisting largely of merchandise and miscellaneous freight) in the Philadelphia district, about 10% increase; textiles, slight increase consisting of a 5 to 10% increase in cotton goods, 50% increase in oil cloth, 5% increase in silks, and 25% decrease in pile fabrics.

Chairman Banham in his opening address to the shippers advocated the co-ordination of rail and motor transportation. He said in part:

I am hopeful within the near future that the shippers and carriers of the country will give consideration to the co-ordination of the highways with other forms of transportation and to make definite recommendations as to the advisability of the use of the motor truck as an additional transportation agency under reasonable and fair regulation, also, defining, if possible, its proper economic field.

Motor transportation has come to stay. While it may be difficult to absolutely delimit the field of its usefulness, there can no longer be any question that the field is definite and permanent.

For the better conditions that now surround transportation we are accorded by our railroad friends due credit. Economic conditions surrounding transportation are as nearly vital to industry as is a condition within the industry itself. If we can by this association cause a more even trend of traffic or in any way advance economic operation of the carriers we benefit directly in quality of service.

To this we have pledged ourselves and results speak for themselves. As an instance the car loading figures for the first 12 weeks of 1925 show that during that period 10,832,840 carloads of freight were loaded and moved while at the same time the carriers had in reserve nearly 5,000 units of serviceable motive power and 320,000 serviceable freight cars of all classes. Compared to 1924—the year most closely approximating this year—the comparison shows that 153,218 more cars were loaded in the 12-week period of 1925, with 978 more active power units in reserve and substantially the same surplus of equipment than in the same period of 1924.

Railroads Operated With Greatest Degree of Safety on Record.

R. H. Aishton, President of the American Railway Association, addressing the fifth annual meeting of the Safety Section of that organization in Chicago on April 27, announced that "the railroads of this country were operated with the greatest degree of safety on record during the past two years so far as the safety of passengers and employees is concerned." In part Mr. Aishton also said:

In 1924 alone, the railways of the United States transported 931,000,000 persons, nearly nine times the population of the United States, with fatalities to only 149 of that number. That is, for every fatality during the year, the railroads safely carried 6,314,000 persons, nearly one and one-half times the number of men that constituted the armed forces of the United States during the World War. At the same time the number of injured was 15% less than the average for the previous four years, and the smallest number injured during any one year since 1901.

The number of railway passengers who lost their lives in 1924 was 23% less than the annual average for the years 1920 to 1923, inclusive. Compared with 1923, there was an increase of eleven persons who lost their lives. Fatalities due to train accidents showed a decrease in 1924 compared with the previous year, but there was an increase of twenty persons in the number of fatalities due to passengers getting on or off cars.

Despite the fact the railroads, during the past two years, handled the greatest traffic on record, there has been a decrease in the number of fatal accidents among employees due to the efforts the railroads have made to look after the safety of their employees. During 1924 fatal accidents to employees were reduced 20% compared with the yearly average for the four years from 1920 to 1923, inclusive. Except in 1921, when traffic on

the railroads was at a low ebb, fewer employees lost their lives in 1924 than during any one year since 1888, when the compilation of such records started. There also was a slight reduction in the number of employees injured in 1924 compared with the four-year average.

One of the most serious problems facing the railroads to-day, so far as safety work is concerned, is that of reducing the number of grade crossing accidents. The development of the passenger automobile and the motor truck, together with the increasing disregard of warning signals at crossings by automobile drivers, have been the primary factors to increase casualties at grade crossings. It is a physical impossibility for the railroads to eliminate all such crossings, and the cost would be prohibitive, being approximately 20 billion dollars, or nearly the same amount as the Inter-State Commerce Commission has fixed as the tentative valuation of the railroad properties of this country used for transportation purposes.

Intensive campaigns conducted by the railroads through the American Railway Association for some years have resulted in some improvement. As a result of the campaign in 1924, there was a decrease of 15% compared with the yearly average for the four years from 1920 to 1923 in the number of persons who lost their lives as a result of automobile accidents at grade crossings while the campaign was in progress. At the same time there was an increase of 51% in the number of motor vehicle registrations.

In 1920 there were 1,273 fatalities at grade crossings as a result of automobile accidents, or 137.9 fatalities for every million vehicles registered. In 1923, there were 1,759 fatalities, or 116.6 for every million vehicles, and in 1924 there were 1,688 fatalities, or 95.4 for every million vehicles.

This situation offers a tremendous field for constructive work in saving human life and no more effective effort can be put forth by the Safety Section of the American Railway Association than in that field.

Commissioner Eastman, of Inter-State Commerce Commission, Advocates Competitive Bidding for Railroad Securities—Dissents from Majority Members' Approval in Case of New York Central Issue.

The views of Commissioner Eastman, of the Inter-State Commerce Commission, on the question of competitive bidding for securities of railroads, were set out in an opinion dissenting from the majority members in approving the proposed issue of New York Central equipment trust certificates. An account of Commissioner Eastman's opinion appeared as follows in the New York "Sun" of May 20:

The interstate Commerce Commission today gave its approval to the proposed issue of $22,500,000 of New York Central Lines equipment trust gold certificates at 4½%. Certificates for $10,530,000 of the total authorization are to be immediately issued through the Guaranty Trust Company of New York for the purchase of $14,179,385 worth of various types of freight cars for the New York Central, the Cleveland, Cincinnati, Chicago & St. Louis and the Michigan Central.

Application for authorization of the issue came up before Division 4 of the commission, composed of Commissioners Meyer, Eastman and Woodlock. Commissioners Meyer and Woodlock approved. In a dissenting opinion Commissioner Eastman said that such securities should be put on a competitive basis and he critized the system whereby the railroads conducted their financing through a single big bank to the exclusion of others and without competition.

The equipment trust certificates are to be sold for not less than 96.43% of par.

Dissenting Opinion.

Commissioner Eastman in dissenting from majority approval of the application said:

"An unhealthy situation exists with respect to the marketing of railroad securities. In the case of the more important railroads this business is very largely monopolized by J. P. Morgan & Co. and Kuhn, Loeb & Co. of New York City. For example, the applicant in this proceeding, the New York Central, markets all of its issues as a matter of course through J. P. Morgan & Co. On the other hand the Pennsylvania markets all of its issues as a matter of course through Kuhn, Loeb & Co. Nor does the reason for this situation lie in the fact that these are the only banking concerns able to handle the business. On the contrary, there are now several banking houses that are well equipped to handle issues of railroad securities or at least issues of ordinary size, and as a matter of fact do market similar issues of the securities of industrial corporations.

"There is much to be said in favor of the plan under which a railroad company uses as its fiscal agent a single banking house and does not resort in marketing its securities to any form of competitive bidding. In my opinion however, these arguments have much less weight, if they have weight at all, in the case of securities like equipment trust obligations which are practically standardized and as to which the credit of the particular carrier is of lesser importance. So far as at least such securities are concerned, I am convinced that resort to competitive bidding is entirely practicable and would tend to bring about healthier financial conditions much less open to legitimate attack.

Field for Competitive Bidding.

"We have never heretofore attempted directly or indirectly to force competitive bidding in the case of equipment trust obligations but have been content with fixing a minimum price for the issue which seemed to be reasonable. In the case now before us, however, we have an excellent opportunity for somewhat different procedure. The applicant is a carrier of strong financial standing and there is nothing unusual about the equipment trust certificates which it proposes to become sponsor for. The issue, which is of moderate size, plainly offers a splendid field for competitive bidding.

"Moreover the minimum price which the applicant proposes and which it is unwilling to modify voluntarily is out of line with prevailing market prices, a fact which is recognized in the majority report under which the minimum price is fixed at a little higher level. The circumstances fully justify us I believe in presenting these alternatives to the applicant: (1) sale through J. P. Morgan & Co., at a minimum price closely approximating the market level; or (2) if applicant is unwilling to adopt such an alternative, sale to the highest qualified bidder after competitive bids have been publicly advertised for and received. I should be in favor of requiring competitive bidding without any other alternative except that I doubt our power to do this. We have power to fix a reasonable minimum price, and if our conclusion as to such price is questioned I believe that we also have power to require the matter to be determined by the practical test of competitive bidding.

"There have been other cases, no doubt, in which a different carrier and a different fiscal agent were involved, and where such alternatives might well have been presented and my selection of this particular case is not intended as discrimination against either this applicant or its fiscal agent. The situation is one where a start in another direction ought to be made in the public interest and the circumstances of this case offer an unusually good opportunity for such a start."

Fought Out in 1922.

The ghost of competitive bidding for railroad securities has raised its head once more, this time in milder form than on the two previous occasions. In 1922 the I.-S. C. Commission held a hearing which was largely attended by leading railroad bankers and railroad executives and at which the whole question of the right of certain banking institutions to handle the financing of certain roads was threshed out in a two-day session.

The testimony which was brought out was overwhelmingly in favor of permitting banks to handle the issues of the same carriers whenever recourse was had to financing. The claim was made that to put issues up for competitive bidding paved the way for upsets in the relationships between the roads and the bankers who best knew the affairs of the specific carriers. Following this hearing nothing further was heard on the subject until early last year when the commission ruled that an issue of $850,000 of Chicago Union Station general mortgage bonds be put up and knocked down to the highest bidder, at the same time authorizing Kuhn, Loeb & Co. to handle an issue of $7,000,000 of guaranteed 5% bonds in the usual manner.

A ruling by the commission withdrew this proviso and both issues were marketed by Kuhn, Loeb & Co. The move created considerable of a stir in the financial district, and it is understood that lawyers both for the road and the bankers made strenuous representations to the commission to support their claim to handle the issue. Since then and until to-day nothing more has been said on the subject.

Edward Jerome Dies on "Speculation and the Grain Futures Market"—Service Organized Speculation Renders.

Contending that organized speculation renders to both producer and consumer a great service, Edward Jerome Dies of Chicago points out that "farmers want their money soon after harvest. Consumers want the wheat or its products from day to day throughout the year. Some one must carry the year's supply with all the risk and with the various items of expense incident to such ownership." This, says Mr. Dies, "is done by the speculator." Continuing, he says:

It is his business to study conditions affecting supply and demand. He buys on the strength of careful calculations. He performs a useful function as a distributer. It is the average profits over a period of years that count for the speculator. The myths of huge fortunes cleaned up over night are most damaging to the organized markets. Such colorful tales obscure the fundamentals of the marketing system and create in the mind of the layman the thought that commodity markets are largely institutions of gambling. Farm organizers have grown rich on such misstatements of facts. Politicians have gone to the United States Senate. Radical agrarian groups have controlled whole farm districts by skillful use of these and similar stories that mislead the public as to the functions of commodities markets. It is only by long and patient effort on the part of organized business that the true benefits of the commodities markets may become known and properly appreciated.

Mr. Dies in his discussion likewise has the following to say:

When the theory of a world shortage first developed last year speculators of the entire world began buying wheat. As the crop conditions in surplus wheat countries continued supporting this theory, prices marched steadily upward.

That farmers greatly benefited by the speculative support of the world shortage theory is well known by all familiar with the situation.

During the last six months of 1924 organized exchanges absorbed enormous wheat receipts without a break in prices.

Receipts of wheat at primary markets in the United States from July to November were 362,000,000 bushels, as compared with 221,000,000 the preceding year.

This means that farmers literally dumped on the market in five months 141,000,000 bushels of wheat in excess of the normal flow. And the upward climb of prices was unhalted. This, incidentally, would disprove the theories of wheat pooling advocates who have contended that to control the flow of wheat to market would likewise control prices. Speculative and investment sentiment was made effective in protection against declining prices during the great marketing movement. This invaluable service of the futures market has long been an outstanding characteristic of world commerce. It has been endorsed by all leading economists.

When wheat economies appeared later in the crop year, when the world shortage proved less severe than had been anticipated, and when prices receded, criticism among opponents of the grain exchanges was widespread. Some attempted to show that the farmer had suffered. The fact is that the loss did not fall upon the farmer. Before the major slump occurred, some authorities estimated that but 13% of the crop remained on the farm, little more than enough to supply the demand for seed. Whether this figure is correct is not important. The point is that the great bulk of the crop came to market during the high price and that receipts at all primary markets were unprecedented. All of which clearly proves that the farmer benefited as never before in time of peace.

It has been pointed out that without organized speculation, large stocks of wheat on hand the world over in the spring of 1924, together with our huge crop of the following summer, might have placed the market at extremely low figures. Wheat might have been fed to animals and poultry in large quantities because it was cheap. The Orient would have consumed cheap wheat. Europe would have absorbed much larger quantities. The serious crop damage in Canada, Europe and Argentina, which came later, might have combined to bring about famine.

It was the speculative support given the market at the first appearance of danger that brought the high prices for the farmer. Speculators took chances in June, when no others cared to assume the risk.

The popular theory is that the speculator always wins, which, of course, is ridiculous. In the present instance, it is certain that many big speculators whose activities made higher prices for farmers, ruined themselves because the world demand did not develop to the point anticipated.

To-day the grain exchanges are under rigid supervision of the Federal Government. All information concerning trades of individuals is available and is closely scrutinized. It is not the supervision of the Government that is distasteful and harmful to the exchanges. Rather it is the sensational political threats of investigations and upheavals that are most disturbing.

The effect of these sensational political threats upon the market, a vast sensitive machine, is instantaneous. Commercial history shows that speculative markets will not brook political interference without disastrous results. Speculation is founded on the proposition that any individual has the right to buy or sell whatever he likes. Selling waves and lower prices generally follow sensational political threats.

When Italy attempted to stabilize money with an edict requiring payment in cash of 25% of the value of all stocks and bonds bought on margins, prices fell with a thump. At Trieste the break in industrial bonds was so pronounced that the public entered the Exchange and smashed the quotation boards. Rioting by bankers, commission merchants and investors broke out in Rome, Florence, Milan and other cities.

Money grows timid in periods of uncertainty, and this timidity usually is first apparent in the speculative markets.

Political interference with the grain markets always has brought a disturbing shiver that vibrates throughout commerce and industry. When such interference is permanently at an end business generally will have benefited.

"Special Handling"—Domestic Parcel Post Mail.

Postmaster Kiely, in inviting on April 28 particular attention to a new and speedier service for domestic parcel post mail, which is called "special handling" service, says:

Whenever in addition to the regular fourth-class (parcel post) postage and the 2-cent service charge, 25 cents postage is affixed to a parcel of fourth-class matter with the words "special handling" written or printed upon the wrapper, such parcel will receive the same expeditious handling, transportation and delivery as first-class mail.

Such parcels should be prominently indorsed by the sender "special handling," preferably in the space immediately below the postage stamps and above the address.

25-cent "special handling" postage stamps are provided and should preferably be used, but if not available ordinary postage stamps may be used to pay the fee.

Mailers of perishables such as meats, vegetables, fruits, flowers, &c. and in fact any other matter not otherwise provided for by law or regulation, have now under the new law the privilege of purchasing special handling service.

Treasury Department Printing Greater Amount of Paper Money Than Ever Before—Proposed Changes in Denominational Issues.

It was stated on May 10, in accounts from Washington, that the Treasury Department has formulated plans for printing more paper money in the next fiscal year than has ever been turned out by the United States Government in any other twelve months in history. The Associated Press, from which this is learned, said:

Orders have been prepared for the purchase of 200,000,000 sheets of distinctive silk fibre paper, from each sheet of which eight pieces of currency are made, and, beginning July 1, the great Bureau of Engraving and Printing will be run at maximum capacity to meet the nation's paper money requirements. An order for 25,000,000 sheets already has gone to the manufacturers and this installment will be delivered in three weeks.

Announcement of the Treasury's program made to-day disclosed that never in any one year before had the orders for money paper exceeded 150,000,000 sheets. That quantity was ordered during the year now coming to a close and it was about 20% greater than ever was used before in a like period.

Coincident with announcement of the printing program, Assistant Secretary Dewey, whose job it is to see that there is plenty of money available in the country, made known that the Treasury would take its first step July 1 toward building up a reserve of currency. By this method, it is hoped, the life of the paper money may be prolonged. An opportunity will be had for "curing" the money before it goes into active service, and this process is expected to keep it from fraying, cracking and otherwise going to pieces so easily.

The life of the one dollar bill now is only about eight months, whereas Treasury experts figure it should be about a year. In pre-war days the average dollar bill would wear about 14 or 15 months, but times have changed. Mr. Dewey is convinced that high prices, use of automobiles, the necessity of commerce and industry and modern ideas and habits compel the carrying of more money. Thus the silver dollar has fallen into disusr and the dollar bill and bills of larger denomination have come into greater use with the result that they wear out more quickly.

As to proposed changes in the denomination issues of the country's currency, the "Wall Street News" in advices from Washington May 26, said:

Changes in the denominational issues of United States currency are likely to be authorized by President Coolidge and Secretary of the Treasury Mellon, it was said today at the Treasury Department. From a nation-wide survey, just completed by officials, it has been found that there is not a need for the various paper bills now flooding the country.

Assistant Secretary of the Treasury Dewey believes it about time that the government should correct the topsy-turvy aspect of the country's currency by eliminating some of the various denominational bills. At the same time, it is thought that a savings could be effected in the use of silk paper by devoting the 20 carloads required during the year to a few issues. The $2 bill that has caused more trouble in banks, commercial houses and financial institutions than the proverbial "bad penny" is slated to go. The time honored "five spot" also is looked upon by officials with suspicion. The changes are sought to prevent much confusion to the public in the exchange "over the counter."

Would Eliminate $2 Bill.

"Without making it too difficult," Assistant Secretary Dewey said, "it may be explained that the Treasury Department and the Bureau of Engraving is now turning out five general kinds of paper money; silver certificates, United States notes, gold certificates, national bank currency and Federal Reserve currency. With the latter two, we are not concerned, but just consider the denominations of the first three kinds. They are issued in five, six and eight denominations, respectively, making a total of 19 types of 'old fashion' money issued directly by the Treasury."

Mr. Dewey then pointed out that if some way could be found to eliminate denominations of the silver certificates, for example, so as to leave only the one, and—bane of the superstitious—the two dollar bill—the necessity for manufacturing three types of bills would be eliminated, and by the process he thought, the average person might get a little better acquainted with the silver certificate. The same methods could be applied to other kinds, too, Mr. Dewey said. But there is no present intention of doing away with any of the forms of the currency until it is ascertained that there is a public demand for a change.

Some officials, however, favor reducing the United States notes to one denomination, the five dollar bill, which would eliminate five denominations of money. Then the famed yellow back, from the prince of bills, the $10,000 note to the more or less familiar "ten spot," would be allowed to remain the same with its range, including also the twenties, the fifties, the $100, the $1,000 and the $5,000 note to take care of all requirements.

To Be Taken Up Shortly.

It is expected that the entire subject of currency reform will be taken up by Secretary Mellon and his aides within a short while. Preliminary studies are being made in all centers and until the result of this canvass is received, the Treasury here will "mark time."

An attempt was make recently to circulate the old cartwheel silver dollar in the effete East. The result was nil. As fast as the silver eagle was turned out in the pay envelopes and through the banks, the money was returned to the Treasury for exchange into paper currency. In the West, however, there was a greater consumption of coins and it is understood that several millions of silver dollars were added to the circulation. The Treasury experiment in this case was done for the purpose of saving in the use of the silk paper.

Annual Conference of National Association of Mutual Savings Banks—To Be Held June 17-19 at Poland Springs, Maine—Deposits in These Institutions Over Seven Billion Dollars.

America is fast developing into a nation of savers. As never before in its history the people are laying aside regularly in bank accounts prudent portions of their income, until the practice has attained remarkable proportions. The best means of investing and safeguarding this great total and other related matters will come before the sixth annual conference of the National Association of Mutual Savings Banks to be held in Poland Springs, Me., June 17, 18 and 19. Representatives of banks scattered over the country will be present. Figures at the headquarters of the association in New York reveal that there are to-day more than 11,000,000 depositors in these banks, with a total exceeding $7,000,000,000 to their credit. This is a gain of almost $3,000,000,000 since the association was organized in Boston five years ago.

James M. Willcox, President of the Philadelphia Saving Fund Societ,, the oldest mutual savings bank in the country, is also President of the association and will open the conference. Familiar forms of convention programs will be discarded this year, it is announced, and open forums will replace the old-time formal reading of papers. An authority will be in charge of each discussion and delegates will present their questions or ideas from the floor. Three sessions will be held, the first devoted to the general topic of "Mutual Savings Bank Administrative Policies," the second to "Extension of the Field of Investment for Savings Banks," and the third to matters relating to the development of bank service and making savings banks the centre of community economic welfare.

Exhibits demonstrating work among school children and progress toward recruiting the "Twenty Million Savers Army by 1930" of the association will be features. This "army" was launched to "encourage independence and good citizenship." Other features of the meeting will be a program for the women and the annual golf tournament, all culminating in the conference dinner on the closing night. Distinguished figures in finance, commerce and official life will speak, when 1,000 persons are expected to attend the banquet.

Some of the outstanding features of mutual banks are that they have no shares to draw profits, so that all earnings accrue to depositors. The trustees are prohibited by law from receiving salaries or otherwise to profit by the operations of the bank. State laws also hedge in the methods of doing business with strict regulations as to investments, reserves and other safeguards. It is planned to devote discussions at the convention to problems of practical importance to bankers in their everyday affairs. For instance, on the opening day such topics will be taken up as the policy of keeping banks open after 3 p. m. and before 10 a. m., the policy of pensioning superannuated employees; of reckoning interest in monthly, quarterly or semi-annual periods, and of paying interest on deposits when justified by earnings at a higher rate than that which prevails among other banks of the community. Deliberations regarding the investment field will be of special value in view of the numerous legal restrictions which surround the investment of savings bank funds in various States, many of them with peculiarities unknown elsewhere and without regard to a general standard. Officers for the coming year will be announced at the closing banquet, following the annual election.

ITEMS ABOUT BANKS, TRUST COMPANIES, &C.

Two New York Stock Exchange memberships were reported posted for transfer this week, that of C. A. Herts to Hermann C. Schwab and that of Thomas F. Cahill to Robert L. Cahill. The consideration in each case was stated to be $106,000, the same as the last preceding transaction.

A new national bank is being organized in this city to meet the demand for increased banking facilities in the Times Square section and the new uptown financial district. When the organization has been completed, the financial and business leaders back of this institution plan to open elaborate banking offices at the northeast corner of 40th Street and Broadway. An announcement regarding the new bank says:

The plans for this institution have been under consideration for some time, and in the construction of the new office building at 1440 Broadway the corner offices have been specially designed with a view to offering every known banking facility. These will include most modern protected safe deposit vaults in the lower part of the building.

The bank has been capitalized for $2,000,000 and will begin business with a paid in surplus of $500,000, making a total capitalization of $2,500,000. The real need for a high class independent banking institution at this location is best evidenced by the fact that the entire capital stock has been more than twice oversubscribed with the mere preliminary announcement of the formation of the organization. Among the subscribers are listed prominent merchants and manufacturers in diversified lines of industry as well as a number of well-known bankers and leading professional men. Some of the industries having substantial representation in the bank include the pulp and paper industry, iron and steel, silk, wool, cotton, fur, as well as the needle trades and prominent publishing firms.

While the personnel and names of the officers of the institution are not yet ready to be announced, confirmation of the report that the plans for the formation of this institution are rapidly nearing completion was obtained from D. S. Gottesman, President of M. Gottesman & Co., 18 East 41st Street, New York, Chairman of the Organization Committee.

The Manufacturers Trust Co. announced on May 28 that beginning June 1 the business conducted by the Gotham National and the Fifth National banks at 1819 Broadway and 131-133 East 23d Street, respectively, will be continued as branch offices of the trust company. The increase in the capital of the Manufacturers Trust Co., incident to the merger of the two banks with the trust company was referred to in these columns last week, page 2646. The merger plans were also noted in our issue of April 18, page 1974.

Thomas A. Finn, Manager of the Credit Department of the Farmers Loan & Trust Co., this city, died on May 25. Mr. Finn had been a member of the staff of the Farmers Loan & Trust Co. for the past twelve years.

Arthur Lederer, Vice-President of the Standard Bank, of New York, and Mrs. Lederer left for Europe this week on the SS. Belgenland. Mr. Lederer will visit the bank's correspondents in the principal European cities and will return to New York in about three months.

William E. Paine, a director of the Equitable Life Assurance Society and a trustee of the New York Produce Exchange, died on May 23. He was formerly President of the Carrol Box & Lumber Co. and of the Yellow Pine Lumber Co., and also a director of the Seaboard National Bank. He resigned from the directorate of the latter last fall.

The National City Bank of this city opened its twentieth branch on the Island of Cuba at Vertientes on May 23. The attendance of Charles E. Mitchell, President, and a party of National City Bank officials at the opening of the new Cuban head office building in Havana was mentioned in our issue of last week, page 2647.

Roy A. Hovey, of Wakefield, Mass., who for the past three years has been Deputy Bank Commissioner of Massachusetts, on May 27 was promoted to Bank Commissioner by Governor Fuller, to succeed Joseph C. Allen, who resigned on May 11 to become a Vice-President of the American Trust Co. of Boston. The Boston "Transcript" of May 27 had the following to say with regard to Mr. Hovey's career and his appointment as Bank Commissioner:

Mr. Hovey was born in Stoneham, Mass. After being graduated from the Stoneham High School he entered the employ of the Wildey Savings Bank in Boston and in 1910 was appointed an assistant bank examiner by the then Commissioner, Arthur B. Chapin. He was later appointed examiner and resigned to accept a position as examiner with the Federal Reserve Bank of Boston.

In 1920 he re-entered the State Banking Department as Director of the Division of Trust Companies, and in 1922 was appointed to the newly created office of Deputy Commissioner by Mr. Allen. He was with Commissioner Allen through the disturbances in the financial situation in Boston and which resulted in the closing of four trust companies, and is thoroughly in touch with the entire banking situation to-day. He had the endorsement of men throughout the State, who believed that he was the best possible choice the Governor could make.

As Deputy Commissioner Mr. Hovey represented the Banking Department before legislative committees, where his knowledge of conditions earned him the high regard of legislators generally. It is understood that he will carry out the policies inaugurated by his predecessor, Mr. Allen.

The following with regard to the disposition of deposits in the defunct Cosmopolitan Trust Co. and Hanover Trust Co. of Boston standing in the names of persons who failed to prove their claims within the time limit fixed by the Court, appeared in the Boston "Transcript" of May 22:

The full bench of the Supreme Court, in a decision handed down May 22, instructs Bank Commissioner Joseph C. Allen (who resigned May 11) that deposits in the Cosmopolitan and Hanover Trust companies standing in the names of persons who failed to prove their claims within the time limit fixed by the Court, are to be distributed proportionately among depositors who have proved their claims. There is nothing in the statute, the Court says, which requires any reservation of funds on account of deposits or other claims which have been unproved.

There is in the hands of the Bank Commissioner $84,178 belonging to the commercial department of the Cosmopolitan Trust and $55,258 19 in the commercial department of the Hanover, and $16,477 12 in the savings department of the Cosmopolitan.' The depositors in the savings department of the Hanover have been paid one hundred cents on the dollar. f

The Comptroller of the Currency has approved the application of the Methuen National Bank, Methuen, Mass., to organize with a capital of $100,000. The bank will begin business Aug. 1 1925. Its stock, par $100 per share, is to be disposed of at $150 per share.

The newly organized First National Bank of North Bergen, N. J., formed with a capital of $100,000 and a surplus of $20,000, will open for business on June 1 in the building which is being constructed at the Six Corners, North Bergen. The officers of the new bank are James Noland, President; Frank R. Austin, Vice-President, and John J. Roe, Cashier. The directors are: Arnold A. Renson Sr., Edward McDermott, Daniel Bermes, William G. Hille, Albert Ensminger, Andrew C. Golswarden, Frank R. Austin and James Noland. The stock is in shares of $100; it has been placed at $120 per share.

A. Jefferson Jones, President of the New Brunswick Trust Co., New Brunswick, N. J., died on May 27 of pneumonia after a week's illness.

Frank T. Allen, Vice-President of the Fidelity Union Trust Co., Newark, N. J., died May 26 in Montclair, N. J., at the age of 53. Mr. Allen was for many years on the news staff of the Newark "Evening News," which he left in 1912 to become Publicity Manager of the Fidelity Trust Co. In 1916 he was elected a Vice-President, which position he continued to hold with the consolidated Fidelity Union Trust Co.

A. Lincoln Acker, Collector of the Port of Philadelphia, has been elected a director of the Tenth National Bank of Philadelphia.

The Economy National Bank of Ambridge, Pa., has applied to the Comptroller of the Currency for a charter to organize with a capital of $100,000.

To celebrate the first anniversary of the removal of the Union Trust Co. of Cleveland to its new building, the entire force gathered around an immense birthday cake in the bank's cafeteria on May 18. During the bank's opening week a year ago almost half a million people visited the Union Trust lobby. Since that time, the bank reports, interest in the building has not lagged and during the past year at least 20,000 visitors have been conducted through the bank. "One year of service in our new building," said J. R. Nutt, President of the Union Trust Co., "has proved to us conclusively that Cleveland needed a large banking lobby, such as we have provided. Every teller's window in our new banking quarters has been put in use in order to wait on customers."

Two Indiana banks were closed last week in voluntary liquidation. They are the Farmers' State Bank at Colfax and the Hoosier State Bank at Stilesville. "Frozen loans" are said to be the cause of the embarrassment of the Colfax institution. Its closing followed a conference held at Indianapolis between bank officials and the State Banking Department, at the call of a State bank examiner who examined the books on May 19. The Hoosier State Bank of Stilesville will be liquidated, it is stated, through the Citizens' State Bank of that place. No loss to depositors in either case is looked for, it is said.

On Monday, May 25, the Continental Bank of Detroit, Detroit, was absorbed by the Central Savings Bank of that city. A statement in regard thereto issued by the directors of the Central Savings Bank reads as follows:

With the opening of business this morning, announcement was made that the Central Savings Bank had taken over the deposits of the Continental Bank, amounting to more than $2,390,000, together with its five branches, and that its depositors had become members of the large family doing business with the Central Savings Bank, which is affiliated with the First National Bank.

Laurence P. Smith, President of the Central Savings Bank, stated when interviewed:

This transfer of relations will afford the depositors and customers of the Continental Bank the splendid facilities of the Central Savings Bank. Each individual, company or corporation will receive the same courtesies and accommodations that are available to all Central Savings Bank customers.

It is generally felt in business circles that this new arrangement will prove of great benefit to the Continental Bank patrons, for they now will have behind them the resources of the First National Bank group, amounting to more than $160,000,000.

William B. Applegate of the Illinois Merchants Trust Co. of Chicago was elected President of the Chicago Chapter of the American Institute of Banking at the annual meeting on Tuesday, May 26. Frank R. Curda of the Pioneer Trust & Savings Bank, was elected Vice-President, and William H. A. Johnson of the Continental & Commercial Trust & Savings Bank, Treasurer. New directors are Robert J. Hargreaves of the Federal Reserve Bank, C. J. Jackson of the State Bank of Chicago, Charles Macaulay of the Washington Park National Bank, Paul E. Nordstrom of the First National Bank and Ray J. Welsh of the Central Trust Co. of Illinois. Joseph J. Schroeder continues as Executive Secretary. It was announced that a building fund had been started with an initial investment of $3,000 in Liberty bonds. The fund was raised by contributions of $1 from each member and is to be accumulated by a similar annual contribution. It was also announced that leases had been signed for the enlargement of the present quarters to a capacity of 60 classes a year and that the budget for 1925-26 was $65,000, of which $25,000 is being contributed by the banks. The Chapter headquarters are at 162 West Monroe Street and the membership is over 3,000.

Referring to the affairs of the Plainview State Bank, Plainview, Minn., which was closed on March 4 four days after the disappearance of its President, E. L. Sylvester, a press dispatch from Plainview on May 15, which appeared in the Minneapolis "Journal" of the same day, stated that two other officers of the bank, namely George F. Sylvester, former Cashier and brother of the missing President, and G. A. Stoltz, former Assistant Cashier, had been indicted for alleged falsifying of the records and receiving deposits when the bank was insolvent, and had been released on that day in $5,000 bail each. A. S. Kennedy, the Vice-President of the bank, it is understood, was indicted previously and now is at liberty on bail. We last referred to the affairs of this bank in these columns in our issues of March 14 asd May 16 1925. In our previous items the name of the failed bank was given as the First State Bank, whereas the correct title is the Plainview State Bank.

Henry Stene, former President of the First National Bank of Atwater, Minn., and of the Farmers' State Bank of Kandiyoki, that State, both of which institutions were closed Feb. 14 of this year, was arrested on May 11 upon his return to Atwater from a two weeks' trip to Arizona and California, according to the St. Paul "Pioneer Press" of May 12. With Mr. Stene's arrest on the specific charge of forging a note for $2,500, it was stated, came the announcement the same night by the directors of both the failed banks that shortages had been discovered in the two institutions totaling approximately $380,000.

Announcement was made by the Bank of Topeka, Kan., last week that a national charter had been granted the institution by the Comptroller of the Currency and that the Prudential Trust Co. (heretofore an affiliated institution) had been merged with it under the title of the National Bank of Topeka. The new bank is capitalized at $500,000 and has surplus, undivided profits and other assets amounting to that figure. Carl W. McKeen, who became President of the Bank of Topeka the 1st of this year, heads the new national institution. S. E. Cobb, who heretofore was Chairman of the Board of the Bank of Topeka, and President of the Prudential Trust Co., has resigned. He will, however, retain his interests in the institution, it is said, and continue to make his home in Topeka, devoting the next three years to travel and recreation. The personnel of the new National Bank of Topeka is as follows: Carl W. McKeen, President; Joeb Mulvane, W. H. Davis, D. W. Mulvane and W. W. Bowman, Vice-Presidents; Harry D. Wolf, Cashier; John E. Kirk, Trust Officer; Arthur D. Wolf and Harrison S. Morgan, Assistant Cashiers; Leeland Thompson, Manager of the Investment Department, and W. R. Barrett, Auditor. Mr. Thompson, who has just joined the organization as Manager of the Investment Department, has been associated with the Brown-Crummer Investment Co. of Kansas City, Mo., for the past few years. The Bank of Topeka was founded in 1868 and was one of the oldest and largest State banks in Kansas.

Failure of the First National Bank of Hugo, Okla., was reported in the following Associated Press dispatch from that place, appearing in the New York daily papers of Thursday, May 28:

The City National Bank, the third and last bank in Hugo, closed to-day. A notice on the door said the action was taken by "order of the board of directors."

The closing of the first two banks was attributed to inability to liquidate old cotton loans. City business men yesterday made a concerted effort to replenish the bank's cash, but were unable to do so.

It was indicated to-day that while there had been no apparent "run" on the bank, many depositors had drawn on the local institution through banks in cities nearby.

Only two banks remain open in Choctaw County, one at Fort Towson and the other at Boswell, both small villages. Some business men here to-day sent to these banks for cash, but plans for the future have not been made.

There was an apparent reaction to optimism soon after the closing of the last bank, the feeling prevailing that its action would hasten plans to reopen the Hugo National Bank, the largest in the city.

Business was seriously interrupted when the majority of patrons were cut off with only the cash they had in their pockets. Hugo has a population of 6,000.

Frank Talbott, for several years past President of the American National Bank of Danville, Va., recently resigned on account of ill health and was succeeded by W. R. Fitzgerald, who for the last 18 months has been President of the Agricultural Credit Corporation of Danville, according to a special dispatch from that place on May 22 to the Richmond "Dispatch." Mr. Talbott will continue his connection with the bank as a director, it was said, while Mr. Fitzgerald, the new President, will retain the presidency of the Agricultural Credit Corporation.

Walter R. Leak, a Vice-President of the Merchants' Bank & Trust Co. of Winston-Salem, N. C., and prominent business man of that city, died on May 13 after a brief illness at the age of 65. Mr. Leak had a large part in the development of Winston-Salem, taking a definite pride in its commercial, civic and religious advancement. Before entering the banking business he was associated with the Brown & Williamson Tobacco Co. for 27 years.

Consolidation of the Carolina Bank & Trust Co. of Henderson, N. C., with the Citizens' Bank & Trust Co. of that place under the title of the latter was announced on May 23 in a press dispatch from Henderson on May 24 printed in the Raleigh "News" of the day following. W. A. Hunt, Vice-President and Cashier of the Citizens' Bank & Trust Co., was reported in the dispatch as saying that the object of the union of the institutions was the combining of the interests of the stockholders, many of whom are investors in both companies, and the added advantage of economy in operation. R. C. Gary, Cashier of the Carolina Bank & Trust Co., and one of its organizers six years ago, will become a Vice-President of the enlarged bank, it is stated, but otherwise there is to be no change in its personnel. J. Bailey Owen is President.

B. S. McKinney, George Pittman and F. H. Blankenship, all Vice-Presidents of the American Exchange National Bank of Dallas, Texas, were elected directors of the institution on May 12, bringing the number of directors up to 32, according to the Dallas "News" of May 13. Mr. McKinney's active connection with the bank, it is understood, began on May 18, when his resignation as Governor of the Federal Reserve Bank of Dallas became effective. The officers of the American Exchange National Bank are at present: Henry C. Coke, Chairman of the Board; Nathan Adams, President; B. S. McKinney, E. J. Gannon, Louis Lipsitz, A. V. Lane, George Pittman, J. C. Chidsey, Vice-Presidents; F. H. Blankenship, Vice-President and Cashier; H. H. Smith, E. S. McLaughlin, R. V. Sanders, B. B. Johnston, F. C. Pondron, Paul Danna, Sam Turner and R. E. L. Knight Jr., Assistant Cashiers, and J. J. O'Connell, Auditor.

That J. S. Caldwell, former Vice-President of the Fort Worth National Bank, Fort Worth, Tex., and retiring Vice-President of the Federal International Banking Co. of New Orleans, would go to Houston as Vice-President of the Union National Bank of that city, was announced in Fort Worth on May 18, according to a special dispatch from Fort Worth to the Dallas "News" on that date.

A dispatch from Pomona, Cal., on May 13 to the Los Angeles "Times" stated that the State Bank of Pomona, which has been owned by the Bancitaly Corporation (the subsidiary institution of the Bank of Italy of San Francisco) since April 19 1924 was to be transferred on May 15 to the Americommercial Corporation, of which the Bancitaly Corporation is the principal owner. This, it was stated, would involve no change other than that of changing the name of the institution from the State Bank of Pomona to the Bank of America. The officers of the bank are: John A. Gallup, President; Dr. J. McGowan, Vice-President; E. R. Yundt, Cashier, and L. S. Birdsall, Assistant Cashier. It was further stated that the bank's present quarters were to be enlarged to twice their present size and completely remodeled within the next few months.

That another important Canadian bank consolidation is under way was disclosed Friday night, May 22, when Hon. James A. Robb, acting Minister of Finance, announced in Ottawa that he had given his consent to the purchase of the Union Bank of Canada by the Royal Bank of Canada. Before the agreement can finally be approved by the Governor-in-Council, it must be ratified by the shareholders of both the institutions, as provided by the Canadian Bank Act. Under the terms of agreement of sale the shareholders of the Union Bank will receive one share of Royal Bank stock for each two shares of Union Bank stock. As the quoted price for Royal Bank stock on May 22 was $236 and for Union Bank shares $111, shareholders of the latter are obtaining a bonus of $14 a share by the transaction. In asking his consent to the agreement of sale, Mr. Robb stated, the directors of the Union Bank had represented that in view of substantially reduced earnings, with no prospect of early improvement, and the difficulty, despite most rigid economies, of curtailing proportionately the cost of operation, they were faced with the necessity of making a drastic cut in the annual dividend, which would result in a substantial drop in the value of the bank's shares, and further might adversely affect the general standing of the institution. To obviate the possibility of such a serious situation, and in order to protect the shareholders and the public, as well as in the interest of general financial stability, the directors, after exhaustive consideration, deemed it their wisest course to obtain the consent of the acting Minister of Finance to a sale to the Royal Bank of Canada. Inasmuch as the head office of the Union Bank is in Winnipeg and as it has more branches in the Middle West than any other bank, Mr. Robb stated that he was glad to be able to announce that the Royal Bank of Canada has given assurance that in future its executive offices in Winnipeg will be made much more important than in the past. More Western directors will be elected and an additional assistant general manager appointed, with headquarters at Winnipeg, to take charge of Western business. These changes, taken in conjunction with the large resources of the amalgamated banks, insure that general banking facilities to the agricultural and other interests of the Prairie Provinces will not only continue unimpaired, but should prove adequate for all legitimate future requirements. Mr. Robb added that, while he had been unsympathetic to further bank mergers, there could be no doubt that in the present circumstances he was warranted in acquiescing. According to the last statement issued by the Canadian Department of Finance (showing the condition of Dominion banks as of Mar. 31 1925) the capital of the Union Bank of Canada was $8,000,000, its rest fund $1,750,000; total deposits, $80,312,874, and its total resources, $115,316,741. The Royal Bank of Canada on the same date had capital of $20,400,000 with a rest fund of like amount; total deposits of $289,084,133 and total resources of $605,527,604. The Royal Bank of Canada has 536 branches in Canada, while the Union Bank has 327, most of which are in the Western Provinces. In quoting Sir Herbert Holt, President of the Royal Bank of Canada, in regard to the amalgamation, the Montreal "Gazette" of May 23 said:

When interviewed regarding the purchase of the Union Bank by the Royal Bank of Canada, Sir Herbert Holt, President of the Royal Bank, stated that the merger would, in his opinion, prove advantageous to the shareholders and customers of both banks.

Notwithstanding the fact that the Royal Bank has 536 branches in Canada and the Union Bank 327 branches, the two institutions are competitors at only 50 points. After the amalgamaion the Royal Bank will have 813 branches in Canada, and including foreign offices a total of 923 branches. The 50 points where the banks are now both represented are mainly the large centres where the cost of maintaining offices is relatively heavy. A very large saving would be effected by amalgamating branches at such points, and there will also be other substantial economies in management.

Sir Herbert stated further that the Royal Bank would have an unequaled connection in the West, where the Union Bank is particularly strong. He has always been a firm believer in the potentialities of Western Canada and the extension of the Royal Bank's activities in this section was personally particularly gratifying to him. The Royal Bank of Canada has now five directors in Western Canada, and he was very glad to be able to announce that steps would be taken promptly to elect several additional Western directors. The bank's executive staff in the West would be substantially increased and an assistant general manager would be stationed at Winnipeg, it being the intention to direct and manage Western business from Winnipeg to as great an extent as possible.

The unequaled connection and great resources of the merged banks would ensure to the West all reasonable banking facilities.

The following with regard to the affairs of the defunct Home Bank of Canada (head office Toronto), which collapsed on Aug. 17 1923, appeared in the Toronto "Globe" of May 19 last:

Attention is drawn by the liquidators of the Home Bank of Canada to a newspaper report issued recently that from the assets of the bank it was expected to salvage another 20% dividend for the depositors. G. T. Clarkson and I. E. Weldon, the liquidators, are emphatic in their denial of this report.

Mr. Clarkson could not be reached yesterday, being engaged on an arbitration, but Mr. Weldon, when interviewed, said he was authorized by Mr. Clarkson to state that by no human possibility could the remaining assets of the Home Bank realize a further 20 cents on the dollar for the depositors. Further, Mr. Weldon declared, if some major litigation now in progress goes against the liquidator, very little, if any more, dividend will be received by the depositors.

The very best that could be stated by the liquidators was Mr. Clarkson's previous estimate that, under favorable circumstances, the estate might ultimately realize another 10 cents on the dollar. It was pointed out by Mr. Weldon that it takes the sum of $170,000 approximately to pay a dividend of 1% to the depositors.

The New York agency of the Standard Bank of South Africa, Ltd., announces the receipt on May 28 of the following advices by cablegram from its head office in London regarding the operations of the bank for the year ended March 31 1925:

Subject to audit, the board of directors have resolved to recommend to the shareholders a dividend for the half year ending March 31 last at the rate of 14% per annum, subject to income tax, to appropriate £75,000 to writing down bank premises and to add £125,000 to the officers' pension fund, carrying forward a balance of about £109,000. The bank's investments stand in our books at less than market value as at Mareh 31, and all other usual and necessary provisions have been made. The general meeting will be held on July 22 next.

We have just recently received the condensed report of the Banque Nationale de Credit of Paris, one of the important French banks. The statement, which is dated Dec. 31 1924, shows assets of 3,194,039,454 francs, of which cash on hand and in Banque de France and Treasury and due by banks and bankers amounted to 568,815,669 francs. Other principal items going to make up the resources were French Government Treasury bills and bills on hand, 1,440,408,479 francs; debtors in current account, 448,166,430 francs; loans, 398,373,298 francs, and customers' liability on acceptances, 102,521,625 francs. On the debit side of the report deposits were shown as 2,607,751,258 francs; acceptances and creditors by acceptance, 102,521,625 francs, and combined capital and reserves of 349,991,815 francs. M. Rene Boudon is President and M. Andre Vincent, Vice-President.

The annual report of the Comptoir National d'Escompte de Paris, Paris, for the year 1924 has been received. Total assets amounted to 4,753,479,043.86 francs on Dec. 31 1924, as against 4,699,948,870.56 francs on Dec. 31 1923. Deposit and current accounts show an aggregate of 4,185,140,401.27 francs, being an increase of 83,828,600.30 francs for the past year. The net profits for 1924 amount to 35,629,553.58 francs, as compared with 34,339,576.88 francs, and the dividend rate was increased to 12% per annum, as against 11% for the preceding year.

The 51st half-yearly statement of the Bank of Taiwan, Ltd. (head office Taipeh, Taiwan, Japan), as of Dec. 31 1924, has just come to hand. It shows total assets of yen 994,157,283, of which cash in hand and at bankers, bullion and foreign money amount to yen 44,408,110. On the debit side of the statement current accounts, fixed deposits, etc., are given as yen 267,004,073; bills payable, yen 216,442,361; bills rediscounted, yen 207,651,277, and net profits as yen 2,782,661. The bank's paid-up capital is yen 52,500,000 and its reserve funds amount to yen 14,180,000. A new branch of the institution was opened at Calcutta, India, on Oct. 1 1924.

THE CURB MARKET.

Trading in the Curb Market this week was in good volume and, while there was considerable irregularity in price movements, the market generally was strong. Public utility stocks were again the feature. National Power & Light common was conspicuous for an advance from 288 to 350, the close to-day being at 343. Lehigh Power Securities after early weakness from 127 to 122 jumped to 159 and ends the week at 156½. American Power & Light common rose from 61 to 65¼ and finished to-day at 64⅞. Carolina Power & Light common sold up from 400 to 430, reacting finally to 419. Commonwealth Power common eased off at first from 161 to 151, then advanced to 170, the close to-day being at 163¼. South Eastern Power & Light sold up from 90 to 102, the final figure to-day being 100½. There was a broader list of industrials traded in. Chapin-Sacks common advanced from 25 to 36 and closed to-day at 34⅜. Chrysler, after early weakness from 95 to 93½, ran up to 112½, the final transaction to-day being at 105½. Continental Baking common A sold up from 119¼ to 127½ and at 127⅜ finally. Victor Talking Machine dropped from 87 to 75 and finished to-day at 76. Kelvinator Corp. sold up from 24½ to 32¾, receding finally to 30¾. Oil shares were somewhat lower, though changes were somewhat narrow. Humble Oil & Refining declined from 63⅞ to 61, then advanced to 64½, with a final reaction to 62¾. Magnolia Petroleum sold down from 153¾ to 144. Standard Oil (Neb.) weakened from 253 to 247 and sold finally at 248.

A complete record of Curb Market transactions for the week will be found on page 2800.

THE WEEK ON THE NEW YORK STOCK EXCHANGE.

The stock market has again been strong and active, with many issues establishing new high records for the year. Trading was particularly active on Saturday, the sales reaching the largest total of any Saturday since January, though the market was a mixture of profit taking and fresh buying. Public utility shares were in strong demand at advancing prices and many specialties hung up new tops, International Paper making a net gain of three points to above 72, while American Can reached 194. Oil shares also were fairly active, Marland Oil going forward more than a point. Pierce Arrow preferred made a new high record with an advance of more than a point. The course of prices was downward on Monday, net declines of one to three points being recorded in a lengthy list of stocks. The exceptions to the downward trend, however, included several prominent issues. Industrial specialties were particularly weak, American Can yielding five points and Mack Trucks and Baldwin Locomotive declining from two to three points. Except for a few high priced specialties prices worked gradually down to lower levels on Tuesday. The feature of the trading was the strong demand for Maxwell Motors B which went briskly forward three points to a new high at 98, and Hudson Motors reached 57½ for the first time. The market resumed its upward climb on Wednesday, interest centring mainly around industrial specialties, though the motor stocks were also in strong demand at steadily rising prices. In the latter group, Maxwell B was again the leader and established a new high record at 106. Mack Trucks continued in the foreground and railroad stocks were particularly active, Chesapeake & Ohio, Lehigh Valley and Baltimore & Ohio leading the upswing in that group. The market was strong on Thursday, more than 30 stocks scoring new high levels. Interest continued to centre around industrial shares, which as a group closed the day at improved prices. Baldwin Locomotive was conspicuous by its rapid advance of over four points, United States Cast Iron Pipe & Foundry made a net gain of 6¾ points and General Electric improved fractionally. Reading, among the railroad stocks, crossed 87 for the first time. Motor shares, particularly Maxwell B, and Pierce Arrow pref., continued their record breaking upward movement, closely followed by Paige-Detroit, which also reached a new top. Under the leadership of the industrial shares the market continued its forward movement on Friday, though there was a period of unsettlement around midday during which Maxwell B had a bad setback, declining 13 points from its previous high. Railroad shares displayed substantial improvement, especially Southern Railway, which advanced to new high ground for the present movement at 96⅜, closely followed by Reading, which also reached a new top for the present movement at 90. The New York Stock Exchange and other exchanges will be closed on Saturday in observance of Memorial Day.

COURSE OF BANK CLEARINGS.

Bank clearings for the country as a whole will again show a satisfactory increase as compared with a year ago. This is the thirteenth consecutive week that our weekly totals have shown increases over the corresponding period last year. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ending to-day (Saturday, May 30) bank exchanges for all the cities of the United States from which it is possible to obtain weekly returns will run 17.4% larger than in the corresponding week last year. The total stands at $7,693,893,256, against $6,553,127,576 for the same week in 1924. At this centre the increase is 17.9%. Our comparative summary for the week is as follows:

Clearings—Returns by Telegraph. Week Ended May 30.	1925.	1924.	Per Cent.
New York	$4,387,302,234	$3,722,220,675	+17.9
Chicago	522,213,588	467,412,955	+11.7
Philadelphia	463,000,000	402,000,000	+15.2
Boston	331,000,000	292,000,000	+13.0
Kansas City	101,635,777	97,714,124	+4.0
St. Louis	122,000,000	102,800,000	+18.7
San Francisco	134,734,000	129,400,000	+4.1
Los Angeles	116,242,000	109,633,000	+6.0
Pittsburgh	140,979,676	121,737,000	+15.8
Detroit	130,852,901	109,002,984	—20.0
Cleveland	84,165,062	80,679,580	+4.3
Baltimore	89,258,773	80,630,487	+10.7
New Orleans	52,779,328	37,114,239	+42.2
13 cities, 5 days	$6,676,163,339	$5,752,345,044	+16.1
Other cities, 5 days	987,756,040	778,234,262	+26.9
Total all cities, 5 days	$7,663,919,379	$6,530,579,306	+17.3
Southern cities for Saturday	29,973,877	22,548,270	+32.9
Total all cities for week	$7,693,893,256	$6,553,127,576	+17.4

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them to-day, inasmuch as the week ends to-day (Saturday) and the Saturday figures will not be available until noon to-day. Accordingly, in the above the last day of the week has in all cases had to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results *for the previous week*—the week ended May 23. For that week there is an increase of 16.4%, the 1925 aggregate of the clearings being $9,330,302,400, and the 1924 aggregate $8,014,803,882. Outside of New York City the increase is 14.6%, the bank exchanges at this centre recording a gain of 17.9%. We group the cities now according to the Federal Reserve districts in which they are located and from this it appears that in the Boston Reserve District there is a gain

of 17.7%, in the New York Reserve District (including this city) of 17.7% and in the Philadelphia Reserve District of 17.5%. The Cleveland Reserve District has a gain of 11.2%, the Richmond Reserve District of 9.6% and the Atlanta Reserve District of 19.1%. In the Chicago Reserve District the totals are larger by 16.9%, in the St. Louis Reserve District by 1.4% and in the Minneapolis Reserve District by 19.4%. In the Kansas City Reserve District there is an improvement of 12.0%, in the Dallas Reserve District of 12.9% and in the San Francisco Reserve District of 14.7%.

In the following we furnish a summary by Federal Reserve districts:

a Includes customers' liability under letters of credit.

THE ENGLISH GOLD AND SILVER MARKETS.

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of May 13 1925:

GOLD.

The Bank of England gold reserve against notes on the 6th inst. amounted to £152,856,125, as compared with £153,906,315 on the previous Wednesday. The movement of gold to and from the Bank of England, since those reported in our last issue, are:

	Withdrawn.	*Received.*
May 6	£20,000	------
May 7	271,000	------
May 8	14,000	£5,000
May 9	------	------
May 11	36,000	------
May 12	373,000	------
May 13	360,000	------

Of the £373,000 shown above as withdrawn on the 12th, £350,000 was announced as earmarked for the Commonwealth Bank of Australia. The destinations were also announced of £584,000 of the remainder of the withdrawals, as follows: £546,000 for India, £21,000 for Spain, £12,000 for Switzerland, and £5,000 for Gibraltar. The total net efflux since the resumption of daily announcements by the bank up to date is £2,103,000. About £20,000 worth of bar gold from South Africa came on offer this week and was absorbed for the East at 84s. 11½d. the fine ounce—the equivalent of the Bank of England selling price. The freight of bar gold from London to New York has been raised to 5s. per cent from 3s. per cent, and therefore the gold gints given in our letter of the 29th last should now be taken as follows: London to New York, $4 8432 per £; New York to London, $4 9067 per £. The United Kingdom imports and exports of gold during the month of April last were as follows:

	Imports.	*Exports.*
Russia	------	£24,507
Netherlands	£7,450	48,845
Belgium	------	4,317
France	28,417	4,345
Switzerland	------	354,772
Spain and Canaries	------	19,710
Egypt	------	59,711
West Africa	106,398	4,915
Java and other Dutch possessions in the Indian Seas	------	11,600
United States of America	12,726	------
Central America and West Indies	1,140	------
Argentina, Uruguay and Paraguay	------	10,000
Other South American countries	683	5,000
Rhodesia	157,771	------
Transvaal	715,178	------
British India	------	687,026
Straits Settlements	------	11,065
Other countries	830	745,800
Total	£1,030,593	£1,991,613

The following table gives details of India's trade during the years 1919 to 1924 in bullion (in crores of rupees) since the war compared with the pre-war and war averages:

Net Imports—	*Pre-war Avge.*	*War Avge.*	1919	1920	1921	1922	1923	1924
Gold	29	8	3	10	—20	30	39	45
Silver	7	3	0	2	15	16	20	19

x Net export.

It will be observed from the above that the average imports of gold during and since the war is 13 crores, as against 29 crores pre-war average, and for silver 8 crores as against 7 crores. The inference, therefore, is that India's gold requirements, in order to make up lost leeway, will make strong demands for some years to come, but that her silver requirements are likely to be less pressing than during the last four years, though the enhanced prosperity of India ought to be reflected in her silver imports.

The Transvaal gold output for April 1925 amounted to 787,519 fine ounces, as compared with 825,479 fine ounces for March 1925 and 768,923 fine ounces for April 1924.

SILVER.

The market does not appear just now to have much resiliency. Prices rose until 31½d. was quoted on Saturday last for each delivery, but fell on the succeeding days until it reached 31 1-16d. for cash and 31¼d. for forward delivery to-day. This took place notwithstanding a considerable amount of bear covering and other purchases on Far Eastern account, and without any undue pressure from America, where buying orders have been placed for the Indian bazaars. The Continent has been very inactive.

* From unofficial sources. † The New York Stock Exchange has ruled that stock will not be quoted ex-dividend on this date and not until further notice. z The New York Curb Market Association has ruled that stock will not be quoted ex-dividend on this date and not until further notice.

a Transfer books not closed for this dividend. d Correction. e Payable in stock. Payable in common stock. g Payable in scrip. h On account of accumulated dividends. m Payable in preferred stock n Payable in Canadian funds.

§ Annual dividend for 1925, all payable in equal quarterly installments on April 1, July 1, Oct. 1 1925 and Jan. 1 1926, have been declared as follows: On the common stock $4 40, quarterly installment $1 10; prior preference, 7%, quarterly installment 1¾ %; participating preferred, 7% regular, quarterly installment 1¾ %; participating preferred, 2% extra, quarterly installment ½ %; preferred, 6%, quarterly installment 1½ %.

t Payable in stock of the Essex Foundry Co.

l Declared 6% on common stock, payable in common stock in quarterly installments of 1½ % each.

r New stock issued as a stock dividend participates in this distribution.

s Dividend is 10 pence per share and all transfers received in order in London on or before June 11 will be in time for payment of dividend to transferees.

t The stock dividends declared by Western Pacific RR. are one share of common and one share of preferred for every six shares of stock now outstanding, whether com. or preferred, and were ratified at a special stockholders' meeting held May 11.

u Less 38c. per share to cover 1st and 2d installment of 1924 income tax.

v Childs Company stock dividends are one share of no par value common stock for each 100 shares no par value common stock held.

w One-fiftieth of a share of common stock.

x Dividend is one-fortieth of a share of common stock or 85 cen.s a share, at stockholder's option.

y Payable either in cash or in Class A stock at the rate of 3-50ths of a share of A stock for each share of $6 dividend series pref. stock.

Weekly Returns of New York City Clearing House Banks and Trust Companies.

The following shows the condition of the New York City Clearing House members for the week ending May 23. The figures for the separate banks are the *averages* of the daily results. In the case of the grand totals, we also show the *actual* figures of condition at the end of the week.

On account of the fact that to-day (Saturday May 30) is a holiday, it being Memorial Day, the return for the present week, which would have been issued to-day, was made public yesterday afternoon. We have room here only for the general totals. The table with complete details for the individual banks will appear next Saturday. Using the figures showing the actual condition at the end of the week, the total of the loan item on May 29 stands at $5,274,289,000, an increase from the previous week of $50,668,000; net demand deposits, $4,458,660,000, an increase of $68,965,000; time deposits, $624,333,000, a decrease of $1,638,000; cash in vault, $62,698,000, an increase of $8,092,000; reserve with legal depositaries, $641,058,000, a nincrease of $17,157,000; aggregate reserve, $649,926,000, an increase of $16,833,000, and excess reserve, $49,404,320, a decrease of $7,965,040.

CURRENT NOTICES.

—Eastman, Dillon & Co. announce that Jules L. Bradford, formerly with Messrs. Day & Zimmerman, and Gerald W. Tighe, formerly associated with the Securities Department of the Federal Reserve Bank, have become members of their Bond Department.

—Lehman Brothers, 16-22 William St., New York, have issued a circular descriptive of the growth, history and recent operating results of the Studebaker Corporation.

Weekly Return of the Federal Reserve Board.

The following is the return issued by the Federal Reserve Board Thursday afternoon, May 28, and showing the condition of the twelve Reserve Banks at the close of business on Wednesday. In the first table we present the results for the system as a whole in comparison with the figures for the seven preceding weeks and with those of the corresponding week last year. The second table shows the resources and liabilities separately for each of the twelve banks. The Federal Reserve Agents' Accounts (third table following) gives details regarding transactions in Federal Reserve notes between the Comptroller and Reserve Agents and between the latter and Federal Reserve banks. *The Reserve Board's comment upon the returns for the latest week appears on page* 2750, *being the first item in our department of "Current Events and Discussions."*

Weekly Return for the Member Banks of the Federal Reserve System.

Following is the weekly statement issued by the Federal Reserve Board, giving the principal items of the resources; the liabilities of the 736 member banks from which weekly returns are obtained. These figures are always a week behind those for the Reserve banks themselves. Definitions of the different items in the statement were given in the statement of Dec. 12 1917, published in the "Chronicle" of Dec. 29 1917, page 2523. *The comment of the Reserve Board upon the figures for the latest week appears in our Department of "Current Events and Discussions," on page* 2750.

1. Data for all reporting member banks in each Federal Reserve District at close of business May 20 1925. Three ciphers (000) omitted.

Total (15 roads)	16,682,713	17,013,016	272,747	603,050
Net decrease (1.93%)	------	------	------	330,303

In the table which follows we also complete our summary of the earnings for the second week of May.

Second Week of May.	1925.	1924.	Increase.	Decrease.
	$	$	$	$
Previously reported (14 roads)	16,012,872	16,356,679	260,210	604,017
Nevada California & Oregon	4,887	6,333	------	1,446
Texas & Pacific	580,259	575,291	4,968	
Total (16 roads)	16,598,018	16,938,303	265,178	605,463
Net decrease (2.00%)	------	------	------	340,285

In the following we show the weekly earnings for a number of weeks past:

Week.	Current Year.	Previous Year.	Increase or Decrease.	%
	$	$	$	
1st week January (16 roads)	15,199,517	15,542,805	—343,288	2.20
2d week January (16 roads)	15,731,346	16,308,703	—577,357	3.54
3d week January (16 roads)	16,863,185	17,375,859	—512,674	2.91
4th week January (16 roads)	22,784,700	23,080,725	—296,025	1.29
1st week February (16 roads)	16,669,351	17,205,585	—536,234	3.11
2d week February (16 roads)	17,244,485	17,670,268	—425,783	2.40
3d week February (16 roads)	16,855,777	17,219,271	—363,494	2.11
4th week February (16 roads)	16,957,292	19,300,342	—2,343,050	12.13
1st week March (16 roads)	16,523,764	18,225,842	—1,702,078	9.33
2nd week March (16 roads)	18,002,499	19,134,428	—1,131,929	5.91
3rd week March (16 roads)	16,940,753	17,960,532	—1,019,779	5.67
4th week March (16 roads)	23,153,228	24,130,086	—976,858	4.04
1st week April (16 roads)	16,570,808	17,191,341	—620,533	3.58
2d week April (16 roads)	16,384,924	17,347,429	—962,505	5.55
3d week April (16 roads)	16,289,410	16,754,973	—465,563	2.77
4th week April (16 roads)	22,389,690	22,677,078	—287,388	1.26
1st week May (16 roads)	16,992,850	17,081,956	—89,106	0.52
2d week May (16 roads)	16,598,018	16,938,303	—304,285	2.00
3d week May (15 roads)	16,682,713	17,013,016	—330,303	1.93

We also give the following comparisons of the monthly totals of railroad earnings, both gross and net (the net before the deduction of taxes), these being very comprehensive, they include all the Class A roads in the country, with a total mileage each month as stated in the footnote to the table.

Month	Gross Earnings.			Net Earnings.		
	1925.	1924.	Increase or Decrease.	1925.	1924	Increase or Decrease.
	$	$	$	$	$	$
Jan	483,195,642	467,329,225	+15,866,417	101,022,458	83,680,754	+17,341,704
Feb	454,009,669	478,451,607	—24,441,938	99,460,389	104,441,895	—4,981,506
Mar	485,498,143	504,362,976	—18,864,833	109,230,086	114,677,751	—5,447,665

Note.—Percentage of increase or decrease in net for above months has been January, 20.73% inc.; February, 4.77% dec.; March, 4.74% dec. In January the length of road covered was 236,149 miles in 1925, against 235,498 miles in 1924; in February, 236,642 miles, against 236,031 miles; in March, 236,559 miles, against 236,048 miles.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings for STEAM railroads reported this week:

	—Gross from Railway— 1925.	1924.	—Net from Railway— 1925.	1924.	—Net after Taxes— 1925.	1924.

FINANCIAL REPORTS

Annual, &c., Reports.—The following is an index to all annual and other reports of steam railroads, public utilities, industrial and miscellaneous companies published since and including May 2 1925.

This index, which is given monthly, does *not* include reports in to-day's "Chronicle."

Boldface figures indicate reports published at length.

Steam Roads— *Page.*
Atlanta Birmingham & Atlantic Ry. 2265
Atlanta & West Point RR. 2265
Atlantic Coast Line RR. 2676, 2698
Central Argentine Ry., Ltd. 2397
Chesapeake & Ohio Ry. 2393, 2439
Chicago & Alton. 2539
Chicago Burlington & Quincy RR. 2393, 2428
Chicago & Eastern Illinois Ry. 2677
Chicago Milwaukee & St. Paul Ry. 2675
Chicago & Northwestern Ry. 2265, 2392, 2433
Chicago Rock Island & Pacific Ry. 2261, 2292
Chicago St Paul Minneapolis & Omaha Ry. 2265, 2392, 2437
Colorado Southern RR. 2397
Duluth & Iron Range RR. 2541
Duluth Missabe & Northern Ry. 2544
Duluth South Shore & Atlantic Ry. 2265
Elgin Joliet & Eastern Ry. 2679
Erie Railroad. 2262, 2296

The New York Central Railroad Company.

(*Annual Report—Year Ended Dec.* 31 1924.)

The report is cited at considerable length, together with the corporate income account statement, comparative balance sheet, &c., under "Reports and Documents" on subsequent pages. President Patrick E. Crowley further said in substance:

Income Account.—In previous annual reports the income account was so stated as to exclude the details of the operations of the Boston & Albany RR. and of the Ohio Central Lines, the net income or deficit from these being included under "separately operated properties—profit" or "separately operated properties—loss," as the case might be. In this report the income account is so stated as to include under the several headings the detailed operations of the lines referred to, this being the form in which the account is reported to the I.-S. C. Commission.

Revenues, Tonnage and Passengers.—The total operating revenues were $369,606,930, a decrease of $51,427,854. Freight revenue was $227,359,010, a decrease of $46,295,971.

Of a total decrease in tons handled of 27,224,344, coal, coke and iron ore account for 73%.

Passenger revenue was $95,980,325, a decrease of $2,689,872. Interline passengers carried decreased 236,618 and local passengers 1,758,077, while commutation passengers increased 513,986.

Express revenue was $11,736,720, a decrease of $1,444,861, attributable to falling off in traffic. Revenue from switching and demurrage was $925,187 less than in 1923, following the decrease in tonnage handled. Incidental and other transportation revenues decreased $71,963.

Operating Expenses.—Operating expenses were $279,970,163, a decrease of $45,947,078. The decrease in expense for maintenance of way and structures ($4,121,795) and for maintenance of equipment ($28,247,999) are incident to the unusually comprehensive maintenance program of 1923 and the reduced volume of traffic handled in 1924.

The decrease in transportation expenses ($261,037) is partly accounted for by the reduction in traffic. Fuel for locomotives, which accounts for 55% of the total decrease for the transportation group, reflects not only a decreased consumption, but also a lower average price per ton.

Railway Tax Accruals.—Railway tax accruals were $23,289,540, an increase of $632,673. While there was a decrease in the amount of Federal income tax, this was more than offset by heavier taxes on real estate, the result both of new property acquired and of higher rates.

Non-operating Income.—Profit from separately operated properties decreased $616,964, as the result of the smaller amount received account of operation of the Pittsburgh McKeesport & Youghiogheny RR.

Dividend income decreased $523,071. In 1923, but not in 1924, there was included an extra dividend on stock of the Michigan Central RR. amounting to $1,009,158. The decrease on this account for 1924 was partly offset by larger dividend income on stock of the Cleveland Cincinnati Chicago & St. Louis Ry., the Mahoning Coal RR. and on other holdings.

Income from funded securities and accounts decreased $294,145, largely due to the payment by the C. C. C. & St. L. Ry. during the year of indebtedness due this company on demand aggregating $10,000,000.

Income from unfunded securities and accounts increased $377,766. This increase was caused in part by an adjustment of interest on this company's share of the depreciation balance held by Pittsburgh & Lake Erie RR. accrued on Pittsburgh McKeesport & Youghiogheny RR. equipment and in part by increased income on daily bank balances.

Deductions from Gross Income.—Deductions from gross income decreased $857,363. Rent for leased roads decreased $921,233, due to smaller pay-

ments to Mahoning Coal RR., offset to some extent by rental payments in connection with the lease late in the year of the Hudson River Connecting RR.

Interest on funded debt increased $310,062. This was principally caused by payment of dividends upon equipment trust certificates issued during the year and late in 1923. There was a decrease in interest on the company's 6% convertible debentures of 1915 due to conversion of a part of those bonds into stock.

Interest on unfunded debt decreased $351,809. This was due to the inclusion in this account in 1923 of interest accrued on demand notes of the company held by the Treasury of the United States and liquidated in that year.

Net Income Before Dividends, &c.—The net income of the company was $39,250,399, a decrease of $6,089,027.

Net Corporate Income.—After charges for dividends aggregating $20,728,835 and other appropriations amounting to $122,104, there remained a surplus of $18,399,461, which was carried to the credit of profit and loss.

Property Investment Accounts.—The changes in the property investment accounts for the year were: Road, increase $10,399,283; equipment, increase $37,027,759; miscellaneous physical property, decrease $181,536; improvements on leased railway property, increase $4,915,684; a net total increase of $52,161,171.

Stockholders.—The number of stockholders on Dec. 31 1924 was 36,282, as compared with 34,946 Dec. 31 1923 and 25,042 Dec. 31 1915.

Funded Debt.—The funded debt on Dec. 31 1924 amounted to $776,916,391, a net increase of $6,936,902.

New York Central Lines Equipment Trust of 1924.—This trust was created by agreement dated June 1 1924, to which N. Y. Central RR., Michigan Central RR., Cleve. Cin. Chic. & St. L. Ry. and Cincinnati Northern RR. are parties. Under the trust $25,050,000 of 5% equipment trust certificates maturing in equal annual instalments of $1,670,000 over a period of 15 years were issued, representing approximately 75% of the cost of the equipment leased by the trustee to the railroad companies. The equipment allotted to this company under the trust, costing $19,742,113, consists of 32 Mikado locomotives, 29 switching locomotives, 60 coaches, 50 baggage cars, 1,400 box cars, 1,000 auto box cars, 2,460 hopper cars and 440 refrigerator cars. The certificates are prorated among the railroad companies in proportion to the cost of the equipment allotted to each, this company's share being $14,745,000.

New York Central Lines 4½% Equipment Trust of 1924.—This trust was created by agreement dated Sept. 15 1924, to which N. Y. Central RR., Michigan Central RR. and C. C. C. & St. L. Ry. are parties. Under the trust, $20,955,000 of 4½% equipment trust certificates maturing in equal annual installments of $1,397,000 over a period of 15 years were issued, representing approximately 75% of the cost of the equipment leased by the trustee to the railroad companies. The equipment allotted to this company under the trust, estimated to cost $16,979,012, consists of 18 Mikado freight locomotives, 5 Pacific passenger locomotives, 25 switching locomotives, 65 coaches, 19 dining cars, 18 combination passenger and baggage cars, 28 horse cars, 60 express refrigerator cars, 1,600 box cars and 2,600 hopper cars. The certificates are prorated among the railroad companies in proportion to the cost of the equipment allotted to each, this company's share being $12,729,000.

Cleveland Union Terminals Co.—During the year this company issued and sold an additional $10,000,000 of its 50-year 5% 1st Mtge. bonds of Series "B," which were jointly guaranteed by N. Y. Central RR. and the other proprietors of the Terminals Co. under the guaranty agreement dated July 17 1923. Progress was made in the acquisition of land, excavation in the station area and on bridge work.

Automatic Train Control.—The bids which were requested during the latter part of 1923 for the installation of automatic train control upon a division each of the N. Y. Central RR., the Boston & Albany RR., the Cleveland Cincinnati Chicago & St. Louis Ry., the Michigan Central RR. and the Pittsburgh & Lake Erie RR. were received and considered, and as a result contracts for the purchase of materials for the installation of the Sprague system upon a division of the N. Y. Central, the Union Switch & Signal system upon a division of the Pittsburgh & Lake Erie and the General Railway Signal system upon a division each of the Boston & Albany, the Michigan Central and the Cleveland Cincinnati Chicago & St. Louis were made in March, the materials to be purchased from the manufacturers of the designated devices and the installations to be made by company forces in each instance. Work proceeded and at the close of the year upon the N. Y. Central 20 miles of double track had been installed and were in operation with 15 engines. Upon the Michigan Central 20 miles of double track had been installed and 3 engines had been equipped. Upon the Pittsburgh & Lake Erie 20 miles of 4-track had been installed and 10 engines were equipped. Upon the Cleveland Cincinnati Chicago & St. Louis the road installation was proceeding and one engine had been equipped and upon the Boston & Albany the same condition obtained. The delay of the manufacturers in furnishing the material is the reason for the backwardness of the installations upon the Boston & Albany, the Michigan Central and the Big Four.

The order of June 13 1922 of the I.-S. C. Commission, fixed Jan. 1 1925, as the time for a full division installation upon each of these roads and other roads of the country. That time was, upon application, extended to July 1 1925.

On Jan. 14 1924 the I.-S. C. Commission made a further order requiring the installation of automatic train control devices upon a second division of each of the above roads, but no work has been done under that order.

Up to the close of 1924 this company had made expenditures or was committed to future outlay for automatic train control to the extent of approximately $700,000.

Hudson River Connecting RR.—Castleton Cut-Off.—During the year the main line of this road from the east end of the bridge to Feura Bush and the branches to Ravena on the West Shore RR. and to Post Road Crossing on the Boston & Albany RR., as well as the main yard at Selkirk, the engine terminal, power house, water station, coal chutes, ash pits and auxiliary buildings and a building for the Young Men's Christian Association with housing facilities for 100 people, were completed.

The road and bridge were formally opened on Nov. 20 1924 by appropriate ceremonies, which included the inspection of the bridge and property and at which were present the board of directors, representatives of the State Governments of New York and Massachusetts, of the I.-S. C. Commission, of the Public Service Commissions of New York and Massachusetts, and about 1,000 people representing public and private interests.

The bridge has been dedicated as the "Alfred H. Smith Memorial Bridge."

Freight traffic to and from the River Division was turned over the line on Nov. 15 1924, freight traffic to and from the Boston & Albany RR. was turned over it on Nov. 23 1924, and partial operation of freight traffic to and from the Hudson Division was begun on Dec. 27 1924. By the end of the year about 3,000 cars per day were being handled. It is expected that the entire project, so far as the initial development is concerned, will be completed during 1925.

Acquisition of Capital Stock of Cleveland Cincinnati Chicago & St. Louis Ry.—The company acquired during the year 148 shares of the Pref. stock of C. C. C. & St. L. Ry. at a cost of $12,839. At the end of the year the company held 84.69% of the Pref., 91.31% of the Common or 90.15% of the total outstanding capital stock of C. C. C. & St. L. Ry.

Acquisition of Capital Stock of Michigan Central RR.—The company acquired during the year 20 shares of the capital stock of Michigan Central RR. at $350 per share, making its holdings on Dec. 31 1924 177,667 shares of a par value of $17,766,700, or 94.82% of the total outstanding.

Acquisition of Capital Stock of Mahoning Coal RR.—The company acquired during the year 180 shares of the Pref. stock of Mahoning Coal RR. at $50 per share, making a total of 9,158 shares of Pref. stock held by it. The proportion of Pref. stock now held by the company is 69.23% of Common stock 59.64% and of the total stock outstanding 62.58%.

Reduction of Capital Stock of Wells Fargo & Co.—Under authority of the stockholders of Wells Fargo & Co. on Aug. 7 the capital stock of that company was reduced from $12,000,000 to $240,000, the par value of each share having been reduced from $50 to $1 by the payment from capital assets of $5 in cash for each share and a distribution of 2-5ths of a share of American Railway Express Co. stock for each share of Wells Fargo & Co. stock. The 7,500 shares of Wells Fargo & Co. stock owned by this company were received from the American Express Co. as a dividend; therefore, the amount realized on the Wells Fargo & Co. shares, $37,500, and the par value of American Railway Express Co. stock, $300,000, were credited to the ledger value of this company's holdings of American Express Co. stock. On Dec. 17 1924 the 7,500 shares of Wells Fargo & Co. stock were sold at $12 50 per share and $93,650 of the proceeds were also credited to the ledger value of this company's holdings of American Express Co. stock.

Sale to New York Chicago & St. Louis RR. of Line Between Dunkirk and Silver Creek, N. Y.—The Lake Shore & Michigan Southern Ry., under date of Dec. 31 1892, leased a piece of double-tracked line, 7.84 miles in length, between Dunkirk and Silver Creek, N. Y., to N. Y. Chicago & St. Louis RR. for a term of 99 years, renewable by the lessee forever, at annual rental of $5,000, with a provision that the lessee should have the right at any time to pay the lessor $100,000 in commutation of the annual rent. The lessee gave the necessary notice of its election to commute the annual rent and, accordingly, by deed dated March 26 1924, the property was conveyed to N. Y. Chicago & St. Louis RR. in consideration of the cash payment of $100,000.

Improvements and Economies.—Improvements are being made in the company's plant and in methods of operation in order to provide additional capacity to meet increased requirements and to reduce the cost per unit of service rendered. Efforts toward economy in operation have been particularly necessary since the return of the railroads to their owners following the Federal control period because railroad operations must be carried on in the face of labor and material costs which have increased relatively more than revenues have increased from rate advances. While revenues due to rate changes are now approximately 57% higher than they were 10 years ago, the items entering into the cost of operation including taxes are approximately 81% higher.

The amount of service rendered the public in 1924 was not as great as in the year previous, due to a falling off in business activity, but, as the result of economies, the cost per unit of traffic handled was less, and the amount of income available for capital per unit of service performed was greater, in 1924 than in 1923. Continuance of expenditures to provide added capacity and to produce economy is necessary if the company is to earn a satisfactory return for its security owners. The ability to make such expenditures will depend on the preservation of a rate level that will provide a surplus sufficiently large to maintain credit and attract investors. Any reduction in rates which would not permit this would react to the detriment of the public because of the consequent impairment of the ability of the company to provide the facilities needed for increased and high-class service.

Note.—For other income, deductions from income, dividend payments, balance sheet items, &c., see "Reports and Documents" on a subsequent page—Ed.—V. 120, p. 1878.

Central Railroad Co. of New Jersey.

(Annual Report—Year Ended Dec. 31 1924.)

Pres. W. G. Besler wrote in substance:

Additions & Betterments.—Charges made for additions and betterments during the year amounted to $8,986,270 as follows: Investment in road, $4,717,860; investment in equipment, $4,143,067; investment in leased railway property, $125,342.

Funded Debt.—The total funded debt at the close of the year was $62,993,560 (including $1,167,000 held in treasury), as against $63,164,000 at the close of the prior year, a decrease of $170,500 for the year.

Gross operating revenue for the year aggregated $55,465,963, a decrease of $1,916,690, as compared with the previous year. There was a decrease of $832,006 in merchandise, $466,100 in bituminous coal, $324,072 in anthracite, $200,392 in passenger, and $94,119 in other transportation revenue.

The total number of revenue passengers carried aggregated 27,425,512, a decrease of 190,928 as compared with the previous year; number of revenue passengers per train mile, 110.58; passenger revenue per mile of road, $15,955; revenue passengers carried per mile of road 39,621.

There were handled 20,545,861 net tons of merchandise; 7,191,741 net tons of bituminous coal, and 8,833,093 net tons of anthracite coal. The total volume of freight and coal traffic handled decreased 1,809,371 tons as compared with the previous year.

The revenue per freight train mile was $12 59, an increased of $0 15 as compared with the previous year; the number of tons per freight train mile (revenue freight) was 752.81, an increase over the preceding year of 12.87 tons. The number of tons per loaded car mile was 30.88, a decrease of .68 tons; and the average distance each ton was carried was 69.37 miles, an increase of 1.12 miles as compared with the previous year.

As indicating the volume and density of freight and coal traffic handled—during 1924, 1,446,550 cars of revenue freight and coal were moved, of which number 531,684 loads originated on company's lines, and 914,866 were received from connections. The revenue tonnage handled per mile of road was 52,833 tons, and the revenue tonnage per mile of road per day, 144 tons. Loaded car miles for the year 1924 aggregated 82,064,533 miles; total revenue ton miles, 2,536,759,987; the revenue ton miles per mile of road was 3,664,831, and the revenue ton miles per mile of road per day, 10,013.

Company contributed $155,000 to certain New England railroads in 1922, and $224,000 in 1923, by reason of the increased divisions of 15% allowed by the I.-S. C. Commission under I. C. C. Docket No. 11756—New England Division Case. For the year 1924, this allowance amounted to approximately $225,000. The application filed with the I.-S. C. Commission for relief from this order is being vigorously prosecuted.

Operating expenses decreased $8,897,631 as compared with the previous year. There was a decrease in transportation expenses of $2,021,593 and an actual decrease in maintenance of equipment expenses of $3,229,642—resulting from economies through increased efficiency of operating and mechanical forces. There is also included in operating expenses for 1924 credits aggregating $4,037,732, covering adjustments of expenditures incurred in connection with equipment rebuilt since Federal control, which, under the accounting rules of the I.-S. C. Commission, are properly chargeable to investment account. There are included in operating expenses for 1924 debits aggregating $570,215, representing adjustments in connection with accounting of retirements and depreciation of equipment rebuilt during, and retired or purchased since, Federal control. As a result, operating expenses for 1924 have been adjusted by a net credit of $3,467,517, with appropriate charges to investment in equipment.

While this adjustment increased the assets on the general balance sheet it also increased the profit and loss account, with the result that the accumulated surplus as of Dec. 31 1924 is the same as it would have been had these items been currently accounted, as above.

Taxes.—Railway and miscellaneous taxes for the year aggregated $4,842,464, an increase of $746,079, or 18.21%, as compared with the previous year. Compared with the year 1912, railway and miscellaneous taxes increased $3,339,794, or 222.25%. Compared with the year 1899, the increase in taxes was $4,483,538, or 1,249%.

In 1922 (the latest statistics available) the average tax per mile of railroad (Class I carriers) in New Jersey, was $6,959—the highest in the United States—the next highest being $2 857 in the State of Rhode Island.

Guaranty.—The claim against the Government as provided in the Transportation Act for the six months ended Aug. 31 1920, known as the guaranty period, is still under negotiation.

Capital Expenditures.—Of the amount realized, $32,134,077, from the sale of the stock of the Lehigh & Wilkesbarre Coal Co. in 1921, there remains in the surplus as of Dec. 31 1924, in the form of Government securities, $15,100,000. The remainder has been drawn upon to meet capital expenditures for additions and betterments, among which are partial payments amounting to approximately $3,850,000 for account of the new bridge in process of construction across Newark Bay, 7,500 ft. in length, with approach viaducts of 1,546 ft.—the total cost will approximate $14,000,000.

Other capital expenditures in hand include grade crossing elimination in the City of Perth Amboy, $2,500,000; grade crossing elimination in the Town of Somerville, $2,500,000; the installation of automatic train control on the New Jersey Southern Division, $751,458, and other projects of lesser magnitude.

y Dividend income in 1921 includes approximately $19,780,302 received from two semi-annual dividends of 6½% each and the cash dividend of 150% paid March 5 and a cash dividend of 70% paid Nov. 29 on the $8,489,400 stock owned in the Lehigh-Wilkes-Barre Coal Co. Out of this sum there were paid the customary 4% special dividends on Central RR. of New Jersey stock, making total payments on that stock 14% in 1921.

Colorado & Southern Railway Co.

(*26th Annual Report—Year Ended Dec.* 31 1924.)

President Hale Holden reports in substance:

Results.—Total operating revenues for 1924 amounted to $25,946,731, as compared with $23,860,219 in 1923, an increase of $2,086,511, or 8.74%.

The increase of $1,997,503 in freight revenue is due principally to general improvements in business conditions during 1924 which prevailed throughout this district, brought about particularly in the southern territory by the production of splendid crops of all kinds, which was made possible by good weather conditions that were seasonable throughout the year, whereas in the previous year the net earnings were greatly reduced on account of diversion of a normal flow of traffic due to the results of flood conditions existing throughout the latter half of the year. There were no general reductions in freight rates during the year, although such adjustments as were made on specific commodities resulted in almost every case in reductions.

The decrease of $138,141 in passenger revenues is due to a general falling off in short haul passenger business since the statistical records show a decrease in passengers carried, but a considerable increase in the average distance each revenue passenger was carried.

Total operating expenses in 1924 amounted to $17,770,169, as compared with $18,699,464 in 1923, a decrease of $929,295, or 4.97%. The decrease in operating expenses was principally in maintenance of equipment and maintenance of way expenses. Maintenance of equipment expenditures in 1923 were considerably above normal because of long continued strike conditions in 1922, necessitating extraordinary expenditures in 1923 to restore equipment to standard condition. Maintenance of way expenditures in 1923 were generally heavier owing to unusual flood conditions prevailing in that year.

Transportation and traffic expenses increased on account of an increased volume of business handled. Expenses of general and miscellaneous operations were practically normal with the previous year.

The operating ratio was 68.49%, compared with 78.37% in 1923 and 76.28% in 1922.

Net income of the several companies as combined in the income statement shows an encouraging increase over the previous year, but after payment of the regular dividends upon the Pref. shares of the Colorado & Southern Ry., the remainder has been credited to surplus accounts, in keeping with the policy of the management to strengthen reserves and improve the credit of the several companies. Attention has heretofore been directed to substantial losses in capital account which the company has suffered, such as the loss of investments, through foreclosure, in the Colorado Midland Ry. and Colorado Springs & Cripple Creek District Ry., abandonment of unproductive mileage and from other sources. Increasing competition by motor bus and private automobile, using the adjacent hard roads between Denver and Boulder, Colo., is creating serious doubt whether the operations of the Denver & Interurban RR. can be longer continued. The results of the operations of the property of the Trinity & Brazos Valley Ry. by the receiver thereof are shown below and do not yet afford a basis for the reorganization of that property.

Plans are under development to extend the operations of the Texas lines into the city of Dallas and into the South Plains territory in western Texas, thereby reinforcing capital account and strengthening the earning power of the company. The management believes that it will continue to be advisable for the present to provide for additions of this character, as well as for betterments and improvements to property account by the use of surplus income so far as available rather than by the further issue of capital. The approaching maturity of the 1st Mtge. bonds and the uncertainty of the result of the Federal valuation which is approaching completion furnish additional reasons for a conservative course in the use of surplus earnings.

Capital Expenditures.—There were during the year net expenditures of $892,747 chargeable to capital account as follows: Road, $848,258; equipment, $47,682; general, *Cr.*$3,193.

Gross expenditures were made amounting to approximately $1,540,000 in the physical development and improvement of the property and in additions and betterments to way, structures and equipment. Road property of a book value of approximately $370,000 was abandoned and written out of the capital accounts.

Equipment of a book value of approximately $278,000 was written out, due principally to the equipment being worn out and of obsolete type, also to destruction by accident.

Guaranty Period Settlement.—Your companies accepted the guaranty provisions under Sections 209 and 212 of the Transportation Act, 1920, covering the 6 months period from March 1 to Aug. 31 1920, immediately following Federal control of railroads. During the year these companies effected a final settlement with the I.-S. C. Commission, which with advances theretofore made amounted to $990,036.

Valuation.—The work under the Federal Valuation Act of March 1 1913 was continued during the year with reduced forces. The total expenditures by these companies on account of valuation to Dec. 31 1924 were $792,203. Tentative valuation reports have not as yet been received.

Industrial.—A substantial number of new industrial leases were made during the year, also important industrial plants were located on the line. Vegetable loading and cotton platforms were constructed, with incident paving and drainage facilities. Stock pens were constructed at five different locations on the line.

Western Pacific Railroad Co.

(*9th Annual Report—Year Ended Dec.* 31 1924.)

Pres. Charles M. Levey, San Francisco, May 1, wrote in substance:

Results.—Net corporate income for the year 1924 was $1,329,265, as compared with $1,819,795 the previous year.

Dividends.—Four dividends of 1½% each, aggregating $1,650,000, or 6%, on the Preferred stock were declared and paid during the year out of net corporate surplus.

The decrease in revenue from passenger traffic [$342,029] compared with previous year, is due to reduction in revenue brought about by Decision No. 11541 of the I.-S. C. Commission, in an action brought by the Arizona Corporation Commission, Public Service Commission of Nevada, and State Corporation Commission of New Mexico, which reduced rates, effective March 1 1924 on local fares within the States of Utah and Nevada, and on April 28 1924 on joint fares between California, Nevada and Utah, from 4.8c. to 3.6c. per mile, together with the depressing effect upon travel generally, caused by unfavorable publicity regarding the hoof and mouth disease throughout California in the spring and summer and the prevalence of forest fires in the mountains later in the year.

Operating Expenses.—Operating expenses for 1924 were $11,477,665, as compared with $10,663,712 in 1923, an increase of $813,953, or 7.63%.

The principal increase in operating expenses appears in maintenance of way and structures [$467,363] and is due to heavy expenditures necessary to prepare the paired track in Nevada for additional traffic incidental to joint operation with the Southern Pacific Co.

Taxes.—Railway tax accruals for the year amounted to 6.10% of the operating revenues compared with 6.73% for the year 1923, a decrease in ratio of 0.63%.

Funded Debt.—March 15 1924 $3,105,000 Western Pacific RR. 5½% Equip. Trust certificates, Series C ($207,000 of which mature serially on Dec. 1 in each year from 1924 to 1938 incl.) were issued and sold at par and int. The purpose of this issue was to provide funds sufficient to cover 80% of the cost of certain equipment, balance of its cost having been provided from the company's surplus.

Funded debt obligations aggregating $642,500 were redeemed and cancelled during the year.

Road & Equipment.—Road and equipment charges for the year aggregated $6,781,297, divided $2,372,188 for road and $4,409,108 for equipment.

Buffalo & Susquehanna RR. Corp.

(11*th Annual Report—Year Ended Dec.* 31 1924.)

Pres. E. R. Darlow, Buffalo, N. Y., March 31, wrote in substance:

The net income of the year was $318,929. Dividends at the rate of 4% per annum were paid on the Preferred stock; regular quarterly dividends at the rate of 7% per annum and an extra dividend of 2½% in March were paid on the Common stock. The total amount of dividends paid was $445,000.

During the year the Powhatan Coal & Coke Co. paid $63,481 on its first mortgage held by this company, and that amount with $60,003 interest paid on bonds, and the cash in the sinking fund, was invested in the purchase of $157,500 of 1st Mtge. bonds for the sinking fund.

At the close of the year the 1st Mtge. bonds outstanding in the hands of the public were $4,933,600, and there were in the sinking fund $1,656,900 and in the treasury $368,500.

As a result of the conditions of the coal market and of the Jacksonville agreement continuing in effect the union scale of wages, all of the mines on the road other than those belonging to the Buffalo & Susquehanna Coal & Coke Co. closed down in the early months of the year and were not reopened; and those of the company named worked only intermittently and at a loss.

The coke ovens at Tyler worked about half capacity until July and then shut down the remainder of the year. The coke ovens at Sykes after running at half capacity for some months shut down until the middle of September, when work was resumed and continued during the remainder of the year.

Additions and betterments to the property amounted to $115,086. The book value of equipment retired was $42,407; and the net increase in the road and equipment accounts was $72,679.

The I.-S. C. Commission served its tentative valuation of the property of the corporation and of its two leased lines (Wellsville Coudersport & Pine Creek RR. and Addison & Susquehanna RR). This tentative valuation was $9,845,905 of the property as of June 30 1919, but was based on costs and prices as of June 30 1914. A protest against it was filed. Hearings on the protest have not been concluded.

We are still in negotiation with the I.-S. C. Commission in an effort to adjust the claims for the guaranty period.

Hearings have been held on the recapture of excess earnings of the last four months of 1920 and the years 1921 and 1922, but the case has not been closed. There is no question of recapture except for the four months of 1920.

United Shoe Machinery Corp.

(Annual Report—Fiscal Year Ended Feb. 28 1925.)

President E. P. Brown, May 22, said in part:

The volume of business of the company is governed largely by the condition of the shoe manufacturing industry. Many difficult and serious problems have confronted shoe manufacturers, and this corporation as well, during the past year, calling for sudden and expensive changes in plants and policies. The corporation has co-operated with its customers in minimizing, as far as possible these difficulties and hopes that in the not distant future stabilization of styles and conditions may bring about results mutually advantageous.

In the early fall your President and Vice-Presidents Connor and Winslow made personal investigation of the European affiliated and subsidiary companies of the corporation. They found factories in excellent physical condition and organizations as a whole at a high point of efficiency. The results of the business for the year for all these companies are very satisfactory, considering that general conditions are as yet far from normal.

Our records show that on March 1 1925 there were 18,966 stockholders, including employees of the corporation and subsidiary companies holding warrants for stock under the employees' stock plan, as compared with 19,389 on March 1 1924.

Standard Oil Company of California.

(Annual Report—Year Ending Dec. 31 1924.)

President K. R. Kingsbury, San Francisco, wrote in substance:

Results.—The net profit for 1924 was $26,601,514, an increase of $2,159,075 over 1923. This profit is 8.62% on the combined issued capital and book surplus of $308,595,114 as of Dec. 31 1924, and is 11.31% on the issued capital stock outstanding as of the same date, and is equivalent to $2 83 per share as compared to $2 63 per share for 1923.

General Statement.—The year was one of declining crude oil production. The total crude oil production for 1924 in the State of California was 230,063,117 barrels, compared with 263,728,895 barrels in 1923. The production, including that shut in in Dec. 1924, as compared to Dec. 1923, shows an average daily decline of 181,231 barrels. The flush production of the Santa Fe Springs and Signal Hill fields recorded a decline from Dec. 1923 to Dec. 1924 of 229,441 barrels daily, which was partially offset by an increase in the flush production of the Dominquez field during the same period of 51,655 barrels daily.

According to the "Panama Canal Record," there were shipped from California through the Panama Canal during 1924 an average of 146,776 barrels daily of crude oil and its products as compared with 173,811 barrels daily in 1923. Of the total shipments in 1924, 7,765,000 barrels were finished and unfinished gasoline.

With the declining production crude oil prices reached a higher level, the base price of 60c. per bbl. for heavy crude oil advancing in the early part of 1924 to $1 per bbl.; at the same the company's retail prices for gasoline at its El Segundo refinery, its principal point of gasoline manufacture, advanced from 12½c. to 16½c. per gallon, but subsequently declined in the latter part of the year to 14½c.

New Office Building.—In Nov. 1924 the company's new office building in Los Angeles, at the corner of 10th and Hope Streets, was completed and occupied.

Surplus.—Surplus increased $9,643,676. Of this sum $7,881,484 was earned surplus during the year. In addition to earned surplus, there was carried to surplus $3,559,547 premium on the sale of capital stock under the employees' stock investment and savings plan.

To appreciated surplus account there was added $14,898,667, representing the value of oil discoveries set up on the books of the company under rules and regulations of the Internal Revenue Department for the purpose of determining depletion, and under the same rules there was deducted as depletion from appreciated surplus $14,957,259.

There was deducted from surplus as adjustments $1,738,764, substantially all of which was Federal pipe-line tax accruing prior to 1922 and paid under protest, pending determination of the validity of the tax.

Finances.—Total capital stock outstanding on Dec. 31 1924 amounted to 9,409,138 shares. There were issued during the year for the account of the employees' stock investment and savings plan 100,965 shares at approximately the market price at time of issue. (Average price for the year, $59 88 per share.)

Insurance reserve was increased $579,661. Investment securities was decreased by $3,739,848 by conversion of Government securities into cash.

The company also redeemed on Aug. 1 1924 $2,500,000, the first series of its 5% Serial Gold Notes issue, leaving $22,500,000 outstanding.

Plant Investments.—Expenditures for plant investment during 1924 were $13,303,768.

Dividends.—Cash dividends were paid at a rate of 50c. per share quarterly. This represents 8% on the par value of the stock.

Crude Oil Prices.—The base price of 60c. per barrel for heavy crudes offered by the company Oct. 9 1923 remained in effect until Jan. 22 1924, on which date the company advanced the price 25c. per barrel on all grades. On Feb. 5 1924 the base price was further increased to $1 per barrel, the other grades being increased according to gravity from 15c. to 39c. per barrel. On Sept. 24 the company issued a schedule of prices for the light gravity crudes of the Rosecrans field.

Crude Oil Production.—The production of crude oil during 1924 from the company's wells was 28,677,249 bbls., or 78,353 bbls. daily, as compared with the 1923 production of 28,182,315 bbls., or 77,212 bbls. daily.

The shut-in production as of Dec. 31 1923, estimated at 47,628 bbls. daily, had been reduced to 1,100 bbls. daily at the end of 1924. As of Dec. 31 1924, the company was producing 92,000 bbls. daily as compared with 55,000 bbls. in Dec. 1923.

There were completed during the year 125 producing wells and 23 wells were abandoned as dry holes. On Dec. 31 the company was operating 73 strings of tools, 46 of which were employed in drilling new wells. On the same date 1,381 oil wells and 8 gas wells were producing.

Tests for deeper oil sands by the company in the Coyote Hills field resulted in the discovery of a new oil horizon on the Murphy-Coyote and Emery properties, the productive limits of which are as yet undefined. The two wells completed in this lower horizon had an initial daily production of 1,064 barrels and 1,754 barrels.

In the Montebello field, on the company's Temple property, a deeper sand was discovered and the one well drilled to this sand had an initial production of 800 barrels.

The discovery of these lower oil measures adds much to the value of the properties.

Alaska.—The well drilling in the Cold Bay District, Alaska, had reached a depth, at the end of the year, of 3,017 feet.

The California Co. (entirely owned by Standard Oil Co.).—(1) *Montana:* The California Co.'s total production from its Montana wells was 91,624 bbls., as compared with a total production of 57,687 bbls. in 1923. As of Dec. 31 1924, 13 oil wells and one gas well were producing and one well was drilling. During 1924 the company acquired 5,935 acres of prospective oil land, and its holdings at the end of the year were 38,615 acres, of which 33,473 acres are held under lease, 1,219 acres under Government permit and 3,923 acres are owned in fee.

(2) *Texas:* The total crude oil production from the company's wells in Texas in 1924 was 276,569 bbls. The leaseholdings of the company were increased during 1924 by 110,286 acres; on Dec. 31 1924 the company held under lease 125,470 acres.

(3) *Colorado:* Company acquired 17,163 acres of leases, making a total holding on Dec. 31 1924 of 22,163 acres. Two wells were drilling at the close of the year.

(4) *New Mexico:* In this State the company acquired under lease 68,442 acres. One well is drilling.

(5) *Wyoming:* Company acquired under lease 824 acres, and under Government permit 2,447 acres, a total of 3,271 acres. On Dec. 31 1924 one well was drilling.

Foreign Crude Oil Production.—(a) *Colombia:* Latin America Petroleum Corp. of Colombia continued drilling on the El Carman and San Jacinto concessions. On El Carman property Well No. 1 was 4,015 feet deep on Dec. 31 1924 and Well No. 1 on the San Jacinto property on the same date was 4,090 feet deep. El Carman No. 2 well started drilling Jan. 3 1924 and was 2,585 feet deep on Dec. 31. Well No. 2 on the San Jacinto property was commenced Sept. 27 1924 and was 160 feet deep on Dec. 31.

Richmond Petroleum Co. of Colombia, entirely owned by Standard Oil Co., was incorp. during 1924 to handle operations in Colombia other than those of the Latin America Petroleum Corp. of Colombia. The new company holds 153,924 acres. The total holdings of the two Colombian companies aggregate 369,629 acres.

(b) *Argentina:* Two wells started in 1923 by the Sociedad Anonima California de Petroleos were abandoned at 3,575 feet and 3,859 feet. 9,800 acres were acquired during the year, and a new company will be formed to drill a test well on this property.

(c) *Ecuador:* The California Standard Oil Co. acquired approximately 41,300 acres, making a total holding in Ecuador of 67,000 acres. The one well drilling was abandoned at a depth of 6,018 feet.

(d) *Mexico:* The Richmond Petroleum Co. of Mexico, S.A., holding 61,500 acres under contract, confined its activities to geological work.

(e) *Venezuela:* Richmond Petroleum Co. of Venezuela was incorporated during the year to handle certain operations in Venezuela. Approximately 100,000 acres were acquired under concessions. Seepages and structures exist on the lands. Negotiations are in progress for other lands.

(f) *Panama:* Approximately 49,400 acres of prospective oil land in the Republic of Panama were acquired during the year. No drilling has as yet been undertaken.

(g) *Philippine Islands* As announced in July 1924, the Richmond Petroleum Co. abandoned its operations in the Philippine Islands.

Total Land Holdings.—Company's total holdings of producing and potential oil land are 1,049,755 acres, 674,751 of which are outside of the United States. Acreage owned and controlled within the United States increased 148,781 acres.

Pipe Lines.—Crude purchases during 1924 from 262 producers amounted to 42,151,877 bbls., a daily average of 115,169 bbls. Total runs through the company's pipe lines averaged 203,083 bbls. daily, a decrease of 37,595 bbls. daily compared with 1923. A new station was completed at Torrance, and the Dominguez field was connected by pipe line to the main Northam-El Segundo system.

Refineries.—The average daily runs of crude oil to the stills at the refineries was 144,075 bbls. Expenditures were made for additions to new process and fire protection equipment and for improvements for the prevention of evaporation and vapor losses. A grease plant was installed at El Segundo and a chemical plant for treating oils is under construction at the Richmond refinery.

Sales.—A total of 671 storage distributing stations and 703 automobile service stations were being operated on Dec. 31 1924.

Marine.—The company owned at the end of the year an ocean-going fleet of 21 tank ships with a total carrying capacity of 1,414,269 bbls., and also a fleet of 18 bay, river and harbor craft having an additional capacity of 35,151 bbls., a total capacity of 1,449,420 42-gallon bbls. Company transported by its fleet during the year 36,384,944 bbls.

Employees.—On Dec. 31 employees of the company numbered 19,558. The pay-roll for the year amounted to $42,219,721, an average of $174 68 per month per employee. Payments covering pensions, life insurance and sickness disability benefits amounted to $1,103,443, or 2.61% of pay-roll.

Stockholders.—Stockholders of record Dec. 31 1924 numbered 19,387, an increase of 1,362, or 7.56% during the year. Of this total 40.94% are women. Of the stockholders, 91% held 500 shares or less, 72.5% held 100 shares or less, and 44.5% held 25 shares or less. Of the stockholders, 99.05% live in the United States and own 99.33% of the outstanding capital stock, 37% of the stockholders are residents of the Pacific Coast, the number having increased during the year from 6,519 to 7,172.

The usual comparative income account was published in V. 120, p. 2280.

CENERAL INVESTMENT NEWS.

STEAM RAILROADS.

Inter-State Commerce Commission Rescinds Ruling Ordering Class I Roads to Sell Interchangeable Mileage Books at 20% Under Regular Rates.—New York "Times" May 28, p. 4.

New Equipment.—Freight cars placed in service during the first four months this year totaled 57,926, according to reports just filed by the Class I railroads with the Car Service Division of the American Railway Association. This was an increase of 11,505 over the number placed in service during the corresponding period last year. Of the total number installed from Jan. 1 to April 30, this year, 30,319 were box cars, an increase of 7,733 over the number installed during the same period last year. There were also 20,704 coal cars placed in service during the four months period in 1925, or 5,023 more than during the same period in 1924. The railroads also placed in service 2,422 refrigerator cars and 2,416 stock cars. During the month of April alone, freight cars installed totaled 13,773, which included 7,654 box cars, 4,709 coal cars and 48 refrigerator cars. Freight cars on order on May 1 totaled 43,301 compared with 68,019 on May 1 last year. Class I railroads during the first four months this year also installed in service 601 locomotives, of which number 171 were placed in service during the month of April. Locomotives installed during the first four months of last year numbered 758. The railroads on May 1 this year had 340 locomotives on order, compared with 552 on the same date one year ago.

Matters Covered in "Chronicle" May 23.—(a) Revenue freight loading exceeds all corresponding weeks in previous years, p. 2624.

Atchison Topeka & Santa Fe Ry.—*Acquisitions, &c.*—

At the annual meeting the stockholders approved and ratified: (1) The lease of the property of Grand Canyon Railway Co., effective Jan. 1 1924. (2) The acquisition on behalf of the company of the capital stock and indebtedness of Salina & Santa Fe Ry. (3) The acquisition on behalf of the Company of the capital stock and indebtedness of the California Southern Ry.—V. 120, p. 2007, 2004.

Baltimore & Ohio RR.—*Equipment Trusts.*—

The I.-S. C. Commission on May 11 authorized the company to assume obligation and liability in respect of $8,145,000 Equip. Trust Series B certificates to be issued by the Girard Trust Co. under an agreement to be dated May 1 1925, and sold to Kuhn, Loeb & Co. and Speyer & Co. at not less than 96.68 and divs. in connection with the procurement of certain equipment. See offering in V. 120, p. 2265.

Boston & Albany RR.—*Annual Report.*—

—V. 119, p. 1509.

Boston & Maine RR.—*Amster to Co-operate.*—

In a letter to W. Rodman Peabody, chairman of the general readjustment committee, N. L. Amster says in part:

"Despite the fact that I have felt from the beginning that the Boston & Maine could have pulled through without the need of selling the proposed $13,000,000 7% Prior Preferred stock, I am now ready to co-operate with the company and with you in particular in making the financial readjustment a success at the earliest possible moment. I entirely concur with your views that with the proper spirit and co-operation, the company could sell this new Prior Preferred stock at par to its employees, shippers and industries on its lines.

"The Boston & Maine has fixed charges and rentals of only $7,600,000 a year and, including dividends on this new issue of Prior Preferred stock, would have charges and prior dividends of only $8,500,000, which equals only 10 cents for each dollar of gross revenue.

"I figure that by 1927 Boston & Maine should be in position to earn $17,000,000 net a year, and that its fixed charges will not exceed $7,500,000, leaving over $9,000,000 for the stock, or 10 times the annual dividend requirements on this new issue of prior preferred."

See also digest of plan in V. 120, p. 2609;

Seeks to Restrain Bus Line.—

The company has filed a bill of equity in the Superior Court at Boston, Mass., to restrain the Interstate Stage Co. from operating buses between Boston and Lowell unless it first receives a license from the cities and towns between these points. The railroad company stated that it owns property valued at $35,000,000 in these communities upon which it pays annual taxes aggregating $970,000.

State Legislative Committee Favors Financing.—

The railroad committee of the Massachusetts legislature has given a majority report in favor of the proposed Boston & Maine legislation designed to legalize certain features of the reorganization plan. Certain changes, however, have been written into the bill. These changes are as follows:

(1) That the new prior preferred stock be limited to not more than 7% interest rate and callable at no more than 110.

(2) That interest on the extended bonds be limited to not more than 5% annually.

(3) That approval of the Public Utilities Commission be sought for all new security issues.

The act was further amended by changing the wording in line two of Section 1 to read "by a vote of two-thirds of its outstanding stock," instead of a majority of its outstanding stock. This section merely provided that the approval of stockholders would be necessary for the proposed new increase in prior preferred stock and the only changes are to use the words "two-thirds" instead of "majority."

Approximately 75% of Bonds To Be Extended Have Assented To Readjustment Plan.—

A constantly growing number of B. & M. security holders are recording themselves in favor of the proposed readjustment plan. Up to date assents have been received from approximately 75% of the $43,000,000 bonds to be extended. Assents are also in hand from between 55 and 60% of the stock of all classes. (Boston "News Bureau.")

Road Out of Receivership.—

On a motion filed in Feb. 1919, Judge Morton of the U. S. District Court at Boston on May 5 handed down an order discharging James H. Hustis as receiver of the road. The discharge was held up at the time it was requested because of a claim by the Boston and Maine Minority Stockholders' Protective Association. The latter has since agreed to the discharge of the receivership.—V. 120, p. 2546, 2265.

Chesapeake & Ohio Ry. of Indiana.—*Tentative Value.—*

The I.-S. C. Commission has placed a tentative valuation of $9,250,000 on the totaled owned properties of the company, and $9,355,713 on the total used properties, as of June 30 1916.—V. 113, p. 2719.

Chicago, Indianapolis & Louisville Ry.—*Notes.—*

The I.-S. C. Commission on May 15 authorized the company to issue $1,839,076 of promissory notes payable to the order of the Pullman Car & Manufacturing Corp.; the notes to be delivered to that company in procurement of the following equipment: 500 40-ton box cars and 250 55-ton steel-underframe hopper cars costing approximately $1,403,875.—V. 120, p. 1741.

Chicago Milwaukee & St. Paul Ry.—*Reorganization.*

Work on the reorganization plan of the St. Paul has been going forward rapidly and will be completed within the next two or three weeks unless unexpected delays interfere according to reports in the financial district.

While details of the provisions of the plan are not yet available their final presentation to stockholders it is understood the report of Coverdale & Colpitts and the examination of the property by the three receivers has shown the condition to be far better than originally expected. The result is that conjectures in the financial community place the probable assessments on the preferred and common stock at about $20 to $25 per share for the former and $30 to $35 for the latter.—V. 120, p. 2681, 2675.

Chicago & North Western Ry.—*Dividends—Extends Offer to Exchange Shares of Company for Minority Holdings in Chicago St. Paul Minneapolis & Omaha Ry.—*

The directors have declared the regular semi-annual dividend of 2% on the Common stock and 3½% on the Pref. stock, both payable June 30 to holders of record June 5. Similar amounts were paid on July 1 and Dec. 31 1924.

The directors have extended to June 20 the time in which minority stockholders of the Chicago St. Paul Minneapolis & Omaha Ry., its subsidiary, may deposit their stock and receive North Western stock in exchange. Those depositing by June 5 will receive the Common dividend payable June 30. See also Chicago St. Paul Minneapolis & Omaha Ry. below.—V. 120, p. 2392, 2265.

Chicago Rock Isl.& Pac. R. R.—*Relations with Southern.*

At the annual meeting J. E. Gorman referred to the possibilities of a merger with the Southern Pacific as follows:

"There has been much talk of such a consolidation and the managements of both systems have contended for some time it would be logical. Should it come, the Rock Island would be a great beneficiary. I have tried for some time to effect a stronger operating arrangement with the Southern Pacific and I have hopes that after June 1, when the jurisdiction of such matters on that line is changed, it may be done. At present we are giving all our business to the Southern Pacific because it is logical, owing to the long haul we get. In return we get only the perishable freight requiring fast service. On other heavier merchandise the Southern Pacific can get a longer haul by handling it through other connections.

"I have tried to convince the Southern Pacific that by giving faster delivery over our lines and thereby according better service to their customers they would profit in the long run, but they have been slow to accept this viewpoint. I hope that when the final word is given to another executive June 1 the arrangement can be made."—V. 120, p. 2261, 2142.

Chicago St. Paul Minneapolis & Omaha Ry.—*Defers Dividend Action on Preferred Stock.—*

The directors have deferred action on the regular semi-annual dividend of 3½% on the $11,259,300 Non-Cum. 7% Pref. stock, par $100, until a later meeting. Similar action was taken a year ago until later in the year, when a dividend of 5% was paid on this issue on Dec. 31. (See V. 119, p. 2282.)

See also Chicago & North Western Ry. above.—V. 120, p. 2392.

Chicago Union Station Co.—*Listing.—*

The New York Stock Exchange has authorized the listing of $7,000,000 5% Guaranteed Gold bonds, due Dec. 1 1944. The bonds, the listing of which are hereby applied for, are not secured by any specific lien, but are the general credit obligations of the company, guaranteed as to both principal and interest, and are junior to the 1st Mtge. bonds of the company, due July 1 1963, which are outstanding to the aggregate principal amount of $60,000,000.

General Balance Sheet.

	Feb. 28 '25.	Dec. 31 '23.		Feb. 28 '25.	Dec. 31 '23.

—V. 119, p. 3006.

Colorado & Southern Ry.—*New Directors.—*

Walker D. Hines, Director-General of Railroads during the War, and Arthur Curtiss James and Stephen Birch, both of New York, have been elected directors succeeding Robert Rice, Vice-President & General Manager, who is to continue as general manager, and Bruce Scott and Charles I. Sturgis, both of Chicago.—V. 120, p. 2397.

Delaware & Hudson Co.—*Transfer of Coal Properties.—*

At the annual meeting the stockholders approved the recommendation of the managers "to transfer to a corporation or corporations, all of whose stock shall be owned by The Delaware & Hudson Company, all or any of the anthracite lands and interest therein belonging to it and all or any real and personal property owned or controlled by it pertaining to the mining, preparation and marketing of anthracite, including the stock of subsidiary corporations owning properties of that nature, for such consideration in the form of the stock, bonds or other securities of the purchasing corporation or corporations, or otherwise, as the Board of Managers may deem adequate and advantageous."

Statutory Court Refuses Injunction Restraining Commission From Automatic Train-Stop Order.—

The application of the company for an order to restrain the I.-S. C. Commission from enforcing its orders compelling the company to install automatic train-stop and train control devices along portions of its right of way has been denied by the Statutory Court composed of Federal Judges Hough, Hand and Bondy, which heard argument on the temporary injunction plea several months ago.

The company is granted an injunction, however, against prosecution or other efforts to enforce the penalties for failure to instal manual or permissive control devices before July 18 1926.

The court finds that the Act of Congress conferring the authority of the Commission to prescribe the devices is constitutional. The original order of the Commission, the court says, provided for the installation of wholly automatic devices but this was later changed to allow mechanism which permitted the engineer of trains to have some control over it.—V. 120, p. 2265.

Fort Worth & Denver City Ry.—*Report.—*

See Colorado & Southern Ry. under "Financial Reports" above.—V. 120, p. 2681.

Grand Trunk Western Ry.—*Tentative Valuation.—*

The I.-S. C. Commission has placed a tentative valuation of $27,306,744 on the total owned properties of the company, and $29,383,944 on the total used properties, as of June 30 1917.—V. 119, p. 2874.

Great Northern Ry.—*To Enter Bus Business.—*

President Ralph Budd on May 21 announced that the company would go into the bus transportation business in Minnesota to supplement and protect its railroad transportation business. At the same time articles of incorporation were filed for the Great Northern Transit Co. and the Minnesota Transportation Co., with an authorized capitalization of 10,000 shares (par $100) each, to be used in launching passenger and freight bus service.

The directors of both transportation companies include: Louis W. Hill, Ralph Budd, W. P. Kenney and L. K. Kerr, all connected with the Great Northern Ry. Mr. Budd is President, Mr. Kenney Vice-President and F. L. Paetzold, Secretary and Treasurer. The headquarters are to be at St. Paul.

President Ralph Budd said: "It has not yet been decided where or to what extent the Great Northern RR. may decide to get into the bus business, but the plan is to study the situation carefully and, where and improvement in service to the public can be offered and the railway transportation can be preserved and improved by so doing, we propose to operate bus routes supplementary to our train service and so correlate it as to best accommodate public travel.

"This will stabilize the employment in railway service, which, in the last few years, has suffered greatly by the loss of passenger business. Train and enginemen who are possessed of seniority rights of long standing and have had every reason to feel secure in their employment, have been thrown out of their places on account of commercial vehicles operating on the public highways. There is great public interest in this matter because the railways are essential public carriers and cannot be eliminated. And since they must be supported by the traffic they are permitted to enjoy, the public bill will be less if all possible waste in the furnishing of transportation as well as the use of the public highways are avoided."—V. 120, p. 2546.

Kansas City Northwestern Ry.—*Would Revive Road.—*

According to a Lincoln, Neb. despatch L. S. Cass, receiver of Kansas City Northwestern Railroad, has asked the Nebraska State Railway Commission's approval of a plan for the rehabilitation of the road, which has been rusting in idleness for 6 years, and which involves the borrowing of $2,355,000 from the Federal government. The road runs from Kansas City to Virginia, Neb. The receiver owns most of the $1,500,000 stock, and there are outstanding bonds of $3,500,000. A similar request for government aid was turned down in March 1925 because of unsatisfactory showing. The road must first get a certificate of convenience and necessity from the I.-S. C. Commission.—V. 120, p. 1199.

Lorain & West Virginia RR.—*Tentative Valuation.—*

The I.-S. C. Commission has placed a tentative valuation of $1,110,810 on the total owned properties of the company and $1,110,911 on the total used properties, as of June 30 1918.—V. 100, p. 2009.

Morris & Essex RR.—*To Issue Bonds.—*

The stockholders will vote June 24 on a resolution to issue bonds of the company for $35,000,000, and to mortgage the company's railroads and property for $35,000,000, to secure such bonds, in order to provide by such bond issue for the payment and reimbursement to the Delaware, Lackawanna & Western RR. Co. lessee, of expenditures properly chargeable to construction account amounting approximately to $11,600,000, and for the payment and reimbursement to the lessee of future capital expenditures for improvements, extensions, additions and betterments and for all other lawful purposes.—V. 117, p. 87.

Missouri Pacific RR.—*Acquires San Antonio, Uvalde & Gulf to Round Out System—Expects to Get All the Stock.—*

In an official statement, Pres. L. W. Baldwin says in regard to the recent acquisition of an option on control of the San Antonio Uvalde & Gulf RR. by the Gulf Coast Lines for the greater Missouri Pacific system:

"The Missouri Pacific and allied system lines want the property to round out the system and especially to provide adequate and dependable service between the lower Rio Grande and San Antonio, over its own rails.

"The securities of the S. A., U. & G. are held in two blocks of 48% and a third block of 4%. The Missouri Pacific, through the Gulf Coast Lines, has obtained an option on one of the large blocks and the small block which will, if acquired, give the Missouri Pacific System Lines 52% of the securities and control of the property. It is our intention to immediately apply to the I.-S. C. Commission for authority to exercise the option.

"When the necessary authority is obtained and the control of the property is acquired, the Missouri Pacific System will be in a position to develop and provide improved service between San Antonio and the lower valley. This will have the effect of placing the city of San Antonio in direct touch with the lower valley and the Mexican gateway at Matamoras. This will, naturally, prove of advantage to both the city of San Antonio and the lower valley, and to the Missouri Pacific System interests and will also prove of very great benefit to the intermediate points between San Antonio and the valley.

"Should the acquisition be authorized, it is hoped and anticipated that the remainder of the securities can be acquired on a mutually satisfactory basis."—V. 120, p. 2546, 2397.

Muscle Shoals Birmingham & Pensacola Ry.—*Sale.—*

John W. Malone, Pensacola, heading a syndicate of local men, bought the road at public auction April 20 for $229,000. The road was sold under Federal court foreclosure proceedings. The Central Union Trust Company, New York, was the complainant. The only other bidder was F. M. Mosley, Union Springs, Ala. His offer was $225,000.—V. 119, p. 455.

New York Chicago & St. Louis RR.—*Chairman O. P. Van Sweringen Testifies Before I.-S. C. Commission on Proposed Unified Nickel Plate Plan—Short Term Notes.—*

See under "Current Events" this issue.

The Washington dispatches announce the application to the I.-S. C. Commission by the company for the issuance of $9,575,000 short-term notes in order temporarily to finance the maturity of a like amount of Toledo, St. Louis & Western 4% bonds falling due July 1. The Guaranty Trust Co. of New York announces that this will involve no public financing at this time.—V. 120, p. 2537.

Norfolk Southern RR.—*New Control.*—

Marsden Perry recently sold his entire holdings of Norfolk Southern stock, amounting to 50,000 shares, to Ernest Williams and his associates. Mr. Perry has resigned as a member of the board and Mr. Williams has succeeded him. Mr. Williams in a statement said:

"The Norfolk Southern RR. is not negotiating with any large road for its sale. The road will not be for sale for several years, as it is the intention of the present management to build up the property."—V. 120, p. 2682, 2393.

Norfolk & Western Ry.—*Virginian Ry. Lease.*—

The proposals for the lease of the Virginian Ry. to the Norfolk & Western were approved by the Norfolk & Western stockholders May 23.

Pres. Needles in a statement said: "At the special meeting of stockholders held May 23 to consider the lease of the Virginian Railway to the Norfolk & Western Ry. of the railroads, properties, franchises and assets of said Virginian Railway, for a period of 999 years, said lease was approved, more than 76% of the capital stock voting in favor thereof."

The board of directors of the Norfolk & Western Ry. at its regular meeting held in Philadelphia on May 26 authorized the filing of an application with the I.-S. C. Commission for its approval of the proposed lease.—V. 120, p. 2547, 2143.

Oregon Calif. & Eastern RR.—*New Interests.*—

See Southern Pacific Co. below.—V. 109, p. 2263.

Paris-Orleans RR.—*Bonds Called.*—

Three hundred (300,000 francs) 6% bonds (foreign series 1956) have been called for payment June 1 at par and int. at the office of A. Iselin & Co., 36 Wall St., New York City.—V. 120, p. 828.

Pennsylvania RR.—*No. of Stockholders.*—

The number of stockholders on May 1 were 146,797 an increase of 634 over April 1 and an increase of 1,520 over May 1 1924. The previous record was 146,440 reported on Nov. 1 1924. Average holding on May 1 1925 was 68.02 as compared with 68.32 on April 1 and with 68.73 on May 1 1924. Foreign holdings totaled 3.80%, an increase of 0.02% compared with a year ago.

Consolidates Two Western Operating Regions.—

The directors on May 27 decided to combine the company's operations in the northwestern and southwestern regions of the system. The change will be effective June 1. Its purpose is to obtain the advantages of a more concentrated administration of the service and facilities in the territory affected.

The consolidated region will be known as the Western Region, and will be under the general jurisdiction of T. B. Hamilton, vice-president and general manager, whose chief office will remain at Chicago. Benjamin McKeen, hitherto in charge of the Southwestern Region, will continue at St. Louis, as resident vice-president to represent the company's interest in that general territory.—V. 120, p. 2266, 2009.

Quebec Extension Railway.—*Construction of Line.*—

The I.-S. C. Commission on May 11 issued a certificate conditionally authorizing the company to construct a line of railroad extending from a connection with the Aroostook Valley RR. at Washburn, in a general westerly direction to the western boundary line of the State of Maine, a distance of 112 miles, all in Aroostook County, Me. Permission to retain the excess earnings from the proposed line also granted.

The report of the commission says in part:

The president of the applicant controls both the applicant and the Aroostook Company and intends that the railroad of the former company shall be leased to the latter company and that the lines of the two companies shall be operated as one. It is represented that application to lease will be made later. This combined road would connect at both ends with the Canadian Pacific Ry. or its subsidiaries, and will have physical connections with the railroads it crosses. The Canadian Co. guarantees the interest on the bonds of the Aroostook Co. and supplies it with cars for other than local use under an agreement that the Aroostook Co. shall have not through routes or joint rates with, or deliver traffic to, any other railroad than the Canadian unless required to do so by law, or with the consent of the Canadian Co.

The testimony is that the Canadian Co. will take one third of whatever capital stock is issued by the applicant; that it has agreed provisionally to guarantee the payment of interest on the applicant's bonds up to a principal amount of $30,000 a mile and to provide all freight cars needed by the applicant, except for its local business, upon conditions similar to those contained in its contract with the Aroostook Co.

The applicant expects to interchange traffic with its other connections subject to its agreement with the Canadian Co., and is willing to accept a certificate upon condition that it establish through routes and joint rates with the Bangor & Aroostook to all destinations for which its route may be available on the basis of equality of rates, divisions, and service with those of the applicant's other connections.

The cost of construction is estimated by the applicant at $3,621,000, and the estimated cost of equipment needed for local use is $600,000. Nothing is included for shop buildings and machinery, nor for interest during construction. The proposed line would be operated by electric power, which would be supplied, at least for the first few years, by a power company in which the applicant's president owns the controlling interest and which supplies the power to operate the Aroostook. It is claimed that the plant of this power company can generate 8,000 h.p., and that one-half of this is now going to waste. After some years it is expected that sources of electric power along the route will be utilized and that they will supply power for industries also.

The applicant proposes to finance the project by issuing its 1st Mtge. 40-Yr. 5½% bonds at the rate of $30,000 a mile, and by the sale of capital stock. Its authorized capital stock is $4,000,000, none of which has been issued.

Ridgefield & New York Ry.—*Will Pay 90 Cents a Share on Original $50 par Stock.*—

The New York "Sun" of April 1 had the following: 115 surviving stockholders of a railroad formed 58 years ago, but never built, will receive from the receiver of the road 90 cents a share on their holdings—the 90 coppers representing all that remains of the $50 a share raised more than half a century ago. The road was to have been built between Ridgefield, Conn., and the New York State line, there connecting with another road to New York city, which also never was built.

The Ridgefield railroad is a subsidiary of the New York, New Haven & Hartford, the latter owning 3,380 shares of a total of 5,236 shares outstanding. The railway might have been built, for in the '60s enthusiasm over the project ran high and no difficulty was experienced in raising local capital for building it.

However, the panic of 1872-73 came with violence a few years after the new company has been formed. When the panic had passed the contemplated road was left high and dry, its assets consisting of narrow strips of land acquired for right of way purposes.

In 1917 Judge William B. Boardman was appointed receiver to wind up the railroad's affairs. When he was appointed it was believed that about $3,000 or at most $4,000 would be realized, or just about enough to pay for the obsequies. However, the land purchased for the right of way appreciated somewhat during the half century, and when the final figures were made up it was found that there was a surplus of $4,712 left, after allowance for $3,500 expenses.

The balance on hand represents 90 cents a share on the stock. Judge Banks in the Superior Court at Bridgeport has ordered the receiver to pay this sum. The receiver is now faced with the hardest problem of all—namely, the job of locating the shareholders.—V. 105, p. 1898.

San Antonio Uvalde & Gulf RR.—*New Control.*—

See Missouri Pacific RR. above.—V. 116, p. 1761.

Southern Pacific Co.—*Equip. Trusts Sold.*—Kuhn, Loeb & Co. have sold at prices ranging from 97.86 and div. to 100 and due to yield from 4½% to 4.70% according to maturity (or in equal amounts of all maturities at an average price of 98.66 and div. being an average yield of 4.69%), $10,491,000 4½% Equip. Trust Certificates, Series "H."

Dated June 1 1925; maturing in equal amounts in annual instalments from June 1 1928 to June 1 1940, both incl. Denom. $1,000 c*. Dividends payable J. & D. Bank of North America & Trust Co., Phila., trustee. Both principal and dividends will be payable at the agency of the trustee in New York, in gold coin of the United States of America of or equal to the present standard of weight and fineness and without deduction for any tax, assessment or governmental charge (other than Federal income taxes) which the company or the trustee may be required to pay or to retain therefrom under any present or future law of the United States of America or of any state, county, municipality or other taxing authority therein.

Issuance.—Subject to the approval of the I.-S. C. Commission.

Security.—There will be vested in the trustee title to new equipment costing not less than $15,000,000, including the following: 15 three-cylinder locomotives 4-10-2 type; 18 mountain type locomotives 4-8-2 type; 10 switching locomotives 0-6-0 type; 2,796 box cars, steel underframe; 200 automobile cars, steel underframe; 1,000 steel drop-bottom gondola cars; 200 steel oil tank cars; 400 steel hart selective ballast cars; 70 caboose cars, steel underframe; 6 steel baggage-postal cars; 6 steel baggage-horse cars and 6 steel suburban electric motor coaches.

Pending the delivery of the equipment cash equal to the principal amount of the certificates is to be deposited under the Equipment Trust Agreement, to be withdrawn from time to time as equipment is delivered to the extent of 70% of the cost thereof. All equipment is to be leased by the trustee to the Southern Pacific Co. at a rental sufficient to pay the certificates and dividend warrants as they mature.

The principal of the trust certificates and dividends thereon will be unconditionally guaranteed by endorsement thereon by the Southern Pacific.

Acquires Interest in Two Western Roads.—

An official announcement issued from the office of Pres. Wm. Sproule says:

"The Southern Pacific Co. announces that arrangements have been made with Charles Moran, Pres. of the Nevada-California-Oregon Ry., to aid him in securing the money needed to carry out his plan of changing that road from narrow gauge to standard gauge.

"The arrangement is, of course, subject to the approval of the I.-S. C. Commission. If approved, it will give the Southern Pacific a substantial interest in the Nevada-California-Oregon Ry. which will be rebuilt as a broad-gauge line under Southern Pacific auspices. Its distance is 156 miles, between Lakeview, Ore. and Wendel, Calif., where it connects (23 miles east of Susanville) with the Fernley branch of the Southern Pacific.

"Mr. Sproule announces at the same time that the Southern Pacific Co. has completed negotiations with R. E. Strahorn, Pres. of the Oregon, Calif. & Eastern Ry. Co., under which funds will be advanced to Mr. Strahorn to aid in the construction of the line of his company from Klamath Falls, Ore., to connection with the Nevada-California-Oregon Ry.

"This will likewise require the approval of the I.-S. C. Commission and, if approved, will give the Southern Pacific Co. a substantial stock interest in the Oregon, Calif. & Eastern Ry. which now extends 40 miles from point of connection with the Southern Pacific at Klamath Falls easterly to Sprague River, Ore.

"The completion of the Oregon, Calif. & Eastern, which is a standard-gauge line, coupled with the conversion of the Nevada-California-Oregon to a standard-gauge line, will provide a new artery through southern and central Oregon for through traffic between Oregon and the eastern states.

"Application will be made in due course for permission and authority to put these plans into effect.

"These transactions are in accord with the general policy of the Southern Pacific Co., which looks to the development of the territory it serves, as already shown by the transportation facilities it has provided in Oregon and those under construction, to which these new additions come in natural sequence."—V. 120, p. 2392.

Southern Railway.—*Bonds.*—

The I.-S. C. Commission on May 15 authorized the company to issue not exceeding $2,000,000 1st Consolidated Mtge. 5% bonds; the bonds to be sold at the best price obtainable but in no event at less than par and interest and the proceeds used to retire an issue of $2,000,000 1st. mtge. 6% bonds of the Knoxville & Ohio RR., due July 1 1925. No arrangements have been made for the sale of the bonds.—V. 120, p. 1324, 1200.

Toledo & Ohio Central Ry.—*Annual Report.*—

The lines of the Toledo & Ohio Central Ry. and its subsidiaries, viz.: Zanesville & Western Ry., Kanawha & Michigan Ry. and Kanawha & West Virginia RR., were leased as of Jan. 1 1922 to the New York Central RR. (V. 115, p. 544). The operation of these lines for 1922, 1923 and 1924, now known as the Ohio Central Lines, are contained in the annual report of the New York Central RR., which shows the following results:

Income Account For Calendar Years.

	1924.	1923.	1922.

—V. 120, p. 207, 84.

Washington, Idaho & Montana Ry.—*Final Value.*—

The I.-S. C. Commission has placed a final valuation of $2,481,293 on the owned and used property of the company and $1,542 on the property used but not owned.

This corporation is controlled by the Inland Improvement Co. It owns and operates a single track standard gauge steam railroad extending from Palouse, Wash., to Purdue, Ida., about 49 miles.

Yazoo & Mississippi Valley RR.—*Bonds.*—
The I.-S. C. Commission on May 11 authorized the company to issue $3,493,000 5% Gold Improv. bonds, series "X;" the bonds to be delivered at par to the Illinois Central RR. in reimbursement of advances made by it to the Yazoo Co.—V. 120, p. 1745.

PUBLIC UTILITIES.

American Gas Co. of Pa.—*Listing.*—
The Phila. Stock Exchange has authorized the listing of $1,315,400 (26,308 shares) additional voting Trust certificates, issued against the deposit of a like amount of capital stock deposited under voting trust agreement, dated April 22 1924, in connection with the acquisition of the Common stock of the American Gas Co. (N. J.), by the United Gas Improvement Co., making the total amount of voting trust certificates listed $4,892,400, representing 97,848 shares American Gas Co. (Pa.), deposited.—V. 120, p. 2682.

American Water Works & Electric Co., Inc.—*To Retire Participating Preferred Stock.*—
The stockholders will vote June 23 on retiring the $10,000,000 Participating Preferred stock outstanding, at 105 and divs., or on a plan to offer in exchange one-half share of Common stock and one-half share of the 7% Preferred stock for each share of the 6% Partipating Pref. stock plus an additional cash payment. The amount of the cash payment has not yet been determined but will be announced later. No date for retirement of the issue has yet been set.—V. 120, p. 2682.

Associated Gas & Electric Co.—*Dividends Increased on Class "A" Stock—Extra Dividend on Pref. Shares.*—The directors have declared two quarterly dividends of 62½c. a share on the Class "A" stock, payable Aug. 1 and Nov. 1 to holders of record July 10 and Oct. 12, respectively. The stockholders have the option of taking 1-40 of a share of Class "A" stock instead of cash. On May 1 an initial dividend of 50c. a share was paid on this issue, with the same option.

The directors have also declared an extra dividend of 12½c. a share on the Preferred stock in addition to the regular quarterly dividend of 87½c. a share, both payable July 1 to holders of record June 10. In lieu of the cash dividend totaling $1 a share, stockholders have the option of taking 1-25 of one share of Class "A" stock in scrip.

$14,000,000 *Bonds Sold.*—John Nickerson & Co.; Hambleton & Co. and Federal Securities Corp. have sold at 95½ and int., to yield 6.34%, $14,000,000 Secured Gold bonds, 6% Series of 1925.

Dated Jan. 1 1925; due Jan. 1 1955. Int. payable J. & J. at New York, without deduction for any normal Federal income tax not in excess of 2%. Red., all or part, on the first day of any month upon 30 days' notice at 105 on or before Dec. 1 1935; at 104 thereafter and on or before Dec. 1 1940; at 103 thereafter and on or before Dec. 1 1945; at 102 thereafter and on or before Dec. 1 1950; at 101 thereafter and on or before June 1 1954; at 100½ thereafter to maturity, plus int. in each case. Denom. $1,000, $500 and $100c*. Company agrees to refund personal property tax paid by residents of Penna. and Conn., not exceeding 4 mills, and of Maryland not exceeding 4½ mills, and of Kentucky not exceeding 5 mills, per dollar of taxable value per annum, and Mass. income tax not exceeding 6% per annum on income derived from these bonds. Chase National Bank, New York, trustee.

Data from Letter of Pres. J. I. Mange, New York, May 20.

Company.—Incorporated in 1906 in New York. Company and subsidiary and affiliated companies own, control or operate public utility properties which have been in continuous and successful operation for long and varying periods, the largest company having been in existence over 73 years, during 67 years of which it or its constituent companies have paid dividends. The properties supply over 138,000 consumers, in more than 400 communities in New York, Massachusetts, New Hampshire, Maine, Ohio, Connecticut, Vermont, Kentucky and Tennessee. Total population estimated over 600,000. In addition company has recently acquired a substantial interest in Manila Electric Corp., supplying electric light and power and railway service to Manila, the principal city of the Philippine Islands.

Ann. int. on A. G. & E. Co. Secured bonds (incl. this issue)				1,022,000
Balance				$2,050,430

a Includes income applicable to minority Common stocks held by public. b Including bond interest charges and dividends on Preferred stocks of subsidiary and affiliated companies to be in the hands of the public.

The above earnings reflect only annual dividends receivable from Manila Electric Corp. and other minority investments and not total earnings applicable to the company's holdings.

Of the net earnings for the latest period as shown above, approximately 85% was derived from electric light and power operations; 6% from gas, and 9% from miscellaneous sources.

Security.—Secured by pledge with the trustee of substantially all of the stocks and notes of important subsidiary companies directly owned, together with a majority of the stock of its most important affiliated company, Staten Island Edison Corp.

The present value (after depreciation) of the properties of the operating subsidiary and affiliated companies as valued by Edward J. Cheney (formerly Chief and Engineer of the Division of Light, Heat and Power of the P. S. Commission, 2d District, New York) plus net additions at cost and net current assets, after deducting all underlying liabilities and equity for minority interests, is over $35,000,000, or over $2,000 for each $1,000 bond.

Sinking Fund.—Indenture provides for the payment to the trustee as a sinking fund for bonds of the 6% Series of 1925, semi-annually commencing Jan. 1 1926, of an amount equivalent to 2% annually of the principal amount of the bonds of said series at the time outstanding, such sinking fund payments to be applied by the trustee to the purchase of such bonds at not exceeding 101% of principal amount and int., or, if not so exhausted within 50 days, to the redemption or other retirement of bonds of any series or to reimburse the company for the cost of additional securities pledged under the indenture. Bonds purchased or redeemed for the sinking fund are to be cancelled.

Purpose.—Proceeds from the sale of this issue will be used to reimburse the company for expenditures made in the acquisition of additional properties, for improvements and additions to operating properties and for other corporate purposes.

Franchises and rights appurtenant to the various properties are without burdensome restrictions and afford ample protection to the company. The operating companies enjoy favorable relations with the consumers.

Management.—Properties are under the supervision of J. G. White Management Corp.—V. 120, p. 2547, 2399.

The directors have declared a dividend of 1% on the 7% Non-Cumul. Partic. Preference shares, payable June 30 to holders of record June 15. A similar amount was paid on this issue on April 15 last.—V. 120, p. 2680, 2547.

Belt Line Ry. Corp.—*Wins Transfer Fight—Supreme Court Holds State Cannot Require Traffic To Be Carried at a Loss.*—
The order of the P. S. Commission of the First District of New York requiring the Belt Line Ry. Corp. (59th St. Crosstown Line) to issue and receive free transfers from lines of the Second Avenue Railway Company and the New York Railways Company at First, Second, Lexington, Sixth and Seventh Avenues was declared to be confiscatory in a unanimous opinion handed down May 25 by the U. S. Supreme Court. The decision affirms a final decree of the District Court for the Southern District of New York issued Nov. 30 1923, by which the enforcement of the Public Service Commission' order of Oct. 29 1912 was enjoined. The opinion was written by Justice Butler.

The Belt Line Railway Corp. is the successor to the Central Park, North & East River Ry. Co. which in 1912 operated a line in 59th St. from First to Tenth Ave. On Oct. 29 1912 the Public Service Commission issued a transfer order, established several through routes and required transfers at a single 5-cent fare.

An agreement was made between the predecessor company and the other companies affected for a division of the 5-cent fare, giving 2 cents to the cross-town line and 3 cents to the up and down town lines. Subsequently the original line was sold and the Belt Line organized.

On May 11 1920 the receiver of the New York Railways applied to the Public Service Commission, subsequently succeeded by the Rapid Transit Commission, to be relieved of the requirements of the transfer order. The Belt Line Corporation joined in the application and asked for a discontinuance of all transfers except from the Third Ave. system.

After hearings the commission, on July 9 1920 made an order requiring the continuance of transfers, but increasing the joint rates from 5 to 7 cents. This was not accepted by the railroad and a rehearing was asked. The commission ordered the rehearing, at the same time suspending the operation of the 7-cent order.

Pending the rehearing proceedings the injunction suit was commenced on Dec. 16 1920 in the Federal court in New York. The Transit Commission was substituted for the Public Service Commission. The District Court on Nov. 30 1923 held the order confiscatory and enjoined its enforcement. From that decision Joab H. Banton, as District Attorney for New York County, and the Transit Commission appealed to the Supreme Court.

In the opinion handed down May 25 the Supreme Court held to be without merit the contention of the county and State authorities that when the suit was commenced the rate-making process was not completed and the appellee had not exhausted the legal remedies in the State courts.

"The order complained of," says the Supreme Court "has been in force for more than 8 years. The laws of the State required it to be obeyed and prescribed penalties for failure to comply with it. Neither the original application nor the petition for rehearing relieved appellee of the burden of compliance with the order of Oct. 1912. No application to the commission for relief was required by the State law. None was necessary as a condition precedent to the suit.

"On the point under consideration it must be assumed that the joint fare of 5 cents was confiscatory as alleged. The continued enforcement of that rate would operate to take appellee's property without just compensation and to compel it to suffer daily confiscation. Notwithstanding the matter was pending on rehearing, the appellee had the right to sue in the Federal Court to enjoin the enforcement of the rate. It was not bound to await final action by the commission, and, if the rate was in fact confiscatory, to serve in the meantime without just compensation."

The appellants complained that no injunction had been sought against the order in so far as it affected the Third Ave. line, which owns the stock of the Belt line, and that, as a result, traffic had been diverted to the Third Ave. system. The decision May 25 holds that the business of the Third Ave. system and its competitors is not involved in this action, nor, it is pointed out, are they complaining. The company, the Court declared, did not surrender its rights under the Fourteenth Amendment.

"There is nothing," the decision continues, "in appellee's certificate of incorporation or the laws under which it was organized that imposes upon it any obligation to continu to serve for a portion of the joint fare of 5 cents. The commission's order co titutes no part of the charter of appellee, and we find no agreement, expr sed or implied, to comply with the order.

"The commission under the guise of regulation may not compel the use and operation of the company's property for public convenience without just compensation. The evidence sustains the finding of the master and the District Court that the joint fare of 5 cents is confiscatory.

"The State is without power to require the traffic covered by the fare enjoined to be carried at a loss or without substantial compensation over its proper cost, and such cost includes not only the expenditures, if any, incurred exclusively for that traffic, but also a just proportion of the expenses incurred for all traffic of which that in question forms a part.

"The cost of doing such business is not, and properly cannot be, limited to the amount by which total operating expenses would be diminished by the elimination of, or increased by adding, the transfer passengers in question. It would be arbitrary and unjust to charge to that class of business only the amount by which the operating expenses were, or would be, increased by adding that to the other traffic carried. Outlays are none the less attributable to transfer passengers because also applicable to other traffic. Broad as its power to regulate, the State does not enjoy the freedom of an owner."

"It is well known, and the Court will take judicial notice of the fact, that the purchasing power of money has been much less since 1917 than it was in 1912, when the order was made, and that the cost of materials, labor and supplies necessary for the proper operation and maintenance of street railways has greatly increased, we are satisfied by the evidence that a fair and reasonable return on the value would be in excess of $91,154, the annual interest of 5% on the indebtedness of $1,823,091 53 evidenced by the bonds and note."

Referring to the average cost per passenger of the service for the five years 1918 to 1922 incl. and for 3 months of 1923 the Court declares these gifures show that "the operating expenses and taxes, both before and after the injunction, substantially exceeded 2 cents, the amount received by appellee per transfer passenger."

"Exclusive of any allowance for a depreciation reserve or for interest," the decision continues, "the average cost per passenger has been from about 24% to about 51% in excess of 2 cents, and, if interest be included, it appears that the excess has been from about 50% to 105%."

Under the decision of the Court, the Belt Line no longer will be required to issue transfers to the lines of the New York Railways and the Second Ave. Railway.—V. 119, p. 72.

Boston & Worcester Street Ry.—*To Operate Buses.*—

Judge Wait, in the Massachusetts Supreme Court at Boston, Mass., has authorized Franklin T. Miller, receiver of the company to operate buses through the following cities and towns: Boston, Newton, Waltham, Marlboro, Worcester, Ashland, Brookline, Grafton, Hopkinton, Hudson, Natick, Northboro, Shrewsbury, Southboro, Sudbury, Watertown, Wayland, Westboro and Weston, Mass.

In connection with the decision of Judge Wait, it is stated that it is not the intention of the receiver to tear up tracks, give up trolley operation or substitute bus operation on the main lines. For the present, bus service will be operated only on "feeder" branch lines.—V. 120, p. 828, 581.

Brooklyn Edison Co., Inc.—*Denies a Merger.*—

A detailed denial of any merger being planned or any intention to split up the stock of the Company was made May 23 by M. S. Sloan, President, in reply to rumors in the stock market that some such step was under contemplation. Pres. Sloan said:

"I denied these rumors of a proposed split-up of Brooklyn Edison stock when they appeared in the financial district last Fall, and my denial stands now as firmly as ever. There is no truth whatever in them. Nor is there any truth in the rumors of a merger of utilities in the metropolitan district, in which Brooklyn Edison would be a party.

"There have been reports of a merger of Brooklyn Edison with Consolidated Gas and Brooklyn Union Gas. There is no foundation for them. Neither Consolidated Gas nor Brooklyn Union Gas owns a share of Brooklyn Edison stock nor does Brooklyn Edison own a share of Brooklyn Union Gas or Consolidated Gas. No merger of any kind that affects Brooklyn Edison is in contemplation or under discussion."

President M. S. Sloan says: During 1925 our capital expenditures will total $20,000,000 and operating expenses will be another $20,000,000. For 40 years this company and its predecessors furnished electrical service in Brooklyn. They built generating stations and distribution system which now represent an investment of nearly $125,000,000. During the 6 years ended Dec. 31 1924, we spent in such work an average of $1,000,000 monthly and in 27 months from Oct. 1 1922, to Dec. 31 1924, we spent over $48,000,000. Recently the company was able to make a rate reduction because improvements already completed had decreased operating expenses and the growth in volume had increased revenues. We hope that won't be the last rate reduction we shall be able to make.—V. 120, p. 1585, 1201.

Canadian Light & Power Co.—*Reduces Capitalization.*—

The stockholders on May 18 approved the reduction in the authorized capital stock (par $100) from $7,000,000 to $600,000 (not $6,000,000 as reported last week). Of the $7,000,000 stock, $6,000,000 was outstanding, the holders of which shall receive one share of stock in exchange for each 10 shares held.

This company is controlled by the United Securities, Ltd.—V. 120, p. 2683.

Cape & Vineyard Electric Co.—*To Increase Stock.*—

The company has applied to the Massachusetts Department of Public Utilities for authority to increase its authorized capital stock from $750,000 (all one class), par $100, to $750,000 Common, par $25, and $550,000 6% Preferred stock. The Preferred stock is to be offered at par ($100), the proceeds to be used to pay for capital expenditures, &c.—V. 118, p. 2828.

Cities Fuel & Power Co.—*Agreement in Suit Approved.*—

Judge Groner, of the United States District Court at Richmond Va., has issued a decree in the case of the company against the Empire Transportation & Oil Corp. approving the agreement for settlement made April 8 between Henry L. Doherty & Co., New York, and W. J. Payne, W. F. Hull, Thomas S. Wheelwright and Joseph Button, constituting the stockholders' protective committee, Empire Transportation & Oil Corp.

Judge Groner says: "The agreement is approved by the court, it appearing to the court that the said agreement fully protects the rights the interests of the intervening stockholders. . . .

"That upon delivery to Henry L. Doherty & Co. of not less than 25,000 shares of the stock of the defendant, Empire Transportation & Oil Corp., said Henry L. Doherty & Co. shall make payment therefor of the cash and delivery of contract for oil in accordance with the terms of the settlement and shall make payment of the court costs. . . . The said receivers shall simultaneously therewith turn over all cash or funds in possession of the receivers and transfer and deliver all the cash, shares of stock, accounts and notes receivable, property and assets in the possession of the receivers.

"That for the purpose . . . the secretary and the receivers . . . are authorized to call a special meeting of the stockholders of the Empire Transportation & Oil Co. to be held upon a date to be specified in the notice of the meeting. . . ."—V. 119, p. 2068.

Citizens Gas Co. (of Indianapolis).—*Options on 40,000 Shares of Stock at $40 per Share Sought.*—

Galvin L. Payne & Co., in a notice to the holders of trustee's certificates for Common stock says:

On behalf of a client, we are authorized to make an offer for trustee's certificates of Citizens Gas Common stock at $160 on each $100 per value, providing 40,000 shares are offered and deposited with the Fletcher American National Bank on or before June 9 next. This price is $40 for each $25 par value share. The bid price on this stock on the Indianapolis Stock Exchange as of May 11 was $33¼ a share or $134 on each $100 par value.

There are now outstanding 80,000 shares of common stock represented by these trustee's certificates. Our client commits himself to purchase only 40,000 shares and reserves the right to either purchase or decline to purchase any stock offered after 40,000 shares are deposited. The price he proposes to pay is $26 higher than the Indianapolis Stock Exchange bid price of May 13 of $134 on each $100 par value of stock.

Our client has deposited with the Fletcher American National Bank the sum of $100,000 cash as a guaranty of good faith and as forfeiture should he fail to carry out the depositary agreement. This sum is equal to 10% of the par value of 40,000 shares of stock.

After consultation with some of the larger stockholders, we believe the present a favorable opportunity for our clients to dispose of their stock at a price considerably in advance of the market that has prevailed for some time, and we strongly recommend that they make deposit under the agreement.—V. 120, p. 1881.

Columbia Gas & Electric Co.—*Earnings.*—

Consolidated Earnings, 12 Months Ended April 30.

[Incl. Subs. controlled by practically 100% common stock ownership or lease

	1925.	1924.
Gross earnings	$25,844,321	$24,699,332

Surplus available for dividends	$7,059,597	$6,109,338

Pres. P. G. Gossler in a letter to the Shareholders says: Company has extended to the holders of its 1st Mtge. 5s due Jan. 1 1927, an opportunity to exchange them until and incl. May 29 1925, for an equal amount of new 3-Year 5% Gold Notes dated May 1 1925, plus a cash payment to the bondholder of $10 per $1,000 of Bonds exchanged and with adjustment of accrued interest, this premium and the accrued interest adjustment involving a cash payment of $26.67 per $1,000 Bond exchanged.

The Cincinnati City Council on May 19 passed an ordinance fixing rates for gas service in that City for a period of five years effective from June 1 925. The new rates are higher for some classes of service and lower for thers and, instead of being in ascending scale as in the past, now provide a schedule of rates decreasing as the consumption increases, which will permit the economic use of gas for industrial purposes and therefore assist in the industrial development of the community.

The company has concluded a renewal for ten years of the contract for electric street lighting in Cincinnati consisting of 50-one hundred arc lights and 30-four hundred boulevard incandescent units.—V. 120, p. 2400, 2145

Commonwealth Power Corp. (& Subs.).—*Earnings.*—

12 *Months Ending April 30*—	1925.	1924.
Gross earnings	$31,507,049	$31,430,668

Note.—Includes interest, amortization of debt discount and dividends on outstanding preferred stock of subsidiary companies.—V. 120, p. 2683, 2548.

Consolidated Gas, Electric Light & Power Co. of Balt.—*To Refund Bonds.*—

The directors have adopted a refunding plan which provides for calling for redemption, at 110 and int. on Aug. 1, next, of $8,532,500 Series "D" 6½% bonds and the issuance of $9,000,000 40-Year Series "F" 5% bonds. The board also authorized the issuance of $1,000,000 Series "D" 6% Preferred stock. The proceeds from the sale of these securities will be used to pay off the Series "D" bonds, and for new construction. These plans are subject to the approval of the Maryland P. S. Commission.—V. 120, p. 2548.

Denver & Interurban RR.—*Report.*—

See Colorado & Southern Ry. under "Financial Reports" above.—V. 118, p. 2703.

Detroit Edison Co.—*New Financing.*—

The company has sold to a syndicate composed of Coffin & Burr, Inc., Spencer Trask & Co., Harris, Forbes & Co., Security Trust Co., First Nat'l Co. of Detroit and Bankers Trust Co., $8,000,000 Gen. & Ref. Mtge. Gold bonds, series "B," 5% due 1955. It is understood the bonds will be publicly offered on June 1.—V. 120, p. 2146, 955.

Electric Power & Light Corp.—*Listing.*—

The New York Stock Exchange has authorized the listing of 400,000 shares (authorized, 500,000 shares, $7 Cumul. Pref. stock without par) value, and to add to the list temporary certificates for 200,000 (authorized, 2,400,000) Common stock without par value, on official notice of issuance of the 400,000 shares of Pref. stock and 200,000 shares of Com. stock on or after June 1 1925, in exchange for outstanding full-paid Pref. stock allotment certificates; with authority to add 800,000 shares of Com. stock, on official notice of issuance and distribution upon the exercise of the rights expressed in the number of outstanding option warrants entitling the holders thereof to receive the number of shares of Com. stock according to the provisions thereof, making the total amounts applied for under this and previous application 400,000 shares of Pref. stock without par value and 2,341,019 shares of Com. stock without par value.

The Pref. stock allotment certificates provide that upon payment in full of the allotment price of $100 per share, but not earlier than June 1 1925, allotment certificate holders shall be entitled to receive certificates for the number of full-paid shares of Pref. stock without par value called for by the several allotment certificates, together with certificates for half the number of full-paid share of Com. stock without par value. There have been lodged with Bankers Trust Co., New York, as depositary, for the proportionate benefit of the holders of the Pref. stock allotment certificates, certificates representing the number of full-paid shares of Pref. stock which have been paid for at the allotment price by the aggregate amount paid in against the allotment price on the Pref. stock allotment certificates, and as additional amounts are paid in upon the Pref. stock allotment certificates or any of them, certificates for additional full-paid shares of Pref. stock will be lodged with said depositary so that at all times there will be lodged with said depositary a certificate or certificates for the number of shares of Pref. stock so paid for. There have also been lodged with Bankers Trust Co. certificates representing 200,000 shares of Com. stock.

In each option warrant the corporation promises to deliver to the registered holder thereof a certificate for one share of its full-paid Com. stock as it may exist at the time of such delivery at its office or agency in New York, upon surrender thereof at any time (without limit) and payment in cash for such stock at the rate of $25 per share; provided that the corporation agrees that it will, in lieu of cash, accept 1 share of its 2d Pref. stock, Series "A," in payment for each 4 shares of its Com. stock deliverable under the terms of the option warrants so surrendered and pay to the registered holder of the 2d Pref. stock, Series "A," so accepted a sum equal to the amount of dividends, if any, accrued on the share or shares of 2d. Pref stock, Series "A," to the time of such acceptance.

364,560 of the option warrants are owned by Electric Bond & Share Co. The balance, 435,440, originally acquired by Electric Bond & Share Co., have been distributed to the public.

Consolidated Earnings Statement Three Months Ended Mar. 31 1925.

General Gas & Electric Corp.—*To Redeem Bonds.*—

The corporation announced on May 27 that it would redeem and pay off on July 1 1925, all of the outstanding 1st Lien 5% Conv. Gold bonds, due July 1 1932, amounting to $715,000. The redemption price is 105 and int. to redemption date. The corporation is also applying $300,000 toward the redemption of the 10-Year 6% Secured Gold bonds. The funded debt will thereby be reduced more than $1,000,000. The Equitable Trust Co. is trustee for the bonds to be redeemed.—V. 120, p. 2011, 2005

Greenfield (Mass.) Electric Light & Power Co.—*Stock.*

The Massachusetts Dept. of Public Utilities has authorized the company to issue at par 6,000 additional shares of Preferred stock (par $25) and 2,500 shares of employees' stock, par $10. The proceeds are to be applied to the payment of indebtedness for extensions and additions to plant and property.—V. 120, p. 2146.

Hackensack (N. J.) Water Co.—*Creates New Issue of Pref. Stock—To Offer Stock to Employees And Customers.*—The stockholders on May 11 voted to create an authorized issue of $6,000,000 7% Cumul. Pref. Class "A" stock, par $25. This stock shall be callable at 104 and divs. on any dividend date after 3 years from the date of issue.

The company also has an authorized issue of $6,000,000 Common stock, $4,000,000 "7% Preferred stock," and $500,000 Preferred stock.

The company, in a letter dated April 25 said in part: "The directors have unanimously decided to increase the capital stock by $6,000,000 7% Cumul. Pref. Class "A" stock, par $25. They deem it to the best interest of the company to provide for necessary extensions and betterments, past and future, by creating a new class of preferred stock carrying 7% cumulative dividends with the special purpose of encouraging customer ownership. Their plans contemplate (subject to the approval of the New Jersey P. U. Commission) presently issuing this new stock at par to an amount of about $2,000,000 and selling it preferably in small lots to customers and employees. They intend to give to each stockholder the usual right to subscribe for such stock proportionately to his holdings, whether common or preferred; but at the same time they will request each stockholder not to exercise his right with respect to this stock, but either by assignment back to the company or by allowing his right to lapse, to enable the company to offer this stock at par to its customers and employees. The entire board of directors have agreed to make their personal subscription rights available to the company for this purpose.

"At the last meeting of the board the usual dividend of 3% on the Preferred stock, 3½% on the '7% Preferred stock,' and 3% on the Common stock was declared payable at the usual time."—V. 120, p. 2268.

Hanover (Pa.) Power Co.—*Merger.*—See Metropolitan Edison Co. below.—V. 117, p. 2000.

Illinois Bell Telephone Co.—*Expenditures.*—The directors have approved the expenditure of $501,671 for new plant in Chicago and $699,208 elsewhere in Illinois, making the total approved so far this year $11,637,774.—V. 120, p. 2400.

Indiana Columbus & Eastern Traction Co.—*Interest.*—The May 1 1925 coupons pertaining to the Dayton Springfield & Urbana Electric Ry. 1st Mtge. 5% 30-Year Gold bonds, will be paid June 1 1925 at their face amount, together with 6% interest thereon, viz., 12c. per coupon, upon presentation thereof at the office of the New York Trust Co., 100 Broadway, New York, if accompanied by appropriate ownership certificate.—V. 120, p. 86.

Interborough Rapid Transit Co.—*Fare Increase Asked.*—The company in a supplemental brief filed with the Transit Commission on May 25 repeated its demand for an increased fare as necessary for the company if it should be required to pay a share of the cost of lengthening local subway station platforms now being considered by the Commission. Jas. L. Quackenbush, general counsel for the co., declared in the brief:

"The company having neither available funds nor sufficient credit to finance the proposed work, the proceeding should be discontinued or suspended until such time as increased earnings will warrant the proposed financial program. An increased fare is the only way out."

Mr. Quackenbush denied the obligation of the company to pay part of the cost of the proposed improvement under its contract with the city. He declared that the company did not have the money and asserted that a heavy discount would be required to market Interborough bonds at this time, even if buyers could be found at all. See also V. 120, p. 2550.

At a hearing before the Transit Commission on May 26, Mr. Quackenbush stated that imposition upon the company of a share of the cost of lengthening its subway local station platforms would throw it into bankruptcy. The effect of this, he added, would be the cancellation of the Interborough's lease of its elevated lines and their separation from the Interborough subways, to the detriment of the public. "I am making the last stand on behalf of the Interborough Rapid Transit Co. to prevent it from going into bankruptcy," Mr. Quackenbush declared in concluding his argument.

Mr. Quackenbush also informed the members of the Commission that if it ordered the company to bear a share of the cost of the proposed improvement, which he estimated at about $20,000,000, the company would appeal to the courts to set aside the order. "The effect of such an order would be only further to impair our credit, which is already impaired and which must be restored before we can make this or any other improvement of service," Mr. Quackenbush continued. "If the members of the Commission will make a thorough survey of the situation based upon the facts presented at this hearing I am sure you will not think of issuing such an order."

a From the commencement of operations under Contract No. 3 and the related certificates, respectively, it has been the practice to include in all reports of operating expenses 14% of the gross operating revenue upon the Manhattan division and 17% of the Subway Division to cover maintenance and depreciation. These are the percentages fixed for the first year of operation in each case. Negotiations have been pending between the company and the Commission ever since the end of the first year to determine what, if any, changes in these percentages should be made for subsequent years. Prior to July 1 1923 the amount expended in excess of 14% upon the Manhattan Division was approximately offset by the amount under 17% expended upon the Subway Division. The net expenditures for maintenance in excess of the amounts therefor, included in "operating expenses, taxes and rental paid city for old subway," are shown hereinabove as "maintenance in excess of contractual provisions."

b Under the plan of readjustment payment of the sinking fund is deferred until July 1 1926 on condition that, prior to that date, an amount equal to the deferred sinking fund be expended on additions or improvements to the property.—V. 120, p. 2550, 2146.

Interstate Power Co.—*Preferred Stock Offered.*—Pynchon & Co., West & Co. and W. S. Hammons & Co. are offering at 95 per share and div., to yield about 7.37%, 30,000 shares $7 Dividend Preferred stock. Preferred as to both assets and cumulative dividends. Shares are fully paid and non-assessable.

Dividends are exempt from normal Federal income tax. They are exempt also from all Federal income taxes when received by an individual whose net income, after all allowable deductions, does not exceed $10,000. Dividends are not subject to Federal income tax when received by a domestic corporation. Transfer agents, American Exchange National Bank, New York; Office of the company, Chicago. Registrars, Chase National Bank, New York; Continental & Commercial Trust & Savings Bank, Chicago. Preferred stock is entitled to receive cumulative divs. at the rate of $7 per annum, payable Q.-J. Has priority in liquidation or dissolution up to $100 per share, together with all dividends accrued, plus a premium of $15 per share if such liquidation or dissolution be voluntary, before any distribution shall be made to the holders of Common stock. Callable all or part by lot or pro rata, at $115 per share, plus divs.

Data From Letter of H. L. Clarke, President of the Company.

Company.—Incorp. in Delaware. Company and its Wisconsin subsidiary (100% of outstanding securities owned) furnish electric light and power to 105 cities and communities throughout Southern Minnesota, Northeastern Iowa and Southwestern Wisconsin and, in addition, supply gas to four of these cities and furnish steam heating service to two.

Company owns all of the outstanding Common stock and 933 shares of the Preferred stock of Dubuque Electric Co., of Dubuque, Ia., which does all the electric lighting and power business in Dubuque and surrounding communities. It also operates an electric railway in the city of Dubuque and suburbs and through a controlled company serves 13 neighboring communities in Iowa with electric light and power.

Company has acquired the properties of Clinton Gas & Electric Co., which does all of the electric lighting, power and gas business in Clinton, Ia.

The total population of the territory served by the properties now owned or controlled by company and subsidiaries is estimated to be in excess of 338,000. The combined properties serve 44,000 customers with electric light and power, and 14,000 customers with gas. The combined annual electrical output is over 67,000,000 k.w.h.

The physical connection of the power transmission lines of the properties of company, including the 66,000-bolt high tension line between the Dubuque and Clinton properties, will be presently completed, thereby effecting large economies and opening a market for all the power generated annually in the company's hydro-electric plants.

Company and its Wisconsin subsidiary own 5 steam electric generating plants and 4 gas plants. There are 92 sub-stations with a capacity of 18,000 k.v.a., 1,100 miles of high tension transmission lines and about 1,750 miles of distribution systems.

Dubuque Electric Co. owns a power plant with a present capacity of 10,500 k.w. in modern steam turbines (an additional 10,000 k.w. will be installed this year), 22 miles of electric railway and about 1,275 miles of transmission and distribution lines.

The Clinton Gas & Electric properties will add to the system a modern steam electrical generating plant with an installed capacity of 6,200 k.w. and a gas plant with a capacity of 1,300,000 cu. ft. daily.

Valuations.—The properties of the company, as now constituted, including those of Clinton Gas & Electric Co. recently acquired, as well as those of Dubuque Electric Co. and the companies it controls, have been valued recently at about $23,419,000 after reserves for depreciation of about 8%. The Interstate properties (excluding the Clinton property and the new system interconnections) are included in this valuation, made by the company's engineers, at a figure $1,190,000 in excess of an earlier valuation reported by Day & Zimmermann, Inc. There will be outstanding against this total, bonds and subsidiary company Preferred stocks, as well as a small minority interest in the Common stock of a subsidiary, all totaling $15,064,000. This leaves for the Interstate Power Co. Preferred stock values of about $8,355,000, which is at the rate of over $209 per share for the 40,000 shares Preferred stock presently to be outstanding, including this issue.

Management.—Utilities Power & Light Corp.—V. 120, p. 2268, 2400.

Interstate Street Ry.—*To Issue Stock.*—The Massachusetts Department of Public Utilities has authorized the company to issue 12,000 shares of Capital stock, par $25, for the purchase of the Interstate Consolidated Street Ry. See also V. 120, p. 2400.

Louisville Gas & Electric Co. (Del.).—*Common Stock Sold.*—H. M. Byllesby & Co., Inc., have sold at $26 per share 450,000 shares Class "A" Common stock.

Dividends on the Class "A" Common stock will be payable Q.-M. The first quarterly dividend period will begin June 1 1925. The Class "A" Common stock will be Pref. as to each quarterly dividend at the annual rate of $1 50 per share over the Class "B" Common stock, and after the Class "B" Common stock has received the same dividend per share, the Class "A" and Class "B" Common stocks shall participate equally and ratably share for share, up to an additional annual rate of 50 cents per share, and thereafter the Class "A" Common stock will be entitled to dividends in the ratio of 25 cents per share for each $1 per share paid on the Class "B" Common stock. The Class "A" Common stock will be preferred to $25 per share in distribution of assets over the Class "B" Common stock, and, after the Class "B" Common stock has received the same amount per share, the Class "A" and Class "B" Common stocks will participate equally and ratably, share for share, in distribution of assets. The Class "A" Common stock will be callable at $32 50 per share. Class "A" and Class "B" Com. stocks will be without par value. Transfer agent, Agency of the company, New York and Chicago. Registrars, First National Bank, New York, and Continental & Commercial Trust & Savings Bank, Chicago.

Listing.—Application will be made to list this Class "A" Common stock on the New York and Chicago Stock Exchanges.

Company.—Louisville Gas & Electric Co. System serves electric power and light and natural and manufactured gas in the city of Louisville and neighboring communities, furnishing service to a combined total population in excess of 325,000. Predecessors of the Louisville Gas & Electric Co. established themselves in the gas business in 1838 and the electric business in 1885, since which times operations have been continuous. Electric energy is generated at the Waterside Station, which has an installed electric generating capacity of approximately 92,500 k.w. The system has its own coal properties, completely equipped, insuring an adequate and convenient source of fuel supply, serves 64,484 electric customers and has over 700 miles of high tension transmission and distribution lines. Gas plants of the system have a total installed daily manufacturing capacity of 22,000,000 cu. ft. and serve 61,455 gas customers by means of 834 miles of gas mains.

Over 84% of the net earnings of the system is derived from the sale of electric power and light.

Louisville Gas & Electric Co. of Delaware owns over 99.87% of the Common stocks of the companies comprising the Louisville Gas & Electric Co. system.

Capitalization Outstanding (Giving Effect to Present Financing).

Common stock, Class "A," without par value, incl. this issue..526,280 shs.
Common stock, Class "B," without par value.....257,956 shs.

The operating companies of the system have outstanding with the public $23,000,000 bonds, $5,907,000 debentures and $10,834,500 par value of Preferred and minority Common stocks.

Earnings Statement of System 12 Months Ended March 31 1925.

Gross earnings	$7,316,548
Oper. exp., maint. & taxes, excluding depreciation	3,611,381
Interest charges	1,214,405
Balance	$2,490,762
Dividends on 7% Cumul. Pref. and minority Com. stocks	541,428
Balance	$1,949,334
Annual div. at rate of $1 75 per share on 526,280 shares of Class "A" Common stock	$920,990

* It is expected that dividends at this rate will be paid for the quarter beginning June 1 1925.

Growth.—The growth of the electric and gas business of the system is indicated in part by the following comparative exhibits as of Dec. 31:

	1920.	1921.	1922.	1923.	1924.

Metropolitan Edison Co.—*Merger of Subsidiaries.*—

Application has been made to the Pennsylvania P. S. Commission for approval of the merger with the Metropolitan Edison Co. of the Hanover Power Co., the Gettysburg Electric Co. and the Cumberland Valley Light & Power Co. The stock of all three companies is owned by the Metropolitan Edison Co. The acquired companies serve a large population in York, Cumberland and Adams counties, Pa.—V. 120, p. 2683.

Middlesex Water Co. (N. J.).—*Increase in Rates.*—

In a report filed in the U. S. District Court at Trenton, N. J., on May 26, Aaron Dawes, Special Master, recommended that the company be authorized to make effective a schedule of rates higher than the charges permitted by the New Jersey P. U. Commission. The State Board a year ago granted the company a return of $160,000 annually on a valuation of $2,190,000, while Mr. Dawes's recommendation would allow it an annual income of $181,000 on a valuation of $2,500,000.—V. 119, p. 702.

Middle West Gas & Electric Co.—*Tenders.*—

The Union Trust Co., trustee, Cleveland, O., will until June 6 receive a bid for the sale to it of 1st Mtge. 5% Gold bonds, dated Oct. 1 1910, of the Hardin-Wyandot Lighting Co., to an amount sufficient to exhaust $110,000, at prices not exceeding 105 and int.—V. 120, p. 1881.

Minnesota Power & Light Co.—*Bonds Offered.*—

Harris, Forbes & Co., Bonbright & Co., Inc., Tucker, Anthony & Co. and Coffin & Burr, Inc. are offering at 97 and int. yielding about 5.20% $3,500,000 1st & Ref. Mtge. Gold Bonds 5% Series due 1955.

Interest from June 1 1925; due June 1 1955. Interest payable J. & D. Denom. c* $1,000 and $500 and r* $1,000 and $5,000. Red. on any int. date on 60 days' notice at 105 and int. through Dec. 1 1934; thereafter at 104 and int. through Dec. 1 1939; thereafter at 103 and int. through Dec. 1 1944; thereafter at 102 and int. through Dec. 1 1949; thereafter at 101 and int. through Dec. 1 1952; thereafter at 100¾ and int. through Dec. 1 1953 and thereafter prior to maturity at 100½ and int. Irving Bank-Columbia Trust Co., New York, and George E. Warren, trustees. Company agrees to pay interest without deduction for any Federal Income Tax, not exceeding 2%. Penn. 4-mills tax refunded.

Data From Letter of C. E. Groesbeck, President of the Company.

Company.—Does, directly or indirectly, the entire commercial electric power and light business in an extensive territory in eastern and northern Minnesota serving 93 communities including Duluth, Chisholm, Eveleth, Ely, Cloquet, Brainerd and Little Falls. It also serves at wholesale Superior, Wis. The territory which the company thus serves comprises a population estimated at 320,000, and includes the Mesba, Vermilion and Cuyuna Iron Ranges, where approximately 60% of the country's entire output of iron ore is mined, and the "Duluth District" which, with its great natural harbor, is one of the foremost manufacturing and jobbing centres in the northwest.

Security.—Secured by a direct first mortgage on the entire physical property owned by the company, including electric generating plants with a present installed capacity of 37,015 kw. of which over 73% is hydro-electric, and an extensive system of transmission and distribution lines. It is expected that the present installed generating capacity owned will be increased during the current year to 49,015 kw.

Additional Bonds may be issued under the conservative restrictions of the Mortgage. The Mortgage contains provisions for its modification in certain respects, with the assent of the holders of not less than 85% of the outstanding Bonds. In the event of the acquisition of Great Northern Power Co's property, now operated under lease, the lien of these Bonds with respect to the property so acquired will be subject to the prior lien of that company's 1st (closed) Mtge. Bonds, $7,751,000 of which are now outstanding with the public.

Total (each side)	$25,589,506		

* Represented by 38,909 shares of Preferred stock and 122,078 shares of Common stock.—V. 119, p. 949.

National Public Service Corp.—*Bonds Offered.*—E. H. Rollins & Sons, Blyth, Witter & Co., Eastman, Dillon & Co., Federal Securities Corp. and H. M. Byllesby & Co., Inc. are offering at 97½ and int. to yield about 6.70% $4,500,000 30-Year 6½% Sinking Fund Coll. Trust Gold Bonds, Series "A". Dated Feb. 2 1925. Due Feb. 1 1955. (See description in V. 120, p. 1459.)

Data From Letter of A. E. Fitkin, President of the Corporation.

Company.—Name change March 17 1925 from Jersey Central Power & Light Corp. Through local operating companies, furnishes electric light and power, gas, steam or water service to communities in states along the Atlantic Seaboard, namely New Jersey, Pennsylvania, North Carolina, and Florida, and upon completion of this financing, will also serve sections in Virginia, Georgia and Ohio. The territory in New Jersey includes a portion of the great metropolitan district tributary and suburban to New York City. Through these operating companies a total of 145,412 customers will be served, of which 115,962 will be electrical, 27,619 gas, 1,425 water and 406 steam. Corporation will also operate electric railway system serving an aggregate population of about 660,000.

The electrical system will have an installed generating capacity of 123,380 h.p., and transmission systems of 714 miles of high tension lines. The gas properties will include generating plants of a daily capacity of 15,650,000 cubic feet, with 406 miles of gas mains. The water properties will have a capacity of 5,364,000 gallons per day and a distributing system consisting of 29 miles of water mains. The electric railway properties will consist of

269 equivalent miles of single track. During the year ended Dec. 31 1924, the total electric output of the properties was 207,561,460 k.w.h. and there were made 967,246,000 cubic feet of gas.

Corporation owns the entire Common stocks of Jersey Central Power & Light Co., Florida Power Corporation and Kennett Gas Co., and over 90% of the Common stock of Tidewater Power Co. Upon completion of this financing, National Public Service Corp. will own over 90% of the Common stock of Municipal Service Co. The latter Company owns or controls local operating public utility companies serving with electric light and power, gas, ice or steam, communities in Pennsylvania, Virginia and Georgia, operates an interurban railway in Ohio and is now acquiring Keystone Public Service Corp. which, through its subsidiaries, operates profitably the street railways and bus lines in and around Scranton and Altoona, Pa., and also the electric light and steam heating business in Tyrone, Pa.

Capitalization (After giving effect to present financing).

6½% Sinking Fund Coll. Trust Gold Bonds, Series A (including this issue)	$10,500,000
Preferred stock, 7% Cumul. (Par $100)	5,966,700
Class "A" Common stock (No par value)	165,000 shs.
Class "B" Common stock (No par value)	264,778 shs.

Upon completion of this financing there will be outstanding in the hands of the public $50,106,850 of bonds, and $10,971,700 of preferred stocks of subsidiary companies in addition to less than 10% of the common stock of Municipal Service Co., approximately 10% of the common stock of Tidewater Power Co. and $206,050 of other subsidiary company common stocks.

Consolidated Earnings Upon Completion of this Financing (12 Months Ended February 28 1925).

Gross earnings of subsidiaries	$16,022,456
Operating expenses, taxes, &c	9,654,009
Net earnings	$6,368,447
Interest on funded debt in hands of public	x$2,604,366
Dividends on Pref. stock in hands of public	675,494
Minority Common stockholders' interests	47,850
Provision for depreciation	777,590
Balance	$2,263,147
Annual interest requirements of $10,500,000 30-Year 6½% Sinking Fund Collateral Trust Bonds, (including this issue)	$682,500
Balance for dividends, &c	$1,580,617

The above balance for interest on these Bonds, including this issue, is over 3¼ times the annual interest and over 2¾ times the annual interest and sinking fund requirements of the bonds to be outstanding.

x Not including interest on $1,150,000 Notes of Keystone Public Service Corp. and subsidiaries, which are non-interest bearing up to Jan. 1 1926.

Purpose.—Proceeds of these bonds, and the proceeds from the sale of additional shares of preferred and common stock, will be used for the purchase of over 90% of the common stock of Municipal Service Co. and for other corporate purposes.

Management.—General Engineering & Management Corp.—V. 120, p. 2684, 2101.

Nebraska Gas & Electric Co.—*Buys Plant.*—

It is announced that the company has acquired the electric plant and distribution system at Humboldt, Neb., the transmission line from there to Table Rock and the distribution system in Table Rock, Neb., from the O. A. Cooper Co. The gas company has for some time been buying energy from the Humboldt plant for the towns of Shubert, Verdon and Stella, which it serves. These towns will continue to receive service from Humboldt.—V. 120, p. 703.

Newburyport (Mass.) Gas & Elec. Co.—*Par Value.*—

The Massachusetts Department of Public Utilities has authorized the company to change the par value of the stock from $100 to $25 a share.—V. 120, p. 2551.

New York Rys. Corp.—*Listing.*—

The New York Stock Exchange on May 6 admitted to the list: (1) temporary stock trust certificates for Preferred stock without par value; (2) $19,435,472 Temporary 40-Year 6% Income Gold Bonds, due Jan. 1 1965; (3) New York Railways Participation Corp., temporary stock trust certificates for stock without par value, carrying stock trust certificates for Common stock without par value.—V. 120, p. 2551, 2401.

New York & Stamford Ry. *To Increase Fares.*—

President L. S. Miller announced on May 22 that the New York P. S. Commission had authorized an increase of fare up to 7 cents a zone on the lines extending from the New Rochelle city limits to Port Chester on the Connecticut State line.

The fare within New Rochelle will remain at 5 cents. In the zones of Larchmont, Mamaroneck and Harrison it will be increased from 5 to 7 cents. In the zones of Rye and Port Chester it will be increased from 6 to 7 cents. From Port Chester to Stamford, Conn., the fare will continue to be 6 cents a zone. Under the increased rates within New York State the total fare from New Rochelle to Stamford (about 20 miles) will go from 45 to 50 cents.

Pres. Miller says: "These increased zonal fares were authorized by the Commission with the consent of the communities served by the trolley system."—V. 120, p. 1881.

North American Co.—*Dividend of 2½% Payable in Stock (or at Holders' Option in Cash).*—

A quarterly dividend on the Common stock will be paid July 1 in Common stock at the rate of one-fortieth of one share for each share held of record June 5. In connection with the dividend, President F. L. Dame said: "This dividend on the Common stock is the same as the last dividend paid April 1 1925. Stockholders who elected to take advantage of the company's offer to arrange for the sale of their dividend stock received cash at the rate of $1 10 a share or the market on April 1 1925 instead of 85c. a share under the underwriting offer. This procedure may be followed by stockholders if they wish with respect to the dividend declared May 25 so that stockholders who desire cash will receive an amount approximately equal to the market value of their dividend stock on July 1 1925. At the market on May 25, this would give Common stockholders about $1 25 a share instead of the 85c."

Consolidated Balance Sheet March 31 (Company and Subsidiaries).

—V. 120, p. 2684, 2401.

Ohio Power Co.—*Seeks to Issue Bonds, &c.*—

The company has applied to the Ohio P. U. Commission for authority to issue $2,308,000 First & Ref. 5% bonds at not less than 85, and also $851,500 Preferred stock.—V. 119, p. 3011.

Orange County Public Service Co., Inc.—*May Transfer Certain Hydro-Electric Properties to New Corporation.*—

See Rockland Light & Power Co. below.—V. 119, p. 1404.

Otter Tail Power Co.—*Bonds Called.*—

The company has called for payment July 1, at 102 and int., the entire issue of its Gen. & Ref. 7% bonds, Series "A," and "B" due July 1 1950, at the Northwestern Trust Co., St. Paul, Minn. See also V. 120, p. 2402, 2021.

Pacific Gas & Electric Co.—*Bonds Sold.*—

The National City Co., E. H. Rollins & Sons, the Mercantile Securities Co. of California and Blyth, Witter & Co. have sold $10,000,000 1st & Ref. Mtge. 5% Gold bonds, Series "D," due 1955, at 95¼ and interest, to yield over 5.30%.

Dated June 1 1925, due June 1 1955. Int. payable J. & D. in New York, Chicago or San Francisco without deduction of the normal Federal income tax of 2%. Denom. c* $500 and $1,000 and r* $1,000, $5,000 and $10,000 each. Red. all or part on any int. date upon 60 days' prior notice at 105 and int. if redeemed on or before June 1 1950, and thereafter at 100 and int. National City Bank, New York, and Mercantile Trust Co., California, trustees.

Issuance.—Authorized by the California RR. Commission.

Legal Investments.—All 1st & Ref. Mtge. Gold bonds heretofore issued are legal investments for savings banks in California, and application will be made to the Superintendent of Banks to so certify these additional bonds. Legal investment for savings banks in Maine, New Hampshire and Vermont.

Data From Letter of W. E. Creed, President of the Company.

Company.—Is one of the foremost public service corporations in the United States. The electric business of the company or of its predecessors has been in continuous and successful operation for 46 years, and the gas business for 71 years.

The properties are operated as a well co-ordinated system extending into 38 counties of central and northern California, with a present estimated population of more than 2,200,000. The number of consumers served exceeds 771,000, of which nearly 49,000 were added during the 12 months ending March 31 1925.

Security.—1st & Ref. Mtge. bonds ($85,720,000 outstanding, including this issue) are secured by a direct first mortgage on important properties owned by a subsidiary company, including three modern hydro-electric generating plants of 127,346 h.p. capacity, and a fourth plant of 108,000 h.p. capacity now practically completed; by a direct mortgage on all properties of the company, subject to the prior liens of underlying mortgages, and by approximately $59,600,000 Gen. & Ref. Mtge. bonds pledged with trustees.

Capitalization Outstanding as of March 31 1925 (After Present Financing).

Common stock, paying 8% dividends	$45,630,832
Preferred stock, paying 6% cumulative dividends	54,464,532
Bonds—1st & Ref. Mtge.—Series "A," 7s, 1940	10,720,000

Series "C," 5½s, due 1952	45,000,000
Series "D," 5s, due 1955 (this issue)	10,000,000
General & Refunding Mtge. 5s, 1942	x35,822,000
Underlying and divisional bonds	y41,410,300

x Does not include $59,598,000 deposited with the trustees of the 1st & Ref. Mtge., nor $1,000,000 owned by the company. y In addition, $11,619,300 underlying and divisional bonds are held alive in sinking funds, and $720,000 are in the company's treasury.

Purpose.—Proceeds will be applied toward the cost of improvements, extensions and additions to the company's properties, which are necessitated by the rapid growth of its business. Cash now on hand plus funds to be derived from this financing aggregate approximately $18,000,000, with no floating indebtedness except current accounts payable.

—V. 120, p. 2402.

Penn Central Light & Power Co.—*Extra Dividend.*—

The directors have declared an extra dividend of 10 cents per share on the Preferred stock, in addition to the regular quarterly dividend of $1 per share, both payable July 1 to holders of record June 10. An extra of like amount was paid on the Preferred shares on April 1 last.—V. 120, p. 1204.

Plattsburgh (N. Y.) Gas & Electric Co.—*Acquisition.*—

The Champlain Electric Co. and the Plattsburg Gas & Electric Co. have filed a petition with the New York P. S. Commission asking consent to the transfer by the Champlain Co. of its franchises, works and system to the Plattsburg Co. At the same time the petition of the Associated Gas & Electric Co. for consent to purchase the stock of the Champlain Co. was withdrawn by counsel.—V. 93, p. 1538.

Puget Sound Power & Light Co.—*Bonds Offered.*—

Lee Higginson & Co., Harris, Forbes & Co. and Estabrook & Co. recently offered at 100 and int. $3,500,000 1st & Ref. Mtge. 5½% Gold Bonds, Series "A". Dated June 2 1924; due June 1 1949 (see original offering and description in V. 118, p. 2950.)

Capitalization (Outstanding upon Completion of Present Financing.)

1st & Ref. Mtge. 5½% Series A (incl. this issue)	$28,500,000
Divisional Bonds (Underlying on properties owned. (See Public Utility Compendium, p. 206)	17,744,300
Coupon Notes	5,957,000
Prior Preference (7% Cumulative) stock	10,000,000
Pref. stock ($6 per sh. cumul., no par)	160,000 shs.
Common (No par value)	202,829 shs.

In addition, subsidiary companies have outstanding $6,495,000 bonds, for which Puget Sound Power & Light Co. has no liability, excepting on $2,556,000 for which a subsidiary has agreed to furnish the necessary funds.

Data From Letter of Frederick S. Pratt, Chairman of the Board.

Company.—Owns one of the most important electric power and light systems in the United States. Furnishes nearly all power and light (outside of that supplied by municipalities of Seattle and Tacoma) in an area of over 30,000 sq. miles in the State of Wash. Also, but principally through subsidiaries, it does part of transportation business in same territory. Properties include generating plants with a present installed capacity of 188,670 h.p. of which 143,290 h.p. is hydro-electric and 45,380 h.p. is steam, with necessary transmission lines and distribution systems. In addition, 48,000 h.p. hydro-electric generating capacity is now under construction.

Security.—Mortgage covers substantially all the electric power and light properties and certain other property now owned or hereafter acquired, subject only to the divisional Bonds underlying on a part of the property. It is a first mortgage on properties having a present value in excess of $17,000,000. It also covers by direct first lien $11,668,000 "City of Seattle Municipal Railway 5% Bonds of 1919" maturing serially. The mortgage, with one unimportant exception, does not cover electric railways and does not cover properties or securities hereafter acquired but not made the basis of the issue of First & Ref. Mortgage Bonds.

Earnings for Calendar Years (Company and Subs.)

	Gross Earnings	Net After Taxes	Interest Charges	Balance
1920	$10,000,429	$5,056,547	$2,347,232	$2,709,315
1921	10,038,544	4,905,250	2,442,614	2,462,636
1922	10,477,609	5,093,875	2,439,302	2,654,573
1923	12,424,707	5,543,055	2,532,624	3,010,431
1924	12,539,869	5,215,051	2,557,141	2,657,910

Purpose.—Proceeds will be used for construction (chiefly for a large hydro-electric plant on Baker River) and to reimburse the company's treasury for construction already made.

Sinking Fund.—Annual sinking fund (first payment Sept. 1 1926) payable in cash or bonds equal to 1¼% of aggregate amount of 1st & Ref. Mtge. Bonds and underlying bonds in hands of public on the mortgaged properties. Sinking fund payments on underlying bonds will be credited toward this sinking fund. The cash remainder will be applied to purchase 1st & Ref. Mtge. Bonds of any series, at not exceeding par and int., or if Bonds not so purchasable, to additions to the mortgaged property or reduction of bonded debt.—V. 120, p. 1329, 1205.

Public Service Corp. of New Jersey.—*Rights, &c.*—
The directors have authorized the issuance of 131,200 add'l no par value Common Shares, equivalent to 10% of the Common and the Pref. stocks, both 8% and 7%, now outstanding. Stockholders of record June 5 will be given the right to subscribe on or before Aug. 1 for the additional Common stock at $62 50 per share, in the ratio of one share to each 10 shares of Pref. or Common stock held. Arrangements have been made for the underwriting of any stock not subscribed to.
The directors have declared the regular quarterly dividend of $2 a share on the 8% Cum. Pref. stock, $1 75 a share on the 7% Cum. Pref. stock and $1 25 a share on the no par value Common stock, all payable June 30 to holders of record June 5.—V. 120, p. 1882.

Railway & Light Securities Corp.—*Tenders.*—
The company, at its office, 147 Milk St., Boston, Mass., will receive until June 16 bids for the sale to it of $32,000 Sixth Series Collateral Trust 5% bonds, dated Nov. 1 1916.—V. 120, p. 1587.

Ridge Avenue (Phila.) Passenger Ry.—*Director.*—
Dr. George Fales Baker, President of the Pennsylvania Salt Mfg. Co., has been elected a director.—V. 109, p. 73.

Rockland Light & Power Co.—*May Transfer Certain Hydro-Electric Properties to New Corporation.*—
This company and the Orange County Public Service Co., Inc., have applied to the New York P. S. Commission for authority to transfer certain of their hydro-electric properties to the Catskill Power Corp., a newly organized corporation.
It is stated in the petition that the Catskill corporation proposes to develop the hydro-electric power available on the Mongaup River and its tributaries and lease the power developed to the Rockland and Orange County companies. It is proposed to increase the output of the present plant on the Mongaup River by additions, construction of storage reservoirs, other power plants, &c.—V. 119, p. 1406.

Savannah Electric & Power Co.—*Bonds Offered.*—Stone & Webster, Inc. and Lee Higginson & Co. are offering at 98 and int., yielding over 6.15% $1,200,000 1st & Ref. Mtge. Gold Bonds, Series "B" 6%.

Dated April 1 1925; due April 1 1945. Principal and int. (A. & O.) payable in Boston, New York and Chicago, without deduction for normal Federal income tax up to 2%. Denom. $1,000 and $500 c*. Callable all or part on any int. date, at 105 through April 1 1929; thereafter at 104 through April 1 1933; thereafter at 103 through April 1 1937; thereafter at 102 through April 1 1941; thereafter at 101 through April 1 1944; and thereafter at par; plus accrued interest in each case. Atlantic National Bank, Boston, trustee.

Capitalization (Outstanding Upon Completion of this Financing).

1st & Ref. Mtge., Series A, 7½s, 1941	$1,717,500
do do Series B, 6s, 1945	1,200,000

Data From Letter of C. F. W. Wetterer, Vice-Pres. of the Company.

Company.—Incorp. in Georgia in 1921. Does all the commercial electric light and power business and the entire electric railway business in the City of Savannah and its suburbs. Population served about 90,000.

Security.—These Bonds, together with Series A, are secured by a first mortgage on the main power plant, of 17,400 h.p. capacity and on a portion of the electric light and power system; also a mortgage on all other property now owned or hereafter acquired, subject only to the $3,171,213 underlying bonds and equipment notes. The replacement value of the properties is estimated at over $12,000,000, or nearly twice the total funded debt of $6,088,713, including these Bonds.

Additional Bonds may be issued to refund underlying bonds and for future property additions, under careful restrictions outlined in the accompanying letter.

Earnings, 12 Months Ended March 31.

	1924.	1925.
Gross earnings	$1,862,920	$1,895,438
Operating expenses & taxes	1,199,632	1,180,281
Net earnings	$663,288	$715,157
Interest requirements on present funded debt (including this issue)		$349,235

Net earnings for the 12 months ended March 31 1925 were more than twice present annual interest requirement on all funded debt, including this issue.

Sinking Fund of 1¼% per annum on the total amount of Series B Bonds issued, first payment April 1 1926 to be used to purchase Series B or underlying bonds at or below redemption prices, and, if bonds not so purchasable, may be used to reimburse company for 75% of cost or fair value of additions and improvements.—V. 120, p. 2270, 1748.

Southern Pennsylvania Power Co.—*Bonds Offered.*—Schibener, Boenning & Co., Phila., are offering at 98 and interest, to yield about 6.15% $1,200,000 1st Mtge. & Coll. Trust 6% bonds series "A."

Dated May 1 1925; due May 1 1955. Interest payable M. & N. at Penn. Co. for Ins. on Lives & Granting Annuities, Phila., trustee, without deduction of 2% of normal Federal income tax. Denom. $1,000, $500 and $100, c*. Callable all or part on any interest date upon 60 days' notice at 103. Free of Penn. personal property tax not exceeding 4 mills. Maryland state tax refunded.

Data From Letter of John H. Ware, Jr., President of the Company.

Company.—Incorporated in Pennsylvania. Supplies electric light and power in Oxford, Russelville, Cochranville, and Nottingham, Pa. The *Northern Maryland Power Co.* supplies the cities and towns of Rising Sun, Port Deposit, Elkton, Chesapeake City, Northeast Perryville, Havre de Grace, Aberdeen and others in the State of Maryland with electric light and power. These companies own and operate over 65 miles of main transmission lines of which about 30 miles are being reconstructed to provide additional capacity. A portion of these lines is of steel construction. Company owns and operates a small hydro-electric plant and two auxiliary steam plants. In addition it has entered into a new contract to purchase power under most favorable terms from the Wilmington & Philadelphia Traction Co. (a subsidiary of the American Gas & Electric Co.). Power is also purchased from the Edison Electric Co. of Lancaster, Pa.

The territory served is embraced within the triangle between Lancaster, Pa., Wilmington, Del., and Baltimore, Md., containing about 1,000 sq. miles. The population served is estimated to be in excess of 40,000.

Security.—Secured by an absolute first mortgage on all the property, transmission lines, &c., owned and operated in the State of Pennsylvania, and also a 1st mtge., by deposit with the trustee, of all of the bonds and Common stock of Northern Maryland Power Co., which owns and operates the properties in the State of Maryland.

Valuation.—The properties have been valued in excess of $1,700,000, which includes $300,000 in cash set aside in the hands of the trustee out of this financing for the completion of improvements.

Sinking Fund.—A minimum cash sinking fund operating semi-annually, beginning in 1928, will retire 1½% of the gross amount of Series "A" bonds outstanding for the first 5 years; 2% for the next 5 years and 2½% thereafter.

Earnings of The Combined Properties For The Year Ending March 31 1925.

Gross (incl. est. earnings of Aberdeen property prior to Feb. 1 1925)	$268,176
Operating expenses, maint. & taxes	157,502
Net	$110,674

Southwestern Utilities Corp.—*Notes Called.*—
All of the outstanding 1st Lien Coll. Conv. 7% Gold notes, dated June 1 1923, have been called for payment July 1 at 101 and interest at the Empire Trust Co., 120 Broadway, N. Y. City. The Southwestern Utilities Corp. is controlled by the International Utilities Corp.—V. 119, p. 2764.

Utah Securities Corp.—*Stricken from List.*—
The New York Stock Exchange has stricken from the list the corporation's Common stock. See also V. 120, p. 2013.

Western Power Corp.—*Permanent Bonds Ready.*—
Permanent 30-year 6½% Sinking Fund Gold debentures, Series A, due 1954 are ready for delivery in exchange for the outstanding interim receipts at the Bank of America, 44 Wall St., N. Y. City (For offering, see V. 119, p. 2881).—V. 120, p. 2403.

INDUSTRIAL AND MISCELLANEOUS.

Refined Sugar Prices.—On May 22 the McCahan and Revere companies reduced their prices 10 pts. to 5.60c. per pound. On May 23 Arbuckle withdrew temporarily from the market. On May 25 Arbuckle re-entered the market, quoting 5.60c. per pound, an advance of 10 pts. On May 26 American reduced price 10 pts. to 5.70c., Pennsylvania 5 pts. to 5.70c., National 10 pts. to 5.70c., but on the same day McCahan advanced the price 10 pts. to 5.70c. per pound. On May 27 Warner quoted 5.70c. firm.

Price of Lead Advances.—On May 25 the American Smelting & Refining Co. advanced price 10 pts. to 8.25c. per pound ("Wall Street Journal," May 25), on May 28, 15 pts. to 8.40c. per pound ("Wall Street Journal," May 28).

American Bank Note Co.—*New Directors.*—
John Foster Dulles and Loyall A. Osborne have been elected directors to fill vacancies.—V. 120, p. 1883.

American Insulator Corp., New York.—*Bonds Offered.*—Peabody, Houghteling & Co., Inc., New York and Chicago, are offering at prices ranging from 100 and int. to 101.86 and int., to yield from 5½% to 7%, according to maturity, $300,000 1st Mtge. 7% Serial Gold bonds.

Dated April 1 1925. Due in annual series, April 1 1926 to 1935. Principal and int. (A. & O.) payable at Farmers' Loan & Trust Co., N. Y. City, trustee. Red. in reverse order of maturities at par and int. plus premium of ½ of 1% for each year or fraction thereof of the unexpired term of the bonds so redeemed. Int. payable without deduction for any Federal income tax up to 2% per annum, which the company or the trustee may be required or permitted to pay thereon or retain therefrom. Company will agree to refund the Penna. and Conn. personal property taxes not in excess of 4 mills per annum, the Maryland personal property tax not in excess of 4½ mills per annum, the District of Columbia personal property tax not in excess of 5 mills per annum, and the Mass. income tax up to 6% of the interest.

Security.—Secured by a closed first mortgage on the land, buildings and plants of the corporation, situated in New Freedom, Pa., and on machinery located in leased building in Danbury, Conn., constituting plants for the production of hot and cold molded parts used by manufacturers of electrical supplies, automotive accessories, radio parts, &c. The bonds will be further secured by deposit with the trustee for the benefit of the bondholders of life insurance policies aggregating $300,000 on the lives of the present President and Vice-President of the corporation.

Company.—Started to manufacture in 1916 in New Freedom, Pa., but due to the great demand for the product, and to the added manufacture of hot molded products, a second plant was leased in 1923 at Danbury, Conn. At the present time the corporation is the largest manufacturer in the country of cold molded products, supplying about 30% of the country's demand, and enjoys an outstanding position in the trade.

Corporation manufactures and markets a great variety of articles, principally for electrical and heat insulating purposes, which are manufactured by what are known to the trade as the hot and cold molded processes. The corporation's products are known under the trade names of "Aico," "Amerine," and "Bakelite."

Practically the entire output is distributed directly to manufacturers of various articles into which the corporation's products enter, although a small proportion of the output is sold to the automotive industry, &c., through jobbers. Corporation maintains sales offices in New York and Chicago, and handles certain other territories in the country through manufacturers' agents.

Net Sales and Earnings for Calendar Years.

	Net Sales.	x Earnings.		Net Sales.	x Earnings.
1919	$307,035	$41,663	1922	$667,543	$136,322
1920	520,136	85,683	1923	815,789	182,311
1921	292,841	def16,403	1924	852,242	119,109

x Before interest, depreciation, and Federal taxes.

The maximum annual interest requirements on this issue of bonds, $21,000.

Sinking Fund.—In addition to the serial maturities of this issue, a sinking fund based on the net earnings (to be defined in the mortgage) of the corporation will be applied each year to the purchase of bonds in the open market at prices not exceeding the current call prices, or to redeeming bonds by call in reverse order of maturities.

Purpose.—Proceeds will be used for refunding liabilities of the corporation incurred in connection with equipping the Danbury plant, and for additional working capital.

American International Corp.—*New Directors, &c.*—
George H. Walker and Elisha Walker have been elected directors.
G. H. Balch, Vice-President and Treasurer, has resigned the latter office to devote his entire time to new business, and W. M. Crozier, Secretary, has been elected Treasurer. Mr. Crozier will also continue as Secretary.—V. 120, p. 2151.

American Lime & Stone Co.—*New Control.*—
See Charles Warner Co. below.—V. 119, p. 1067.

American Radio & Research Corp.—*Bankruptcy.*—
The company has filed bankruptcy schedules in the Federal Court at Boston showing liabilities, $532,697; assets, $74,311; secured claims, $23,731; unsecured, $491,094. An involuntary petition was filed against the company April 6.—V. 120, p. 2014.

American Multigraph Co.—*New Director.*—
Charles F. Glore, of Marshall Field, Glore, Ward & Co., has been elected a director.—V. 120, p. 1092, 961.

American Safety Razor Corp.—*Stock Put on Quarterly Dividend Basis.*—
The directors have declared a quarterly dividend of 75 cents per share on the outstanding 200,000 shares of Capital stock par $100 payable July 1 to holders of record June 10. The company on April 1 last paid a semi-annual dividend of $1 50 per share. (Compare V. 120, p. 1092.)—V. 120, p. 1588.

American Sugar Refining Co.—*Production.*—
President Babst says: "Central Jaronu completed its season May 23 with a production of 600,333 bags of raw sugar, a record output for Jaronu. With record production of 601,031 bags at Central Cunagua, as previously announced, this makes a total outturn for both Cunagua and Jaronu of 1,201,364 bags, a record for both mills."—V. 120, p. 2553.

American Tobacco Co.—*Stock Offered Employees.*—
President Percival S. Hill on May 25 announced the terms of the eighth annual offering under which employees are given an opportunity to share in the management and profits of the organization. Under the company's plan each employee is given the opportunity to invest in Preferred stock on a pro rata basis, based upon his earnings, ranging from $1,000 to $10,000 annually, the smallest subscription permitted being for 2 shares and the largest for 20. The company buys the shares in the open market and the price to the company is usually better than $106 a share. This stock is then sold to employees at a price which amounts to $89 97 a share, taking into consideration the dividends received and the bonus paid by the company to all subscribers. The current offering is being made at $103 a share, which is less than the cost to the company. If the employee holds the stock for 2 years he is credited with 7 quarterly dividends of $1 50 each, and two yearly allowances by the company of $4 each, making a total of $8. Against this there is a deduction of 5% interest for the unpaid balance, amounting to $5.47, making the net price to the employee $89 97 a share.—V. 120, p. 1462.

Anglo-Persian Oil Co., Ltd.—*Omits Ordinary Div.*—
A dispatch from London states that the company has omitted the Ordinary dividend usually declared at this time Last year the company paid a dividend of 10% on the Ordinary shares.—V. 119, p. 2765.

Associated Dry Goods Corp.—*Div. Increased—Listing.*—
The directors have declared a quarterly dividend of 63c. a share on the new no par Common stock, payable Aug. 1 to holders of record July 11. It is the intention of the directors to declare a dividend of 62c. a share for the next quarter, thus placing the stock on a $2 50 a share yearly basis. This is equivalent to $10 per annum on the old Common, which had been receiving $5 a share annually and which is now being exchanged in the ratio of 4 new shares for one old. See also V. 120, p. 1884, 2686.
The New York Stock Exchange has authorized the listing of 599,400 shares (authorized, 800,000 shares) Common stock without par value, on official notice of issuance in exchange for 149,850 shares of Common stock, par $100 each, at present outstanding on the basis of 4 shares of Common stock without par value for each share of Common stock par $100, with authority to add 40,600 shares of Common stock without par value on official notice of issuance to the corporation as treasury stock, under a plan of sale to officers and employees.
The 40,600 shares of Common stock without par value are to be issued to the corporation as treasury stock and are to be paid for by the appropriation of $1,522,500 of surplus of the corporation to be transferred from the surplus account to the capital account of the corporation, being at the rate of $37 50 per share for said Common stock without par value. The 40,600 shares of Common stock are to be offered at $37 50 per share to such officers and employees of the corporation, or any of its subsidiaries, including Lord & Taylor, in such amounts and on such terms and conditions as to installment payments and otherwise as the directors shall from time to time authorize.
The proceeds from the issuance of said 40,600 shares of Common stock without nominal or par value are to be used for the general corporate purposes of the corporation.—V. 120, p. 2686, 1884.

Atlantic Gulf & West Indies SS. Lines.—*Director.*—
J. G. Gredler has been elected a director to fill a vacancy.—V. 120, p. 2404.

Atlantic Lobos Oil Co.—*Annual Report.*—

Atlantic Refining Co.—*Stockholder Would Split Stock.*—
Louis Boreman, a stockholder, has sent a letter to all shareholders urging the calling of a special meeting of stockholders for the purpose of adopting certain measures which, in his opinion, would be beneficial to them. Mr. Boreman asserts that he recommended certain changes to the management but that none of these were discussed at the recent annual meeting of the company, and he therefore recommends that the stockholders take independent action.
In his letter Mr. Boreman asks the stockholders to answer four questions, namely: (1) Do you think the par value of the company's stock should be reduced from $100 to $25 a share? (2) Do you think a dividend of 50 cents per share per quarter should be paid on the new stock? (3) Do you favor quarterly earnings? (4) In the event the directors refuse to submit to the stockholders a reduction of the par, a declaration of a dividend and issuance of quarterly statements, do you favor calling a special meeting of stockholders to the end that this may be brought about?
Mr. Boreman states that he is in favor of the recommendations he makes and says that in his opinion the stock of the company is worth from $250 to $350 per share. He says he is the owner of 1,500 shares of the stock with a par value of $150,000, and adds that upon examination of the books he found that an aggregate of only 3,000 shares of stock was registered in the names of all the officers and directors of the company. He contends, in view of this, that the smaller stockholders actually control the company and therefore should express their rights.—V. 120, p. 1874.

Austin Nichols & Co.—*Complaint Dismissed.*—
The Federal Trade Commission has dismissed its complaint against the company for "lessening" competition. The Commission found the company took over the business of several other concerns, but that competition still existed until a consent decree was handed down by the District of Columbia Supreme Court compelling the so-called "big packers" to dispose of their grocery business.—V. 120, p. 1884.

Barnsdall Corp.—*Listing.*—
The New York Stock Exchange has authorized the listing of $4,428,350 additional Class "A" voting capital stock (par $25) on official notice of issuance and payment in full, making the total amount of Class "A" applied for $18,428,350 (authorized, $20,000,000).
Stockholders of record (including the Class "A" and Class "B" stock) May 6 were given the right to subscribe for one share of Class "A" stock for each four shares of Class "A" stock and (or) Class "B" capital stock held at $22 50 per share. Rights expired May 27. It is the intention of the management to use funds received for the purpose of liquidating existing indebtedness.—V. 120, p. 2404, 2272.

(C. L.) Best Tractor Co.—*Merger.*—
See Caterpillar Tractor Co. of Calif. below and V. 120, p. 2273.

Bing & Bing, Inc.—*Listing.*—
The New York Stock Exchange has authorized the listing of $5,000,000 25-Year 6½% Sinking Fund Debenture Coupon bonds, due March 1 1950. Compare offering in V. 120, p. 1589.

(E. W.) Bliss Co.—*Minority Stockholders' Suit.*—
The lawsuit of the minority stockholders against the officers and directors of the company for an accounting and restitution of some $4,800,000 paid out as bonuses—and mostly to officers—during the war period came to a hearing before Justice Van Siclen in Special Term of the Supreme Court at Brooklyn, N. Y., on May 21.—V. 120, p. 1462.

(Sidney) Blumenthal & Co.—*Earnings.*—

Three Months Ended March 31—	1925.	1924.

(Edward G.) Budd Mfg. Co., Phila.—*Sub. Co. Divs.*—
The directors of the Budd Wheel Co., a subsidiary, have declared quarterly dividends of 25c. a share on the Common stock and of 1¾% on the 7% Cumul. Preferred stock, both payable June 30 to holders of record June 10.—V. 119, p. 1175.

Canada Bread Co., Ltd.—*To Recapitalize.*—
The stockholders will vote June 1 (*a*) on increasing the authorized capital stock by the issue of 25,000 shares of common stock, no par value, and (*b*) on approving the conversion of the existing 25,000 shares of Common stock (par $100) into 25,000 shares of Class "B" Preference stock.
In explaining the purpose behind this recapitalization plan, President Mark Bredin states: "The management appreciates the patience and forbearance of the holders of the Common shares, which has made this expansion possible, and we now feel that the time has arrived when something should be done to show that appreciation in tangible form. This is therefore the object of our new financing by which it is proposed to change the character of the present 25,000 Common shares into what will be known as "B" Preference to be placed on a 7% dividend basis; payable out of surplus earnings, after taking care of bond interest and the 1st Pref. dividend. We are in addition making an issue of 25,000 shares without par value, which will be issued by way of a special dividend to the holders of the present Common shares at the ratio of one share without par value for each share of Common stock now held."—V. 119, p. 1285.

Carnegie Plaza Apartment Building, N. Y. City.—*Bonds Offered.*—S. W. Straus & Co., Inc., are offering at prices to net 5.85% to 6% according to maturity $960,000 1st mtge. 6% Serial Coupon Gold bonds. Safeguarded under the Straus plan. Dated May 18 1925; due serially.
The bonds as a first mortgage on corner land owned in fee and a new 15-story fireproof elevator apartment building of steel skeleton construction. The location, on the southeast corner of Seventh Ave. and 56th St. is especially desirable for a building of this character. Due to the great development of 57th St. as the principal crosstown traffic artery in this entire section, this neighborhood has become one of the most desirable in the city. New improvements in large volume have been, and are being erected, and the neighborhood is becoming one of the best retail shopping and apartment hotel districts in New York, with a strong and stable demand for high grade apartment space of the type to be provided by this structure.
Annual net rental earnings are estimated at $163,760 more than twice the greatest annual interest charge and much more than both principal and interest requirements taken together.

Caterpillar Tractor Co. (of Calif.).—*Merger.*—
The Holt Manufacturing Co., with plants at Peoria and Stockton, Calif., and the C. E. Best Tractor Co., manufacturers of track-layer tractors at San Leandro, Calif., have each been merged into the Caterpillar Tractor Co., a new corporation organized in California with a capital stock of $12,500,000. Affairs of the company will be administered by the following officers and directors: C. L. Best, Chairman; R. C. Force, Pres.,

B. C. Heacock, V.-Pres. & Sec.; M. M. Baker, V.-Pres.; O. L. Starr, Gen. Factory Mgr.; Harry H. Fair, Allen L. Chickering and John A. McGregor, directors.—V. 120, p. 2273.

Cedar Lee Realty Co., Cleveland.—*Bonds Offered.*—R. B. Keeler & Co., Cleveland, are offering at par and interest $225,000 1st Mtge. Leasehold 6½% Gold bonds.

Date May 15 1925; due serially May 15 1927 to 1935. Denom. $1,000 and $500, c*. Red. all or part in inverse numerical order on any int. date at 101 and int. Company agrees to pay the normal Federal income tax not exceeding 2%. Int. payable M. & N., Union Trust Co., Cleveland, trustee.

Company owns the 99-year leasehold estate in the land and buildings on the southeast corner of Cedar and Lee Roads, Cleveland Heights, O. This property has a frontage of 220 ft. on Lee Road, 100 ft. on Cedar Road and 170 ft. on Cedarbrook Road. The lease calls for an annual ground rental of $5,000, 1927; $6,000, 1932 and $8,000 for the balance of the lease. Company owns in fee a parcel of land fronting 40 ft. on Cedarbrook Road with a depth of 112 ft. The northernly portion of the property is at present improved with a new one-story brick building containing 6 stores, all of which are rented on graduated leases. The proceeds of this financing will be used to construct 5 additional stores immediately adjoining the present stores on Lee Road, also a moving picture theatre in the rear, seating 1,265 people and a billiard-bowling parlor. Applications are now on file for the new space including the theater and billiard-bowling parlor, on very advantageous leases.

Central Properties, St. Louis, Mo.—*Bonds Offered.*—S. W. Straus & Co., Inc., are offering at prices to yield from 5.85% to 6.15% according to maturity $4,500,000 1st Mtge. 6% Fee and Leasehold bonds.

Dated April 20 1925; due semi-annually Oct. 1928 to 1941 incl. Bonds and interest payable A. & O. at offices of S. W. Straus & Co. Denom. $5,000, $1,000, $500 and $100, c*. Callable at 104 and int. on any maturity date up to and incl. April 20 1932 at 103 and interest up to and incl. April 20 1937 and 102 and interest thereafter, 2% Federal income tax paid by the borrower.

The location of the new building which will form the principal part of the security for this bond issue is one of the best business corners in St. Louis. In the immediate vicinity of this corner are most of St. Louis' largest and best known business buildings, including the Federal Reserve Bank, the Railway Exchange Building, and the principal department stores. Adjoining the new structure is the Mercantile Trust Co. bank building, and in the next block is the post-office and custom house. In the opinion of a number of real estate experts and appraisers, this corner is the best piece of available downtown property in St. Louis.

The buildings included under the mortgage are as follows: (*a*) A 17-story, steel frame and concrete, fireproof office, store, and theater building to be erected on the plot of ground described in paragraph 1 above. (*b*) A completed two-story fireproof building, containing stores and a first class motion picture theater of 1,800 seats, fully furnished and equipped.

The 17-story office building at the corner of 7th and Locust Sts. will be one of the largest and best equipped office buildings in the Middle West. The first 6 floors of the structure will be given over to a number of retail stores and a large motion picture theater containing approximately 2,900 seats, designed by Architects C. W. & Geo. L. Rapp of Chicago.

Independent appraisals by several appraisers of the highest standing, show a conservative appraisal of the land and buildings securing this bond issue, when the new office building shall have been completed, at $6,838,696 —making this bond issue a 65.8% loan.

A conservative estimate of net annual earnings is $588,000, or considerably more than twice the greatest annual interest charge of this bond issue.

The borrowing corporation is composed of strong and experienced interests. The office building will be under the management of Isaac T. Cook & Co., Inc., leading St. Louis realtors; and the theaters will be under the management of the Skouras Bros. Enterprise, Inc., which is one of the most successful theater management companies in the West, and which controls valuable exclusive rights to motion picture productions of the better class.

The bonds are unconditionally guaranteed both as to principal and interest by S. P. Skouras, C. P. Skouras, and Skouras Bros. Enterprise, Inc. The Skouras brothers are successful theater owners and operators of large means, who own and operate more than 20 theaters in St. Louis.

Chemical Foundation, Inc.—*Appeal Filed.*—The Government has filed in the U. S. Supreme Court an appeal in its suit to recover German patents from the Chemical Foundation, Inc. The Government lost in both the District Court of Delaware and in the Circuit Court of Appeals.—V. 120, p. 2406, 1752.

Chicago Yellow Cab Co., Inc.—*Earnings.*—Net profit for April last increased $28,935 over the same month last year. —V. 120, p. 2152.

Coca-Cola Bottling Co. of Chicago, Inc.—*Stock Offered.*—Watson, Williams & Co., New Orleans, La., are offering at $55 per share (and div. from May 1) to yield 8.18%, 10,000 shares Class "A" stock.

Class "A" stock has preference as to assets in liquidation up to $55 per share and div. Convertible into class "B" Stock share for share, at any time, and in case of redemption up to and incl. date of redemption. Red. as a whole on any div. date at $57.50 per share and div. Class "A" stock is entitled to dividends at the rate of $4 50 per annum payable M. & N. Hibernia Bank & Trust Co. of New Orleans, transfer agent. Listed on the New Orleans Stock Exchange. Marine Bank & Trust Co. of New Orleans, registrar. Dividends exempt from present Federal normal income tax.

Capitalization—	*Authorized.*	*Outstanding.*
Class "A" stock (no par)	20,000 shs.	10,000 shs.
Class "B" stock (par $1)	50,000 shs.	30,000 shs.

Company.—A Louisiana Corp. Owns the exclusive franchise for the bottling and sale of bottled Coca-Cola in the City of Chicago and all territory within a radius of 50 miles therefrom in the State of Illinois. In addition to the City of Chicago, this territory includes the cities of Waukegan, Elgin, Aurora, Joliet and Chicago Heights, together with a number of smaller towns and villages. Total population of the territory embraced by contract is 3,627,428.

The bottling of Coca-Cola in Chicago for the past several years has been in the hands of a company severely handicapped by lack of sufficient capital to properly develop the business and a thorough knowledge of the Coca-Cola business, none of the officers of the company having had any previous experience in this line. It operated under the agent plan of distribution. This means that it owned no delivery trucks, had no list of its customers and no contact with them, merely sold the bottled product to peddlers at its factory; these peddlers were left to their own devices to distribute the product according to their own ideas.

Earnings.—From 1920 to 1924, inclusive, notwithstanding poor management and lack of capital, the old Company never failed to make a profit. This company has now come under the management of A. B. Freeman and associates, who have an unbroken record of success in the management of the Coca-Cola bottling busines. Under them, adequate working capital will be brought into the business. With these two important improvements, it is estimated that for the year 1925 per capita consumption in the Chicago territory will be increased from 1¼ bottles to at least 5 bottles, with estimated earnings of at least $60,000. or nearly 1¼ times div. on Class "A."

Balance Sheet Feb. 28 1925 (*After Fresent Financing*).

Assets—		*Liabilities*—	
Cash	$177,404	Accounts payable	18,931

—V. 120, p. 2555. 90.

Commonwealth Hotel Construction Corp.—*Sale.*—Joseph P. Day, as Special Master, under order of Judge Francis A. Winslow, on May 27 sold the last remaining holdings of this defunct corporation to a syndicate headed by John Gerosa, for $2,640,000. The auctioned property comprised the Sonoma and Rockingham apartment houses and the Thorndyke Hotel, embracing the block front on Broadway between 55th and 56th streets, with a Broadway frontage of 207.5 ft., extending to a depth of 121.3 ft. on 55th St. and 172.3 ft. on 56th Street. The site contains approximately 30,000 sq. ft.—V. 119, p. 1068.

Congoleum-Nairn, Inc.—*Smaller Dividend Probable.*—On account of dulness in the floor-covering business in the first quarter of this year, the dividend on the Common stock will be reduced to a $2 annual basis from the present $3 rate at the next meeting of the board in July. There has been a slight improvement lately in sales but the management feels it wise to conserve resources while consolidation of the two companies is proceeding. Fundamentals are good and the company is in strong financial position. A new selling plan is being developed and the outlook for the fall is good. ("Wall Street Journal.")—V. 120, p. 1752.

Consolidation Coal Co.—*Defers Preferred Dividend.*—The directors on May 27 decided to defer payment of the quarterly dividend of 1¾% usually paid on the 7% Cumul. Pref. stock on June 1. This action was taken, it is said, because of the poor earnings so far this year.

Net income from operations, after interest but before depreciation, for the 4 months ended April 30 1925 was $25,889. See also V. 120, p. 2015.

Cook Paint & Varnish Co., Kansas City, Mo.—*Pref. Stock Offered.*—Prescott, Wright, Snider Co., Kansas City, Mo. are offering at 100 and div. $300,000 8% Cumul. Pref. (A. & D.) stock.

Registrar of stock, New England Nat'l Bank & Trust Co. Red. at 105 on any div. date. Div. payable Q-M. Stock is exempt from all local taxes in Missouri except inheritance tax. Dividends are exempt from the State of Missouri income tax and the normal Federal income tax.

Data From Letter of C. R. Cook, President of the Company.

Company.—Has developed on conservative lines one of the largest business of the Southwest in the manufacture and distribution of all kinds of paints and varnishes. Product ranges from the highest quality, used for furniture and coach work, to the coarser commercial grades, such as tank car and roofing paints. Manufacturing plants located in North Kansas City, Mo. and Fort Worth, Tex. In mechanical equipment and facilities for economical manufacture and distribution these plants are considered to be the best.

Earnings.—Earnings of company are largely in excess of the dividend requirements on the Preferred stock. Average earnings for the last 3 years applicable to dividends, after all charges, were over 4.5 times dividend charges, and for the year 1924 such earnings were over 5.7 times dividend requirements and over 2.8 times dividend requirements on the $600,000 Preferred stock to be outstanding.

Purpose.—To provide additional working capital to take care of the rapidly growing business and to increase facilities for handling their business in Chicago and St. Louis.

Capitalization—	*Authorized.*	*Outstanding.*
Preferred stock 8%	$1,100,000	$600,000
Common stock (no par value)	50,000 shs.	37,500 shs.

—V. 108, p. 2632.

Denver Rock Drill Mfg. Co.—*Tenders.*—The American National Bank of Denver, Colo., will until June 5 receive bids for the sale to it of Preferred stock to an amount sufficient to exhaust $24,750, at prices not exceeding 110 and int.—V. 119, p. 698.

Dominion Canners, Ltd.—*New President, &c.*—Avern Pardoe has been elected President, and H. C. Schofield Vice-President. The directors are: Avern Pardoe, H. C. Schofield, Mark Bredin, A. W. Holmstead and James Hunter.—V. 120, p. 2016.

Dominion Textile Co., Ltd.—*Increases Dividend.*—The directors have declared a quarterly dividend of $1 25 a share on the outstanding 225,000 shares of Common stock, no par value, payable July 2 to holders of record June 15. This increases the annual rate from $4 to $5 a share.

The directors also declared the regular quarterly dividend of 1¾% on Pref. stock, payable July 15 to holders of record June 30.—V. 120, p. 834.

Eastman Kodak Co.—*Court Upholds Trade Board's Order—Circuit Court of Appeals Sustains Part of Order Directing Company to Cease Alleged Unfair Competition.*—The order of the Federal Trade Commission directing the company and members of the Allied Laboratory Association to refrain from unfair competition in the sale of motion picture films has been upheld by the U. S. Circuit Court of Appeals. While the higher court sustained by unanimous vote that part of the order directing the company to refrain from acting under an agreement which binds the other defendant to buy only American film for motion picture productions, it holds that the Commission was wrong in ordering the *Eastman Kodak Co.* to dispose of its three Brulatour producing plants and to refrain from making motion pictures. Judge Manton dissented from that part of the opinion which differed from the Commission.

Judge Hough, who wrote the opinion, said: "Prior to 1921 Eastman Kodak Co. had substantially a complete monopoly of the sale of positive and negative film in the United States. This is true, but the reasons are just as true that the company was the first American manufacturer and made what is still regarded as the best raw film anywhere attainable." The Judge then pointed out that when foreign film began flooding domestic markets Eastman Kodak bought the Brulatour properties and announced its intention of going into motion picture production, but agreed to refrain if producers would agree to buy only American film.

"The Commission is not a court," Judge Hough's opinion reads. "The object of the Commission was to prevent unfair competition, but there is nothing unfair in the Kodak Co. going into motion picture production. On the contrary, it is fundamental in this country just now that competition is meritorious."

In the dissenting opinion Judge Manton held that the Kodak Co.'s purchase of the Brulatour properties and its announcement that it was to enter picture production was in the nature of a threat.—V. 120, p. 2555, 2016.

Eaton Axle & Spring Co.—*Resumes Dividend.*—The directors on May 27 declared a dividend of 50 cents per share on the capital stock, no par value, payable Aug. 1 to holders of record July 15. This is the first dividend since July 1 last, when a distribution of 40 cents per share was made. See also V. 120, p. 2274, 2688.

Emerson Drug Co. (Balt.).—*To Create New Stock Issue.*—The stockholders will vote June 1 on increasing the capital stock from $1,500,000 to $4,000,000. The increase ($2,500,000) will be represented by a new class of 8% Cumul. Pref. stock (par $25) to be known as Class "B."

The stockholders will also be asked to approve the issuance of $1,250,000 of the proposed Class "B" Preferred stock as a stock dividend.—V. 115, p. 2483.

(The) Fair (Department Store), Chicago.—*Offers Stock to Customers on Partial Payment Plan.*—D. F. Kelley, Pres. & Gen. Mgr., in a letter to the store's 250,000 customers explaining the customer ownership plan announced on May 22, says in substance: "A partial payment plan has been instituted whereby it is possible for our customers to obtain stock on a down payment of $5 a share, balance $3 monthly. Our investment department will place your order for shares with our bankers, the stock to be deposited and delivered on final payment. The Fair is the only department store in Chicago whose securities may be bought on the Stock Exchange. The prevailing market price is $34 to $35 a share, and a monthly dividend of 20c. is being paid, about 7% a year."—V. 120, p. 2407.

Fairfield Coal & Coke Co.—*Sale.*—The bondholders purchased the property of the company at a Sheriff's sale at Johnstown, Pa., May 18, for $80,000. It is said that the purchasers plan to reorganize the company and get the plant in readiness to resume operations. The plant has been closed for some time.

Finance Service Co. (Balt.).—*Capital Increase.*—

The stockholders voted on May 20 to increase the authorized capital stock from $3,000,000 to $3,200,000 (par $10). Of this stock 200,000 shares shall be Preferred Stock, 100,000 shares shall be Class A Common stock, and 20,000 shares shall be Class B Common stock.

The Preferred stock may be redeemed or retired in whole or in part at the option of the company at any dividend period, upon the payment of $11 per share int., upon 60 days' notice. After June 15 1925, Preferred stock shall be convertible into Class A Common stock at the rate of one share of Class A Common stock for 2 shares of Preferred stock thus converted, at any time prior to notice of redemption of Preferred stock. Upon such conversion the certificates of Preferred stock surrendered for conversion shall be cancelled and not re-issued and the excess of the par value of Preferred stock so converted over the par value of the Class A Common stock issued therefor shall be credited to paid in surplus, and shall not be available for distribution in cash dividends. The privilege of conversion shall be limited to conversion of Preferred stock in blocks of 2 shares of Preferred stock for a whole share of Class A Common stock.

The reason for extending to Preferred stockholders the privilege of converting their holdings into Class A Common stock is as follows:

The officers feel that commercial banking companies which strengthen their financial structure will be better prepared to render financial service to their clients along sound, economic lines.

The capital and surplus as it is at present and it will be after the conversion, if all of the Preferred stockholders should avail themselves of this privilege, is as follows:

Before Conversion.		*After Conversion.*	
Preferred stock	$1,000,000	Class A Common stock	$840,000
Class A Common stock	340,000	Class B Common stock	200,000
Class B Common stock	200,000	Surplus and undivided profits	742,817
Surplus and undivided profits	242,817		
Total	$1,782,817	Total	$1,782,817

Class A Common stock has preference both as to assets and dividends over the Class B Common Stock, in addition to which it participates in all dividends with the Class B Common Stock over and above 8%. After the conversion the Corporate Capital, junior to Class A Common Stock, will be $942,000 or 112%.—V. 120, p. 2154.

Fisk Tire Fabric Co.—*Definitive Bonds Ready.*—

Dillon, Read & Co. announce that definitive 1st Mtge. 10-Year 6½% S. F. Gold bonds (closed issue), due Jan. 1 1935, will be exchangeable for interim receipts at the Central Union Trust Co., 80 Broadway, N. Y. City, on and after June 1. For offering of bonds, see V. 19, p. 3015.

Fox Building (Fox Philadelphia Building, Inc.).—*Guaranteed Bonds Sold.*

—Dillon, Read & Co. and Biddle & Henry have sold at prices ranging from 100 and int. to 100½ and int. to yield from 5.97% to 6½% according to maturity, $1,800,000 1st Mtge. Leasehold 6½% Serial Gold Bonds.

Dated June 1 1925; due $90,000 each June 1 1926 to 1945 inclusive. Int. payable J. & D. Denom. $1,000 c*. Red. as a whole or in multiples of $90,000 on any int. date on 30 days' notice at 102½ and int. In case the bonds are redeemed in part, they shall be redeemed in inverse order of their maturities, the latest maturities being redeemed first. Interest payable at Dillon, Read & Co. or Fidelity Trust Co., Philadelphia, trustee, without deduction for Federal normal income tax up to 2% per annum. Present Penn. 4-mill tax refunded.

Data From Letter of William Fox, Pres. Fox Philadelphia Building, Inc. and Fox Film Corp.

Security.—Bonds are secured by a closed first mortgage lien on the leasehold property of Fox Philadelphia Building, Inc., consisting of a 50-year lease from June 30 1921, on 22,704 sq. ft. of land at the southwest corner of 16th and Market Streets, Phila. and the modern, fireproof 16-story office building and motion picture theatre erected thereon. This location is considered one of the most valuable in the business section of Philadelphia. The office building was completed and has been in operation since Sept. 26 1924; the theatre was completed and has been in operation since Nov. 26 1923. The office building contains 74,877 sq. ft. of net rentable office space of which 82% was occupied on April 1 1925 and 2,551 sq. ft. of space for stores on the ground floor, entirely occupied on that date. The theatre has a seating capacity of approximately 2,500 and is of the most modern fireproof construction throughout.

The ground has been leased from the Estate of Israel Morris free and clear of any mortgage and any mortgage placed on the land or building by the lessor must be made subject and subordinate to the lease. Under the terms of the lease the annual ground rent is fixed for the first 25-years, the average payment being about $80,000 a year during this period, which extends beyond the maturity of the last series of the bonds. The ground rent payable after June 30 1946 is to be based upon an appraisal of the land at that time.

Valuation.—The leasehold, including the office building and theatre, has been appraised by Edgar G. Gross, of Phila., at $2,500,000.

Sublease & Guarantee.—Fox Philadelphia Building, Inc., a wholly owned subsidiary of Fox Film Corp. will lease the entire building to Fox Film Corp. for a period extending beyond the maturity of the bonds for an annual net rental equal to the annual charges for principal and interest on these bonds, and all other charges of the company, and Fox Film Corp. will guaranty these bonds as to principal and interest by endorsement.

Fox Film Corporation.—Fox Film Corp., which will lease the property and guaranty the bonds is, with its subsidiaries, one of the largest companies in the world engaged in the production, distribution and exhibition of motion pictures, and showed by its consolidated balance sheet as of Dec. 27 1924 a net worth in excess of $11,000,000.

Earnings.—Net profits after interest and all fixed charges, available for Federal Taxes and dividends year ended:

Fox Film Corp.—*Guaranty & Lease—Cap. Increase.*—

See Fox Building above.

The stockholders on May 26 approved an increase in the authorized capital from 100,000 common shares without par value to 1,000,000 of no par value common. The present 100,000 shares will be known as class "B" common and the remaining 900,000 shares will be class "A." The class "B" will have voting privileges while the "A" will have no voting power.

The outstanding capitalization after the reorganization will consist of 100,000 class "B" common and 400,000 class "A." The majority of the latter will be distributed as a stock dividend to present holders and they will be permitted to subscribe to the class "B" common at a price to be determined later.

Corporation was reorganized in 1915 with a capital of $500,000 of new capital, in return for which subscribers received a like amount of preferred and a bonus of common stock. In the years 1922, 1923 and 1924 the company paid dividends of 50%.

A statement of earnings and a consolidated balance sheet as of Dec. 27 1924 (as adjusted) is given under Fox Building above.

—V. 120, p. 2275, 1887.

Garrick Building, Chicago.—*Bonds Called.*—

The entire issue of 6½% bonds, due 1926-30, have been called for payment Aug. 1 at 103 and int. at the Chicago Title & Trust Co., Chicago. —V. 119, p. 2652.

Genesee Holding Co., Detroit.—*Bonds Called.*—

The company will on July 1 redeem $15,000 of its outstanding bonds, dated July 1 1923, at 102½ and int. Payment will be made at the Union Trust Co., trustee, Detroit, Mich.

Any or all of the bonds called will be taken up at 102½ and int. to date of payment upon presentation and surrender thereof at the office of the trustee at any time prior to July 1.—V. 120, p. 336.

Glidden Co., Cleveland.—*Earnings.*—

—V. 120, p. 2688, 2408.

Groveland Coal Mining Co., Chicago.—*Merger.*—

The company on May 16 announced the completion of a merger under the name of the *Groveland-La Marsh Mining Co.*, combining properties of the Crescent Coal Co. located in the La Marsh district in Peoria County, Ill., with properties of the Groveland Coal Mining Co., located in Tazewell County, Ill. The combined properties, it is said, represent a capital investment in excess of $3,000,000.—V. 114, p. 2723.

Groveland-La March Mining Co.—*Successor Co.*—

See Groveland Coal Mining Co. above.

(C. M.) Hall Lamp Co., Detroit.—*Dividends.*—

The directors have declared a dividend of 50 cents a share on the Common stock, no par value, payable June 16 to holders of record June 9 and a dividend of 50 cents, payable 25 cents a share on Sept. 15 to holders of record Sept. 10 and 25 cents a share on Dec. 15 to holders of record Dec. 10. These dividends will increase the total paid for 1925, to $1 50 per share, compared with a total of $2 per share paid in 1924.—V. 120, p. 2017.

Happiness Candy Stores, Inc.—*New Leases.*—

The corporation will assume new leases this year involving $5,000,000 or more, and it is probable that the sum total will be double that amount. Three leases have already been signed for an amount aggregating over $2,000,000 and additional leases are now under negotiation which will carry the total to around $5,000,000. Properties are being leased by the company in which new restaurants and tea rooms will be started.

The first restaurant was opened in New York a week ago. Two other locations have been obtained, one in Baltimore and the other in Washington. Additional leases on properties in New York and Philadelphia are expected to be signed in the next week or two.

According to Hugh Cassidy, President of Happiness Candy Stores, Inc., the opening of the New York restaurant, which marked the entrance of Happiness Candy Stores, Inc., in the restaurant business, has proved a signal success. Business done in the first week exceeded in volume all expectations.—V. 120, p. 1210.

Hollinger Consolidated Gold Mines, Ltd.—*Dividend Rate Increased from* 13% *to* 20 4-5% *per Annum.*—

The directors have declared a fourth weekly dividend of 8c. per share, payable June 17 to holders of record June 1. Previously distributions of 5c. a share were made every four weeks.—V. 120, p. 2689.

Holt Manufacturing Co. (Calif.).—*Merger.*—

See Caterpillar Tractor Co. of California above, and V. 120, p. 2276.

Hupp Motor Car Co.—*Sale of Plant.*—

See Murray Body Corp. below.—V. 120, p. 2689.

Indiahoma Refining Co.—*Assets Likely to Be Sold.*—

Although a purchaser for the properties of the company as a whole has not yet been found, the possibility of the sale of some of the assets before long was mentioned by William Bauer, Secretary of the Bondholders' Protective Committee, in a letter to holders of the 8% bonds. The letter says in part:

"Because of repairs made to the properties since their acquisition by the committee, they are now in a much better condition than at the time they were taken over by the trustee in bankruptcy.

"The company has also been able to pay off practically all back taxes that were owing, in addition to other minor matters. Independent experts employed by the committee have reported that it would not be profitable at this time to operate either of the refineries owned by the company.

"The committee is now faced with the situation of disposing of, in view of their inability to find a purchaser for the properties as a whole, at the best possible price some of the assets of the company, and we believe that, commencing with July 1, it will be the plan of the committee to dispose of practically all of the assets as soon as possible."

Last November a new company, known as the Indiahoma Corp., was formed as an outgrowth of the reorganization of the Indiahoma Refining Corp. The idea of the formation of this company was to keep the assets intact until such time as a suitable offer might be made for their purchase. —V. 119, p. 2654.

Industrial Acceptance Corp.—*Earnings.*—

The company reports net earnings of $212,984 for the first quarter of 1925, compared with $140,627 for the first quarter of 1924.—V. 119, p. 3016.

Inspiration Consolidated Copper Co.—*Resumes Dividend.*

—The directors on May 28 declared a dividend of 50 cents per share on the outstanding $23,639,340 capital stock, par $20, payable July 6 to holders of record June 18. The last previous quarterly dividend was 50 cents per share paid in Jan. 1924; none since.—V. 120, p. 2544.

International Business Machines Corp.—*Rights.*—

The stockholders of record June 6 will be given the right to subscribe on or before June 20 for additional capital stock of no par value, at $100 per share, on the basis of 1 new share for each 15 shares owned.—V. 120, p. 2276.

International Paper Co.—*Listing.*—

The New York Stock Exchange has authorized the listing of $5,370,000 (authorized $50,000,000) Cum. 7% Pref. stock (par $100), all of which is issued and outstanding; $25,000,000 Cum. 7% Pref. stock, on official notice of issuance in exchange for outstanding 6% Pref. stock (stamped and unstamped); and $5,000,000 additional (authorized $50,000,000) Common

stock (par $100), on official notice that it has been distributed and is outstanding in the hands of the public, making the total amounts applied for in this and previous applications $30,370,000 Cum. 7% Pref. stock and $25,000,000 Common stock.

The Exchange also authorized the listing of $22,500,000 (authorized $150,000,000) Ref. Mtge. Sinking Fund 6% Gold Bonds, Series "A," due March 1 1955. The proceeds of $15,587,000 of bonds will be used to reimburse the company in part for expenditures made and to be made in connection with the enlargement of the Three Rivers Mills to 500 tons capacity, for the retirement of bank loans and for other corporate purposes. The remaining $6,913,000 of the bonds applied for has been or will be used in part payment for the Riordon Co., Ltd., properties.

Preliminary Consolidated General Balance Sheet as of April 30 1925.

The profit and loss surplus March 31 1925 stood at $13,139,143, against $10,749,841 at March 31 1924.—V. 120, p. 2408, 710.

International Silver Co.—*Accumulated Pref. Dividend.*—

The directors have declared a dividend of ¼ of 1% on account of deferred cumulative dividends and the regular quarterly dividend of 1¾% on the Pref. stock, both payable July 1 to holders of record June 15. Like amounts have been paid quarterly since April 1923.—V. 120, p. 1467.

International Text Book Co.—*Dividend Reduced.*—

The directors have declared a quarterly dividend of 1% on the outstanding $10,000,000 capital stock, par $100, payable July 1 to holders of record June 10. This compares with 6% per annum paid on the stock since 1921.—V. 107, p. 1190.

Interstate Iron & Steel Co.—*Back Dividend.*—

The directors have declared a dividend of 1% on account of accumulations on the 7% Cumul. Pref. stock, payable July 15 to holders of record July 6.—V. 120, p. 1097.

Jordan Marsh Co., Boston.—*Pref. Stock Offered.*—

Old Coloney Trust Co., Boston is offering at 101½ and div. to yield 5.90% a limited amount of 6% Cumulative Pref. stock (par $100). Pref. stock to the amount of $4,175,500 was issued in connection with the acquisition of C. F. Honey Co. and additional real estate in Feb. last.

Preferred as to assets up to $105 per share in voluntary liquidation or $100 in involuntary liquidation. Dividends payable Q.-F. Red. all or part after July 1 1927. Not exceeding $250,000 per annum may be redeemed at par. Stock in excess of this amount may be redeemed at $105 during 1927, and ¼ of 1% less each year thereafter until redemption price reaches 101. Transfer agent, Old Colony Trust Co., Boston. Exempt from Mass. income tax and normal Federal income taxes. Auth. $8,000,000; outstanding $4,175,500.

Company.—Incorp. in Massachusetts. Conducts the largest retail department store in Boston. The business, established in 1851, has been eminently successful in profits and growth for more than 74 years. Company recently acquired control of the C. F. Hovey Co., through purchase of the entire Common and a majority of the Preferred stock of that Company. Proceeds of this issue will be used in connection with this purchase as well as for the purchase of additional real estate adjacent to the present stores of Jordan Marsh Co.

Earnings.—Combined profits of Jordan Marsh Co. and C. F. Hovey Co. for each and every year during the 8 years ending Jan. 31 1925, were more than 4 times the annual dividend requirement on this preferred stock.

Equity.—This Preferred stock is followed by 100,000 shares of Common stock without par value, having a book valuation, exclusive of good will, of over $9,325,000.

Assets.—On Jan. 31 1924, current assets were more than $12,100,000, about 3 2-3 times current liabilities of $3,300,000. Net current assets were about $8,800,000, or more than twice the amount of this Preferred stock. Combined net assets, exclusive of good will, applicable to this Pref. stock are over $13,500,000, or about $325 per share.

Sinking Fund.—An annual sinking fund of $250,000 will be paid to the Old Colony Trust Co., transfer agent, beginning March 1 1927, payable out of net profits after Pref. stock dividends and reserves. This sinking fund is cumulative. Payment may be reduced or omitted in any calendar year or any two successive calendar years, but in that case no dividends on the Common stock in excess of an aggregate of $8 per share shall be paid, until all accumulated sinking fund arrears have been deposited. Sinking fund will be used to purchase Pref. stock at or below par, or to call the Stock at the redemption prices above specified.

Voting Power and Rights.—No stock having priority over this Pref. stock may be issued and no change in the Pref. stock provisions may be made without the consent of holders of at least 75% of the Pref. stock. No change in the rate of cumulative dividends, or in the redemption or liquidation prices for this stock may be made except with the unanimous consent of the preferred stockholders.—V. 120, p. 711

Balance	$40,164

—V. 120, p. 2410.

Madison Square Garden Corp.—*Bonds Sold.*—

Hayden, Stone & Co., W. A. Harriman & Co., Inc., and Redmond & Co. have sold at 100 and int. $2,250,000 1st (Closed) Mtge. 7% Sinking Fund Gold loan.

Dated May 1 1925; due May 1 1945. Int. payable M. & N. in New York without deduction of normal Federal income tax up to 2%. Penna. and Conn. 4 mills taxes, Maryland 4½ mills tax, District of Columbia and Mich. 5 mills taxes, and Mass. income tax up to 6% refunded. Participating certificates in denom. of $1,000, $500 and $100, with int. warrants attached, registerable as to principal. Red., all or part, on 30 days' notice at 105 and int. New York Trust Co., mortgagee.

Data from Letter of Pres. George L. Rickard, May 26.

Company.—Corporation and predecessor company, under the management of John Ringling and George L. Rickard, have since 1920 successfully operated under lease, the building located at Madison Ave. and 26th St., N. Y. City, known as "Madison Square Garden." The lease was terminated on May 1 1925, and the structure is being demolished to make room for an office building. Anticipating the need of larger quarters and a better location, the corporation some time ago acquired a site extending from 49th to 50th Sts. near 8th Ave. and is erecting thereon a modern exhibition building. This building is designed so that two exhibitions can be carried on simultaneously, there being (1) a grand arena for athletic meets, bicycle races, circus, horse shows, hockey matches, and other exhibitions, and (2) an exposition hall under the arena with 52,000 sq. ft. of floor space for industrial shows and other similar exhibitions.

The grand arena will have about 14,415 permanent seats and about 4,056 movable seats, a total of approximately 18,471, compared with the old Madison Square Garden capacity of only 9,106 permanent seats and 4,570 movable seats. It is believed that the new Garden will have the largest seating capacity of any covered building in the world.

Security.—Secured by a closed first mortgage covering approximately 75,000 sq. ft. of land (approx. 375x200 ft.) extending from 49th to 50th Sts., beginning about 125 ft. west of 8th Ave., and covering a modern fireproof exhibition building being erected thereon, which it is expected will be completed early in December.

Appraisals.—Appraisals have been furnished as follows: Brown Wheelock: Harris, Vought & Co., Inc.: Land alone, $1,900,000; building upon its completion, $2,500,000; total, $4,400,000. Charles F. Noyes Co.: Land and building upon completion, $4,825,000.

Based on the average of these appraisals, the loan will be outstanding at less than 50% of the value of the property and will, upon completion of the building, in the opinion of counsel, be a legal investment for trust funds in New York State. The estimated cost of the building alone will be in excess of $2,600,000.

Annual earnings, upon completion of the building (estimated).

Gross income	$950,000
Operating expenses and taxes	325,000
Net earnings	$625,000

This is equivalent to almost four times the $157,500 maximum annual interest requirement on the loan, and over 2.2 times maximum annual interest and sinking fund charges combined.

The above estimated earnings do not include any revenue from professional boxing shows which should add substantially to the earnings shown. The gross income is based on the use of the grand arena for only 54% of the year, whereas from previous experience in the old Garden and from contracts and arrangements already made, the circus, bicycle races, track games and hockey games should alone occupy the arena for over 42% of the year. This does not take into account the demand for space for numerous industrial exhibits, fraternal organizations, concerts, moving picture entertainments, dancing carnivals, &c.

Sinking Fund.—The sinking fund will operate to retire the entire issue by maturity. On or before Nov. 1 1926, and each six months thereafter there will be retired $59,000 of certificates except in the last year, when there is to be retired and paid $126,000. The sinking fund will operate through purchase in the market up to 105 and int. or by call by lot at

that price, except the final $63,000 which will be paid at par at maturity. Certificates acquired through the sinking fund must be cancelled.

Management.—The management will continue under the active supervision of John Ringling as Chairman of the Board of Directors and George L. Rickard as President of the corporation, both of whom are large holders of Common stock.

Directors.—J. W. Allen (Allen, Lewis & Co.), Mathew C. Brush (Pres. American International Corp.), Walter Camp Jr. (United American Lines), Wm. F. Carey (V.-P. & Treas.), Richard F. Hoyt (Hayden, Stone & Co.), John P. McGuire (V.-P. Textile Banking Corp.), J. Ernest Richards (Frazier & Co.), George L. Rickard (Pres.), Charles Ringling, John Ringling (Chairman), Kermit Roosevelt (Roosevelt Steamship Co., Inc.).

The directors own or represent substantial interests in the Common stock.—V. 120, p. 1756.

Marworth Apartments (Worth Investment Co.).—*Bonds Offered.*

—Love, Van Piper & Bryan, Inc., and Wm. R. Compton Co., St. Louis, are offering at prices to yield 5½% to 6½%, according to maturity, $450,000 1st Mtge. 6½% gold bonds.

Dated April 1 1925; due serially 1926-1931. Principal and int. (A. & O.) payable at the American Trust Co., St. Louis, trustee. Denom. $1,000, $500 and $100 c*. Optional at 102½ and int. up to and incl. April 1 1926, thereafter at 100 and int., plus ½% for each 12 months or fraction threeof by which maturity is anticipated.

The Marworth Apartments are located at the northwest corner of Taylor and Maryland avenues, one block north of Lindell Blvd. and within a block of the St. Louis Cathedral. The property is excellently located with respect to schools, churches and Forest Park. The improvements will consist of two 9-story buildings of reinforced concrete and steel construction, and are to be fireproof in every detail. The first floor in each building will be occupied by stores, while the remaining 8 floors will contain 4 apartments to each floor. There will be a 70-car garage located in the rear of the buildings, access to which may be obtained through the basement of each building.

The ground has been appraised at $50,000, whereas the buildings will represent a value of $713,005 upon completion, making a total value for the land and buildings of $763,005.

The gross annual revenues of the Marworth Apartments have been conservatively estimated at $125,800, less operating expenses, taxes and insurance of $24,160, leaving a balance of $101,660 available for principal and interest requirements of this issue.

Maxwell Motor Corporation.—*Plan Operative.*—

More than 90% of both the Class A stock and the Class B stock having been subjected to the plan and agreement dated April 15 1925, the committee has declared said plan and agreement to be operative.

Committee.—George W. Davison, Chairman, Charles A. Boody, Leo M. Butzel.

Mid-Continent Petroleum Corp.—*Listing.*—

The New York Stock Exchange has authorized the listing of $12,349,000 1st Mtge. 15-Year 6½% Sinking Fund Gold bonds, due March 1 1940. —V. 120, p. 2558, 1337.

Mining Corp. of Canada, Ltd.—*To Form Subs. Cos.*—

The corporation has decided to follow the British method of mining finance and split up its operating properties into subsidiary companies. Shares of subsidiaries will be issued to the public, the corporation retaining control. President J. P. Watson said: "We have a great many properties well located which can only be profitable when developed. This development must be made from money taken either from our earnings, which naturally delays dividends, or from money received from the sale of shares of subsidiaries. In using our own money only, development will be slow and dividends will be delayed, but ultimately all the profit or loss will be our own. On the other hand, if we made public issues, retaining control, it might mean smaller ultimate profits, but certainly it means much more rapid development and much more certain returns."

Frontier (Lorrain), capital $3,000,000, will be the first and will have the Frontier, Crompton and Haileybury silver properties which adjoin one another in South Lorrain. Shares will be first offered to Mining Corp. of Canada, Ltd., shareholders and what is not taken up will be marketed in Canada and London.

Pres. Watson said that developments so far have not justified the payment of dividends but he hoped that the policy adopted in regard to subsidiaries will assist in the early payment of dividends. He said they were nearer dividends now than at any time since 1920. ("Financial Post" of Toronto, May 15.——V. 120, p. 2558.

Moon Motor Car Co.—*Forms New Subsidiary.*—

President Stewart McDonald announces the formation of a new company, the *Diana Motors Co.*, to market the new Diana light straight 8-cylinder car which the Moon Motor Car Co. is ready to produce. The Diana Motors Co. will take its cars direct from the designers and builders, the Moon Motor Car Co. According to the plans of the Moon Motor interests the 1925 production of the new Diana car, which will be formally placed upon the market next month, will approximate 7,000 cars.—V. 120, p. 2690.

Morgan Lithograph Co., Cleveland.—*To Increase Stock.*

The stockholders will vote June 25 on increasing the authorized Common stock from 60,000 shares of no par value to 100,000 shares. Part of the ncrease is expected to be offered to present stockholders at $52 50 per share, in the ratio of one new share for each two shares held.—V.120,p.1889. 1213.

Motion Picture Capital Corp.—*Initial Dividend.*—

The directors have declared an initial dividend of 37½ cents per share on the Common stock, no par value, payable June 15 to holders of record May 29. (See V. 120, p. 1337.)

The usual semi-annual dividend of 4% on the 8% Cumul. Preferred stock (par $25) has also been declared payable July 15 to holders of record July 1. —V. 120, p. 1889.

Motor Wheel Corp., Lansing, Mich.—*Div. Increased.*—

A quarterly dividend of 40 cents per share has been declared on the Common stock (no par value), payable June 20 to holders of record June 10. This compares with a quarterly dividend of 30 cents per share paid on the Common stock on March 20 last (see V. 120, p. 966).—V. 120, p. 2690.

Municipal Service Corp. (N.Y.)—*Stock Offered.*—

Robert P. Marshall & Co., New York, are offering at $12.50 per share 90,000 shares capital stock without nominal or par value. This offering does not involve new financing on the part of the company.

Transfer agent, Bank of the Manhattan Co., New York. Registrar, Bankers Trust Co., New York.

Capitalization.—Authorized and outstanding, 200,000 shares, no par value. Corporation has no bonds or preferred stock.

Data from Letter of W. H. Lyons, President of Corporation.

Company.—Organized in Dec. 1924 in New York. By ownership of all of the outstanding securities of Municipal Gasoline Stations, Inc., Utility Oil Corp. and Jradonette Realty Corp., succeeds to the businesses previously established and successfully conducted by these subsidiaries. This business consists of the purchase and sale, both at wohlesale and retail, of gasoline, kerosene, oils, greases, &c., in New York City and surrounding territory. Through its subsidiaries, co. is thoroughly equipped in plnat and property to conduct economically and profitably the purchase, distribution and sale of these products. All plant and equipment are owned with the exception of certain parcels of real estate held under advantageous long term leases.

Dividends.—Dividends have been established at a regular rate of $1 per share per annum, and it is expected that other disbursements will be made from time to time in the form of extra dividends.

Listing.—It is expected that application will be made to list this stock on the New York Curb Market.

Earnings.—Earnings of the business have shown steady and consistent growth. Based on past experience and present indications, including the results of operations for Jan. and Feb. of this year, earnings for the calendar year 1925 are estimated at not less than $500,000 net, after all taxes.

Murray Body Corp.—*Acquires Body Plant.*—

This corporation and the Hupp Motor Car Corp. have reached an agreement whereby the former takes over the Hupp Motor body plant at Racine, Wis., and becomes exclusive producer of all Hupp bodies for five years.

The Guaranty Trust Co. of New York is now prepared to effect the exchange of Murray Body Corp. First Mtge. 6½% 10-Year Sinking Fund Gold bonds, due Dec. 1 1934, in definitive form, for outstanding interim receipts, upon presentation of the latter at its Trust Department, 140 Broadway, New York City. (For offering, see V. 119, p. 2770).—V. 120, p. 1594.

Nash Motors Co.—*Outlook.*—

President C. W. Nash is quoted as follows: "Net income for the second quarter after taxes will be at least $500,000 over the first quarter, when net income was $3,099,000. May production schedule at Milwaukee and Kenosha, Wis., calls for 8,500 cars, against 3,000 cars last May, when we were preparing to bring out a new model in June. My belief is that the second half of 1925 will exceed the last half of 1924 by a considerable margin. Every indication points to that and I can see nothing to change this outlook.

"No thought has been given to any changes in our financial structure.

"The Ajax plant at Racine, bought a year ago has been rehabilitated with new equipment and will turn out the first Ajax car soon."—V. 120, p. 1890.

National Casket Co.—*Sells Factory.*—

The company is reported to have transferred the south plant at Oneida, N. Y. to a group of New York capitalists. The consideration was reported as $100,000.—V. 110, p. 876, 869.

National Dairy Products Corp.—*Listing.*—

The New York Stock Exchange has authorized the listing of 20,000 additional shares of capital stock without par value (auth. 1,000,000 shares) on official notice of issuance in exchange for the entire outstanding 2d Pref. stock and Common stock of Chapell Ice Cream Co., Inc., making the total amount applied for 375,000 shares of capital stock without par val.

The past and present capitalization of Chapell Ice Cream Co., Inc., and its predecessor, Chapell Ice Cream Co., are as follows: Prior to May 20 1925, Chapell Ice Cream Co. (the predecessor of Chapell Ice Cream Co., Inc.) had an authorized issue of 10,000 shares of Common stock without par value, 6,200 shares thereof having been issued in exchange for the previous outstandihg stock of the company; 3,800 shares thereof having been issued in exchange for the entire outstanding capital stock of Thompson Ice Cream Co. of Illinois. The capitalization of Chapell Ice Cream Co., Inc. (to be incorp. in Del. on or before May 27 1925), will be as follows: 7,500 shares of 7% Cum. 1st Pref. stock, par $100 per share; 10,000 shares non-voting Cum. 2d Pref. stock, par $5 per share, and 10,000 shares of Common stock, par $5 per share.

Chapell Ice Cream Co., Inc., will issue all of its authorized capital stock, to wit, 7,500 shares of 1st Pref. stock, 10,000 shares of 2d Pref. stock and 10,000 shares of Common stock in consideration of all of the assets of Chapell Ice Cream Co. The 20,000 shares of capital stock of National Dairy Products Corp. is to be issued for the 10,000 shares of 2d Pref. stock and 10,000 shares of Common stock of Chapell Ice Cream Co., Inc.—V. 120, p. 1890, 1213.

National Realty Corp., Ltd.—*Bonds Offered.*—

Housser, Wood & Co., Ltd., and W. A. Mackenzie & Co., Toronto, are offering at par and int. $250,000 7% 1st (closed) Mtge. 20-Year, full sinking fund gold bonds.

Dated April 1 1925; due April 1 1945. Montreal Trust Co., trustee. Int. payable A. & O. Denom. $1,000, $500, $100 c*. Principal and int. payable in gold at Royal Bank of Canada, Toronto, Montreal, and its agency in N. Y. City. Callable on any int. dtae, in whole commencing Oct. 1 1935, or in part for sinking fund purposes only, commencing April 1 1928, on 60 days' notice at 105 and int.

Sinking Fund.—Under the terms of the trust deed a sinking fund has been created sufficient to redeem the entire issue of First Mortgage bonds by maturity.

Company.—Organized for the purpose of erecting and operating a modern, fireproof, 5-story and basement motor vehicle parking garage of the ramp type at the southeast corner of Church and Lombard streets in the City of Toronto.

Security.—The bonds are secured by a first closed mortgage and deed of trust, constituting a first specific charge and mortgage and a floating charge on the real and personal property of the company, its buildings, plant and other assets and undertakings. As per valuations the land and completed building, with equipment, will have a value of $480,000, the 1st Mtge. representing only about 52% of this amount.

Revenue.—The net annual revenue of the company is estimated by the Manager, Mr. McBride, at $87,562. This annual revenue is equal to five times the annual 1st Mtge. bond int. requirements.

New Jersey Zinc Co.—*2% Extra Dividend.*—

The directors have declared an extra dividend of 2% payable July 10 to holders of record June 20. The last extra disbursement, amounting to 2%, was made on Oct. 10 1924. The company is also paying regular quarterly dividends at the rate of 8% per annum.—V. 120 p. 2278. 713.

Northern Warehouse & Cold Storage Co.—*Bonds Offered.*—

E. H. Ottman & Co., Inc., Chicago are offering at 100 and int. $250,000 (closed) 1st Mtge. 6½% Serial Gold bonds.

Dated May 1 1925; due in annual series from May 1 1927 to May 1 1935. Denom. $100, $500 and $1,000, c*. Interest payable M. & N. First Wis-

consin Trust Co., Milwaukee, Wis., trustee, without deduction for the normal Federal income tax not in excess of 2%. Red. on any int. date all or part on 30 days' notice, in inverse order of maturity at 105 and int.

Data From Letter of E. R. Fischer, General Manager of the Company.

Security.—Secured by a closed first mortgage on all the property of the company now owned or hereafter acquired, including all land owned in fee simple and the improvements thereon. The properties consist of land 80 x 500 feet with 3-story and basement fireproof concrete and steel building 80 x 240 feet completely equipped for warehousing and cold storage purposes with additional building to be erected 80 x 180 feet, all located in the City of Green Bay, Wis. The land and buildings owned and pledged under the mortgage have been appraised at $502,558.

Income.—Leases with responsible and substantial tenants including Armour & Co., packers; C. A. Straubel & Co., manufacturers and dealers in cheese; Wisconsin Cheese Producers Federation; Bingham & Risdon, dairy supplies; C. M. Berard & Co., produce; Cohodas Brothers, fruit packers; Great Atlantic & Pacific Tea Co., etc., call for an annual rental of $75,000 per annum. These leases, the more important of which extend to a term beyond the final maturity of these bonds, will be deposited with the trustee. Lease rentals are to be paid monthly directly to the trustee under a provision whereby the trustee will retain amounts sufficient to pay both interest and principal as due, and to provide a special sinking fund. Prompt payment of both interest and principal is therefore assured.

Special Sinking Fund.—Trustee will retain monthly for a special sinking fund rental moneys, in excess of principal and interest due in any one semi-annual period. On this basis the entire issue will be retired by maturity. The trustee, in his discretion, may invest surplus sinking fund moneys in bonds of this issue, to be held in sinking fund and not canceled, under provisions of the indenture.

Purpose.—Proceeds will provide funds for the retirement of existing bonds and defray, in part, cost of new addition.

Ohio Oil Co.—*To Acquire Forest Oil Co.*—

The Forest Oil Co. stockholders will vote June 2 on a proposition to sell their property to the Ohio Oil Co. for $1,200,000 in cash and $1,250,000 payable out of future production at the rate of 25% o fthe market price of oil at the time of production of the present operated leasehold and 25% of the market price of oil found produced from the unoperated leasehold. —V. 120, p. 1890.

(S) Oppenheimer & Co.—*Pref. Stock Sold.*—

Lehman Brothers and Heidelbach, Ickelheimer & Co. recently placed privately $750,000 8% Cumul. Pref. (A. & D.) stock. A circular issued by the bankers affords the following:

Red. at $110 and dividends at any time on 30 days' notice, in whole, or in amounts of 500 shares or more, or in part for sinking fund. Dividends payable Q.-F..

Capitalization (To Be Presently Authorized and Issued).

8% Cumul. Pref. stock (par $100)	$750,000
Common stock (no par value)	75,000 shs.

Company's business consists of processing and dealing in casings, which re used mainly in the preparation of sausages, and also in the manufacture cfligatures, tennis gut, musical instrument strings, etc. Company obtains its raw material in the chief markets of the world and prepares it for use by packing houses and other consumers. The finished product is sold by the company in all important foreign and domestic centers. Its products, being a necessity in the manufacture of one of the most important forms of prepared food, the business may be expected to reflect the constantly increasing and world-wide popularity of this class of foodstuffs.

Company.—Business was established in 1868 in New York and incorp. in Delaware under its present name in 1913. From its inception it has been successful, and has always occupied a commanding position in its field. Its expanding interests necessitated the creation of branches in Chicago, London, Hamburg, and Wellington, New Zealand. The London and Hamburg branches are operated as subsidiary companies.

Earnings Years Ended Dec. 31.
[S. Oppenheimer & Co. and Foreign Subsidiary Cos.]

	x*Net Profits.*	*Times Pref. Div. Req.*	*Amt. Applic. to Common.*
1920	$258,230	4.3	$2.64
1921	184,577	3.1	1.66
1922	256,029	4.3	2.61
1923	285,652	4.8	3.01
1924	285,888	4.8	3.01

x After deducting all expenses and charges, including salaries and also Federal taxes computed at present rates.

For the 3 months and 10 days ending April 10 1925, net profits, after providing for taxes, were $100,795. As the business is not seasonal in character, these earnings indicate that the profits for the present year will be appreciably in excess of those of last year.

Voting Trust.—Common stock to be presently outstanding will be represented by voting trust cretificates. Julius Oppenheimer, Adolph W. Kempner and Lawrence C. Stix, who have been executives of the company for many years, will be the voting trustees.

Balance Sheet, April 10 1925

[Giving effect as to that date to the recapitalization of the company, the inclusion of stock of subsidiary companies and the introduction of cash in liquidation of certain accounts.]

—V. 119, p. 2074.

Owens Bottle Co.—*Complaint Dismissed.*—

Proceedings against the Company have been dismissed by the Federal Trade Commission. The company is a manufacturer of glass bottles, and in addition to its home office at Toledo, O., has factories in Charleston, Clarksburg, and Fairmont, W. Va.; Glassboro, N. J. and Greenfield, Ind. The complaint charged the company with lessening competition in the glass bottle industry by acquiring share capital of competing concerns. The Commission found that there was no substantial lessening of competition. Commissioner Nugent and Thompson dissented.—V. 120, p. 2279.

Pacific Mail Steamship Co.—*Receives Offer from California Interests to Purchase 50% of Outstanding Stock.*—

California interests headed by Herbert Fleishhacker have offered to purchase the entire capital stock of the company at $10 50 a share, under certain conditions, and a special meeting of the company's stockholders will be held on June 10 to vote on the proposal. Of the 300,000 shares of capital stock of the company, 50%, or 150,000 shares, is owned by W. R. Grace & Co. The American International Corp. is the largest minority stockholder, with 92,794 shares.

Executives of the American International Corp. state that they had approved the offer. The company has also sent a letter to other minority stockholders recommending acceptance.

The question of liquidating the affairs of the company has been before the directors for some time. But according to the letter sent to stockholders by Gale H. Carter, Pres., and M. C. Brush, Chairman of the Board, the outstanding problems are "to find a means of winding up the company's affairs which will produce a present cash realization for stockholders, instead of a protracted liquidation with its inevitable losses and heavy expenses," and "to find, under existing shipping conditions, a purchaser for the company's vessels at satisfactory terms."

In view of these conditions, the letter states that the company considers it "particularly fortunate that the directors have been able to arrange, subject to the approval of stockholders, a plan which, in their opinion, solves both problems and gives the stockholders an immediate cash realization."

The plan to be submitted to stockholders consitsts of:

(1) An offer from a group of responsible California interests headed by Herbert Fleishhacker to purchase from stockholders up to 150,000 shares, being one half of the company's outstanding capital stock, for $10 50 cash per share, provided that the company buys from W. R. Grace & Co. the remaining 150,000 shares which they own or control, for $450,000 in cash and the vessels of the company except the tanker Solana, together with the good-will and certain miscellaneous properties appurtenant to the Inter-Coastal and San Francisco-Panama services; W. R. Grace & Co., at the same time, releasing the company from all liability upon its $1,000,000 of mortgage bonds now owned by them, and also assuming certain liabilities appurtenant to the vessels and services taken over by them.

(2) An offer from W. R. Grace & Co. to sell such 150,000 shares of stock to the company and accept in exchange therefor the cash and properties referred to above.

The letter further states that "the board of directors is thoroughly and unreservedly of the opinion that the plan outlined above is to the best interests of all the stockholders and heartily recommend its adoption and the approval of the steps necessary to bring about its consummation."—V. 120, p. 2157.

Packard Motor Car Co.—*Preferred Stock Called.*—

All of the outstanding Preferred stock has been called for payment Aug. 31 at 110 and dividends at the Union Trust Co., transfer agent, Detroit, Mich.

Preferred stockholders may present their holdings at any time after June 1 and receive 110 and interest to date of presentation.—V. 120, p. 2691.

Paige-Detroit Motor Car Co.—10% *Stock Dividend.*—

The directors have declared a 10% stock dividend on the Common stock, payable July 15 to holders of record June 30, and the regular quarterly dividends of 30 cents a share on the Common, payable July 1 to holders of record June 20, and 1¾% on the Preferred, payable July 1 to holders of record June 15. On April 1 last a 2½% stock dividend was paid on the Common stock.—V. 120, p. 2691, 2279.

Paramount International Rubber Co. of Canada, Ltd.—*Bonds Offered.*—

Williams, Partridge & Hodgson, Ltd., Montreal, are offering at 98 and interest to yield about 6.70% (carrying a bonus of 2 shares of Common stock, no par value, with each $1,000 bond) $250,000 6½% 1st Mtge. Sinking Fund Gold bonds.

Dated May 1 1925; due May 1 1945. Principal and interest guaranteed unconditionally by endorsement of the parent company, the Paramount International Rubber Co. of Del., U. S. A. Principal and interest (M. & N.) payable at Royal Bank of Canada, Montreal, or at the agency of the Royal Bank in N. Y. City. Red. all or part on any int. date on 60 days' notice on or before May 1 1930 at 107 and interest; thereafter up to and including May 1 1935 at 105 and interest; thereafter up to and including May 1 1940 at 102½ and interest, and after that date red. on any interest date at par and interest. Denom. $1,000, $500 and $100, c*. Montreal Trust Co., Montreal, trustee.

Capitalization—	*Authorized.*	*Issued.*
1st Mtge. 6½% S. F. Gold bonds (this is.)	$1,000,000	250,000

Company.—Was organized for the purpose of manufacturing in Canada all classes of moulded hollow rubber goods under the Canadian patents sold to them by the parent company, the Paramount International Rubber Co. of Del. Company will own all the Canadian patents and rights under the Paramount patents. The Canadian company will receive royalties from Canadian manufacturers now operating these patents under license agreements. It will have exclusive right in Canada to license and collect royalties from other Canadian manufacturers who may in the future wish to operate under the Paramount Patents. Company will manufacture for the Canadian market a considerable volume of goods now imported from the United States and other countries. They will also manufacture for export.

Business.—The Canadian company will manufacture all classes of moulded hollow rubber goods, and other lines similar to those manufactured under Paramount patents by the American company or their licensees.

Earnings.—With a gross business of $300,000, $60,000 would be a conservative estimate of the company's net earnings for the first year of operation. In addition to this there are contracts available for special business which, with royalties to be received, should produce additional net earnings of $25,000. This makes the total net revenue to the company for its first year's operation of $85,000 which is considered a conservative figure.

Park Hill Gardens Apartments (Yonkers, N. Y.).—

Announcement has been made by the American Bond & Mortgage Co. that definitive Gold Bond certificates of the $545,000 6½% offering of the company on Park Hill Gardens Apartments, South Broadway, Yonkers, are ready for distribution at the offices of the company, 345 Madison Ave., N. Y. City. See offering in V. 120, p. 2021.

Pierce Oil Corp.—*Exchange Ends July 1.*—

The time within which Preferred and Common stockholders are permitted to deposit Preferred stock accompanied by Common stock of Pierce Oil Corp. in the ratios of 1 share of Pref. Stock for every 8 shares of Common stock, and to receive in exchange for each such share of Pref. stock accompanied by 8 shares of Common stock of Pierce Oil Corp., 7.45 shares of Pierce Petroleum Corp stock (in the treasury of Pierce Oil Corp.) will expire on July 1 1925.

All deposits must be made on or before July 1 1925, with Guaranty Trust Co., Depositary, 140 Broadway, New York City.

In the event that an aggregate of less than 25,000 shares of Preferred stock accompanied by 200,000 shares of Common stock shall be so deposited, the plan of exchange will not become effective, and the deposited stock will be returned to the depositors.

In the event, however, that 25,000 shares (or more) of Preferred stock accompanied by 200,000 shares (or more) of Common stock shall be so deposited, 7.45 shares of Pierce Petroleum Corp. stock will be delivered to the depositors, in respect of each 1 share of Preferred stock accompanied by 8 shares of Common stock of Pierce Oil Corp. so deposited.

No Preferred stock can be deposited unless accompanied by 8 times as many shares of Common stock, and no Common stock can be deposited unless accompanied by one-eighth as many shares of Preferred stock.—V. 120, p. 2157, 2559.

Pittsburgh Steel Foundry Corp.—*Initial Dividend.*—

The directors have declared an initial quarterly dividend of 1¼% on the Preferred stock, payable July 1 to holders of record June 15. See also V. 120, p. 1100.

Price Brothers & Co., Ltd.—*Bonds Offered.*—

Harris, Forbes & Co. are offering at 101 and int., yielding about 5.90% $5,000,000 1st Mtge. 20-Yr. Sinking Fund Gold bonds Series A, 6%.

Dated Feb. 1 1923; due Feb. 1 1943. Callable on 60 days' notice, on any int. date, as a whole, or in part, at 107½ through Feb. 1 1923, and at ¾ of 1% less each year thereafter to maturity. Denom. c* $1,000 and $500 and

r*$1,000 and multiples thereof. Principal and int. (F. & A.) payable at the holder's option either in United States gold coin in New York, or in Canadian gold coin in Montreal, Quebec and Toronto, or in pounds sterling in London, Eng. at the fixed rate of exchange of $4 86 2-3. Montreal Trust Co., Montreal, trustee. Company agrees to pay interest without deduction for any present or future Canadian taxes, except income taxes upon residents of Canada, or for any United States income tax up to 2%.

Sinking Fund.—A cumulative sinking fund is provided by the trust deed for the purchase and cancellation of the 1st Mtge. 20-Yr. Sinking Fund 6% Gold bonds, beginning in 1926, of an amount in each year equal to 15% of the net earnings of the company, as defined in the trust deed, for the preceding year, but in any year the amount so provided shall not be less than 2% of the total amount of bonds issued.

Data From Letter of John H. Price, President of the Company.

Company.—Is one of the largest manufacturers of newsprint paper and groundwood pulp in Canada. Owns and controls in its own right or through its subsidiary, valuable leases of pulpwood timber limits which, together with timber limits owned in fee aggregating about 200 sq. miles, total about 8,600 sq. miles, located for the most part on watersheds tributary to its principal plants on the Saguenay and St. Lawrence Rivers.

The present company with its subsidiary is the outgrowth of a business begun in 1817 and since that time continuously controlled and operated by the Price family, and in addition to newsprint and groundwood pulp it is a large producer of cardboard and paper specialties, sulphite pulp (news grade), lumber, shingles, laths and railroad cross ties.

The properties of the company and its subsidiary include 2 paper mills, a ground-wood pulp mill, 9 saw mills, and water power development with an aggregate installed capacity of about 62,150 h.p. Company's timber holdings were reliably estimated to contain on Nov. 1 1920, pulp-wood sufficient to produce 31,000,000 tons of newsprint paper, or a supply for the operation of the company's mills for a period of 120 years, making no allowance for the benefits of reforestation. Taking into account the benefits of reforestation, the supply of raw material for the Company is estimated to be practically inexhaustible.

Capitalization—	*Authorized.*	*Outstanding.*
Common stock	$50,000,000	$42,683,200
Preferred stock (6½% cumul.)	10,000,000	7,000,000
1st Mtge. 20-Yr. Sinking Fund Gold bonds, due Feb. 1 1943 (including this issue)	$25,000,000	$15,000,000

Earnings.—Net earnings of the company and its subsidiary, after taxes, and liberal charges for maintenance and repairs, etc., for the year ended Feb. 28 1925 were over 3.4 times the annual interest charge of $900,000 on its presently to be outstanding funded debt of $15,000,000 1st Mtge. Series A 6% bonds, and for the 8 fiscal years ended Feb. 28, 1925 not including the abnormally profitable year ended Feb. 28 1921, have averaged over $2,800,000 per annum or about 3.1 times such interest. Charges for maintenance and repairs have averaged over $600,000 per year for the past seven years.

Purpose.—To reimburse the company for expenditures made and to be made on its new 200 ton per day newsprint mill now under construction at Riverbend, Que., which it is expected will be in operation Dec. 1 1925.

Balance Sheet Feb. 28 1925 (*After Present Financing*).

Data from Letter of H. T. Dyett, President of Company.

Company.—Incorp. in 1905 in New York. It is one of the largest manufacturers in the United States devoted exclusively to the manufacture of copper rods, copper wire and insulated electrical wires and cables. Operates plants at Rome and Buffalo, N. Y., having a land area of 69.4 acres and a floor area of approximately 20 acres. Company purchases its products in the form of copper wire bars which it rolls into rods and manufactures into many forms of wire, including trolley wire, power transmission cable, weatherproof wire, magnet wire, rubber covered code wire, automobile wire, mining machine cables and other specialties. The average value of shipments in the past three years has exceeded $13,800,000 per annum.

Earnings.—Company has shown a net profit before interest charges but after depreciation and all expenses in each year since its incorporation. Average annual net profits available for interest, after deducting all expenses, depreciation, &c., were as follows:

	9 *Yrs. End. Dec.* 31'24.	3 *Yrs. End. Dec.* 31'24.
Average annual net profits available for interest	$876,142	$1,331,031
Times interest this issue earned	4.8	7.3

Purpose.—Proceeds will provide funds for the retirement of $2,409,000 of 3-Year notes called for payment July 1 (see below) and will also provide additional working capital.

Sinking Fund.—Sinking fund, payable semi-annually beginning Dec. 1 1925, for purchase and retirement of debentures at not to exceed 102½ and interest.

[All of the outstanding 3-Year 6% S. F. Gold notes, dated May 1 1923, have been called for payment July 1 at 101 and int. at the offices of Lee, Higginson & Co., paying agent, 43 Exchange Place, N. Y. City, 44 State St., Boston, Mass., or 209 So. LaSalle St., Chicago, Ill.]—V. 119, p. 1635.

Real Silk Hosiery Mills, Inc.—*Earns.*—

The company reports earnings for the 6 months ended Mar. 31 1925, after all charges but before taxes, of $1,173,827. This compares with net income before reserves and Federal taxes for the 6 months ended Mar. 31 1924 of $704,583.

Comparative Balance Sheet.

Rio Tinto Co., Ltd.—*Chairman of the Board.*—

Sir Auckland Geddes has been elected Chairman of the Board.—V. 120, p. 1597.

Royal Dutch (Petroleum) Co.—*Final Dividend.*—

The directors have declared a final dividend for 1924 of 13% on the Ordinary shares, making a total for 1924 of 23%, as compared with 25% in 1923.—V. 119, p. 821.

Shell Transport & Transport Co.—*Dividend.*—

The Equitable Trust Co. of New York has received information from its London Office that the "Shell" Transport & Trading Co., Ltd., has announced a dividend of 2s. 6d. per British Ordinary share, payable in London on July 6 1925. This is equivalent to 5s. per "American share." Further notice of the rate and date of payment of the dividend in New York will be given out by The Equitable Trust Co. of New York at a later date.—V. 120, p. 218.

Sinclair Consolidated Oil Corp.—*Appeal Lost in Soviet High Court.*—

A special cable from Moscow to the New York "Times," May 22, says:

The Supreme Court has rejected the appeal of the Sinclair Co. against the decision of the Moscow District Court annulling the Sakhalian concession. The Sinclair Co. claimed in the appeal that the decision of the District Court was made in violation of the Soviet law and the terms of the agreement, and being wrong could not remain in force. It, therefore, asked that the decision of the Court should either be reversed or a declaration made that as the action was not brought by the proper plaintiff it should be stopped altogether.

The arguments in the appeal were based on the points upon which Judge Volfson gave judgment in favor of the Government, which the appellant regards as wrongfully applied to the provisions of the contract.

The Sinclair counsel, Professor Vorms, dealt at great length with the articles of the contract, declaring they were misinterpreted by the District Judge and that the company was neither obliged to begin work during the first year nor to undertake to carry on exploration despire the Japa ese occupation, which must be regarded as an "insurmountable obstacle" as provided in the agreement. It was alleged that the company was entitled to an extension of the period for carrying out the terms of the contract.—V. 120, p. 2692.

Southern Cotton Oil Co. of La., Inc.—*Organized.*—

The organization of the above company with a paid-up capital of $13,500,000 (in Preferred and Common shares of no par value) to take over the properties of the Southern Oil Co. of New Jersey and the Southport Mills, Ltd., of New Orleans, was announced May 20 by A. D. Geoghegan, Pres. of the new company.

The properties of the Southern Cotton Oil Co. recently were acquired by a New Orleans syndicate from the receivers of the Virginia Carolina Chemical Co. While the ownership of the properties will be combined with that of the Southport Mills in the hands of the new organization, the two subsidiaries will be operated separately according to Mr. Geoghegan.

Officers of the new company, in addition to Mr. Geoghegan, are A. Q. Peterson, T. A. Asbury and C. D. Jordan, V.-Presidents; H. P. Rawley, Sec.; F. L. Palmer, Treas.

Directors are A. D. Geoghegan, A. Q. Peterson, R. S. Hecht, James P. Butler, Jr., L. M. Pool, John E. Bouden, Jr., A. B. Freeman, W. Irving Moss, William P. Stewart and Fred W. Evans.

Southern Cotton Oil Co. (N. J.).—*Successor Company.*—

See Southern Cotton Oil Co. of La., Inc., above.—V. 120, p. 969.

Standard Oil Co., Ind.—*Governm't Scores in Patent Suit.*

By a ruling of the U. S. Circuit Court of Appeals at Chicago May 21 the Government won a victory in its fight against 51 oil companies, including the Standard Oil Co. (Ind.), the Standard Oil Co. (N. J.) and Standard Development Co., Texas Co. on charges of violation of the Sherman Anti-Trust law.

Circuit Court Judges Evans, Page and Anderson decreed that objections by attorneys for the oil companies on introduction of contracts made among the 51 defendants should be overruled.

The contracts covering the "oil cracking" process employed by the various corporations are considered a crucial point in the Government's case.

Charles Martindale, Special Master in Chancery, appointed by District Judge Wilkerson to take the testimony in the case, referred the objections to the Circuit Court.

The decision of Federal Judges Anderson, Page and Evans at Chicago, over-ruling the objections of defendants in the petroleum cracking patents case, to interrogatories by the Government, eliminates the first legal barrier to Federal action according to officials of the Department of Justice who regard the decision as far reaching in that it permits the Government for the first time to present evidence in an effort to prove the patents invalid. (The names of the companies concerned are given in "Chronicle" of June 28 1924, p. 3161.)—V. 120, p. 2561, 1758.

Standard Textile Products Co.—*Earns.*—

The company reports for the quarter ended March 31 1925, profit after charges of $219,000.—V. 120, p. 2692.

Stern Bros., N. Y.—*Initial Div. on Class "A" Shares.*—

The directors have declared an initial dividend of $1 per share on the Class "A" shares, payable July 1 to holders of record June 20. The recapitalization plan was recently approved by the stockholders.

The New York Stock Exchange has stricken from the list the company's 8% Preferred stock. See also V. 120, p. 2281.

Stromberg Carburetor Co. of America, Inc.—*Earnings.*

Quarter Ended March 31—	1925.	1924.	1923.
Earnings	$365,955	$357,135	$433,867

Studebaker Corp.—*Anticipates Bank Loans Due July 1.*—

The corporation, it is reported, has anticipated payment of all outstanding bank loans due July 1. See also V. 120, p. 2262, 1893.

Sun Oil Co.—*Stock Sold.*—Dominick & Dominick, Eastman, Dillon & Co., Edward B. Smith & Co. and Chas. D. Barney & Co. have sold at $36 50 per share 158,000 shares Common stock (no par value).

Registrar, Bankers Trust Co., New York. Transfer agent, Mechanics & Metals National Bank, New York.

Capitalization Outstanding After Giving Effect to This Financing and Change to No Par Value Stock.

15-Year 5½% Sinking Fund Debentures, due Sept. 1 1939	$9,866,500
6% Equipment Trust certificates	297,000
Common stock, no par value (auth. 1,250,000 shs.)	about 1,057,159 shs.

There are also $36,613 of bonds of the Peninsular State Oil Co., a subsidiary company.

In addition to the above there are 10,548 shares set aside and on deposit for distribution among certain employees of the company from time to time pursuant to an established bonus system.

Data from Letter of President J. Howard Pew, Philadelphia, May 27.

Change of Stock to No Par Value.—The stockholders will vote shortly on authorizing an amendment to the certificate of incorporation changing the present capitalization from $29,971,950, par $100, to an authorized amount of 1,250,000 shares of no par value, of which 899,159 shares will be issued in substitution for the present outstanding stock and approximately 158,000 shares will be issued for the purposes mentioned below.

Company.—Incorp. in New Jersey in 1901 as the Sun Co., continuing a business established in 1886. Company's operations include production, transportation, refining and distributing of petroleum and petroleum products, particularly lubricating oils, of which it is one of the largest distributors, not only in this country but abroad. As its production and its refining capacities are substantially equal, and as its own distributing organization is equipped to handle the entire output of its refineries, the company is a complete unit in the petroleum industry.

Purpose.—Proceeds will be used to retire $4,000,000 2-Year 6% Gold notes due June 15 1925 and to provide additional capital for other corporate purposes.

Earnings.—For the 10 years ended Dec. 31 1924, net earnings, after depreciation, depletion, bond interest and taxes, have averaged over $3,327,761, or approximately $3 14 per share of Common stock to be outstanding upon completion of this financing. Notwithstanding the bad conditions in the oil industry which prevailed in 1924, the net earnings of the company in that year after depreciation, depletion, bond interest and

taxes amounted to $2,106,625. For the first four months of 1925 such net earnings amounted to $1,512,569, which is at the annual rate of approximately $4 30 per share. These figures do not give effect to the retirement of $4,000,000 notes out of the proceeds of this financing, which will result in a saving in interest charges of $240,000 a year.

Properties and Production.—The properties of the company include approximately 23,500 acres of producing oil lands in the States of Oklahoma, Kansas, Texas, Ohio, Louisiana and Arkansas, from which the company is obtaining at the present time a developed production of over 20,000 barrels per day, of which between 10,000 and 12,000 barrels per day are well settled. Company also leases over 800,000 acres of undeveloped lands in Oklahoma, Arkansas, Kansas, Texas, Ohio, Louisiana, Colorado, New Mexico and California.

The company owns the Preferred stock and 50% of the Common stock of the Beacon Sun Co., which company owns concessions on more than 2,000,000 acres in the Maracaibo Basin in Venezuela.

The company has 3 well equipped refineries. The largest refinery, at Marcus Hook, Pa., is situated on a 228-acre tract of land on the Delaware River below Philadelphia. It has a daily refining capacity of over 20,000 barrels of crude oil. Its plant has 77 stills and all other equipment necessary for the production of the finer grades of lubricating oil. The crude oil refined at this plant is brought from Texas by the company's own boats. Lubricating oils, fuel oils, motor oil, gasoline and other refined products are distributed in this country through its own organization and in Europe through affiliated organizations. Company also has a refinery at Toledo, Ohio, with a capacity of 3,000 barrels per day and through a subsidiary also owns a refinery at Yale, Okla., which has a capacity of 2,000 barrels per day. In connection with these refineries, the company has storage facilities in excess of 1,000,000 barrels, pipe lines, railroads and other necessary equipment.

The company also owns in addition to pipe line facilities in connection with its refineries and gathering lines, 250 miles of trunk pipe lines. Its railroad transportation equipment includes 916 tank cars. In connection with its pipe lines, the company has a storage capacity of over 4,000,000 barrels. Company also owns and operates 10 tank steamers aggregating 100,000 tons d. w. capacity, and operates 3 steamers of 33,000 d. w. tons which are owned by Sun Shipbuilding & Drydock Co.

The company's distribution system includes distributing stations and filling stations located in most of the larger Eastern and Middle Western cities. Through a subsidiary, the Peninsular State Oil Co., the company does a large business in all the important cities of Florida. Distribution of its products in Europe is done through several of the best equipped distributing companies in France, Italy, Belgium, England, Germany and Holland, in all of which the company owns a substantial interest.

Company also owns all the stock of the Sun Co. of Canada, Ltd., through which its products are marketed in Canada.

Subsidiary Companies.—The companies of which the Sun Oil Co. controls the entire capital stock include: Sun Co. of Delaware, which owns the oil refinery at Yale, Okla., Twin State Oil Co., which is the producing company in Oklahoma; Delaware River & Union Rlt., which operates in connection with the refinery at Marcus Hook; Sun Oil Line Co., and Sun Pipe Line Co., which operate pipe lines in Ohio and Texas; the Hardwood Package Co., at Marcus Hook, Pa., which manufactures cooperage for the use of Sun Oil Co. and for other trade. Sun Oil Co. also owns 80% of the stock of Sun Shipbuilding & Drydock Co., which operates a shipbuildnig, repair and drydock plant at Chester, Pa.

Dividends.—It has been the policy of the company to declare and pay its dividends in cash and stock. As an example of how this policy has worked out in the past, a stockholder who held 150 shares of stock in 1912 held 1,152 shares of the same par value in 1922. It is the intention of the company to continue this policy and as the earnings of the company justify to declare stock dividends from time to time and to inaugurate now cash dividends at the annual rate of $1 per share, payable quarterly commencing Sept. 15 1925.

Listing.—It is expected that application will be made in due course to list these shares on the New York Stock Exchange.

Consolidated Balance Sheet April 30 1925 (After New Financing).

Charles H. Butler with the Nat'l Biscuit Co. from its inception, as General Manager of Western Special Sales and Distribution Forces, and manager of several of the company's important manufacturing plants including the large candy factory at St. Joseph, Mo., has accepted the appointment as General Manager of the Sweets Co. of America, Inc.—V. 120, p. 2023, 1340.

Thompson-Starrett Co., N. Y.—*Dividend of $6.*—

The company has declared a dividend of $6 a share on the Common stock payable July 1 to holders of record June 20. A similar dividend was paid on the stock on July 1 1924, while distributions of $4 per share were made on July 2 1923 and July 1 1922.—V. 118, p. 2714.

Tidal Osage Oil Co.—*To Redeem Bonds.*—

The company announces that on Aug. 1 it will redeem, at 103½ and int., $250,000 10-Year 7% Guaranteed Sinking Fund Gold bonds, due 1931. Payment of these bonds will be made at the First National Bank of New York.—V. 120, p. 2561.

Timken-Detroit Realty Co.—*Bonds Called.*—

The company will on June 15 redeem $53,300 of its outstanding temporary 1st Mtge. 6% Serial Gold bonds, due Dec. 15 1928, and all of its outstanding bonds, due from 1929 to 1934, incl., amounting to $815,000. Payment will be made at par and int., together with a premium of ½ of 1% for each year or fraction thereof remaining between the date of redemption and date of maturity, at the Continental & Commercial Trust & Savings Bank, Chicago, Ill.—See V. 120, p. 95.

Todd Shipyards Corp., N. Y.—*Dividend Decreased.*—

The directors on May 28 declared a quarterly dividend of $1 per share on the authorized and issued 232,000 shares of capital stock, no par value, payable June 20 to holders of record June 2. This compares with quarterly dividends of $1 50 per share paid from Sept. 1923 to Mar. 1925 incl.

George J. Robinson, President of the Robbins Dry Dock & Repair Co., a subsidiary, has retired from active duty. Mr. Robinson will, however, remain a director of Todd Shipyards Corp.—V. 119, p. 1075.

Tonopah Extension Mining Co.—*Earnings.*—

—V. 118, p. 2584.

Troy Foundry Co., Inc.—*Receivership.*—

Federal Judge Cooper has appointed Clarence Stewart of Amsterdam, receiver for the company pending settlement of litigation in which the company has been involved for several years. Foreclosure proceedings on a $300,000 mortgage have been brought by the American Trust Co., Boston.

The company recently announced that it had closed its plant. In a letter to stockholders company said:

Our failure to obtain sufficient funds to rehabilitate the West Works and to furnish operating capital, together with low prices prevailing in the trade and the generally unsatisfactory condition of business, have necessitated closing down the plant.

The bond interest of $12,000 which became due on Feb. 1 remains unpaid and the company is in default under the terms of the mortgage. Our current assets should about take care of the outstanding obligations, excepting the interest on the bonds.—V. 119, p. 1407.

United Drug Co., Boston.—*Sales Increase.*—

Sales for April totaled $6,300,000 as compared with $5,800,000 April a year ago. This represents a gain of $500,000, or 8.62%. For the 4 months ended April 30 1925 sales were $24,573,000, as compared with $22,803,000 for the corresponding period a year ago, or an increase of 7.75%.—V. 120, p. 2414, 2281.

United Electric Coal Co.—*To Call Bonds—New Financing.*

The company will give notice June 1 that it will pay off at 110 and int. the outstanding $1,700,000 1st Mtge. 7% Gold bonds, due 1933, presented for redemption on July 1.

The bonds will be called because the company has some financing to do and it will be necessary to create a larger mortgage, the present mortgage being limited to $3,000,000. The new mortgage will be for $6,000,000, of which $3,000,000 7% bonds will be issued at once. The proceeds plus money in hand will be used to retire present bonds, liquidate current debts, acquire additional properties in Indiana at a cost of $2,000,000 and for other corporate purposes.—V. 115, p. 2805.

United Oil Co.—*Earnings.*—

Period—	*Month of Mar. 1925.*	*Month of Feb. 1925.*	*3 Mos. Mar. 31 '25.*
Total revenue	$232,998	$188,077	$577,735
Miscellaneous charges	29,570	33,971	103,385
Net profit	$203,428	$154,106	$474,351

—V. 120, p. 2562, 596.

United Profit Sharing Corp.—*To Recapitalize.*—

The stockholders will vote June 29 on changing the authorized Common stock from 500,000 shares, par $1, to 250,000 shares of no par value. It is proposed to issue one new share of no par stock in exchange for every two shares of Common stock, par $1. The total amount of Common now outstanding amounts to $409,538, par $1. The small amount of 25c. par value shares still outstanding will be exchanged on the basis of one new share for each 8 shares outstanding.—V. 120, p. 969.

Van Camp Sea Food Co.—*To Reorganize.*—

Preliminary steps for the reorganization of the company, maintaining plants in San Pedro, Long Beach and San Diego, Calif., were initiated May 13 in Sacramento with the filing of articles of incorporation of the Van Camp Sea Food Corp. with Secretary of State Jordan for an authorized capitalization of $2,000,000. The new company will take over the assets of the old organization.

Officials of the company include S. W. Burford, Pres.; H. E. Nicholas, V.-P. and C. D. Sloan, Sec.-Treas. Directors include Kenneth A. Carey, Edward W. Brower, Jr., W. John Schumacher, Lester O. Luce, Lou Fritch, Harold C. Carr, Edwin A. Barnes, James M. Campbell and Charles B. Hall, all of Los Angeles.—V. 119, p. 1408.

Vivaudou, Inc.—*Listing.*—

The New York Stock Exchange has authorized the listing of $3,000,000 Common stock (par $10) on official notice of issuance, share for share, in exchange for 300,000 shares of present outstanding Common stock without par value, with authority to add $490,000 Common stock (par $10) on official notice of issuance and payment in full pursuant to offering to stockholders, making a total amount applied for $3,490,000 Common stock.

Holders of Common stock of record May 21 were given the right to subscribe at $13 per share to 40,000 shares of stock (par $10) in the ratio of two shares of new stock for each 15 shares held. Rights expire June 5.—V. 120, p. 2694, 2282.

Waitt & Bond, Inc.—*To Redeem Bonds & Reincorp. in N. J.*

On July 1 1925 the corporation will redeem all of the outstanding 15-Yr. 7% Sinking Fund Gold Debenture bonds dated July 1 1923 at par and int. at the First Nat'l Bank, trustee, 67 Milk St., Boston, Mass.

The holders of the bonds may, until the close of business June 25 1925, without charge or expense, through the trustee, exchange their Debentures for an equal principal amount of like obligations of the successor corporation which, after July 1 1925 is to maintain the organization and conduct the business of the company under the laws of New Jersey. The successor corporation will be substantially the same as regards capitalization, assets and liabilities as the present Massachusetts company. Debenture holders who exchange will receive cash for their accrued interest to July 1 1925.—V. 118, p. 1786.

PUBLISHED AS ADVERTISEMENTS

THE NEW YORK CENTRAL RAILROAD COMPANY

REPORT OF THE BOARD OF DIRECTORS TO THE STOCKHOLDERS—FOR THE YEAR ENDED DEC. 31 1924.

To the Stockholders of
The New York Central Railroad Company:

The Board of Directors herewith submits its report for the year ended December 31 1924, with statements showing the income account and the financial condition of the company.

THE YEAR'S BUSINESS.

During 1924 the company moved 105,351,776 tons of revenue freight and carried 69,117,706 revenue passengers. In the transportation of its tonnage, terminals were generally free of congestion and traffic was handled expeditiously. Compared with 1923 there was a decrease of 27,224,344 in tons carried. A large part of this decrease in tonnage was in bituminous coal originating on the company's lines, unsettled economic conditions affecting union mines in the fields served by the company having resulted in a heavy falling off in output. Depression in the iron and steel industry was reflected in decreased tonnage of ore, finished metal products and other related commodities. Lake ore received by the company at Ashtabula greatly decreased. There was also a heavy falling off in the tonnage of automobiles and accessories due to lessened activity in that industry.

There was a decrease in passengers carried of 1,480,709. This was principally in local pasengers other than commutation and is accounted for in large measure by the growth of automobile and motor bus competition. The commutation business showed a substantial increase.

INCOME ACCOUNT FOR THE YEAR.

Including Boston and Albany Railroad and the Ohio Central Lines.

	Year ended Dec. 31 1924. 6,920.19 miles operated.	*Year ended Dec. 31 1923. 6,889.56 miles operated.*	*Increase (+) or Decrease (—). +30.63 miles.*

CAPITAL STOCK.

The capital stock in the hands of the public on December 31 1923 was		$268,323,375
On January 3 1924 the company offered to its stockholders the right to subscribe for additional stock of the company at par to the extent of ten per cent of the par value of their several holdings of record of the company's stock at the close of business on January 2 1924. Under this offer par value of stock was issued amounting to	$24,902,460	
The company issued 116,110 shares, at 105, in exchange for $11,611,000 of its 20-year 6 per cent convertible debentures of 1915, together with $580,250 in cash and $300 par value of the convertible debentures received in payment of the 5 per cent premium	11,611,000	
		36,513,460
Capital stock in the hands of the public on December 31 1924		$304,836,835

READING RIGHTS.

The company offered to its stockholders of record at the close of business on February 1 1924 the right to purchase on or before May 1 1924 so-called "Reading rights" at $3 per right to the extent of one right for each five shares of stock held. Such rights, to the number of 603,650, were received by this company as a stockholder of the Reading Company. Each two of the rights entitle the holder to subscribe for a Certificate of Interest in one share of the stock of Philadelphia Coal and Iron Company at $4 per share. A detailed description of these rights was given in the annual report for 1923. Under the terms of the offer 557,778 of these rights were sold by the company to its stockholders or their assigns, for which the company received $1,673,334. During the year the company sold the remaining 45,872 rights on the market, realizing $934,543 48 net.

CONSOLIDATION OF RAILWAYS.

In the report for 1923 attention was called to the pendency of the proceeding before the Interstate Commerce Commission for the consolidation of the railways of the continental United States into a limited number of systems, and reference was made to the manner in which such proceeding might affect the interest of the New York Central Lines. It was stated that the taking of testimony by the Commission was concluded in December 1923.

The case was argued and submitted in January 1924. No report has yet been made by the Commission. However, the subject of the grouping of the railroads has continued to receive the consideration of the Commission and of railroad managements.

Among those called upon to deal with the subject there is a growing appreciation of the difficulty of making, in advance of any consolidations, final plans for the allocation of all the railways of the country, and there are those who advocate an amendment of the law which will permit the Commission to approve specific consolidations in harmony with the general purposes of the law in advance of the promulgation of all-inclusive plans.

OPENING OF NORTH-BOUND DRIVEWAY AROUND EASTERLY SIDE OF GRAND CENTRAL TERMINAL.

The statement in regard to this matter in the 1923 report ended with the following:

"The plans and profiles and the form of agreements between the city and the company for the doing of the work by the latter have been substantially agreed upon with the Borough President and are ready for action by the Railroad Boards and by the Board of Estimate and Apportionment."

The plans and profiles and the proposed agreements have been approved by the Railroad Boards and executed by the proper officers and on or about the 11th day of April 1924 they were approved by the Board of Estimate and Apportionment and were signed by the Mayor but have not as yet been signed by the City Comptroller.

WEST SIDE IMPROVEMENTS, NEW YORK CITY.

The 1923 report contained the statement that the company had applied to the Public Service Commission asking it to take action under the Act of the Legislature of the State of New York passed in 1923 making it unlawful for any railroad operating within the limits of Greater New York to operate after January 1 1926 within the limits of the city with any motive power except electricity. The Legislature at its session in 1924 passed an Act amending the Act of 1923 by including, in effect, the cities of Yonkers and Mount Vernon as cities adjoining New York. That part of the Putnam Division within the city of Yonkers is therefore covered by this Act. Supplemental petition covering that road for the action of the Public Service Commission has been presented to the Commission.

At the 1925 session of the Legislature a bill, introduced at the instance of the railroad companies concerned, amending the foregoing Acts and extending the time until the first day of January 1929 was passed by both Houses of the Legislature but was vetoed by the Governor.

On the company's application to the Transit Commission for the elimination of grade crossings within its jurisdiction the Commission has taken action by making an order for the

elimination of grade crossings at or near Manhattanville and also at Dyckman Street. This order, however, is not effective unless or until the Legislature shall make the necessary appropriation for the State's share of the expense.

CONTRACT WITH AMERICAN RAILWAY EXPRESS COMPANY.

Under the terms of the uniform express contract, effective September 1 1920, made between the American Railway Express Company and the several railroads of the United States, to which this company was a party, any railroad company was given the right to terminate such contract, as applicable to its lines, on February 28 1923 by giving written notice of termination upon any date prior to September 30 1922. Early in 1922 it had become apparent that under the terms of such uniform contract, the carriers, particularly those classified in the contract as belonging to the Eastern group, were receiving a share in the proceeds derived from express transportation which was obviously inadequate to compensate them for services rendered. The railroad companies organized committees to consider the situation thus developed. They had the alternative either to terminate the existing contract on February 28 1923 under a provision which would require each railroad company to purchase at cost less depreciation the express company's property located on its lines and employed in the express business, or to waive notice of termination and to continue under the uniform contract until December 31 1925, the date of its termination, subject to four months' notice. In such situation conferences with the express company representatives brought about a voluntary amendment to the uniform contract which was to become effective March 1 1923 and to continue in force until February 29 1928, but subject to termination on August 31 1925 upon written notice given to the express company prior to March 1 1925, subject again to the proviso contained in the original contract that in such latter instance the railroad company should purchase all express company property. The amended contract made a fractional increase in the share of the carriers to be received from express company earnings, leaving the situation much as it was before. With the exception of this company and its allied and controlled companies, all of the railroad companies, parties to the express contract, eventually accepted the amended form of contract. This company remained out of the amended contract for the purpose of reserving its independence of action on and after December 31 1925, the date of termination of the original uniform contract. Later on, however, and after further study of results under the amended contract, it was deemed wise to reconsider the question, and an understanding was reached with the express company that this company, upon executing the amended contract, would receive the cumulative benefits of the same from its effective date, March 1 1923. On February 13 1924 action was taken by the Directors of this company authorizing the execution of the amended uniform contract, which was accordingly done.

IMPROVEMENTS AND ECONOMIES.

Improvements are being made in the company's plant and in methods of operation in order to provide additional capacity to meet increased requirements and to reduce the cost per unit of service rendered. Efforts toward economy in operation have been particularly necessary since the return of the railroads to their owners following the Federal control period because railroad operations must be carried on in the face of labor and material costs which have increased relatively more than revenues have increased from rate advances. While revenues due to rate changes are now approximately 57% higher than they were ten years ago, the items entering into the cost of operation including taxes are approximately 81% higher.

The amount of service rendered the public in 1924 was not as great as in the year previous, due to a falling off in business activity, but, as the result of economies, the cost per unit of traffic handled was less, and the amount of income available for capital per unit of service performed was greater in 1924 than in 1923. Continuance of expenditures to provide added capacity and to produce economy is necessary if the company is to earn a satisfactory return for its security owners. The ability to make such expenditures will depend on the preservation of a rate level that will provide a surplus sufficiently large to maintain credit and attract investors. Any reduction in rates which would not permit this would react to the detriment of the public because of the consequent impairment of the ability of the company to provide the facilities needed for increased and high class service.

In addition to the major improvement known as the Hudson River Connecting Railroad "Castleton Cut-Off" heretofore referred to, there are listed on pages 17 to 19 [pamphlet report] important improvements to fixed property either completed or under way during the year or contemplated for the near future.

At a meeting of the Board of Directors held on April 9 1924 the By-Laws of the company were amended so as to enlarge and define the powers of the Finance Committee. That committee has direction and control of the financial affairs and investments of the company and, when the Board of Directors is not in session, it has all the powers of the Board to manage and direct the business and affairs of the company, in all cases in which specific directions shall not have been given by the Board. The Finance Committee is empowered to select its own chairman and at its meeting of April 9 1924 appointed Albert H. Harris to that office.

Appreciative acknowledgment is made to officers and employees of their loyal and efficient co-operation and service.

For the Board of Directors,

PATRICK E. CROWLEY, *President.*

Wells Fargo & Co.—*Earnings.*—

Weston Electrical Instrument Corp.—*Bonds Ready.*—

Permanent 15-Year 6% Sinking Fund Gold Debentures are now ready to be issued in exchange for outstanding temporary certificates at the National Bank of Commerce.

The company reports for the quarter ended March 31 1925, net profit of $165,064 after Federal taxes.—V. 120, p. 1352, 597.

White Eagle Oil & Refining Co.—*Listing*—30,000 *Shares Additional Stock Sold.*—

The New York Stock Exchange has authorized the listing of 30,000 additional shares of capital stock without par value (authorized 640,000 shares), on official notice of issuance and payment in full, making the total amount applied for 490,000 shares capital stock.

By resolution of the directors, dated May 1 1925, 30,000 shares of the capital stock were authorized to be issued for cash at $26 50 per share. By-laws provide that stock does not have to be first offered to stockholders. The additional 30,000 shares of capital stock to be issued shall be entitled to participate in all dividends payable on capital stock of record May 1 1925.

The above stock has all been sold and the proceeds, amounting to $795,000, received from the sale of the 30,000 shares of the stock have been turned into the treasury for working capital.—V. 120, p. 2160.

Willamette Iron & Steel Works, Portland, Ore.—

Certain Gold notes, dated Dec. 15 1923, aggregating $50,000, have been called for payment June 15 at 100¾ and int. at the United States National Bank, Portland, Ore.—V. 118, p. 679.

Willys-Overland Co.—*New Secretary.*—

Alfred B. Qualy, who has been Secretary to John N. Willys, President of the corp., has been elected Secretary of the company.—V. 120, p. 2160.

(Walter A.) Wood Mowing & Reaping Machine Co.—

John T. Norton, Special Master, will sell at public auction at the County Court House of Rensselaer County, N. Y., on June 9 the entire property of the company. A description of the property to be sold is given in the New York "Evening Post" April 28, p. 27.—V. 119, p. 1967.

CURRENT NOTICES.

—Rutter & Co., 14 Wall St., New York are distributing a six page circular entitled "Co-operation" dealing with the successful application of co-operative methods in Imperial Valley, California. Among the more important topics selected for consideration are the following: property values and production, co-operative organizations, geographical position and the many advantages already obtained, or to be in the future derived, from the utilization of the Colorado River for irrigation and hydro-electric purposes.

—Orvis Brothers & Co. have ready for distribution the 1925 edition of their cotton statistics card. This compilation carries in a compact manner the vital cotton statistics on the condition of the crop and ginning reports over a period of 10 years, and provides spaces for keeping the card up to date during the current year, as new reports are issued.

—Parker, Robinson & Co., 120 Broadway, New York, are distributing a booklet giving investment facts and other information about the North American Company. The text is illustrated with many maps, charts and photographic reproductions of plants and equipment which greatly enhance the interest and attractiveness of the booklet.

—Samuel K. Phillips & Co., members Philadelphia Stock Exchange, Philadelphia, announce the removal of their offices from 507 Chestnut Street to The Packard Building, Fifteenth and Chestnut streets. Their new telephone number is Rittenhouse 1700 to 1706. The New York number remains Rector 4046 as heretofore.

—The firm of Bainbridge & Ryan, 100 Broadway, New York, organized in 1920 announce that effective June 1 they become members of the New York Stock Exchange through the admission of Perry B. Strassburger, a member of the exchange as a general partner.

—Albert M. Norton, formerly associated with Cahn, McCabe & Company, of Los Angeles, California, has organized the Norton Securities Company to deal in mortgage loans and investment bonds. Their office is in the Financial Center Building, Los Angeles.

—Lyman D. Smith & Co., members New York Stock Exchange, 44 Pine street, New York, announce the removal of their uptown office, from 527 Fifth avenue to 522 Fifth avenue, effective June 1 1925. Albert J. Simmons is manager of this branch.

—The Chatham Phenix National Bank & Trust Co. has been appointed substituted trustee under mortgage dated March 14, 1924, executed by the Wilbur Fuel Co. to the General Finance Corporation.

—After having occupied the street floor of the Mills Building on Broad street for nearly half a century, Henry Clews & Co. have removed their head offices to 7, 9 and 11 Broadway.

—Abraham & Co. announce the removal of their offices to 120 Broadway New York.

Guaranty Trust Co. of New York has been appointed transfer agent for the capital stock of the H. F. Wilcox Oil & Gas Co. of Tulsa, Okla.

COMMERCIAL EPITOME.

The introductory remarks formerly appearing here will now be found in an earlier part of the paper immediately following the editorial matter in a department headed "INDICATIONS OF BUSINESS ACTIVITY."

Friday Night, May 29 1925.

COFFEE on the spot was naturally quiet early in the week amid the violent price changes in futures. Nobody knew where he stood. Nominal prices were as follows: No. 2 Rio, 22c.; No. 3, 21¾c.; No. 4, 21½c.; No. 5, 21c.; No. 6, 20½c.; No. 7, 20c.; No. 7–8 Victoria 19¾c.; No. 2 Santos, 24¼ to 25c.; No. 3, 24 to 25c.; No. 4, 23½c.; No. 5, 23¼c.; No. 6, 22¼c.; No. 7, 20 to 21c. On May 25th cost and freight offers were irregular and in fair supply. Sales of Bourbon 3s.–5s. were made at 21¾c. Prompt shipment offers included Bourbon 3s at 22.95 to 23½c.; 3s-5s at 21.50 to 22.85c.; 5s-6s at 21c.; part Bourbon or flat bean 3s-4s at 22.70c.; 3s-5s at 21.30 to 22.65c.; 4s-5s at 21 to 22c.; 4s-6s at 21.15 to 21.40c.; Santos peaberry 3s-5s at 22¼c.; 4s-5s at 21½c., Bourbon grinders 6s at 19.60c.; 7s-8s at 17.10 to 17.85c., Rio 7s. at 18.55c. Future shipment July to September equal monthly shipments, 4s part Bourbon at 21c.; Bourbon 3s-5s at 21½c.; Maracaibo Trujilo 20½ to 21c.; Cucuta fair to good 23 to 23½c.; Colombian, Ocano 21 to 22c.; Bucaramanga, natural 25 to 26½c.; washed 26 to 27c.; Honda 25½ to 26c.; Medellin 26¾ to 27¼c.; Manizales 26½ to 27c.; Mandheling 34 to 35c.; genuine Java 35 to 36c.; Robusta washed 19 to 19½c.; natural 18½ to 19c.; Mocha 27 to 27½c.; Harrar 26½ to 26¾c.; Haiti, Trie-a-la 22c.

Later cost and freight offers reflected firmness in Santos and Rio. Prompt shipment offers included Bourbon 2s-3s at 24c., 3s at 23.60c., 3s-4s at 22.95 to 23.10c., 3s-5s at 22¼ to 23.10c., 4s-5s at 22 to 22.60c., 5s at 21¾c., 6s separations at 20.15c., 7s at 19½c., part Bourbon or flat bean 2s at 34c., 3s-4s at 22½c., 3s-5s at 21.40 to 22.90c., 5s at 21.60 to 22.50c., 4s-5s at 22.10 to 23c., 5s-6s at 21.35 to 21.65c., 6s at 20½ to 21½c., 7s at 18½c. Rio 7s, at 19.40c.; Victoria 7s-8s at 18¼c. Spot coffee continued steady at 23½ to 24c. for Santos 4s and 20 to 20¼c. for Rio 7s. And later on the Green Coffee Association here raised prices for the general run of Colombia from ¾ to 1½c., washed Mexican advanced ½c., East Indian Ankola 1c., Robustas 1c. and Haiti Trie-a-la-main ¼c. Fair to good Cucuta, 23 to 23½c.; Medellin, 27½ to 28c.; Honda, 27c. On Thursday spot prices were 20¼ to 20½c. for Rio 7s and 24 to 24½c. for choice Santos 4s, though less desirable lots it was said were to be had at 23½c. To-day spot prices were irregular with trade sluggish. It was kept down, however, by the smallness of supplies available as well as by the sharp fluctuations in futures. Rio 7s were quoted at 20¾ to 21c.; Santos 4s at 23½ to 24½c.

Futures advanced on the 25th inst. 75 to 120 points. The fever was on again. The rise in 2 days was some 120 to 185 points. Last week the rise was 400 points. Lower Brazilian markets were unheeded. That was the case on the 23rd inst. Shorts had been severely punished. "The burnt child dreads the fire." Yet on the 23rd inst. Santos fell 250 to 350 reis in terme prices with exchange off 1-16d. at 5 3-16d. and the dollar 100 reis higher. Rio terme prices dropped 475 to 825 reis, with exchange off 3-32d. at 5 7-32d. and the dollar rate up 110 reis. Nevertheless prices that day rose some 30 to 60 points net. And on the 25th as already intimated there was another big advance despite irregular and by no means as demonstrative bull markets in Brazil as might have been expected. Shorts here were again stampeded for offerings were small. New buyers came in. Brazil might not be pushing matters but it was felt that if Brazil should see fit to use it, it had the whip hand. The transactions here which had been 46,000 bags on the 23d inst. leaped to 137,000 on the 25th inst. Rio exchange on London remained unchanged at 5 7-32d. with dollar exchange also unaltered. Rio advanced 425 reis on terme prices. Santos terme prices were 175 reis lower to 300 reis higher with exchange 1-32d. net higher at 5 7-32d. and the dollar rate 30 reis net lower. Santos closed 25 reis lower to 100 higher on terme prices with exchange unchanged. Here there were switches from Sept. to December at 80 to 95 points; July to December at 220 to 235 points and December-March at 55 points.

On the 27th came a rise here of 55 to 60 points on small offerings, covering and some general buying. It offset early foreign selling. Yet Santos was 25 reis higher to 125 reis net low. Rio was 975 reis lower to unchanged with exchange off 1-32d. and the dollar buying rate 70 reis net higher. Estimated transactions in futures here were 50,000 bags. Sales included switches from September to March at 150 points, from July to September at 175 points and July to March at 165 points. On Thursday came another advance. Front Street was buying, regardless of disappointing Brazilian cable advices. Meantime the New York stock of Brazilian coffee was 211,098 bags, against 297,332 a year ago; that of New York and New Orleans, 278,707 bags, against 398,400 in 1924. The quantity afloat was only 124,700 bags, against 349,100 in 1924; total in sight for the United States, 403,407, against 747,569 bags. Such figures naturally gave cold comfort to shorts. And Rio held only 144,000 bags, against 268,000 a year ago. Santos, to be sure, had 2,274,000 bags, against 1,282,000 last year, or nearly 1,000,000 more now than then. But is it all deliverable on contracts? If it isn't, then such figures rather suggest the feast of Tantalus. On Thursday Rio finally advanced on May 1,325 reis. Santos closed 225 to 925 reis lower. Exchange on London was 1-32d. higher at 5 5-16d. and the dollar rate 50 reis lower at 9$300. Coffee's rise late in the week was hastened by the rise in Brazilian exchange and buying of actual coffee by roasters. To-day futures broke in sympathy with lower Brazilian markets. New York finally decided to take the cue from Brazil, although Front Street reported a good business in the actual coffee. Rio was 550 to 1,050 reis lower with exchange on London 1-64d. lower at 5¾d. and the dollar rate 30 reis higher at 9$210. Santos showed a net loss of 300 to 900 reis. Long liquidation had a depressing effect. It sent prices down 35 to 70 points, September showing the greatest weakness. But later on there was a recovery of 25 to 35 points on some months. And final prices show a rise for the week of 114 to 175 points.

SUGAR.—Prompt Cuban prices were stiffened by big rains in Cuba with Centrals steadily closing. At 2⅝c. to 2¾c. c. & f. there was a fair business. Early in the week the sales here included 2,000 tons of Philippins centrifugals for July-August shipment at 4.52c. delivered, the equivalent of 2¾c. c. & f.; 18,500 bags Cuban raw sugars for prompt shipment at 2⅝c. c. & f., 20,000 bags Porto Rican for prompt at 4.33c. delivered, equal to 2 9-16c. Cuban basis and 11,000 bags Cuban raw sugars for early June clearance at 2⅝c. basis to an operator. In addition sales of 3,000 tons Cuban raw sugars were reported for June shipment to the United Kingdom at 12s 6d. Importers' stocks of raw sugars on May 25 stood at 693,539 bags. About 20 additional Cuban mills have latterly closed down. On account of persistent rain falls the sugar mills that are still grinding will have to abandon operations. On the 26th inst. a markedly increased business took place with sales amounting to close to 300,000 bags due to buying in anticipation of warmer weather. The advances were 1-32c. to 1-16c. Raw sugar was sold at 2 21-32c. to 2 11-16c. Cuban basis.

The business on the 25th and 26th inst. included 1,200 St. Croix sugars in port at 4.40c. c.i.f., 4,000 tons of Philippines at 4.40c. c.i.f., 5,500 tons of Porto Ricos at 4.40c. c.i.f. and 5,000 bags Cubas at 4.40c. c.i.f. first half of June shipment at a Cuban basis of 2⅝c. c.&f. On the 26th inst. 66,000 bags Cuba for June shipment and the second half of June clearance sold to operators at 2 11-16c., or 4.46c. delivered; 30,000 bags Porto Ricos afloat prompt shipment and first half of June shipment at 4.40c. c.i.f.; 35,000 bags Porto Ricans for second half of June shipment at 4.43c. c.i.f.; 42,000 bags Porto Ricans for June clearance at 4.43c. c.i.f.; 21,000 bags Cubas clearance this week at 2 21-32c.; 15,000 bags Cubas afloat at 2 21-32c., and 2,200 tons of Philippine Island centrifugals for the second half of June shipment at 4.40c. c.i.f. Wall Street interests sold futures. Trade houses sold out hedges against purchases of Porto Rican and Philippine Island raw sugars. Sugar firms both bought and sold July-September. Cubans were credited with buying July.

The size of the Cuban crop is a matter of outstanding interest. Mr. Himely's advices put the minimum final outturn at 5,100,000 tons. That is over 1,000,000 more than the island has ever produced before. It is true, however, that since this estimate a large number of centrals have been forced to close down on account of torrential rains. If the rainy season has definitely set in the actual commercial crop it is suggested may fall below 5,000,000 tons. Some have put the production of sugar in Cuba to May 15th at 4,770,000 tons, against 3,909,175 tons in 1924. But it is recalled that only about 160,000 tons were produced last year from May 15 to the end of the crop and more mills are grinding this year than last. A crop close to 5,000,000 tons is indicated. Increased planting on a large scale during 1923, it is believed, explains this phenomenal crop as the yield this year is slightly smaller than in 1924. On the other hand many believe that consumption will be greatly stimulated by the presence of large supplies at moderate prices. Havana cabled that two more centrals had suspended on the 26th inst. leaving but 66 in operation as against 38 last year. The Macagua finished with outturn of 74,000 bags against an estimate of 65,000 bags and the Maria with 131,000 bags against estimate of 115,000 bags. Heavy rains were reporte over the island of Cuba.

Receipts at Atlantic ports for the week ending May 27 were 93,264 tons, against 68,476 in the previous week, 68,366 in the same week last year and 38,621 two years ago; meltings, 68,000 against 58,000 in the previous week, 58,000 in the same week last year and 62,000 two years ago; total stock, 237,786 tons against 212,522 in the previous week, 200,694 in the same week last year and 182,191 two years ago. On Thursday Cuban was held at 2 5/8c. in a slow market. Java sugar may be offered more freely in the next few weeks. It sold to the United Kingdom on Thursday at 13s. 3d., or 12s. 7½d. for Cubas. Here 20,000 bags of Cuba for first half of July shipment sold to an operator at 2 5/8c. c.&f. Buyers were less inclined to buy after taking earlier in the week some half a million bags. Refined was in better demand and steady at 5.60 to 5.70c. To-day Cuban was quiet at 2 19-32c., or 1-32c. higher than a week ago. The number of Cuban mills closed down was stated this afternoon at 137, leaving 46 in operation. Cuban June shipments were offered at 2 5/8c., but there was no great pressure to sell. Futures were practically unchanged and without striking features. They are one point lower for the week on July and 3 points lower on September.

TEA.—In London on May 25 the advance in tea continued. Offerings were 29,200 packages and sales, 28,000. Indian advances averaged ½d. on medium and fine grades of pekoe. An advance of as much as 2 gold cents a pound has been bid on desirable quantities of Indian teas for forward shipment. Price details as to May 25 were: Medium pekoe, 1s. 3d. to 1s. 7½d.; fine, 1s. 8d. to 2s. 3d.; medium orange pekoe, 1s. 3d. to 1s. 8½d.; fine, 1s. 9d. to 2s. 4d. The stocks in the United Kingdom on May 1 is reported in London Board of Trade as 217,001,000 pounds, against 231,516,000 at the end of March. The decrease is ascribed to the seasonal falling off in arrivals of Indian, which amounted to only 6,500,000 pounds. Ceylon arrivals were 10,623,000 pounds and those from Java totaled 6,970,000. United Kingdom tea consumption during the month of April amounted to 31,053,000 pounds. In London on May 26, 23,000 packages of Ceylon were offered and some 21,000 sold at barely steady prices as follows: Medium pekoe, 1s. 4½d. to 1s. 7d.; fine pekoe, 1s. 8d. to 2s. 3d.; medium orange pekoe, 1s. 5½d. to 1s. 8d.; fine orange pekoe, 1s. 8½d., to 2s. 4½d.

LARD on the spot was higher early in the week with corn and wheat up 2 to 5½c., and the demand somewhat stimulated. Prime Western 16.60 to 16.70c.; Middle Western 16.45 to 16.65c.; city lard in tierces 16¼ to 16⅜c.; in tubs 16½ to 16¾c. Compound carlots in tierces 12 to 12½c.; refined, pure lard, Continent 17¼c.; South America 18c.; Brazil 19c. Today spot lard was quiet and steady. Prime western 16.85c. Futures advanced in sympathy with a sharp rise in corn on the 25th inst. Shorts covered freely. There was some outside buying. An early decline that day due to a drop of 40 to 50c. in hogs was soon over. Nor did selling by outside packers have any lasting effect. Excitement in corn and a frightened short interest sent prices upward 22 points from the early low. Liverpool was unchanged to 9d. lower but this in the end had no effect. Later there was some irregularity followed by a rally due to buying by smaller packers and eastern cash handlers. Rumors that Germany contemplated putting restrictions upon the importation of lard from Holland keenly interested the trade as a potential bullish factor. The Department of Commerce said: "Exports of lard for the week ending May 23rd were 12,929,000 lbs.; hams and shoulders including Wittshires, 2,777,000 lbs.; bacon including Cumberland, 3,695,000 lbs.; pickled pork 341,000 lbs." To-day futures were without much change but end 28 to 30 points higher than a week ago.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery cts.	15.75	15.90	15.87	16.00	16.17	16.17

PORK steady; mess, $37 50 nominal; family, $35 50 to $37 50; fat back pork, $36 50 to $38 50. Beef quiet; mess, $19 to $20; packet, $19 to $20; family, $20 to $24; extra India mess, $33 to $34; No. 1 canned corned beef, $2 75; No. 2, 6 lbs., $17 50; pickled tongues, $55 to $65 nominal. Cut meats quiet; pickled hams, 10 to 24 lbs., 21¼ to 23¾c.; pickled bellies, 6 to 12 lbs., 13¼ to 13¾c. Butter, creamery, lower grades to high scoring, 37½ to 43½c. Cheese, flats, 21 to 27½c. Eggs, fresh gathered, mediums to extras, 30 to 35c.

OILS.—Linseed has been quiet but steady. Spot August raw oil in carlots, cooperage basis, $1 06; tanks, $1 00; less than carlots, $1 07; less than 5 barrels, $1 09. Although linseed was still quoted late in the week at $1 06 for carlots, cooperage basis, by leading crushers for spot-August, it was said that business could be done on contract at as low as $1 03. It was also reported that foreign oil was being sold at $1 a gallon in 5-barrel lots. Cocoanut oil, Ceylon barrels, 10¼ to 10½c. Cochin, New York, barrels, 11½c. Corn, crude, tanks, 10¾c.; edible, 100-barrel lots, 12½c.; Soya bean crude, tanks, 12c. Lard, prime, 19½c.; extra strained winter, New York, 18¼c. Cod, domestic, 61 to 63c. Newfoundland, 63 to 65c. Spirits of turpentine, $1 04 to $1 07. Rosin, $9 30 to $14 50. Cottonseed oil sales to-day, including switches, 10,700 P. Crude S. E., 9¾c. Prices closed as follows:

Spot	10.20@10.50	August	10.71@10.80	November	10.11@10.18
June	10.25@10.50	September	10.86@10.89	December	10.10@10.15
July	10.51@10.53	October	10.74@10.80	January	10.13@10.20

PETROLEUM.—Gasoline has been unsettled. Leading refiners were quoting 14c. for U. S. motor, but business, it was said, could be done at 13½c. on a firm bid. The Standard Oil Co. of New York advanced the tank wagon price to 20c. early in the week. The Gulf Co. and the Tide Water Oil Co. met the advance. On the 26th inst. the Standard Oil Co. of New Jersey advanced the price 1c. throughout its territory, and increased export prices ½c. The Texas Co. advanced the price 2c. in Greater New York to 20c. and is now in line with other companies. Pittsburgh advices reported that the Atlantic Refining Co. and Gulf Refining companies advanced the price 1c. a gallon. Consumption of gasoline is increasing. Stocks are large, however. Kerosene has been quiet at 6¾c. in bulk at local refineries. At the Gulf prime white was 5¼c. and water white 6¼c. Diesel oil was dull at $2 30 a bbl. Bunker oil has also been dull at $1 75 refinery for grade C. Lubricating oils were quiet at 27c. for Pennsylvania 600 s.r. New York. On the 28th inst. the Texas Co. met the advances made on gasoline by other companies by raising its price 1c. delivered to garages. It is now quoting 21c. in Greater New York and 22c. up-State. Late in the week a better export demand was reported. Three cargoes of gasoline and kerosene were said to have sold at the Gulf during the week. The Gulf market was firmer at 14c. for U. S. Motor and 17c. for 64. New York refined export prices: Gasoline, cases, cargo lots, U. S. Navy specifications, deodorized, 30.15c.; bulk, per gallon, 16.50c.; export naphtha, cargo lots, 19.25c.; 62-63-degrees, H, 20.50c.; 63-68-degrees, 22c. Kerosene, cargo lots, cases, 16.40c. Petroleum, refined, tank wagon to store, 13c.; motor gasoline, garages (steel bbls.), 21c.; up-State, 22c.

RUBBER advanced 4c. on good buying on the 23d inst. That put the price up to within 3c. of the peak in 1919. London then ran up 2d. to 33½d., with stocks fast disappearing. That frightened buyers, and they bought heavily on that day. The Tuesday's statement of stocks in London might make them more than uneasy for the restriction of output remains in force. Grumbling is useless. Brown crepe clean was quoted on the 23d inst. at 64c.; first latex straight at 66½c.; amber No. 2 at 64c.; and fine upriver Para at 53c. The London stock, as stated by the Rubber Association last week, was 7,600 tons. London stocks were reduced to 6,605 tons, against 7,567 in the previous week, 13,058 in the same week last month and 52,289 last year. London on the 25th inst. was irregular at first but became steadier later on and closed at 33½d. for spot and 33d. for June ribbed smoked sheets. On the next day that market declined slightly to 33¼d. for spot smoked ribbed sheets and 32¾d. for June. On Wednesday London advanced on short covering and closed ¼d. to 1d. per pound higher on sheets and ¼d. to ¾d. on crepe. Spot ribbed smoked sheets closed at 34d., June, 33d., July-September, 27¾d., and October-December, 24¾d. First latex crepe spot, 29½d; June, 29d.; July-September, 27½d., and October-December, 24½d. Later on the market became quiet, but prices were steady at 63 to 64c. for ribbed smoked sheets, May, 62½ to 63½c. for June, 60 to 60½c. for July, 57½ to 58c. for August-September, and 52 to 53c. for October-December. First latex crepe, May, was 62 to 63c.; June, 61½ to 62c.; July, 58½ to 59c.; August-September, 55½ to 56c., and October-December, 52c. Amber No. 2, 61c.; No. 3, 60c.; No. 4, 59c. Caucho Ball-Upper, 45½c.; lower, 43c. Late in the week the market was strong in London and very firm here. June sold, it is said, at as high as 65½c. on the 28th inst. July ribbed smoked sheets was quoted at 62 to 62½c.; and August-September, 58¾ to 59¼c. First latex crepe, June, 64 to 64½c.; July, 61 to 62c.; August-September, 57½ to 58c. London on the 28th inst. advanced ¾ to 1½d. Spot, 35d.; June, 34½d.; July-September, 28½d.; October-December, 25½d. After declining of late, Singapore on the 28th inst. turned steady and advanced ¼d. to 5/16d. on standard grades. Spot, 28¼d.; June, 28⅜d.; July-September, 26⅛d.; October-December, 23¼d.

HIDES were quiet and tending downward on common dry hides. River Plate were said to be steadier. Sales were reported of 4,000 Swift La Plata steers and 4,000 Rosario steers at $36.; the equivalent of 16c. c. & f. Orinocos 21½c.; Peruvians 21½c.; Central America 21c.; Laguayra 21c.; Ecuador 19 to 24c. Packer hides, native steers 14c.; butt, brands 13½c.; Colorados 13c. Cows, native 13c.; bulls, native 10½c. Country hides, extremes 25 to 45c. Leather was dull. In Chicago there was a moderate trade early in the week in big packer hides with sales of 5,000 May extreme light native steers at 13¾ or ¼c. advance. Independent packer stocks are closely sold up it is said to June 1st partly at 13c. for April-May all weight native cows and steers and others a ¼c. premium for May. April-May branded stocks

brought 12½c. Packer calfskins were steady at 23c. First salted Chicago city calfskins sold at 21c. following sales of split weights at 20¾c. Country extreme weight hides sold well at one time with 25 to 50 lb. weights running 15 per cent grubs at 13c. selected. Free of grub 25 to 45 lbs. 14c. with tanners in some cases balking at this price. Buff weights were quiet at 11 to 11¾c. for free of grub. All weights were wanted at 11½c. selected delivered for moderately grubby. Leather was quiet. Some look for a better trade when the autumn shoe production starts. Top grade good quality side leathers 30c. nominally but this price is shaded on worthwhile transactions. Later 900 Orinoco sold at 20½c., it was said, a decline of 1c. Of Colorado fair sales were made, it is said at 12½c. as against 13c. recently. In Chicago on May 26th 40,000 more mostly May sold. Butt branded steers brought 14c. and Colorado steers and branded cows 13c. both steady prices. Late May light native cows brought 13¾c. with May extreme light native steers selling at the same price and April production ¼c. less. With late May light cows bringing 13¾c. packers hope to get this price for the rest of May production. Later of frigorifico hides a sale was reported of 5,000 Swift Montevideo steers at $41.

OCEAN FREIGHTS have been rather active at times in grain tonnage and berth rates at one time advanced 3d. But as to other branches the demand has much of the time at least been small. That meant the rates were largely nominal. Late last week grain tonnage for 225,000 quarters was taken.

CHARTERS included coal from Hampton Roads to Rio, June, $4 10; lumber, 1,000 standards from Gulf to Plate, June, 151s. 3d.; barley from Atlantic range to four ports Denmark, 20c.; 16,000 qrs. oats from Montreal to Antwerp-Hamburg range, 16½c., option some heavy at 14½c. May 25-30; 32,000 qrs. oats from Montreal to Antwerp, Rotterdam, Hamburg and Bremen, 16½c.; option two ports ½ cent more, option some heavy at 13½c., June 1-15; coal from Hampton Roads to Montreal, $1; from Hampton Roads to Rio, $3 50 June; sugar from Cuba to United Kingdom-Continent, 19s. 6d., with options first half June; crude oil from Gulf to North Hatteras, 20c. June; lumber from Gulf to Buenos Aires-Montevideo, with options, $15 50 June; coal from Hampton Roads to Rio, $3 50; grain (barley) from San Francisco to United Kingdom, 33s. 9d. August; lumber, 600 standards spool wood under deck from Miramichi to Glasgow, 88s. 9d. June; coal from Hampton Roads to Rio, $3 70 June; light crude oil from Gulf to Queen's Haven or Antwerp, 23s. 6d. June; clean oil from Gulf to United Kingdom-Continent, 23s. June; clean oil from Batum to United Kingdom-Continent, 19s. July 5-25; clean oil from Batum to Alexandria, 14s. 6d. August; grain from Portland to United Kingdom-Continent, 35s.; barley from San Francisco to United Kingdom, 33s. July.

COAL was quiet and mostly unchanged. But the all-rai movement to New England increased. A total of 2,374 cars passed through the Hudson for the week ending May 16. The anthracite tonnage increased to 3,857 cars. At Lake Erie ports the dumpings during the week of May 17 were 661,000 tons of cargo coal and 41,000 of bunker, or a combined gain of 55,000 tons over the week before. Cool weather has recently tended to help the anthracite trade and keep prices steady. The need of reduced wages as a stimulus to trade, as a whet to consumption, is becoming more and more clearly recognized. In the coal trade there is an effort to put wages of miners back to the scale of 1917 by the Pittsburgh Coal Co. The company has resumed operations at its Forest Run mine near Pomeroy, Ohio, under the 1917 scale. The company has two other Ohio mines operating on the same scale and two non-union mines in Kentucky. This is a suggestive straw.

TOBACCO.—Some slight increase in the demand was noticeable for leaf tobacco. It was traceable to a somewhat larger trade in cigars. But there is no great change in the general situation if indeed any at all. Dealers are putting the best face possible on a situation none too satisfactory, to say the least, and are hoping for better times later on. A fair business is reported in old Porto Rican tobacco at fairly steady prices. The new Havana crop may come to market later than usual and it is said that new remedios may be heavy and therefore not up to the usual standard. It remains to be seen how correct this prediction will turn out. New Sumatra and Java tobacco are reported to be selling fairly well. There is no real activity. The rather monotonous routine trade so persistently the outstanding fact for months past is still unfortunately only too noticeable. Wisconsin binders, 18 to 22c.; northern, 38 to 45c.; Southern, 25 to 35c.; New York State, seconds, 35 to 45c.; Ohio, Gebhardt binders, 25 to 28c.; Little Dutch, 25 to 28c.; Zimmer Spanish, 30 to 32c.; Havana first remedios, 95c. to $1 05; 2d remedios, 85 to 95c.; Pennsylvania broad-leaf filler, 8 to 10c.; broadleaf binders, 24 to 27c.; Porto Rico, 40 to 85c.; Connecticut top leaf, 20 to 22c.; No. 1 seconds, 80 to 95c.; seed fillers, 12c.; medium wrappers, 70 to 80c.; dark, 35 to 50c.; light, $1 to $1 25; Havana seed, $1 to $1 15. It is said that the Sumatra crop will fall some 4,000 bales bales below the last one. New tobacco late in the week was said to be attracting rather more attention.

COPPER early in the week was firm at 13⅝c. Domestic business has been rather small. Yet some producers report a better inquiry. Export business is relatively larger than that of domestic. Germany has been the chief foreign buyer. Of late a good business was reported with China. Japan has also taken a little. Sales for export were made at 13.75 to 13.80c. A cheering feature was the advance of 5c. on electrolytic in London on the 27th inst. May statistics will be out soon and are expected to make a favorable showing. They are expected to show a steady decline in output. Fabricators of copper have reduced operations 70% on an average as against 90% a month ago. In the Chicago district consumption of copper is said to be greater than at any time for the last two years owing to the activity of the automobile industry. Late in the week there was a better demand for export and prices advanced to 13.60c. f.a.s. New York. The price for domestic consumption remained at 13⅝ c. delivered in the valley. Lake producers state that 40% of output is going abroad.

TIN advanced with higher London prices. Sales at London have been normal but only small sales have been made here. Spot Straits here were quoted at 56c. and futures at 55¾c. On the 27th inst. London was strong with sales of 1,000 tons, the largest in two or three weeks. Spot standard on that day advanced £2 12s. 6d. and futures £2 15s. to £255 5s. Spot Straits rose £2 2s. 6d. to £260 2s. 6d. Consumers here are not interested in the market. They do not feel that present prices are justified. Late in the week London declined 12s. 6d. and prices here followed. Here the decline amounted to ⅜ to ¾c. Very little business was reported. A sale of 50 tons of June-July Straits shipment was made on the 28th inst. at 55c. on the local exchange.

LEAD has been in good demand and higher. On the 25th inst. the price was advanced $2 to 8.25c. by the American Smelting & Refining Co. In the outside market as high as 8.90c. New York was paid and 8.50c. at East St. Louis for prompt. Later on the outside market eased a little, and the range at New York was 8.25 to 8.75c. and at St. Louis 8 to 8.50c. Lead ore was quoted at $105 in the Tri-State district. The American Smelting & Refining Co. late in the week advanced its price $3 more to 8.40c. New York. In the outside market as high as 9c. was quoted for prompt. In the East St. Louis district the St. Joseph Lead Co. continued to sell limited quantities at 8c., but elsewhere in that district the price is considered more like 8.60c. Spot lead in London on the 28th inst. rose 1s. 3d. to £32 13s. 9d.

ZINC early in the week was in rather better inquiry and higher. Spot East St. Louis, 7 to 7.05c.; New York, 7.35 to 7.40c. A slight improvement in export demand was reported. The American Bureau of Metal Statistics estimated world output in April at 103,100 short tons, against 109,100 in March, 98,800 in February and 106,400 in January 1925. Average output for the first four months was 90,780 tons, against monthly average in 1924 of 79,575 and in 1923 of 77,517. Belgian smelters are buying zinc concentrates for export, a sale being made recently of 1,000 tons. In London on the 28th inst. zinc fell 2s. 6d. to £33 17s. 6d. on the spot and 15s. to £34 7s. 6d. on futures. Prices here were unchanged at 7.42½ to 7.47½ New York and 7.07½ to 7.12½c. East St. Louis.

STEEL, though quiet, has been steady as a rule. Indeed, the composite price has not been changed for a month. Prices for plates, shapes and bars certainly appear to give way less readily, if they do at all. The larger companies, it is said, more generally refuse to consider bids below their regular schedule. Still unfilled orders do not increase; they fall off. The business for May will fall below that of both April and March. Bars and structurals sell the most readily. Bridge material is dull. Business in finished fabricated steel is nothing great. Both black and galvanized sheets, for an exception, have been noticeably weak. But cast-iron pipe has been in better demand. Finally the reduction in the output of steel in general has naturally tended to help the statistical position. Supplies do not pile up as they did at one time. The law of supply and demand working along these lines will eventually correct and stabilize the situation, and indeed seems to be making perceptible moves in that direction now. Still, the fact must be faced that the trade is not as yet in a satisfactory condition. Steel products have dropped 50c. per ton on forging billets to $40 per ton. Pittsburgh, and $1 per ton on galvanized sheets to 4.25c. per pound Pittsburgh. This has not disturbed the composite price index. It remained at 2.46c.

PIG IRON has recently fallen. The drop in the index price makes that plain. But it seems to have stimulated business in the Central West. Cleveland sold over 100,000 tons within a week and some 285,000 during May. But it is not an undeniable fact that buyers had to be influenced by lowered quotations. They are to all appearance still $19 at Buffalo and $20 to $20 50 in eastern Pennsylvania. Silicon differentials are, it seems, however, being more strictly enforced. At any rate, at Buffalo, it is said, some are quoting the usual 50c. differential. Ferro-manganese has been quiet at $115 and spiegeleisen at $33, both seaboard terms. It is possible that fear of an anthracite strike may have helped to stimulate business in iron. Also the cast iron pipe trade is better. But easier iron prices were necessary to make worth-while sales. Chicago reported that pig iron consumers have recently taken 150,000 tons in Chicago with $21 for No. 2 foundry cut in some cases. At Cleveland purchases aggregated 107,000 tons within the week, making 276,000 tons this month. Around Chicago 26 out of the 35 blast furnaces are operating.

WOOL has recently been steadily declining in a market to all appearance generally as dull as ever. It is generally, speaking, never more than moderately active, even though repeated assurances may have been given that the tone was firmer. In the Far West the demand is plainly small. In States where bright wool is grown it is said to have been rather better. Foreign markets send no hopeful news. If anything, Bradford, it seems, is duller than recently, and buyers stoutly oppose any attempt to raise prices. Woolen

goods have been dull in this country. The same is true of worsteds. There is no sign as yet of an improvement. Meanwhile as to raw wool the rail and water shipments from Boston from Jan. 1 1925 to May 21 1925, inclusive, were 61,104,000 pounds, against 76,641,000 for the same period last year. The receipts from Jan. 1 1925 to May 21 1925, inclusive, were 119,460,200 pounds, against 127,017,100 pounds for the same period last year. Boston's nominal prices are as follows:

Ohio and Pennsylvania fleeces: delaine unwashed, 47 to 49c.; ½ blood combing, 47 to 48c.; ¾ blood combing, 45 to 46c.; fine unwashed, 40 to 41c. Michigan and New York fleeces: delaine, 46 to 47c.; ¾ blood combing, 45c.; ¼ blood combing, 42 to 43c.; fine unwashed, 39c. Wisconsin-Missouri and average New England: ½ blood, 45 to 46c.; ¾ blood, 43 to 44c.; ¼ blood, 40 to 41c. Scoured basis: Texas, fine 12 months (selected), $1 25; fine 8 months, $1 12 to $1 15. California: Northern, $1 20 to $1 23; Middle County, $1 10 to $1 12; Southern, $1 05 to $1 07. Oregon: Eastern No. 1 staple, $1 21 to $1 22; fine and fine medium combing, $1 15 to $1 20; Eastern clothing, $1 00 to $1 05; Valley No. 1, $1 05 to $1 10; Territory: Montana and similar: fine staple choice, $1 23 to $1 25; ½ blood combing, $1 10 to $1 12; ¾ blood combing, 90 to 95c.; ¼ blood combing, 80 to 85c. Pulled: delaine, $1 30; AA, $1 25 to $1 30; A supers, $1 05 to $1 10. Mohair: best combing, 70 to 75c.; best carding, 65 to 70c.

Western buying later on was small and it was said that some clips sold at rather low prices. A difference of 5 cents a pound between buyers and sellers halts trade on the West Coast. New wool continues to arrive. Portland, Ore. reports 2,000,000 lbs. stored. Foreign reports indicate that further postponement of Australian sales is being considered. That kind of talk has a menacing ring. Surplus stocks are estimated at between 450,000 and 500,000 bales. The fourth series of London colonial sales are scheduled to open July 7, with the remaining 1925 series listed for September 15th and November 24th. About 105,000 bales are held over for the next sales, comprising the following: Sydney 2,800; Queensland 1,500; Victoria 2,000; West Australia 1,100; New Zealand 6,600; South Africa 1,700; Punta Arenas 4,500, and adding 86,000 bales not offered at the May series. In Boston fine and fine medium territory stock of fresh combing length sold it is said within the range of $1 20 to $1 23. In Liverpool about 17,000 bales will be offered at the next series of East India low-wool sales there beginning Tuesday, June 9th and continuing to June 12th.

COTTON.

Friday Night, May 29 1925.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 44,085 bales, against 44,069 bales last week and 49,177 bales the previous week, making the total receipts since the 1st of August 1924, 8,951,795 bales, against 6,421,903 bales for the same period of 1923-24 showing an increase since Aug. 1 1924 of 2,529,892 bales.

The exports for the week ending this evening reach a total of 50,537 bales, of which 17,380 were to Great Britain, 3,237 to France, 10,940 to Germany, 11,900 to Italy, 3,642 to Japan and China and 3,438 to other destinations. In the corresponding week last year total exports were 55,029 bales. For the season to date aggregate exports have been 7,580,612 bales, against 5,163,241 bales in the same period of the previous season. Below are the exports for the week.

NOTE.—*Exports to Canada.*—It has never been our practice to include in the above table exports of cotton to Canada, the reason being that virtually all the cotton destined to the Dominion comes overland and it is impossible to get returns concerning the same from week to week, while reports from the customs districts on the Canadian border are always very slow in coming to hand. In view, however, of the numerous inquiries we are receiving regarding the matter, we will say that for the month of April the exports to the Dominion the present season have been 19,587 bales. In the corresponding month of the preceding season the exports were 10,328 bales. For the nine months ending April 30 1925 there were 173,362 bales exported, as against 127,282 bales for the corresponding nine months of 1923-24.

In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named:

May 29 at—	*On Shipboard, Not Cleared for—*						*Leaving Stock.*

* Estimated.

Speculation in cotton for future delivery has been quiet. Prices, however, advanced in the fore part of the week. That was because of cold nights, lack of rain in central and southern Texas and covering of shorts. The night temperatures both east and west of the Mississippi River were in the 40's and occasionally in Tennessee, Mississippi and Arkansas in the 30's. Of course that was entirely too cold for the last week in May. The weekly report emphasized the effects of the unseasonably low temperatures on late planted fields. Growth in Texas was checked both by low temperatures and the middle and lower parts of the State by the lack of rain. Texas will need rain frequently throughout the growing season because it was deprived of the fall, winter and early spring rains. That means, of course, that its supply of subsoil moisture is below the normal, where there is any at all. And only fair progress at best was made by the late planted cotton in Oklahoma, Arkansas, Mississippi, Alabama and Louisiana. And Louisiana needs rain as well as lower Texas. Stands are irregular in some parts of the belt. All these drawbacks exist even with a condition generally estimated at 10% better than that of a year ago. The eastern belt, however, has on the whole perhaps been the most retarded by the low temperatures. The weevil, too, is said to be numerous there, though it is too early for it to do much if any damage. Meanwhile the trade has been buying. In other words, American interests have bought October, December, January and December, but England and the Continent have also been buying and on a larger scale than Americans. And spot cotton of any staple at all is in steady demand at pronounced premiums. One inch to 1 1-16 inch cotton is most wanted; ⅞ inch is not so readily salable. The stock is steadily decreasing here. On Wednesday the certificated stock here was down to some 143,000 bales. And

it is destined, it is said, to drop well below 100,000 bales in June. Europe, it appears, is to take a good deal. New Bedford reported a good demand for staples. In New Orleans the demand was steady and the stock there is decreasing. A report was in circulation that New Orleans would send cotton to New York for delivery here. That was not easy to credit with the July premium here over October 60 points or less, while in New Orleans it was 130 points. Still, it is suggested that at a pinch New York interests might bring cotton from New Orleans. Conceivably there are circumstances in which it might be done. And last week it turned out that Worth Street sold some 400,000 to 500,000 pieces of sheetings, prints and convertibles. At times a better demand has been reported at Fall River, whether much actual business resulted from it or not. And Manchester advices said in substance that there were persistent efforts among users of American cotton to have the schedule of 55 hours a week increased to 59½ hours—as it stood before the shorter rate was adopted. That was rather bewildering to people who had had it dinned into their ears for months that Manchester's trade was in a bad way or on a kind of lee shore. Some advices from Liverpool took the ground that the tone in Manchester was merely restless; that there was a big business to be done, that buyers who had been holding off for lower prices were becoming very much afraid of missing the bottom and were therefore sharply watching the price trend. It is said that the slightest recovery in prices brings in a good deal of business there, and that there is very little doubt that if the market could be stabilized there would be a very satisfactory trade. A report that the Amoskeag mills were to be closed for three months was promptly denied. Some of the mill reports from Rhode Island were not uncheerful.

On the other hand, the weekly report was in the main favorable as regards the early planted cotton and the belt of late has shown some tendency to warm up. Some rain fell in central and southern Texas. It was not enough, but there was a striking concurrence of opinion that the Bureau report of June 2 would show an average condition of the crop some 10% better than on the same date last year. The range of private estimates has recently been 72.3 to 77.5%, against 65.6 a year ago and 71.9 for the ten years. Texas is put at 67 to 72, against 66 last year. With a larger acreage and with reasonably good conditions some are reckoning on a possible crop of 14,500,000 to 15,000,000 bales. Some Liverpool people have even suggested the possibility of something more than that. The chief drawback recently has been the cold nights, but in the nature of things, and on the threshold of June, these must soon pass. June is apt to be a good month for the crop. The weekly report stressed the very good progress of early cotton in Oklahoma and Arkansas and the satisfactory growth in Louisiana, where the plants are squaring heavily. It pointed out that in Oklahoma, if the stands were irregular, they were mostly good. In Texas conditions were fair. Georgia reported stands and general condition in the main satisfactory. Frost was predicted on the 25th inst. but did not appear, except, it seemed, in the mountainous districts of Tennessee. And cotton goods became less active, even at easing prices. Curtailment continued to spread. North Carolina continues at least to discuss and finally again to prognosticate curtailment if it does nothing very much more in that direction as yet. Such talk is in the air. And the report that the Amoskeag mills at Manchester, N. H., were to close for three months was promptly denied; they closed on Thursday, May 28, until Monday, June 1. And that was considered significant. Trade was evidently none too active. Yarns here and in Philadelphia declined. Now and then irregular stock markets or lower grain prices had some slight and transient effect. Manchester seemed to be quiet. There might be a better inquiry there from India, but its bids were impracticably low. And English trade with China suffered because of financial troubles there. In Liverpool the tone at times has been hesitant and even weak. The daily spot sales there fell off from 8,000 bales to 5,000. Importers were selling there. Spinners were apathetic. Liverpool was affected by the unsatisfactory trade of Manchester, by the favorable crop reports from America and by distrust of the stability of the present price level. This skepticism as to the steadiness of existing prices is what militates most seriously against Manchester's trade. Meanwhile of late in New York cotton has been quiet, both with more or less evening up before Saturday's Decoration Day holiday, more than all, before the Bureau report at 11 a. m. on Tuesday, June 3. On Thursday prices declined for a time on the expectation of beneficial rains in Texas, the warmer appearance of the belt, weaker Liverpool advices, dulness of goods at home and abroad and general selling. But it turned out later that the official rain reports were disappointing. There was a certain amount of rain, even good rains in some parts of Texas, ranging from ¼ to 1¼ inches. But they were mostly in the western and northwestern sections. Little or none fell in the central and southwestern parts of the State, where they are most urgently needed. Waco, Texas, advices asserted, indeed, that there was little possibility of a normal crop in Texas this year. Time will show. At present, however, the drought in southern Texas is declared to be serious. The case seems to be a little better in central Texas. In fact, it is notorious that every little while Texas will need rain to make up for the lack of rains last fall and winter. But the worst was to come. Late on Thursday New Orleans suddenly advanced, much to the mystification for a time of New York. It turned out, according to New Orleans advices, that the Tallulah, La., experimental station had announced that the weevil infestation in Louisiana was serious. This started a movement to cover and prices advanced some 20 to 30 points from the early low. For it was reasoned that if the infestation in Louisiana was really serious it might turn out to be serious in other States later on. Recently there have been reports of weevil in Alabama and other parts of the eastern belt. In fact, published reports said that in the eastern section of the cotton country it was very numerous. In southern Texas recently it was said to be present. In any case many are skeptical as to the likelihood of the cotton belt having the almost miraculous escape from weevil in 1925 that it did in 1924 by reason of the hot dry weather and late fall in that year. Moreover, exports increased somewhat on Thursday. And the spot markets were firm, with a steady demand for staples. Little attention was paid to reports of the first blooms in Louisiana two weeks ahead of last year, or to a report that the first bale would be ginned in Texas this week. The stress was on drought and weevil, and also on a sudden scarcity of contracts. Local traders who had reasoned that they could sell with impunity on the week-end liquidation previous to the Bureau report found that the supply of contracts soon gave out and that rallies came easily, although the net advance on that day was only 6 to 13 points, the latter on the next crop.

To-day the fluctuations were within a range of about 20 points, now advancing slightly and then again receding. The ending was steady and virtually unchanged. The week-end statistics were on the whole bullish. Takings are big and world stocks are disappearing more rapidly than they were a year ago. The increase in the total over last year is diminishing. The quantity brought into sight looks suggestively small each week. If yarn mills at New Bedford are curtailing, fine goods mills are not. They are working close up to capacity or actually at full capacity. The range of private estimates on the crop on Friday was 73 to 77.1%. Some think the market has discounted 75. The general run of estimates on the acreage is 5 to 6% increase, mostly 5. For the week there is a net advance of 26 points on July and 35 on the next crop. Spot cotton closed at 23.75c. for middling, an advance for the week of 25 points.

The official quotation for middling upland cotton in the New York market each day for the past week has been:

May 23 to May 29—	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
Middling upland	23.95	24.00	23.95	23.75	23.75	23.75

NEW YORK QUOTATIONS FOR 32 YEARS.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE AUG. 1.—We give below a statement showing the overland movement for the week and since Aug. 1, as made up from telegraphic reports Friday night. The results for the week and since Aug. 1 in the last two years are as follows:

	1924-25		1923-24	
May 29—		*Since*		*Since*
Shipped—	*Week.*	*Aug. 1.*	*Week.*	*Aug. 1.*
Via St. Louis	3,348	703,708	1,856	570,801
Via Mounds, &c	830	254,200	3,060	190,520
Via Rock Island	23	34,301	323	20,984
Via Louisville	194	48,580	52	25,433
Via Virginia points	3,117	222,992	3,342	187,659
Via other routes, &c	11,789	460,191	12,877	414,776
Total gross overland	19,301	1,723,972	21,510	1,410,173
Deduct Shipments—				
Overland to N. Y., Boston, &c	106	93,935	2,358	81,257
Between interior towns	374	24,557	491	24,506
Inland, &c., from South	7,849	649,733	4,535	602,501
Total to be deducted	8,329	768,225	7,384	708,264
Leaving total net overland *	10,972	955,747	14,126	701,909

* Including movement by rail to Canada.

The foregoing shows the week's net overland movement this year has been 10,972 bales, against 14,126 bales for the week last year, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 253,838 bales.

	1924-25		1923-24	
In Sight and Spinners' Takings.	*Week.*	*Since Aug. 1.*	*Week.*	*Since Aug. 1.*
Receipts at ports to May 29	44,085	8,951,795	50,424	6,422,903

COTTON EXCHANGE DUES AND ASSESSMENTS.—Members of the New York Cotton Exchange at their fifty-fifth annual meeting on May 26 approved the recommendations of the Board of Managers that the annual dues for the current fiscal year be fixed at $300, with an assessment of $100 levied on each membership in the Exchange, payable Dec. 1 1925.

WEATHER REPORTS BY TELEGRAPH.—Reports to us by telegraph this evening indicate that with the exception of cool weather in the northern and eastern sections the early part of the week, conditions have been generally favorable throughout the cotton belt. There have been many beneficial local showers, though in some sections general rains are needed.

Texas.—Early planted cotton has made fair progress in this State, but the late planted cotton is in need of additional moisture. There has been little complaint of insect damage.

Mobile, Ala.—The cool nights have retarded the growth of the cotton crop. Stands are good and clean. General rains are badly needed. First blooms have been reported from several localities.

WORLD SUPPLY AND TAKINGS OF COTTON.—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Aug. 1 for the last two seasons, from all sources from which statistics are obtainable, also the takings, or amounts gone out of sight, for the like period.

Cotton Takings. Week and Season.	1924-25.		1923-24.	
	Week.	Season.	Week.	Season.
Visible supply May 22	4,032,491		3,128,568	
Visible supply Aug. 1		2,190,493		2,024,671
American in sight to May 29	125,711	14,434,635	131,014	11,008,206
Bombay receipts to May 28	61,000	3,244,000	43,000	3,135,000
Other India shipm'ts to May 28	13,000	485,000	3,000	576,000
Alexandria receipts to May 27	2,200	1,406,400	5,000	1,269,000
Other supply to May 27-*-*b*	11,000	430,000	12,000	371,000
Total supply	4,245,402	22,190,528	3,322,582	18,384,877
Deduct—				
Visible supply May 29	3,848,225	3,848,225	3,102,211	3,102,211
Total takings to May 29-*a*	397,177	18,342,303	220,371	15,282,666
Of which American	266,977	13,179,903	134,371	10,329,666
Of which other	130,200	5,162,400	86,000	4,953,000

* Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c.
a This total embraces since Aug. 1 the total estimated consumption by Southern mills, 3,755,000 bales in 1924-25 and 3,575,000 bales in 1923-24—takings not being available—and the aggregate amounts taken by Northern and foreign spinners, 14,587,303 bales in 1924-25 and 11,706,666 bales in 1923-24, of which 9,424,903 bales and 6,753,666 bales American.
b Estimated.

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week ending	Receipts at Ports.			Stocks at Interior Towns.			Receipts from Plantations		
	1925	1924	1923	1925	1924	1923	1925	1924	1923

22	44,069	50,868	36,894	561,725	372,553	471,972	3,916	31,121	1,983
29	44,085	50,424	28,322	340,620	347,017	447,224	4,739	24,888	5,568

The above statement shows: (1) That the total receipts from the plantations since Aug. 1 1924 are 9,129,724 bales; in 1923 were 6,438,620 bales, and in 1922 were 5,107,154 bales. (2) That although the receipts at the outports the past week were 44,085 bales, the actual movement from plantations was 4,739 bales, stocks at interior towns having decreased 39,346 bales during the week. Last year receipts from the plantations for the week were 24,888 bales and for 1923 they were 5,568 bales.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of India cotton at Bombay and the shipments from all India ports for the week and for the season from Aug. 1, as cabled, for three years, have been as ffllows:

May 28 Receipts at—	1924-25.		1923-24.		1922-23.

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 18,000 bales. Exports from all India ports record an increase of 30,000 bales during the week, and since Aug. 1 show a decrease of 289,000 bales.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—We now receive weekly a cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, May 28.	1924-25.	1923-24.	1922-23.
Receipts (cantars)—			
This week	11,000	25,000	5,000
Since Aug. 1	7,071,985	6,348,098	6,644,236

Exports (bales)—	Week.	Since Aug. 1.	Week.	Since Aug. 1.	Week.	Since Aug. 1.
To Liverpool	3,000	188,723	.....	202,322	2,750	222,075
To Manchester, &c	.....	216,000	4,500	196,743	.....	161,717
To Continent and India	4,000	341,377	6,000	345,637	4,150	292,722
To America	2,000	123,606	.....	106,076	1,750	206,945
Total exports	9,000	872,737	10,500	850,778	8,650	883,459

Note.—A cantar is 99 lbs. Egyptian bales weigh about 750 lbs.
This statement shows that the receipts for the week ending May 28 were 11,000 cantars and the foreign shipments 9,000 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market in both cloths and yarns is steady. Manufacturers are generally complaining. We give prices to-day below and leave those for previous weeks of this and last year for comparison.

BREADSTUFFS.

Friday Night, May 29 1925.

Flour has been quiet as usual. There seems to be no use expecting buyers to abandon their now inveterate habit of buying from hand to mouth. But the tone, in harmony with a rise in wheat on freezing weather at the West, was firm at times. Buyers' supplies, too, had to all appearances dwindled to a small size. Buying from time to time, even at rather short intervals, is compulsory. That is one drawback in the buyers' attitude. From time to time the total of such purchases reach no mean proportions. But there was no belief in a permanent advance in wheat, and therefore no idea of changing the dilatory policy of buying flour, which is now entering on its second year. Exporters, too, took hold sparingly when they took hold at all. They are told that the crop outlook in Europe is generally favorable. They believe that frost conditions in this country are merely a passing phase. Exports on the 27th inst. were 19,696 sacks and on the 28th, 17,365 sacks, all of which went to many different ports.

Wheat ran up 5½ to 6c. at the opening of the week on a clean jump due to frost and ice at the West and Northwest and an excited demand. Shorts covered in a hurry. Another thing that discouraged shorts was the big drop in the American visible supply. It was no less than 3,461,000 bushels. There was no disappointment in the size of the decrease this time. It was nearly 1,200,000 bushels greater than in the same week last year. The total is now down to some 7,500,000 bushels smaller than a year ago. In other words, it is 37,173,000 bushels, against 44,666,000 bushels at this time in 1924. But the biggest factor in the rise was the dangerous weather. Killing frost occurred from the Canadian line as far south as northern Kansas and eastward into Illinois and Indiana. It was a polar wave. It electrified the market. And a rise in corn of 4 to 9c. certainly did not make shorts less anxious to cover. The weather was the coldest for this time of the year for 70 years. Some said the coldest ever known on May 25. Outside buying was big. Leading operators are supposed to have lent a hand. The trading was on a big scale under the stimulus of bad weather and dwindling supplies. The weather had recently been dry in the spring wheat region, but violent winds and rains late last week were accounted of dubious benefit, especially as they were followed by freezes over Sunday and Monday. The weather on Monday, according to some reports, was the coldest on record for that date. Prices generally ended on the 25th inst. at only trifling reactions from the top. For Eastern interests, meaning mostly New York, were big buyers. Profit taking, Liverpool's sluggish rise of only 1 to 1½d. and the lack of export business counted for nothing. Europe's crop outlook is considered good, but the American prospects dominated. Europe's idea of the recent world crop situation may be gathered from Broomhall's recent remarks to the effect that "in Russia the new crops are irregular, but in the region to the south are average. In other European countries the new crop prospects are good. North African wheat is ripening and a good yield is anticipated. Indications point to wheat yields in Europe this year of 1,600,000,000 bushels, against 1,408,000,000 a year ago and 1,416,000,000 bushels an average crop." Later prices advanced on reports that serious damage had been done in the Northwest by the recent polar wave. That section, too, needs good rains at once. On the 28th inst. prices advanced 3 to 4½c. on July and September and 1c. on May, despite weak and disappointing cables from Liverpool, where they think American damage has been exaggerated. Bad crop accounts came from some parts of the West. Some of them are doubtless exaggerated. But it was significant that much of the advance was held despite pre-holiday liquidation and the absence of any important export business. Damage reports on winter wheat are persistent. There was no pooh-poohing them down. Effects of the recent freeze are beginning to appear in Illinois, Indiana and Ohio. But drought is an outstanding factor, too. Some call it the worst. As the Government report of Monday will comprise later data than those of private statisticians, it will be all the more interesting, perhaps all the more effective, on that account. Both spring and winter wheat may be affected. Both suffer from drought. To-day prices declined 1 to 4¼c., the latter on May, on pre-holiday liquidation with export business dull. Also, an outstanding factor was such large deliveries on May contracts as 1,200,000 bushels. That pushed May wheat down at once. In Winnipeg there was a drop in May of 6½c. Final prices show a loss for the week on May of 2¾c., while other months were 8c. higher on July and 3c. on May.

Indian corn in the advance of 4 to 9c. on the 25th inst. led the way upward for grain. Ice was reported in Illinois and Iowa. The best sections were hit hard if half the reports are to be believed. The plant was in a tender stage. Corn and potatoes, it was said, were turning black. Minnesota sent gloomy reports. To make matters worse, the forecast on the 25th inst. pointed to further frosts. Big trading followed in a wave of excitement that swept prices up with resistless force. And most of the advance was held at the close. Heavy profit taking was promptly absorbed by the wild demand. As specimens of the private wires received, Iowa advices said: "Ice in the water troughs. Damage unknown, but it must have killed corn." Davenport, Iowa: "Heavy frost her last night and 38 degrees at 8.45 this morning. Ice formed in bird baths in town thick as window panes." Donahue, Iowa: "Heavy frost to-night; potatoes and corn turning back. A grain company at West Liberty reported ice also, and says that corn must have been frozen." Loda, Ill.: "Found ice a good quarter inch thick here. Estimate two-thirds of corn area in central Illinois is subject to serious damage; too early to determine amount of loss." Lincoln, Neb.: "Heavy frost on lowland and light frost on upland. Corn is up to a good stand; some damage may result from frost; alfalfa fields show much frost damage due to cold some time back." Meanwhile the American visible supply last week decreased 2,199,000 bushels, against 2,214,000 in the same week last year. The total is now down to 17,383,000 bushels, against 13,252,000 a year ago. That is not so formidable as it was at one time. But the weather was the dynamic thing. It pushed corn to the front early in the week as the real leader of the market. There will have to be a great deal of replanting at the West. The lowest temperatures in parts of the West for 70 years past will make that imperative. It is apparent that early planted corn has received a backset that will necessitate so much replanting and so lower vitality of such as is not killed that the advantage of an early start is more than lost. Later warmer weather caused a decline. The Iowa weekly report said that corn was in better condition than a year ago, in

spite of many adversities. First planting was practically finished. The bulk of the crop is up. Cultivation was well started in the badly frosted areas; one-fourth to one-half of the corn will probably have to be replanted. For the State as a whole not more than 5 to 10% acreage will be replanted, as compared with 13% last year. Lincoln, Neb., wired that corn was coming along finely, with no replanting as yet. To-day prices gave way somewhat on pre-holiday liquidation and better weather at the West. Showers were reported there. They were needed. It is true that copious rains are required to remedy the situation after a prolonged period of drought. And crop reports are more or less conflicting. Still, so far as it went the weather was better. Prices felt it. The ending for the week, however, was at a rise of 3 to 4¼c., the latter on September.

Oats naturally felt the impetus given by the upward sweep of all grain prices early in the week as the West felt the grip of frosts and freezes in a time of extraordinary weather. With wheat and corn up 2 to 5½c. oats could not remain unaffected. It is true the demand was nothing very marked. Exporters did but little. But shorts covered and there was some outside buying, even if not on a very large scale. Prices on the 25th inst. advanced 2 to 2⅜c., and held most of the rise at the close. Later prices reacted on long liquidation as the weather became warmer. Exporters took 20,000 bushels on the 26th inst. Prices advanced 2¼c. on the 28th inst. owing to some unfavorable crop advices, in spite of the fact that oats were supposed to have largely escaped damage in the recent cold wave. Chicago deliveries on the 28th inst. were 102,000 bushels. Nebraska and Iowa need rain; the plant is suffering. In North Dakota it is recovering rapidly from the recent freezes. But South Dakota complains of heavy damage by freezes and now needs rain. Export business has ceased, for the time being at least. To-day prices acted in the main very steady. It is true they were lower at one time in sympathy with the decline in other grain, but later came a good rally. At one time prices were 1 to 2c. higher than at the close on Thursday. The ending for the week showed a net advance of 3 to 4¾c.

Rye advanced in sympathy with a sharp rise in wheat and corn. December rye was especially sensitive to the jump in other grain on the 25th inst. of 2 to 5½c. New crop rye deliveries advanced on that day 4 to 5¾c. Freezing or frosty temperatures at the West played their part as well as the rise in other grain. There was anxiety about the rye crop. And the American visible supply decreased last week 395,000 bushels. If noticeably less than the decrease of last year of 528,000 bushels, this drop left the total only 10,261,000 bushels, against 19,260,000 a year ago. The statistics, in other words, tighten as the crop year draws near its close. The export demand, however, was disappointing. Later advices reporting the possibility of serious damage by the recent freezing weather caused an advance of 2½c. on distant months, though near deliveries weakened with other grain. Broomhall says that Europe's rye yield is estimated at 1,440,000,000 bushels, against 1,240,000,000 a year ago and an average crop of 1,216,000,000. Its barley yield is estimated at 866,000,000 bushels, against 718,000,000 a year ago and an average crop of 741,000,000 bushels. Export business for the most part disappeared. Prices on the 28th inst. made a small net advance after being at one time 2c. higher on July and September. September was the best sustained. Trading, however, lacked snap. To-day prices declined with the rest of the list. No export business was reported. There was nothing to differentiate rye from other grain. But if May rye shows a loss for the week of ¾c., other months advanced 5½c. on July to 13c. on September. That is to say, September at one time to-day was 118½c., after closing on Friday, May 22, at 105¾c. The secret of this is the alarm about the crop following the big freezes and dry weather.

WEATHER BULLETIN FOR THE WEEK ENDING MAY 26.—The general summary of the weather bulletin issued by the Department of Agriculture, indicating the influence of the weather for the week ending May 26, follows:

The outstanding feature of the weather during the week ending May 26 was the gradual rise in temperature soon after the beginning to abnormally high values in the central and eastern portions of the country and the sudden change near the close of the week to unseasonably low temperatures. The weather was rather cool at the beginning of the week in the interior and Eastern States, but by Friday, the 22nd, most stations in the great valleys and central-northern districts reported maximum temperatures of 90 degrees to 100 degrees, many of which were the highest of record for May. By the following day, however, it had become much cooler from the upper Lake region eastward, and by Monday morning the cool wave had overspread all sections east of the Rocky Mountains, except the extreme South; many stations in the Central States reported the lowest temperature of record for so late in the season, with freezing weather in some northern Ohio Valley districts and at points in the central Appalachian Mountains.

Early in the week there were further heavy rains in Florida, and during the first two days widespread showers occurred in Central and Northern States west of the Rocky Mountains. The latter part of the week was showery over the Northern States east of the Great Plains, with snow in the Lake region, and rainfall was quite general in the Atlantic coast area with excessive rainfall in southern Florida. Elsewhere precipitation was of a local character, with generally fair weather prevailing in the South and Southwest.

Notwithstanding the unusually warm weather over much of the eastern half of the country during the middle days of the week, the weekly mean temperatures were considerably below normal from the Lake region eastward and moderately below in the Ohio and lower Mississippi Valleys, as shown on Chart I. The averages were considerably above normal in most sections west of the Mississippi River, particularly in the central Great Plains where the plus departures were from 7 degrees to 9 degrees.

The maximum temperatures for the week were above 90 degrees in most localities east of the Rockies, except from the Lake region eastward; they reached 100 degrees or higher in some trans-Mississippi districts. The minima were below freezing in a number of localities from the Ohio Valley northward, but freezing weather was reported from only a few points west of the Mississippi River.

Chart II shows that rainfall was heavy to excessive in the Florida Peninsula, and moderate to rather heavy falls occurred in the Middle Atlantic States. Good local showers were reported from portions of the west Gulf area and heavy rains for the season occurred in much of California. Precipitation was rather heavy also in parts of the northern Rocky Mountain States and in some central-northern districts. Elsewhere rainfall for the week was generally light, especially in the western portions of the Winter Wheat Belt where most stations reported no appreciable amounts.

The weather, on the whole, was unfavorable for agricultural interests in most of the central and eastern portions of the country. There was much frost damage to tender truck and garden crops in the Lake region and some North-Central States, with more or less damage to corn in the north-central portion of the principal producing area. While there was more or less injury from the cold and frost in many localities from the central and northern Great Plains eastward to the Appalachian Mountains, it was most severe in Michigan, Wisconsin, and in the central and northern portions of Indiana and Illinois.

It appears that fruit trees mostly escaped serious harm, but small fruits were badly damaged in many sections, and the growth of vegetation, in general, was set back considerably. In the South no material harm resulted from the cool weather, though growth was checked the latter part of the week. The lack of moisture is now being felt in most sections between the Rocky and Appalachian Mountains, but rainfall during the week was very helpful in the Atlantic coast area. Generous, widespread rain, followed by warmer weather, is needed in most sections east of the Rocky Mountains, especially in the Ohio and upper Mississippi Valley States and the southern Great Plains. From the Rocky Mountains westward the week was favorable, except for dryness in the far Southwest. Rainfall did some harm in California, but unusually good weather prevailed over the Pacific Northwest.

SMALL GRAINS.—Deficient moisture in many sections of the Winter Wheat Belt, and unusually high temperatures in the western portion have

had an unfavorable effect on winter wheat. The progress of the crop ranges from fair in most of the Ohio Valley to poor in Oklahoma and parts of Texas. Some deterioration was reported from Illinois, and there has probably been some frost damage in Missouri. In Oklahoma rain has been badly needed and wheat is generally poor. The crop is beginning to ripen in southern Kansas and heading has begun as far north as the Ohio Valley and southern Iowa. While spring wheat is generally doing well, growth was slow and the crop is needing moisture in some sections, especially in parts of South Dakota and Minnesota. Good rains occurred in the Red River Valley, but rain is badly needed in southern Minnesota, and progress was slow in that State. in North Dakota wheat is recovering nicely from the freeze of last week.

The progress and condition of oats are generally fair, except in Indiana, Illinois, and Minnesota where drought and frost have been harmful. Barley and rye are making fair progress, though needing rain in some sections. is coming up nicely in Arkansas, but needs rain in Louisiana.

CORN.—Corn suffered a severe setback by cold weather the latter part of the week in the middle Mississippi and Ohio Valley States, and considerable damage was done in some localities, which will necessitate replanting, though much of the damaged corn will recover. While corn was badly frosted in some localities of Iowa, the permanent damage appears to have been slight, with the general condition and progress of the crop fair, and better than last year. Progress was very good in Kansas and Nebraska, and fair in Oklahoma, though rain is needed in some localities of the latter State. Rains were beneficial in the middle Atlantic area, but moisture is needed in most of the South.

The weather during the week was rather favorable for cotton and very good progress was noted in most sections until near the close when growth was checked in northern and eastern portions of the belt by cool weather. Late-planted cotton, however, is beginning to show need of moisture in many localities.

In Texas cotton grew well in the north and the Rio Grande districts; elsewhere the early-planted made fair progress, but the late crop needed moisture; there was little complaint of insect damage. In Oklahoma and Arkansas progress was very good, except that late cotton made only fair advance in the former State and the coolness the latter part of the week checked growth in the latter. Growth was generally satifactory in Louisiana with plants squaring heavily.

Advance was rather slow in Mississippi and Alabama because of cool nights, and stands are irregular in the latter State, though mostly good. Growth, stands, and general condition of the crop are mostly satisfactory in Georgia, though late cotton is very irregular and its growth was slow. Improvement was noted in Florida and showers were beneficial in the Carolinas, but cool weather near the close of the week was unfavorable. Germination has been rather poor in Virginia, but stands are mostly good in southern Illinois, and conditions were favorable for cotton in the far Southwestern States.

The Weather Bureau also furnishes the following resume of the conditions in the different States:

Virginia.—Richmond: Temperature variable with moderate showers. Very favorable for wheat, oats, pastures, and meadows, which are fair to good in most sections. Wheat heading well and prospects good. Corn planting nearly finished. Showers improved conditions for setting tobacco and sweet potato plants. Replanting corn and cotton in some localities; germination poor account cool weather. Good crop strawberries, mostly marketed, southeast.

North Carolina.—Raleigh: Beneficial rains at beginning, followed by warmth, favorable; much too cold at close; frost in mountains. Excellent advance of cotton, corn, tobacco, and truck until Sunday; very poor thereafter. Wheat heading to mountains; harvesting oats in east. Apples dropping badly. Mayflower peaches and dewberries ripening.

South Carolina.—Columbia: Nights too cool at beginning and close of week. Condition of cotton fair and improved by midweek heat; stands now very good and chopping general, but considerable replanting; few weevil south and east. Early corn vigorous and intermediate shows good stands; planting continues. Cereal harvests quite general with only fair results. Tobacco, truck, and minor crops made slow growth and need soaking rains.

Georgia.—Atlanta: Light rains at beginning and close of week favorable, but very dry in scattered counties, and nights too cool for rapid growth. Progress of early cotton very good; also stands and condition, but late very irregular and growth poor; chopping progressing favorably in central and northern portions. Corn advance and condition fair; planting about finished and mostly well cultivated. Harvesting cereals nearly completed.

Florida.—Jacksonville: Cotton improved in north and west, although backward in some localities owing to late germination. Corn, cane, and peanuts good progress. Tomatoes fruiting in north. Tobacco improved, but plants small. Setting sweet potatoes. Citrus trees improved by rain, but much fruit lost during drought. Lowlands under water in Miami district and tomatoes damaged.

Alabama.—Montgomery: Cool weather at close unfavorable for all crops; scattered, light rain latter part beneficial, but good, general rain needed. Corn mostly doing well; silking and tasseling locally in south. Minor crops improved, but showing bad effects of previous dry weather. Transplanting sweets good progress. Fair advance of cotton; stands vary from poor to very good, but mostly good; chopping progressing; replanting continued in scattered areas and some coming up.

Mississippi.—Vicksburg: Progress of cotton and corn mostly poor; nights cool, especially at beginning and close of week with light frost on lowlands some localities of north and north-central. Fair progress in chopping cotton and cultivation of cotton and corn. Progress of truck fair; of pastures good.

Louisiana.—New Orleans: Scattered, light rain insufficient for most crops; favorable temperatures, except too cool at close. Progress and condition of cotton fair to excellent; squares numerous. Rain needed in most localities for corn, rice, truck, sweet potatoes, and pastures. Sugar cane growing well. Work well advanced.

Texas.—Houston: Weather favorable in north and west and mostly unfavorable in central and south account dryness. Progress of winter wheat, oats, pastures, corn, and minor crops good in north and west and poor elsewhere, with condition poor to fair; corn failure in drier section of south. Progress and condition of rice good. Progress and condition of cotton very good in north and Rio Grande Valley; elsewhere early crop fair and late poor, due to dryness; planting nearly completed and very good progress in chopping; insect damage slight.

Oklahoma.—Oklahoma City: Generally favorable, but rain needed in many localities, especially in west-central and northwest. Cotton planting nearing completion in east and south; early-planted very good condition and progress of winter wheat generally poor; rain badly needed in principal area and some damage by heat; crop will be short and some being plowed under. Progress and condition of corn fair; needs rain locally; fields clean. Oats fair to good; some heading short. Other crops good condition and progress.

Arkansas.—Little Rock: Progress of cotton very good, except last two days when too cool; stands fair to excellent and condition usually very good; excellent progress in chopping and cultivation. Progress and condition of corn very good, except in some central and northeastern portions were poor due to cold; unusually well cultivated. Wheat improving in northwest. Rice coming up nicely and other crops good to excellent in most portions.

Tennessee.—Nashville: Very good advance of cotton first part, then very poor, due to cold and dryness; condition generally poor to fair. Progress and condition of corn generally very good. Condition of winter wheat poor to very good; progress fair. Oats, potatoes, tobacco, sweet potatoes, and hay fair to good, but getting dry.

Kentucky.—Louisville: Extremes of temperature and cold, dry winds retarding most crops, especially gardens; tender vegetables damaged by frost. Progress of early corn fair; color not good; planting nearly done, but hindered in north by dry soil; germination mostly satisfactory. Progress of winter wheat very good; nearly all headed. Tobacco plants growing slowly; setting awaits rain.

THE DRY GOODS TRADE.

Friday Night, May 29 1925.

Although cooler weather throughout the greater part of the country during the past week tended to restrict repeat business, a better feeling was noticeable in the markets for textiles. The feature of the week was the continued heavy consumption of raw silk, which has been extensively bought by manufacturers covering their summer needs due to the sustained demand for all classes of silk fabrics. Sales have broken all records with silk and cotton and silk and rayon mixtures, which are the favorites to the exclusion of many of the staples. Also, the use of silk for outer garments for the winter season is now practically assured, as the new cloaks are being interlined with worsted, which will make them both warm and stylish. In the hosiery trade more silk has been consumed than ever before, while demand for silk undergarments has broadened rather than otherwise. Sentiment has also improved in the woolen and cotton goods divisions. Although inquiries were said to have quickened somewhat, actual sales still continue to be confined to small lots, and prices were none too firm, as buyers adhered to their policy of keeping within well-defined limits so as to meet the restricted demand from retailers. In regard to the floor covering division, reports were conflicting. While some reported a satisfactory volume of incoming business, others claimed orders to be scarce. The latter said that such a condition was not unusual for this time of the year and did not expect any change until after retailers had completed their inventories. Others reported a good volume of business received from points in the West and Middle West. Stocks, particularly of the medium-priced axminsters, were said to be rapidly disappearing. Aiming at a better balance between supply and demand has materially helped the statistical position of manufacturers.

DOMESTIC COTTON GOODS: Despite further plans for curtailment of production at mills situated in the South, sentiment improved somewhat in the markets for domestic cotton goods during the week. Although bids and inquiries were reported to be locally better, actual sales continued to be restricted to small lots covering immediate needs. Fabrics receiving the most attention were fancies and rayon and cotton and silk mixtures, with many new samples of these items displayed. Some repeat business was also reported to have been received for the better grades of ginghams and fine yarn fancies. Generally, however, buyers were disposed to await the issuance of the Government cotton crop report due this coming Tuesday before making commitments for future delivery. On the other hand, wholesalers have been busily engaged taking inventories for the first half of the year and as a result there has been little demand for staple domestics. Such items as sheetings, sheets and pillow cases were sold in very small lots at irregular prices owing to the pressure to sell some of the less known brands. In regard to plans for curtailment, it was reported that most of the mills in this division would shut down Thursday night and reopen on Monday morning. Last week most of the reports of curtailment emanated from the New England States. This week the South supplied the news. Reports from Georgia and thereabouts, stated that beginning this week the larger mills would curtail their output two days a week and if this does not improve the situation, the time would be extended. It was further stated that offers for goods were below replacement costs—in most cases cloths sold on a basis of not over 21 to 22 cents a pound for raw cotton. Print cloths, 28-inch, 64 x 64's construction, are quoted at 6¾c., and 27-inch, 64 x 60's, at 6¼c. Gray goods in the 39-inch, 68 x 72's construction, are quoted at 10¼c., and 38-inch, 80 x 80's, at 12¼c.

WOOLEN GOODS: While there have been indications of a gradual restoration of confidence in the markets for woolens and worsteds, buying operations continued to be characterized by conservatism. A firming price tone coupled with a promising expansion of duplicate orders was taken to indicate trade improvement within the near future. Meanwhile the current trend as to fabrics wanted was claimed to be very irregular, and some local mill agents stated that cancellations have been almost as numerous as duplications. Flannels, however, were in good demand and steadily increasing in popularity. In the women's wear division, needlepoint bolivias, according to indications, will probably prove to be one of the brightest spots. Of particular interest to the trade was a news item stating that the recent fluctuations in raw wool have led to plans for the issuance of world crop estimates. A move was also said to have been started to have the International Institute of Agriculture at Rome compile the statistics. Experts here held that the markets were influenced by private estimates.

FOREIGN DRY GOODS: An irregular undertone was noticeable in the markets for linens. Although inquiries for various items quickened somewhat, actual orders still held to small proportions. While dulness continued to prevail among the principal divisions, such as the dress and household lines, a slight improvement was noticeable in other directions. This was particularly so among a number of specialties which have begun to move in a more encouraging way. On the other hand, handkerchiefs, cambrics and sheers have failed to do as well as expected. The dress and household linen divisions were dull, with sales remaining at small proportions. In regard to dress linens, retailers were said to be attempting to find a new outlet for their merchandise by making up the cloth into bedspreads with decorative stitching. Burlaps have ruled dull and quiet. However, the arrangement of the Bemis Bag Co. to consolidate the business of the Riegal Sack Co. has prompted the hope that with the concentration of business within a few hands, there will be less ruinous competition. Light weights are quoted at 6.90c., and heavies at 9.15c.

State and City Department

NEWS ITEMS.

Chicago Sanitary District, Ill.—*New Bill as Emergency Measure to Increase District's Debt Limit Rejected.*—On May 21 the new bill, as an emergency measure, introduced after the first one had been vetoed by Governor Small (see V. 120, p. 2582), proposing to increase the district's indebtedness by about $19,000,000 was voted down in the local House of Representatives. Because of the emergency clause, it is stated, the new bill required 102 of the 153 house votes. Only 97 were received.

However on May 26, following Governor Small's agreement to sign the bill as soon as it passed the legislature, the bill was recalled to second reading in the House for the agreed amendments and was scheduled for passage in that branch on May 27, according to the "Chicago Tribune" of even date. The "Tribune" further says:

Mr. Small withdrew his drastic demands for legislation to make the sanitary district a subsidiary of the state govenment. He asked only that a referendum be required on bond issues after Jan. 1 1928, and that the drainage board submit to the state authorities for approval proposals for the sale of railroad and waterway terminal sites.

Maine (State of).—*Voters to Pass on Two Proposed Amendments to the State Constitution.*—At the 1925 session of the Legislature there were passed two resolutions submitting to the voters of Maine on Sept. 14 two proposed amendments to Section 17 of Article 9 of the State Constitution.

The first resolves that Section 17 of Article 9 be amended by adding to the section the following: "The Legislature may authorize, in addition to the bonds hereinbefore mentioned, the issuance of bonds not exceeding $3,000,000 in amount at any one time, payable within 51 one years at a rate of interest not exceeding 4% per annum, payable semi-annually, which bonds or their proceeds shall be devoted solely to the building of a highway or combination highway and railroad bridge across the Kennebec River, between the city of Bath and the town of Woolwich," so that said section, as amended, shall read as follows" (we place the new matter in italics):

Sec. 17. The Legislature may authorize the issuing of bonds not exceeding $10,000,000 in amount at any one time, payable within 41 years, at a rate of interest not exceeding 5% per annum, payable semi-annually, which bonds or their proceeds shall be devoted solely to the building of State highways and intra-State, inter-State and international bridges: provided, however, that bonds issued and outstanding under the authority of this section shall never, in the aggregate, exceed $10,000,000; the expenditure of said money to be divided equitably among the several counties of the State. *The Legislature may authorize, in addition to the bonds hereinbefore mentioned, the issuance of bonds not exceeding $3,000,000 in amount at any one time, payable within 51 years, at a rate of interest not exceeding 4% per annum, payable semi-annually, which bonds or their proceeds shall be devoted solely to the building of a highway or combination highway and railroad bridge across the Kennebec River between the city of Bath and the town of Woolwich.*

By the second resolve it is proposed that Section 17 of Article 9, as amended by Article 43 of the Constitution, be "further amended by striking out all of said section and inserting in the place thereof the following, so that said section, as amended, shall read as follows:

Sec. 17. The Legislature may authorize the issuing of bonds not exceeding $16,000,000 in amount at any one time, payable within 41 years, except that all bonds issued under authority of this resolve during and after the year 1925 shall be payable within 15 years, at a rate of interest not exceeding 5% per annum, payable semi-annually, which bonds or their proceeds shall be devoted solely to the building of State highways and inter-State, intra-State and international bridges: provided, however, that bonds issued and outstanding under the authority of this section shall never, in the aggregate, exceed $16,000,000, which said bonds issued during or after the year 1925 shall be serial and when paid at maturity, or otherwise retired, shall not be reissued: the expenditure of said money to be divided equitably among the several counties of the State.

Massachusetts (State of).—*State Excise Tax on Foreign Corporations Doing Interstate Business Declared Invalid by U. S. Supreme Court—Decision of State Supreme Court Reversed.*—In an opinion handed down on May 4 by Associate Justice MacReynolds of the U. S. Supreme Court the State of Massachusetts excise tax on foreign corporations doing nothing but interstate business was held void. On two other occasions Massachusetts it is stated has tried to lay an excise tax of this character and each time the Supreme Court has refused to permit it. The case, the Alpha Portland Cement Company versus the State of Massachusetts, was carried to the Supreme Court on an appeal by the cement company after the State Supreme Court had upheld the tax levy. Associate Justice MacReynolds in his opinion quoted from the decision of Cheney Brothers vs. Massachusetts in which the Supreme Court (U. S.) said it thought the tax on this company was essentially a tax on doing an interstate business and therefore repugnant to the commerce clause. He declared that the tax challenged by the cement company did not differ materially from that declared unconstitutional in the Cheney case, "and cannot be enforced against a foreign corporation which does nothing but interstate business within the State." He further declared that "the introduction of an extremely complicated method for calculating the amount of the exaction does not change its nature or mitigate the burden." "Washington Advices" dated May 4 to the "New York Times" in reporting the decision said:

Attempts by the State of Massachusetts to tax a corporation doing nothing but interstate business, so far as the Commonwealth is concerned, were denied by the Supreme Court today in an opinion handed down by Associate Justice MacReynolds. On two other occasions Massachusetts has tried to lay an excise tax of this character and each time the Supreme Court has refused to permit it.

The case was that of the Alpha Portland Cement Company against the State of Massachusetts. Under the State law a tax was levied against the total value of capital shares of the company attributed to transactions within the State and also the proportion of net income. But the corporation contended that its principal offices were in Pennsylvania, its mills outside of Massachusetts and that, while it kept a Boston office, it did not have a bank account in that city, and that its property there was nothing but office furniture.

As stated by the Supreme Judicial Court in Massachusetts from which the case arose, the dispute was thus summarized:

"The issues between the parties relate solely to the correct interpretation of our corporate tax law as to foreign corporations and to the constitutionality of that law in its application to the petitioner. It is conceded by the Attorney General that the petitioner was engaged in this Commonwealth exclusively in interstate commerce."

In its opinion which upheld the right to lay the tax, the Massachusetts Supreme Court said:

"The statute is an attempt to measure the excise on foreign corporations solely by the property and net income fairly attributable to the business done within this Commonwealth. This excise tax is in place of any other tax on personal property within the Commonwealth from which, except as to machinery used in manufacture or in supplying and distributing water, foreign corporations are expressly exempted."

Counsel for the Commonwealth held that the tax was imposed on foreign corporations for the privilege of doing business in Massachusetts, and that there was no discrimination either against foreign corporations or interstate commerce.

In his opinion today Justice MacReynolds quoted from the decision of Cheney Brothers vs. Massachusetts in which the Supreme Court said it thought the tax on this company was essentially a tax on doing an interstate business and therefore repugnant to the commerce clause.

He also cited the case of International Paper Company vs. Massachusetts in which the Supreme Court held that the company did no local business and was therefore not subject to a tax.

"It must now be regarded as settled that a State may not burden interstate commerce or tax property beyond her borders under the guise of regulating or taxing intrastate business," said Justice McReynolds. "So to burden interstate commerce is prohibited by the commerce clause; and the Fourteenth Amendment does not permit taxation of property beyond the State's jurisdiction."

The tax challenged by the Portland Cement Company, the Court declared, did not differ materially from that declared unconstitutional in the Cheney case, "and cannot be enforced against a foreign corporation which does nothing but interstate business within the State. The introduction of an extremely complicated method for calculating the amount of the exaction does not change its nature or mitigate the burden."

Justice Brande is dissented from the majority opinion.

Michigan (State of).—*Legislature Adjourns.*—The regular biennial session of the State Legislature which began Jan. 7 has adjourned.

A measure passed during the session is the Evans municipal bond bill, designed it is stated to limit the spending epidemic at present prevalent among municipalities of the state. The bill requires the issuance of serial bonds or other bonds when a sinking fund is efficiently maintained. Certificates that the sinking fund payments are up to date and the financial condition of the municipality is in accord with the law will be necessary before new bonds can be issued. Handling of the certificates is placed in the hands of the State Treasurer.

Another bill passed places further restriction on bonds to be used by municipalities. It provides that all bonds must be serialized and the maturity of the issue cannot be later than the expected life of the improvement. A joint resolution declaring it is the intent of the Legislature to buy the Detroit Grand Haven & Milwaukee RR. to enforce payment of ad valorem taxes, was also favorably acted upon by the Legislature, according to the "Detroit Free Press" of May 3, which further said:

The road has been operaing for years under an old charter and is paying but one-tenth of the tax which would be levied if regular rates were applied.

The City of Detroit also desires release of certain property owned by the road, a subsidiary of the Grand Trunk, for the Woodward Avenue traffic artery project.

Purpose of the resolution is to abrogate the original charter. If the Grend Trunk persists, however, backers of the proposal declare they will carry the purchase plan through. Under the same charter, the State would buy the road for about $15,000,000.

The resolution is preliminary to an Act which would be passed in 1927 under the plan. The proposal would then have to be submitted to popular vote and stand the test of the courts.

Other legislation passed includes a measure providing for a 2-cent tax per gallon on gasoline. A proposal for a constitutional amendment to provide for an income tax was amongst the legislation turned down during the session. A previously proposed constitutional amendment for an income tax was defeated by the voters on Nov. 4 last (see V. 119, p. 2670).

Ohio (State of).—*New Gasoline Tax Law Held Valid by State Supreme Court.*—On May 19 the State Supreme Court declared the new state gasoline tax law valid. The decision in the case was set forth in an opinion by Judge James E. Robinson and was concurred in by all the Judges, except Chief Justice C. T. Marshall. The law in question was passed by the 1925 legislature over Governor Donahey's veto and authorizes a state tax of 2 cents a gallon on gasoline. The "Cincinnati Enquirer" of May 20 in part said with regard to the decision:

The test of the law was begun by the Ohio State Automobile Association through a suit by C. C. Janes, Columbus, Executive Secretary. The bill contains a provision which forbids reduction in the amount of motor car license tag fees for the current year, although for succeeding years they are reduced 50 per cent. Janes sought a writ of mandamus to compel issuance of a set of license plates at the reduced fees, contending that the Brown act is not in effect because of the referendum. His petition was denied and dismissed.

The decision in the case is set forth in an opinion by Judge James E. Robinson. In this it is held that the act is a law providing for a tax levy and comes within the exception of the referendum provisions, which say that laws providing for tax levies shall not be subject to the referendum.

Furthermore, the Court says, the act "does not lay a tax upon property in violation of the provisions of 'uniform rule' section of the Ohio constitution, but does levy a tax upon the use of such property for certain designated purposes."

Touching further upon the law, the Court says, in effect, that the act is not separable so that parts of it might be subject to referendum and other parts not subject by saying that the act appropriates the funds obtained "to certain definite purposes and no other." These are enumerated as a rotary fund, to refund taxes unlawfully collected, to the State Highway Department, to maintain and repair roads, to the counties for similar purposes and to municipalities for maintaining and repairing streets.

The Court says that the phrase "current expenses," as used in the exceptions to the referendum, "includes the expense of keeping in repair and maintaining the highway as distinguished from new construction."

The "Enquirer" also says:

The law also is under attack on constitutional grounds in the Common Pleas Court of Franklin County, but it is presumed the auxiliary suit now may be dismissed unless new questions can be raised.

Vermont (State of).—*State Law Relating to the Issuance of Municipal Bonds Amended.*—At the 1925 session of the Legislature several sections of the law passed in 1917 (Act No. 105, Laws of 1917) relating to municipal indebtedness, bonds and securities were amended. The sections affected constitute Sections 4077, 4078, 4081, 4083, 4084, 4085, 4086, 4088 and 4103 of the General Laws.

Section 4077, as amended, adds to the municipal corporations, mentioned therein, graded or other school districts and lighting districts. As amended, this section also prescribes the purposes for which bonds may be issued.

Section 4077 now reads (the changes made being indicated by italic type):

Sec. 4077. The term "legislative branch" of a municipal corporation as used in this chapter shall mean the mayor and board of aldermen of a city, the board of selectment of a town, the trustees of a village, the board of school directors of a town school district and the trustees or prudential committee of *a graded or other school,* fire *or lighting district.*

The word "improvement" as used in this chapter shall include, apart from its ordinary signification, the acquiring of land for municipal purposes, the construction of, extensions of, additions to, or remodeling of buildings or other improvements, also furnishings, equipment or apparatus to be used for or in connection with any existing or new improvement, work, department or other corporate purpose.

Debt may be incurred and bonds issued under this Act for any improvement, but no bonds shall be issued for the purpose of providing funds for ordinary expenses of any municipal corporation.

Section 4078, which prescribes the necessary steps to take before bonds can be issued, was only slightly amended. Section 3 now reads, the new matter being italicized and the matter taken out being shown in boldface brackets:

Sec. 2078. When the legislative branch of any municipal corporation at any regular meeting or at a special meeting called for that purpose shall by resolution passed by a vote of two-thirds of all its members determine that the public interest or necessity demands improvements *and that* the cost of [which] *the same* will be too great to be paid out of the ordinary annual income and revenue, it may at any subsequent regular meeting of such legislative branch or at a special meeting called for that purpose, by a vote of two-thirds of all its members, order the submission of the proposition of making such public improvements, and of incurring a bonded debt to pay for the same, to the qualified voters of such municipal corporation at [an election] *a meeting* to be held for that purpose. The [ordinance or] warning calling such [election] *meeting* shall state the object and purpose for which the indebtedness is proposed to be incurred, estimated cost of the improvements, amount of bonds proposed to be issued therefor and the maximum rate of interest to be paid, and shall fix the place where and the date on which such election shall be held, the hours of opening and closing the polls, the manner of holding said [election] *meeting*, the questions to be submitted, and the form of ballot to be used, *which shall be in the following form:*

I. Shall the following public improvements, viz.: (stating them) be made?
If in favor of the improvements make a cross (X) in this column.
If opposed to the improvements make a cross (X) in this column.

II. Shall bonds of the [county] .....*of*.....to the amount of $.....bearing interest at not to exceed.....per cent, be issued for the purpose of paying for the above described public improvements?
If in favor of the bond issue make a cross (X) in this column.
If opposed to the bond issue make a cross (X) in this column.

Section 4081, which was amended in 1919 and 1921, is again amended with regard to the maturity of the bonds. Under the change bonds are required to mature annually in equal or diminishing amounts. Section 4081 is as follows:

Sec. 4081. All bonds issued under this chapter shall be of a denomination of not less than one hundred dollars nor more than one thousand dollars, and shall draw interest at a rate not to exceed five per cent per annum, payable semi-annually; such bonds shall be payable serially, the first payment to be deferred not later than from one to five years after the issuance of the bonds and subsequent payments to be continued annually in equal or diminishing amounts so that the entire debt will be paid in not more than twenty years from the date of issue. In the case of bonds issued for the purchase or development of a municipal forest, the first payment may be deferred not more than thirty years from the date of issuance thereof, and thereafter such bonds shall be payable annually in equal or diminishing amounts so that the entire debt will be paid in not more than sixty years from the date of issue.

Section 4083 seems to have been amended merely so as to make the language more concise. It now reads:

Sec. 4083. The legislative branch shall determine the rate of interest, the denominations, the time and place of payment, and the form of such bond to be used. If bonds are to be registered, they shall be registered as provided by this chapter.

Section 4084 has also been only slightly altered. Its present form is:

Sec. 4084. The legislative branch shall annually at the time of assessing the general tax levy, in addition to all other taxes, provide for the assessment and collection each year, until such bonds are paid, of a tax sufficient to pay, *and to* be applied to the payment of the interest on such bonds and such part of the principal as shall become due prior to the time the taxes are due in the next following year.

Under Section 4085, as amended, bonds before being sold must be advertised once at least, not less than five nor more than thirty days before date of sale in a newspaper published in the county or within fifty miles of the municipal corporation issuing the bonds and in the case of bond issues over $10,000 also in some financial paper in Boston or New York City. It was previously provided that the bonds were to be advertised once a week for three consecutive weeks on the same day of the week, the last publication to be not more than ten days nor less than three days before day of sale, in a newspaper published in the issuing municipality, and if a municipality in which no newspaper is published, then bonds were to be advertised in a newspaper having general circulation in such municipality. It was also originally provided that when the issue exceeded $25,000 one publication was also to be made in some newspaper having general circulation in Vermont and some financial paper published in Boston or New York. Section 4085, as amended, also grants authority to sell bonds at private sale, provided, however, that certain provisions of the section are first complied with. Section 4085 now reads:

Sec. 4085. The bonds issued under this chapter shall be sold to the highest bidder after being advertised once at least not less than five nor more than thirty days before the date of sale in a newspaper published in the county or within fifty miles of the municipal corporation issuing said bonds and in case of issues exceeding ten thousand dollars also in some financial paper published in Boston, Massachusetts, or New York, New York. The advertisement shall state the amount and denomination of the bonds, date of maturity, rate of interest, and the time and place where the bonds are to be sold. The legislative branch may reject any and all bids and in case all bids are so rejected they may advertise and call for new bids in the manner hereinbefore provided or in case after the bonds have been advertised for sale as provided in this chapter and no bids have been received, or all bids have been rejected and the whole or any part of the bonds remain unsold, those unsold may be sold by the legislative branch at private sale at not less than par and accrued interest.

Section 4086, amended, provides that in all other municipal corporations, as well as cities, the bonds issued must be signed by the Treasurer in addition to the other officials named. Under the amendment lighting districts are added to the list of municipal corporations heretofore mentioned in Section 4086. Section 4086 now reads:

Sec. 4086. Such bonds shall be signed by the mayor and treasurer of an incorporated city, by the treasurer and selectmen or trustees, as the case may be, of a town or village, by the treasurer and trustees or prudential committee, as the case may be, of an incorporated school district, lighting district, or of a fire district, and by the treasurer and board of school directors of a town school district, and the coupons to said bonds shall be signed by or bear the facsimile signature of the treasurer. If such municipal corporation has a corporate seal, such seal shall be affixed to such bonds, otherwise such bonds need not be sealed.

Section 4088 simply describes the form of the bond to be issued under the Act.

Section 4103, amended, reads as follows, the new matter added being placed in italics:

Sec. 4103. Notes, bonds or orders issued as evidences of obligations for money loaned to a county, town, town school district, village or incorporated school or fire district of this State shall be deducted in determining the average amount of deposits and accumulations under the provisions of Section 1, of No. 35 of the Acts of 1910. Bonds or obligations given or created in excess of the limit authorized by this Act and contrary to its provisions shall be void.

The existing power of a municipal corporation to authorize public improvements by a majority vote in a meeting duly called and held and to finance the same temporarily by the issue of orders or notes and to issue bonds therefor is not repealed or affected by the provisions of this chapter and the municipality may refund all or any portion of such temporary orders, notes or bonds in the method provided by sections 4089 *to* 4091 *provided, however, that no public improvement which has been voted upon in the manner provided in sections* 4078 *and* 4079 *shall be voted upon in any such meeting except in cases of emergency in which the vote stating the emergency shall be conclusive evidence of the existence of the emergency. The existing power of a municipal corporation to refund obligations representing indebtedness accumulated in the ordinary administration of the affairs of such municipality whether incurred for public improvements or for current expenses and with or without vote of such municipality is not repealed or affected by the provisions of this chapter except that the method of such refunding be as provided in said sections* 4089 *to* 4091.

Versailles Village School District (P. O. Versailles), Darke County, Ohio.—*State Attorney-General Asks For Reversal in School Bond Case—Present Finding May Affect Similar Bond Issues.*—State Attorey-General C. C. Crabbe has filed petitions in the State Supreme Court in which he seeks to have reversed the decision of the Court of Common Pleas and the Appellate Court of Darke County in the case of the $256,000 bonds sold by this district in 1923 to build a new school house in lieu of making repairs on the old building, as ordered by the Chief Inspector of Workshops and Factories. The question in the case is whether the Chief Inspector of Workshops and Factories, or the Director of Industrial Relations has the authority to issue such an order. Since 1913 the former has been doing so, it is stated, but the Darke County Courts held that the orders such as the one in question must be signed by the Director of Industrial Relations. In the Attorney-General's petitions for a review of the case, it is contended that doubt will be cast on similar bond issues unless the decision of the lower courts is reversed. The "Cleveland Plain Dealer," of April 28 in speaking of the action taken by Attorney-General Crabbe said:

Unless the state supreme court reverses the common pleas and appellate courts of Darke county, hundreds of thousands of dollars worth of bonds issued for new school buildings may be invalid, according to a petition filed by Attorney General C. C. Crabbe, in the State Supreme Court, today, asking for a reversal of the Darke County Courts.

The case involves directly the issuance of $256,000 worth of bonds by the Versailles village school district, Darke County, in 1923 to build a new school house in lieu of making repairs on the old building, as ordered by the chief inspector of worshops and factories.

The bonds were sold to the State Industrial Commission, and the teachers' retirement system, and are held by the state treasurer for them. The money has not been used but is in Darke County banks, awaiting the outcome of the suit.

The question involved is whether orders made by the chief inspector of workshops and factories in condemning buildings must be signed by the chief inspector or by the director of industrial relations.

Since 1913 the chief inspector has been signing the orders but the Darke County Courts held that the orders must be signed by the director of industrial relations.

According to the attorney general's petitions for a review of the case, a shadow of validity will be placed upon all such bond issues unless the decision of the Darke County Courts is reversed.

William F. Benoy, special counsel in the attorney general's office, is handling the litigation for the state.

Connecticut.—*List of Legal Investments for Savings Banks.*—Complying with Section 3976, General Statutes, Revision of 1918, the Bank Commissioner on May 1 1925 issued the list of bonds and obligations which he finds upon investigation are legal investments for savings banks. This list, as previously explained, is revised each six months; that is, during the first week of May and November. The Commissioner again calls attention to the wording of the law, which discriminates against the "Special Assessment" or "Improvement" bonds, or other bonds or obligations which are not the direct obligation of the city issuing the same, and for which the faith and credit of the issuing city are not pledged. The last list published by us was for May 1 1924, and was printed in full in the "Chronicle" of May 31 1924, p. 2729. The regular semi-annual list for Nov. 1 1924 was also issued by the Bank Commissioner, but was not published by us. In our comparison below, therefore, we indicate the changes for the twelve months instead of for the six months. We print the May 1925 list herewith in full, indicating by means of an asterisk (*) the securities added since May 1 1924, while those that have been dropped are placed in full-faced brackets.

The following table shows the State and municipal bonds which are considered legal investments:

First.—Bonds of the United States, or those for which the faith of the United States is pledged, including the bonds of the District of Columbia.

United States Bonds.....2s, 1930
" " " 3s, 1918
[" " " .....4s, 1925]
U. S. Panama Canal.....2s, 1936
U. S. Panama Canal.....3s, 1961
Liberty and Victory bonds ....All issues
Treasury bonds 4¼s, 1947-1952
*Treasury bonds 4s, 1944-1954

Second.—Legally issued bonds and interest-bearing obligations of the following States:

California	Nevada
Colorado	New Hampshire
Connecticut	New Jersey
Delaware	New York
Florida	North Dakota
Idaho	Ohio
Illinois	Oregon
Indiana	Pennsylvania
Iowa	Rhode Island
Kansas	South Dakota
Kentucky	Tennessee
Maine	Texas
Maryland	Vermont
Massachusetts	Washington
Michigan	West Virginia
Minnesota	Wisconsin
Missouri	Wyoming
Montana	

Third.—Legally issued bonds and obligations of any county, town, city, borough, school district, fire district, or sewer district in the State of Connecticut.

Fourth.—Legally authorized bonds of the following cities outside of Connecticut, and which are the direct obligations of the city issuing the same. "Special Assessment" and "Improvement" bonds which are not the direct obligations of the city and for which its faith and credit are not pledged are not allowable.

x These notes are legal under Section 32 and savings banks may invest not to exceed 2% therein.

Railroad bonds which are at present not legal under the general provisions of the law but which are legal investments under Section 29 (given below) are as follows:

Sec. 29. The provisions of this Act shall not render illegal the investment in nor the investment hereafter in, any bonds or interest-bearing obligations issued or assumed by a railroad corporation, which were a legal investment on May 28 1913, so long as such bonds or interest-bearing obligations continue to comply with the laws in force prior to said date; but no such bond or interest-bearing obligation that falls subsequent to said date, to comply with such laws shall again be a legal investment unless such bonds or interest-bearing obligations comply with the provisions of this section.

BOND PROPOSALS AND NEGOTIATIONS this week have been as follows:

ADAMS COUNTY (P. O. West Union), Ohio.—*BOND OFFERING.*—Sealed bids will be received by C. Elbert Black, Clerk Board of County Commissioners until 2 p.m. (central standard time) June 6 for $18,700 5½% property owner's portion J. C. H. No. 7 Sec. "Manchester" coupon bonds. Denom. $1,000 and one for $700. Date April 15 1925. Interest M. & S. Due every 6 months as follows: $1,000. Mar. 1 1926 to Sept. 1 1934 incl. and $700 Mar. 1 1935 incl. Legality approved by Squire Sanders & Dempsey of Cleveland. Certified check for $2,000 on a local bank payable to the County Treasurer required.

ADAMS COUNTY SCHOOL DISTRICT NO. 1 (P. O. Alamosa), Colo.—*BONDS DEFEATED.*—At an election held on May 4 the proposition to issue $5,000 (not $3,000 as reported in V. 120, p. 2054) 5% school building bonds failed to carry. Peck, Brown & Co. of Denver purchased these bonds subject to being voted.

ALBANY, N. Y.—*BOND OFFERING.*—Sealed proposals will be received at the office of Lawrence J. Ehrhardt, City Comptroller, at the City Hall, Albany, until 2 p. m. (daylight saving time) June 9 for all or any part of $1,711,000 bonds. The bonds are dated May 1 1925, bear int. at the rate of 4%, payable semi-annually on May 1 and Nov. 1, and are coupon bonds, with privilege of registration as to both prin. and int. Both prin. and int. are payable in gold coin of the United States of America of the present standard of weight and fineness at the Chemical National Bank in N. Y. City. The $1,711,000 of bonds comprise the following issues of bonds:
$185,000 public impt. bonds, series A, maturing $9,250 on May 1 in each of the years 1926 to 1945 incl.
540,000 public impt. bonds, series B, maturing $36,000 on May 1 in each of the years 1926 to 1940 incl.
53,000 public impt. bonds, series C, maturing $5,300 on May 1 in each of the years 1926 to 1935 incl.
280,000 water supply system bonds, maturing $7,000 bonds on May 1 in each of the years 1926 to 1965 incl.
225,000 street impt. bonds for the year 1924, maturing $45,000 on May 1 in each of the years 1926 to 1930 incl.
428,000 street impt. bonds for the year 1924, maturing $42,800 each of the years 1926 to 1935 incl.

The City Comptroller will purchase for the city's sinking fund all of the above-described bonds not of $1,000 or $500 denomination. Each bid must be accompanied by a certified check upon an incorporated bank or trust company for 2% of the face value of the bonds bid for, payable to the order of the City of Albany, N. Y. The bonds cannot be sold at less than par and accrued int. Purchasers will be required to pay accrued int. to the date of delivery of the bonds. The purchaser or purchasers will be furnished with the opinion of Gilbert V. Schenck, Corporation Counsel, Albany, N. Y., and of Reed, Dougherty & Hoyt, attorneys, N. Y. City, that the bonds are valid and binding obligations of the City of Albany.

TROY, Rensselaer County, N. Y.—*BOND SALE.*—The $50,000 4¼% public health center bonds, 1925, offered on May 27 (V. 120, p. 2722) were sold to Sherwood & Merrifield, Inc., of New York, at 102.06—a basis of about 3.99%. Bonds will be dated June 1 1925 and will be issued as registered or coupon bonds, payable $2,500 June 1 1926 to 1945, inclusive.

BOND OFFERING.—James A. McCarthy, City Comptroller, will receive sealed bids at his office until 11 a. m. June 5 for the purchase of City of Troy harbor and dock bonds, 1925, bearing interest at the rate of 4½% payable semi-annually, and amounting to the sum of $370,000; also public improvement bonds, 1925, bearing interest at 4¼%, payable semi-annually, and amounting to the sum of $200,000. The ordinance in relation to the harbor and dock bonds was adopted by the Common Council May 7 1925, approved by the Mayor May 12 1925, and approved by the Board of Estimate and Apportionment May 15 1925. The ordinance in relation to the public improvement bonds was adopted by the Common Council May 21 1925, approved by the Mayor May 22 1925, and approved by the Board of Estimate and Apportionment May 22 1925. Both issues will be dated July 1 1925 and shall be issued as registered or coupon bonds. The harbor and dock bonds shall be payable in forty equal annual installments, the last of which shall become due at the end of forty years after its issue. The public improvement bonds shall be payable in twenty equal annual installments, the last of which shall become due at the end of 20 years after its issue. Both issues shall be sold at not less than par and accrued interest from their date. All bids and proposals shall be accompanied with a certified check, payable to the order of the City of Troy, for not less than 1% of the par value of bonds.

NEW LOANS

$612,000.00

Memphis Tennessee

BONDS.

C. C. Pashby, City Clerk, Memphis, Tennessee, will receive sealed bids at the City Hall until 2:30 P. M. TUESDAY, JUNE 9, 1925, for $612,000.00 general liability, serial, negotiable coupon bonds. The bonds will be dated January 1, 1925. Interest in January and July at Memphis or at office of fiscal agent of Memphis in City of New York. The bonds are exempt from Federal Income Tax and all taxes in the State of Tennessee. The bonds will be furnished and delivered in New York, or equivalent. The approving opinion of John C. Thomson, Esq., Attorney at Law, New York City, will be furnished. The bonds are for new improvements. Maturities range from one to twenty-seven years with an average of about 8¼ years for the four issues combined. The bidder will name a rate for each issue from those enumerated in the ordinances, respectively. Bonds can not be sold below par. The right is reserved to reject any or all bids. Complete data concerning sale may be had from the undersigned.

ROWLETT PAINE,
Mayor.

Attest:
C. C. PASHBY,
City Clerk.

NEW LOANS

$50,000

HERKIMER, N. Y.

Highway Bonds

Notice is hereby given that the undersigned will sell at public auction to the highest responsible bidder at the front door of the Court House at Herkimer, N. Y., on the 16th day of June, 1925, at 10 o'clock A. M., the following described bonds: $50,000.00 County of Herkimer Highway Bonds, Series of 1925, said bonds to bear date the first day of July, 1925, to be of the denomination of $1,000.00 each, and numbered from one to fifty, both inclusive, to bear interest at the rate of four and one-half per cent per annum, payable semi-annually on the first days of October and April, and to mature in numerical order as follows: $2,000.00 par value of said bonds being numbers one and two, on the first day of April, 1927, and $2,000.00 par value of said bonds being numbers three and four, on the first day of April, 1928, and $2,000.00 par value of said bonds of the next succeeding numbers, on the first day of April of each and every year thereafter, until all of said bonds are fully paid.

The successful bidder will be required to pay for the bonds on or before twelve o'clock noon on the first day of July, 1925, at which time said bonds will be delivered to the successful bidder.

Before any person will be allowed to bid for said bonds, such person shall deposit with the undersigned a certified check for ten per cent of the amount of the par value of the bonds bid for, drawn on a National Bank or Trust Company in the State of New York, and payable to the Order of the County Treasurer.

Checks of the unsuccessful bidders will be returned at the conclusion of the sale. When the bonds are delivered and paid for under the terms of this Notice of Sale, said certified check shall be considered as an advanced part payment for the bonds, or be retained as and for liquidated damages in the event the purchaser fails to comply with the terms of sale.

No bids of less than par will be considered.

The undersigned reserve the right to reject any or all bids.

Dated Herkimer, N. Y., May 15th, 1925.

EUGENE C. SWIFT,
Chairman of the Board of Supervisors.
GEORGE F. WALLACE,
County Treasurer.

George H. Bunce,
County Attorney,
Herkimer, N. Y.

Issued on May 2 1925.

THE TRANSPORTATION ACT OF 1920.

The railroads of the United States are now operated under the Transportation Act of 1920. On March 1 1920 these railroads, which had on Jan. 1 1918, as a war measure, been taken over for operation as one system by the United States Railroad Administration, were, in so far as still under its control (the short lines having previously been surrendered), restored to their owners. Federal control was terminated pursuant to a proclamation issued on Dec. 24 1919 by the President of the United States and subject to the terms of the Transportation Act of 1920, approved by the President on Feb. 28 1920. The complete text of the Act was printed in the "Chronicle" of Feb. 21 1920, pages 715 to 732, with an amendment in V. 110, p. 2250.

On Sept. 1 1920 the Government guaranty of income which had been granted to assenting roads for the six months following the end of Federal control expired by limitation.

On March 1 1922, two further provisions of the Transportation Act expired by limitation, namely: (1) The provision of Section 15 (*a*) making it incumbent on the Inter-State Commerce Commission when adjusting freight and passenger rates during the two years beginning March 1, to aim at establishing such rates for the railroads of the country as a whole or in districts as should afford "as a fair return" on the tentative valuation which was fixed by the Commission in July 1920, at $18,900,000,000 (against a book value of $20,040,572,611), a sum equal to 5½% per annum and in addition at the discretion of the Commission an additional ½ of 1% to make provision for improvements, betterments or equipment; (2) The provision in Section 210 (*a*) permitting the carriers to apply for loans from the Federal Revolving Fund, within two years from the termination of Federal control.

Rate of Return Allowed by Commission.

On May 24 1922 the Inter-State Commerce Commission, as required by the Act, made known its decision as to what would be a new reasonable rate of return on the investment of the roads, for use when fixing rates for passenger and freight transportation. The decision of the Commission was reached in considering the question of rate reductions, and the full text of the Commission's report and opinion in that case, in which a horizontal cut of 10% in freight rates was made, was given in the "Chronicle" of May 27 1922, pages 2317 to 2329; the conclusions as to the rate of return will be found on page 2327. The Commission ruled: "That on and after March 1 1922 a fair return on the aggregate value of the railway property of the carriers defined in Section 15a of the Inter-State Commerce Act, determined as therein provided, will be 5.75% of such aggregate property value as a uniform percentage for all rate groups or territories designated by this Commission." The Commission in July 1920, as already stated, fixed the tentative values of the properties at $18,900,000,000.

Following a decision handed down March 17 1923 by the Federal Court at New Orleans upholding the constitutionality of the provision in the Transportation Act generally known as the "recapture" clause, which was regarded as a test case (see V. 116, p. 1723), the Inter-State Commerce Commission on Mar. 23 1923 issued an order requiring all railroads to report by May 1 1923 as to their earnings during the year 1922 and to pay over to the Government under the Transportation Act one-half of the amount by which such earnings exceeded a 6% return on the value of the investment (V. 116, p. 1243). On Jan. 7 1924 (V. 118, p. 163) the United States Supreme Court also upheld the constitutionality of the "recapture" clause. The proceedings attacking the constitutionality of this clause were brought by the Dayton-Goose Creek Ry. of Texas, but when the action reached the U. S. Supreme Court, nineteen trunk lines had become parties to the brief filed in behalf of the road. (See V. 117, pages 2176-2179.)

The Inter-State Commerce Commission on April 4 1924 issued an order requiring all railroads whose net railway operating income exceeds 6% of the value of the property for the calendar year 1923 to file with the Commission, before May 1 1924, a report in the matter. And the requirement is now a regular one each year. The Commission also announced that pursuant to a ruling of the Comptroller-General of the United States, interest on amounts of excess railway operating income payable to the United States under the Transportation Act will be required at the rate of 6%, beginning four months after the termination of the period for which the excess income is computed. The railroads, however, claim much higher valuations than those fixed by the Inter-State Commerce Commission, and in most of the cases where income has been large enough to lay the basis for an apparent claim to excess payments the right of the Government to the money is in dispute. The annual report of the Inter-State Commerce Commission, issued in Dec. 1924, in referring to this matter, said:

We call attention to the fact that the excess income reported by carriers is not computed upon values fixed by us, and it may be that the number

finally determined to have earned excess income will differ from the number reported. Of the carriers reporting excess income, 53 paid to us during the year the aggregate sum of $4,858,522 17, which added to $96,675 10 paid prior to Nov. 1 1923, makes the total payments $4,955,197 27. The majority of payments have been made under formal protests and reservations, and, therefore, the contingent fund, composed primarily of such payments, has not been made available for the uses contemplated by the statute.

Changes in Wages and in Transportation Rates.

The Transportation Act of 1920 was designed to enable the railroads as a whole to meet their financial problems caused by the war and Federal operation, and to assist them in their future financing by giving them a reasonable, though extremely moderate, return on their investment. Operating costs had enormously increased under Federal control and big advances in transportation rates were necessary to place the roads on a solvent footing. Furthermore, on July 20 1920 the U. S. Railroad Labor Board awarded wage increases aggregating over $625,000,000 a year. Accordingly, on July 31 1920 the Inter-State Commerce Commission authorized advances in rates calculated to add $1,500,000,000 to the yearly revenues of the roads. The immediate effect was most disappointing, owing to a precipitate decline in railroad traffic (V. 113, p. 1732 to 1734). The railroads were therefore obliged as one of their first steps to curtail their expenses drastically and to seek a reduction in the wages of their employees. Comparative statistics show the following results for Class I railroads (those with annual operating revenues above $1,000,000), exclusive of switching and terminal companies (see also data in V. 113, p. 1852 to 1854, 1739 to 1742; V. 114, p. 1492). The figures have been compiled by the Association of Railway Executives from the records of the Inter-State Commerce Commission:

Calendar Year.	Average Yearly Wage.	Total Labor Cost.	Gross Operating Revenue.	Net Operating Income.	Return on Prop. Value.
1916	$892	$1,468,576,394	$3,596,865,766	$1,040,084,517	6.16%
1917	1,004	1,739,482,142	4,014,142,747	934,068,770	5.26%
1918	1,419	2,613,813,351	4,880,953,480	638,568,603	3.51%
1919	1,486	2,843,128,432	5,144,795,154	454,984,953	2.46%
1920	1,820	3,681,801,193	6,178,438,459	17,226,902	0.09%
1921	1,666	2,765,218,079	5,516,798,242	609,937,356	3.07%
1922	1,623	2,640,738,182	5,559,092,708	760,187,305	3.83%
1923	1,617	3,004,659,673	6,290,153,622	961,236,657	4.65%
1924	1,612	2,827,851,563	5,922,627,820	974,346,443	4.58%

These figures show the return on the investment in road and equipment without any reference to materials and supplies on hand or to working capital.

In April 1921 the Railroad Labor Board ordered the abolition on July 1 1921 of some of the provisions of the "National Agreements" which the railroad managers claimed had cost the railroads of the United States $300,000,000 per annum, but laid down 16 cardinal principles that must be maintained (V. 112, p. 1580, 1581; V. 113, p. 34, 805, 893, 915, 916, 1326, 1429, 1644, 1731, 1732).

Subsequently, in 1921-22, the national agreements were revised by the Labor Board, removing some of their most burdensome features in the case of railroad labor other than trainmen's brotherhoods. See below.

In May and June 1921 the Labor Board announced its decision that the exigencies of the situation demanded a substantial decrease in railroad expenses, and for that reason railroad wages on the larger roads should be reduced on the average 12%. A strike against this decrease and to forestall any further changes in wages and working conditions was ordered by the four trainmen's brotherhoods and the switchmen's union; but on Oct. 27 1921, on the eve of its becoming effective, was declared off, as below stated.

In Nov. 1921, after many reductions in freight rates had been made (since Aug. 1920), the railway executives, in order to be able to further decrease these rates as demanded by the public, posted notices of a proposed additional wage cut of about 10% with the intent of wiping out the remainder of the wage advance of 1920. The railroads agreed to pass on all benefit from this further wage cut to the public, and in anticipation of same put in effect on Jan. 7 1922 an experimental reduction of 10% on agricultural products for all parts of the country, this reduction to stand during the six months in which the plan to reduce wages would come before the Labor Board. See also V. 113, p. 2153, 2470, 2876. It was not until May 1922 that the Labor Board announced its decision as to further wage reductions, and it then promulgated decreases in the pay of the shop craft employees, maintenance of way men, freight car men, signal men, clerks, &c., effective July 1 1922, which it was computed would effect a saving to the carriers of $135,000,000 per year. This led to a prolonged strike, as noted further on in the article on Railroad Wages. V. 114, p. 2432, 2541, 2784. The maintenance of way men, who did not join in the strike, had a portion of the decrease remitted to them on a rehearing, the remission amounting to 2 cents an hour. In 1923 and 1924 wage increases of one kind or another again became common, not as a result of orders of the Railroad Labor Board (with few exceptions), but as a result of the action of many different roads.

Government Holdings of Equipment Trusts.

Late in 1921 and early in 1922 the Federal Government sold a large amount of its holdings of equipment trusts (see below), and used the proceeds to settle its accounts with the railroads.

The sale of these equipment trusts and the improved financial outlook later in 1921 led the Federal Administration to withdraw their support of the so-called Funding Bill, which, as an amendment to the Transportation Act of 1920, would have permitted the settlement of the large amounts due by the Government to the railroads on account of compensation, guaranty, &c., and the funding of $500,000,000 of indebtedness due by them to the Government for expenditures made during Federal control on additions and improvement account. Compare V. 113, p. 2371, 2043, 2042, 1730, 1115, 910 to 914, 805, 696, 488, 487, 149.

Valuation of Properties by Commerce Commission.

For tentative valuations of 150 roads filed in 1921, see V. 113, p. 1008, 1011, 1539. Further tentative valuations have been noted in subsequent issues of the "Chronicle" in our "General Investment News" department. See also V. 115, p. 1798. To date the I.-S. C. Commission has set final valuations on 44 carriers, as in the table below. A petition presented by the National Conference on Valuation of American Railroads, of which Senator La Follette is head, to have the proceedings of the I.-S. Commerce Commission in the physical valuation of the railroads of the country recommitted to the Bureau of Valuation, was denied by the Commission on Dec. 3 1923 (V. 117, p. 2617). The Conference sought to have the Commission establish the original cost of property investment and labor in railroads, as well as other data. All the existing valuation work of the Commission was attacked as unsound. The Commission held that its procedure in ascertaining information with respect to aids, gifts, grants or donations, was in substantial compliance with the Valuation Act, and that analysis of method of arriving at final value was not required by the law.

Complete List of Carriers on Which the I.-S. C. Commission Has Placed a Final Valuation.

Name of Carrier—	Wholly Owned and Used.	Used but Not Owned.	Owned but Not Used.	As of (Date).
Ann Arbor RR	$11,046,455	$80,822	$30,785	June 30 1915

Wood River Branch RR	115,537	------	------	June 30 1915

a The petition of the Kansas City Southern Ry. Co. for a writ of mandamus commanding the I.-S. C. Commission to make a new valuation of the carrier's properties was dismissed Oct. 20 1924 by Justice Stafford of the Supreme Court of the District of Columbia. An appeal has been taken (V. 120, p. 699). b The bill of equity filed by the Los Angeles & Salt Lake RR. (formerly the San Pedro Los Angeles & Salt Lake RR.) in the U. S. District Court, Southern District of California, to enjoin and set aside the final valuation of its property made by the I.-S. C. Commission, is still pending (V. 117, p. 2890).

Proposed Plans of Consolidation.

The Transportation Act of 1920 contemplates the ultimate consolidation of all the railroads of the United States into a limited number of competing systems, and under one of the provisions of the Act the Inter-State Commerce Commission is directed to prepare a plan to that end. The provision is not compulsory as far as the roads are concerned. In the process of carrying out the requirement, the Commerce Commission directed Prof. William Z. Ripley of Harvard University to prepare a plan of consolidation, and with that as a basis, the Commission prepared a tentative plan which was put forward in September 1921 "in order to elicit a full record upon which the plan to be ultimately adopted can rest." The plan was outlined in V. 113, p. 1429 to 1431, 1950 to 1952. A table showing the grouping of roads in the plans of consolidation under consideration by the I.-S. C. Commission was given in V. 119, p. 628 and 629. Hearings were held on the different systems proposed, principally the Northern Pacific-Burlington, the Great Northern-St. Paul, the Union Pacific-Northwestern, the Frisco-Katy-Cotton Belt, the Baltimore & Ohio-Reading, the New England-Great Lakes, the Pennsylvania and the New York Central Systems, but a final determination has not yet been made. The hearings terminated Dec. 4 1923. Oral arguments on the proposed consolidations were concluded Jan. 12 1924. (See also V. 120, p. 540.)

Outline of Transportation Act.

The following outlines the Transportation Act of 1920, which was published in full in the "Chronicle" of Feb. 21 1920, p. 715 to 732, with an amendment in V. 110, p. 2250:

RATES MUST BE ADJUSTED SO AS TO YIELD A FAIR RETURN.—The Commission is from time to time to determine and make public what percentage of the aggregate property value constitutes a fair return thereon. Such percentage must be uniform for all rate groups or territories which may be designated by the Commission. In making such determination it shall give due consideration, among other things, to the transportation needs of the country and the necessity (under honest, efficient and economical management of existing transportation facilities), of enlarging such facilities in order to provide the people of the United States with adequate transportation: *Provided*, That during the two years beginning March 1 1920 the Commission shall take as such fair return a sum equal to 5½% of such aggregate value, but may, in its discretion, add thereto a sum not exceeding ½ of 1% of such aggregate value to make provision in whole or in part for improvements, betterments or equipment, which, according to the accounting system prescribed by the Commission, are chargeable to capital account.

The Commission in a decision handed down in May 1922, as noted on page 3 (inside of second column) stated "that on and after March 1 1922 a fair return upon the aggregate value of the railway property will be 5¾%."

Pending the completion of its valuation of the railway properties in the United States, the Commission is required to make tentative valuations of the several roads as a basis for rate-making. In July 1920 the Commission placed a tentative value on all the railroads in the United States of $18,900,000,000 as against a book value of $20,040,572,611.

DISTRIBUTION OF EARNINGS IN EXCESS OF 6%.—Net railway operating income in any year in excess of 6% of the value of the property shall be utilized as follows: (*a*) One-half of such excess shall be placed in a *Reserve Fund* maintained by the railroad: (*b*) the remaining one-half shall go into a *General Railroad Contingent Fund* (see also page 3 of this publication).

REFUNDING OF CARRIERS' INDEBTEDNESS TO THE UNITED STATES.—The net indebtedness of each carrier to the United States for additions or betterments may be funded for a period of ten years (or less at option of company) from the termination of Federal control, with interest at 6% per annum, subject to the right of the carrier to anticipate the payment of the whole or any part of the indebtedness. Any remaining debt to U. S. to be evidenced by 6% notes running one year or less.

CONSOLIDATION OF RAILROAD PROPERTIES—STOCK CONTROL, &c.—The Inter-State Commerce Commission is directed to prepare and adopt a plan for the consolidation of railroad properties into a limited number of competing systems, and consolidations are authorized when in harmony with the plan as adopted and approved by the Comission. See remarks above and plans as proposed in 1921, V. 113, p. 1429 to 1431, and 1950.

The Commission shall also pass on any proposed measures for the control of one road by another by consolidation, lease, stock ownership or otherwise. In any consolidation the total amount of outstanding stock and bonds of the consolidating company shall not exceed the value of the consolidated properties as determined by the Commission.

JOINT USE OF TERMINALS.—The Inter-State Commerce Commission whenever in its opinion there exists an emergnecy may require such joint or common use of terminals, including main-line tracks for a reasonable distance outside of such terminals, as in its opinion will best meet the emergency and serve the public interest.

INTER-STATE COMMERCE COMMISSION MAY INITIATE RATES.—In the exercise of its power to prescribe just and reasonable rates, the Commission can initiate as well as modify and establish rates.

CONTROL OVER SECURITY ISSUES.—The Inter-State Commerce Commission is given exclusive control over the issuance of all railroad securities, except notes maturing in less than two years when the total issues of said notes of the railroad amounts to less than 5% of its capitalization. See regulations, V. 111, p. 1814, 1049, 587.

LABOR BOARDS TO ARBITRATE DISPUTES BETWEEN WAGE-EARNERS AND EMPLOYERS.—The law authorizes a system of labor boards of adjustment to be established by employers and employees. A central railroad labor board of appeal is created with power to hear disputes and initiate investigations.

The members of this board, three of whom are to represent labor, three railroad managers, and three the public, to be appointed by the President and confirmed by the Senate. There are no penal provisions for the enforcement of the decisions of this board. [See list of members on page 240.]

Federal Control—Standard Return.

The proclamation of President Wilson assuming control of the roads was dated Dec. 26 1917. See V. 105, p. 2509; V. 106, p. 35; V. 108, p. 2081.

CONTRACTS FOR GOVERNMENT CONTROL—RENTAL PAYMENTS.—The form of contract which the Government executed, with slight variations, with the railroads, will be found in V. 107, p. 1157, 956.

The Act of Congress approved March 21 1918 (cited in V. 106, p. 1421) authorized the President "to agree with and to guarantee' to any carrier "that during the period of such Federal control it shall receive as just compensation an annual sum (herein called standard return) for each year . . . not exceeding a sum equivalent as nearly as may be to its average annual railway operating income for the three years ended June 30 1917." In a few cases for special reasons extra compensation was granted. Disputes however, arose, and when Federal control was terminated Feb. 29 1920 there still remained a number of roads concerning which the question of compensation, whether the standard return or a larger sum, was still to be determined.

Out of the aforesaid compensation as supplemented by the company s non-operating income, including interest and dividends on any bonds or stock owned, and other outside items each company was required to pay all Federal (war) taxes, interest and other fixed charges, and also any dividends allowed on their capital stock.

A list of the compensation contracts finally executed up to Sept. 15 1920 will be found, with the amounts of the compensation agreed upon, on pages 6, 7 and 252 of the issue of this publication for Nov. 27 1920. Others have been noted from week to week in subsequent issues of the "Chronicle."

United States Railroad Administration.

Director-General of Railroads and Agent of the President, James C. Davis; Chief Clerk, A. W. Stoll; Comptroller, L. J. Tracy; General Solicitor, A. A. McLaughlin; Treasurer, C. L. Stryker. Short Line Section: Sidney F. Andrews, Chairman; W. G. Goodrich, Secretary. Headquarters, Hurley-Wright Bldg., 18th and Pennsylvania Ave., N. W., Washington, D. C.

Increases and Decreases in Railroad Rates.

During the period of Government control operating costs had been so enormously increased that the roads fell far short of meeting their expenses and charges, leaving a heavy deficit for the Government to make good. With the return of the roads to private control, therefore, it hence became necessary to arrange for increasing rates for the transportation of both passengers and freight. The extension of the guaranty period for six months after the roads had been turned back to their owners was for the purpose of allowing time in which to make the adjustment. Just as the Inter-State Commerce Commission was ready to announce its decision, there came the decision of the RR. Labor Board on July 20 1920 awarding increases in wages aggregating $625,000,000 or more per year. The roads had asked for increases in rates to yield additional revenue of $1,017,766,000 per annum. Following the award of the Labor Board the roads petitioned the Commission for further additions to revenue in the amount of the increase. On July 31 1920 the Commission having placed a valuation of $18,900,000,000 upon the railroad properties, against a book value of $20,040,572,611, undertook to allow them 6% upon the property investment, which would mean a total of $1,134,000,000 with which to cover the increased cost of wages and supplies and to pay for improvements, &c. (compare V. 111, p. 653, 549, 459, 347 to 350, 329). The decision of July 1920 increased:

(*a*) *Freight Rates.*—40% in the East, 25% in the South, 35% in the West and 25% in Mountain-Pacific territory. (*b*) *Passenger Rates*—20%, the amount asked by the railroads, or about ½ of 1 cent additional per mile. (*c*) *Pullman Rates*—A surcharge to the roads of 50% on rates. (*d*) *Excess Baggage Rates*—20% advance. (*e*) *Milk Tariffs*—20% advance. (*f*) Coastwise and inland steamship lines and electric railway companies were permitted to increase their freight rates in proportion to the increases of the railroads in the same territory. (V. 111, p. 848.)

These increases in rates were expected to add $1,500,000,000 to the yearly revenues of the roads. But, unfortunately, a sudden decline in traffic caused an alarming falling off in railway operating income, notwithstanding the higher rates received. (V. 113, p. 2155.) It then became necessary to reduce both rates and wages.

On Nov. 17 1921 the Railroad Executives, in anticipation of a wage cut of 10%, announced a 10% reduction in rates on farm products for all parts of the country, except New England (and in New England also it was voluntarily accepted by most of the railroads), the old rates to be restored at the end of six months in case the expected lowering of railroad wages had not been accomplished. (V. 113, p. 2154, 2470, 2786.) This move followed numerous and important rate reductions on many products since Aug. 26 1920, when the general advance mentioned above was ordered. The 10% reduction in rates on farm products it was estimated would save shippers about $55,000,000.

In May 1922 the Inter-State Commerce Commission ordered a horizontal reduction of 10% in rates, effective July 1 1922. For full text of decision see "Chronicle" of May 27 1922, pages 2317 to 2329. In the case of grain, grain products and hay in Western territory the Commission had the previous autumn ordered a freight rate reduction of 16½%, which went into effect Jan. 1 1922. That reduction was allowed to stand without change, the 10% cut not in any way affecting it.

On April 17 1923 reductions were permitted in freight rates to meet Panama Canal competition on certain heavy commodities to Pacific Coast and intermediate points. The reductions apply to all Western lines, including those like the Atchison and Southern Pacific, that reach the coast by the Southern route, and the Union Pacific that goes by the Central route, as well as the Northwestern roads. Some time before the Inter-State Commerce Commission had refused to permit those lines to charge a higher rate to intermediate than to Pacific Coast points. Further reductions by the same lines were ordered to become effective June 1 1923. The latter ran as high as 50%, it was stated, on some commodities. (V. 116, p. 2089, 1014.)

Railroads operating through the Southwest and the lower Mississippi Valley were ordered by the Inter-State Commerce Commission on March 15 1923 to make a general revision of commo lity freight rate schedules, effective June 30 1923. (V. 116, p. 1138.)

Excerpts from Letter of Chairman H. C. Hall of the Inter-State Commerce Commission to Senator Smith, Chairman of the Senate Committee on Inter-State Commerce, Dated May 28 1924.

Since July 1 1922 there have been no general reductions over the country as a whole or throughout any of the major rate groups. Many reductions have been made in individual cases, but they have been relatively unimportant as compared with those made previous to and including the general reduction of July 1 1922. Readjustments of rates on some 30 commodities in the Southwest, involving both increases and reductions, but not designed to affect the carriers' aggregate revenues, became effective Nov. 27 1923. Other commodity rates in that territory are now in the course of similar revision. A revision of the same nature is contemplated with respect to class rates in the Southeast under an investigation now pending before us in Docket 13494, known as the Southern Class Rate Investigation, which is to be followed by a readjustment of the commodity rates in that terriory. A revision of the class rates within Trunk Line territory in the Eastern district, and between that territory and adjacent territories, is also contemplated. There is now pending before us a general investigation, No. 15263, instituted upon our own motion, into the reasonableness of the rates on grain, grain products, and hay throughout the United States. With this investigation has been consolidated a proceeding upon complaint by the Kansas Public Utilities Commission which was reopened by us for further hearing. Hearings and arguments therein were concluded March 22.

It has been estimated that from July 1 1922 to the end of 1923 the shippers and consumers of the country have paid nearly $800,000,000 less in charges for transportation of property than would have accrued if no reductions had been made below the basis established on Aug. 26 1920. Of this, it has been roughly estimated that more than $175,000,000, or about 22% of the total, represents decrease in freight charges on livestock and the products of agriculture. The latter constitute approximately 15% of the tonnage.

In the attached statement, marked "Appendix I" [given below] will be found a list of important general rate reductions between Oct. 26 1921 and July 1 1922.

The attached statement marked "Appendix 2" [given below], shows representative rates now in effect on lumber, base bullion, packing-house products sugar and iron ore as compared with the rates in effect on Aug. 26 1920. The percentage relationship of the present rates to the Aug. 26 1920 rates is also shown.

APPENDIX 1.

Important General Rate Reductions Between Oct. 26 1921 and July 1 1922, Inclusive.

1. A 10% reduction in rates on a l products of farm, garden, orchard and ranch—other than grain, hay and their products, and livestock—which became effective about Jan. 1 1922.

2. A reduction of 10% in rates on livestock between any two points, both of which are located west of the Indiana-Illinois State line or the Mississippi River, where such rates wer 50 cents per 100 pounds or less. This reduction became effective about Jan. 1 1922.

3. Reductions in rates on grain, hay and their products made by the order of the Commission effective about Jan. 21, between any two points located west of Lake Michigan or the Indiana-Illinois State line and east of thr Rocky Mountains; on wheat, hay, and their products, such as flour, cornmeal, bran, alfalfa meal, &c., 13%; on corn, oats, barley, and other so-called coarse grains, and their products, 21%

ABBREVIATIONS USED IN THIS COMPENDIUM

EXPLANATORY.—This Compendium is expressly intended for use in connection with the investment news and official reports published from week to week in the "Chronicle." Frequent reference is made, therefore, to the volume and page of the "Chronicle" (as V. 120, p. 000), where fuller information may be found. Following each statement also is given a reference to the latest news item in the "Chronicle" respecting the company. As every such item has appended a reference to the last preceding item, the reader can run back at pleasure.

Dividends.—The *dividends* ("divs.") in the text are in general those actually *paid* during the calendar years named, irrespective of when *earned*.

Net Earnings are given after deducting operating expenses and frequently taxes, but not interest or other fixed charges.

Securities.—These are described in table at head of page (except the stock, for lack of space, sometimes only in text below) as follows:

Miles of Road.—Opposite bonds, this means the miles of road covered by the mortgage.

Size or Par Value.—Shows (in dollars unless otherwise marked), the denominations or par value, "100, &c.," signifying $100 and larger.

Rate Per Cent.—The interest and dividend rate *per annum* is here shown: g, gold; cur, currency; x, extra; s, stock or scrip.

When Payable.—J & J stands for January and July; F & A, February and August; M & S, March and September; A & O, April and October; M & N, May and November; J & D, June and December; Q-J, quarterly from January; Q-F, quarterly from February; Q-M, quarterly from March.

Bonds, Principal When Due, &c.—This column shows for bonds the date when they mature; for stocks the amount and date of the *last* dividend paid or declared.

Other Abbreviations: M for mortgage"; Gen M for "general mortgage"; Con M or consol M for "consolidated mortgage"; inc M for "income mortgage"; g for gold; c or cur for "currency"; guar p & i for "guaranteed principal and interest"; cum for "cumulative"; non-cum for "non-cumulative"; conv for "convertible into stock at holder's option"; pref for "preferred"; pref a & d for "preferred as to assets and dividends"; s f for "sinking fund"; lgr for "land grant"; r "fully registered (no coupons)"; c "coupon"; c* "coupon, but may be registered as to principal"; r* "registered" and "coupon" interchangeable; br "branch"; end "endorsed"; red "redeemable"; dr'n or drawn; by lot call, "subject to call"; p m "per mile"; ass'd, "assumed."

Taxes.—The position as regards deductions for taxes (deductible at source) is indicated in the table as follows: "*z*" The bonds so marked contain the broad tax-exemption clause that the company will pay the interest thereon without deduction for any tax. The Federal Acts approved Oct. 3 1917 and Feb. 24 1919 provide, however, that only one normal 2% income tax shall be deducted at the source and that all further Federal income taxes shall be met by the recipient of the income. See V. 108, p. 521. *zz* "Company was paying at last advices so much of the normal income tax as company is required to deduct as withholding agent" (V. 104, p. 699). *zzz* "Free from U. S. income tax up to 2%, deductible at source." *zzzz* "Free from U. S. income tax up to 4%, deductible at source." *y* "Free from taxes except Federal income tax." *yy* "Free from all taxes except Federal and State income tax." *z* "No provision as to exemption from taxes." *zz* "Payable with deduction of normal Federal income tax." *k* "Free from Pennsylvania State tax." *kk* "Free from New York State tax." *r* "Free from U. S. taxes, deductible at source." *rr* "Payable without deduction for taxes, except succession, inheritance and income taxes." *rrr* Payable without deduction for Federal, State, &c., taxes deductible at source other than Federal 2% income tax. *rrrr* Same with the exception also of inheritance taxes. *rrrrr* Payable without deduction of U. S. (or Governmental) taxes other than successive inheritance and income taxes.

(*Continued from Page 5.*)

4. Reductions ranging from 1 to 15% on forest products from Southern Southeastern and Southwestern producing territory to points in Eastern Trunk Line and Central territories, including points in Illinois and Wisconsin. These reductions became effective about May 16 1922 and were the result of the Commission's opinion in the Southern Hardwood Traffic Association case, Docket No. 12995.

5. Material reductions in rates on coal, both bituminous and anthracite, from Lake Superior docks to points in Minnesota, and also in South Dakota on and east of the Missouri River. These reductions were made effective about April 1 1921, and were the result of the Commission's decision in the Holmes & Hallowell case, Docket No. 6194.

6. General reductions in rates under the Commission's opinion in Reduced Rates, 1922, Docket No. 13293. These reductions became effective July 1 1922 and applied to all classes and commodities. The general effect was to make a reduction of 10% in the rates of June 30 1922, except in cases where prior thereto and subsequent to the general increase of Aug. 26 1920 reductions had been made by that per cent or more. Generally speaking, no rates were to be higher than 90% of the Aug. 26 1920 rates, and where reductions had been made but not to that basis, such further reductions were required to be made to bring the rates to that level.

APPENDIX 2.

The Inter-State Commerce Commission on July 17 1924 definitely refused further rate reductions on grain, grain products and hay, sought by 10 States of the Mississippi and Missouri Valley cereal growing region under the leadership of the State of Kansas. The Commission held that the financial status of the carriers did not justify the step, while, in general, it held that the financial situation of the Western grain farmers was showing a slow improvement, relieving them of the necessity for the reduction. (V. 119, p. 288.)

Under the Hoch-Smith resolution passed by Congress on Jan. 30 1925, the Inter-State Commerce Commission was directed to make a thorough investigation of the rate structure of common carriers. A petition was filed late in April 1925 by the Western railroads for an increase in revenues in their territory. The petition was not in the usual form of a proposal for an increase in rates, and makes no suggestion as to how the increased revenues should be provided, but asks that the Commission, "in pursuance of the powers invested in it and the duties imposed upon it by the Inter-State Commerce Act, after due investigation, issue the necessary order or orders which will result in yielding to the carriers operating in the Western district a net rate of return of not less than 5¾%." Based on the results for 1924, when the Western roads had a net railway operating income of $378,080,991, or 3.87%, on their property investment, it would require an increase in revenues of approximately $182,000,000 to bring the return up to the $560,000,000 that would mean a 5¾% return. As the freight revenues of the Western lines last year were $1,655,000,000,000, this would be equivalent to a general advance in freight rates of about 11%, but the roads assert that the present prospects indicate a less favorable outcome for 1925. The petition shows that not only was the general advance in rates allowed by the Commission in 1920 insufficient to produce the fair return contemplated by the Act, but that reductions in freight rates made since have prevented them from realizing it as the result of increased traffic.

The petition follows the statement recently filed by the Western carriers of their views in relation to the Commission's general rate structure investigation under the Hoch-Smith resolution, in which statistics were presented to show that the present situation of the Western lines calls for advances in their rates, rather than reductions. It is signed by sixty-six roads, of which six—the Chicago Milwaukee & St. Paul, Chicago & Alton, Denver & Salt Lake, Minneapolis & St. Louis, San Antonio Uvalde & Gulf, and Trinity & Brazos Valley, are in the hands of receivers. (V. 120, p. 2500, 656; V. 119, p. 2969.)

Because of the relatively disadvantageous position of the New England group of roads, a readjustment of the basis for division of through rates was authorized by the Inter-State Commerce Commission on Feb. 14 1922, effective March 1 1922, by which the New England roads other than the Bangor & Aroostook were to receive an increase of about 15% in the amount coming to them from the division of revenue derived from most classes of traffic interchanged with the lines west of the Hudson River. (V. 114, p. 702, and V. 111, p. 1942; V. 112, p. 744, 987.) Compare remarks in Oldham merger plan, V. 113, p. 1950, 1951. In the suit brought in April 1922 against the Commission to prevent the carrying out of this increase as discriminatory, the United States Supreme Court on Feb. 19 1923 handed down a decision upholding the order of the Commission. (V. 114, p. 917, 1253.)

Equipment trusts issued to Director-General for rolling stock allocated to this company. See article on page 3.

REPORT.—For 1924, in V. 120, p. 2137, showed:

Cal. Years	*Operating Revenue* $	*Net (after Taxes).* $	*Total Income.* $	*Interest, Rents, &c.* $	*Pref. Dividend.* $	*Common Div* $	*Balance, Surplus.* $
1924	10,093,450	2,487,078	2,818,680	6,5,424	253,526	587,250	1322480
1923	10,853,219	2,469,543	2,793,010	762,570	236,625	548,100	1245712

1921	9,542,225	1,017,483	1,448,483	913,393	219,723	508,950	193,583

For latest earnings, see "Railway Earnings Section" (issued monthly).

Pres., Fairfax Harrison; Sec., C. E. A. McCarthy; Treas., Charles Patton; Compt., E. H. Kemper. Office, Birmingham, Ala.—(V. 120, p. 2137.)

ALABAMA TENNESSEE & NORTHERN RR. CORP.—Owns and operates 186 miles main track, extending from Calvert, Ala., at junction with Southern Ry. System, north to Reform, Ala., on Mobile & Ohio RR. Also terminal tracks and valuable harbor frontage in Mobile, Ala., formerly owned by Mobile Terminal & Ry.

ORGANIZATION.—Incorp. in Alabama Oct. 12 1918 as successor of the A. T. & N. *Railway*, foreclosed and reorganized per plan in V. 106, p. 2558; V. 107, p. 290, 400, 1286, 1579; V. 108, p. 1720.

STOCK VOTING TRUST.—The new common stock is held in a voting trust, with George C. Van Tuyl Jr., Louis V. Bright, George E. Warren, James C. Colgate, John T. Cochrane and H. A. Smith as voting trustees.

BONDS.—The only fixed charge for the first five years is the $950,000 6% prior lien bonds, which were issued for cash per plan.

Of the remainder of the $3,500,000 issue, $1,400,000 is reserved for use under restrictions in extending the line if found desirable, northerly 50 miles to connection with the St. Louis-San Francisco Ry., and southerly to Mobile, 30 miles, with necessary improvements, and the final $1,150,000 will be restricted to future impts. and extens and the refunding of equip. obligations, new or old.

The gen. lien (2d mtge.) 6% gold bonds were on an income basis up to Dec. 31 1923 (no interest having been paid), but from Jan. 1 1924 were entitled to 6% per annum. The holders of the bonds in June 1923 received a communication asking them to consent to the reduction of the interest rate from 6% to 2% annually. The company made a payment at the rate of $20 for each $1,000 bond to all holders of General Mortgage bonds who became parties to the agreement and deposited their bonds with the Irving Bank-Columbia Trust Co., New York. The plan was declared operative in Oct. 1923. Compare V. 116, p. 2880; V. 117, p. 1662.

Government loan V. 113, p. 2612

EARNINGS.—For calendar year 1923: Gross, $988,684; net oper. income, $9,552; other income, $51,296; int., rentals, &c., $106,126; bal., def., $45,279.

OFFICERS.—John T. Cochrane, Pres., Mobile; Louis V. Bright V.-P., New York; E. A. Carstens, Sec., and K. R. Guthrie Treas., Mobile.

DIRECTORS.—Louis V. Bright and I. H. Lehman, New York; John T. Cochrane and John T. Cochrane Jr., Mobile; H. A. Smith, Hartford; David Taylor, F. J. Lisman and George C. Van Tuyl Jr., New York.—(V. 117, p. 1662.)

ALABAMA AND VICKSBURG RY. CO. (THE).—Owns Vicksburg to Meridian, Miss., and branch, 141 miles.

The stockholders on March 31 1925 approved the lease of the road to the Yazoo & Mississippi Valley RR., under the guarantee of the Illinois Central.

DIVS.—	'97-'99.	'00.	'01.	'02.	'03.	'04-'14.	'15.	'16-'18.	'19-'24.
Cash ..... %	y'rly	6	6	6	9	7 y'rly	5	7 y'rly	7 y'rly
Stock..... %	5	50	--	--	--	100 in '10	--	--	See below

The stockholders voted Dec. 10 1924 to increase the capital stock from $2,100,000 to $4,200,000, the increase being distributed to stockholders of record Jan. 2 1925 as a 100% stock dividend.

Paid in 1925: (On new stock), April 1, 2½%.

BONDS.—The first mtge. Series "A" gold bonds are redeemable as an entirety on any interest date upon 90 days' notice at 107½ and int. on or prior to May 1 1929, at 105 and int. after May 1 1929 and on or prior to May 1 1964, and at ¼ of 1% less than 105 and int. for each succeeding year.

Of the $2,500,000 Series "A" bonds, $1,936,900 were used to retire a like amount of 6% Gold notes which were issued to take up maturing bonds in 1921, and the proceeds from the remaining $563,100 of bonds were used to reimburse the treasury for expenditures made prior to May 1 1924 for additions and betterments.—V. 118, p. 2040.

REPORT.—For 1924, in V. 120, p. 1742, showed:

Calendar Years—	*Gross Earnings.*	*Net after Taxes.*	*Gross Income.*	*Interest, Rents, &c.*	*Dividends Paid.*	*Balance, Surplus.*
1924.....	$3,601,427	$479,303	$650,395	$189,021	$147,000	$314,374
1923.....	3,464,104	466,306	666,528	175,296	147,000	344,232
1922.....	3,063,635	224,147	418,603	183,184	147,000	88,418
1921.....	3,397,144	231,931	383,686	197,845	147,000	38,841

For latest earnings see "Railway Earnings Section" (issued monthly).

OFFICERS.—Larz A. Jones, Pres. & Gen. Mgr.; Udolpho Wolfe, Sec. & Treas. Office, Jackson, Miss.—(V. 120, p. 2546.)

ALASKA ANTHRACITE RR.—(V. 119, p. 1508.)

ALASKA GOVERNMENT ROAD.—(V. 117, p. 1991.)

ALBANY & SUSQUEHANNA RR.—*(See Map Delaware & Hudson.).*

ROAD.—Owns Albany to Binghamton, N. Y., 142 miles.

LEASED for term of charter, viz., 150 years from April 19 1851, to Del. & Hudson Co.; rental was 9% per annum on stock (4½% J. & J.) (V. 56, p. 774), but the courts having held that the stock was entitled to the benefit of refunding effected in 1906, $120 750 additional rental was paid in Jan. yearly beginning 1910, making 3.45% available for corporate purposes. Jan. 1914 to Jan. 1918, 20 cents was deducted yearly for co.'s Federal income tax. A special dividend of 30% ($1,050,000) was paid Nov. 16 1909 from the proceeds of the judgment for back rentals due by reason of refunding. A special dividend of 3.25% was paid Jan. 10 1916 and again Jan. 6 1917 and Jan. 4 1918, but no special payment was declared in Dec. 1918, owing to Federal taxation. In Jan. 1920 paid 1½% extra and in Jan. 1921, 1922, 1923, 1924 and 1925 paid 2% extra. V. 107, p. 2374; V. 89, p. 1141, 1666; V. 90, p. 913.

BONDS.—The bonds are guar. p. & i. and until Apr. 1 1916 were convertible into D. & H. stock—$500 stock for $1,000 bonds; $3,556,000 were so converted ($3,500,000 pledged by D. & H.; V. 105, p. 389). V. 80, p. 1174, 1362, 2343. Guaranty, V. 82, p. 989.

REPORT.—For 1923 total income, $790,084; interest, $350,000; other deductions, $2,574; dividends, $385,000; bal., def., $1,927.

OFFICERS.—Arthur W. Butler, Pres.; George Welwood Murray, V.-P.; C. F. Coaney, Sec. & Treas.; Arthur A. Gammell, Asst. Sec. & Asst. Treas. Office, 24 Broad St., New York.—(V. 119, p. 2874.)

ALBANY & VERMONT RR.—Owns road from Albany to Waterford Jct., N. Y., 12 m. Leased to Rensselaer & Saratoga in 1860 and now operated by Del. & Hudson Co. Annual rental, $20,000.—(V. 106, p. 923.)

ALGOMA CENTRAL & HUDSON BAY RY.—Owns from Sault Ste. Marie, Ont., and Michipicoten Harbor to a connection with the Can. Northern Ry., 272 miles; branch to Helen Mine, 12 m.; extension to Hearst on Grand Trunk Pacific Ry., 50 m.; total, 334 miles. Cash subsidy, $6,400 per mile. Land grant, 2,137,144 acres. V. 103, p. 2076; V. 99, p. 1671; V. 101, p. 772. Lake Superior Corp. guarantees, see that company under "Industrials."

"r" "s" & "t." Also in treas. Dec. 31 '24 of "r" $1,928,000; of "s" $296,000; of "t" $86,000.

Owns stock and leases for 999 years Algoma Central Terminals, Ltd with bonds secured on terminal properties and on $900,000 1st M. 5% bonds and $99,300 stock of Algoma Eastern Terminals, Ltd. V. 95, p. 1540; V. 96, p. 651, 1020, 1491; V. 99, p. 268, 536; V. 100, p. 702; V. 104 p. 1700; V. 105, p. 71.

PLAN.—In 1916 a reorganization plan was put into effect (V. 102, p. 885, 1058, 2076; V. 103, p. 843; V. 104, p. 1700, 2341; V. 105, p. 905)

Under this plan a committee including C. B. B. Smith-Bingham and J. C. Dalton, for the Railway bonds, and A. F. P. Roger and Andrew Williamson for the Terminals bonds, vote the common stock of both cos.

The interest on the Railway 1st M. from June 1 1914, and interest and sinking fund on the Terminals bonds to be paid only if and to the extent that the joint net earnings available for the purpose permit (except as indicated below), but the interest to be cumulative up to 5%, with right to 6% per annum, if earned, in the following priority (a) Terminals bonds for current and all prior years 3% p. a., said payment, however, to be a fixed obligation for each year after Aug. 1 1921. (b) Both issues part passu as though one issue, 2%. (c) Railway bonds, 3%. (d) Any arrears up to 5% on either issue. (e) Terminals sinking fund. (f) Railway bonds, 1% and Terminals bonds, ¼ of 1%. While the guaranty of the Lake Superior Corporation remains, the committee alone can enforce it. V. 105, p. 1998.

Holders of the 5% bonds of Algoma Central Terminals received in April 1917, 3% for the year to Aug. 1915; April 30 1918 interest at 3% per ann. for period from Aug. 1 1915 to June 30 1917; Nov. 1 1918 5% for year 1917-1918; Nov. 1 1919, 4% for year to June 1919; May 1 1922, 1½% for six months from Aug. 1 1921; Nov. 1 1922, 1½% for six months from Feb. 1 1922; May 1 1923, 1½% for six months from Aug. 1 1922; Nov. 1 1923, 1½% for the six months from Feb. 1 1923; May 1 1924, 1½% for the six months from Aug. 1 1923; Nov. 1 1924, 1½% for the six months from Feb. 1 1924. Railway 5s Nov. 1 1918 received 2%; Nov. 1 1919 received 1%. V. 107, p. 1669; V. 109, p. 1792. No interest was paid to either the Railway or Terminal bondholders in respect of the years ended June 30 1920 and 1921, nor to the Railway bondholders for the years ended June 30 1922 and 1923.

Stock, common, $5,000,000, all owned by Lake Superior Corp.; pref., 5% non-cum., $5,000,000, including $3,000,000 new pref., represented by v. t. c. The pref. shares have a par value of $40 each. V. 105, p. 71. First mtge. bonds, see V. 91, p. 93, 1159, 1327, 1573.

REPORT.—For year ending June 30 1923, in V. 117, p. 2320:

June 30 Years—	Gross Earnings.	Net Earnings.	Deficit after Bond Int.
1922-23	$2,154,301	$37,998	$715,638
1921-22	1,722,949	def. 95,403	849,039
1920-21	2,715,679	79,691	594,210

Pres., R. Home Smith; Sec., Alex. Taylor, Toronto; Treas., J. M. Alton; Comp., E. B. Barber, Sault Ste. Marie, Ont.—(V. 118, p. 1909.)

ALGOMA EASTERN RY (THE).—Owns from Sudbury, Ont., to Little Current (Manitoulin Island) through nickel and copper districts, 86 m., completed Jan. 1 1913; branches, 3 m. Land grant 682,692 acres in Ontario and cash subsidies from Province and Dominion of Canada. V. 92, p. 265; V. 95, p. 748. Sale of land, V. 117, p. 1014. Leases for 999 years Algoma Eastern Terminals, Ltd., rental covering interest and sinking fund on $900,000 1st M. 5% bonds. See Algoma Central Terminals, Ltd., mortgage under Algoma Central & Hudson Bay Ry. above.

Common stock, $2,000,000, all issued, and pref. 5% non-cum., $1,000,000, all issued, all pref. and $1,000,000 common owned by Lake Superior Corporation. Bonds (Man. & No. Shore Ry.) auth., $3,000,000, issuable at $30,000 per mile (issued, $2,500,000), guar., prin. & int., by Lake Superior Corp. They are subject to call as a whole at par or may be drawn at 105. V. 92, p. 105, 396, 462, 527, 1032; V. 93, p. 227, 406; V. 94, p. 1382; V. 116, p. 1018.

REPORT.—For year ended June 30 1924, in V. 119, p. 1169, showed: Net earnings, $234,166; interest and rentals, $217,577; reserved for possible bad debts and taxes, $8,704; net income, $7,885. Pres., G. A. Montgomery, S. S. Marie, Ont.; Sec., Alex. Taylor, Toronto; Treas., J. M. Alton, Sault Ste. Marie. (V. 117, p. 1016.)

ALLEGHENY & WESTERN RY.—(*See Map Buff. Roch. & Pitts.*)—Punxsutawney to Butler, Pa., 60 m. and br. 3 m. An extension of Buff. Roch. & Pittsb., to which leased in perpetuity for guar. of bonds, taxes and 6% on stock. Uses B. & O from Butler to New Castle and Pittsburgh under a trackage arrangement, making in all 144 m. V. 70, p. 849.—V. 106, p. 600.

ALLENTOWN RR.—Topton to Kutztown, Pa., 4.39 m. Stock, $1,288,884 (par $50), incl. $1,071,400 owned by Reading Co. No bonds.

ALLENTOWN TERMINAL RR.—Owns 3.27 miles of railroad in Allentown, Pa., connecting the East Penn. (Phila. & Reading) with the Cent. of N. J. Leased for 999 years to Phila. & Read. and Cent. of N. J. (by assignment from Lehigh Coal & Navigation Co.) at int. on bonds and 5% on $450,000 stock (par $50) taxes and corporate expenses.

Bonds were extended from July 1 1919 to July 1 1929, the interest rate being raised from 4% to 6%; the mortgage security remains unimpaired but the guaranty of P. & R. Ry. and Lehigh Coal & Nav. Co. was canceled. Callable after July 1 1920 at 102½ and int.—(V. 50, p. 422; V. 108, p. 2628.)

ALTON & EASTERN RR.—This road on April 1 1925 took over the operation of about 41 miles of track formerly operated by the Chicago Peoria & St. Louis RR., which it had recently bought at auction for $1,350,000. The newly acquired tracks run from Grafton, Ill., to East St. Louis and are known as the "Bluff Line."

The property, including tracks, roundhouses and other buildings, was bought by James Duncan of Alton, Pres. of the Litchfield & Madison RR., who represented a syndicate formed to buy the properties. See also V. 120, p. 1198.

AMADOR CENTRAL RR.—Ione to Martell, Cal., 12 m. Stock, $400,000, par $100. Mtge., see V. 88, p. 156. Year ending Dec. 31 1924 gross, $61,350; net oper. inc., def., $11,921; other inc., $37,062; bal. after int., rentals, &c., $5,928. Divs. 1911-12, 6 2-3%, $25,000 from accumulated surplus, 1918 and 1919, 1% each yr. Pres., Meta J. Erickson, San Francisco.—(V. 88, p. 156.)

AMERICAN NIAGARA RR.—(V. 117, p. 1883.)

ANN ARBOR RR. CO. (THE).—Owns from Toledo, O., to Frankfort, on Lake Michigan, 294 miles; operates car ferries between Frankfort, Mich., Kewaunee and Manitowoc, Wis., and Menominee and Manistique, Mich.

Owns capital stock of Manistique & Lake Superior, Manistique, Mich., to Evelyn, 42 miles (with branch, 13 miles). V. 92, p. 1108; V. 107, p. 1344, 2156; V. 106, p. 2194, 2410.

The final valuation as of June 30 1915 has been fixed at $11,127,277 by the I.-S. C. Commission.

The directors, it was announced Dec. 2 1924, authorized conditionally the acquisition of 96 miles of the Manistee & North Eastern RR. The transaction depends upon whether the freight zone rates in northern Michigan are maintained. Application is now before the I.-S. C. Commission for abolishment of these rates and if the approval is given negotiations will be abandoned, it is said.

STOCK, &c.—Common, $3,250,000; pref., $4,000,000; 5% non-cum. par $100.

BONDS.—The company in May 1921 received authority to issue $2,000,000 6% Impt. & Ext. bonds in lieu of similar 5% bonds, and for permission to retire $500,000 of its outstanding $2,500,000 5% bonds.

The 6% secured gold notes of 1925 are red. all or part on 30 days' notice at 102½ and int. during first year and at ½ of 1% less during each succeeding year to maturity. Secured by pledge of $2,000,000 of impt. & ext. mtge. 6% gold bonds due May 1 1941. V. 120, p. 1322.

Equipment trusts issued to Director-General for rolling stock allocated to this company. See article on page 3 and V. 114, p. 1764; V. 120, p. 1086. Equip. trusts Series A, V. 118, p. 430, 1266.

Government loan, V. 111, p. 1369; V. 112, p. 256, 371.

REPORT.—For 1924, in V. 120, p. 952, showed:

Calendar Years—	1924.	1923.	1922.
Total operating revenues	$5,532,186	$5,602,575	$5,053,161
Net operating revenue	1,241,307	1,059,575	933,770
Taxes, &c	289,997	253,683	261,050
Operating income	$951,309	$805,892	$672,720
Other income	115,088	117,533	166,344
Gross income	$1,066,397	$923,425	$839,063

Net income	$336,857	$80,008	$46,179

For latest earnings, see "Railway Earnings Section" (issued monthly).

DIRECTORS.—J. S. Bache, Edward L. Love, H. B. Blanchard, W. J. Wollman, all of New York; M. A. Taylor, Boston; Frederick Hertenstein, Cincinnati; E. F. Blomeyer, Toledo; W. D. Hutton, W. P. Chrysler, Pres., J. S. Bache; V.-P. & Gen. Mgr., E. F. Blomeyer; V.-P., W. D. Hutton; Treas., J. F. Cress; Sec., H. B. Blanchard. New York office, 42 Broadway.—(V. 120, p. 2381.)

ANTHONY & NORTHERN RR.—Reorganized in 1919 as the Wichita Northwestern RR., which see.

APALACHICOLA NORTHERN RR.—River Junction to Port St. Joe, 95.62 miles; Franklin Junction to Apalachicola, 3.06 miles; total main line owned, 98.68 miles. Main line leased from Atlantic Coast line, 0.44 miles and side tracks owned, 9.02 miles. V. 87, p. 935. Capital stock, $1,000,000.

Bonds, $2,000,000 (Ill. State Tr. Co., E. St. Louis, trustee) all held by committee. A. T. Perkins, St. Louis, Chairman; S. N. Kirby, T. S. Moffit, W. C. Fordyce and Wm. E. Bates, which collects interest only as earned. Mar. 1913 and subsequent coupons were not paid at maturity; in Dec. 1917 $37,600, and in Dec. 1918, $17,400 was paid on past due coupons; none thereafter to Dec. 1921, when $14,800 was paid.

For cal. year 1923 gross, $360,059; net, $95,188; other income, $17,198; interest, rentals, &c., $125,842; bal., def., $13,456. A. T. Perkins, Chairman and President, St. Louis; Bryan Snyder, V.-P. & Gen. Mgr.; R. J. Lockwood, V.-P., St. Louis; R. R. Tompkins, Sec. & Treas., St. Louis; B. W. Eells, Asst. Sec. & Asst. Treas., Port St. Joe, Fla.—(V. 104, p. 763.)

ARIZONA EASTERN RR. CO.—Owns Maricopa to Hassayampa, Ariz., 74 miles; Bowie to Miami, Ariz., 136 m.; Cochise to Gleeson, 35 m.; Tempe to Mesa, 8 m.; other, 36 m.; leases Phoenix, Ariz., to Winkelman, 92 m.; other, 1 m.; total, 383 miles. Stock auth., $40,000,000, of which $9,000,000 outstanding Dec. 31 1924. $8,999,400 owned by Southern Pacific Co. which in Oct. 1924 was authorized to lease the road. Calendar year 1924, gross, $2,976,919; net oper. income, $523,010; other income, $178,180; deductions, $806,097; bal., def., $104,906. For latest earnings, see "Railway Earnings Section" (issued monthly).—(V. 120, p. 1876.)

ARKANSAS & LOUISIANA MISSOURI RY.—Incorporated in Louisiana in Aug. 1920 as successor to Arkansas & Louisiana Midland RR. Compare V. 111, p. 790, 895, 1369; V. 112, p. 1143; V. 113, p. 69, 291.

ARKANSAS & MEMPHIS RAILWAY, BRIDGE & TERMINAL CO.—Owns double-track bridge (with wagon-way) across the Mississippi River at Memphis, Tenn.; opened for traffic July 15 1916. V. 103, p. 321.

Stock outstanding $2,520,000 owned one-third each by the St. Louis Southwestern Ry., Chicago Rock Island & Pacific Ry. and Missouri Pacific RR., which use the road under a 50-year operating agreement. These roads jointly and severally guarantee the 1st M. bonds, prin. and int., by endorsement. Of the $7,500,000 1st M. bonds, $2,250,000 are in the company's treasury subject to the indenture of Dec. 21 1917. $3,531,000 are outstanding; $219,000 have been retired through sinking fund and $1,500,000 are unissued. All or any part of outstanding bonds redeemable at 105 and int. on any int. date prior to March 1 1929; at 104 and int. on March 1 1929, or any int. date thereafter prior to March 1 1939; and at 103 and int. on March 1 1939, or any int. date thereafter. Annual sinking fund of 1% of principal amount of 1st mtge. bonds outstanding is to be applied to purchase of bonds at not exceeding 100 and int., or if not obtainable at that price, to redemption of bonds at redemption prices as above. V. 119, p. 1508.

Pres., W. S. Martin; Sec. & Treas., Carl Nydquist.—(V. 120, p. 826.)

ATCHISON & EASTERN BRIDGE.—Owns railroad and wagon bridge at Atchison, Kan., connecting with the union station. Used by the Atch. Top. & Santa Fe, the Chic. R. I. & P., the Mo. Pac. and the Chic. Burl. & Quincy. Stock, $700,000; par $100 per share. Pres., H. A. Kelley, Treas., H. P. Eells Jr.; Sec., W. P. Kelly, Cleveland, O.—)V. 67, p. 578.

ATCHISON TOPEKA & SANTA FE RY. CO. (THE).—On Jan. 1 1925 comprised 11,905 miles of railroad (11,711 m. owned, including an unbroken line from Chicago, Ill., via Kansas City, Mo., and Albuquerque, N. M., to the Pacific Ocean; also to Galveston, Tex., and the Gulf of Mexico. For operating purposes the 11,905 miles were divided as follows:

Gulf Colorado & Santa Fe....1,909 |

Also controls jointly with Southern Pacific Co. the Northwestern Pacific RR.—which see. 518 miles: Sunset Ry., 50 miles. V. 109, p. 1987.

The shareholders voted Oct. 25 1917 to acquire several subsidiaries. V. 105, p. 908; V. 106, p. 2343. See V. 106, p. 2130.

In April 1915 the St. Louis Rocky Mt. & Pacific Ry., extending from De Moines, N. M., west to Raton, with branches, 106 miles, was purchased for **$3,000,000 Rocky Mtn. Div. 1st M. 50-yr. 4s.** See V. 97, p. 363, 442; V. 95, p. 543, 1771; V. 97, p. 666; V. 100, p. 1169, 1591.

The Oklahoma Central RR., Lehigh, Okla., to Chickasha, 133 miles, was leased for 5 years from Aug. 1 1914, the lease being renewed for a further period commencing Aug. 1 1924 and ending July 31 1934, and thereafter from year to year, subject to termination by either party on 90 days' notice. V. 119, p. 1951. An option to purchase the $1,500,000 stock and $1,500,000 income bonds for $800,000 was exercised in 1917, about 86% of the $1,200,000 1st mtge. 5% bonds due Aug. 1 1934 being also acquired. V. 106, p. 2130. V. 98, p. 1914; V. 99, p. 406; V. 101, p. 845.

The Buffalo (Okla.) Northwestern RR., 52.59 miles of road, extending from a point of connection with its main line at Waynoka, Okla., to Buffalo, was leased May 26 1920. The stockholders in May 1921 also approved the leases of the Osage County & Santa Fe and the Barton County & Santa Fe. In Oct. 1921 received authority to lease the California Southern RR. V. 113, p. 1771. In April 1923 was authorized to lease the Rio Grande, El Paso & Santa Fe RR. V. 116, p. 1759.

ORGANIZATION.—Organized Dec. 12 1895 under laws of Kansas, as successor of Atch. Top. & S. Fe RR. Co., foreclosed. V. 60, p. 658

STOCK.—The preferred stock has preference as to assets and non-cumulative dividends not exceeding 5% per ann.

The company in 1924 was given permission to increase the authorized capital stock by $100,000,000 to a total of $481,486,000.

DIVIDENDS	'00.	'01.	'02-'05.	'06.	'07.	'08.	'09.	'10-'24.
Common (%)	0	3½	4 yrly.	4½	6	2	5½	6 yrly.
Preferred (%)	4	5	5 yrly.	5	5	5	5	5 yrly.

Paid in 1925: March 2, 1¾%; June 1, 1¾%.

BONDS.—The gen. mort. (Abstract V. 62, p. 731-739; see also V. 68, p. 974; V. 86, p. 1098) gives a lien, either by direct mortgage or by collateral trust, on 8,530.06 m. of the system, with equip., terminals, &c.

The unissued gen. M. 4s have been reserved as follows: To retire underlying bonds, $2,004,960; for impts., &c., $1,852,102; acquisitions of other lines, $6,731,554; no longer available, $2,339,383.

Adjust. (Income) Mtge. Abstract, V. 62, p. 739. Int. payable only if earned up to 4% in each year, cumulative. Present issue limited to $51,728,000, but when the $30,000,000 gen. 4s auth. for improvements as above have been issued, $20,000,000 additional adjustment 4s may be issued for the same purpose at not exceeding $2,000,000 in any one year, but only by a majority vote of the adjustment bondholders. *Interest*—In Nov. 1897 paid 3%; since, full 4% yearly.

Eastern Oklahoma division 4s of 1903, V. 76, p. 434; V. 79, p. 1331; V. 84, p. 1549; V. 85, p. 598; V. 86, p. 980, 1041.

The "*Trans-Continental Short Line*" first gold 4s of 1908 are limited to $30,000,000 auth. issue. The $17,000,000 sold in Aug. 1908 covered 693 miles then in operation; the remaining $13,000,000 can be issued at $25,000 per mile. V. 100, p. 2008. Compare issue June 26 1915, V. 87, p. 479, 878.

The 4s of 1905 ($49,711,000 auth. issue) were convertible into com. stock at par till June 1 1918. V. 79, p. 2695; V. 80, p. 649; V. 81, p. 1174; V. 82, p. 391, 867. The 4s of 1909 were convertible into com. stock at par to **June 1 1918.** V. 88, p. 1435, 1559. **The 4s of 1910 were conv. into com. stock** at par to June 1 1923. V. 90, p. 913, 1043, 1612; V. 92, p. 393, 593, 1700; V. 116, p. 2635.

The several issues of convertibles must be secured by any future mtge. covering the lines owned at time the convertible issue was made, and are callable at 110.

The California-Arizona Lines 1st and Ref. mtge of 1912 ($50,000,000 auth. issue) of which $18,522,458 4½s are outstanding, covers 757 miles of road (including the line from Needles to Mojave, 242 miles), which was acquired from the Southern Pacific Co., on which there are outstanding $4,127,500 Sou. Pac. bonds due Nov. 1 1937. The latter also cover over 1,000 miles of Sou. Pac. Co., which has agreed to indemnify the Cal. Ariz. & Santa Fe Ry. against any claim on account thereof.

Of the remaining Cal.-Ariz. bonds, $26,311,262 are issuable for not exceeding the actual cash expenditures for betterments, improvements and additions on and after Jan. 1 1912 and $5,167,000 are reserved to refund the underlying bonds, $4,940,000 Santa Fe Prescott & Phoenix 5s, $224,000 Prescott & Eastern 5s and $3,000 on the line from Goffs to Ivanpah, Cal., 45 miles. V. 94, p. 649, 806, 766; V. 95, p. 543.

Of the Rocky Mtn. Div. 1st 4s of 1915 ($20,000,000 auth. issue), $3,000,000, redeemable at 105, were issued to purchase the St. Louis Rocky Mtn. & Pac. Co., Des Moines to Raton, N. M., &c., 91 miles. The remainder may be issued for extensions. V. 100, p. 1593; V. 102, p. 250.

OFFICERS.—W. B. Storey, Pres.; E. J. Engel, W. E. Hodges A. G. Wells and Edw. Chambers, V.-P.; L. C. Deming, Compt.; E. L. Copeland, Sec. & Treas.; C. K. Cooper, Asst. Treas.; J. W. MacLachlan, Asst. Sec.; C. W. Jones, Asst. Sec. & Asst. Treas.; W. E. Bailey, Gen. Aud.

DIRECTORS.—Charles Steele, Edward J. Berwind, Henry S. Pritchett, Myron C. Taylor, Myer Hurley, Ogden L. Mills, W. C. Potter, New York; S. T. Bledsoe, W. B. Storey, Chicago; Andrew C. Jobes, Merriam, Kan.; Howel Jones, Topeka; W. E. Brown, Wichita, Kan.; Arthur T. Hadley, New Haven; J. E. Otis, Chicago. Offices, 5 Nassau St., New York, and 80 East Jackson Boulevard, Chicago.—(V. 120, p. 2007.)

ATHENS TERMINAL CO.—Owns freight terminals and approaches in Athens, Ga. Stock, $25,000, equally owned by Seaboard Air Line and Gainesville Midland, which agree to pay operating expenses and interest charges in proportion to tonnage used. Bonds ($250,000 auth. issue), see table above. Pres. & Treas., Gordon C. Carson, Savannah, Ga.; Sec., W. B. Veazey, Gainesville, Ga.

ATLANTA BIRMINGHAM & ATLANTIC RY. CO.—Owns Brunswick, Ga., to Birmingham, Ala., 455 m.; Sessoms to Waycross, Ga., 26 m.; Fitzgerald to Thomasville, Ga., 80 m.; Atlanta to Manchester, 76 m. total, 637 m. See V. 103, p. 405. Proposed extension from Waycross, Ga., to Jacksonville, Fla., 75 miles. V. 104, p. 2116.

Pres. B. L. Bugg was appointed receiver on Feb. 25 1921. V. 112, p. 931. In July 1921 Albert G. Foster, Madison, Ga., was appointed special master in receivership. Tentative valuation, V. 113, p. 1052. Foreclosure suit filed, V. 114, p. 1177.

ORGANIZATION.—On Jan. 1 1916 succeeded to foreclosed properties of the A. B. & A. *RR.* Co., Georgia Terminal Co. and Alabama Terminal Ry., per plan in V. 101, p. 2143. Valuation, V. 103, p. 1887; V. 117, p. 235. Government loan, V. 111, p. 492.

STOCK.—$30,000,000 in $100 shares was underwritten at $12 a share to discharge equipment obligations ($1,266,366), &c. V. 102, p. 344, 885.

BONDS.—*First and Refunding Bonds.*—When issued will be a first mortgage on 336 miles of main-line track and second mortgage on 301 miles, and upon the terminal properties in Birmingham and Atlanta. To be issued only (*a*) to retire, at or before maturity, Atlantic & Birmingham Ry. $4,090,000 1st 5s due 1934. (*b*) For future improvements, extensions and acquisitions under restrictions. Int. rate to be fixed at time of issue, not to exceed 6%. V. 103, p. 405. Callable at 110 & int. Nov. 1920 to 1925; at 105 & int. 1925 to 1935, and thereafter at 102½.

On Dec. 31 1923, $405,000 First & Ref. Mtge. bonds had been issued, $420,000 had been pledged and $599,000 were in treasury.

Income Bonds.—Entitled to non-cum. interest (paid semi-annually) at such rate, not exceeding 5% per annum, as may be declared. (V. 101, p. 2143). **The mortgage provides that net income, as defined by the I.-S. Comm. Commission, as available for that purpose, shall be so declared by the Board. The board may, however, reserve in any year from such "net income" not in excess of 20% thereof, (but not to exceed $100,000 in any year), until the total amount so reserved, exclusive of interest, shall reach $300,000. This "Income Bond Reserve Fund," carrying interest at 6%, may be distributed to the income bonds at any time and in any amount, and any balance at the maturity of the bonds shall be paid over to the trustee for the benefit of the bondholders.** Total authorized issue, $5,200,000; held by or for company, $256,093; pledged as collateral, $400,000; outstanding, $4,543,907. V. 105, p. 68.

The first installment of interest on the 15-yr. 5% Income M. bonds at the full rate of 5% per annum, from Nov. 1 1915 to June 30 1916, $33 33 per $1,000 bonds was paid Sept. 1 1916, but only as to 2½% from earnings; Mar. 1917 to Mar. 1918 incl., 2½% (s.-a.) was paid on the incomes; on Jan. 12 1920 interest was paid at the rate of 5% per ann. on the coupons due Sept. 1 1918, Mar. 1 1919 and Sept. 1 1919. V. 110, p. 260. Mar. 1 1920 paid 2½%; none since.

DIRECTORS.—Brooks Morgan, B. L. Bugg, T. K. Glenn, J. L. Edwards and W. E. Paschall, of Atlanta; A. H. Woodward, Birmingham, Ala.; Galen L. Stone, Boston; Percy R. Pyne and George C. Clark Jr., N. Y. City; W. G. Brantley, Washington, D. C.; F. D. M. Strachan, Brunswick, Ga.; W. C. Vereen, Moultrie, Ga.

Pres., ---------; V.-Pres., J. L. Edwards; Treas., W. E. Paschall; Sec., A. V. B. Gilbert.—(V. 120, p. 2265.)

ATLANTA & CHARLOTTE AIR LINE RY.—Owns Charlotte, N. C., to Armour, Ga., 263 miles.

In 1914 it was agreed to modify the operating contract made with the Richmond & Danville RR., under which the dividend to be paid will be 9% yearly without regard to earnings, instead of a maximum of 7%, dependent upon gross earnings, the Southern Ry. to have an option to purchase the stock on any dividend date at $250 per share in cash. V. 98, p. 1458, 1765, 1918; V. 98, p. 1991; V. 99, p. 195, 536, 608; V. 106, p. 2758 (So. Ry.). The final $4,000,000 1st M. 5s was sold in 1917 on account of double-tracking, &c. V. 104, p. 1044. V. 102, p. 1058, 1162; V. 101, p. 286, 368; V. 103, p. 577, 664.

Pres. Geo. F. Canfield, N. Y.—(V. 104, p. 1044, 1898; V. 105, p. 388.)

ATLANTA & ST. ANDREWS BAY RY.—Owns Dothan, Ala., to Panama City, Fla., on Gulf of Mexico, 82 miles. Stock auth., $1,000,000; outstanding, $300,000; par, $100. Citizens & Southern Bank of Atlanta, trustee of first mtge. V. 98, p. 391, 1460; V. 88, p. 685; V. 83, p. 270. Govt. award, V. 112, p. 256. For year ending Dec. 31 1923, gross, $300,231; net, after taxes, $60,047; other income, $111,523; interest and rentals, $85,348; bal., def., $136,825. Pres., Minor C. Keith; Sec., H. H. Hanson, both of New York.—(V. 115, p. 72.)

ATLANTA TERMINAL CO.—Owns union passenger station opened May 14 1905, with approaches, used by Southern Ry., Central of Georgia Ry., Atlanta & West Point RR., Atlanta Birmingham & Atlantic Ry. and Seaboard Air Line Ry. Stock, $150,000, owned in equal proportions by the first three companies named. The stock receives 4% p. a., payable Mar. 1 of each year, charges and expenses being paid by the five using companies on car basis. The $1,200,000 Series "A" 6% bonds are guaranteed p. & i. by the three companies owning the stock. They were issued to retire the $1,500,000 1st mtge. 4s, due July 1 1953. Secured on entire terminal property. V. 109, p. 577, 1271. President, R. B. Pegram.—(V. 120, p. 205.)

ATLANTA AND WEST POINT RR. CO.—Atlanta, Ga., to West Point, Ga., 93.19 miles. The Georgia Railroad & Banking Co. owned $936,100 stock, but sold same in 1910-11 to the lessees at $135 per share with option of repurchase at same price.

In Mar. 1920 announced that the Georgia RR., the Atlanta & West Point and the Western Ry. of Ala. would in future be operated in close organization independently. The three properties will be directed as to operation from Atlanta, Ga.

DIVIDENDS.—From July 1 1884 to July 1901, inclusive, 6% yearly, J. & J.; Oct. 1 1899, 25% extra; 1902 to Dec. 1923, 6% yearly; June 30 and Dec. 31 1924 paid 3½%.

Year ended Dec. 31 1924, gross, $2,939,380; net, $530,697; other income, $219,027; interest, rentals, $293,549; divs. (7%), $172,452; bal., sur., $283,723. V. 120, p. 2265. For latest earnings, see "Railway Earnings" Section (issued monthly). Pres., C. A. Wickersham. Office, Atlanta, Ga.—V. 120, p. 2265.)

ATLANTIC CITY RR.—Camden to Atlantic City, 57.94 miles; branches Winslow Junction to Cape May, N. J., 55.61 miles; Williamstown, 22.65 miles; Gloucester, 10.86 miles; Sea Isle City, 12.33 miles; Ocean City, 10.14 miles; total, 169.53 miles. V. 72, p. 1278.

STOCK.—Common, $2,625,000; pref., $1,000,000 (par $50). Reading Co. owns over 99% of stock, and guarantees consol. 4s, prin. & int. Form of guaranty, V. 75, p. 1398. Of the latter, $2,649,000 are reserves to retire prior lien bonds. V. 73, p. 81. There are $22,800 Sea Coast "A" 5s; $1,200 "B" 5s.

The 1st 5s due May 1 1919 were extended at 5½% interest until May 1 1929 (subject to call at 105 on and after May 1 1924), and unconditionally guaranteed, principal and interest, by the Reading Co. V. 108, p. 1721.

For 1924, gross, $4,747,278; net oper. income, $177,006; other income, $100,537; interest, rentals, &c., $618,814; bal., def., $371,271.

For latest earnings see "Railway Earnings Section" (issued monthly). (V. 119, p. 1842.)

ATLANTIC COAST LINE CO. (THE).—Organized May 29 1899 in Connecticut and owned June 30 1924 $19,930,827 common stock and a large amount of bonds of Atlantic Coast Line RR.; also stocks and bonds of other companies.

STOCK, &c.—Reduced in 1914 to $8,820,000. V. 98, p. 234, 609.

As to the certificates of indebtedness, see editorial Oct. 1897, Supplement, p. 3; V. 65, p. 564; V. 71, p. 1310. In 1898 $5,000,000 stock was distributed as a 100% dividend (V. 67, p. 954), and in 1900 $10,000,000 4% certificates of indebtedness (including $2,500,000 of Atlantic Coast Line RR. Co.) as a 100% dividend. (V. 71, p. 697; V. 72, p. 493.)

		Tot. miles oper. Dec. 31 1924	4,870

Also owns one-sixth interest in the Richmond-Washington Co. Leases, jointly with the Louisville & Nashville RR., the Georgia RR., 571 miles.

In June 1924 the I.-S. C. Commission authorized the company and the Louisville & Nashville to acquire joint control of the Carolina, Clinchfield & Ohio Ry. and its subsidiaries by lease. V. 118, p. 3075; V. 119, p. 941.

In 1918 opened a line from Sebring, Fla., to Moore Haven, 59.70 miles. V. 103, p. 577. New station in Richmond, Va. V. 108, p. 266.

The Tampa Southern RR. Co., an auxiliary company, in 1917 let contracts for a 50-m. line from Tampa, via Orient, to Palmetto, and in April 1919 was operating from Uceta to Palmetto, 35.6 miles. In Jan. 1920 the line between Palmetto and Bradenton, Fla., was completed and placed in service. V. 105, p. 2457. Property operated by agreement with owner, James River to Acca (R. F. & P. RR.), 3.56 miles.

ORGANIZATION.—On April 18 1900 absorbed by consolidation (V. 70 p. 840, 893), Wilmington & Weldon RR., Atlantic Coast Line RRs. of S. C. and Va. and Norf. & Car. RR. On April 10 1902 absorbed the Savannah Fla. & Western Ry. Co. The St. Johns & Lake Eustis Ry. Co. was merged June 12 1902. Florida Southern and Sanford & St. Petersburg were merged April 1903. V. 76, p. 918, 971. Jacksonville & South Western was merged July 28 1904, the Winston & Bone Valley RR. Co. Feb. 18 1909, and the Conway Coast & Western RR. Co. on July 1 1912. In Oct. 1913 the railroad of the Sanford & Everglades RR. Co. was purchased by and conveyed to this company. In July 1922 acquired control of the Rockingham RR. V. 115, p. 307. The Atlantic Coast Line Co. (of Conn.) June 30 1924 owned $19,930,827 common stock, $17,640,000 having been distributed March 10 1914 among its stockholders. See that company above. V. 70, p. 893; V. 71, p. 1116, 1310; V. 83, p. 560.

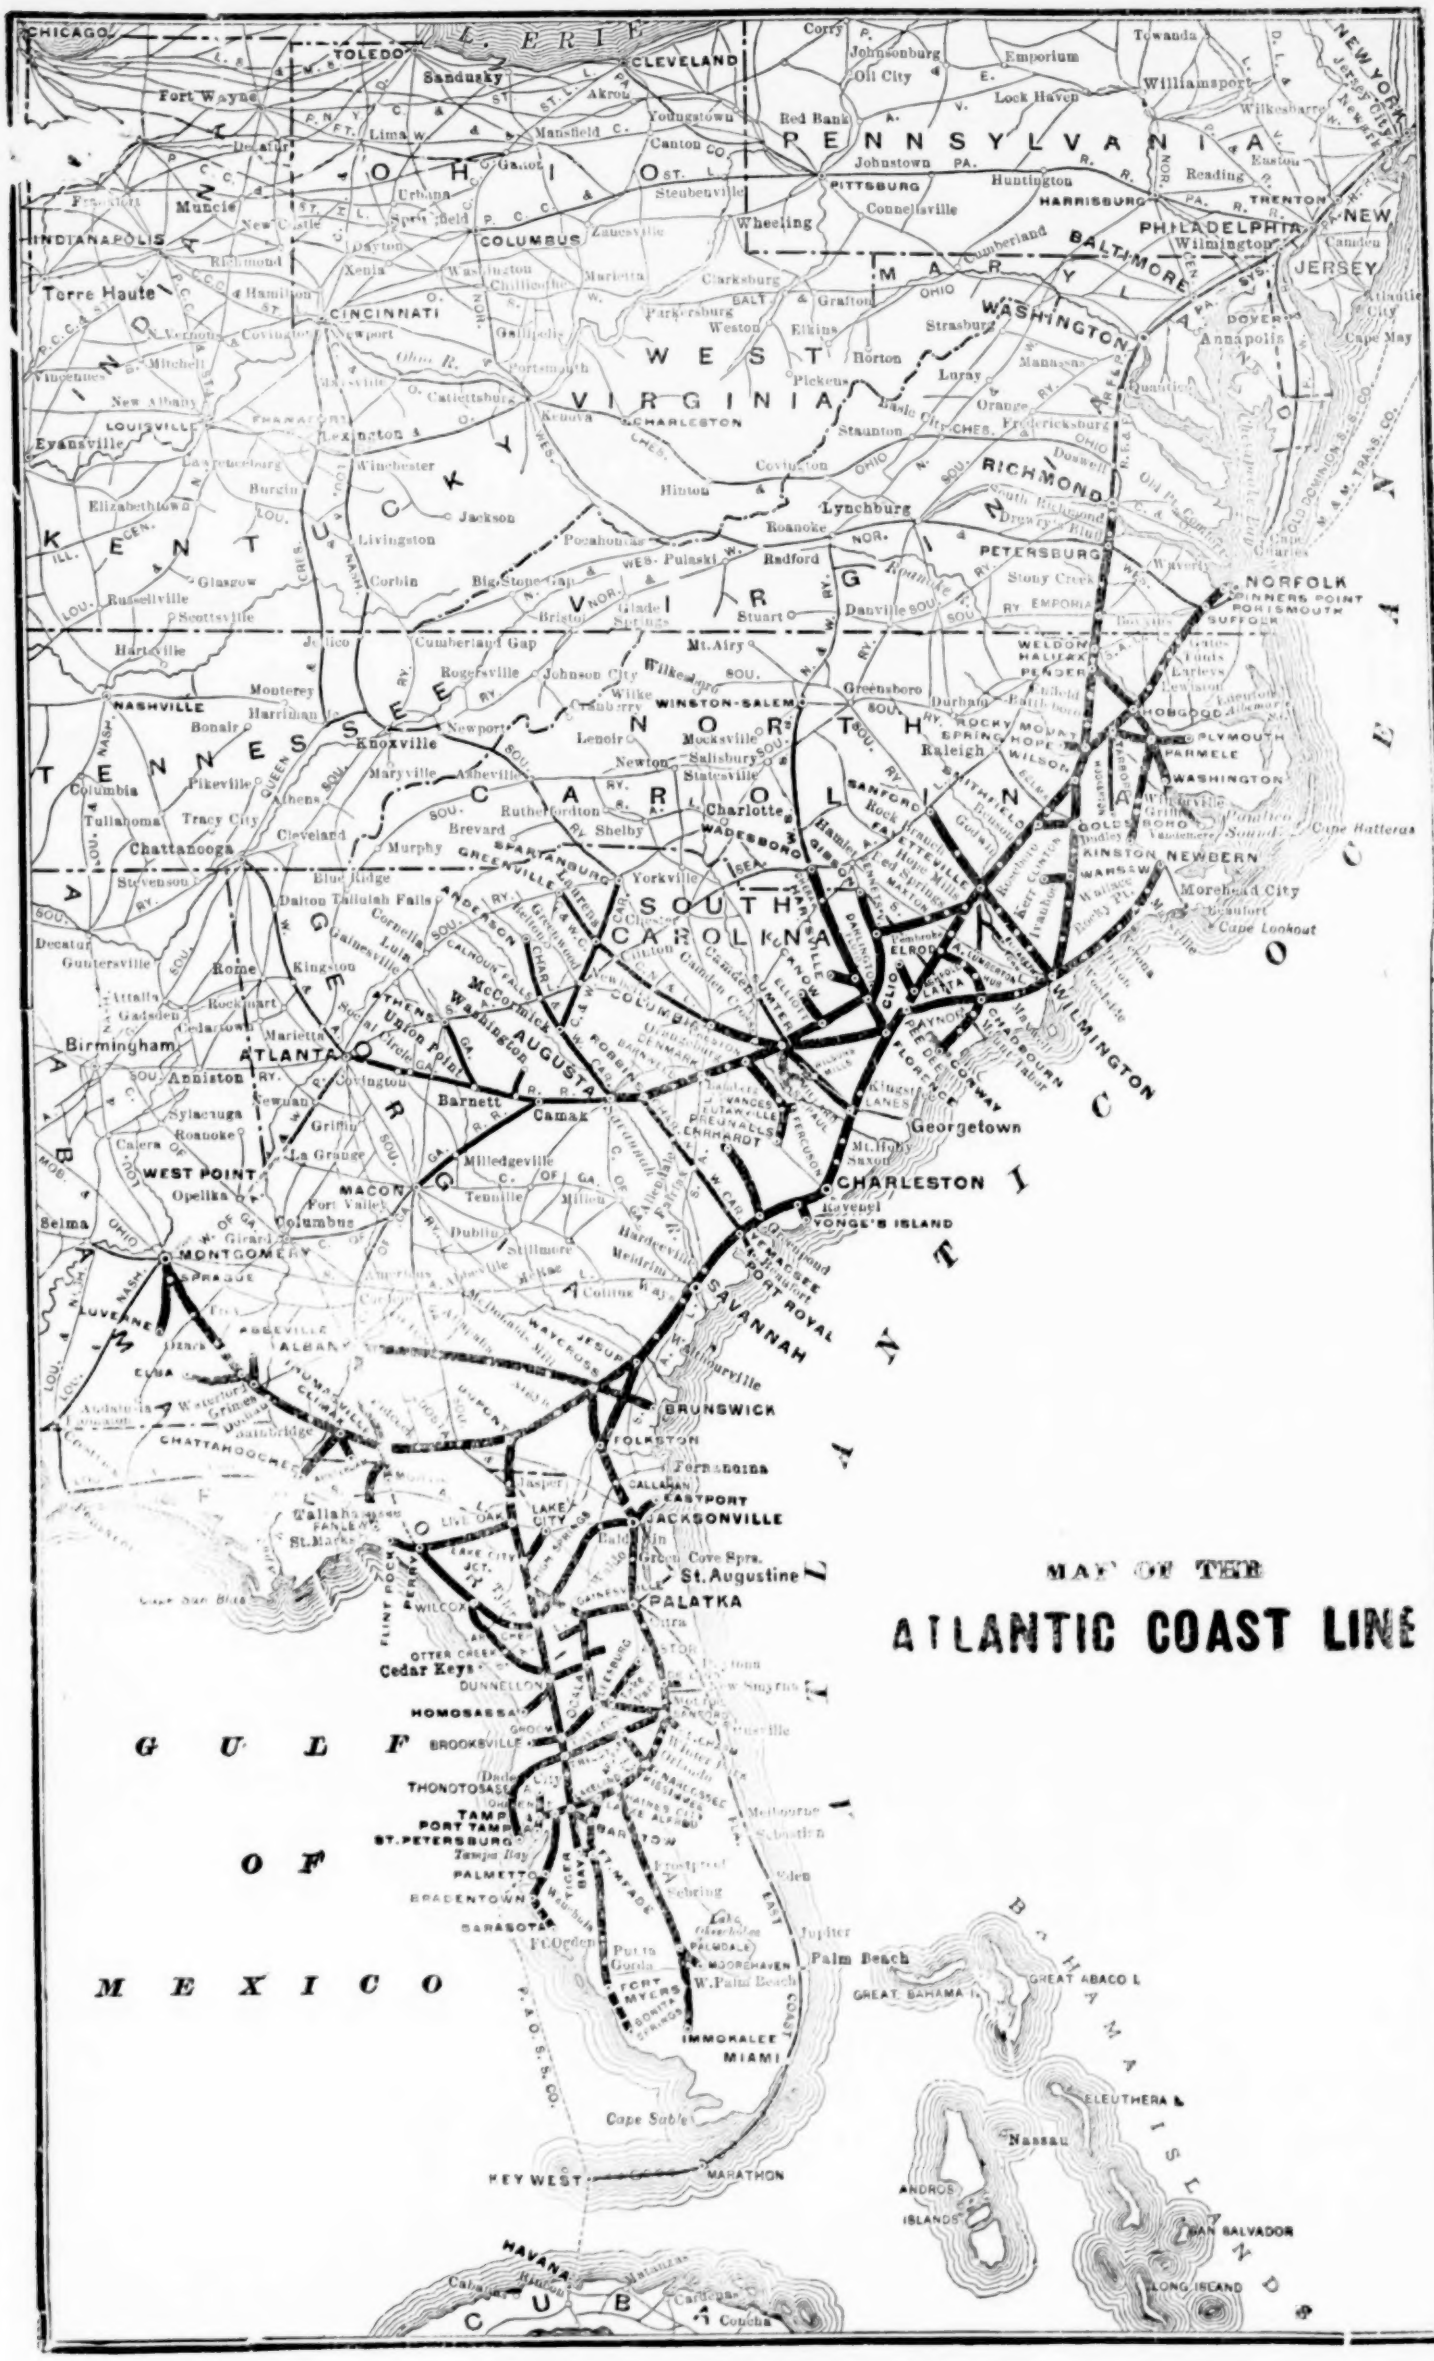
In Oct. 1902 acquired $30,600,000 of the $60,000,000 Louisville & Nash. RR. stock and in 1913 an additional $6,120,000. On May 1 1923 the L. & N. paid a stock div. of 62½%, increasing this company's holdings to $59,670,000. On Dec. 31 1924 this $59,670,000 stock was on deposit along with $306,000 stock of Louisville Property Co., as security for the company's $35,000,000 collateral trust 4s of 1902. V. 75, p. 733, 792, 905; V. 79, p. 785.

STOCK.—Atl. Coast Line of Va. class A (Rich. & Pet. ctfs.) tax-exempt stock was assumed as so much of the com. stock of the new company.

DIVS. (%)— '08. '09. '10. '11. '12-'14. '15. '16. '17 to '23. '24. '25.
Com. (incl. Cl. A) } b5½ 5½ 6 6 7 yearly. 5 5 7 yearly. 8 8

Paid in 1924: Jan. 10, 3½%; July 10, 3½% and 1% extra.

V. 81, p. 1558. b Includes 3% paid in Jan. in Atlantic Coast Line RR. 4% certificates of indebtedness.



BONDS.—In April 1914 the Unified Mortgage of 1909 was closed and a new $200,000,000 General Unified Mortgage was made permitting (unlike the mortgage of 1909) the issuing of bonds in series at various rates of interest. The old Unified 4s held by the RR. Co. and the Atlantic Coast Line Co. ($21,330,000 and $3,008,000) were exchanged at once for new Series A 4½s, $ for $. V. 98, p. 761, 1070, 1154, 1243; V. 100, p. 1916. Listing, see V. 103, p. 2237. The Unified Mtge. was cancelled in 1920. V. 110, p. 2386. Of the $58,671,125 general unified bonds issued to Dec. 31 1924, $22,870,000 were on that date in hands of public ($22,770,000 at 4½% and $100,000 at 4%) and $17,162,684 at 4½% and $26,377,991 at 6% were held in the treasury, while $10,000,000 4½s were pledged as collateral. V. 106, p. 2235.

Purposes for which the $200,000,000 General Unified Bonds were or are issuable.

Issuable as Series A 4½s to refund $30,847,484 Unified 4s	$30,847,484
Reserved to retire 4% certificates of indebtedness, pref. stock and debenture bonds	4,963,960
Reserved to retire underlying bonds	84,438,750
Reserved (along with any bonds not issued to retire certificates of indebtedness) for future construction, improvements, &c.	79,749,806

The 10-year secured notes of 1920 are redeemable on and after May 15 1923 at 100 and int. plus a premium of 1% for each year to maturity. Secured by pledge of $10,000,000 Gen. Unified 4½s, 1964. V. 110, p. 2075.

The 4% convertible debentures are redeemable at 105 and were convertible into common stock at $135 a share to Jan. 1920. V. 97, p. 1513.

* Includes $685,862 (1%) extra dividend paid from non-operating inc., and $4,731,034 (7%) charged to profit and loss.

For latest earnings, see "Railway Earnings Section" (issued monthly).

OFFICERS.—Chairman, Henry Walters; Pres., J. R. Kenly; Exec V.-Pres., Lyman Delano; V.-P., R. A. Brand; V.-P. & Gen. Counsel Geo. B. Elliott; V.-P. & Gen. Mgr., P. R. Albright; V.-P. & Sec., Herbert L. Borden; V.-P., T. F. Darden; Treas., John T. Reid; Comp., W. D. McCaig.—(V. 120, p. 2681.)

ATLANTIC & DANVILLE RY. CO. (THE).—West Norfolk to Danville, Va., 205.1 miles; three branches, 22.25 miles; James River Jct. to Claremont (3-ft. gauge), 50.36 miles; total, 277 miles. Leased to Southern Ry from Sept. 1 1899 to July 1 1949 for taxes, repairs, maintenance and cast rental sufficient to cover int. charges, with privilege of renewals for terms of 99 years. In addition the Southern Ry. agrees to pay the same rate of dividends on com. stock as paid on its own com. stock. V. 71, p. 447; V. 79, p. 628 Suit to enforce provisions of lease, V. 95, p. 1606

BONDS.—Of the $4,425,000 4s of 1900, $500,000 can be issued only for improvements upon request of Southern Ry. Interest charges to be covered by increased rental.—(V. 89, p. 1410; V. 95, p. 1606.)

ATLANTIC & NORTH CAROLINA RR.—Morehead City to Goldsboro, N. C., 96 miles. State of North Carolina Aug. 1917 owned $1,266,500 of $1,797,200 stock. V. 96, p. 862, 1088. Leased from Sept. 1904 to Jan. 1 1996 to Atlantic & North Carolina Co. (the lease being later transferred to Norfolk Southern RR.) for int. on bonds, taxes, &c., and divs. at 3% for 20 years, then increasing ½% every 10 years till 5% is reached; thereafter 6%. DIVS.—1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900-04. Under lease Per cent. 2 2 0 2 2 2 2 0 as above.

The $325,000 1st mtge. 6% bonds due July 1 1922 were paid off and new 20-year bonds were sold to take place of same. V. 115, p. 2683.

Pres., Ernest M. Green; Sec. & Treas., W. Stamps Howard.—(V. 117, p. 781.)

ATLANTIC QUEBEC & WESTERN RY.—Paspebiac to Gaspe, Quebec, 102¾ miles; trackage, 1¾ miles. Stock, $2,000,000 in $100 shares. The interest due July 1 1917 on 1st M. 5% debenture bonds was not paid, and the bondholders agreed to forego all interest during the war except in so far as earned. See V. 105, p. 1616, 2067; V. 91, p. 1253. Unpaid interest, V. 109, p. 1985; V. 111, p. 2422. A 5% Second Mtge. Debenture amounting to $2,050,000, dated June 30 1919, due Jan. 1940, filed Sept. 30 1919. V. 109, p. 1460. Chairman & Pres., Earl of Ranfurly, London Eng.—(V. 109, p. 1985; V. 111, p. 2422.)

ATLANTIC & WESTERN RR.—Sanford to Lillington, N. C., 24 m. Stock, $303,000; par, $100. Bonds issuable at $12,000 per mile. See table above. For year 1923, gross, $83,611; net, $14,557; other income $91; deductions, $37,819 (int., def., $23,151. Pres., H. C. Huffer, Jr., 366 Madison Ave., New York; Sec. & Treas., W. R. Sullivan, 33 Pine St., New York.—(V. 95, p. 1038; V. 108, p. 2021; V. 110, p. 2386.)

AUGUSTA & SAVANNAH RR.—Millen to Augusta, Ga., 53 miles. In 1895 re-leased to Cent. of Ga. for 101 years at 5% on stock.—(V. 106, p. 709.)

AUGUSTA UNION STATION CO.—Owns union passenger station at Augusta, Ga., used by all roads entering the city, the latter under their operating contract providing for interest on the bonds and 4% dividends on stock. Stock, $75,000 (25% paid in), held equally by Southern Ry., Atlantic Coast Line RR. and lessees of Georgia RR. V. 78, p. 2333; V. 79, p. 500. Pres., Chas. A. Wickersham; Sec., W. H. Vincent.—(V. 82, p. 48.)

AVON GENESEO & MT. MORRIS RR.—Mt. Morris to Avon, N. Y., 17.7 miles. Leased to Erie RR. Feb. 26 1896 in perpetuity; rental (after 1911), 3½% on stock. (See V. 63, p. 512; V. 62, p. 318, 589.)

BALTIMORE CHESAPEAKE AND ATLANTIC RY. CO.—Owns Claiborne to Ocean City, Md., 87.22 miles; Salisbury, Md., to Fulton, 0.55 miles; total, 87.77; steamer lines owned, 750 miles. The I.-S. C. Commission in Dec. 1924 authorized the company to acquire control of the Baltimore & Eastern RR. The Pennsylvania and allied companies own all the $1,000,000 common and 95% of the $1,500,000 5% cumulative preferred stocks. V. 92, p. 525, 593. Dividends on preferred, 2% March 1 1905; in 1906, March, 3%; Oct., 2%; in 1907, March, 3%; Sept., 2%; in 1908, Oct., 2%; 1920, Jan., 5%; Sept., 2%; 1911, Jan. 31, 3%; March 31, 2%; Oct. 2, 3%; 1912, July, 2½%; none since. The interest on the first mortgage bonds due March 1 1922 and subsequent semi-annual dates was not paid; Pennsylvania RR. purchased coupons due on those dates. See V. 116, p. 2128.

For 1924, gross, $1,519,848; net oper., deficit, $33,555; other income $16,966; deductions, $196,435; net def., $213,024.

For latest earnings, see "Railway Earnings Section" (issued monthly). Pres., Turnbull Murdoch; V.-P., A. J. County; Sec., Lewis Neilson; Treas., Henry H. Lee.—(V. 119, p. 3004.)

BALTIMORE & CUMBERLAND VALLEY RR. EXTEN.—Waynesboro to Shippensburg, Pa., 26.52 miles. Leased to Western Maryland RR. for 50 years from July 1 1881, with privilege of renewal, for int. on bonds and dividend on stock, amounting in all to $28,730.—(V. 75, p. 665.)

BALTIMORE & EASTERN RR. (OF MD.).—This company has been organized in Maryland as successor to the Maryland Delaware & Virginia Ry., the property of which was sold under foreclosure. The new company took charge on Feb. 1 1924 and now operates trains as did the old co., between Love Point, Md., and Greenwood, Del., 38.17 m. See V. 118, p. 905.

The I.-S. C. Commission in Dec. 1924 authorized the company to issue $216,500 common stock, par $50; said stock to be sold at par and the proceeds used in connection with the purchase of certain railroad property and for other corporate purposes.

The Commission also approved and authorized the acquisition by the Baltimore Chesapeake & Atlantic Ry. of control of the Baltimore & Eastern RR. by purchase of its capital stock.—(V. 119, p. 3004.)

BALTIMORE & OHIO RR. CO. (THE.)—*(See Map.)*—Operates from Baltimore to Philadelphia and Baltimore to Chicago, Cincinnati and St. Louis; total mileage leased, owned and operated on Dec. 31 1924, 5,293 miles. Access is had to New York via the Phila. & Reading Ry., Central RR. of N. J. and the Pennsylvania RR.

The system embraces, subject to mortgages, the following lines:

Pr. lien 3½% M.—(1,091 m.) *Miles.*		Ohio & Little Kanawha Br.	72

Owns B. & O. Chic. Term. RR., $8,000,000 stock and $32,000,000 of its 4% bonds. See below. Also controls S. I. R. T. Ry. Co.

Effective April 28 1918, was ordered by Director-General of Railroads to use the Penn. RR. passenger station in N. Y. City, and in Sept. 1921 completed contracts with the Pennsylvania RR. for the permanent use of the Pennsylvania station as the Eastern terminus for its passenger trains. V. 113, p. 1154, 2184.

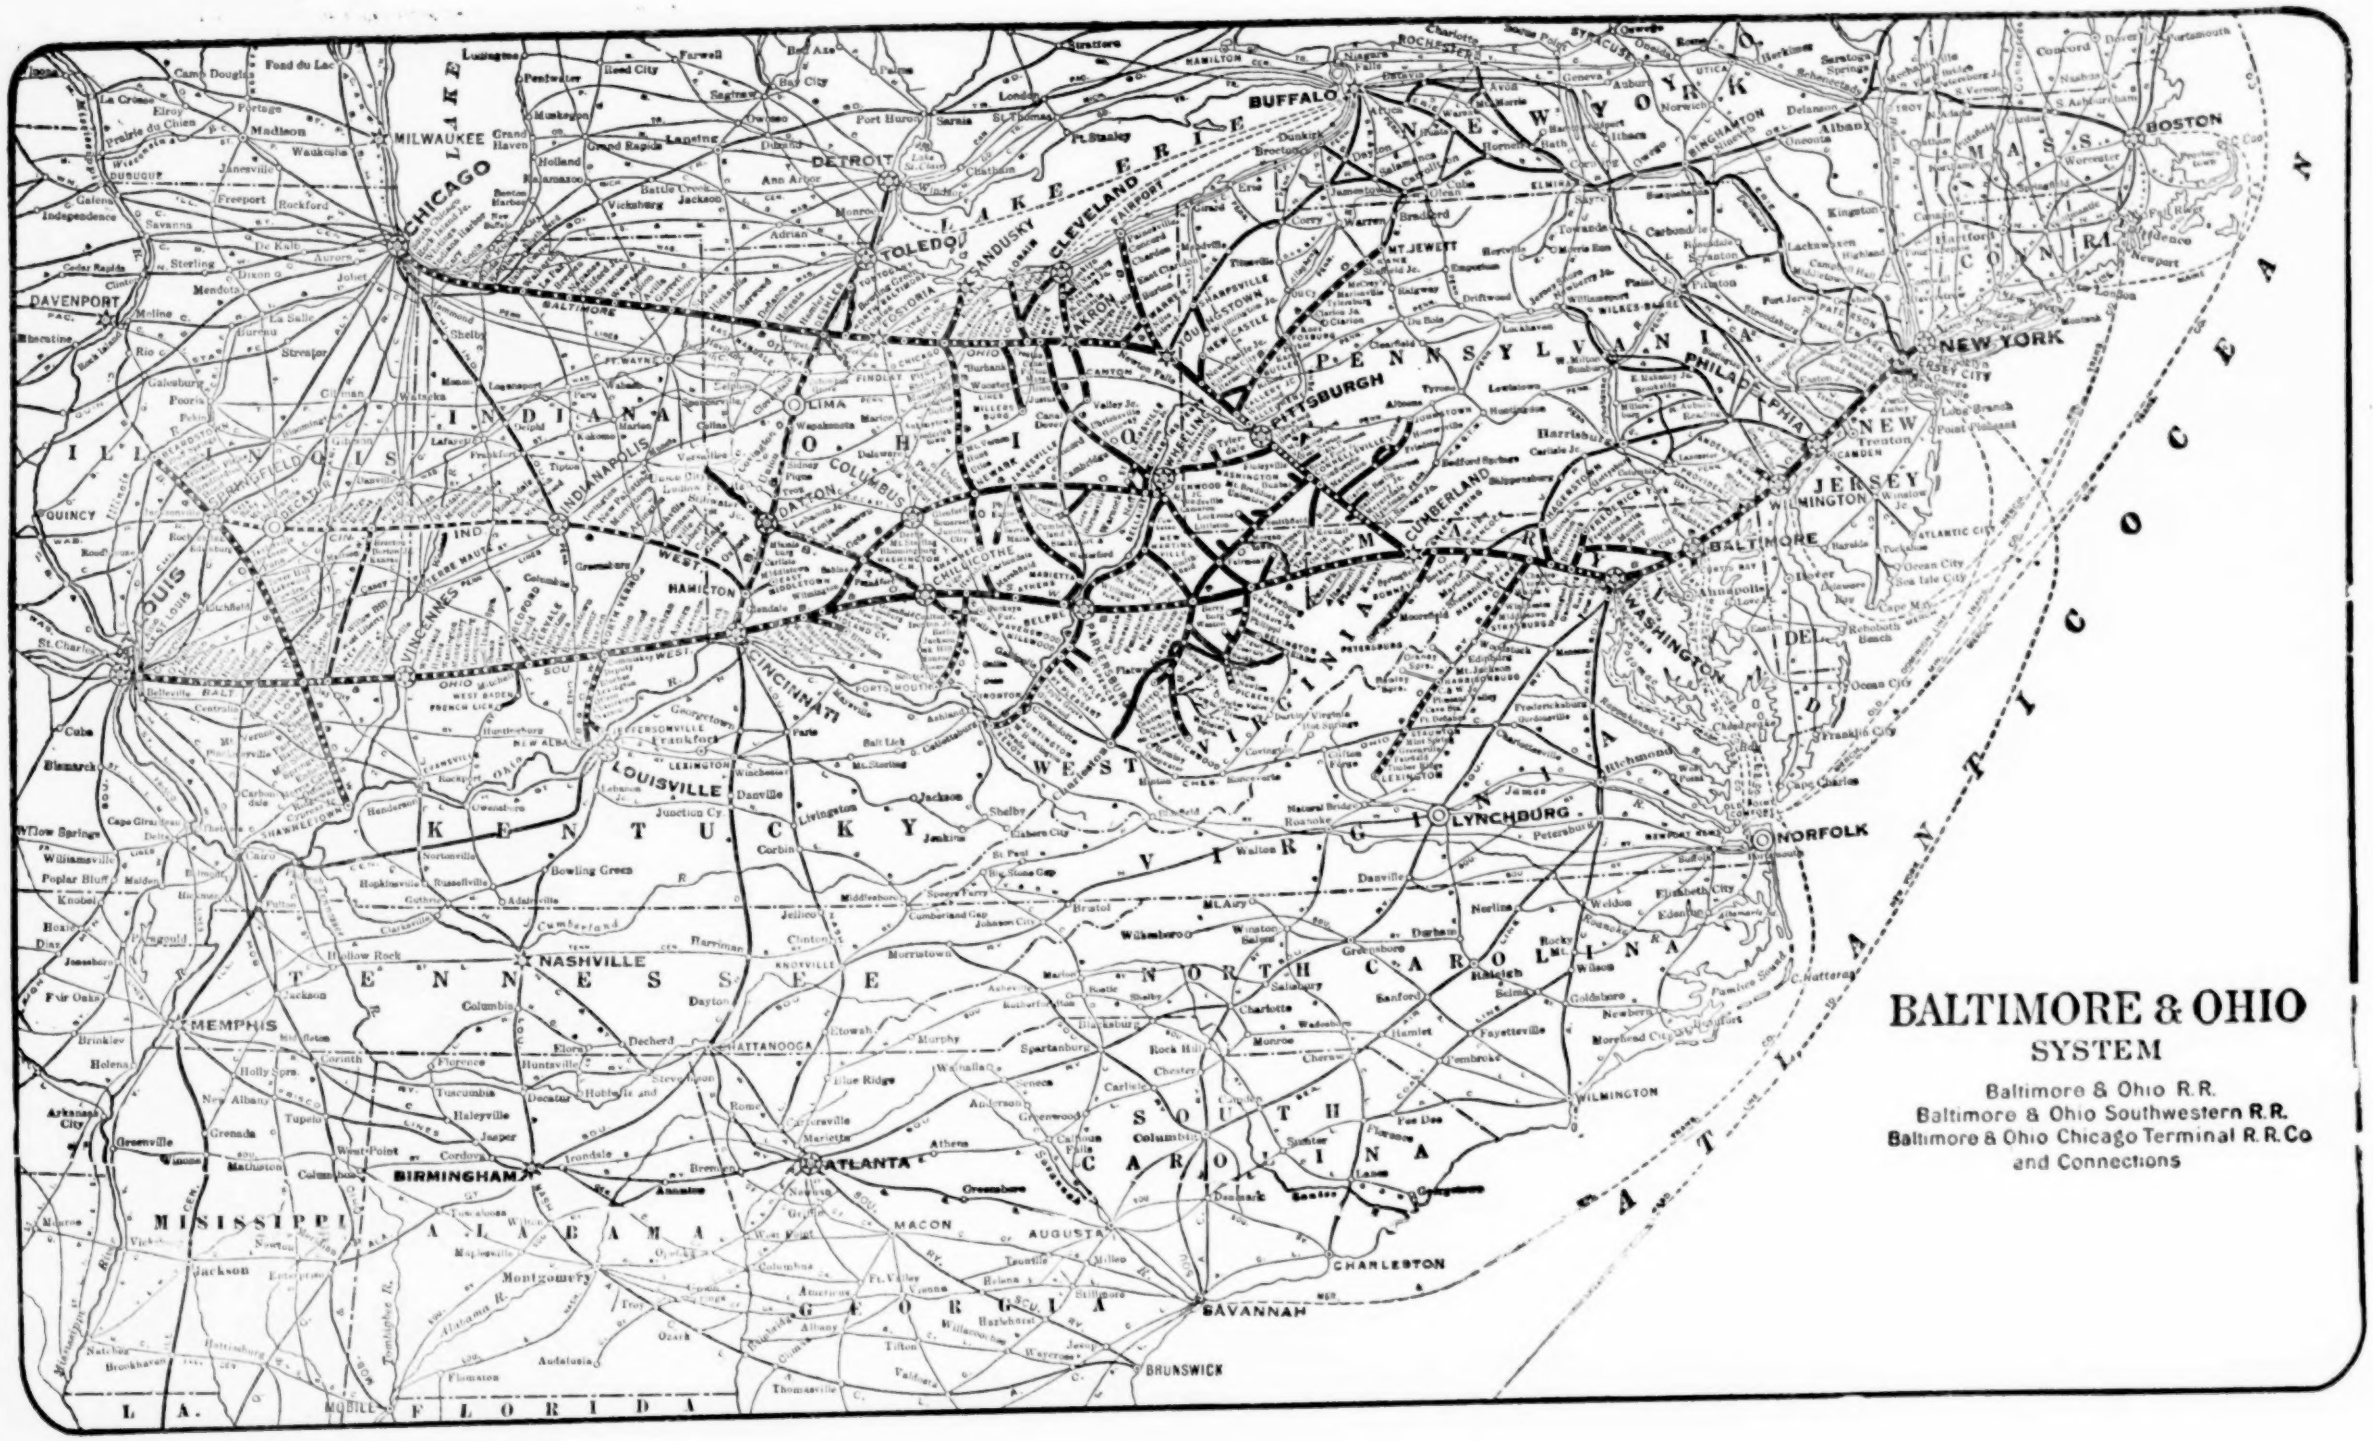
HISTORY.—Receivers were appointed in Feb. 1896, but in 1899 reorganized without foreclosure, per plan in V. 66, p. 1235. See also V. 67, p. 688, 1206, 1356; V. 95, p. 681, 1121, 1744; V. 96, p. 134; V. 97, p. 363.

The purchase of the Cin. Ham. & Dayton (now Toledo & Cinc. RR.) on July 19 1917 added 391 miles to road operated (see "Bonds" below; also V. 103, p. 1991; V. 107, p. 1283.) On Feb. 1 1917 also acquired entire capital stock of Coal & Coke Ry. Purchased the Morgantown & Kingwood RR. in Feb. 1920.—V. 110, p. 969.

READING CO., &c.—In 1901 $68,565,000 (virtual control) of the $140,000,000 Reading Co. stock, consisting of $12,130,000 1st pref., $28,530,000 2d pref. and $27,905,000 com., was acquired jointly with the New York Central RR., each co. taking one-half, but in 1904 each sold $3,950,000 of the common. V. 76, p. 101; V. 80, p. 1856.

STOCK.—Pref. stock, see V. 71, p. 1166, 1143; V. 72, p. 1186.

Union Pacific RR. in '24 owned $3,594,035 common and $1,805,992 pref.



DIVS.—	1901-04.	1905.	1906.	1907-14.	1915-17.	1918-25.

Preferred.....(%)	4 yrly.	4	4	4 yrly.	4 yrly.	

The pref. dividend has been regularly paid to and including June 1925, but owing to delay in the signing of the contract for Government operation the common dividend due Sept. 1 1918 was not paid until Feb. 1 1919, when only 2% was distributed. On Mar. 1 1919 the common again received 2%, then none until Dec. 1 1923, when 1¼% quarterly was paid; same amount paid quarterly to June 1 1925.

BONDS.—(1) *Prior Lien* 3½%, a first lien on main line and branches Parkersburg branch and Pittsburgh division, about 1,091 miles of first track and 1,785 miles of second, third and fourth tracks and sidings, and also all the equipment now or hereafter acquired. Total auth., $75,000,000. See application to list, V. 69, p. 30; V. 78, p. 1906; V. 86, p. 1528; V. 86, p. 36.

(2) *First M. 4% Bonds, due July 1 1948*; a first lien on the Philadelphia, Chicago and Akron divisions and branches and the Fairmont Morgantown & Pittsburgh RR., covering about 594 miles of first track and about 900 miles of second, third and fourth tracks and sidings; also on the properties covered by the B. & O. Term. Mtge. of 1894, all owned by the B. & O. and Baltimore Belt RR. Also a lien, subject to prior mtge., upon main line, &c. V. 69, p. 30; V. 79, p. 211; V. 97, p. 297, 594; V. 102, p. 1435.

Total authorized amount of the First Mortgage is limited by the terms of the Ref. & Gen. Mtge. to $157,000,000, of which there are outstanding $81,995,100 of 4% bonds and $75,000,000 of 5% bonds (issued in Aug. 1924; V. 119, p. 809). The 5% bonds are not subject to redemption before Apr. 1 1945. All or any part of the 5% bonds may be repurchased by company on April 1 1945, or any int. date thereafter, on 3 months' notice and upon payment of a premium of ¼% for each three months from the date of repurchase to the date of maturity. The prior lien 3½% bonds due July 1 1925 were accepted at 100% and int. in payment for the 5% bonds.

(3) *Southwestern Division First Mortgage 5s.*

These bonds were issued under the Southwest Division 1st mtge. of Baltimore & Ohio RR., dated Jan. 1 1899, in extension of the 3½% bonds for a like amount maturing on July 1 1925 (which were accepted in payment for new bonds at 100 and interest) and the principal and interest at the rate of 3½% per annum are secured by the lien thereof. Because of the provisions of the refunding and general mortgage, the additional interest on these bonds will not be secured under the Southwestern Division first mortgage, but the company will agree in a supplemental indenture that in the event that it should hereafter place any new mortgage upon the property on which these bonds are a first lien, and on which the ref. & gen. mtge. bonds are also a lien, the additional 1½% int. which these bonds bear is to be secured thereon by a lien prior to any bonds issued under such new mtge.

These $45,000,000 bonds are secured through the deposit and pledge with the trustee of the mortgage of $45,000,000 first mtge. bonds and all the other funded indebtedness and all the stock of Baltimore & Ohio Southwestern RR., which owns the properties. The Baltimore & Ohio Southwestern Division bonds are thus in effect secured by a first lien on 910 miles of first main track, extending from the western approach of the bridge of Baltimore & Ohio RR. across the Ohio River at Belpre, Ohio, to and through the city of Cincinnati and through the States of Ohio, Indiana and Illinois to the City of East St. Louis, Ill., a distance of 528 miles, together with branches or divisions connecting with the main line, comprising an additional 154 miles, and 228 miles comprising the Springfield Division extending from Shawneetown, Ill., to Beardstown, Ill., together with all extensions, lands, buildings, appurtenances and other property, franchises, &c., all as described in the mortgage. This issue of bonds, constituting a closed mortgage, is thus outstanding at the rate of $49,450 per mile of first main track.

The bonds are not subject to redemption before July 1 1945. All or any part of the bonds may be redeemed on July 1 1945 or any interest date thereafter on not less then three months' previous notice, upon payment of their principal amount plus a premium of ½% for each 6 months from the date of redemption to the date of maturity. V. 120, p. 1743.

(4) *B. & O., Pittsb. Jct. & Mid. Div. 3½s.* Expected to be ultimately a first lien upon the railroads of the Central Ohio system and Pitts. Jct. RR. Co., 379 miles in all. Total $20,000,000

$2,618,500 is in hands of the public and $9,889,550 pledged under Pitts. Lake Erie & W. Va. 4s. Closed except to retire underlying bonds, see table.

(5) *Pittsburgh Lake Erie & West Virginia System* mtge. refunding 4% gold bonds (authorized amount $75,000,000) are a lien on 1,629 miles, forming a direct connection with Pittsburgh, Cleveland, Fairport, Lorain and Sandusky, subject to underlying bonds outstanding thereon (see table above). The unissued bonds are reserved to retire underlying bonds. V. 74, p. 266; V. 79, p. 2793; V. 80, p. 1423; V. 86, p. 479, 1528; V. 87, p. 36; V. 88, p. 451, 685; V. 105, p. 715.

(7) *Convertible 20-year 4½s* $63,250,000, dated March 1 1913, were convertible into common stock up to Feb. 28 1923 at $110 per share and redeemable beginning March 1 1923 at 102½. These 4½s are secured by the new blanket mortgage below described pari passu with the new bonds. See V. 96, p. 134, 200, 651, 715, 1088, 1421; V. 97, p. 727.

Schuylkill River East Side 4s. V. 77, p. 1745; V. 81, p. 727.

(8) *Refunding & General Mortgage of* 1915 *due Dec.* 1 1995 (V. 101, p. 1884). The initial $60,000,000 5% bonds of this issue was brought out in Dec. 1915. See below; also V. 101, p. 1884; V. 102, p. 975; V. 103, p. 1989. On Dec. 31 1924 $10,000,000 Series "A" and $25,500 000 Series "B" bonds were pledged as collateral for long-term debt and $3,3 3,000 Series "B" bonds were in treasury, insurance and sinking funds. In June 1924 $35,000,000 Series "C" bonds were sold. V. 118, p. 2703.

Security.—Secured on practically entire system, 4,985 miles of first track, 4,993 m. of 2d track and sidings, and equipment or interest therein, having in 1924 a net value of over $149,069,544. Also covers the passenger and freight terminals in Philadelphia, Baltimore, Pittsburgh and Chicago and the freight terminals on Staten Island, N. Y., in Cincinnati and Washington, as well as one-half stock interest in the Washington Term. Co. and one-half ownership of joint yards at Washington. A direct lien upon about 2,289 m. of first track, and a lien, through deposit of bonds, and in most cases all, and in no case less than 96% of stock, of the co. owning remaining mileage.

Reservation of Bonds.—The mortgage reserves bonds to retire about $282,000,000 prior liens on various parts of the system and the $63,250,000 convertible gold bonds (these last being secured by the new mortgage pari passu with the bonds issued thereunder) and provides for the reservation of bonds for construction, improvements, new equipment and the acquisition, directly or indirectly, of properties and securities. The right is reserved to refund the Prior Lien 3½s into 1st M. 4s of 1898 due 1948, and to extend the due date of the S. W. Div. 3½s to date not later than July 1 1950.

The authorized issue is limited to an amount which, together with all the prior debts of the Railroad Co., after deducting therefrom the bonds reserved under the provisions of the mortgage to retire prior debts at maturity shall not exceed 3 times the then outstanding capital stock, with the additional limitation that when the aggregate amount of the bonds outstanding and the bonds reserved to retire prior debts shall be $600,000,000, no additional amount of bonds shall thereafter be issued, except the bonds so reserved to retire prior debt, without the further consent of the stockholders of the railroad company, and such additional bonds may be issued only to an amount not exceeding 80% of cost of work done or property acquired

(9) *Toledo-Cincinnati Div. Bonds.*—In July 1917, following foreclosure sales, 391 miles of the former Cincinnati Hamilton & Dayton Ry. System was reorganized per plan in V. 102, p. 1059; V. 105, p. 715, 908, as the Toledo & Cincinnati RR. Co., whose outstanding securities ($5,000,000 capital stock, $16,250,500 First & Ref. Mtge. bonds and $20,000,000 Adjustment & Improvement bonds) were then acquired by the B. & O. RR. The aforesaid 391 miles embrace: Main line Cincinnati to Toledo, 202 miles, including 142 miles leased from Dayton & Michigan RR. (a very profitable lease; see caption of that company); Tontogany to North Baltimore, 19 miles; Deshler to Findlay, 18 miles; Hamilton to East Middleton, 19 miles Piqua to Troy, 9 miles; Cincinnati to Dayton, 60 miles; Dayton to Ironton Jct., 125 miles; other, 5 miles.

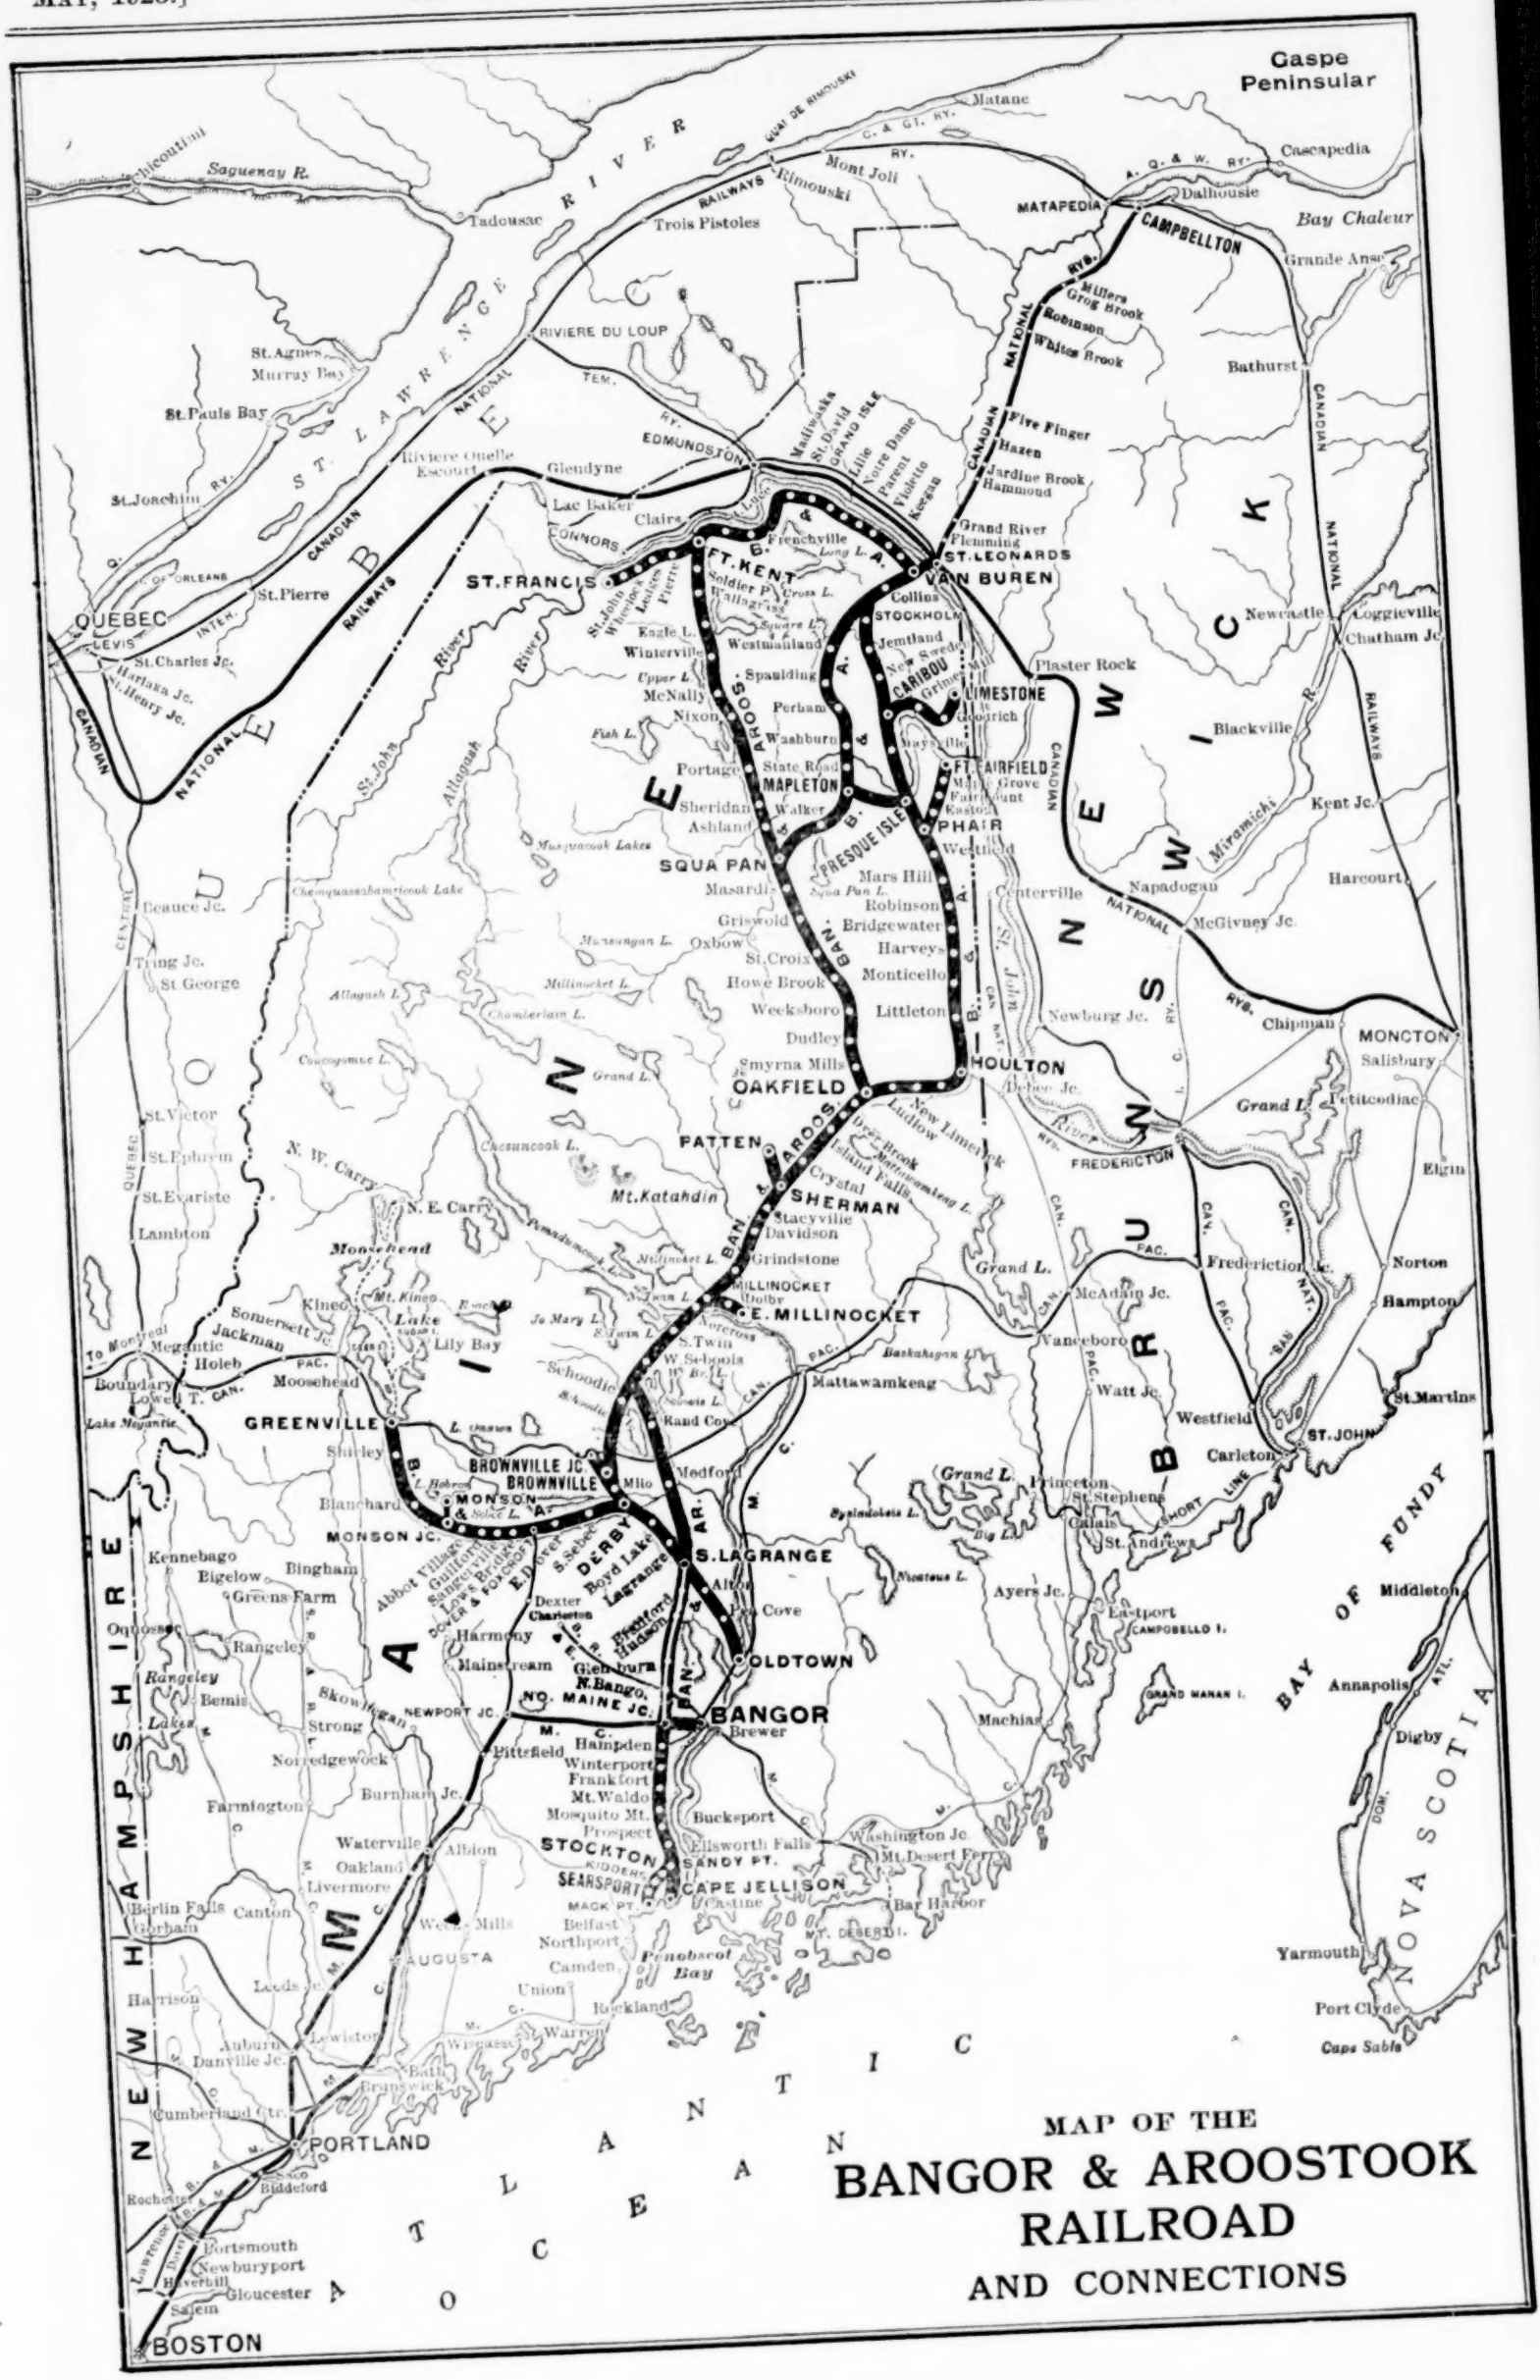
The B. & O. RR. having acquired all the securities issued by the Toledo & Cincinnati RR., made a deed of trust covering the same to secure not exceeding $35,000,000 collateral bonds, which are intended ultimately to be made as far as possible a direct lien on this division. Of these new B. & O. bonds, $11,250,500 of 4% and $5,000,000 of 5% were issued forthwith under the plan. In addition, $2,447,000 Series "C" bonds have been issued for capital expenditures. The remainder were reserved to retire at maturity or earlier the bonds undisturbed by the plan as shown in table above, or for acquisition of underlying stocks, branch lines, branch line bonds, aid for refunding additions and betterments, or to acquire First & Ref. Mtge. bonds of new company issued therefor. V. 105, p. 2364.

(10) The $35,000,000 6% *Secured Bonds* dated July 1 1919 have as security: $6,055,000 Reading Co. First Pref. stock, $14,265,000 Reading Co. Second Pref. stock; $10,002,500 Reading Co. Common stock; $16,250,000 B. & O. Ref. & Gen. Mtge. 6% bonds, Series "B," and $2,000,000 Series "A," due Dec. 1 1995. The trust indenture provides that the aggregate value of the collateral deposited shall always be maintained at least equal to 125% of bonds outstanding. V. 108, p. 2628; V. 109, p. 71

The trust indenture provides that the company in each year, beginning July 1 1919, after providing for its fixed charges, will set aside out of net income accruing after that date, not less than $3,500,000 p. ann. until a total of $17,500,000 has been set aside, such sums to be used, from time to time, solely for capital expenditures theretofore made, to pay loans incurred or maturing funded obligations. Moneys set aside in any year in excess of $3,500,000 may be credited against moneys required to be set aside in subsequent years. Balance of total set aside in 1923. V. 108, p. 2628.

Promissory Note.—The company has issued a promissory note for $9,000,000 dated March 1 1920, payable to the Director-General of Railroads ten years after date with interest at 6% p. a., payable semi-annually. The following collateral has been pledged as security: $9,250,000 Ref. & Gen. Mtge. Series "B" 6% bonds, $3,000,000 Ref. & Gen. Mtge. Series "A" 5% bonds. V. 112, p. 468.

EQUIPMENT BONDS.—Equipment trusts of 1917, V. 104, p. 1386. Equip. trusts of 1922, V. 115, p. 434. Equip. trusts of 1923, V. 116, p. 175. Equipment trusts, Series A, V. 117, p. 2431. Equip. trusts of 1924, V. 119, p. 1623. Equipment trusts, Series B, V. 120, p. 2265.



Equipment trusts issued to Director-General for rolling stock allocated to this company. See article on page 3 and V. 114, p. 737; V. 118, p. 549.

DIRECTORS.—R. Brent Keyser, Robert Garrett, John J. Cornwell and George M. Shriver, Baltimore; F. H. Rawson, Chicago; Paul M. Warburg, Charles A. Peabody, John R. Morron, John F. Stevens, Henry Ruhlender, New York; Joseph E. Widener, Philadelphia; Newton D. Baker, Cleveland. Offices, Baltimore, Md. and 2 Wall St., New York. —(V. 120, p. 2265.)

BALTIMORE & OHIO CHICAGO TERMINAL RR.—Property consists of passenger and freight terminals in city of Chicago, lines of railway leading thereto and a belt line around the city; also 760 acres of land in and adjacent to the city, of which 50 acres are in the centre of the business district; also includes 7,500 ft. of dock property on Chicago River. Total *track* operated, 300 miles, of which 250.56 is owned, 91.46 of the latter being first track. Total first track including trackage, 80.79 miles.

HISTORY.—Successor to Chicago Terminal Transfer RR., foreclosed in 1910. V. 90, p. 166, 108, 235, 625. Stock, $8,000,000, all owned by B. & O.

TENANTS.—Balt. & Ohio, Chicago Great Western, Chicago Hammond & Western Ry. (Indiana Harbor Belt), Suburban RR. (Chic. Milw. & St. Paul RR.), (Chicago & West Towns), Pere Marquette, Wabash Ry. and Minneapolis St. Paul & Sault Ste. Marie. V. 77, p. 948, 2158; V. 79, p. 901; V. 96, p. 486. Total minimum rentals from tenants: Joint facility rent income, $1,281,313; income from lease of road, $502,223; total, $1,783,535. V. 79, p. 2084.

BONDS.—Of the 1st M. bonds of 1910, the $32,000,000 outstanding are owned by B. & O. RR. and pledged under its mtge. V. 90, p. 1295.

EARNINGS.—For 1924, railway oper. rev., $3,542,926; railway oper. inc., $473,626; other income, $821,729; interest, rentals, &c., $1,340,315.

For latest earnings, see "Railway Earnings Section" (issued monthly).

BANGOR AND AROOSTOOK RR. CO.—(*See Map.*)—Stockton Harbor, Me., to Van Buren, with branches; Dec. 31 1924, 616.02 miles second track, 30.29 miles; spurs, 34.11 miles; yard tracks and sidings 191.15 miles; owned but not operated, 8.85 miles.

The I.-S. C. Commission has placed a final valuation of $21,030,000 on the owned and used properties and $3,850,084 on the used but not owned properties of the company, as of June 30 1916.

ORGANIZATION.—Incorporated under laws of Maine Feb. 13 1891 and under its charter it constructed its railroad from Brownville to Caribou with branches to Fort Fairfield and Ashland (1891 to 1895), with extension Caribou to Van Buren (1899). During the same period it acquired the Bangor & Piscataquis RR., Old Town to Greenville, and Bangor & Katahdin Iron Works Ry., Milo (Derby) to Katahdin Iron Works. It also acquired by purchase the Patten & Sherman RR., Patten to Sherman, and Aroostook Northern RR., Caribou to Limestone, both of which railroads had been organized and constructed independently of this company.

It has since constructed as extension or by separate organization with later acquisition: Fish River RR., Ashland to Fort Kent (1902); Northern Maine Seaport RR., South Lagrange to Searsport (1904); Schoodic Stream RR., to the paper mills at East Millinocket (1906); Medford Extension, South Lagrange to Packard via Medford (1907); St. John River Extension, Van Buren to St. Francis (1909-1910); Washburn Extension, Squa Pan to Stockholm, via Washburn with branch, Mapleton to Presque Isle (1909-1910), and extension to Van Buren Bridge (1915).

Owns all of the capital stock of Van Buren Bridge Co. which connects its system with Canadian National Railways by international bridge between Van Buren, Me., and St. Leonard, Province of New Brunswick, Canada.

It also owns all the capital stock (except seven directors' qualifying shares) of the Northern Telegraph Co.

Government loan, V. 111, p. 293; V. 112, p. 256. Tentative valuation, V. 113, p. 729, 1573.

DIVIDEND.—	1906.	'07-'12.	'13.	'14.	'15.	'16.	'17.	'18-'22.	'23.	'24.

Paid on com. in 1925: Jan., 1¼%; April, 1¼%.

BONDS, &c.—Piscataquis Div. 5s, see V. 67, p. 1159; V. 68, p. 84, 329

Of the Consol. Ref. 4s, $12,500,000 were reserved to pay off outstanding bonds, including those of controlled roads, car trusts and pref. stock, and to acquire such controlled roads; $3,000,000 for improvements over a series of years and $4,500,000 for extensions at $25,000 per mile, including equipment. V. 73, p. 286, 896; V. 74, p. 93. All the 2d M. bonds were retired in 1918, leaving the 4s a second lien on main line and a first lien on several branches. V. 108, p. 2235. The Northern Maine Seaport bonds ($5,000,000 auth.). V. 81, p. 265; V. 82, p. 392; V. 84, p. 391, 692; form of guar., V. 81, p. 727. Van Buren Bridge Co. bonds are callable at 110 and int. V. 100, p. 311; V. 109, p. 1460.

The St. John River Extension 1st 5s of 1909 ($1,800,000 auth. issue), guaranteed, prin. & int., were issued at $30,000 per mile. V. 93, p. 939.

STOCK.—The stockholders on Nov. 14 1924 approved a change in the par value of the common stock from $100 to $50, each stockholder receiving two shares of $50 par value stock for each share of $100 par value, thus increasing the number of shares from 38,600 to 77,200. Each share of $50 par value will be entitled to one-half vote. V. 119, p. 2405, 2642.

Equipment trusts Series "H," V. 116, p. 175; Series "I," V. 117, p. 2768. Series "G," prior lien equipment trusts are due $8,000 annually for 5 years and $10,000 annually for 10 years. There have also been issued $144,000 Series "G" deferred lien equipment trusts all pledged as collateral for notes of like amount.

REPORT.—For 1924, in V. 120, p. 1741, showed:

	1924.	1923.	1922.	1921.

Pitts. Bess. & L. E. RR. Co., and in turn subleases to the Union RR., reserving trackage rights for passenger trains, 8.04 miles from North Bessemer to East Pittsburgh, Pa., 8.04 miles of second track, and 85.80 miles of yard tracks and sidings; gauge 4 ft. 8½ in.; rail, 130 lbs.

The I.-S. C. Commission has placed a tentative valuation of $36,501,288 on the property of the company as of June 30 1916.

Stock auth., $500,000. Dividends paid: In 1904, 100%; 1905, 50%; 1906, 40%; 1909, 200%; 1910, 150%; 1911, 150%; 1912, 200%; 1913, 200%; 1914, 275%; 1915 and 1916, 150%; 1917, 100%; 1918, 190%; 1919, 150%; 1920, 200%; 1921, 150%; 1922, 200%; 1923, 200%. Controlled by U. S. Steel Corp. Guaranty on Marquette & Bessemer Dock & Navigation bonds, V. 77, p. 1228; V. 76, p. 1358; V. 82, p. 160.

For the year ending Dec. 31 1923: Gross, $20,367,251; net oper. income, $5,457,143; other income, $1,867,675; interest, rentals, &c., $1,625,514; dividends, $1,000,000; bal., sur., $4,699,304. For latest earnings see "Railway Earnings Section" (issued monthly). President, J. H. Reed. —(V. 119, p. 454.)

BIRMINGHAM & NORTHWESTERN RY.—Jackson, Tenn., northwesterly to Dyersburg, 49 miles. The I.-S. C. Commission in Mar. 1922 authorized the company to issue $400,000 1st Mtge. 6% bonds, due Mar. 1 1927, for the purpose of refunding or retiring an equal amount of 1st Mtge. bonds maturing Mar. 1 1922. The new bonds are dated Mar. 1 1922 and mature Mar. 1 1927. V. 114, p. 1061.

The I.-S. C. Commission has placed a final valuation of $722,847 on the owned and used property of the company as of June 30, 1917.

Pres., I. B. Tigrett; Vice-Pres., C. W. McNear; Sec., R. F. Spragins; Treas., J. E. Edenton. Office, Jackson, Tenn.—(V. 120, p. 1086.)

BIRMINGHAM & SOUTHEASTERN RR.—The I.-S. C. Commission on Dec. 23, 1924 issued a certificate authorizing the Birmingham & Southeastern RR. to acquire and operate the line of railroad of the *railway* company extending from Union Springs to Eclectic, a distance of 46.89 miles, all in the State of Alabama. The Commission on Dec. 20 authorized the company to issue $300,000 capital stock in connection with the acquisition. (For plan of readjustment of Birmingham & Southeastern Ry. see V. 120, p. 265, 698, 826.)

BIRMINGHAM TERMINAL.—Owns passenger terminals at Birmingham, Ala. Stock all owned by the Illinois Central, Southern Ry., Seaboard Air Line, Central of Georgia, St. Louis & San Francisco and Alabama Great Southern, which lease the property and pay all expenses, charges and 4% dividends on the stock and jointly guarantee the bonds. Of the bonds ($3,000,000 authorized), $1,060,000 are reserved for additional properties. V. 83, p. 1227; V. 85, p. 404. Guaranty, V. 90, p. 848.—(V. 90, p. 848.)

BLOOMSBURG & SULLIVAN RR.—Owns Bloomsburg to Jamison City, Pa., 29 miles. Stock is $600,000; par, $50. V. 66, p. 80, 952. —(V. 66, p. 952.)

BOONVILLE ST. LOUIS & SOUTHERN RY.—Boonville to Versailles, Mo., 44 miles. Stock auth., $1,000,000; outstanding, $250,000 owned by Missouri Pacific RR. Co.); par, $125.

Lease.—**Operated by Mo. Pac. RR. Co. under new lease, dated Aug. 1 1917, and running until Aug. 1 1955. Consideration, payment of maintenance expenses, taxes and an annual rental of $12,500, being the interest on the new outstanding bonds plus $30 annually to corporate trustee.**

Under financial readjustment in Feb. 1918 the holders of the $500,000 1st mtge. bonds of 1911 (coupon of Feb. 1916 unpaid) were offered in exchange pro rata $250,000 new First Mtge. 5% gold bonds of Boonville Co. under new mtge., dated Aug. 1 1917, payable Aug. 1 1951; and also $250,000 pref. stock v. t. c. of Missouri Pacific RR. Co., together with a cash adjustment of $50,000, equal to the defaulted interest. Trustees, the Spitzer Rorick Trust & Sav. Bank, Toledo, Ohio, and Lewis C. Nelson. Pres., L. W. Baldwin; Treas., F. M. Hickman; Sec., F. W. Irland, St. Louis, Mo.—(V. 95, p. 968.)

BOSTON & ALBANY RR.—Owns Boston, Mass., to Albany, N. Y., 200 miles; branches, 104 m.; leased lines, 90 m.; total, 394 miles.

Leased in 1900 for 99 years to the New York Central & Hudson River RR. for guaranteed rental of 8% per annum on the $25,000,000 stock, payable quarterly (Mar. 31, &c.), organization expenses, interest on bonds, taxes, expenses of maintenance, &c. The B. & A. received for certain property not included in the lease $5,500,000 in N. Y. Central 3½% 100-year debentures, thus adding .77% per annum to 8% guaranteed on stock. See lease in V. 69, p. 282, 1031, 1102, 1246; V. 70, p. 74; V. 71, p. 645, 963; V. 107, p. 1918. Lease assumed by N. Y. Central RR. Dec. 23 1914.

BONDS.—The $13,500,000 25-year 4% impt. bonds are guar. prin. and int. by New York Central & Hudson River RR. No mortgages can be placed on the property without jointly including the bonds in the lien. V. 86, p. 1099; V. 89, p. 102; V. 91, p. 396. V. 94, p. 277, 1055, 1316, 1625. The 4% bonds mature $7,000,000 in 1933, $4,500,000 in 1934 and $2,000,000 in 1935. V. 96, p. 553, 651, 946, 1365, 1489, 1838; V. 97, p. 1838.

In June 1916 all bonds issued since the lease to the N. Y. C. & H. R. RR. Co. had been guaranteed (prin. & int.) by the lessee. In Aug. 1917 sold $1,000,000 guar. 25-year 5s for additions, &c. V. 105, p. 715.

DIVIDENDS.—Since 1900, 8¾%, viz., 2% each in March and Sept., 2½% in June and 2½% in Dec.

Calendar Year—	Operating Revenues.	Oper. Inc. (after Taxes.)	Other Income.	Interest, Rentals, &c.	Balance, Sur. or Def

a **Includes trackage rights, 21.29 miles. *b* Incl. trackage rights, .99 mile.**

On Aug. 29 1916 the Boston & Maine RR. was placed in temporary receivership on account of inability to pay its maturing obligation of nearly $20,000,000. Pres. James H. Hustis was appointed temporary receiver and continued in this position until reorganization and consolidation of the system on Dec. 1 1919. The reorganization plan (V. 107, p. 1918, 2375, 2475), which became effective Dec. 1 1919, provided for the consolidation of the Boston & Maine RR. with its seven directly leased lines and the assumption by the consolidated company of all sub-leases and other obligations.

The final valuation of the Boston & Maine RR. as of June 30 1914 was found by the I.-S. C. Commission to be $234,189,816 for all properties owned or used. The value of properties owned and used was found to be $101,712,971, and of properties used but not owned, $132,476,845.

The Commission found that the investment in road and equipment, including land, was $90,653,840 on the valuation date. The cost of reproduction new of total properties used was found to be $223,317,897, and the cost, less depreciation, $170,629,869.

Plan of Reorganization Dated March 31 1925.

The General Readjustment Committee of stockholders and bondholders which was appointed Dec. 24 1924, has completed its plan for the financial reorganization of the road. The plan embodies some important features from the plan suggested by Homer Loring, Chairman of the Executive Committee (V. 119, p. 3005). The plan was approved by the General Readjustment Committee March 24 1925, the board of directors March 26 1925 and the committee bankers March 31 1925.

Extension of Bonds.

(*a*) The following outstanding obligations of the railroad are not secured by the present general mortgage and will not be affected by the reorganization, namely:

(1) Underlying divisional mortgage bonds secured by direct mortgage on the property of subsidiary companies which have been absorbed, falling due 1930 to 1937, inclusive, $2,265,000.

(2) Equipment trust notes, falling due annually to 1938, $8,089,000.

(3) Bonds of leased roads which are not direct obligations of the B. & M. RR., falling due 1941 to 1944, $2,750,000.

(*b*) The bonds which are secured by the general mortgage are as follows:

Bonds Maturing 1925 to 1932, Inclusive—		
Owned by the public	$42,787,000	
Owned by the United States	37,791,479	
		$80,578,479
Bonds Maturing in 1933 and Subsequent Years—		
Owned by the public	$30,386,000	
Owned by the United States	10,894,000	
		$41,280,000
Grand total of bonds secured by mortgage		$121,858,479

(*c*) The bonds held by the public maturing from 1925 to 1932, inclusive, amounting as shown by the above table to $42,787,000, are to be severally extended in time for a period of 15 years from their respective maturities, are to bear interest as at present until their present due dates and thereafter during the extended period at 5% per annum, and are to be callable in whole or in part at the price of 102 and int. on any int. day after Jan. 1 1930 and not before their present maturities.

In return for this extension the holders of these bonds will be given the right to convert them at par into 7% prior preference stock at any time on or after Jan. 1 1930, and before Jan. 1 1940, or if any of said bonds are called for redemption between said dates, then before the date fixed for redemption which shall be not less than 60 days after the date of the call, subject to the limitation, however, that if in any calendar year from 1930 to 1933, inclusive, $7,500,000 of said bonds shall have been so converted, then no further bonds shall be so converted during the same calendar year except such as have been or shall be thereafter called for redemption during that year, and subject to the further limitation that the conversion privilege shall terminate as provided (below) if the prior preference stock as a whole shall be called for redemption.

On all bonds to be extended as herein provided, which are now overdue or which shall hereafter fall due before this plan becomes effective, interest will be paid at the rate of 5% per annum from the respective maturities of said bonds until the date at which this plan shall take effect, except that on the bonds which became due Feb. 2 1925 the interest from that date until April 1 1925, as heretofore agreed with the holders of the bonds, shall be 6% per annum.

(*d*) The bonds held by the United States, amounting to $48,685,479, are all 6% bonds. They are due $29,298,500 on Jan. 1 1929; $5,443,979 on Nov. 1 1930; $3,049,000 on Oct. 1 1931; $5,894,000 on Jan. 1 1934, and
